At December 31, 2002, Alliant Energy did not hold an ownership interest in any companies operating an exempt wholesale generator (EWG). However, during 2002, Alliant Energy did enter into an agreement to purchase an EWG (309 megawatt (MW) natural gas operating facility) in Neenah, Wisconsin. At December 31, 2002, Resources had made payments and entered into commitments to purchase the generating facility equal to approximately \$60 million (excluding nonrecourse financing). During 2001, Alliant Energy also entered into an agreement to guarantee the debt security of an EWG (6 MW low Btu gas electric generating facility) in Cedar Rapids, Iowa. Both of these amounts have been included in the aggregate investment in EWGs and FUCOs identified in Part III.

Describe the facilities used for the generation, transmission and distribution of electric energy for sale or for the distribution at retail of natural or manufactured gas.
