## PART I

### Item 1. Description of Business.

This annual report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as *may*, *will*, *should*, *expects*, *plans*, *anticipates*, *believes*, *estimates*, *predicts*, or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled *Risk Factors*, that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are stated in United States Dollars (US\$) unless otherwise stated and are prepared in accordance with United States Generally Accepted Accounting Principles.

In this annual report, unless otherwise specified, all references to "common shares" refer to the common shares in our capital stock.

As used in this annual report, the terms "we", "us", "our", and "Puppy Zone" mean Puppy Zone Enterprises, Inc., unless otherwise indicated.

#### *Corporate History*

We were incorporated in the State of Nevada on April 27, 2005. Other than as set out herein, we have not been involved in any bankruptcy, receivership or similar proceedings, nor have we been a party to any material reclassification, merger, consolidation or purchase or sale of a significant amount of assets not in the ordinary course of our business.

Our principal executive offices are located at Suite 200, 8275 S. Eastern Avenue, Las Vegas, Nevada 89123-259. Our telephone number is (702) 938-0486. We do not have any subsidiaries.

#### *Our Current Business*

Our company, Puppy Zone Enterprises, Inc., has developed a franchise system to offer high quality, integrated and consistent dog day care services under the brand name *The Puppy Zone*. We are the successor business to TPZ Enterprises, a Canadian partnership. Our mission is to enhance the quality of life for dogs and their owners through the operation of our dog day care franchises. Our research has indicated that our franchise system is unique in the pet care industry. We believe that our franchise system leads the pet care industry in that it applies sound commercial practices with a focus to create a strong corporate brand through sale of franchises, provision of onsite training and rigorous observance of our training and operating guides and manuals.

#### *Employees*

As at September 14, 2007, our only employees are our directors and officers. We do not expect any material changes in the number of employees over the next 12 month period. We do and will continue to outsource contract employment as needed.

---

### ***Plan of Operations***

Subject to financing from this offering, over the next 12 months, our primary objectives in regards to our efforts to maintain and expand our business and generate our revenues are:

- To sell ten franchises in at least five major urban areas and at least five proximate resort locations, these may include Whistler/Vancouver, Banff/Calgary, Mont Tremblant/Montreal, Lake Tahoe/Reno/Sacramento/San Francisco, Copper Mountain/Denver, Bend/Portland, or Seattle/Snoqualmie/Crystal Mountain.
- To raise between \$50,000 and \$150,000 in additional operating capital.
- To obtain referral agreements or alliances with dog friendly hotels, restaurants and other pet service providers.
- To develop a database of potential franchise owners.
- To establish the brand name recognition in North America of The Puppy Zone .

We plan to charge a franchise start up fee of \$35,000 per franchise. We also plan to charge a royalty fee in the amount of 5% of the gross revenue of each future franchisee. We estimate that each future franchisee will generate an average revenue of \$150,000 per year. Accordingly, we estimate that we will be able to generate a royalty fee of approximately \$7,500 per future franchisee per year.

### **RISK FACTORS**

Much of the information included in this annual report includes or is based upon estimates, projections or other forward-looking statements . Such forward-looking statements include any projections or estimates made by us and our management in connection with our business operations. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions, or other future performance suggested herein. We undertake no obligation to update forward-looking statements to reflect events or circumstances occurring after the date of such statements.

Such estimates, projections or other forward-looking statements involve various risks and uncertainties as outlined below. We caution readers of this annual report that important factors in some cases have affected and, in the future, could materially affect actual results and cause actual results to differ materially from the results expressed in any such estimates, projections or other forward-looking statements . In evaluating us, our business and any investment in our business, readers should carefully consider the following factors.

#### ***Risks Related To Our Business***

***We have a limited operating history that you can use to evaluate us and therefore we may not survive if we meet some of the problems, expenses, difficulties, complications and delays frequently encountered by a start up company.***

We were incorporated in April 2005 and on April 27, 2005 we acquired the business assets of TPZ Enterprises, including various trademarks associated with the Puppy Zone franchise system, franchise agreements and the training and operating manuals of the Puppy Zone franchise system. To date, we have focused our attention on fine tuning and marketing our Puppy Zone franchise system. Accordingly, you can evaluate our business, and therefore our future prospects, based only on a limited operating history. You must consider our prospects in light of the risks and uncertainties encountered by start up companies. To date, we have completed only part of our plan to become a successful dog day care franchisor. As a start-up company, we can provide no assurances that we will be able to make the necessary steps to achieve profitability in the future, such as expanding our customer base.

We are subject to all the substantial risks inherent in the commencement of a new business enterprise with new management. We can provide no assurance that we will be able to successfully generate revenues, operate profitably, or make any distributions to the holders of our securities. We have a limited business history for you to analyze or to aid you in making an informed judgment as to the merits of an investment in our securities. Any investment in our common stock should be considered a high risk investment because you will be placing funds at risk in an unseasoned start-up company with unforeseen costs, expenses, competition and other problems to which start-up ventures are often subject.

As we have such a limited history of operation, you will be unable to assess our future operating performance or our future financial results or condition by comparing these criteria against our past or present equivalents.

***We may require additional funds to achieve our current business strategy and our inability to obtain additional financing will inhibit our ability to expand or even maintain our business operations .***

We may need to raise additional funds through public or private debt or sale of equity to achieve our current business strategy. The financing we need may not be available when needed. Even if this financing is available, it may be on terms that we deem unacceptable or are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms. Our inability to obtain financing will inhibit our ability to implement our development strategy, and as a result, could require us to diminish or suspend our development strategy and possibly cease our operations.

If we are unable to obtain financing on reasonable terms, we could be forced to delay, scale back or eliminate certain product and service development programs. In addition, such inability to obtain financing on reasonable terms could have a negative effect on our business, operating results, or financial condition to such extent that we are forced to restructure, file for bankruptcy, sell assets or cease operations, any of which could put your investment dollars at significant risk.

***If we are unable to generate significant revenues from our operations, we may be unable to expand our Puppy Zone franchise system and may be forced to cease operations.***

If we are unable to generate significant revenues from our future franchise arrangements with franchisees, we could be forced to delay, scale back or eliminate certain services and product development programs. We intend to develop and sell franchises in the dog day care industry. Ultimately the expansion of our franchises and featured destinations may allow us to become profitable. However, if we fail to generate significant revenues in the future, then we will not be able to expand our product line as we anticipate. This failure to expand may hurt our ability to raise additional capital which could have a negative effect on our business, operating results, or financial condition to such extent that we are forced to restructure, file for bankruptcy, sell assets or cease operations, any of which could put your investment dollars at significant risk.

***We expect to experience significant and rapid growth in the scope and complexity of our business as our Puppy Zone franchise system gains acceptance in the market. If we are unable to hire additional staff to handle sales and marketing of our services and manage our operations, our growth could harm our future business results and may strain our managerial and operational resources.***

If our Puppy Zone franchise gains acceptance in the market after our marketing campaigns, we expect to experience significant and rapid growth in the scope and complexity of our business. We will need to hire staff to market our franchise system, manage operations, handle sales and marketing efforts and perform finance and accounting functions. We will be required to hire a broad range of personnel in order to successfully advance our operations. This growth is likely to place a strain on our management and operational resources. If we fail to develop and implement

effective systems, or hire and retain sufficient personnel for the performance of all of the functions necessary to effectively service and manage our future franchise relationships, or fail to manage growth effectively, our business will fail and you will lose your entire investment in our company.

---

***If we are unable to hire and retain key personnel, then we may not be able to implement our business plan.***

We depend on the services of our officers and directors, Tamara Huculak and Maria Estrada. Our success depends on the continued efforts of these individuals to manage our business operations. At the present time, Ms. Huculak devotes approximately 15 hours per week and Ms. Estrada devotes approximately 5 hours per week to the business affairs of our company. The loss of the services of either Ms. Huculak or Ms. Estrada could have a negative effect on our business, financial condition and results of operations. In addition, our success in expanding our business operations is largely dependent on our ability to hire highly qualified personnel. In addition, we may lose employees or consultants that we hire due to higher salaries and fees being offered by competitors or other businesses in the industry.

***Tamara Huculak's control of our company may prevent you from causing a change in the course of our operations and may affect the market price of our common stock.***

Tamara Huculak beneficially owns approximately 66.67% of our common stock. Accordingly, for as long as Ms. Huculak continues to own more than 50% of our common stock, she will be able to elect our entire board of directors, control all matters that require a stockholder vote (such as mergers, acquisitions and other business combinations) and exercise a significant amount of influence over our management and operations. Therefore, depending on the number of our securities sold, your ability to cause a change in the course of our operations may be impeded. As such, the value attributable to the right to vote is limited. This concentration of ownership could result in a reduction in value to the common stock you own because of the ineffective voting power, and could have the effect of preventing us from undergoing a change of control in the future.

***Other than trademarks registrations in Canada of the trademark The Puppy Zone, The Puppy Zone Dog Day Care and Adventure Centre and the related designs and the trademark registration in the United States of the trademark The Puppy Zone, we currently do not have any other formal protection for our intellectual property. If we are unable to protect our trade names, know how and trade secrets, our efforts to increase public recognition of our Puppy Zone franchise system may be impaired and we may be required to incur substantial costs to protect our name, know how and trade secrets.***

Other than the trademark registrations described above, we have not made any applications for the protection of our intellectual property rights. As a consequence we may not be able to prevent the unauthorized use of our trade names, know how and trade secrets. We may be unable to prevent third parties from acquiring and using names or business methods that are similar to, infringe upon or otherwise decrease the value of our name, our know how, our trade secrets and other proprietary rights that we may hold. We may need to bring legal claims to enforce or protect any intellectual property rights that we assert. Any litigation, whether successful or unsuccessful, could result in substantial costs and diversions of resources. Any claims, by or against us, could be time consuming and costly to defend or litigate, divert our attention and resources and result in the loss of goodwill associated with our trade names, know how, and trade secrets.

***Because our directors have foreign addresses this may create potential difficulties relating to service of process in the event that you wish to serve them with legal documents.***

Neither of our current directors and officers have resident addresses in the United States. They are both resident in Canada. Because our officers and directors have foreign addresses this may create potential difficulties relating to the service of legal or other documents on any of them in the event that you wish to serve them with legal documents.

***Trading of our stock may be restricted by the SEC's penny stock regulations, which may limit a stockholder's ability to buy and sell our stock.***

Edgar Filing: Puppy Zone Enterprises, Inc - Form 10KSB

The Securities and Exchange Commission has adopted regulations which generally define penny stock to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and

---

accredited investors. The term accredited investor refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

You should not assume that the information provided by the prospectus is accurate as of any date other than the date on the front of this prospectus.

### ***Risks Associated With Our Company***

*We have a history of losses and have a deficit, which raises substantial doubt about our ability to continue as a going concern.*

We have not generated any revenues since our incorporation and we will continue to incur operating expenses without revenues until we are in commercial deployment. Our net loss from inception (April 27, 2005) to June 30, 2007 was \$62,456. We had bank indebtedness in the amount of \$1,799 as of June 30, 2007. We currently do not have any operations and we have no income. We estimate our average monthly operating expenses to be approximately \$2,500 each month. We cannot provide assurances that we will be able to successfully develop our business. These circumstances raise substantial doubt about our ability to continue as a going concern as described in an explanatory paragraph to our independent auditors' report on our audited financial statements, dated September 14, 2007. If we are unable to continue as a going concern, investors will likely lose all of their investments in our company.

*Our future is dependent upon our ability to obtain financing. If we do not obtain such financing, we may have to cease our operating activities and investors could lose their entire investment.*

There is no assurance that we will operate profitably or will generate positive cash flow in the future. We will require additional financing in order to proceed beyond the first few months of our business plan. We will also require additional financing to sustain our business operations if we are not successful in earning revenues. We currently do not have any arrangements for further financing and we may not be able to obtain financing when required. Our future is dependent upon our ability to obtain financing. If we do not obtain such financing, our business could fail and investors could lose their entire investment.

*Because we may never earn revenues from our operations, our business may fail.*

Prior to completion of our development stage, we anticipate that we will incur increased operating expenses without realizing any revenues. We therefore expect to incur significant losses into the foreseeable future. We recognize that if

we are unable to generate significant revenues from the sale of franchises, we will not be able to earn profits or continue operations. There is no history upon which to base any assumption as to the likelihood that we will prove successful, and we can provide no assurance that we will generate any revenues or ever achieve profitability. If we are unsuccessful in addressing these risks, our business will fail and investors may lose all of their investment in our company.

---

*We have a limited operating history and if we are not successful in operating our business, then investors may lose all of their investment in our company.*

We have no history of revenues from operations and have no significant assets. We have yet to generate positive earnings and there can be no assurance that we will ever operate profitably. Our company has a limited operating history and is in the development stage. The success of our company is significantly dependent on the uncertain events of the viability of franchising of dog day care services. If our business plan is not successful and we are not able to operate profitably, then our stock may become worthless and investors may lose all of their investment in our company.

*Our directors and officers are employed elsewhere and their time and efforts will not be devoted to our company full-time.*

Our directors and officers are employed in other positions with other companies. They will manage our company on a part-time basis. Because of this fact, the management of our company may suffer and our company could under-perform or fail.

#### ***Risks Associated With Our Common Stock***

*Trading on the OTC Bulletin Board may be volatile and sporadic, which could depress the market price of our common stock and make it difficult for our stockholders to resell their shares.*

Our common stock is quoted on the OTC Bulletin Board service of the National Association of Securities Dealers. Trading in stock quoted on the OTC Bulletin Board is often thin and characterized by wide fluctuations in trading prices, due to many factors that may have little to do with the company's operations or business prospects. This volatility could depress the market price of our common stock for reasons unrelated to operating performance. Moreover, the OTC Bulletin Board is not a stock exchange, and trading of securities on the OTC Bulletin Board is often more sporadic than the trading of securities listed on a quotation system like Nasdaq or a stock exchange like Amex. Accordingly, shareholders may have difficulty reselling any of the shares.

*We do not intend to pay dividends on any investment in the shares of stock of our company.*

We have never paid any cash dividends and currently do not intend to pay any dividends for the foreseeable future. To the extent that we require additional funding currently not provided for in our financing plan, our funding sources may prohibit the payment of a dividend. Because we do not intend to declare dividends, any gain on an investment in our company will need to come through an increase in the stock's price. This may never happen and investors may lose all of their investment in our company.

*Our stock is a penny stock. Trading of our stock may be restricted by the SEC's penny stock regulations which may limit a stockholder's ability to buy and sell our stock.*

Our stock is a penny stock. The Securities and Exchange Commission has adopted Rule 15c-2-01 which generally defines "penny stock" to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and accredited investors. The term "accredited investor" refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by

the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the

---

customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

### ***Other Risks***

*Because Tamara Huculak, our President and one of our directors, lives outside of the United States, you may have no effective recourse against him for misconduct and may not be able to enforce judgement and civil liabilities against him.*

Tamara Huculak, our President and a director of our company is a national and a resident of Canada, and all or a substantial portion of his assets are located outside of the United States. As a result, it may be difficult for investors to enforce within the United States any judgments obtained against her, or obtain judgments against her outside of the United States that are predicated upon the civil liability provisions of the securities laws of the United States or any state thereof.

### **Item 2. Description of Property**

Our executive and head office is located at 8275 South Eastern Avenue, Suite 200, Las Vegas, Nevada 89123. We pay a monthly rent of \$150.00 for the use of this office. This operating facility functions as our main operating facility. We believe our current premises are adequate for our current operations and we do not anticipate that we will require any additional premises in the foreseeable future.

### **Item 3. Legal Proceedings.**

We know of no material, existing or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial stockholder, is an adverse party or has a material interest adverse to our interest. The outcome of open unresolved legal proceedings is presently indeterminable. Any settlement resulting from resolution of these contingencies will be accounted for in the period of settlement. We do not believe the potential outcome from these legal proceedings will significantly impact our financial position, operations or cash flows.

### **Item 4. Submission of Matters to a Vote of Security Holders.**

None.

## PART II

### **Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

In the United States, our common shares are traded on the National Association of Securities Dealers Inc. OTC Bulletin Board under the symbol PPYZ. Our common shares were initially approved for quotation on the OTC Bulletin Board on July 23, 2007 under the symbol PPYZ, however, the first trade has not yet occurred.

On September 14, 2007, the shareholders list for our common stock showed 42 registered stockholders and 4,000,000 shares issued and outstanding.

The Nevada Agency and Trust Company, 50 Liberty Street, Suite 880, Reno, Nevada 89501 (Telephone: 775.322.0626; Facsimile 775.322.5623) is the registrar and transfer agent for our common shares. We have no other classes of securities.

#### *Dividends*

We have not declared any dividends since incorporation and do not anticipate that we will do so in the foreseeable future. Our directors will determine if and when dividends should be declared and paid in the future based on our financial position at the relevant time. All shares of our common stock are entitled to an equal share of any dividends declared and paid.

#### *Recent Sales of Unregistered Securities*

On February 9, 2007, 40 purchasers purchased a total of 1,000,000 units of the common stock of our company at a price of \$0.05 per share for total aggregate proceeds of \$50,000. Each unit consists of one common share in our common stock and one common share purchase warrant. Each warrant has an exercise price of \$0.10 and an expiry date of February 9, 2009. Each warrant entitles the holder, upon exercise, to obtain one share of our company's common stock. In total, through the private placement, we issued 1,000,000 common shares and 1,000,000 common share purchase warrants.

These private placements were conducted in offshore transactions relying on Rule 903 of Regulation S of the Securities Act of 1933. None of the subscribers were U.S. persons, as defined in Regulation S. No directed selling efforts were made in the United States by Puppy Zone, any distributor, any of their respective affiliates or any person acting on behalf of any of the foregoing. We implemented the applicable offering restrictions required by Rule 903 of Regulation S by including a legend on all offering materials and documents which stated that the shares have not been registered under the Securities Act of 1933 and may not be offered or sold in the United States or to US persons unless the shares are registered under the Securities Act of 1933, or an exemption from the registration requirements of the Securities Act of 1933 is available. The offering materials and documents also contained a statement that hedging transactions involving the shares may not be conducted unless in compliance with the Securities Act of 1933.

### **Item 6. Management Discussion and Analysis and Plan of Operation.**

The following discussion should be read in conjunction with our audited consolidated financial statements and the related notes for year ended June 30, 2007 and the factors that could affect our future financial condition and results of operations. Historical results may not be indicative of future performance.

The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed below and elsewhere in this annual report, particularly in the section entitled "Risk Factors" beginning on page of this annual report.

---

Our audited financial statements are stated in United States Dollars and are prepared in accordance with United States Generally Accepted Accounting Principles.

### ***Plan of Operations***

We have a history of losses and no revenues from operations. Our capital needs have historically been met by the issuance of securities (either through private placements, the exercise of stock options, shares for debt, property or other assets) or shareholder loans.

### ***Purchase of Significant Equipment***

*Going Concern*

Due to our being a development stage company and not having generated revenues, in their Notes to our financial statements for the year ended June 30, 2007, our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern.

We have historically incurred losses, and through June 30, 2007 have incurred losses of \$62,456 from our inception. Because of these historical losses, we will require additional working capital to develop our business operations. We intend to raise additional working capital through private placements, and/or advances from related parties or shareholder loans.

The continuation of our business is dependent upon obtaining further financing and achieving a break even or profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current or future stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

There are no assurances that we will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placements, and/or bank financing necessary to support our working capital requirements. To the extent that funds generated from operations and any private placements, public offerings and/or bank financing are insufficient, we will have to raise additional working capital. No assurance can be given that additional financing will be available, or if available, will be on terms acceptable to us. If adequate working capital is not available we may not increase our operations.

These conditions raise substantial doubt about our ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should we be unable to continue as a going concern.

**APPLICATION OF CRITICAL ACCOUNTING POLICIES**

Our financial statements and accompanying notes are prepared in accordance with generally accepted accounting principles used in the United States. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. We believe that understanding the basis and nature of the estimates and assumptions involved with the following aspects of our financial statements is critical to an understanding of our financials.

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reported period. Actual results could differ from those estimates.

*Recent Accounting Pronouncements*

Management does not believe that any recently issued, but not yet effective accounting standards if currently adopted could have a material effect on the accompanying financial statements.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Stockholders and Board of Directors of Puppy Zone Enterprises, Inc.

We have audited the accompanying balance sheets of Puppy Zone Enterprises, Inc. (a development stage company) as of June 30, 2007 and the related statements of operations, cash flows and stockholders' deficit for the year ended June 30, 2007 and the period from April 27, 2005 (inception) to June 30, 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements as of June 30, 2006 and the year then ended and for the period from April 27, 2005 (inception) to June 30, 2006 were audited by other auditors whose report dated July 9, 2006 expressed an unqualified opinion on those financial statements. The financial statements as of June 30, 2006 and for the period from April 27, 2005 (inception) to June 30, 2006 reflect a total net loss of \$32,531 of the related cumulative totals. Our opinion, insofar as it relates to amounts included for such prior periods, is based solely on the report of such other auditors.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit and the report of other auditors, these financial statements present fairly, in all material respects, the financial position of Puppy Zone Enterprises, Inc. as of June 30, 2007 and the results of its operations and its cash flows for the year then ended and the period from April 27, 2005 (inception) to June 30, 2007 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company is in the development stage, has not generated revenues since inception, has incurred losses in developing its business, and further losses are anticipated. The Company requires additional funds to meet its obligations and the costs of its operations. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in this regard are described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**Note 1 - Nature and Continuance of Operations.**

Puppy Zone Enterprises, Inc. ( the Company ) was incorporated on April 27, 2005 in accordance with the laws of the State of Nevada and is extra provincially registered in British Columbia, Canada. The Company has developed a franchise system that offer quality, integrated and consistent dog day care services under the brand name The Puppy Zone .

**Going Concern**

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As of June 30, 2007, the Company has not generated any revenue or achieved profitable operations and has accumulated a deficit of \$62,456. Its ability to continue as a going concern is dependent upon the ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due and gto generate revenue from the development of its business. The outcome of these matters cannot be predicted with any certainty at this time and raise substantial doubt that the Company will be able to continue as a going concern. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern until the Company generates revenue. Management plans to rely primarily on private placements and related party loans to meet its obligations and pay its liabilities.

**Note 2 - Summary of Significant Accounting Policies**

**Basis of Presentation**

These financial statements are presented in accordance with accounting principles generally accepted in the United States applicable to a going concern and are expressed in US dollars. The Company's fiscal year end is June 30.

**Development Stage Company**

The Company complies with Financial Accounting Standards Board Statement ( FASB ) No. 7 and the Security and Exchange Commission Exchange Act Guide 7 for its characterization of the Company as a development stage company.

**Use of Estimates**

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**Note 2 - Summary of Significant Accounting Policies (continued)**

**Basic and Diluted Net Loss Per Share**

The Company computes net loss per share in accordance with FSAS No. 128 "Earnings per Share". SFAS No. 128 requires presentation of both basic and diluted earnings per share (EPS) on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury method and convertible preferred shares using the if-converted method. In computing diluted EPS, the average shares price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti-dilutive. As of June 30, 2007 and 2006 the Company had no warrants and/or options outstanding and accordingly, diluted EPS equaled basic EPS.

**Financial Instruments**

The fair values of bank indebtedness, accounts payable and accrued liabilities and due to shareholder approximate their carrying values due to the immediate or short-term maturity of these financial instruments.

**Income Taxes**

The Company has adopted SFAS No. 109 Accounting for Income Taxes as of its inception. Pursuant to SFAS No. 109 the Company is required to compute tax asset benefits for net operating losses carried forward. Potential benefit of net operating losses have not been recognized in these financial statements because the Company cannot be assured it is more likely than not it will utilize the net operating losses carried forward in future years.

**Foreign Currency Translation**

The functional and reporting foreign currency is the United States dollar. Foreign currency transactions are occasionally undertaken in Canadian dollars and are translated into United States dollars using exchange rates at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are re-measured at each balance sheet date at the exchange rate prevailing at the balance sheet date. Foreign currency exchange gains and losses are charged to operations. The Company has not entered into derivative instruments to offset the impact of foreign currency fluctuations.

**Recent Accounting Pronouncements**

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. This Statement permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently assessing the impact of SFAS No. 159 on its financial position and results of operations.

The board of directors of our company does not believe that it is necessary to have an audit committees because management believes that the functions of an audit committees can be adequately performed by the board of directors. In addition, we believe that retaining an independent director who would qualify as an "audit committee financial expert" would be overly costly and burdensome and is not warranted in our circumstances given the stage of our development and the fact the we have not generated any positive cash flows from operations to date.
