PARK CITY GROUP REPORTS FIRST QUARTER RESULTS SHOWING
20% INCREASE IN RECURRING REVENUES

Company Bolsters Recurring Revenue with New Subscription Offering

Edgar Filing: PARK CITY GROUP INC - Form 8-K

PARK CITY, UTAH - November 17, 2004 - Park City Group, Inc. (OTCBB: PKCY) announced today the release of its first quarter FY2005 results. The results reflected the success of the Company's expense reduction activities, increased emphasis on consulting services, as well as its transition to increasing recurring revenues from the historically uneven revenues that come from direct software licensing. The Company experienced improved maintenance and subscription service revenues of 20.29% (or \$635,094 as compared to \$528,478) and increased consulting revenues of 39.7% (or \$192,420 as compared to \$137,764). The transition to the recurring revenue model had its expected initial short term impact on the new license revenues which decreased by 70% (or \$162,163 as compared to \$534,388) over the same period last year.

"It should be noted that we anticipated a reduction in short term software licensing revenues in this quarter," notes Park City Group CEO Randy Fields. "We wish to remind our customers and shareholders that as we increase our market penetration into the mid and small range of retailers, PAYGo, our subscription service model, means we anticipate more new name customers; a shorter sales cycle and that their revenues will be distributed over a longer period of time giving us increased recurring revenues and a more predictable revenue stream."

The results of the Company's aggressive plan to reduce expenses but re-channel resources to sales and marketing activities saw a 35% reduction in research and development costs (\$256,081 as compared to \$389,751) and a 7% reduction in general and administrative costs (\$310,109 as compared to \$332,319) and an increase in sales and marketing expenses of 24% (\$293,397 as compared to \$238,120). This resulted in an 11% reduction in expenses overall (\$859,584 as compared to \$960,190).

Fields continues, "We have an aggressive plan for this upcoming year with expectations for significant increases in revenues with commensurate improvement in net profits and cash flow. The close in quarters will reflect the bulk of the transition costs of the new sales model but by year end in June, the plan is to have added significant new customers and a commensurate increase in the recurring revenue stream for the following year. The strengthening of our management team and additions to our support staff have already resulted in improved traction in sales opportunities and substantial progress in our consulting support. We were able to achieve our Q1 financial plan and that bodes well for the balance of the year. The trend of year over year net income continues to improve as we reduced the loss by a substantial 38% compared to last year.
