(e) On March 10, 2011, the Board of Directors (the Board) of Alamo Group Inc. (the Company), upon the recommendation of the Compensation Committee of the Board (the Committee), amended and restated the Alamo Group Incentive Compensation Plan (the Plan). The Plan is a cash incentive plan which allows the Committee to reward the Company's named executive officers (the NEOs) and key managers based upon three factors: (1) the overall performance of the Company, (2) the performance of the segment of the Company or division and/or business unit in which the employee is expected to contribute and (3) the individual performance of the employee. The Plan was amended and restated to, among other things, change the range of the objective component of the target ICP Payment (as defined below) from 0% to 150% to 0% to 200%. The goal of the Plan is to tie the NEOs' and key managers' objective with those of the Company and the shareholders.

The Plan consists of two components: an objective component that accounts for 75% of each participant's potential incentive payment (ICP Payment); and a subjective component, payable at the sole discretion of the Committee based upon such factors that the Committee deems relevant to each participant, that accounts for 25% of the potential ICP Payment. At the beginning of each plan year, a target ICP Payment will be set for each participant expressed as a percent of base salary, subject to the approval of the Committee. The objective component can range from 0% to 200% of the target ICP Payment and the subjective component can range from 0% to 150% of the target ICP Payment.

The Company, in its sole discretion, may modify or terminate the Plan and/or discontinue payments under the Plan at any time prior to payments being made and make adjustments in ICP Payments if it is later determined, for any reason, that a lesser incentive payment should have been paid to a participant.

The above description of the Plan is qualified in its entirety by reference to the Plan, which is filed herewith as Exhibit 10.1 and is incorporated herein by reference.
