FOR IMMEDIATE RELEASE:

ESTEE LAUDER COMPANIES EXPECTS STRONG FOURTH QUARTER SALES

New York, NY, July 2, 2002 - The Estee Lauder Companies Inc. (NYSE: EL) today said net sales before restructuring charges for the fiscal fourth quarter ended June 30, 2002 are expected to grow approximately 7% in constant currency versus the prior-year period. For the fiscal 2002 full year, the Company expects 3% sales growth on a constant currency basis versus the prior-year. The effect of exchange rates could have a minimal impact for the fourth quarter and reduce reported sales growth for the fiscal year by approximately one percentage point.

To gain market share through accelerated sales momentum, in the fiscal 2002 fourth quarter the Company increased its spending levels in advertising and promotion. The strong top-line sales growth in the fourth quarter indicates the market is responding positively. Based on the above, the Company expects that diluted earnings per share for the fourth quarter will be approximately \$.18 and the full fiscal year approximately \$1.10. The fourth quarter estimate is before restructuring charges while the full year is also before the cumulative effect of a change in accounting principle.

Net sales for the full fiscal year in constant currency are expected to be led by high single-digit percentage growth in Asia/Pacific. Europe, the Middle East & Africa is expected to report a mid-single-digit sales increase. The travel retail business, which is reported in this region, continues to be affected by lower worldwide travel, while other businesses in the region are performing well. Excluding the travel retail business, Europe, the Middle East & Africa is expecting high single-digit sales growth in constant currency. The Americas region is expected to show a slight increase in sales for the year, while fourth quarter sales in this region are expected to grow high single-digits in response

to the Company's additional advertising and promotional spending.

On a product category basis, in constant currency, the Company expects for the fiscal year its strongest sales growth from hair care, off of a smaller base, followed by a mid-single-digit increase in makeup and low single-digit growth in skin care. Fragrance sales are expected to post a mid-single-digit sales decline.

### Change in Accounting Principle and Restructuring Charges

-----

In fiscal 2002, the Company adopted Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets." In compliance with the new rule, the Company recorded a one-time charge of \$20.6 million, or \$.09 per diluted share, to reflect the cumulative effect of the change in accounting principle.

In connection with the Company's previously announced restructuring, in the fiscal 2002 fourth quarter, the Company will take a special charge for restructuring and repositioning certain businesses. The pre-tax charge will be approximately \$117 million, or \$77 million after-tax, equal to \$.32 per diluted share.

- (ii) the Company's ability to develop, produce and market new products on which future operating results may depend;
- (iii) consolidations and restructurings in the retail industry causing a decrease in the number of stores that sell the Company's products, an increase in the ownership concentration within the retail industry, ownership of retailers by the Company's competitors and ownership of competitors by the Company's customers that are retailers;
- (iv) shifts in the preferences of consumers as to where and how they shop for the types of products and services the Company sells;
- (v) social, political and economic risks to the Company's foreign or domestic manufacturing, distribution and retail operations, including changes in foreign investment and trade policies and regulations of the host countries and of the United States;

- (vii) foreign currency fluctuations affecting the Company's results of operations and the value of its foreign assets, the relative prices at which the Company and its foreign competitors sell products in the same markets and the Company's operating and manufacturing costs outside of the United States;
- (viii) changes in global or local economic conditions that could affect consumer purchasing, the financial strength of our customers and the cost and availability of capital which the Company may need for new equipment, facilities or acquisitions;
- (ix) shipment delays, depletion of inventory and increased production costs resulting from disruptions of operations at any of the
