PROXY STATEMENT

This proxy statement, which is first being mailed or made available to holders of registered shares on or about March 24, 2017, is furnished in connection with the solicitation of proxies on behalf of CB&I, which asks you to vote promptly, and if voting by mail, to complete, sign, date and mail the enclosed proxy for use at the Annual General Meeting of Shareholders to be held at the InterContinental Amstel Amsterdam, Professor Tulpplein 1, 1018 GX Amsterdam, The Netherlands, at 2:00 p.m., local time, on Wednesday, May 3, 2017 (the "Annual Meeting"), for the purposes set forth in the foregoing notice and agenda.

We are using U.S. Securities and Exchange Commission ("SEC") rules allowing companies to furnish proxy materials over the Internet. Instead of a paper copy of this proxy statement and our 2016 Annual Report, most of our shareholders are receiving a notice regarding the availability of our proxy materials. The notice includes instructions on how to access the proxy materials over the Internet. The notice also contains instructions on how each shareholder can receive a paper copy of our proxy materials, including this proxy statement, our 2016 Annual Report and a form of proxy card.

Each share entitles the holder thereof to one vote on each matter submitted to a vote at the Annual Meeting. All shares represented by proxies duly executed and received by us within the time indicated on the accompanying proxy (the "Voter Deadline") will be voted at the Annual Meeting in accordance with the terms of the proxies. If no choice is indicated on the proxy, the proxyholders will vote for the election of Messrs. Alexander, Bolch, and McVay, and Ms. Williams, to our Supervisory Board and for all other proposals described in this proxy statement. If any other business is properly brought before the Annual Meeting under our Articles of Association or the Dutch Civil Code, the proxies will be voted in accordance with the best judgment of the proxyholders. In general, only those items appearing on the agenda can be voted on at the Annual Meeting.

A shareholder may revoke a proxy by submitting a document revoking it prior to the Voter Deadline, by submitting a duly executed proxy bearing a later date prior to the Voter Deadline or by attending the Annual Meeting and voting in person (with regard to which the requirements below apply).

Only holders of record of the 100,669,576 registered shares of our share capital, par value EUR 0.01 (the "common shares" or "shares"), outstanding at the close of business on March 9, 2017, are entitled to notice of and to vote at the Annual Meeting. Shareholders must give notice in writing to the Management Board of their intention to attend the Annual Meeting prior to April 27, 2017. Admittance of shareholders and acceptance of written voting proxies shall be governed by relevant provisions of the Dutch Civil Code.

Although there is no quorum requirement that is applicable to the Annual Meeting, abstentions, directions to withhold authority to vote for a nominee to be a member of the Supervisory Board and "broker non-votes" will be considered present at the meeting but will not be counted to determine the total number of votes cast. Broker non-votes occur when nominees, such as brokers and banks holding shares on behalf of the beneficial owners, are prohibited from exercising discretionary voting authority for beneficial owners who have not provided voting instructions. If you do not give instructions to your bank, brokerage firm or other agent, the bank, brokerage firm or other agent will nevertheless be entitled to vote your common shares in its discretion on "routine matters" and may give or authorize the giving of a proxy to vote the common shares in its discretion on such matters. The appointment of independent public accountants is generally a routine matter whereas the election of directors is not considered a routine matter. For these reasons, please promptly vote in accordance with the instructions provided by your bank, brokerage firm or other agent.

We will bear the cost of soliciting proxies on the accompanying proxy card. Some of our directors, officers and regular employees may solicit proxies in person or by mail, telephone or fax, but will not receive any additional compensation for their services. We may reimburse brokers and others for their reasonable expenses in forwarding proxy solicitation materials to the beneficial owners of our shares. We have also retained The Proxy Advisory Group, LLC to assist in the solicitation of proxies and provide related advice and informational support for a service fee and the reimbursement of customary disbursements. Such fees and disbursements are not expected to exceed \$30,000 in the aggregate.

Shareholders and interested persons may communicate with the Supervisory Board or one or more directors by sending a letter addressed to the Supervisory Board or to any one or more directors in care of Secretary, CB&I,

Prinses Beatrixlaan 35, 2595 AK The Hague, The Netherlands, in an envelope clearly marked "Shareholder Communication." The Secretary's office will forward such correspondence unopened to the Chairman of our Corporate Governance Committee, or to another independent director, unless the envelope specifies that it should be delivered to another director.

CORPORATE GOVERNANCE

Certain Transactions

Director Independence

The Supervisory Board believes that there should be a significant majority of independent directors on the Supervisory Board and generally no more than one director who is also an employee. An independent director means a member of the Supervisory Board who, in conformity with New York Stock Exchange ("NYSE") listing standards and the criteria set forth in Exhibit A ("Exhibit A") to our Corporate Governance Guidelines (which comply with and in some cases are stricter than NYSE listing standards) available through our website, investors.cbi.com/corporate-governance, is independent of management and free from any relationship with the Company or otherwise that, in the opinion of the Supervisory Board, would interfere with his or her exercise of independent judgment as a director. No director qualifies as independent unless the Supervisory Board affirmatively determines that the director has no material relationship with the Company (either directly or indirectly, such as an officer, director, partner or significant shareholder of an organization that has a material relationship with the Company), and discloses that determination and the basis for the determination in our annual proxy statement. While individual cases may warrant exceptions to our general guidelines (see Exhibit A), a director generally will be considered independent if he or she:

• has not been employed by us within the past 5 years;

• has not been affiliated with or employed by our present or former auditor within 5 years since the end of either the affiliation or the auditing relationship;

• has not been part of an "interlocking directorate" in which one of our executive officers serves on the compensation committee of another company that concurrently employs or employed the director within the last 5 years;

• has not had an immediate family member (other than a family member employed in a non-officer position) in one of the categories listed above within the past 5 years;

• is not a paid advisor or consultant to us and receives no financial benefit from any entity as a result of advice or consulting services provided to us by such entity;

• is not an officer, director, partner or significant shareholder of any of our significant customers or suppliers, or any other entity having a material commercial, industrial, banking, legal or accounting relationship with us; and

• is not an officer or director of a tax-exempt entity receiving more than 5% of its annual contributions from us.

Based on these guidelines, the Supervisory Board has determined that Messrs. Flury, Bolch, Kissel, McVay, Miller, and Underwood and Ms. Fretz and Williams are independent, under the standards described above. Mr. Asherman, our Chief Executive Officer, is not independent. The Supervisory Board has also determined that all members of the Supervisory Board, except Mr. Asherman, are "independent" as that term is defined by the Code adopted by the Dutch Corporate Governance Committee on December 9, 2003, and subsequently amended and restated in October 2008 (the "Dutch Corporate Governance Code").

In making the determination as to independence, the Supervisory Board broadly considers all relevant facts and circumstances in evaluating any relationships that exist between a director and the Company. In anticipation of the nomination of Mr. Alexander to serve on the Board, the Board invited him to board meetings beginning in September 2016 to gain familiarity with the Company and the operations and procedures of the Board. The Board paid Mr. Alexander cash fees consistent with those paid to directors for his service to the Board.

Related Party Transactions

The Nominating Committee of the Supervisory Board is responsible for reviewing all transactions that might represent a conflict or potential conflict of interest on the part of shareholders who hold more than 10% of our shares, directors, and officers. The Nominating Committee will analyze such potential conflicts of interest in order to ensure compliance with the Company's Code of Ethics and the Company's Code of Conduct, and make recommendations to the Supervisory Board concerning the granting of waivers, if appropriate, under the Company's Code of Ethics. Each director and officer must make prompt and full disclosure of all potential conflicts of interest to the President and Chief Executive Officer, the Chief Financial Officer, the Chief Legal Officer of the Company, the Non-Executive Chairman (defined below) or the Chairman of the Audit Committee. A conflict of interest includes any shareholder who holds more than 10% of our shares, a director, or officer having a financial interest in any contract with us or in any organization doing business with us, or any such person receiving improper personal benefits or loans as a result

of his or her position in the Company. On an annual basis, each member of the Supervisory Board and each executive officer is obligated to complete a Director and Officer Questionnaire, which requires disclosure of any transactions with the Company in which the member of the Supervisory Board or executive officer, or any member of his or her immediate family, has a direct or indirect material interest. These obligations are set forth in writing in our Code of Ethics and the Nominating Committee Charter available through our website, investors.cbi.com/corporate-governance.

The Company employs Mr. L. Richard Flury's son, Geoffrey Flury, as a manager of our Walker, Louisiana operations. Mr. L. Richard Flury is the non-Executive Chairman of the Supervisory Board as well as a member of our Corporate Governance, Nominating and Strategic Initiatives Committees. This relationship does not affect Mr. L. Richard Flury's independence because Geoffrey Flury is not an executive officer and received his compensation solely for service as an employee of the Company.

Nominations for Directors/Director Qualifications

The Nominating Committee of the Supervisory Board is responsible for screening potential members of the Supervisory Board and recommending qualified candidates to the Supervisory Board for nomination. Although the Nominating Committee has not established any specific minimum qualifications to be met by a nominee to be a member of the Supervisory Board, it assesses a diverse number of specific factors such as independence, judgment, business experience, financial knowledge and expertise, technical skills and knowledge, knowledge of our core business, international background and experience and other particular skills to enable a Supervisory Board member to make a significant contribution to the Supervisory Board, the Company, and our shareholders. Set forth in Appendix I to the Nominating Committee Charter ("Appendix I"), available through our website, investors.cbi.com/corporate-governance, are diverse and relevant criteria and characteristics and specific experience, qualifications, attributes and skills to be considered by the Nominating Committee in identifying nominees to be a member of the Supervisory Board, including:

- holding a position as a chief executive officer or chief operating officer or running a significant division of a public company;
- knowledge of our core business, including contracting, energy, building materials (steel) and chemicals;
- knowledge of international business;
- technological expertise;
- financial adeptness, liability/equity management and human relations skills;
- participation on other boards;
- education;
- ability to serve for at least five years;
- compatibility with existing Supervisory Board, management and the Company corporate culture; and
- independence, as defined in the standards set forth in our Corporate Governance Guidelines.

The Nominating Committee and the Supervisory Board prefer nominees who will contribute to a board that is diverse in terms of business training, experience across a range of industries, leadership, background and education. The Nominating Committee and the Supervisory Board consider how a specific nominee contributes to the diversity of the Supervisory Board by identifying a nominee's experience and background and determining how such experience and background will complement the overall makeup of the Supervisory Board. The Nominating Committee identifies nominees through the use of third-party entities whose practice includes outside director searches and by conducting its own searches primarily based on personal knowledge and recommendations of other members of the Supervisory Board and our management. Nominees are evaluated by the Nominating Committee as a whole with reference to Appendix I. The Nominating Committee does not solicit director nominees but will consider and evaluate shareholder recommendations that meet the criteria set forth in Appendix I in the same manner as it evaluates other potential nominees. Recommendations should be submitted in writing and addressed to the Chairman of the Nominating Committee, c/o Secretary, CB&I, Prinses Beatrixlaan 35, 2595 AK The Hague, The Netherlands.

Board Leadership Structure and Role in Risk Oversight

The Company's Corporate Governance Guidelines require that the Chairman of the Supervisory Board be a non-executive. The Supervisory Board separates the roles of Chief Executive Officer and Chairman of the Supervisory Board in recognition of the differences between the two roles and the commitment required by each role. Separating these positions allows our Chief Executive Officer to focus on our day-to-day business, while allowing the non-executive Chairman of the Supervisory Board (the "Non-Executive Chairman"), as an independent leader, to lead the Supervisory Board in its fundamental role of providing advice to and independent oversight of management. The Supervisory Board recognizes the time, effort and energy that the Chief Executive Officer is required to devote to his position in the current business environment, and the commitment required of the Non-Executive Chairman to properly fulfill his role. The Supervisory Board believes this structure is appropriate for the Company not only

because of the size and composition of the Supervisory Board, the scope and complexity of the Company's operations and the responsibilities of the Supervisory Board and management, but also as a demonstration of our commitment to good corporate governance.

While the Supervisory Board is ultimately responsible for risk oversight, four Supervisory Board committees assist the Supervisory Board in fulfilling its oversight responsibilities in certain areas of risk. The Supervisory Board exercises its risk oversight authority through various processes and procedures adopted by the Supervisory Board's Audit Committee, Strategic Initiatives Committee, Corporate Governance Committee and Organization and Compensation Committee.

The Audit Committee assists the Supervisory Board in its involvement in the Company's risk management process by providing oversight for the:

- integrity of the Company's financial statements;
 - Company's compliance with legal and regulatory requirements;
 - Company's independent registered public accounting firm's qualifications and independence;
 - performance of the Company's independent registered public accounting firm and our internal audit function; and
 - Company's system of disclosure and internal controls regarding finance, accounting, legal compliance and ethics.
- The Strategic Initiatives Committee, chaired by the Non-Executive Chairman, participates in and, in certain instances, oversees significant core activities of the Company. The Strategic Initiatives Committee deals directly with risk-related issues facing the Company as the Committee carries out its duties to:
- review and approve on behalf of the Supervisory Board contracts, purchase orders, subcontracts and change orders in the ordinary course of business whose price exceeds the approval authority of the Chief Executive Officer;
 - review and make recommendations to the Supervisory Board with respect to matters brought to its attention by the Chief Executive Officer in the ordinary course of business that exceed his approval authority under the authority matrix adopted by the Supervisory Board; and
 - review and discuss matters brought to its attention by the Chief Executive Officer that the Strategic Initiatives Committee finds appropriate.

The Corporate Governance Committee participates in identifying and managing risks facing the Company through its responsibility to the Supervisory Board to:

- provide perspective on economic, business and technology trends and events that could cause the Company to change the allocation of resources among its existing businesses or to enter new business, and to review the business planning process of the Company;
- review various policies and practices of management in the areas of corporate governance;
- establish and review corporate goals and objectives;
- consider the overall relationship of Supervisory Board members and the Company's management; and
- develop, review and recommend to the Supervisory Board a set of corporate governance guidelines applicable to the Company.

The Organization and Compensation Committee undertakes risk oversight of the Company's compensation programs through its responsibility to the Supervisory Board to:

- establish and review the Company's overall compensation philosophy, strategy and guidelines so that the design of the Company's compensation programs does not encourage excessive risk taking;
- establish and review annual incentive and long-term incentive compensation plans so that they do not create risks reasonably likely to have a material adverse effect on the Company; and
- establish and review corporate goals and objectives supported by the Company's compensation programs so that rewards are aligned with the interests of shareholders.

Based on information and reports received by the Supervisory Board from these committees and from regular or special Supervisory Board meetings, appropriate guidance and involvement can be directed to areas that may expose the Company to risks in operation, legal compliance, financial reporting and other aspects of the business of the Company. The Non-Executive Chairman works with the Chief Executive Officer during the strategic planning process to ensure management strategies, plans and performance metrics are communicated to the Supervisory Board and concerns of the Supervisory Board are addressed in the development of these plans. He also attends and participates in quarterly management reviews of the performance of the Company. Finally, the Non-Executive Chairman attends and participates in quarterly management meetings in which, as part of the review of the Company's overall performance, various risk issues are identified and addressed.

Code of Ethics

We have a Code of Ethics that applies to all of our employees, directors and officers, including our Chief Executive Officer and our Chief Financial Officer (who is our principal accounting officer). Our Code of Ethics is available on our website at investors.cbi.com/corporate-governance.

If we amend, modify or waive a provision in our Code of Ethics, we may satisfy the disclosure requirement by posting such information on our website. Our website is not a part of this Proxy Statement.

COMMITTEES OF OUR SUPERVISORY BOARD

The Supervisory Board has five standing committees to assist the Supervisory Board in the execution of its responsibilities. These committees are the Audit Committee, the Organization and Compensation Committee, the Nominating Committee, the Corporate Governance Committee, and the Strategic Initiatives Committee. Each committee is composed of a minimum of three members of the Supervisory Board (except the Corporate Governance Committee, which consists of all non-management members of the Supervisory Board) who satisfy the independence requirements required by the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the rules adopted thereunder, the listing standards of the NYSE in effect from time to time and the Dutch Corporate Governance Code. Each committee functions under a charter adopted by the Supervisory Board. Each charter can be accessed through our website, investors.cbi.com/corporate-governance, and is available in print to any shareholder who requests it.

Audit Committee

The current members of the Audit Committee are Mr. Underwood (Chairman) and Messrs. McVay and Miller, and Mses. Fretz and Williams. The Supervisory Board has determined that Mses. Fretz and Williams and Messrs. McVay, Miller, and Underwood are each independent as defined in the Exchange Act and under the NYSE Listed Company Manual and Mr. Underwood and Mses. Fretz and Williams meet the definition of "audit committee financial expert," as such term is defined under the rules of the SEC, and the definition of "financial expert," as defined in the Dutch Corporate Governance Code. The Supervisory Board has also determined that Mses. Fretz and Williams and Messrs. McVay, Underwood and Miller possess the necessary level of financial literacy required to enable them to serve effectively as Audit Committee members. We maintain an Internal Audit Department to provide the Audit Committee and management with ongoing assessments of our system of internal controls. Representatives of our independent registered public accounting firm participate in Audit Committee meetings, including periodic executive sessions independent of management, to discuss auditing and financial reporting matters.

The Audit Committee met seven times during 2016. Its primary duties and responsibilities include assisting the Supervisory Board in overseeing:

- the integrity of our financial statements;
- our compliance with legal and regulatory requirements;
- our independent registered public accounting firm's qualifications and independence;
- the performance of our independent registered public accounting firm and our internal audit function; and
- our system of disclosure and internal controls regarding finance, accounting, legal compliance and ethics.

The Audit Committee has adopted policies and procedures for pre-approving all audit and permissible non-audit services performed by our independent registered public accounting firm. Under these policies, the Audit Committee pre-approves the use of audit and audit-related services in connection with the approval of the independent registered public accounting firm's audit plan. All services detailed in the audit plan are considered pre-approved. The Audit Committee monitors the audit services engagement as necessary, but no less often than quarterly. It approves any changes in terms, conditions and fees resulting in changes in audit scope, Company structure or other items. Other audit services and non-audit services are pre-approved at the Audit Committee's quarterly meetings. For interim pre-approval of audit and non-audit services, requests and applications are submitted to the Chief Financial Officer, who has been so designated by the Audit Committee for this purpose. The Chief Financial Officer may approve services that are consistent with the permissible services specifically pre-approved by the Audit Committee. Where the services are not specified by the pre-approval policy and the Chief Financial Officer approves the request or application, it is submitted to the Audit Committee Chairman, or appropriate designated member of the Audit Committee, for pre-approval. All such audit and non-audit services and fees are monitored by the Audit Committee at its quarterly meeting.

Audit Fees

For the years ended December 31, 2016 and 2015, we incurred the following fees for services rendered by our independent registered public accounting firm, Ernst & Young LLP:

Fees	2016	2015
Audit Fees (1)	\$6,061,000	\$6,169,000

Total	\$7,849,000	\$6,642,000

5

- Audit Fees consist of fees and out-of-pocket expenses for the audit of our annual financial statements; audit of our
- (1) controls over financial reporting; reviews of our quarterly financial statements; statutory and regulatory audits and consents; financial accounting and reporting consultations; and other services related to SEC matters.
 - (2) Tax Fees consist of fees for tax consulting services, including transfer pricing documentation, tax advisory services and compliance matters.
 - (3) All Other Fees consist of permitted non-audit services.

All of the fees set forth in the table above were approved by the Audit Committee pursuant to its pre-approval policies and procedures described above.

The Audit Committee considered and concluded that the provision of other services was compatible with maintaining Ernst & Young LLP's independence.

The Audit Committee has established a toll-free number, (866) 235-5687, through which interested parties may report concerns or issues regarding our accounting or auditing practices to the Audit Committee.

Report of the Audit Committee of the Supervisory Board

The following is the report of the Audit Committee of the Supervisory Board with respect to our audited financial statements for the year ended December 31, 2016.

The Supervisory Board has adopted a written charter for the Audit Committee.

We have reviewed and discussed with management the Company's audited financial statements as of and for the year ended December 31, 2016.

We have discussed with the Company's independent registered public accounting firm the matters required to be discussed under Auditing Standard No. 16, Communications with Audit Committees, as adopted by the U.S. Public Company Accounting Oversight Board ("PCAOB").

We have received and reviewed the written communication from the independent registered public accounting firm required by applicable requirements of the PCAOB regarding the Company's independent registered public accounting firm's communications with the Audit Committee concerning independence, and have discussed with them their independence. The Audit Committee has also reviewed the non-audit services provided by the Company's independent registered public accounting firm as described above and considered whether the provision of those services was compatible with maintaining the Company's independent registered public accounting firm's independence.

Based on the reviews and discussions referred to above, we recommended to the Supervisory Board that the audited financial statements referred to above be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, for filing with the SEC.

Compensation Consultants

In considering the executive compensation recommendations of management and determining the 2016 compensation of the Chief Executive Officer and those officers reporting directly to him, the Organization and Compensation Committee received advice and recommendations from Pearl Meyer. At the Committee's request, Pearl Meyer evaluated the Company's compensation practices and assisted in developing and implementing its executive compensation program consistent with its stated compensation philosophy. Pearl Meyer regularly reviewed the Company's total compensation pay levels and design practices and offered comments on comparator companies, on benchmarks and on how the Company's compensation programs are succeeding in meeting the Company's business objectives. Pearl Meyer made recommendations to the Committee at its request, independently of management, on executive compensation generally and on the individual compensation of executive officers. Pearl Meyer representatives participated in selected Committee meetings, including executive sessions independent of management, to discuss executive compensation matters.

The Organization and Compensation Committee has analyzed whether the work of Pearl Meyer as a compensation consultant has raised any conflicts of interest, taking into consideration, among other things, the following factors: (i) the provision of other services to the Company by Pearl Meyer; (ii) the amount of fees from the Company paid to Pearl Meyer as a percentage of Pearl Meyer's total revenue; (iii) the policies and procedures of Pearl Meyer that are designed to prevent conflicts of interest; (iv) any business or personal relationship of the individual compensation advisors who serve the Organization and Compensation Committee with any member of the Organization and Compensation Committee; (v) any stock of the Company owned by such individual compensation advisors; and (vi) any business or personal relationship of Pearl Meyer or of the individual compensation advisors employed by Pearl Meyer who serve the Organization and Compensation Committee with an executive officer of the Company. The Committee has determined, in light of the factors listed above, that the work of Pearl Meyer and the individual compensation advisors employed by Pearl Meyer as compensation consultants to the Company have not created any conflicts of interest.

Compensation of the Members of the Supervisory Board

Under our Articles of Association, any decisions on compensation of members of our Supervisory Board are made by our general meeting of shareholders. If any changes need to be made to the compensation of members of our Supervisory Board, the Nominating Committee makes recommendations to the Supervisory Board on the compensation. The Supervisory Board then approves or modifies those recommendations and proposes them to the shareholders at a general meeting. In making a recommendation, the Nominating Committee receives advice and recommendations from Pearl Meyer, which serves as its compensation consultant for directors. Its representatives evaluate our compensation practices and assist in developing our director compensation program. They review compensation for the members of the Supervisory Board annually; however, changes to director compensation might not be made every year. Pearl Meyer representatives are present at selected Nominating Committee meetings to discuss compensation of the members of the Supervisory Board.

ITEM 1 ELECTION OF ONE MEMBER OF OUR SUPERVISORY BOARD TO SERVE UNTIL 2019

The business and general affairs of the Company and the conduct of the business of the Company by the Management Board are supervised by the Supervisory Board, the members of which are appointed by the general meeting of shareholders. Under the law of The Netherlands, a member of the Supervisory Board cannot be a member of the Management Board of the Company. Our Articles of Association provide for at least six and no more than twelve members to serve on the Supervisory Board.

Members of the Supervisory Board are generally elected to serve three-year terms, with approximately one-third of such members' terms expiring each year and two-thirds of such members' terms expiring each two years. The terms of the members of the Supervisory Board expire at the general meeting of shareholders held in the third year following their election, but members of the Supervisory Board whose terms of office expire may be re-elected. The Supervisory Board has determined that the number of members of the Supervisory Board will be nine. The term of office of three

members of the Supervisory Board will expire at the date of the Annual Meeting. The term of office of a member of the Supervisory Board expires automatically on the date of the

annual general meeting of shareholders in the year following the year during which the director attains the age of 72. Having attained the age of 72 this past year, Mr. Underwood may no longer serve on the Supervisory Board. As permitted under the Dutch Civil Code and our Articles of Association, the Supervisory Board is authorized to make binding nominations of two candidates for each open position on the Supervisory Board, with the candidate receiving the greater number of votes being elected. The binding nature of the Supervisory Board's nomination may be overridden by a vote of two-thirds of the votes cast at the meeting if such two-thirds vote constitutes more than one-half of the issued share capital of the Company. In that case, shareholders would be free to cast their votes for persons other than those nominated below.

The new member of the Supervisory Board to be elected at the annual meeting will serve in Mr. Underwood's position until the general meeting of shareholders in 2019. The Supervisory Board has proposed the election of Forbes I.J. Alexander and Westley S. Stockton for this open director position. Mr. Alexander has been an advisor to the Supervisory Board since September 2016, and in such capacity has been paid \$55,000, an amount equal to the cash retainer he would have earned if he had been a member of the Supervisory Board. The nomination of Mr. Alexander was recommended to the Supervisory Board by an independent third-party search firm engaged by the Supervisory Board.

Based on the guidelines set forth above, the Supervisory Board has determined that Mr. Alexander does not have a material relationship with us and, if elected, would be considered an independent member of the Supervisory Board, applying the criteria outlined on page 2 under the heading "Certain Transactions - Director Independence". Mr. Stockton was recommended by the Chief Executive Officer, is presently our employee and, if elected, would not be considered an independent member of the Supervisory Board.

The Supervisory Board is recommending the election of Mr. Alexander to the Supervisory Board on the basis of his extensive professional and financial knowledge and experience, having worked as a financial officer with various types of companies, including a supply chain management and electronics manufacturer, a supplier of electronic components, a multinational information technology company, and a manufacturer of network stations.

(1) Shares deemed beneficially owned include shares held by immediate family members and shares that can be acquired through stock options exercisable through May 8, 2017.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our members of the Supervisory Board, executive officers and persons who own more than 10% of our common shares to file initial reports of ownership and reports of changes in ownership of common shares (Forms 3, 4 and 5) with the SEC and the NYSE. All such persons are required by SEC regulation to furnish us with copies of all such forms that they file and we receive written representations by certain reporting persons with respect to whether a Form 5 was required. To our knowledge, based solely on our review of the copies of such reports received by us and on written representations by certain reporting persons that no reports on Forms 3, 4 or 5 were required to be filed by them, we believe that, during the year ended December 31, 2016, our Supervisory Board, executive officers and 10% shareholders complied with all Section 16(a) requirements applicable to them.

EXECUTIVE COMPENSATION
DISCUSSION AND ANALYSIS ("CD&A")

This CD&A explains our executive compensation program for our named executive officers ("NEOs") listed below. The CD&A also describes the Organization and Compensation Committee's (the "Committee") process for making pay decisions, as well as its rationale for specific decisions related to fiscal 2016.

The disclosures concerning director and executive officer compensation contained in this Proxy Statement, and certain other disclosures concerning director and employee compensation contained in our Dutch statutory annual accounts for the year ended December 31, 2016, presented for approval by shareholders at the Annual Meeting (see Item 4 - "Adoption of Dutch Statutory Annual Accounts for 2016" below), also constitute the disclosure required to be made to shareholders pursuant to Article 2:135 of the Dutch Civil Code in connection with the adoption of our Dutch statutory annual accounts for the year ended December 31, 2016.

EXECUTIVE SUMMARY

According to data provided to the Organization and Compensation Committee by Pearl Meyer, aggregate target total direct compensation for our NEOs for 2016 was within the Committee's stated market range (i.e., generally within 10% of the market median).

2016 Business Highlights

The objective of CB&I is to maintain and enhance the Company's position as a leading provider of technology and infrastructure for the energy industry. Our competitive position is based upon our core strengths, which include: a strong focus on Health, Safety and Environmental performance; a fully integrated and diversified business model; global execution capabilities with recognized expertise in engineering, procurement, construction, fabrication, licensed technologies and specialized equipment; a disciplined approach to project risk management; and a record of excellence in project execution; and a senior management team with extensive engineering and construction industry experience.

During 2016, highlights of our financial and business performance included:

- Reducing our total debt by \$394 million, or 15%, from \$2.6 billion at the end of 2015.

- Generating operating cash flow of \$654 million.

- Generating diluted earnings per share of \$4.23, excluding a non-cash goodwill impairment charge of \$6.35 per diluted share and a charge of \$0.93 per diluted share associated with a reserve for the deferred transaction consideration relating to the 2015 sale of the Company's nuclear operations.

- Implementing the first phase of a strategic tax planning process that is expected to yield an effective tax rate of 25% or less on a sustainable basis.

- Fulfilling our pledge to shareholders to reduce CB&I's share count to a level approximating what it was in 2013, prior to our acquisition of the The Shaw Group Inc. - 100 million shares. We reached this goal in 2016 after the methodical multi-year execution of our share repurchase program.

- Receiving the 2016 Presidential Green Chemistry Challenge award from the U.S. Environmental Protection Agency for the Company's AlkyClean® technology, a solid acid catalyst alkylation technology jointly developed by CB&I and two partners.

- Establishing a long-term alliance agreement with leading catalyst and technology provider Haldor Topose, which will expand the company's licensing position for syngas opportunities as well as the engineering and construction of plants in North America.

• Opening a new polypropylene catalyst facility in conjunction with Clariant to produce next-generation catalyst for CB&I's Novolen technology.

• Beginning construction of the NET Power plant in LaPorte, Texas, which will produce low-cost electricity with zero atmospheric air emissions.

• Breaking ground on the multibillion-dollar Liwa Plastics Industries Complex in Oman, a transformational project that will allow the country to deliver high-value polymer products to local and international marketplaces.

• Completing the Ingleside Ethylene project in Ingleside, Texas, for OxyChem and Mexichem.

2016 Shareholder Engagement & Say-On-Pay

We value the input of our shareholders on our compensation practices. The Company maintains a proactive investor relations program, and during our everyday interactions with shareholders over the course of the year, we routinely discuss various performance metrics that drive management compensation. Further, our committee continues to review the design of our programs in order to ensure that they are aligned with the interests of our shareholders. In 2016, approximately 84% of the votes cast (excluding abstentions) supported our executive compensation decisions.

Best Compensation Practices & Policies

The following practices and policies are embedded in our executive compensation program to promote sound compensation governance and serve the best interests of our shareholders and executives:

What We Do

• Heavy emphasis on variable compensation

• Majority of long-term incentive grants are performance-restricted

• Stock ownership guidelines

• Clawback policy

• Independent compensation consultant

• Annual risk assessments

• Measure both absolute and relative performance metrics in the long-term incentive program

WHAT GUIDES OUR PROGRAM

The Guiding Principles of Our Compensation Philosophy

We are committed to increasing shareholder value by profitably growing our business in the global marketplace. Our compensation policies and practices support this commitment and are grounded by the following guiding principles: Create a strong link between pay and performance, as well as foster a culture of ownership. Incentive plans should use a range of performance metrics tied to key financial goals and strategic milestones focused on the drivers of long-term shareholder value. A significant portion of an executive's total compensation should be variable/at risk and dependent on the achievement of these goals and milestones. Executives should have significant outright ownership of Company stock.

Provide competitive opportunities for compensation commensurate with roles, responsibilities and performance. We must compete with a wide variety of construction, engineering, heavy industrial, process technology and related firms in order to engage, develop and retain high-caliber talent. To this end, target total compensation should be competitive relative to our comparator companies, while providing incentive opportunities that can be well above (or below) the peer group median, depending upon actual performance.

What We Do Not Do

• No "single-trigger" termination payments upon a change of control

• No tax gross-ups from 2008 forward on termination payments following a change of control

• No repricing of stock options without shareholder approval

• No cash buyout of underwater stock options without shareholder approval

• No payment of dividends on performance-based shares until those shares are earned

• No hedging of Company stock

- Promote sound compensation governance aligned with shareholder interests. Total compensation should be reinforced by best practice governance standards. It should also encourage prudent decision-making and prevent excessive risk-taking behaviors through sound and rigorous processes, policies and practices.

The Principal Elements of Pay

Our compensation philosophy is supported by the following principal elements in our executive compensation program:

Element	Form	Purpose
Base Salary	Cash (Fixed)	Provides a competitive rate relative to similar positions in the market, and enables the Company to attract and retain critical executive talent
Annual Incentive Compensation	Cash (Variable/At Risk)	Rewards the achievement of annual financial goals and short-term strategic milestones that drive profitable growth and shareholder value creation
Long-Term Incentive Compensation	Equity (Variable/At Risk)	Provides incentives to execute on longer-term financial and strategic growth goals that drive shareholder value creation and support the Company's retention strategy

Pay Mix

The charts below show the annual target compensation (base salary, annual incentive compensation and long-term incentive compensation) of our CEO and our other NEOs for 2016. These charts illustrate that a majority of NEO target compensation is variable (90% for our CEO and an average of 82% for our other NEOs).

Vast Majority of NEO Pay is Variable/At Risk and Performance-Based

Our Decision Making Process

The Committee oversees the executive compensation program for our NEOs. The Committee is comprised of independent, non-employee members of the Supervisory Board. The Committee works very closely with its independent consultant and management to examine the effectiveness of the Company's executive compensation program throughout the year. Details of the Committee's authority and responsibilities are specified in its charter, which may be accessed through investors.cbi.com/corporate-governance.

The Role of the Organization and Compensation Committee. The Committee typically reviews base salary, annual incentive compensation opportunities and long-term incentive target values for executive officers for the coming year at its regularly scheduled December meeting. Using the findings and conclusions of the Company's strategic planning process together with assessment of other data, management develops its business plan for the following year. The business plan is then presented to the Supervisory Board generally at its regularly scheduled February meeting in that following year. At its regularly scheduled February meeting, taking into account the Company's long-term strategy and annual business plan, the Committee reviews and approves the annual incentive compensation performance targets, as well as our long-term incentive award performance targets for awards granted in that year, for executive officers. In setting 2016 targets for incentive compensation financial metrics, the Committee acted within the context of a challenging market environment in the global energy industry, where some project owners elected to defer or limit investment in new infrastructure, and the Committee also took into account the revenue and earnings

impacts of the sale of the nuclear power construction business in 2015. The Committee also reviews performance against the plan provisions and associated expense implications of the annual incentive compensation amounts earned for the previous year, retaining discretion as to the final incentive compensation for subsequent approval. The Committee may set salary and grant cash incentive awards and equity awards for executive officers at other times to reflect promotions, new hires or other special circumstances.

The Role of Management. The CEO does not participate in the Committee's determination of his own compensation. However, he makes recommendations to the Committee for each of the other NEOs. The CEO bases these recommendations on his assessment from market data compiled for the Committee by the independent compensation consultant against each executive's personal performance, as well as overall Company goals for the fiscal year. The Committee reviews the CEO's recommendations, makes adjustments as it determines appropriate, and approves compensation at its sole discretion.

The Role of the Independent Compensation Consultant. In considering the executive compensation recommendations of management and determining the compensation of the CEO and those officers reporting directly to him for 2016, the Committee received advice and recommendations from Pearl Meyer. At the Committee's request, Pearl Meyer evaluated the Company's compensation practices and assisted in developing and implementing its executive compensation program consistent with its stated compensation philosophy. Pearl Meyer regularly reviewed the Company's total compensation pay levels and design practices and offered its comments on comparator companies, benchmarks and how the Company's compensation programs are actually succeeding in meeting the Company's business objectives. During 2016, Pearl Meyer made recommendations to the Committee at its request, independently of management, on executive compensation generally and on the individual compensation of executive officers. Pearl Meyer representatives participated in selected Committee meetings, including executive sessions independent of management, to discuss executive compensation matters.

The Committee has analyzed whether the work of Pearl Meyer as a compensation consultant has raised any conflicts of interest, taking into consideration, among other things, the following factors: (i) the provision of other services to the Company by Pearl Meyer; (ii) the amount of fees from the Company paid to Pearl Meyer as a percentage of Pearl Meyer's total revenue; (iii) the policies and procedures of Pearl Meyer that are designed to prevent conflicts of interest; (iv) any business or personal relationship of the individual compensation advisors who serve the Committee with any member of the Committee; (v) any stock of the Company owned by such individual compensation advisors; and (vi) any business or personal relationship of Pearl Meyer or the individual compensation advisors employed by Pearl Meyer who serve the Committee with an executive officer of the Company. The Committee has determined, based on its analysis in light of the factors listed above, plus written assurance from Pearl Meyer, that the work of Pearl Meyer and the individual compensation advisors employed by Pearl Meyer as compensation consultants to the Company has not created any conflicts of interest.

The Role of Competitive Positioning and Peer Groups. We set base salary, annual incentive and long-term incentive compensation opportunities and target total compensation annually considering a variety of factors including the competitive market from proxy data of our comparator peer group (discussed below) and compensation surveys, as well as an assessment of each executive officer's performance. This process provides guideposts for establishing the mix of pay for our executives, in terms of short-term versus long-term compensation and in terms of cash versus equity compensation. We do not target a specific mix of pay for our executive officers. Long-term incentive compensation, which we typically grant in the form of equity-based awards, made up well over 50% of target total compensation for each of our NEOs in 2016, reinforcing alignment of our executive officers with our shareholders. We target total compensation (base salary, target annual incentives and target annual long-term incentive value) for each of our executive officers to confirm that it is appropriate for the position, and make adjustments where appropriate. We target executive officers' total compensation to be competitive relative to our comparator companies, taking into account one's tenure in the position and recent performance where appropriate. Executive officers then have the potential through incentive compensation to earn actual total compensation at a level that can be above or below the peer group median target compensation, depending upon performance.

As noted previously, aggregate target total direct compensation for our NEOs for 2016 was within the Committee's stated market range. An individual executive's salary, annual incentive opportunity, and long-term incentive opportunity may be higher or lower relative to the competitive market depending on a variety of factors specific to the

position or the incumbent.

We also review our benefit package and consider the practices of comparable companies for specific types of benefits. Data provided by Pearl Meyer indicates that the nature of the benefits we provide are competitive with those offered by our comparator companies.

The Committee reviews and approves the selection of comparator companies based on their size, business, and presence in our geographic areas. The list of comparator companies we use may change from year to year based on Pearl Meyer's recommendations and our Committee's evaluation of those factors. For 2016, we used the comparator companies listed below. CB&I's revenue was at the 66th percentile of the peer group companies' revenue at the time Pearl Meyer conducted its annual compensation study and was 124% of the group's median revenue of approximately \$10 billion.

THE 2016 EXECUTIVE COMPENSATION PROGRAM IN DETAIL

Base Salary

Base salaries provide an underlying level of compensation to executives to attract highly experienced executive talent and maintain a stable management team. Base salaries reflect the executive's position and role, with some variation for individual factors such as experience and performance. The Committee, based on discussion with its independent compensation consultant and management, approved the following adjustments for fiscal year 2016:

NEO	December 31, 2015		December 31, 2016	
	Base Salary (1)	Base Salary (1)	Base Salary (1)	% Change (2)
Philip K. Asherman	\$1,304,000	\$1,304,000	\$1,304,000	0%
Michael S. Taff	\$683,000	\$703,490	\$703,490	3.0%
Patrick K. Mullen	\$673,000	\$800,000	\$800,000	18.9%
Luke V. Scorsone	\$673,000	\$693,190	\$693,190	3.0%
Edgar C. Ray	\$621,000	\$639,630	\$639,630	3.0%

Base salary amounts reflect each executive's designated base salary level as of the last day of the relevant calendar year, and include adjustments made during the calendar year. Amounts shown do not reflect the total base salary paid for such calendar year. The actual amount of base salary paid to each executive during each relevant calendar year is listed on the Summary Compensation Table on page 26 below.

Mr. Mullen was promoted to Chief Operating Officer in fiscal 2016, and his increase reflects his larger role in the Company relative to fiscal 2015. The other NEOs, excluding Mr. Asherman, received increases of 3.0%, which were below budgeted salary increases reported in published surveys.

Annual Incentive Compensation

Performance-based incentive compensation gives our executives an opportunity for cash compensation tied to the annual performance of the Company pursuant to the terms of the annual Incentive Compensation Program (the "ICP"). The executive officers' incentive compensation opportunity recognizes their senior-level responsibilities and duties and the competitive environment in which we must recruit and retain our senior management. Actual payouts depend on the achievement of pre-established performance objectives. Payouts can range from 0% to 200% of target award amounts. Target annual incentive compensation opportunities are expressed as a percentage of base salary and were established based on the NEO's level of responsibility and ability to impact overall results. The Committee also considers market data in setting target award amounts. Target award opportunities for 2016 were as follows:

NEO	Target Award Opportunity (as a % of Base Salary)
Philip K. Asherman	150%
Michael S. Taff	90%
Patrick K. Mullen	90%
Luke V. Scorsone	90%
Edgar C. Ray	90%

The Committee annually establishes a set of performance metrics, which drive the annual cash incentive awards for the NEOs. These pre-determined performance metrics are chosen to ensure our NEOs are focused on measures that drive profitable growth and shareholder value creation. Once the payout level under the annual ICP's terms has been determined, the Committee may reduce, but not increase, the amount paid to our executive officers.

2016 Performance Results

The table below illustrates the performance levels necessary to achieve threshold, target and maximum payout amounts, along with actual results for 2016. Performance between threshold and target levels and between target and maximum levels are determined by linear interpolation.

Performance Metric	Weighting	Threshold	Target	Maximum	Actual	Target Payout % Achieved	Target Payout % Achieved Including Negative Discretion (3)
Income from Operations	40%	\$772M	\$908M	\$999M	\$658M	0%	0%
Revenue (1)	20%	\$10.1B	\$11.9B	\$13.1B	\$10.9B	61%	61%
Free Cash Flow (2)	20%	\$725M	\$853M	\$938M	\$812M	76%	76%
Safety measured by:							
Lost Workday Rate	5%	0.05	0.05	0.03	0.02	200%	100%
Recordable Incidents	5%	0.38	0.38	0.25	0.26	192%	96%
Policy and Procedure Implementation Score	10%	4.70	4.75	4.90	4.94	200%	200%
Overall Weighted Achievement Percentage:						67.0%	57.2%

(1) Revenue includes our pro-rata share of revenue for our unconsolidated equity method joint ventures.

(2) Free cash flow is defined as EBITDA (income from operations plus depreciation and intangible amortization) plus changes in contract capital (including advances related to our unconsolidated equity method joint ventures) less

capital expenditures and noncontrolling interests.

- (3) The Committee reduced the payouts associated with both safety measures by 50% due to an increase in certain safety incidents during 2016.

Based on the above results, the NEOs received the following annual cash incentives for 2016:

NEO	Target Award Opportunity (1)	Actual Award Earned (2)
Philip K. Asherman	\$1,956,000	\$1,118,832
Michael S. Taff	\$614,700	\$351,608
Patrick K. Mullen	\$720,000	\$411,840
Luke V. Scorsone	\$605,700	\$346,460
Edgar C. Ray	\$558,900	\$319,691

(1) Target award opportunities are based on salaries as of October 1, 2016.

(2) Includes negative discretion applied to the NEO's safety measures.

Long-Term Incentive Compensation

In keeping with our commitment to provide a total compensation package that favors equity elements of pay, long-term incentives traditionally have comprised a significant portion of an executive's total compensation package. Our objective is to provide executives, when targets are achieved, with long-term incentive award opportunities that are near the 60th percentile of our comparator companies, with the actual realization of the opportunity dependent on the degree of achieving the financial performance or other conditions of the award and the creation of long-term value for shareholders. Because of our focus on pay for performance, various forms of long-term incentive compensation are or may be elements of pay for our executive officers.

In 2016, our annual long-term incentive compensation grants were made using a combination of performance shares and restricted stock units:

Equity Award Type	CEO	Other NEOs
Performance Shares	70%	60%
Performance shares are earned and vest in three tranches (33 1/3% per year) over three 1-year performance periods, provided performance targets are achieved and certified by the Committee		
Restricted Stock Units	30%	40%
Restricted stock units vest in four equal tranches (25% per year) on the anniversary of the grant date		
Performance shares are comprised of two types of equity-based vehicles as shown in the table below. In 2016, the Committee added relative total shareholder return ("TSR") as a long term incentive compensation performance metric.		
Program Element	Performance Metrics	Portion of Award
Long-Term Incentive Compensation:	EPS	80%
Performance Shares	Total Shareholder Return relative to the FLM Global Engineering & Construction Company Index	20%

When granting long-term incentives, we consider each executive officer's levels of responsibility, prior experience, historical award data, various performance criteria and compensation practices at our comparator companies. Applying these factors to our benchmark gives us a target dollar value for executive officer long-term incentive awards. These awards are recommended and approved in the form of this target dollar value. Upon approval of this target dollar value and the vehicles for the award by our Committee, this target dollar value is converted into a number of shares based on the closing price of the Company's stock on the date of the Committee meeting, during which the awards are approved. The table below shows the target dollar values granted for fiscal 2016 for each of the NEOs:

NEO	Performance Shares	Restricted Stock Units	Total Target Value
Philip K. Asherman	\$6,615,000	\$2,835,000	\$9,450,000
Michael S. Taff	\$1,579,800	\$1,053,200	\$2,633,000
Patrick K. Mullen	\$1,579,800	\$1,053,200	\$2,633,000
Luke V. Scorsone	\$1,579,800	\$1,053,200	\$2,633,000
Edgar C. Ray	\$1,332,000	\$888,000	\$2,220,000

Performance Shares Earned and Vested for the 2014-2016 Performance Cycle

The number of performance shares that are earned and vest for each annual award tranche in a performance cycle depends upon the performance achievement shown below. Performance between threshold and target levels and between target and maximum levels are determined by linear interpolation.

Performance Achievement Levels Number of Shares Earned and Vested

Below Threshold	0%
Threshold	50%
Target	100%
Maximum	200%

The following tables show the value of the performance shares that were earned and vested for the 2016 performance cycle:

2016	1 of 3	\$4.47	\$5.25	\$5.77	\$4.23	0%

(1) In accordance with the plan document, in 2016 the Committee modified the EPS targets for the performance shares granted in 2014 and 2015 to exclude the nuclear power construction business sold in 2015.

(2) In accordance with the plan document and the terms of each award, actual performance achieved excludes a non-cash goodwill impairment charge of \$6.35 per diluted share and a charge of \$0.93 per diluted share associated with a reserve for the deferred transaction consideration relating to the 2015 sale of the Company's nuclear operations.

OTHER PRACTICES, POLICIES AND GUIDELINES

Stock Ownership Guidelines

We maintain stock ownership guidelines for our executive officers requiring that they hold certain amounts of our stock. They are:

Title	Multiple of Base Salary
CEO	5.0x
Chief Operating Officer	3.0x
Executive Vice President	3.0x
Vice President	1.0x

Based on industry practice, we allow a five-year period for our executives to meet the stock ownership targets from the date of appointment to the executive position, with periodic progress reporting to the Committee. As of December 31, 2016, all of the NEOs met our stock ownership guidelines. The following count toward stock ownership: stock purchased in the open market; stock acquired through stock option exercise; restricted stock units acquired through vesting; unvested restricted stock units; performance shares acquired through vesting; performance shares granted and unvested at target; stock held in the CB&I 401(k) program; and stock held in the employee stock purchase plan.

Clawback Policy

If there is a restatement of the Company's financial statements due to misconduct or fraud, we have a formal policy to recover, at the direction of the Committee in its sole discretion, all or any part of incentive payments (or, in the case of a stock award, the value realized by sale of the stock) that exceeds the amount that would have been paid to an individual based on the Company's restated financial statements. For this purpose, misconduct or fraud includes any circumstance where the forfeiture of an award is required by law, and any other circumstance where the Committee determines in its sole discretion that an individual (i) personally and knowingly engaged in practices that materially contributed to material noncompliance with any financial reporting requirement, or (ii) had knowledge of such material noncompliance or the circumstances giving rise to such noncompliance and failed to take reasonable steps to bring it to the attention of the appropriate individuals within the Company. Requirements of law include Section 304 of the Sarbanes-Oxley Act, under which, if the Company's financials must be restated as a result of misconduct, then our CEO and CFO must repay incentive compensation, equity based compensation, and stock sale profits if received during the twelve-month period following the initial filing of the financial statements that required restatement.

Anti-Hedging Policy

Our insider trading and anti-hedging policy prohibits employees and directors from engaging in any short-term speculative trading in our stock, as well as hedging and other derivative transactions with respect to our stock.

Change of Control Severance Agreements

We have change of control severance agreements with our CEO and his executive officer direct reports. These agreements are intended to assure the retention and performance of executives if a change of control of the Company is pending or threatened. These agreements are designed to reduce the distraction of our executive officers that might otherwise arise from the personal uncertainties caused by a change of control, to encourage the executive's full attention and dedication to the Company, and to provide the executive with compensation and benefits following a change of control that are consistent with general industry best practices. We describe these agreements in detail beginning on page 30 of this Proxy Statement.

Benefits and Perquisites

In general, we cover executive officers under the benefit programs described below to provide them with the opportunity to save for retirement and to provide a safety net of protection against the loss of income or increase in expense that can result from termination of employment, illness, disability, or death. Apart from change of control arrangements, the benefits we offer to our executive officers are generally the same as those we offer to our salaried employees, with some variation based on industry practices.

Retirement Benefits

401(k) Plan. We offer eligible employees, including our executive officers, the ability to participate in a 401(k) plan, a broad based tax qualified defined contribution plan. Eligible employees may make pre-tax salary deferrals and Roth 401(k) after tax contributions under Section 401(k) of the Internal Revenue Code (the "Code"). A Company matching contribution up to 4% of a participating employee's considered earnings is offered. The potential of an additional discretionary Company contribution is also available to eligible employees who meet specific service criteria; no such discretionary Company contribution was made for 2016. Company contributions are allocated to participants' accounts according to the plan formulas. Participants can invest their accounts in any of a selection of investment funds, plus a Company stock fund for eligible employees.

Excess and Deferred Compensation Plans. The Code limits tax-advantaged benefits for highly compensated employees under the 401(k) Plan in several ways: nondiscrimination rules that restrict their deferrals and matching contributions based on the average deferrals and matching contributions of non-highly compensated employees; limits on the total dollar amount of additional contributions for any employee; limits on the total annual amount of elective deferrals; and a limit on the considered earnings used to determine benefits under the 401(k) Plan.

We maintain an excess benefit plan (the "Excess Plan") to provide retirement benefits for our senior managers (including our executive officers) on the same basis, in proportion to pay, as we provide retirement benefits to all our salaried employees generally. Therefore, we contribute to the Excess Plan the difference between the amount that would have been contributed by the Company to the participants' 401(k) Plan accounts but for the Code limitations, and the contributions the Company actually made to their 401(k) Plan accounts. We make contributions for the Excess Plan to a so-called rabbi trust, with an independent trustee. Earnings on these contributions are determined by

participants' designation of investment funds from the same group of funds (other than the Company stock fund) that is available under the 401(k) Plan. Participants can invest their accounts in any of a selection of mutual funds offered under the Excess Plan.

We also maintain a deferred compensation plan (the "Deferred Compensation Plan"). This allows our senior managers (including our executive officers) to defer part of their salary and part or all of their cash incentive compensation. These deferrals are paid upon retirement or other termination of employment or other scheduled events as elected by the participant. These deferrals are also held in a rabbi trust. Earnings on these deferrals are determined by participants' designation of investment funds from the same group of funds (other than the Company stock fund) that is available under the 401(k) Plan and the Excess Plan.

We have not created any defined benefit, actuarial or supplemental executive retirement plans ("SERPs") for our executive officers or any other U.S. salaried employees. We do, however, sponsor one frozen plan due to a prior acquisition.

Employee Stock Purchase Plan. We maintain an employee stock purchase plan (the "Stock Purchase Plan") intended to qualify under Section 423 of the Code. The Company adopted the Stock Purchase Plan to give eligible employees the opportunity to buy Company stock in a tax-effective manner and thus help align their interests with those of our shareholders generally. Under the Stock Purchase Plan, employees, including executive officers, electing to participate are granted an option to purchase shares on a specified future date. The purchase price is 85% of the fair market value of such shares on the date of purchase. During specified periods preceding the purchase date, each participating employee can designate up to 8% of pay (up to a limit of \$25,000 per calendar year) to be withheld and used to purchase as many shares as such funds allow at the discounted purchase price.

Other Benefits

Our executive officers receive other benefits that we provide to our salaried employees generally. These are:

- Medical benefits, including post-retirement medical benefits for eligible employees who retire;
- Group term life insurance; and
- Short-term and long-term disability protection.

We also provide miscellaneous personal benefits to our senior managers (including our executive officers). These include:

- Leased automobiles or automobile allowance, which facilitate travel on Company business;
- Club dues, where the club enhances opportunities to meet and network with prospective customers and other business leaders;
- Annual physical examinations, to promote good health;
- Services to provide effective tax and financial planning; and
- Travel and temporary housing expenses to those who have relocated in connection with their employment.

We authorize limited personal use of corporate aircraft for our CEO in order to minimize his time away from the office and protect his personal security. He is not required to reimburse us for such use, but is required to pay the associated income taxes. We do not reimburse or gross up any such taxes. Supervisory Board members and executive officers are allowed limited business use of the corporate aircraft per Company policy.

Termination of employment by "retirement" entitles our eligible employees, including our executive officers, to post-retirement vesting in certain incentive compensation and equity awards plus an extended time to exercise stock options, subject to the schedule set forth in the particular award and/or approval of the Committee. Termination of employment by "retirement" also entitles our eligible employees hired before January 1, 2011 to certain post-retirement medical benefits under our current retiree medical plan. Retirement does not entitle our employees to any additional pension or other actuarial plan benefits, such as SERPs, nor to additional contributions or vesting under a 401(k) Plan.

Tax, Accounting and Regulatory Considerations

We take tax, accounting and regulatory requirements into consideration in choosing the particular elements of our compensation and in the procedures we use to set and pay those elements. We want to pay compensation in the most tax-effective manner reasonably possible and therefore take tax considerations into account. As discussed above, our decision to provide restricted stock in the form of restricted stock units rather than restricted stock shares is based on the interplay between The Netherlands taxes and applicable tax credits.

We also consider the requirements of Sections 162(m) and 409A of the Code. Section 162(m) provides that payments of compensation in excess of \$1,000,000 annually to a covered employee (the Chief Executive Officer and each of the three-highest paid executive officers other than the Chief Financial Officer) will not be deductible for purposes of U.S.

corporate income taxes unless it is "performance-based" compensation and is paid pursuant to a plan and procedures meeting certain requirements of the Code. Our annual ICP and LTIP are designed in a form so that eligible performance-based payments under those plans can qualify as deductible performance-based compensation. As we want to promote, recognize and reward performance that increases shareholder value, we rely heavily on performance-based compensation programs, which will normally meet the requirements for "performance-based" compensation under Section 162(m). However, we pay compensation that does not satisfy the requirements of Section 162(m) where we believe that it is in the best overall interests of the Company.

Section 409A provides that deferred compensation (including certain forms of equity awards) is subject to additional income tax and interest, unless it is paid pursuant to a plan and procedures meeting certain requirements of the Code. Report of the Organization and Compensation Committee of the Supervisory Board

We have reviewed and discussed with management the Compensation Discussion and Analysis for the year ended December 31, 2016. Based on that review and discussion, we recommended to the Supervisory Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

Awards under the annual ICP establish threshold (minimum) performance targets, as explained on pages 20 and 21. Incentive compensation becomes payable only to the extent the thresholds are exceeded. The amount payable for (1) target achievement is shown in column (d). The amount shown in column (e) is the maximum of 200% of such target amount. These amounts are based on the individual's current salary and position. The actual payments resulting from these awards for 2016 are shown in column (g) of the Summary Compensation Table.

The amounts shown in column (f) reflect the minimum stock awards of performance shares under our LTIP which is 50% of the target award shown in column (g). The amount shown in column (h) is 200% of such target award. Performance shares granted on February 18, 2016 vest 33 1/3% per year over three 1-year performance periods based on achievement of pre-established EPS targets, while the market performance-based awards granted on (2) February 18, 2016 and included in this column, vest 33 1/3% per year based on the Company's TSR performance against the FLM Global Engineering & Construction Company Index. The grant date fair market value of these awards for 2016 is also included in column (e) of the Summary Compensation Table. The actual stock awards for 2016, based on 2016 performance for these awards plus performance stock awards granted in 2015 and 2014, are discussed on pages 21 and 22.

These awards are restricted stock units made under our LTIP. The awards granted on February 18, 2016 vest 25% per year over four years on the anniversaries of the grant date. If dividends are paid on shares, participants are (3) paid as compensation at the same time and on the same basis as the underlying restricted stock vests at an amount equal to accumulated dividends. The grant date fair market value of these awards is also included in column (e) of the Summary Compensation Table.

(4) The grant date fair market values of stock awards are computed in accordance with FASB ASC Topic 718.
