## NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization - The Company was incorporated on July 30, 1985 under the laws of the State of Utah under the name Leibra, Inc. On October 1, 1986, the stockholders approved a merger with Leitech, Inc., a newly formed Nevada corporation, to change its domicile to the State of Nevada. The Company was engaged in the creation and development of new businesses involved in high technology and biotechnology research. In June 1989 the Company abandoned all operations. During 1993 the Company changed its name from Genexus International, Inc. to Clearwater Holding, Inc., and acquired Clearwater Trucking, Inc. Subsequently, the Clearwater Trucking acquisition was rescinded. During 1998 the Company changed its name to Cinco, Inc. and sold shares in order to raise working capital. The Company, however, remained dormant until December 20, 2005 when it was determined by management that the Company should prepare to become a public shell and re-entered the development stage. On April 18, 2006 the Company changed its name to Alynx, Inc. On May 3, 2006 the Company amended the Articles of Incorporation to increase the authorized common shares from 50,000,000 to 100,000,000. The Company plans to acquire, or merge with a targeted operating business that is seeking public company status.

The Company, at the present time, has not commenced operations and is defined by the SEC as a shell company. A shell company, (other than an asset-backed issuer), is a company with no or nominal operations and either 1) no or nominal assets, or 2) assets consisting solely of cash and cash equivalents, or 3) assets consisting of any amount of cash and cash equivalents and nominal other assets.

The Company has not generated substantive revenues from its planned principal operations and is considered a development stage company as defined in Statement of Financial Accounting Standards No. 7. The Company has, at the present time, not paid any dividends and any dividends that may be paid in the future will depend upon the financial requirements of the Company and other relevant factors.

Development Stage - The Company has not generated any revenues from operations and is considered to have re-entered development stage on December 20, 2005. The Company has, at the present time, not paid any dividends and any dividends that may be paid in the future will depend upon the financial requirements of the Company and other relevant factors.

Condensed Financial Statements - The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position at June 30, 2007, the results of operations and cash flows at June 30, 2007 and 2006 and for the periods then ended have been made. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2006 audited financial statements. The results of operations for the periods ended June 30, 2007 and 2006 are not necessarily indicative of the operating results for the full year.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 2 - CAPITAL STOCK

Preferred Stock - The Company has authorized 5,000,000 shares of preferred stock, \$.001 par value, with such rights, preferences and designations and to be issued in such series as determined by the Board of Directors. No shares are issued and outstanding at June 30, 2007.

Common Stock - The Company has authorized 100,000,000 shares of common stock with a \$.001 par value. The total common shares issued and outstanding is 22,863,680 at June 30, 2007 and 2006.

In April 2006, the Company issued 20,000,000 shares of its previously authorized but unissued common stock to the president of the Company for cash. Proceeds from the sale of stock totaled \$20,000 (or \$.001 per share).

Stock Split - On May 25, 2006 the Company effected a 10-for-1 forward stock split. The financial statements for all periods presented have been restated to reflect the stock split.

### NOTE 3 - CONVERTIBLE NOTES PAYABLE

In May, 2006, the Company issued four \$2,500 convertible notes payable. The notes accrue interest at 10% per annum, are due in September 2009, and are convertible, with accrued interest, into 500,000 shares of common stock each. Accrued interest on the notes at June 30, 2007 and 2006 was \$1,118 and \$90, respectively.

### NOTE 4 - GOING CONCERN

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company has incurred losses since inception and has not yet been successful at establishing profitable operations. These factors raise substantial doubt about the ability of the Company to continue as a going concern. In this regard, management is proposing to raise any necessary additional funds not provided by operations through loans or through additional sales of its common stock. There is no assurance that the Company will be successful in raising this additional capital or in achieving profitable operations. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

### NOTE 5 - RELATED PARTY TRANSACTIONS

Office Space - The Company has not had a need to rent office space. An officer/shareholder of the Company is allowing the Company to use his office as a mailing address, as needed, at no expense to the Company.

Management Compensation - During the six month period ended June 30, 2007

## Edgar Filing: Alynx, Co. - Form 10QSB

and 2006 the Company paid \$6,000 and \$2,000 in management compensation.

#### Liquidity and Capital Resources

At June 30, 2007 we had \$14,676 in cash and have had no revenues since re-entering the Development Stage on December 20, 2005. We estimate that general and administrative expenses for the next twelve months will be approximately \$12,000. At June 30, 2007 we also had total liabilities of \$36,548. As a result, we will need to generate up to \$40,000 to pay our debts and meet our ongoing financial needs.

## Edgar Filing: Alynx, Co. - Form 10QSB

Since inception we have primarily financed our operations through the sale of common stock. In order to raise the necessary capital to maintain our reporting company status, we may sell additional stock, arrange debt financing or seek advances from our officers or shareholders. We do not have any commitments for financing.

### Plan of Operations

The Company had no operations or revenue during the last two fiscal years. Due to this, the Company realized a net loss. The Company does not expect to generate any meaningful revenue or incur operating expenses, except for administrative, legal, professional, accounting and auditing costs associated with the filing requirements of a public reporting company, unless and until it acquires an interest in an operating company.

9

The Company does not have sufficient cash to meet its operational needs for the next twelve months. Management's plan of operation for the next twelve months is to attempt to raise additional capital through loans from related parties, debt financing, equity financing or a combination of financing options. Currently, there are no understandings, commitments or agreements for such an infusion of capital and no assurances to that effect. Unless the Company can obtain additional financing, its ability to continue as a going concern during the next twelve-month period is doubtful. The Company's need for capital may change dramatically if and during that period, it acquires an interest in a business opportunity.

The Company's current operating plan is to (i) handle the administrative and reporting requirements of a public company, and (ii) search for potential businesses, products, technologies and companies for acquisition. At present, the Company has no understandings, commitments or agreements with respect to the acquisition of any business venture, and there can be no assurance that the Company will identify a business venture suitable for acquisition in the future. Further, there can be no assurance that the Company would be successful in consummating any acquisition on favorable terms or that it will be able to profitably manage any business venture it acquires.

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company has incurred losses since its inception, and has no on-going operations. These factors raise substantial doubt about the ability of the Company to continue as a going concern. In this regard, management is proposing to raise any necessary additional funds not provided by operations through loans and/or through additional sales of its common stock. There is no assurance that the Company will be successful in raising this additional capital or in achieving profitable operations. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

## Edgar Filing: Alynx, Co. - Form 10QSB

The independent auditors have expressed substantial doubt about our ability to continue as a going concern. Their report includes a going concern qualification because the financial statements do not include any adjustments that might result from the outcome of the uncertainties which arise from the net losses and accumulated deficit.
