PROXY STATEMENT

The accompanying proxy is solicited by the Board of Directors (the "Board of Directors") of NovaMed, Inc., a Delaware corporation (the "Company"), for use at the 2010 Annual Meeting of Stockholders (the "Annual Meeting") to be held at 10:00 a.m. Central Time, Wednesday, May 19, 2010, at the Holiday Inn Chicago Mart Plaza, 350 W. Mart Center Drive, Chicago, Illinois 60654, and any adjournments or postponements thereof. This Proxy Statement and accompanying form of proxy are first being mailed to stockholders on or about April 15, 2010.

Record Date and Outstanding Shares The Board of Directors has fixed the close of business on April 5, 2010 as the record date (the "Record Date") for the determination of stockholders entitled to notice of, and to vote at, the Annual Meeting or any adjournments or postponements thereof. As of the Record Date, the Company had outstanding 23,873,894 shares of its common stock, par value \$.01 per share (the "Common Stock"). Each outstanding share of Common Stock is entitled to one vote on all matters to properly come before the Annual Meeting.

Voting of Proxies Thomas S. Hall and Scott T. Macomber, the persons named as proxies on the proxy card accompanying this Proxy Statement, were selected by the Board of Directors to serve in such capacity. Messrs. Hall and Macomber are executive officers of the Company and Mr. Hall is also a director of the Company. The shares represented by each executed and returned proxy will be voted in accordance with the directions indicated thereon, or, if no direction is indicated, such proxy will be voted in accordance with the recommendations of the Board of Directors contained in this Proxy Statement. Each stockholder giving a proxy has the power to revoke it at any time before the shares it represents are voted. Revocation of a proxy is effective upon receipt by the Secretary of the Company of either (1) an instrument revoking the proxy or (2) a duly executed proxy bearing a later date. Additionally, a stockholder may change or revoke a previously executed proxy by voting in person at the Annual Meeting (attendance at the Annual Meeting will not, by itself, revoke a proxy).

If you are a registered stockholder (*i.e.*, you hold your NovaMed Common Stock in certificate form), you may vote by mail, telephone or the Internet. To vote by mail, please complete, sign and return the enclosed form of proxy. To vote by telephone or the Internet, follow the instructions attached to your proxy card. If you vote by telephone or the Internet, you will appoint Messrs. Hall and Macomber as your proxies with the same authority as if you had signed and returned the enclosed form of proxy. The deadline for voting by telephone or the Internet is 11:59 p.m., Eastern Time, on Tuesday, May 18, 2010.

If your shares are held in a stock brokerage account or by a bank or other nominee (sometimes referred to as being held in "street name"), you are considered the beneficial owner of those shares. Your broker, bank or other nominee is considered the stockholder of record of those shares and is forwarding these proxy materials to you. As the beneficial owner, you have the right to direct your broker, bank or other nominee how to vote your shares, and you are also invited to attend the Annual Meeting. However, because you are not the stockholder of record, you may not directly vote those shares unless you obtain a signed proxy from the record holder giving you the right to do so. Your broker, bank or other nominee has enclosed or provided a voting instruction card for you to use in directing it how to vote your shares. If you are a beneficial owner of shares and do not provide your broker, as stockholder of record, with voting

Edgar Filing: NOVAMED INC - Form DEF 14A

instructions, your broker has the authority under applicable stock market rules to vote those shares for or against "routine" matters at its discretion. Where a matter is not considered routine, including the election of the board of directors, shares held by your broker will not be voted absent specific instruction from you, which means your shares may go unvoted and not affect the outcome if you do not specify a vote.

Required Vote The vote of a plurality of the shares of Common Stock voted in person or by proxy is required to elect the nominees for the Class II directors. Stockholders are not allowed to cumulate their votes in the election of directors. The affirmative vote of a majority of the outstanding shares of Common Stock is required to approve amendments to the Certificate of Incorporation to effect the reverse stock split and reduce the number of authorized shares. The affirmative vote of a majority of the shares of Common Stock represented in person or by proxy is required to ratify the appointment of our independent registered public accounting firm for 2010.

Quorum; Abstentions and Broker Non-Votes The required quorum for the transaction of business at the Annual Meeting is a majority of the shares of Common Stock issued and outstanding as of the Record Date. Votes cast by proxy or in person at the Annual Meeting will be tabulated by the inspector of elections appointed for the meeting, and the inspector of elections will determine whether or not a quorum is present. Abstentions and broker non-votes will be included in determining the presence of a quorum. Abstentions and broker non-votes will have no effect on the vote for directors. Abstentions will be considered present and entitled to vote with respect to the election of directors, the ratification of the appointment of our independent registered public accounting firm and approving the amendments to the Certificate of Incorporation and will have the same effect as votes "against" such proposal. Broker non-votes will not be considered present and entitled to vote with respect to the election of directors or approving the amendments to the Certificate of Incorporation and will have no effect on such proposals.

Annual Report to Stockholders; Householding The Company's Annual Report to Stockholders for the year ended December 31, 2009 (the "2009 Annual Report"), containing financial and other information pertaining to the Company, is being furnished to stockholders simultaneously with this Proxy Statement. If you and others who share your mailing address own Common Stock in street name, meaning through a bank or brokerage firm or other nominee, you may have received a notice that your household will receive only one annual report and proxy statement from each company whose stock is held in such accounts. This practice, known as "householding," is designed to reduce the volume of duplicate information and reduce printing and postage costs. Unless you responded that you did not want to participate in householding, you were deemed to have consented to it, and a single copy of this Proxy Statement and the 2009 Annual Report have been sent to your address. Each stockholder will continue to receive a separate voting instruction form.

If you would like to revoke your consent to householding and in the future receive your own set of proxy materials or if your household is currently receiving multiple copies of the proxy materials and you would like in the future to receive only a single set of proxy materials at your address, please submit a request to our Secretary in writing addressed to NovaMed, Inc., 333 West Wacker Drive, Suite 1010, Chicago, Illinois 60606, or by telephone at (312) 664-4100. Please note that the Company relocated its Chicago office in December 2009 from 980 North Michigan Avenue, Suite 1620, Chicago, Illinois 60611 to 333 West Wacker Drive, Suite 1010, Chicago, Illinois 60606.

If you would like an additional copy of the 2009 Annual Report or this Proxy Statement, these documents are available in digital form for download or review by visiting "Financial Reports" and "SEC Filings" on our Investor Relations page at www.novamed.com. Alternatively, we will promptly send a copy to you upon your request to us by mail to Investor Relations, NovaMed, Inc., 333 West Wacker Drive, Suite 1010, Chicago, Illinois 60606, or by calling (312) 664-4100.

**PROPOSAL NO. 1
ELECTION OF DIRECTORS**

The Company's Board of Directors currently consists of six directors. Article V of the Company's Certificate of Incorporation provides that the Board of Directors will be divided into three classes, with each class serving for a term of three years. At the Annual Meeting, two Class II directors will be elected for a term of three years expiring at the Company's 2013 Annual Meeting of Stockholders. Both of the nominees are presently serving as directors of the Company. See "Nominees" below.

The four directors whose terms of office do not expire in 2010 will continue to serve after the Annual Meeting until such time as their respective terms of office expire or their successors are duly elected and qualified. See "Other Directors" below.

The Board of Directors has determined that both of the nominees and all of the other directors of the Company are qualified to serve as directors of the Company. In addition to the specific business experience listed below, each of the nominees and current directors has the tangible and intangible skills and attributes which we believe are required to be an effective director of the Company, including experience at senior levels in areas of expertise helpful to the Company, a willingness and commitment to assume the responsibilities required of a director of the Company and the character and integrity we expect of our directors.

If at the time of the Annual Meeting any of the nominees should be unable or decline to serve, the persons named in the proxy will vote for such substitute nominee or nominees as the Board of Directors recommends, or vote to allow the vacancy created thereby to remain open until filled by the Board of Directors, as the Board of Directors recommends. The Board of Directors has no reason to believe that any nominee will be unable or decline to serve as a director if elected.

The Board of Directors has determined that Messrs. Kelly and Piccolo are independent in accordance with applicable rules of The NASDAQ Stock Market. Messrs. Kelly and Piccolo are not officers or employees of the Company or its subsidiaries, and they do not have any other relationships with the Company which, in the opinion of the Board of Directors, would interfere with the exercise of their independent judgment in carrying out their responsibilities as a director.

The Board of Directors recommends that stockholders vote FOR each nominee for election as a Class II director.

Mr. Jessup has been a director of the Company since November 1998. He is currently a director of CorVel Corporation, an independent nationwide provider of medical cost containment and managed care services. Mr. Jessup most recently served as President of US Labs, a national reference laboratory specializing in cancer testing, from April 2002 until its sale to LabCorp in February 2005. Mr. Jessup also serves as a director of AccentCare, Inc., Xifin, Inc. and Superior Vision Services, all of which are privately held companies.

Mr. Napolitano has been a director of the Company since January 1997. Mr. Napolitano is a partner in the law firm of DLA Piper LLP (US) where he has practiced since September 2007. Mr. Napolitano is the chair of the firm's U.S. private equity group. Prior to joining DLA Piper, Mr. Napolitano was a partner in the law firm of Winston & Strawn LLP. The Company has retained, and continues to retain, DLA Piper as outside legal counsel.

We believe that Mr. Napolitano's qualifications to serve on our Board of Directors include his significant legal background and experience in corporate governance and knowledge of the Company's business and industry.

The Board of Directors has determined that Messrs. Jessup and Napolitano are independent in accordance with applicable rules of The NASDAQ Stock Market. Messrs. Jessup and Napolitano are not officers or employees of the Company or its subsidiaries, and they do not have any other relationships with the Company which, in the opinion of the Board of Directors, would interfere with the exercise of their independent judgment in carrying out their responsibilities as directors.

Meetings During the year ended December 31, 2009, the Board of Directors held four meetings. Each of the Company's directors attended at least 75% of the aggregate of the total number of board meetings held and the total number of committee meetings on which he served that were held during 2009. Although the Company has no formal policy with respect to director attendance at the Annual Meeting, all of the current directors are expected to attend the Annual Meeting unless prevented from doing so by compelling personal circumstances. All of last year's directors attended the 2009 Annual Meeting.

Committees of the Board of Directors The Board of Directors has established an Audit Committee, a Compensation Committee and a Nominating Committee, each comprised entirely of directors who are neither officers or employees of the Company or its subsidiaries nor individuals having any other relationships with the Company which, in the opinion of the Board of Directors, would interfere with the exercise of such director's independent judgment in carrying out their responsibilities as directors. The

Board of Directors has adopted a written charter for each of these committees, copies of which are available on our website at www.novamed.com. Messrs. Jessup, Kelly and Piccolo serve as the three members of the Audit Committee and Compensation Committee. Messrs. Jessup and Piccolo serve as the two members of the Nominating Committee.

Audit Committee

The Audit Committee generally has the responsibility for assessing processes related to risks and control environment, overseeing financial reporting, evaluating the independent audit process, evaluating internal accounting controls, overseeing the selection of the Company's independent registered public accounting firm, approving audit and permissible non-audit services and reporting to the Board of Directors regarding all of the foregoing. The Audit Committee held four meetings in 2009. The Board of Directors, in its business judgment, has determined that all of the members of the Audit Committee are "independent" under the listing standards of the NASDAQ Stock Market. The Board of Directors has determined that Mr. Kelly is an "audit committee financial expert" as defined under the rules of the Securities and Exchange Commission. Also see "Report of the Audit Committee of the Board of Directors."

Compensation Committee

The Compensation Committee generally has responsibility for recommending to the Board of Directors guidelines and standards relating to the determination of executive and key employee compensation, reviewing the Company's executive compensation policies, recommending to the Board of Directors compensation for the Company's executive officers, and reporting to the Board of Directors regarding the foregoing. The Compensation Committee also has responsibility for administering the Company's stock incentive plans and executive incentive compensation plan, which includes determining the amount of the awards to be provided thereunder to the Company's executive officers and key employees and reporting to the Board of Directors regarding the foregoing. The Compensation Committee held two meetings in 2009. See "Compensation Discussion and Analysis."

From time to time the Compensation Committee may delegate authority to fulfill various functions of administering the Company's plans to employees of the Company. Specifically, the Compensation Committee has delegated limited authority under its stock incentive plans to our principal executive officer to grant stock options to non-executive officer employees provided that no grant may exceed 10,000 shares. In addition, our principal executive officer makes various recommendations to the Compensation Committee regarding the amount and form of compensation for other executives of the Company, including the other named executive officers.

In addition, the Compensation Committee has authority to engage the services of outside advisers to assist the Committee. To date, the Compensation Committee has not engaged an independent compensation consulting firm.

Nominating Committee

The Nominating Committee generally has the responsibility for periodically reviewing the composition and structure of the Board so that the proper skills and experience are represented, identifying, recruiting and recommending candidates for election to the Board of Directors, recommending to the Board of Directors the membership of the various committees of the Board of Directors and reviewing the compensation of the directors and making recommendations to the Board of Directors regarding such compensation. The Nominating Committee has the authority to hire and pay consultants or search firms to assist in the process of identifying and evaluating candidates for the Board of Directors. Except for the Company's search for a new President and Chief Executive Officer, which resulted in the appointment of Mr. Hall to these positions in November 2005 and his election to the Board of Directors,

no such consultants or search firms have been used by the Nominating Committee to locate potential directors and, accordingly, no fees have been paid to consultants or search firms. The Board of Directors, in its business judgment, has determined that all of the members of the Nominating Committee are "independent" under the listing standards of the NASDAQ Stock Market. The Nominating Committee did not hold any meetings in 2009.

The Nominating Committee will consider candidates for the Board from any reasonable source, including stockholder recommendations that are tendered in accordance with the Company's By-laws. In nominating directors, the Nominating Committee considers a variety of factors, including whether an individual has experience as a senior executive of a company in the healthcare industry or at a public corporation, experience in the management or leadership of a substantial business enterprise or such other professional experience as the Board determines will qualify an individual for service on the Board. The Board also strives to achieve an effective balance and diversity of experience and expertise, including operational and financial expertise. In considering candidates for the Board, the Nominating Committee will evaluate the entirety of each candidate's credentials. There are no specific minimum qualifications that must be met by a potential nominee. Stockholders who wish to nominate an individual for election as a director at an annual meeting of stockholders must comply with the provisions in the Company's By-laws regarding stockholder nominations. Generally, stockholder nominations must be made in writing and delivered or mailed to the Secretary of NovaMed, Inc. not less than 45 days nor more than 75 days prior to the first anniversary of the date on which the proxy statement for the preceding year's annual meeting of stockholders was mailed. Each stockholder nomination must contain the following information: (a) the name and address of each proposed nominee, all information relating to such person as would be required to be disclosed in solicitation of proxies for the election of the nominee pursuant to Regulation 14A of the Securities Exchange Act of 1934, as amended; (b) the nominee's written consent to serve as a director if elected; (c) the name and address of the nominating stockholder; (d) the number of shares of Common Stock that are owned and of record by such stockholder; and (e) whether such stockholder intends to deliver a proxy statement and form of proxy to holders of a sufficient number of shares of Common Stock to elect such nominee or nominees. Nominations for the 2011 Annual Meeting must be received no earlier than January 30, 2011 and no later than March 1, 2011. Nominations not made in accordance with all of the requirements contained in the Company's By-laws will be disregarded. The Company does not have any other procedures for stockholders to submit nominees directly to the Board of Directors.

Board of Directors Leadership Structure The Board believes that the Company's Chief Executive Officer is best situated to serve as Chairman because he is the director most familiar with the Company's business and industry, and most capable of effectively identifying strategic priorities and leading the discussion and execution of strategy. Independent directors and management have different perspectives and roles in strategy development. The Company's independent directors bring experience, oversight and expertise from outside the company and industry, while the Chief Executive Officer brings company-specific experience and expertise. The Board believes that the combined role of Chairman and Chief Executive Officer promotes strategy development and execution, and facilitates information flow between management and the Board, which are essential to effective governance.

One of the key responsibilities of the Board is to develop strategic direction and hold management accountable for the execution of strategy once it is developed. The Board believes the combined role of Chairman and Chief Executive Officer, together with an independent Lead Director having the duties described below, is in the best interest of stockholders because it provides the appropriate balance between strategy development and independent oversight of management.

Lead Director Robert J. Kelly, an independent director who serves as chairman of the Audit Committee and as a member of the Compensation Committee, was selected by the Board to serve as the Lead Director for all meetings of the non-management directors held in executive session. The Lead Director has the responsibility of presiding at all executive sessions of the Board, consulting with the

Chairman and Chief Executive Officer on Board and committee meeting agendas, acting as a liaison between management and the non-management directors, including maintaining frequent contact with the Chairman and Chief Executive Officer and advising him on the efficiency of the board meetings, facilitating teamwork and communication between the non-management directors and management.

The Role of the Board of Directors in Risk Oversight The role of the Board of Directors in our risk oversight process includes receiving regular reports and communications from members of senior management on areas of material risk, including operational, financial, legal and regulatory, and strategic and reputational risks. The Board of Directors (or the appropriate committee) receives these reports from senior management to enable it to understand our risk identification, risk management and risk mitigation strategies. When a committee receives such a report, the chairman of the relevant committee reports on the discussion to the full Board of Directors at the next meeting of the Board of Directors. This enables the Board of Directors and its committees to coordinate the risk oversight role, particularly with respect to risk interrelationships. As part of its charter, the Audit Committee discusses our policies with respect to risk assessment and risk management.

Stockholder Communications with Directors Stockholders wishing to contact any member (or all members) of the Board of Directors, any committee of the Board, or any chair of any such committee may do so by mail, addressed, either by name or title, to the Board of Directors or to any such individual directors or group or committee of directors. All such correspondence should be sent to 333 West Wacker Drive, Suite 1010, Chicago, Illinois 60606. Stockholder communications to directors will first be opened by the Secretary's office for the purpose of determining whether the contents represent a message to our directors before being forwarded to the addressee. In addition, the Secretary's office will make, if necessary, sufficient copies of the contents to be forwarded to each director who is a member of the group or committee to which the communication is addressed. However, certain kinds of information, such as materials in the nature of advertising, promotions of a product or service and patently offensive material will not be forwarded to our directors.

Code of Ethics The Board of Directors has adopted a compliance plan for the Company that includes a code of ethics that applies to the Company's principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions. The Company will furnish a copy of its compliance plan to any person, without charge, upon written request to the Secretary.

In 1999, Mr. Macomber served as Executive Vice President and Chief Financial Officer of PeopleServe, Inc., a privately held health care services provider located in Dublin, Ohio. From before its initial public offering in 1992 through 1998, Mr. Macomber served as Senior Vice President and Chief Financial Officer of Vitalink Pharmacy Services, Inc., an institutional pharmacy provider located in Naperville, Illinois. Mr. Macomber also spent 12 years in various financial, acquisition and development positions at Manor Care, Inc., one of the largest long-term care providers in the industry. Section 16(a) Beneficial Ownership Reporting Compliance Section 16 of the Securities Exchange Act of 1934, as amended, requires the Company's officers (as defined under Section 16), directors and persons who beneficially own greater than 10% of a registered class of the Company's equity securities to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Based solely on a review of the forms it has received and on written representations from certain reporting persons that no such forms were required for them, the Company believes that, during 2009, all Section 16 filing requirements applicable to its officers, directors and 10% beneficial owners were complied with by such reporting persons, except R. Judd Jessup failed to file a timely Form 4 in connection with the sale of shares of Common Stock on November 27, 2009. This transaction was reported on a Form 4 filed by Mr. Jessup on December 4, 2009.

PROPOSAL NO. 2.
APPROVAL OF AN AMENDMENT TO THE COMPANY'S
CERTIFICATE OF INCORPORATION TO EFFECT A REVERSE STOCK SPLIT
AND
PROPOSAL NO. 3.
APPROVAL OF AN AMENDMENT TO THE COMPANY'S
CERTIFICATE OF INCORPORATION TO REDUCE THE NUMBER OF AUTHORIZED SHARES

The Company is asking stockholders to approve an amendment to the Company's Certificate of Incorporation, subject to the Board of Directors' authority to abandon such amendment, to:

effect a reverse stock split of all the existing shares of common stock of the Company at a reverse stock split ratio of 1-for-3;
and

reduce the total number of shares that the Company is authorized to issue from 100,000,000 shares consisting of 81,761,465 shares of common stock and 18,238,535 shares of preferred stock to 33,333,000 shares consisting of 27,253,000 shares of common stock and 6,080,000 shares of preferred stock.

The Company is asking stockholders to vote on two proposals separately: the reverse stock split and the reduction in the number of authorized shares. There are four possible voting outcomes for these proposals: (1) stockholders approve both proposals; (2) stockholders approve the reverse stock split but do not approve the reduction in the number of authorized shares; (3) stockholders approve the reduction in the number of authorized shares but do not approve the reverse stock split; or (4) stockholders do not approve either proposal. **THE BOARD OF DIRECTORS RECOMMENDS THAT THE STOCKHOLDERS APPROVE BOTH PROPOSALS.**

The Board of Directors will take action based on the actual voting outcome as follows:

Stockholders approve both proposals. If the stockholders approve both proposals, the Board of Directors would effect the reverse stock split and the reduction in the number of authorized shares by causing a Certificate of Amendment to the Company's Certificate of Incorporation in the form attached to this Proxy Statement as Appendix A to be filed with the Secretary of State of the State of Delaware. The Board of Directors may determine in its discretion not to effect the reverse stock split and reduction in the number of authorized shares and not to file the amendment to the Company's Certificate of Incorporation if the Board of Directors determines that the reverse stock split or reduction in the number of authorized shares would not be in the best interests of the Company and its stockholders. No further action on the part of stockholders will be required to either implement or abandon the reverse stock split and the reduction in the number of authorized shares.

Stockholders approve the reverse stock split but not the reduction in the number of authorized shares. If the stockholders approve the proposal to effect the reverse stock split, but do not approve the reduction in the number of authorized shares, the Board of Directors would effect the reverse stock split without a corresponding reduction in the number of authorized shares by causing a Certificate of Amendment to the Company's Certificate of Incorporation in the form attached to this Proxy Statement as Appendix B to be filed with the Secretary of State of the State of Delaware. The Board of Directors may determine in its discretion not to effect the reverse stock split and not to file the amendment to the Company's Certificate of Incorporation if the Board of Directors determines that the reverse stock split would not be in the best interests of the Company and its stockholders. No further action on the part of stockholders will be required to either implement or abandon the reverse stock split.

Stockholders approve the reduction in the number of authorized shares but not the reverse stock split. The Board of Directors will not implement a reduction in the number of authorized shares without

Edgar Filing: NOVAMED INC - Form DEF 14A

a reverse stock split. If the stockholders approve only the reduction in the number of authorized shares, but not the proposal to effect the reverse stock split, the Board of Directors would not file any Certificate of Amendment to the Company's Certificate of Incorporation and would not effect a reverse stock split or a reduction in the number of authorized shares.

Stockholders do not approve either proposal. If the stockholders do not approve either proposal, the Board of Directors would not have the authority to file any Certificate of Amendment to the Company's Certificate of Incorporation and would not effect a reverse stock split or a reduction in the number of authorized shares.

Purpose of the Reverse Stock Split and Reduction in the Number of Authorized Shares of Common Stock

The Board of Directors believes that it is in the best interests of the Company and its stockholders to reduce the number of issued and outstanding shares through a reverse stock split. Immediately following the completion of the reverse stock split, the number of shares of common stock issued and outstanding or held in treasury will be reduced proportionately based on the reverse stock split ratio of 1-for-3.

The Board of Directors further believes that the increased price per share of common stock expected as a result of implementing the reverse stock split may improve marketability of the common stock and may encourage interest and trading in the common stock. For example:

The Board of Directors believes that some institutional investors and investment funds may be reluctant to invest, and in some cases may be prohibited from investing, in stocks with a price per share lower than \$5 and that brokerage firms may be reluctant to recommend stocks with a price per share lower than \$5 to their clients. The reverse stock split may increase the likelihood that the common stock market price will be at a level that would be viewed more favorably by potential investors.

The Board of Directors believes that stockholders may not be able to borrow against their shares of common stock if the per share stock price is less than \$5 per share. The Board of Directors believes that the ability of stockholders to borrow against their shares may encourage ownership of the common stock by enabling stockholders to borrow against the common stock.

Brokerage commissions, as a percentage of the total transaction, tend to be higher for stocks with a lower price per share. As a result, certain investors may also be dissuaded from purchasing stocks with a lower price per share. A higher stock price after the reverse stock split may reduce this concern.

The Board of Directors believes it is appropriate to reduce the authorized number of shares from 100,000,000 shares consisting of 81,761,465 shares of common stock and 18,238,535 shares of preferred stock to 33,333,000 shares consisting of 27,253,000 shares of common stock and 6,080,000 shares of preferred stock in connection with the reverse stock split. As a result, the reverse stock split would not result in a substantial increase in the amount of authorized but unissued shares of common stock and in the ratio of authorized but unissued shares of common stock to issued and outstanding shares of common stock.

Board Discretion to Implement the Reverse Stock Split and Reduction in the Number of Authorized Shares

The Board of Directors expects to implement the reverse stock split, if authorized, either with or without the reduction in the number of authorized shares, depending on stockholder authorization, shortly following the Annual Meeting. However, the Board of Directors will not implement the reverse stock split if the Board of Directors determines that the reverse stock split or a reduction in the number of authorized shares, if authorized by the stockholders, would not be in the best interests of the Company and its

stockholders. In making such determination, the Board of Directors will consider a number of factors, including existing and expected marketability and liquidity of the common stock, prevailing market conditions, the likely effect on the market price of our common stock and any other material information that becomes available to the Board of Directors.

If the Board of Directors has not implemented the reverse stock split by the 2011 Annual Meeting of Stockholders, stockholder approval would be required again prior to implementing any reverse stock split.

No further action on the part of stockholders will be required to either implement or abandon the reverse stock split and, if authorized by the stockholders, the reduction in the number of authorized shares. If the reverse stock split proposal is approved by stockholders and the Board of Directors determines to implement the reverse stock split, either with or without the reduction in the number of authorized shares, depending on stockholder authorization, the Company would communicate to the public, prior to the effective date of the reverse stock split, additional details regarding the reverse stock split.

Risks of Proposed Reverse Split

The proposed reverse stock split may not increase the Company's stock price over the long-term, which would prevent the Company from realizing some of the anticipated benefits of the reverse stock split.

The Company's board of directors expects that a reverse stock split of the Company's common stock will increase the market price of the common stock. However, the effect of a reverse stock split upon the market price of the Company's common stock cannot be predicted with any certainty, and the history of similar stock split combinations for companies in like circumstances is varied. It is possible that the per share price of the Company's common stock after the reverse stock split will not rise in proportion to the reduction in the number of shares of common stock outstanding resulting from the reverse stock split, and there can be no assurance that the market price per post-reverse split share will either exceed or remain in excess of the post-reverse split share price for a sustained period of time. The market price of the Company's common stock may be based also on other factors which may be unrelated to the number of shares outstanding, including the Company's future performance.

The proposed reverse stock split may decrease the liquidity of the Company's stock.

The liquidity of the Company's common stock may be harmed by the proposed reverse split given the reduced number of shares that would be outstanding after the reverse stock split, particularly if the stock price does not increase as a result of the reverse stock split.

The Company's total market capitalization immediately after the proposed reverse stock split may be lower than immediately before the proposed reverse stock split.

There are numerous factors and contingencies that could affect the Company's stock price following the proposed reverse stock split, including the status of the market for the Company's stock at the time, the Company's reported results of operations in future periods, and general economic, market and industry conditions. Accordingly, the market price of the Company's common stock may not be sustainable at the direct arithmetic result of the reverse stock split (for example, based on the closing price of the Company's common stock on the NASDAQ Global Select Market on the record date of \$3.68 per share, the direct arithmetic result of the reverse stock split would be a post-split market price for the Company's common stock of \$11.04 per share). If the market price of the Company's common stock declines after the reverse stock split, the Company's total market capitalization (the aggregate value of all of the Company's outstanding common stock at the then existing market price) after the split will be lower than before the split.

Edgar Filing: NOVAMED INC - Form DEF 14A

The reverse stock split may result in some stockholders owning "odd lots" that may be more difficult to sell or require greater transaction costs per share to sell.

The reverse stock split may result in some stockholders owning "odd lots" of less than 100 shares of the Company's common stock on a post-split basis. Odd lots may be more difficult to sell, or require greater transaction costs per share to sell, than shares in "round lots" of even multiples of 100 shares.

Effect on the Number of Authorized Shares

Although the proposed reverse stock split will not affect the rights of stockholders or any stockholder's proportionate equity interest in the Company, subject to the treatment of fractional shares, if the stockholders approve the reverse stock split, but do not approve the corresponding reduction in the number of authorized shares, the number of authorized but unissued shares of common stock would increase substantially. The issuance in the future of authorized shares may have the effect of diluting the earnings per share and book value per share, and the stock ownership and voting rights of the currently outstanding shares of common stock. In addition, the increase in the number of authorized but unissued shares may be construed as having an anti-takeover effect. The Company is not proposing the reverse stock split for the purpose of increasing the number of authorized shares and the Company does not currently have plans to issue any of the authorized shares. However, the Company could, subject to the Board of Directors' fiduciary duties and applicable law, issue such additional authorized shares to purchasers who might oppose a hostile takeover bid or any efforts to amend or repeal certain provisions of the Certificate of Incorporation or bylaws. Such a use of these additional authorized shares could render more difficult, or discourage, an attempt to acquire control of the Company through a transaction opposed by the Board of Directors.

Impact of the Proposed Reverse Stock Split and Reduction in the Number of Authorized Shares if Implemented

The reverse stock split would affect all of the Company's stockholders uniformly and would not affect any stockholder's percentage ownership interests or proportionate voting power, except to the extent that the reverse stock split could result in any of the Company's stockholders receiving cash in lieu of a fractional share. As described below, stockholders otherwise entitled to fractional shares as a result of the reverse stock split will receive cash payments in lieu of such fractional shares. These cash payments will reduce the number of post-reverse stock split stockholders to the extent there are presently stockholders who would otherwise receive less than one share of common stock after the reverse stock split. The other principal effects of the reverse stock split will be that:

the number of issued and outstanding shares of common stock will be reduced proportionately based on the reverse stock split ratio of 1-for-3;

based on the reverse stock split ratio of 1-for-3, the per share exercise price of all outstanding option awards will be increased proportionately, and the number of shares of common stock issuable upon the exercise of all outstanding option awards and the vesting of all unvested restricted stock units will be reduced proportionately. These adjustments will result in approximately the same aggregate exercise price being required to be paid for all outstanding option awards upon exercise, although the aggregate number of shares issuable upon the exercise of such option awards will be reduced proportionately following the reverse stock split;

the number of shares reserved for issuance and any maximum number of shares with respect to which equity awards may be granted to any participant under the Company's equity-based compensation plans will be reduced proportionately based on the reverse stock split ratio of 1-for-3; and

Edgar Filing: NOVAMED INC - Form DEF 14A

in addition, the reverse stock split will likely increase the number of stockholders who own odd lots (less than 100 shares). Stockholders who hold odd lots may experience an increase in the cost of selling their shares and may have greater difficulty in executing sales.

The reduction in the number of authorized shares would reduce the total number of shares that the Company may issue from 100,000,000 shares consisting of 81,761,465 shares of common stock and 18,238,535 shares of preferred stock to 33,333,000 shares consisting of 27,253,000 shares of common stock and 6,080,000 shares of preferred stock.

Although the number of outstanding shares of common stock would decrease following the proposed reverse stock split, the reverse stock split is not the first step in a "going private transaction" within the meaning of Rule 13e-3 of the Securities Exchange Act of 1934.

Fractional Shares

Stockholders will not receive fractional post-reverse stock split shares in connection with the reverse stock split. Stockholders who would otherwise hold fractional shares as a result of the reverse stock split will be entitled to receive cash (without interest) in lieu of such fractional shares from our transfer agent without any further action by any stockholder who holds shares in book-entry form, and where shares are held in certificated form, upon receipt by our transfer agent of a properly completed and duly executed transmittal letter and the surrender of all pre-reverse stock split certificates, in each case, in an amount equal to the proceeds attributable to the sale of such fractional shares following the aggregation and sale by our transfer agent of all fractional shares otherwise issuable.

No transaction costs will be assessed on stockholders for the cash payment. You should also be aware that, under the escheat laws of certain jurisdictions, sums due for fractional interests that are not timely claimed after the funds are made available may be required to be paid to the designated agent for each such jurisdiction. Thereafter, stockholders otherwise entitled to receive such funds may have to obtain the funds directly from the state to which they were paid.

If you believe that you may not hold sufficient shares of common stock at the effective date of the reverse stock split to receive at least one share in the reverse stock split and you want to continue to hold common stock after the split, you may do so by either:

purchasing a sufficient number of shares of common stock; or

if you have shares of common stock in more than one account, consolidating your accounts,

so that in each case you hold a number of shares of common stock in your account prior to the reverse stock split that would entitle you to receive at least one share of common stock on a post-reverse stock split basis. Shares of common stock held in registered form (that is, stock held by you in your own name in the Company's stock register records maintained by our transfer agent) and stock held in "street name" (that is, stock held by you through a bank, broker or other nominee) for the same investor will be considered held in separate accounts and will not be aggregated when effecting the reverse stock split.

Effect on Registered and Beneficial Stockholders

Upon the reverse stock split, we intend to treat stockholders holding shares of common stock in "street name" (that is, held through a bank, broker or other nominee) in the same manner as registered stockholders whose shares of common stock are registered in their names. Banks, brokers or other nominees will be instructed to effect the reverse stock split for their beneficial holders holding shares of common stock in "street name;" however, these banks, brokers or other nominees may apply their own specific procedures for processing the reverse stock split. If you hold your shares of common stock with a bank, broker or other nominee, and if you have any questions in this regard, we encourage you to contact your nominee.

Effect on Registered Certificated Shares

Some registered stockholders hold their shares of common stock in certificate form. If any of your shares of common stock are held in certificate form, you will receive a transmittal letter from the Company's transfer agent as soon as practicable after the effective date of the reverse stock split. The transmittal letter will be accompanied by instructions specifying how you can exchange your certificate representing the pre-reverse stock split shares of common stock for a stock certificate representing the post-reverse stock split shares of common stock.

Beginning on the effective date of the reverse stock split, each certificate representing pre-reverse stock split shares will be deemed for all corporate purposes to evidence ownership of post-reverse stock split shares. If you are entitled to a payment in lieu of any fractional share interest, payment will be made as described above under "Fractional Shares."

STOCKHOLDERS SHOULD NOT DESTROY ANY SHARE CERTIFICATE(S) AND SHOULD NOT SUBMIT ANY CERTIFICATE(S) UNTIL REQUESTED TO DO SO.

Accounting Consequences

The par value per share of common stock will remain unchanged at \$0.01 per share after the reverse stock split. As a result, on the effective date of the reverse stock split, the stated capital on the Company's balance sheet attributable to common stock will be reduced proportionately based on the reverse stock split ratio of 1-for-3, from its present amount, and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. Any shares of common stock held in treasury will also be reduced proportionately based on the reverse stock split ratio of 1-for-3. After the reverse stock split, net income or loss per share, and other per share amounts will be increased because there will be fewer shares of common stock outstanding. In future financial statements, net income or loss per share and other per share amounts for periods ending before the reverse stock split would be recast to give retroactive effect to the reverse stock split. As described above under "Impact of the Proposed Reverse Stock Split if Implemented," the per share exercise price of outstanding option awards would increase proportionately, and the number of shares of common stock issuable upon the exercise of outstanding options and upon the vesting of unvested restricted stock unit awards would decrease proportionately, in each case based on the reverse stock ratio. The Company does not anticipate that any other accounting consequences would arise as a result of the reverse stock split.

No Appraisal Rights

Stockholders will not have dissenters' or appraisal rights under Delaware corporate law or under the Company's Certificate of Incorporation in connection with the proposed reverse stock split.

Procedure for Effecting Reverse Stock Split

If the stockholders approve the proposal and the Board of Directors implements the reverse stock split, the reverse stock split will become effective at the time and on the date of the filing of, or at such later time as is specified in, the Certificate of Amendment to the Company's Certificate of Incorporation, which is referred to as the effective date of the reverse stock split. Beginning on the effective date of the reverse stock split, each certificate representing pre-reverse stock split shares of common stock will be deemed for all corporate purposes to evidence ownership of post-reverse stock split shares of common stock.

Federal Income Tax Consequences of the Reverse Stock Split

The following is a discussion of certain material U.S. federal income tax consequences of the reverse stock split. This discussion is included for general information purposes only and does not purport to

address all aspects of U.S. federal income tax law that may be relevant to stockholders in light of their particular circumstances. This discussion is based on the Internal Revenue Code of 1986, as amended (the "Code"), and current Treasury regulations, administrative rulings and court decisions, all of which are subject to change, possibly on a retroactive basis, and any such change could affect the continuing validity of this discussion.

All stockholders are urged to consult with their own tax advisors with respect to the tax consequences of the reverse stock split. This discussion does not address the tax consequences to stockholders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, partnerships, nonresident alien individuals, broker-dealers and tax-exempt entities. This discussion likewise does not address any consequences to a person or entity that is not a "United States person" for U.S. federal income tax purposes. This summary also assumes that the pre-reverse stock split shares were, and the post-reverse stock split shares will be, held as a "capital asset," as defined in Section 1221 of the Code.

Other than the cash payments for fractional shares discussed above, no gain or loss should be recognized by a stockholder upon the exchange of pre-reverse stock split shares for post-reverse stock split shares. The aggregate tax basis of the post-reverse stock split shares will be the same as the aggregate tax basis of the pre-reverse stock split shares exchanged in the reverse stock split, reduced by the amount allocable to any fractional share for which cash is received; the amount allocable to a fractional share is that portion of the aggregate tax basis of the pre-reverse stock split shares exchanged by the stockholder which is equal to the ratio of (i) the fair market value of the fractional share that would have been issued to (ii) the sum of the fair market value of such hypothetical fractional share and the aggregate fair market value of the post-reverse stock split whole shares received by the stockholder. A stockholder's holding period in the post-reverse stock split shares will include the period during which the stockholder held the pre-reverse stock split shares exchanged in the reverse stock split.

In general, the receipt of cash instead of a fractional share will result in a taxable gain or loss to such holder for U.S. federal income tax purposes. The amount of the taxable gain or loss will be determined based upon the difference between the amount of cash received by such holder and the portion of the basis of the pre-reverse stock split shares allocable to the hypothetical fractional share as described above. The gain or loss recognized will constitute capital gain or loss and will constitute long-term capital gain or loss if the holder's holding period for the pre-reverse stock split shares is greater than one year as of the effective date of the reverse stock split.

Vote Required for Approval

The affirmative vote of holders of a majority of the outstanding shares of common stock entitled to vote at the Annual Meeting is required to approve the Company's proposal to approve the amendment to the Certificate of Incorporation to effect the reverse stock split and to approve an amendment to the Certificate of Incorporation to reduce the number of authorized shares, subject to the Board of Directors' authority to abandon such amendments.

Recommendation

The Board of Directors recommends that stockholders vote FOR approval of an amendment to the Company's Certificate of Incorporation to effect a reverse stock split and FOR approval of an amendment to the Company's Certificate of Incorporation to reduce the number of authorized shares.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The Audit Committee was appointed by the Board of Directors to assist it in overseeing the quality and integrity of the Company's financial reports, financial reporting processes and internal control system, the performance and independence of the Company's independent registered public accounting firm and related matters. The Audit Committee also considers questions of related party transactions and conflicts of interest between the Company and Board members or senior management. The Audit Committee operates under a written charter adopted by the Board of Directors.

Management is responsible for the Company's financial reporting process, including its system of internal control and disclosure controls and procedures, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. The Company's independent registered public accounting firm is responsible for auditing those consolidated financial statements and expressing an opinion as to whether those consolidated financial statements are free of material misstatement and presented in accordance with generally accepted accounting principles. The Audit Committee's responsibility is to oversee, monitor and review these processes. In fulfilling these responsibilities, the Audit Committee has not conducted auditing or accounting reviews or procedures, and the Audit Committee has relied on management's representation that the consolidated financial statements have been prepared with integrity and objectivity and in conformity with generally accepted accounting principles and on the representations of the independent registered public accounting firm included in its report on the Company's consolidated financial statements.

The Audit Committee meets periodically with the Company's management and its independent registered public accounting firm to discuss the Company's financial reports, financial reporting processes and internal control system and other related items. The Audit Committee's discussions with its independent registered public accounting firm include sessions at which management is not present. The Company's independent registered public accountant, BDO Seidman, LLP ("BDO"), has had unrestricted access to the Audit Committee.

At a meeting on February 10, 2010, the Audit Committee reviewed and discussed the Company's audited consolidated financial statements for the year ended December 31, 2009, with Company management and BDO representatives. The Audit Committee discussed with BDO and management the results of BDO's audit of the Company's consolidated financial statements, the Company's internal controls and disclosure controls and procedures, and the overall assessment of the quality of the Company's financial accounting and reporting functions. The Audit Committee also discussed with BDO the matters required to be discussed by the Statement on Auditing Standards No. 61 (Communication with Audit Committees) as amended and as adopted by the Public Company Accounting Oversight Board (PCAOB), and BDO provided the Audit Committee with the written disclosures and the letter required by the applicable requirements of the PCAOB regarding the independent accountant's communications with the Audit Committee concerning independence. The Audit Committee discussed with BDO these materials and the firm's independence from the Company.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

OVERVIEW

This Compensation Discussion describes the material elements of compensation awarded to, earned by, or paid to each of our executive officers who served as named executive officers (as defined on page 30) during the last completed fiscal year. This Compensation Discussion focuses on the information contained in the following tables and related footnotes and narrative for primarily the last completed fiscal year, but we also describe compensation actions taken before or after the last completed fiscal year to the extent it enhances the understanding of our executive compensation program. The Compensation Committee of the Board of Directors (the "Committee") oversees the design and administration of our executive compensation program in accordance with the processes and procedures discussed in the Corporate Governance section of this proxy statement.

The principal elements of our executive compensation program are base salary, annual cash incentives, long-term equity incentives in the form of stock options and restricted stock, other benefits and perquisites, and a change in control severance policy. Our other benefits and perquisites consist of health, disability and life insurance benefits and a qualified 401(k) savings plan.

PROGRAM OBJECTIVES AND REWARD PHILOSOPHY

In General The objectives of our compensation programs are to (1) attract, motivate and retain talented and dedicated executive officers, (2) provide executive officers with both cash and equity incentives to further the interests of the Company and its stockholders, and (3) compensate executive officers at levels comparable to those of executive officers at comparable companies. Generally, the annual cash compensation of the Company's executive officers is composed of a base salary and an annual incentive compensation award. In setting base salaries, the Committee generally reviews the individual contributions of the particular executive. The annual incentive compensation award is based upon the Company's executive incentive compensation plan. In addition, stock options and restricted stock awards are granted to provide the opportunity for long-term compensation based upon the performance of the Common Stock over time.

Competitive Market We do not have an explicitly defined peer group for purposes of benchmarking executive compensation because it is difficult to find a reasonable number of publicly traded companies that are comparable in terms of company size and business type. Nevertheless, we periodically verify the reasonableness of the survey information used for our named executive officers by compiling proxy statement compensation information from our competitors and other comparably sized health care services companies. In light of going private transactions over the last several years, AmSurg Corp is currently our only publicly traded competitor in the ambulatory surgery center industry. However, compensation information remains available for two other competitors, United Surgical Partners International, Inc. and Symbion, Inc, because of their publicly traded debt. We also compiled proxy statement compensation information on the following health care services companies with comparable annual revenue: Alliance HealthCare Services, Inc., athenahealth, Inc., Genoptix, Inc., Medical Properties Trust, Inc. and Phase Forward Incorporated. We also assessed the competitive market for executive talent in our industry with the assistance of a national executive search firm in providing a competitive employment and compensation package for Mr. Hall in connection with his hiring in 2005.

Compensation Process For the named executive officers other than the principal executive officer, the Committee reviews and approves all elements of compensation taking into consideration recommendations from our principal executive officer, as well as competitive market guidance provided by our human resources staff which consist of reports generated by a subscription compensation database service detailing compensation data for comparably sized health care companies. For our principal

executive officer, other than salary and equity awards for 2006 and 2007 which were set by his employment contract, the Committee reviews and approves all elements of his compensation taking into consideration the Committee's performance assessment of the principal executive officer, and competitive market guidance provided by our human resources staff. Recommendations with respect to the compensation of our principal executive officer are not shared with our principal executive officer during this process.

Regulatory Considerations Under Section 162(m) of the Internal Revenue Code, we may not deduct compensation in excess of \$1 million paid to our chief executive officer or any of the executive officers named in the Summary Compensation Table, excluding the chief financial officer. Certain performance-based compensation is specifically exempt from the deduction limit. The Committee considers the deduction limit imposed by Section 162(m) when designing annual and long-term compensation programs and approving payouts under these programs. Nevertheless, the Committee may administer the programs in a manner that does not satisfy the requirements of Section 162(m) to achieve a result determined to be in the Company's best interest. While the tax treatment of compensation is important, the primary factor influencing program design is the support of business objectives. Consequently, the Committee reserves the right to approve, and in some cases has approved, non-deductible compensation if the Committee believes it is in the Company's best interest.

BASE SALARIES

In General We provide the opportunity for our named executive officers and other executives to earn a market competitive annual base salary. We provide this opportunity to attract and retain an appropriate caliber of talent for the position, to recognize that similar base salary rates are almost universally provided at other companies that we compete with for talent, and to provide a base wage that is not subject to Company performance risk. We review base salaries for the named executive officers and other executives annually in February effective for the current fiscal year, and increases are based on changes in our competitive market and the performance of the individual and the Company.

Salary Increases The Committee establishes base salaries each year for the named executive officers based on general market salary increases, salary data from comparable companies and individual performance. At its February 2009 meeting, the Committee decided to not award any salary increases to the named executive officers and other senior executives in the interest of managing fixed expenses in light of current economic conditions. At its February 2010 meeting, the Committee approved a 2.0% increase in salaries for each of the named executive officers and other senior executives. These salary increases were consistent with the 2.0% average target increase for all of the Company's employees in 2010. With this increase, Mr. Hall's salary increased from \$553,725 to \$564,800, Mr. Macomber's salary increased from \$290,000 to \$295,800, and Mr. Cherrington's salary increased from \$275,000 to \$280,500.

ANNUAL CASH INCENTIVES

In General We provide the opportunity for our named executive officers and other executives to earn a market competitive annual cash incentive award. We provide this opportunity to attract and retain an appropriate caliber of talent for the position, to recognize that similar annual cash incentive awards are almost universally provided at other companies that we compete with for talent, and to motivate executives to achieve our annual business goals. We review annual cash incentive awards for the named executive officers and other executives annually in February to determine award payments for the last completed fiscal year, as well as to establish award opportunities for the current fiscal year. These annual cash incentive awards are administered under our Amended and Restated Executive Incentive Compensation Plan (the "Bonus Plan").

Target Award Opportunities Under the Bonus Plan, we establish annual target award opportunities expressed as a percentage of base salary paid during the fiscal year, and threshold award goals expressed as a percentage of the target award. The 2009 Bonus Plan required a minimum threshold performance equal

to 85% of the target performance in order for a participant to be eligible for a cash incentive award. The amount of the cash incentive award would then vary depending on the actual results relative to the target performance. For the last completed and current fiscal years, annual cash incentive opportunities for the named executive officers are summarized below:

		Annual Cash Incentive Award Opportunity				
		Threshold Performance		Target Performance		Maximum Performance ⁽¹⁾
		% Target	\$ Amount	% Salary	\$ Amount	\$ Amount
Thomas S. Hall	FY 2009	30%	124,588	75%	415,294	622,941
	FY 2010	30%	126,665	75%	422,216	633,323
Scott T. Macomber	FY 2009	30%	43,500	50%	145,000	217,500
	FY 2010	30%	44,225	50%	147,417	221,125
Graham B. Cherrington	FY 2009	30%	41,250	50%	137,500	206,250
	FY 2010	30%	41,938	50%	139,792	209,688

- (1) In establishing the 2009 and 2010 Bonus Plans, the Committee set the maximum payout for each participant at 150% of such participant's targeted performance payout.

Performance Measures Under the Bonus Plan, we use overall corporate performance measures for our principal executive and financial officers, and for our other named executive officers, a mix of overall corporate and business unit performance measures to assure that executives have a reasonable measure of control over the factors that affect their awards. This performance measure mix varies by executive position. For the last completed and current fiscal years, the performance measure mix for the named executive officers is summarized below:

Performance Measure Mix

		Overall Corporate		
		Diluted EPS	Cash Flow	Business Unit
Thomas S. Hall	FY 2009	100%	0%	0%
	FY 2010	100%	0%	0%
Scott T. Macomber	FY 2009	100%	0%	0%
	FY 2010	70%	30%	0%
Graham B. Cherrington	FY 2009	60%	0%	40%
	FY 2010	60%	0%	40%

Overall Corporate Performance Goals Under the Bonus Plan, overall corporate performance is based on diluted earnings per share and cash flow from operations goals. In establishing the specific targets for the year, we take into consideration a variety of factors including: prior year results, growth expectations, expected reimbursement changes and changes in accounting rules that would impact earnings and cash flow.

At its February 2009 meeting, the Committee set a target diluted earnings per share attributable to NovaMed, Inc. goal of \$0.43 for fiscal year 2009, excluding the impact of gains and losses from the sale of noncontrolling interests and any goodwill impairment charges. This target also excludes \$4,225,000 of additional non-cash interest expense (\$0.11 per diluted share) recorded in connection with our adoption of FASB Accounting Standards Codification (ASC) 470-20 on January 1, 2009. The 2009 Bonus Plan required a minimum threshold performance equal to 85% of this target, or \$0.37, before the participants were eligible to receive a cash incentive award. At its February 2009 meeting, the Committee set the maximum payout for each participant in the 2009 Bonus Plan at 150% of such participant's targeted performance

payout. Previously, the bonus plans had a payout limit of \$1,500,000 per participant. At this February 2009 meeting the Committee also increased the target award percentages in the 2009 Bonus Plan for each of the named executive officers. The Committee increased Mr. Hall's target award percentage from 50% to 75% of his annual base salary, and increased Messrs. Macomber and Cherrington's target award percentages from 35% to 50%. The Committee also adjusted the scale for target payouts between the minimum threshold performance of 85% of the target and achieving 100% payout under the 2009 Bonus Plan by increasing the percentage payout to participants within this range. The Committee increased these target payouts and adjusted the scale based on market comparable data reviewed by the Committee. The Committee also modified the types of non-recurring events that would be excluded from the calculation of overall corporate performance goals in the 2009 Bonus Plan.

At its February 2010 meeting, the Committee added a cash flow from operations target to Mr. Macomber's 2010 Bonus Plan.

Business Unit Performance Goals Under the Bonus Plan, business unit performance is based on operating income goals. In establishing the specific target for the year, we take into consideration a variety of factors including: prior year results, growth expectations, expected reimbursement changes and changes in accounting rules that would impact operating income.

At its February 2009 meeting, the Committee set an operating income from continuing operations target for Mr. Cherrington of approximately \$50,152,000. The 2009 Bonus Plan required a minimum threshold performance equal to 85% of this target, or \$42,629,000, before Mr. Cherrington was eligible to receive a cash incentive award.

Discretionary Adjustments Under the Bonus Plan, we may make adjustments to our overall corporate and business unit performance goals and our actual performance results that may cause differences between the numbers used for our performance goals and the numbers reported in our financial statements. These adjustments may exclude all or a portion of both the positive or negative effect of external events that are outside the control of our executives, such as natural disasters, litigation, or regulatory changes in accounting or taxation standards. These adjustments may also exclude all or a portion of both the positive or negative effect of unusual or significant strategic events that are within the control of our executives but that are undertaken with an expectation of improving the long-term financial performance of our Company, such as restructurings, acquisitions, or divestitures. For the last completed fiscal year, the Committee did not make any adjustments to the overall corporate and business unit performance goals as described above.

Actual Award Payments Based on the above discussion, award payments to our named executive officers for the last completed fiscal year are summarized below:

	Annual Cash Incentive Award Payments for the Last Completed Fiscal Year	
	\$ Amount	% Target
Thomas S. Hall	\$ 415,294	100%
Scott T. Macomber	\$ 145,000	100%
Graham B. Cherrington	\$ 127,050	92%

LONG-TERM EQUITY INCENTIVES

In General We provide the opportunity for our named executive officers and other executives to earn a market competitive long-term equity incentive award. We provide this opportunity to attract and retain an appropriate caliber of talent for the position, to recognize that similar long-term equity incentives are almost universally provided at other companies that we compete with for talent, and to motivate executives

Edgar Filing: NOVAMED INC - Form DEF 14A

to make decisions that focus on the long-term growth of our Company and thus increase stockholder value. We review long-term equity incentives for our named executive officers and other executives annually. We began awarding a combination of restricted stock and stock options as our equity awards in 2006 instead of solely awarding stock options as we had in prior years. While we believe that awards of stock options create proper incentives for our executives, we also began awarding restricted stock because it results in less dilution to existing stockholders than stock options of equivalent value and because restricted stock arguably retains incentive value during stock price fluctuations when stock options may have no realizable value. For these reasons, coupled with a review of compensation data from our competitors and other health care services companies which reflects a trend towards restricted stock, at its February 2010 meeting the Committee elected to make equity awards consisting solely of restricted stock.

In determining the amount of the individual stock awards, the Committee considers a variety of factors including position, individual responsibilities and performance, and potential for future contribution. As a result, the amount of the annual grants is generally greater for the most senior executive officers, who have higher levels of responsibility.

After making no equity awards to named executive officers in 2008, at its February 2009 meeting the Committee granted stock options and restricted stock to our named executive officers. In making these awards, the Committee determined that one share of restricted stock was equivalent to two shares granted through a stock option. The Committee granted Mr. Hall options to acquire 218,182 shares and a restricted stock award of 109,091 shares. The Committee granted each of Messrs. Macomber and Cherrington options to acquire 72,727 shares and a restricted stock award of 36,364 shares.

Stock Options Our stock options are granted on the same date as our Committee approval date, and have an exercise price equal to our closing market price on the trading day immediately preceding the approval date. We do not have a program, plan, or practice to time stock option grants to executives in coordination with the release of material non-public information. Our stock options have a 10-year contractual exercise term, with 1/8th vesting on the date six months after the grant date with 1/48th of the total amount granted vesting at the end of each month thereafter. The option grants are also subject to the following post-termination and change in control provisions:

Event	Award Vesting	Exercise Term ⁽¹⁾
Death or Disability	Forfeit Unvested	1 Year
Termination for Cause	Forfeit Vested and Unvested	Expire
Termination without Cause or Retirement	Forfeit Unvested	90 Days
Voluntary Termination	Forfeit Unvested	Expire
Change in Control	Accelerated	90 Days ⁽²⁾

(1) Or remainder of original contractual term, if shorter.

(2) If employment is terminated. Otherwise remain exercisable for remainder of term.

Our stock options may not generally be transferred to any third party other than by will or the laws of descent upon the death of a participant.

Restricted Stock The restricted stock awards generally vest as to 1/8 of the award on the date six months following the grant date with 1/16th of the total amount granted vesting on each 3-month

anniversary thereafter. The awards are also subject to the following post-termination and change in control provisions:

Event	Award Vesting
Death or Disability	Forfeit Unvested
Termination for Cause	Forfeit Unvested
Termination without Cause or Retirement	Forfeit Unvested
Voluntary Termination	Forfeit Unvested
Change in Control	Accelerated

EXECUTIVE BENEFITS AND PERQUISITES

We provide the opportunity for our named executive officers and other executives to receive a market competitive general health and welfare benefits program. We provide this opportunity to attract and retain an appropriate caliber of talent for the position, to recognize that similar executive benefits are commonly provided at other companies that we compete with for talent, and to help minimize personal distractions so that the executives can better focus on the business affairs of our Company. Our benefits program consists of health, disability and life insurance benefits and a qualified 401(k) savings plan. We review our executive benefits and perquisites program periodically to ensure it remains fair to our executives and supportable to our stockholders.

EXECUTIVE CHANGE IN CONTROL POLICY

We provide the opportunity for our named executive officers and other executives to be protected under a change in control policy contained in their employment agreements. We provide this opportunity to attract and retain an appropriate caliber of talent for the position, to recognize that similar change in control protections are commonly provided at other companies that we compete with for talent, and to ensure the impartiality and objectivity of our executives in the event of a change in control situation so that our stockholder interests are protected. We review this change in control protection periodically to ensure it remains fair to our executives and supportable to our stockholders. At its May 2009 meeting, the Compensation Committee reviewed the severance arrangements with its senior executives. In doing so, it approved modifications to Mr. Cherrington's severance arrangements in order to conform them to the severance arrangements of the Company's other Executive Vice President, Mr. Macomber. The Board promoted Mr. Cherrington to Executive Vice President Operations in December 2008. For a description of the terms of the severance arrangements with our named executive officers, see "Potential Payments Upon

Termination or Change in Control Employment Agreements" on page 33. For the last completed and current fiscal years, our change in control policy for the named executive officers is summarized below:

Executive Benefit	Description
Policy Term	Employment agreements automatically renew on a year to year basis, unless terminated earlier
Payment Trigger	Involuntary termination without just cause or voluntary resignation for good reason, following a change in control
Severance Benefits	Two times base salary and target annual bonus (paid in lump sum) for Mr. Hall, ½ times base salary and bonus for Messrs. Macomber and Cherrington Continued welfare benefits for 24 months (Mr. Hall) and 18 months (Messrs. Potential Payments Upon Termination or Change in Control**Employment Agreements**

The Company has entered into employment agreements with its named executive officers. The agreements generally provide for the payment of an annual base salary, plus cash incentive compensation based upon the Company's executive compensation plan. The employment agreements also provide for the right to participate in the Company's stock option and employee benefit programs. These programs include hospitalization, disability, life and health insurance. The employment agreements impose on each employee non-competition restrictions that survive termination of employment and post-termination confidentiality obligations.

The Company may terminate these employment agreements with or without cause or upon the named executive officer's disability. If the Company terminates a named executive officer for disability or cause, the executive is not entitled to receive any salary or other severance after the date of termination. The Company may terminate a named executive officer for cause under the agreement if he: (i) materially breaches any term or condition of the agreement and fails to cure such breach within a reasonable time; (ii) fails to comply with any of the Company's written guidelines that it has furnished to the executive and fails to cure such failure within a reasonable time; (iii) materially fails or willfully refuses to substantially perform his duties and fails to cure such failure or refusal within a reasonable time; or (iv) has committed an act constituting a felony or other act involving dishonesty, disloyalty or fraud against the Company, as reasonably determined by the Board of Directors.

Mr. Hall's employment agreement with the Company automatically renews on a year-to-year basis, unless either party chooses to terminate the agreement. If the Company terminates Mr. Hall without cause, he would receive severance compensation in a fixed amount equal to his then-current base salary and pro rata cash incentive compensation for 18 months, plus health benefits for such period. This 18-month severance period was increased from 12 months by the Compensation Committee at a meeting in May 2009. The Compensation Committee elected to make this increase because Mr. Hall's 12-month severance period was less than the comparable severance arrangements for the Executive Vice President position. If Mr. Hall's employment is terminated following a change in control of the Company by Mr. Hall

for good reason or by the Company without cause, he would receive an amount equal to two times the sum of his annual base salary and targeted incentive bonus plus health benefits for 24 months. If Mr. Hall terminates his employment during the 30-day period following the one-year anniversary of a change in control, he would receive an amount equal to one times the sum of his annual base salary and incentive bonus plus health benefits for 12 months.

Each of Messrs. Macomber and Cherrington's employment agreement automatically renews on a year-to-year basis, unless either party chooses to terminate the agreement. If the Company terminates Messrs. Macomber or Cherrington without cause, the executive receives severance compensation in a fixed amount equal to his then-current base salary for a period of 15 months, health benefits for such period, and his pro rata cash incentive compensation. If Mr. Macomber or Mr. Cherrington's employment is terminated following a change in control of the Company by the executive for good reason or by the Company without cause, the executive would receive an amount equal to 150% of the sum of his annual base salary and targeted incentive bonus plus health benefits for 18 months. If Mr. Macomber or Mr. Cherrington terminates his employment after the one-year anniversary of a change in control, he would receive an amount equal to 75% of the sum of his annual base salary and targeted incentive bonus plus health benefits for 9 months. At a meeting in May 2009, the Compensation Committee modified Mr. Cherrington's severance arrangements to conform to Mr. Macomber's in light of Mr. Cherrington's promotion to Executive Vice President in December 2008.

In May 2009, the Compensation Committee also approved conforming amendments to the employment agreements of Messrs. Hall, Cherrington and Macomber to modify their severance arrangements to reflect the increase in the target award percentages payable to each of them under the Bonus Plan that was approved by the Compensation Committee in February 2009. At its February 2009 meeting, the Compensation Committee increased Mr. Hall's target award percentage under the Bonus Plan from 50% to 75%, and increased Messrs. Macomber and Cherrington's target award percentages under the Bonus Plan from 35% to 50%. These targeted incentive bonus awards are relevant for each executive's severance calculation in the event of a termination of employment following a change in control of the Company by the executive for good reason or by the Company without cause.

OF
CERTIFICATE OF INCORPORATION
OF
NOVAMED, INC.**

NovaMed, Inc. (the "Corporation"), a corporation duly organized and existing under the General Corporation Law of the State of Delaware, does hereby certify that:

1. Article IV, Section A of the Corporation's Amended and Restated Certificate of Incorporation, filed with the Secretary of State of the State of Delaware on May 26, 1999 (the "Certificate of Incorporation"), is amended to read in its entirety as follows:

"A. *Authorized Stock.* The Corporation shall have authority to issue the following classes of stock, in the number of shares and at the par value as indicated opposite the name of the class:

CLASS	NUMBER OF SHARES AUTHORIZED	PAR VALUE PER SHARE
Common Stock	27,253,000	\$ 0.01
Preferred Stock	6,080,000	\$ 0.01

Immediately upon the filing of this Certificate of Amendment with the Secretary of State of the State of Delaware, every three shares of the Corporation's Common Stock issued immediately prior to such filing (including each share of treasury stock) shall be combined and reconstituted as one share of the Corporation's Common Stock (the "Reverse Split").

The Reverse Split shall occur automatically and without any further action on the part of the Corporation or the holders thereof and whether or not certificates representing the holders' shares prior to the Reverse Split are surrendered for cancellation.

No fractional interest in a share of Common Stock shall be deliverable upon the Reverse Split. All shares of Common Stock (including fractions thereof) held by a holder immediately prior to the Reverse Split shall be aggregated for purposes of determining whether the Reverse Split would result in the issuance of a fractional share. Any fractional share resulting from such aggregation of Common Stock upon the Reverse Split shall be converted into the right to receive a cash payment (without interest) in an amount equal to the proceeds attributable to the sale of such fractional shares following the aggregation and sale of all fractional shares otherwise issuable. The Corporation shall not be obliged to issue certificates evidencing the shares of Common Stock outstanding as a result of the Reverse Split unless and until the certificates evidencing the shares held by a holder prior to the Reverse Split are either delivered to the Corporation or its transfer agent, or the holder notifies the Corporation or its transfer agent that such certificates have been lost, stolen or destroyed and executes an agreement satisfactory to the Corporation to indemnify the Corporation from any loss incurred by it in connection with such certificates."

2. The foregoing amendment to the Certificate of Incorporation has been duly approved by the Board of Directors in accordance with Sections 141 and 242 of the General Corporation Law.
