**Ventas**

We are a real estate investment trust ("REIT") with a highly diversified portfolio of seniors housing and healthcare properties located throughout the United States and Canada. As of December 31, 2012, we owned more than 1,400 properties, including seniors housing communities, skilled nursing and other facilities, medical office buildings ("MOBs"), and hospitals, in 46 states, the District of Columbia and two Canadian provinces, and we had three new properties under development. We are an S&P 500 company and are currently headquartered in Chicago, Illinois.

We primarily acquire and own seniors housing and healthcare properties and lease our properties to unaffiliated tenants or operate them through independent third-party managers. As of December 31, 2012, we leased 898 properties (excluding MOBs and properties classified as held for sale) to various healthcare operating companies under "triple-net" or "absolute-net" leases that obligate the tenants to pay all property-related expenses, including maintenance, utilities, repairs, taxes, insurance and capital expenditures, and we engaged independent operators, such as Atria and Sunrise, to manage 223 of our seniors housing communities pursuant to long-term management agreements.

In addition, through our Lillibridge subsidiary and our ownership interest in PMB Real Estate Services LLC, we provide MOB management, leasing, marketing, facility development and advisory services to highly rated hospitals and health systems throughout the United States. From time to time, we also make secured and unsecured loans and other investments relating to seniors housing and healthcare operators or properties.

Our principal objective is to enhance shareholder value by delivering superior, reliable returns. To achieve this objective, we pursue a business strategy of: (1) generating consistent, reliable and growing cash flows; (2) maintaining a balanced, well-diversified portfolio of high-quality assets; and (3) preserving our financial strength, flexibility and liquidity.

Our principal executive offices are located at 353 North Clark Street, Suite 3300, Chicago, Illinois, 60654, and our telephone number is (877) 483-6827. We maintain a website on the Internet at [www.ventasreit.com](http://www.ventasreit.com). Information on our website is not incorporated by reference herein and our web address is included in this prospectus supplement as an inactive textual reference only.

**Ventas Realty**

Ventas Realty, one of the two issuers of the notes, is a wholly owned operating partnership of Ventas, Inc. that was formed under the laws of the State of Delaware.

**Ventas Capital**

Ventas Capital, the other of the two issuers of the notes, is a wholly owned subsidiary of Ventas Realty that was incorporated under the laws of the State of Delaware for the purpose of serving as co-issuer with Ventas Realty of debt securities. Ventas Capital does not and will not have any substantial operations, assets or revenues. As a result, you should not expect Ventas Capital to participate in servicing the interest on or principal of the notes.

**Recent Developments**

On March 7, 2013, the issuers issued and sold \$258.8 million aggregate principal amount of their 5.45% senior notes due 2043. We used the net proceeds from this issuance and sale to repay indebtedness outstanding under our unsecured revolving credit facility.

Table of Contents

**RISK FACTORS**

*Our business, operations and financial condition are subject to various risks. You should carefully consider the following factors as well as the risk factors and other information contained in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein before deciding to invest in the notes.*

**Risks Arising From Our Capital Structure**

*We may become more leveraged.*

As of December 31, 2012, we had approximately \$8.3 billion of outstanding indebtedness (including capital lease obligations but excluding unamortized fair value adjustment and unamortized discounts). On an as adjusted basis to give effect to the sale of the notes offered hereby and the application of the net proceeds therefrom, as if each had occurred on December 31, 2012, we would have had approximately \$8.3 billion of outstanding indebtedness (including capital lease obligations but excluding unamortized fair value adjustment and unamortized discounts). The instruments governing our existing indebtedness permit us to incur substantial additional debt, including secured debt, and we may elect to meet our capital and liquidity needs through additional borrowings. A high level of indebtedness would require us to dedicate a substantial portion of our cash flow from operations to the payment of debt service, thereby reducing the funds available to implement our business strategy and make distributions to stockholders. A high level of indebtedness could also have the following consequences:

Potential limits on our ability to adjust rapidly to changing market conditions and vulnerability in the event of a downturn in general economic conditions or in the real estate or healthcare industries;

Potential impairment of our ability to obtain additional financing for our business strategy; and

Potential downgrade in the rating of our debt securities by one or more rating agencies, which could have the effect of, among other things, limiting our access to capital and increasing our cost of borrowing.

In addition, from time to time, we mortgage our properties to secure payment of indebtedness. If we are unable to meet our mortgage payments, then the encumbered properties could be foreclosed upon or transferred to the mortgagee with a consequent loss of income and asset value.

*Limitations on our ability to access capital could have an adverse effect on our ability to meet our debt payments, make distributions to our stockholders or make future investments necessary to implement our business strategy.*

We cannot provide any assurance that we will be able to raise the necessary capital to meet our debt service obligations, make distributions to our stockholders or make future investments necessary to implement our business strategy, and the failure to do so could have a material adverse effect on our business, financial condition, results of operations and liquidity, on our ability to service our indebtedness and other obligations and on our ability to make distributions to our stockholders, as required for us to continue to qualify as a REIT (a "Material Adverse Effect"). In recent years, the global capital and credit markets experienced a period of extraordinary turmoil and upheaval, characterized by the bankruptcy, failure or sale of various financial institutions and an unprecedented level of intervention from the U.S. federal government. The disruption in the credit markets, the repricing of credit risk and the deterioration of the financial and real estate markets created difficult conditions for REITs and other companies to access capital or other sources of funds. Although access to capital and other sources of funding have improved, we cannot provide any assurance that conditions will not deteriorate or that our access to capital and other sources of funding will not become

Table of Contents

constrained, which could adversely affect our results of operation and financial condition. In addition, the federal government's failure to increase the amount of debt that it is statutorily permitted to incur as needed to meet its future financial commitments or a downgrade in the debt rating on U.S. government securities could lead to a weakened U.S. dollar, rising interest rates and constrained access to capital, which could materially adversely affect the U.S. and global economies, increase our costs of borrowing and have a Material Adverse Effect.

To address constraints on our access to capital, we could, among other things, (i) obtain commitments from the banks in our lending group or from new banks to fund increased amounts under the terms of our unsecured revolving credit facility or our unsecured term loans, (ii) access the public capital markets, (iii) obtain secured loans from government-sponsored entities, pension funds or similar sources, (iv) decrease or eliminate our distributions to our stockholders or pay taxable stock dividends, (v) delay, reduce or cease our acquisition and investment activity, or (vi) dispose of assets. As with other public companies, our access to debt and equity capital depends, in part, on the trading prices of our senior notes and common stock, which, in turn, depend upon market conditions that change from time to time, such as the market's perception of our financial condition, our growth potential and our current and future earnings and cash distributions. Our failure to meet the market's expectation with regard to future earnings and cash distributions or a significant downgrade in the ratings assigned to our long-term debt could impact our ability to access capital or increase our borrowing costs. If we cannot access capital at an acceptable cost or at all, we may be required to liquidate one or more investments in properties at times that may not permit us to realize the maximum return on those investments, which could also result in adverse tax consequences to us. Restrictions on our uses of, and our right to transfer, properties under certain healthcare regulations, ground leases, mortgages and other agreements to which our properties may be subject could adversely impact our ability to timely liquidate those investments and impair their value.

If the financial institutions that are parties to our unsecured revolving credit facility become capital constrained, tighten their lending standards or become insolvent or if they experience excessive volumes of borrowing requests from other borrowers within a short period of time, they may be unable or unwilling to honor their funding commitments to us, which would adversely affect our ability to draw on our unsecured revolving credit facility and, over time, could negatively impact our ability to consummate acquisitions, repay indebtedness as it matures, fund capital expenditures or make distributions to our stockholders. Adverse conditions in the credit markets could also adversely affect the availability and terms of future borrowings, renewals or refinancings.

***Covenants in the instruments governing our existing indebtedness limit our operational flexibility, and a covenant breach could materially adversely affect our operations.***

The terms of the instruments governing our existing indebtedness require us to comply with a number of customary financial and other covenants, such as maintaining debt service coverage, leverage ratios and minimum net worth requirements. Our continued ability to incur additional debt and to conduct business in general is subject to our compliance with these covenants, which limit our operational flexibility. Breaches of these covenants could result in defaults under the applicable debt instruments and could trigger defaults under any other indebtedness that is cross-defaulted against such instruments, even if we satisfy our payment obligations. Financial and other covenants that limit our operational flexibility, as well as defaults resulting from our breach of any of these covenants, could have a Material Adverse Effect.

Table of Contents

**Risks Relating to the Notes**

***Because the notes that you hold are unsecured and will be structurally subordinated to the obligations of Ventas, Inc.'s subsidiaries (other than the issuers), you may not be fully repaid if we become insolvent.***

Neither the notes nor the guarantee will be secured by any of our assets, and therefore the notes and the guarantee will be effectively subordinated to any secured indebtedness that we may incur to the extent of the assets securing such indebtedness. The indenture governing the notes permits us to incur debt that is secured by a certain percentage of our assets. As of December 31, 2012, we had outstanding secured debt of \$3.0 billion (including capital lease obligations of \$142.4 million). If we were to become insolvent, the holders of any secured debt would receive payments from the assets pledged as security before you would receive payments on the notes.

Moreover, none of Ventas, Inc.'s subsidiaries (other than the issuers) will be directly obligated on the notes, and therefore the notes and the guarantee will also be structurally subordinated to the unsecured indebtedness and other obligations of those subsidiaries (other than the issuers). As of December 31, 2012, subsidiaries of Ventas, Inc. (other than the issuers) had \$579.6 million of outstanding unsecured indebtedness, all of which was indebtedness of our wholly owned subsidiary, Nationwide Health Properties, LLC (as successor to NHP), and assets of \$18.5 billion, or 97% of our total assets. All obligations of Ventas, Inc.'s subsidiaries (other than the issuers), including indebtedness to trade creditors, would have to be paid in full before you would have any claims against the assets of those subsidiaries.

***Federal and state statutes allow courts, under specific circumstances, to void guarantees and require noteholders to return payments received from the issuers or Ventas, Inc.***

Ventas, Inc.'s guarantee of the notes may be subject to review under U.S. federal bankruptcy law or relevant state fraudulent conveyance laws if a bankruptcy lawsuit is commenced by or on behalf of Ventas, Inc.'s unpaid creditors. Under these laws, if in such a lawsuit a court were to find that, at the time Ventas, Inc. incurred debt (including debt represented by the guarantee), Ventas, Inc.:

incurred this debt with the intent of hindering, delaying or defrauding its current or future creditors; or

received less than reasonably equivalent value or fair consideration for incurring this debt and Ventas, Inc.:

was insolvent or was rendered insolvent by reason of the related financing transactions;

was engaged, or about to engage, in a business or transaction for which its remaining assets constituted unreasonably small capital to carry on its business; or

intended to incur, or believed that it would incur, debts beyond its ability to pay these debts as they mature, as all of the foregoing terms are defined in or interpreted under the relevant fraudulent transfer or conveyance statutes;

then the court could void the guarantee or subordinate the amounts owing under the guarantee to Ventas, Inc.'s presently existing or future debt, including trade payables, or take other actions detrimental to the holders of the notes.

The guarantee will contain a provision intended to limit Ventas, Inc.'s liability to the maximum amount that it could incur without causing the incurrence of obligations under the guarantee to be a fraudulent transfer or conveyance. This provision may not be effective to protect the guarantee from being voided under fraudulent transfer law.

Table of Contents

***The guarantee provided by Ventas, Inc. is subject to certain defenses that may limit your right to receive payment on the notes.***

Although the guarantee provides the holders of the notes with a direct claim against Ventas, Inc.'s assets, enforcement of the guarantee against Ventas, Inc. would be subject to certain "suretyship" defenses available to guarantors generally. Enforcement could also be subject to other defenses available to Ventas, Inc. in certain circumstances. To the extent that the guarantee is not enforceable, you would not be able to assert a claim successfully against Ventas, Inc.

***An active trading market for the notes may not be established or maintained, so you may be unable to sell the notes.***

The notes offered hereby are a new series of securities for which there is currently no established trading market. Consequently, the notes may be relatively illiquid, and you may be unable to sell your notes, or if you are able to sell your notes, there can be no assurance as to the price at which you will be able to sell them. Future trading prices of the notes will depend on many factors, including, among other things, prevailing interest rates, economic conditions, our financial condition and the market for similar securities. We do not intend to apply for listing of the notes on any securities exchange or for the inclusion of the notes in any automated quotation system.

**USE OF PROCEEDS**

We expect the net proceeds of this offering to be approximately \$496.0 million, after deducting the underwriting discount and estimated expenses of this offering payable by us. We intend to use the net proceeds from this offering to repay indebtedness outstanding under our unsecured revolving credit facility and for working capital and other general corporate purposes, including to fund future acquisitions or investments, if any.

As of March 13, 2013, we had \$620.2 million of indebtedness outstanding under our unsecured revolving credit facility (excluding outstanding letters of credit of \$3.2 million), and the weighted average interest rate applicable to that indebtedness was 1.31% per annum. We used the proceeds from outstanding borrowings under our unsecured revolving credit facility for working capital and other general corporate purposes, including acquisitions and investments. Our unsecured revolving credit facility matures on October 16, 2015, but may be extended, at our option subject to the satisfaction of certain conditions, for an additional period of one year.

Certain affiliates of the underwriters are lenders or agents under our unsecured revolving credit facility and will receive a portion of the net proceeds from this offering. See "Conflicts of Interest."
