Report of Independent Registered Public Accounting Firm

Retirement Plan and Salary Savings Program Committee and Plan Participants
State Street Corporation

We have audited the accompanying statements of net assets available for benefits of the State Street Salary Savings Program as of December 31, 2003 and 2002, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2003 and 2002, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2003 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

State Street Salary Savings Program

Notes to Financial Statements

December 31, 2003

1. Description of the Plan

The description of the State Street Salary Savings Program (the Plan) is provided for general information purposes only. Employees should refer to the Summary Plan Description and Plan document for more complete information.

General

The Plan is a defined contribution plan. All employees of State Street Corporation and certain related companies (the Corporation) are immediately eligible to participate in the Plan, as defined in the Plan.

Plan Amendments and Other Changes

During 2003 and 2002, the following amendments and changes were made to the Plan:

Effective January 1, 2003, pursuant to an agreement between the Corporation and U.S. Bancorp, participants are allowed to rollover their loan balance to the U.S. Bank's 401(k) Plan.

Effective January 1, 2003, the Plan was amended to comply with the minimum distribution rules enacted by the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

Effective February 1, 2003, certain former employees of Deutsche Bank who became employees of the Corporation were granted service credit for years of service rendered to their former employer. Participants were permitted to transfer their loan balances to the Plan from the Deutsche Bank 401(k) Plan. Total loans in the amount of

\$1,168,046 were transferred to the Plan.

Effective February 1, 2003, the Plan was amended to include Intersec Research Corporation as an additional participating employer.

Effective April 1, 2003 and July 16, 2003, certain former employees of Deutsche Investment Management Americas, Inc. and Deutsche Bank Trust Company Americas, respectively, were granted service credits for years of service rendered to their previous employer.

Effective June 27, 2003, the Plan was amended to incorporate special provisions regarding the 2003 Voluntary Separation Program (Program). Participants who have satisfied all applicable requirements of the Program may receive their accounts in installments if at least 50 years of age and they have completed five years of service.

On October 23, 2003, the Plan Committee imposed a 30-day trading restriction on the Daily EAFE Fund.

Effective March 1, 2002, October 7, 2002, and October 22, 2002, certain former employees of Russell Fund Distributors, Inc., Atlantic Trust Company, N.A., and J. & W. Seligman & Co. Incorporated, respectively, who became employees of the Corporation were granted service credit for years of service rendered to these former employers.

Effective June 17, 2002, the Plan was amended to convert the Corporation Stock Fund to an Employee Stock Ownership Plan (ESOP Fund) within the Plan. The ESOP Fund has such terms and conditions consistent with Section 404(k) of the Internal Revenue Code. Participants whose accounts are invested in the ESOP Fund are able to choose to reinvest dividends in the ESOP Fund, or take quarterly distribution of the dividends in cash.

Contributions

Active participants may elect to make tax-deferred contributions to the Plan equal to 1% to 25% (15% prior to January 1, 2003) of their compensation, subject to certain limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Contributions to the Plan are made by the Corporation, in amounts equal to 50% of the first 6% of the employee's tax-deferred contribution. All employees who have completed one year of employment during which they have worked at least 1,000 hours are eligible for corporate matching contributions.

Participant contributions and matching contributions are allocated in investment funds, including the ESOP Fund, at the participant's direction with no restrictions.

All contributions to the Plan are paid to State Street Bank and Trust Company, which holds them in trust exclusively for participants and their beneficiaries, invests them, and makes benefit payments as they become due.

Payment of Benefits

Upon retirement or other termination of employment, a participant eligible to receive a benefit may receive an immediate lump-sum distribution or may elect to defer the payment of their benefits and remain in the plan, at which time the participants become nonactive.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of one-half of the participant's vested balance, or \$50,000. Loans are secured by the balance in the participant's accounts and bear interest at a rate comparable to a similar loan with a commercial institution. Repayment of principal plus interest is required within five years, unless the loan is for the purchase of a principal residence. Principal and interest is paid ratably through payroll deductions. Effective June 1, 2003, participants who terminate their employment with the Corporation may elect to continue to repay their outstanding loan balance directly to the trustee; such loan shall not become immediately due and payable until such time as there is an event of a default.

Participant Accounts

Each participant's account is credited with the participant's contributions, Corporation contributions and plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Plan Termination

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants are always 100 percent vested in their accounts.

2. Significant Accounting Policies

Basis of Accounting

The accounting records of the Plan are maintained on the accrual basis.

Investment Valuation and Income Recognition

The fair value of the participation units owned by the Plan in all funds, except the Short-Term Investment Fund, Self Managed Brokerage Accounts, and in the Principal Preservation Fund, are based on each fund's net asset value per unit on the last business day of the Plan year, where net asset values are based on the fair value of the underlying assets in each fund.

Securities included in the Short-Term Investment Fund are short-term instruments and are valued at cost, which approximates fair value.

The fair value of participant accounts in the Self Managed Brokerage Accounts is based on the fair value of the underlying securities, determined as follows: investments listed on securities exchanges are valued at closing sales prices on the last business day of the year and, in the case of unlisted securities, the valuation is the last published sales price, or the mean between the bid and ask price, whichever is more recent.

Investments in the Principal Preservation Fund are units representing investments in guaranteed investment contracts of insurance companies, which are rated AAA or AA by the major rating agencies. Investment contracts are valued at contract value. Investment contracts will normally be held to maturity and meet the fully benefit-responsive requirements of AICPA Statement of Position 94-4, *Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined-Contribution Pension Plans*.

Investment contracts, in the Principal Preservation Fund, are recorded at their contract values, which represent contributions and reinvested income, less any withdrawals plus accrued interest, because these investments have fully benefit-responsive features. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, withdrawals influenced by Corporation-initiated events, such as in connection with the sale of the business, may result in a distribution at other than contract value. There are no reserves against contract values for credit risk of contract issues or otherwise. The crediting interest rate was 4.20% and 5.17% for plan years December 31, 2003 and 2002, respectively. Rates are fixed on traditional investment contracts and are reset quarterly or monthly on synthetic investment contracts. All resets have a floor of 0%. The fair value of the investment contracts at December 31, 2003 and 2002 was \$78,878,722 and \$70,626,109, respectively. The average yield was approximately 4.64% in 2003 and 5.51% in 2002, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

During the years ended December 31, 2003 and 2002, the Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in value as follows:

	Year ended December 31	
	2003	2002
State Street Corporation common stock	\$ 93,194,057	\$ (95,326,217)
Collective Investment Funds	86,144,754	(57,294,763)
Common stock	2,810,068	(3,872,727)
Bonds	1,060	(24,454)
Mutual funds	190,093	(1,472,487)
Net appreciation (depreciation) in fair value of investments	\$ 182,340,032	\$ (157,990,648)

4. Transactions and Agreements with Parties-in-Interest

As of May 7, 2002, investment fees and most costs and expenses associated with Plan administration and recordkeeping are paid by the Plan. Prior to that date, all costs and expenses incurred in connection with the operation of the Plan were borne by State Street Corporation, except investment management fees.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service, dated March 24, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter; however, the plan administrator and the Plan's Tax Counsel believe that the Plan, as amended, is being operated in compliance with the applicable requirements of the Code, and therefore, believe that the Plan is qualified and the related trust is tax exempt.

7. Reconciliation of Financial Statements and Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2003.

Net assets available for benefits per the financial statements	\$	954,484,309
Amounts allocated to withdrawing participants		1,946,384
Net assets available for benefits per the Form 5500	\$	952,537,925

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the year ended December 31, 2003.

Benefits paid to participants per the financial statements	\$	123,685,887
Amounts allocated to withdrawing participants in 2003		1,946,384
Benefits paid to participants per the Form 5500	\$	125,632,271

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, but not yet paid as of that date.

8. Subsequent Event

Effective January 1, 2004, certain former employees of Princeton Financial Systems, Inc., a wholly owned subsidiary of State Street Bank & Trust Company, became employees of State Street Bank & Trust Company. Total plan assets transferred into the Plan from Princeton Financial Systems, Inc. 401(k) Plan amounted to \$4,870,275.
