**An Open Letter to Concord Communications Customers, Employees, Partners and Prospects**

I am delighted to share with you the news that Concord Communications and Computer Associates (CA) have signed a definitive agreement for CA to acquire Concord. This strategic combination will bring together Concord's eHealth and Spectrum product lines with CA's Unicenter, expanding our ability to deliver a new generation of software that simplifies IT management, and enabling customers to reduce the number of management tools required to map, measure and manage the health and performance of IT infrastructure components and the business services that rely on them.

The benefits for both Concord and CA customers are significant:

**Unique Solution**

Together Concord and CA will create customer value through self-managing infrastructure solutions that provide the ability to deliver IT as a service while lowering the cost of ownership through a service oriented architecture. We will now be positioned to deliver the industry's only automated multi-vendor end-to-end solution for integrated fault and performance management across network, system and application infrastructures from both a real-time and historical perspective. It will all add up to a proven way to manage customers, services and infrastructure across the hall or around the world with a solution that is practical, achievable and delivers rapid time to value.

**Strong Foundation**

Combining with CA will provide Concord with the resources to accelerate the growth of our eHealth and Spectrum lines. CA has been a recognized management software expert for more than 28 years with operations in more than 100 countries around the world. With over 15,000 employees, an R&D budget of approximately \$650 million per year, 300+ global patents and rock-solid technology we will together be able to 1) provide a self managing infrastructure that is service aware and self healing, 2) deliver IT as a service allowing customers to map IT to the business and make decisions based on business impact, and 3) extend a service oriented architecture with deep and broad integration, role based management and standards and best practices.

**No Need to Wait**

Concord products and CA's Unicenter solutions already co-exist in many customer environments. We expect customers will be able to extend their existing investment in one product line to the other. We will explore synergistic opportunities after the transaction closes to build a more powerful joint solution set, keeping in mind the strong reputation that each product set has in the marketplace today.

**Customer Focused**

Concord and CA share the corporate culture that there is nothing more important than our customers. Upon closing, CA anticipates adding Concord's 4,000 customers to among the ranks of corporations that rely on Unicenter. We will

measure our success by our customers' satisfaction. We will compete fairly on value, technology, domain expertise, and customer support to maintain the honesty, integrity and respect that you would expect of a world-class company.

Concord will join CA's Enterprise Infrastructure Management division. We expect no changes to Concord's engineering, professional services, sales, solution engineering, support and training resources. No changes are anticipated to the support, marketing or selling of particular Concord products – in fact we envision an acceleration of application performance and business service management features. Service, maintenance and support contract terms remain unchanged.

We expect the transaction, which is subject to customary closing conditions and regulatory approvals, to close in the second half of 2005. We will keep you informed of developments as they occur.

I would like to extend a personal thank you for your continued loyalty and support during these times of change at Concord. The quality of the relationships with our customers will be the ultimate indicator of success and we will do all we can to ensure the highest levels of satisfaction.

If you have any further questions or concerns I encourage you to contact me at 1-508-303-4200 or [jblaeser@concord.com](mailto:jblaeser@concord.com).
