NEWS RELEASE

For Immediate Release

20 SEPTEMBER 2006

Xyratex Ltd Announces Results for the Third Quarter Fiscal Year 2006

Q3 Revenues \$263.1 million, up 60.5% Year over Year

Havant, UK September 20, 2006 Xyratex Ltd (Nasdaq: XRTX), a leading provider of modular enterprise class data storage subsystems and storage process technology, today announced results for the third fiscal quarter ended August 31, 2006. Revenues for the third quarter were \$263.1 million, an increase of 60.5% compared to revenues of \$163.9 million for the same period last year.

For the third quarter, GAAP net income was \$17.8 million, or \$0.60 per diluted share, compared to GAAP net income of \$7.9 million, or \$0.27 per diluted share, in the same period last year. Non-GAAP net income increased 139.3% to \$20.3 million, or a diluted earnings per share of \$0.68, compared to non-GAAP net income of \$8.5 million, or \$0.29 per diluted share, in the same quarter a year ago. A reconciliation between net income on a GAAP basis and net income on a non-GAAP basis is provided in a table immediately following the Unaudited Condensed Consolidated Statements of Cash Flows, below.

Gross profit margin on a GAAP basis in the third quarter was 21.1%, compared to 20.2% in the same period last year. The increase in gross margin reflects the increase in Storage Infrastructure revenue as a proportion of total revenue.

Revenues from sales of our Storage and Network Systems products were \$148.6 million as compared to \$104.8 million in the third quarter last year, an increase of 41.8%. Gross profit margin in the Storage and Network Systems business was 14.1% as compared to 15.2% in the third quarter last year. Revenues from sales of our Storage Infrastructure products were \$114.6 million as compared to \$59.2 million in the third quarter last year, an increase of 93.7%. Gross profit margin in the Storage Infrastructure business was 30.5% as compared to 29.1% in the third quarter last year.

Xyratex had another very solid quarter with strong revenue growth across both businesses. We executed well and were able to meet the accelerated installation schedules of our Storage Infrastructure customers, said Steve Barber, CEO of Xyratex. Our new products and customers are gaining momentum in the market. We believe we are well positioned going forward to support our disk drive customers during this period of marketshare adjustment following the Seagate acquisition of Maxtor and we remain confident in the positive industry dynamics that are providing significant opportunities for our storage products over the long-term.

Business Highlights

- We secured new design wins with Intel, Bull, EqualLogic, and 3PAR. We continue to be partnered with companies who we believe are well positioned in their respective market spaces; with EqualLogic positioned as a leading provider of enterprise-class iSCSI storage area network (SAN) solutions and 3PAR, a leading provider of Utility Storage.

- We announced in September 2006 the establishment of Nihon Xyratex KK (Xyratex Japan, Ltd.). The company's new Japanese headquarters will be founded through Xyratex's acquisition of Jastam Trading Co. Ltd. of Tokyo, Japan, a full service broker for equipment suppliers to high technology customers. The formation of Xyratex Japan, Ltd. supports Xyratex's strategy to expand its Storage Infrastructure and Storage and Network Systems portfolio of solutions into the Asia-Pacific market.
- We confirmed that Hitachi Global Storage Technologies has started its evaluation of an automated Production Test System. Xyratex has shipped and installed the evaluation unit at Hitachi's Fujisawa, Japan facility.
- We announced the new X700 system high-speed media test automation solution. The X700 is based on many of Xyratex's proven test automation elements, and offers substrate and media manufacturers the benefits of ultra-small footprint and 700 disks per hour output, in a fully self-contained, third-party certified class 10 enclosure.
- We announced that we are the first storage subsystem manufacturer to qualify the new Seagate 300GB Cheetah 15K.5, 4Gbit/sec, Fibre Channel (FC) disc drive. Seagate's Cheetah 15K.5 disc drive has been fully integrated into Xyratex's RS-1600-F4-SBD 4Gb FC SBOD storage system and is also fully qualified in all Xyratex's legacy Fibre Channel RAID, SBOD and JBOD solutions. The Seagate Cheetah 15K.5 disc drive is Seagate's first 4Gbit/sec disc drive to be based on perpendicular recording.
- We confirmed that we are in full compliance with the European directive 2002/95/EC on the Restriction of Hazardous Substances (RoHS) for all of our products placed on the market within the European Union. Fulfillment of the RoHS directive is part of Xyratex's overall strategic initiative to comply with the requirements of ISO14001 and global environmental programs for its worldwide operations.

Business Outlook

The following statements are based on current expectations. These statements are forward-looking, and actual results may differ materially. These statements do not include the potential impact of any future acquisitions or divestitures, except for the acquisition of Jastam, described above.

- Revenue in the fourth quarter of 2006 is projected to be in the range \$215 to \$230 million.
- Fully diluted earnings per share is anticipated to be between \$0.17 and \$0.27 on a GAAP basis in the fourth quarter. On a non-GAAP basis, fully diluted earnings per share is anticipated to be between \$0.24 and \$0.34.
Non-GAAP earnings per

share excludes non-cash equity compensation, amortization of intangible assets and related taxation expense.

Conference Call/Webcast Information

The company will host a conference call to discuss its results at 2:00 p.m. PT/5:00 p.m. ET on Wednesday, September 20, 2006.

The conference call can be accessed online via the company's website www.xyratex.com/investors, or by telephone as follows:

United States	(800) 599-9795
Outside the United States	(617) 786-2905
Passcode	13304474

A replay will be available via the company's website www.xyratex.com/investors, or can be accessed by telephone through September 27, 2006 as follows:

United States	(888) 286-8010
Outside the United States	(617) 801-6888
Passcode	38770400

Safe Harbor Statement

This press release contains forward looking statements. These statements relate to future events or our future financial performance, including our projected revenue and fully diluted earnings per share data (on a GAAP and non-GAAP basis) for the fourth quarter. These statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Factors that might cause such a difference include our inability to compete successfully in the competitive and rapidly changing marketplace in which we operate, failure to retain key employees, cancellation or delay of projects and adverse general economic conditions in the United States and internationally. These risks and other factors include those listed under "Risk Factors" and elsewhere in our Annual Report on Form 20-F as filed with the Securities and Exchange Commission (File No. 000-50799). In some cases, you can identify forward-looking statements by terminology such as may, will, should, expects, intends, plans, anticipates, believes, estimates, potential, continue, or the negative of these terms or other comparable terminology. Although we believe that the expectations reflected in the

forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

About Xyratex

Xyratex is a leading provider of modular enterprise class data storage subsystems and storage process technology. The company designs and manufactures enabling technology that provides OEM and disk drive manufacturer customers with data storage products to support high-performance storage and data communication networks. Xyratex has over 20 years of experience in research and development relating to disk drives, storage systems and high-speed communication protocols.

Founded in 1994 in a management buy-out from IBM, and with its headquarters in the UK, Xyratex has an established global base with R&D and operational facilities in Europe, the United States and South East Asia. For more information, visit www.xyratex.com.
