PERFORMANCE TECHNOLOGIES, INCORPORATED AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

Note A Basis of Presentation

The unaudited Consolidated Financial Statements of Performance Technologies, Incorporated and Subsidiaries (the "Company") have been prepared in accordance with generally accepted accounting principles in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission. Accordingly, the Consolidated Financial Statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. The results for the interim periods are not necessarily indicative of the results to be expected for the year. The accompanying Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements of the Company as of December 31, 2007, as reported in its Annual Report on Form 10-K filed with the Securities and Exchange Commission.

Note B Stock-Based Compensation

The Company has stock options outstanding from two stock-based employee compensation plans: the 2001 Incentive Stock Option Plan and the 2003 Omnibus Incentive Plan. The Company recognizes compensation expense in the financial statements for stock option awards based on the grant date fair value of those awards, estimated using the Black-Scholes-Merton option pricing model. The table below summarizes the impact of outstanding stock options on the results of operations for the three and nine month periods ended September 30, 2008 and 2007, respectively, under the provisions of Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payment:

	Three Months Ended September 30,		Nine Months Ended September 30,				
		2008	2007		2008		2007

Diluted	\$	0.01	\$ 0.01	\$	0.03	\$	0.03

Note C Earnings Per Share

Basic earnings per share is computed by dividing net income or loss by the weighted average number of common shares outstanding for the period. Diluted earnings per share calculations reflect the assumed exercise and conversion of dilutive stock options, using the treasury stock method. The diluted earnings per share calculation excludes the effect of approximately 1,596,000 and 1,396,000 options for the three and nine months ended September 30, 2008, and 1,508,000 and 1,385,000 options for the three and nine months ended September 30, 2007, since such options had an exercise price in excess of the average market price of the Company s common stock for the quarter.
