Independent Auditors

The Audit Committee pre-approved the engagement of Farber, Hass, Hurley & McEwen, LLP to provide both audit and tax services for the fiscal year ended December 31, 2005, including the quarterly reviews for the three quarters of 2005. Farber, Hass, Hurley & McEwen, LLP provided no other audit services, audit-related services, tax services or permitted non-audit services for and during the fiscal year ending 2005. The Audit Committee adopted a pre-approval policy relating to audit services for all audit-related services, tax services and non-audit services to be performed by its auditors from 2004 onward.

During the fiscal years ended December 31, 2005 and 2004, the following audit, audit-related, tax and non-audit fees were incurred by the Company:

Audit Fees. For the year ended December 31, 2005, Farber & Hass LLP charged the Company an aggregate of approximately \$94,200 for professional services rendered for the 2005 audit of the Company's

financial statements and the review of the financial statements included in the Company's Quarterly Reports on Form 10-Q for the three quarters of 2005.

All Other Fees. During the year ended December 31, 2005, the Company incurred fees of \$8,750 for tax return preparation.

Audit Committee Report

The Audit Committee reviews the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the internal control system. The Company's independent auditors are responsible for expressing an opinion on the conformity of our audited financial statements to generally accepted accounting principles.

In this context, the Audit Committee has reviewed and discussed the audited financial statements with management and the independent auditors, and has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees). The Audit Committee also received from the independent auditors the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and discussed with them their independence from the Company and its management. The Audit Committee has further considered whether, and determined that, the independent auditors provision of non-audit services to the Company is compatible with the firm's independence.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005 for filing with the Securities and Exchange Commission.

Submitted by the Audit Committee:
Michael C. Gordon
Hamlin Jennings
Mr. Walker Rast

The above report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933 or under the Securities Exchange Act of 1934, except to the extent that the Company specifically incorporates this information by reference, and shall not be deemed filed under such Acts.

Compensation of Directors

The Board pays to each non-employee director an annual retainer fee of \$20,000, payable quarterly, plus a fee of \$1,000 for each regular meeting attended in person and \$500 for telephonic board meetings. Committee chairpersons receive an additional \$1,000 per quarter for their committee service except for the audit committee chairman, who receives \$3,000 per quarter. All of the directors, except for Mr. Truant and Mr. Houston, are currently considered to be non-employee directors of the Company.

The 1995 Stock Incentive Plan currently provides that each non-employee director automatically be granted options to purchase 25,000 shares of the Company's Common Stock, effective at the conclusion of each annual meeting. All such stock options (i) vest ratably at 25% at the end of each calendar quarter following the grant, provided the director holding the options continues to serve as a director at the end of each such quarter, and (ii) have an exercise price equal to the fair market value of the underlying shares, which is defined in the 1995 Stock Incentive Plan as the closing trading price on the day before such annual meeting.

In April 2004, based on the financial condition of the Company, the Board of Directors unanimously agreed to defer the payment of the director fees discussed above until such time as the financial condition of the Company improves. As an accommodation to the Company, the Directors unanimously agreed to convert their accrued deferred fees through September 30, 2006 in the amount of \$23,000 to common stock.

In June 2005, the Board granted to each of the Company's non-employee directors who had served during the previous year 10,000 restricted shares of the Company's common stock as a bonus in recognition for their willingness to defer their cash compensation since 2004. In June, 2005, Mr. Gordon was appointed to the Board to fill the vacancy created by the resignation of Dr. Roland. Mr. Gordon received an initial grant of 10,000 restricted shares of the Company's common stock.

Proposal #3 herein, if approved, will increase the number of options to purchase common stock which are automatically granted to the non-employee directors each year from 25,000 to 45,000 shares.

PROPOSAL NO. 2

AMENDMENT OF THE COMPANY'S CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES

The Board of Directors has approved and is hereby soliciting stockholder approval of an amendment to the Amended and Restated Certificate of Incorporation of the Company to (i) increase the number of shares of Common Stock the Company is authorized to issue from 40,000,000 to 80,000,000 and in connection therewith (ii) to increase the total number of shares of all classes of stock that the Company is authorized to issue from 50,000,000 to 90,000,000. The full text of the proposed amendment to the Amended and Restated Certificate of Incorporation is set forth below (the "Amendment"). The Company is currently authorized to issue 40,000,000 shares of Common Stock and 10,000,000 shares of preferred stock, par value \$0.01 per share ("Preferred Stock"). If the stockholders approve this proposal, the Board of Directors will have the authority, in its sole discretion, to file such an amendment at any time after the Annual Meeting.

Purposes and Effects of the Proposed Amendments

The Amendment would increase the number of shares of Common Stock the Company is authorized to issue from 40,000,000 to 80,000,000. The additional 40,000,000 shares would become a part of the existing class of Common Stock and, if and when issued, would have the same rights, privileges and preferences as the shares of Common Stock presently issued and outstanding. On September 30, 2006, 20,288,591 shares of Common Stock were issued and outstanding and held of record by 1,200 stockholders of record.

The Board of Directors believes that the increase in the number of authorized shares of common stock at this time will provide the Company with needed flexibility to execute its business plans and previously announced plans to raise additional capital by providing an adequate number of authorized but unissued shares of Common Stock available for issuance to new or existing investors. The additional shares would also be available for issuance under the Company's 1995 Stock Incentive Plan, to facilitate potential acquisitions and for general corporate and working capital purposes, without the expense or delay attendant in seeking stockholder approval at any special or annual meeting (except as may be required by law or by applicable stock exchange rules).

The failure to approve the proposal may limit the Company's ability to obtain needed capital to finance its working capital and capital expenditure needs and may prevent the Company from executing business activities and initiatives proposed by management and approved by the Board of Directors. If this proposal is approved, prior to any issuance of equity securities (or securities convertible into or

exchangeable for equity securities), the Board of Directors will consider factors including, among others, management's proposed business initiative, the then current market price of the Common Stock, the proposed offering price of the equity securities, the potential dilution to Company stockholders, the working capital needs of the Company, and the terms and availability of alternative sources of financing.

The issuance of additional shares of Common Stock might dilute, under certain circumstances, the ownership and voting rights of the current stockholders of the Company. The proposed increase in the number of shares of Common Stock that the Company is authorized to issue is not intended to inhibit a change in control of the Company. The availability for issuance of additional shares of Common Stock could, however, discourage, or make more difficult, efforts to obtain control of the Company. For example, the issuance of shares of Common Stock in a public or private sale, merger or similar transaction would increase the number of outstanding shares, thereby possibly diluting the interest of a party attempting to obtain control of the Company. The Company is not aware of any pending or threatened efforts to acquire control of the Company. While the Company is currently considering issuing both equity and debt securities to provide needed working capital, the Company has no present commitments or agreements to issue additional shares of Common Stock other than with respect to currently reserved shares, in connection with transactions in the ordinary course of the Company's business or shares which may be issued under the Company's 1995 Stock Incentive Plan. Other than increasing the number of authorized shares of the Company's Common Stock, the proposal to increase the authorized shares of Common Stock will not affect the rights, preferences or privileges of the Company's stockholders. However, the actual issuance of additional Common Stock by the Company would reduce each existing stockholder's proportionate ownership of the Company's equity.

Amendments to Certificate of Incorporation

If approved, Article V, Section 1 of the Certificate of Incorporation would be amended and restated substantially as follows:

Number of Authorized Shares. The Corporation shall be authorized to issue two classes of shares of stock to be designated, respectively, Common Stock and Preferred Stock. The total number of shares of all classes of stock that the Corporation shall have the authority to issue is Ninety Million (90,000,000) shares, consisting of Eighty Million (80,000,000) shares of Common Stock, par value \$0.01 per share, and Ten Million (10,000,000) shares of Preferred Stock, par value \$0.01 per share.

Vote Required

Approval of Proposal No. 2 requires the affirmative vote of a majority of the shares of the Company's Common Stock entitled to notice of, and to vote at, the Annual Meeting. Abstentions and broker non-votes will be counted as a vote against this proposal.

The Board of Directors believes that approval of Proposal No. 2 is in the best interests of the Company for the reasons stated above.

THEREFORE, THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR APPROVAL OF PROPOSAL NO. 2.

PROPOSAL NO. 3

AMENDMENT OF THE COMPANY'S 1995 STOCK INCENTIVE PLAN TO INCREASE THE NUMBER OF SHARES OF COMMON STOCK AVAILABLE FOR AWARDS THEREUNDER BY 6,250,000 SHARES AND ADJUST THE ANNUAL AUTOMATIC OPTION AWARD TO NON-EMPLOYEE DIRECTORS

At the Annual Meeting, the stockholders will be asked to approve an amendment to the Company's 1995 Stock Incentive Plan (the 1995 Plan) in order to increase the number of shares of Common Stock

available thereunder from 1,250,000 to 7,500,000 shares and to approve an adjustment in the annual automatic option award to non-employee directors.

The Board of Directors has approved and is hereby soliciting stockholder approval of an amendment to the 1995 Plan in the form set forth in Appendix D to the Proxy Statement.

The Company has utilized stock options granted pursuant to the 1995 Plan to attract, retain and motivate its employees, directors and consultants by providing for or increasing their proprietary interests in the Company. Under the 1995 Plan, every employee, director and consultant of the Company, or any of its subsidiaries, is eligible to be considered for the grant of awards. The 1995 Plan had a ten year term, which was extended by the Board in 2005 for two more years, to terminate in November 2007.

A total of 1,250,000 shares of Common Stock are currently reserved for issuance under the 1995 Plan. As of the Record Date, no shares of Common Stock remained available for issuance under the 1995 Plan. The Board of Directors believes that the availability of sufficient number of shares available for issuance under the 1995 Plan is integral to attract, retain and motivate the qualified employees that are fundamental to the success of the Company. Subject to stockholder approval, in October 2006, the Board of Directors approved an increase of 6,250,000 shares of Common Stock issuable under the 1995 Plan, which, if approved by the stockholders, would increase the total shares reserved for issuance under the 1995 Plan from 1,250,000 shares to 7,500,000 shares.

Summary of the 1995 Plan

The purpose of the 1995 Plan is to enable the Company to attract, retain and motivate its employees and consultants by providing for or increasing the proprietary interests of such employees and consultants in the Company and to enable the Company to attract, retain and motivate its non-employee directors and further align their interests with those of the Company's stockholders by providing for or increasing the proprietary interest of such directors in the Company.

Any person who is a director, employee or consultant to the Company or any of its subsidiaries, including any director who is also such an employee, is eligible to be considered for the grant of awards under the 1995 Plan. The 1995 Plan also currently provides for the automatic grant of options to non-employee directors of the Company. As of the Record Date, three employees (including two employee directors) and three non-employee directors were participating in the 1995 Plan.

The maximum number of shares of Common Stock that may currently be issued pursuant to all awards (including incentive stock options or ISOs) granted under the 1995 Plan is 1,250,000, subject to certain anti-dilution adjustments. The maximum number of shares of Common Stock that may currently be issued pursuant to ISOs granted under the 1995 Plan is also 1,250,000. Under the proposed amendment to the 1995 Plan, the maximum number of shares that may be issued pursuant to awards (including ISOs) granted under the 1995 Plan would be increased to 7,500,000, and the maximum number of shares of Common Stock that may be issued pursuant to ISOs is 7,500,000.

No employee may be granted awards under the 1995 Plan with respect to more than 500,000 shares of Common Stock during any calendar year, subject to certain anti-dilution adjustments. This limitation is intended to satisfy the requirements of Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code) so that compensation attributable to awards under the 1995 Plan qualifies as performance-based compensation under Section 162(m) of the Code. In addition, non-employee directors of the Company are currently entitled to receive automatic option grants to purchase 25,000 shares of Common Stock on an annual basis, which are granted on the date of each annual meeting of the stockholders. Under the proposed amendment to the Plan, the non-employee directors will be entitled to receive an automatic option grant to purchase 45,000 shares of the Company's common stock on an annual basis, which options

will be granted on the date of the annual meeting or on the one year anniversary of the previous year's annual meeting, whichever occurs earlier.

The 1995 Plan is administered by The Compensation Committee (the Committee) of the Board of Directors. The Committee is authorized to enter into any type of arrangement with an eligible employee that, by its terms, involves or might involve the issuance of (i) Common Stock or (ii) a derivative security with an exercise or conversion privilege at a price related to the Common Stock or with a value derived from the value of the Common Stock. Awards under the 1995 Plan are not restricted to any specified form or structure and may include arrangements such as sales or bonuses of stock, restricted stock, stock options, reload stock options, stock purchase warrants, other rights to acquire stock, securities convertible into or redeemable for stock, stock appreciation rights, phantom stock, dividend equivalents, performance units or performance shares. An award may consist of one such arrangement or two or more such arrangements in tandem or in the alternative. Any stock option granted to an employee may be an ISO or a nonqualified stock option.

Subject to the provisions of the 1995 Plan, the Committee is authorized and empowered to administer the 1995 Plan, including, without limitation: (i) adopting, amending and rescinding rules and regulations relating to the 1995 Plan; (ii) determining which persons may participate in the 1995 Plan and to which of such participants, if any, awards shall be granted under the 1995 Plan; (iii) granting awards to participants and determining the terms and conditions of awards granted under the 1995 Plan, including the number of shares of Common Stock issuable pursuant thereto; (iv) determining, with certain exceptions, the terms and conditions of the annual option grants to non-employee directors under the 1995 Plan; (v) determining whether, and the extent to which, anti-dilution adjustments are required and (vi) interpreting and construing the 1995 Plan and the terms and conditions of any awards granted under the 1995 Plan.

The anti-dilution provisions of the 1995 Plan generally provide for adjustments to the number of shares issuable pursuant to awards if the outstanding securities subject to the 1995 Plan increases or decreases as a result of certain events including, but not limited to, reorganization, merger, consolidation, recapitalization, restructuring, reclassification, dividend or other distribution. The anti-dilution provisions of the 1995 Plan also generally provide that no adjustment shall be made under the provisions of the 1995 Plan to the extent such adjustment would cause ISOs issued or issuable under the 1995 Plan to be treated as other than ISOs, or to the extent that the Committee determines that such adjustment would result in the disallowance of federal income tax deduction for compensation attributable to awards under the 1995 Plan by causing such compensation to be treated as other than performance-based compensation under Section 162(m) of the Internal Revenue Code.

The 1995 Plan currently does not specify a minimum exercise price or other consideration that a recipient of an award must pay to obtain the benefit of an award, and therefore the maximum compensation payable pursuant to the 1995 Plan, during the term of the 1995 Plan and awards granted thereunder, is currently equal to the number of shares of Common Stock with respect to which awards may be issued thereunder, multiplied by the value of such shares on the date such compensation is measured (which, in the case of non-statutory options, will generally be the date of exercise of the options). Awards may be issued under the 1995 Plan for any lawful consideration including services rendered by the recipient of such award. Any exercise price or other consideration payable in respect of any awards currently made under the 1995 Plan are to be determined by the Committee and included in the terms of such award. However, options automatically granted to non-employee directors on an annual basis will have an exercise price per share equal to the Fair Market Value of the Common Stock on the business day immediately preceding the date of the grant. Each such non-employee director option vests and becomes exercisable 25% at the end of each calendar quarter following the grant date, subject to the condition that the recipient is a director on such date.

Awards may not be granted under the 1995 Plan on or after the twelfth anniversary of its adoption (ISOs may not be issued with a term over 10 years). Each Director Option granted under the 1995 Plan expires upon the first to occur of the following: (i) the first anniversary of the date upon which the optionee ceases to be a director as a result of death or total disability; (ii) the 90th day after the date upon which the optionee ceases to be a director for any reason other than death or total disability or (iii) the fifth anniversary of the date of grant of such Director Option.

An award may include a provision conditioning or accelerating the receipt of benefits upon the occurrence of specified events, such as a change in control of the Company (as defined by the Committee), an acquisition of a specified percentage of the voting power of the Company, the dissolution or liquidation of the Company, a sale of substantially all of the property and assets of the Company or other significant corporate transaction described in the 1995 Plan. Further, all outstanding Director Options theretofore granted under this 1995 Plan terminate upon the first to occur of the following: (i) the dissolution or liquidation of the Company; (ii) a reorganization, merger or consolidation of the Company as a result of which the outstanding securities of the class then subject to such outstanding Director Options are exchanged for or converted into cash, property and/or securities not issued by the Company, which reorganization, merger or consolidation shall have been affirmatively recommended to the stockholders of the Company by the Board or (iii) the sale of substantially all of the property and assets of the Company.

The tax treatment upon disposition of shares acquired under the 1995 Plan will depend on how long the shares have been held. In the case of shares acquired through exercise of a stock option, the tax treatment will also depend on whether or not the shares were acquired by exercising an incentive stock option. There will be no tax consequences to the Company upon the disposition of shares acquired under the 1995 Plan except that the Company may receive a deduction in the case of the disposition of shares acquired under an ISO before the applicable ISO holding period has been satisfied.

The 1995 Plan is not subject to any provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and is not required to be qualified under Section 401(a) of the Code.

Additionally, Mr. Truant was granted options to acquire 350,000 shares of the Company's stock at an exercise price equal to the market share price of the Company's common stock at the close of trading on August 26, 2005, (\$2.10 per share). Mr. Truant may also be granted an annual bonus and/or additional stock options or restricted stock at the sole discretion of the Compensation Committee of the Board of Directors.

D. Scott Houston entered into a written employment agreement with the Company on October 19, 1993, which may be terminated at any time, with or without cause, upon thirty (30) days notice. Mr. Houston receives an annual salary of \$320,000, subject to annual review and increase at the discretion of the Board of Directors. Currently, two-thirds of his annual salary is payable in cash and one-third is accrued as deferred compensation, to be paid at a future date as the Company is financially able to do so. Mr. Houston may also be entitled to receive bonuses and/or options or other rights to acquire the Common Stock at the sole discretion of the Compensation Committee of the Board of Directors. Mr. Houston also receives a car allowance of \$600 per month. In order to conserve cash until the Company is able to establish its royalty revenue stream, in April 2004, Mr. Houston voluntarily agreed to go part time and to reduce his base salary 75%, which resulted in a reduction of his cash compensation to \$80,000 per year. Mr. Houston continued to work much more than was originally contemplated and in October 2004, the cash portion of Mr. Houston's salary was adjusted to a rate of \$213,333 per year. The Company also agreed to payout Mr. Houston's accrued vacation pay in the amount of \$61,540, which was paid over several pay periods in 2005. As of September 1, 2005, Mr. Houston resumed his full time status with the Company, at his original salary of \$320,000 per year, and has agreed to accept two-thirds of his salary in cash as outlined above and one-third in the future as deferred compensation. In 2005, based on his continued contributions at significantly reduced compensation during the Company's difficult financial period, the Board approved the grant to Mr. Houston of a deferred compensation award as a bonus relating to that period, to be paid at such future time as the Company is financially able to do so. Total accrued deferred compensation due to Mr. Houston as of the year ended December 21, 2005 was \$248,889, of which \$213,337 is deferred bonus, and \$35,552 is deferred salary since September 1, 2005.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers and directors and persons who beneficially own more than 10% of the Company's Common Stock to file reports of ownership and changes in ownership on Forms 3, 4 and 5 with the SEC. Officers, directors and greater than 10% beneficial owners are required by the SEC to furnish the Company with copies of all Forms 3, 4 and 5 that they file. Based solely upon the Company's review of the copies of such forms it has received, and certain other information available to it, to the best of the Company's knowledge:

Mr. Khashoggi did not timely file one report reporting the gift of shares of Common Stock to each of his three children and one report reporting the conversion of debt by EKI, an affiliate of Mr. Khashoggi in October 2005. The gift was reported on May 20, 2005 and the conversion of debt by EKI was reported on February 24, 2006.

Mrs. Khashoggi did not timely file one report reporting her husband's gift of shares of Common Stock reported above and one report reporting the conversion of debt by EKI, an affiliate of Ms. Khashoggi, in October 2005. The gift was reported on May 20, 2005 and the conversion of debt by EKI was reported on February 24, 2006.

Compensation Committee Interlocks and Insider Participation

All decisions relating to executive compensation during 2005 were made by the Company's Compensation Committee. None of the members of the Committee were officers of the Company in 2005.

Mr. Essam Khashoggi and E. Khashoggi Industries represent a greater than 10% ownership in the Company. The following transactions occurred during 2005.

During 2002 and 2003, EKI made various simple interest working capital loans to the Company (the "Simple Interest Loans"). As part of the settlement of the 2006 Debentures in October of 2004, EKI agreed to convert all of the outstanding Simple Interest Loans to EarthShell (\$2,755,000) into unregistered common stock at \$3.00 per share and \$532,644 of accumulated interest into unregistered common stock at \$4.00 per share, for a total of 1,051,494 shares received by EKI. In May 2005, an additional 44,387 shares were issued to EKI pursuant to a ninety (90) day price protection clause, which provided for an adjustment in the effective conversion price of the interest portions of the Simple Interest Loans from \$4.00 per share to \$3.00 per share.

In August 2005, the Company granted a warrant to Mr. Essam Khashoggi to purchase one million shares of the Company's common stock at \$3.00 per share in consideration of Mr. Khashoggi's continued support of the Company since its inception, including providing bridge loans at below market terms from time to time. The warrant expires in May of 2015.

On October 11, 2005, the Company entered into the EKI Loan with EKI pursuant to which the Company issued to EKI a promissory note to EKI in the principal amount of \$1,000,000. As of the second week of January 2006, EKI has advanced the full \$1,000,000 to the Company. Interest accrues on the principal balance of the EKI Loan at a variable per annum rate, as of any date of determination, that is equal to the rate published in the "Money Rates" section of The Wall Street Journal as being the "Prime Rate", compounded monthly. All accrued but unpaid interest and outstanding principal is due and payable on the earliest to occur of the following: (i) the second (2nd) anniversary of the date of the EKI Loan; (ii) five (5) days following the date the Company has received \$3 million or more in aggregate net cash proceeds from all financing transactions, equity contribution, and transactions relating to the sale, licensing, sublicensing or disposition of assets or the provision of services (including advance royalty payments, proceeds from the sale of the Company's common stock and fees for technological services rendered to third parties), measured from the date of the EKI Loan and not taking into account the

proceeds advanced under the EKI Loan; or (iii) the occurrence of an Event of Default (as defined in the EKI Loan).

On October 11, 2005, the Company entered into the Debt Conversion Agreement with EKI, pursuant to which the Company and EKI agreed that a receivable in an amount equal to \$837,146 (previously owed to bio-Tec Biologische Naturverpackinger GmbH & Co. KG (Biotec), but which receivable was subsequently assigned to EKI in connection with the sale of Biotec by EKI) be converted into 279,048 shares of common stock of the Company. The conversion price equals \$3.00 per share. Pursuant to the Debt Conversion Agreement, the Company and EKI released each other from any and all claims in connection with the receivable.

Biotec License Agreement. On July 29, 2002 the Company entered into a license and information transfer agreement (the Biotec License Agreement) with bio-tec Biologische Naturverpackungen GmbH & Co. KG and bio-tec Biologische Naturverpackungen Forschungs and Entwicklungs GbmH (the Biotec Group) to applications. EKI had previously granted to the Company priority rights to license certain product applications on an exclusive basis from the Biotec Group. On August 31, 2005, in connection with the sale of Biotec by EKI, Biotec License Agreement was amended and restated (the Amended and Restated Biotec License) and the minimum monthly payment to retain exclusivity was completely eliminated and the balance of approximately \$837,000 was assigned by the Biotec Group to EKI as noted above. Under the Amended and Restated Biotec License, the Company has a fully paid up license to use the Biotec technology in the EarthShell fields of use, with certain limited exclusions, exclusively through June 2008. The Company can maintain its exclusivity provided it has been successful in commercializing the Biotec technology and is making certain minimum royalty payments under the license by June 2008.

On July 28, 2006, the Company entered into a Loan and Mutual Release Agreement (the Agreement) with E. Khashoggi Industries, LLC (EKI), the Company s largest stockholder. Pursuant to the Agreement, EKI advanced \$350,000 directly to the Company and an additional \$150,000 to a law firm on behalf of the Company to cover legal fees related to patent renewals. The Agreement also contains mutual releases of any and all claims, known or unknown, which the respective parties may have through the date of the Agreement under existing license, debt conversion and service agreements. The Company executed and delivered two Promissory Notes to EKI on July 28, 2006; one in the amount of \$350,000 and the other in the amount of \$150,000. Interest accrues on the principal balance of the \$350,000 note at a variable per annum rate, as of any date of determination, that is equal to the rate published in the Money Rates section of The Wall Street Journal as being the Prime Rate , compounded monthly. The \$150,000 note is non-interest bearing. All accrued but unpaid interest and outstanding principal under the notes is due and payable on the earliest to occur of the following: (i) the second anniversary of the date of the note; (ii) five days following the date the Company has received \$3.0 million or more in aggregate net cash proceeds from all financing transactions, equity contributions, and transactions relating to the sale, licensing, sublicensing or disposition of assets or the provision of services (including advance royalty payments, proceeds from the sale of the Company s common stock and fees for technological services rendered to third parties), occurring subsequent to the date of the notes.

On September 29, 2006, the Company executed a Promissory Note (the EKI Note) in the amount of \$250,000 with EKI, the Company s largest stockholder. Pursuant to the Note, EKI made an initial advance of \$150,000 on September 29, 2006. An additional amount of \$100,000 will be funded to the Company within the next 30 days. Interest accrues on the principal balance of the Note at a 5.13% per annum rate, compounded monthly. All accrued but unpaid interest and outstanding principal under the note is due and payable on the earliest to occur of the following (i) five days following the date the Company has received significant net cash proceeds from new financing transactions, equity contributions, and transactions relating to the sale, licensing, sublicensing or disposition of assets or the provision of services (including advance royalty payments, proceeds from the sale of the Company s common stock and fees for

technological services rendered to third parties), occurring subsequent to the date of the note or, (ii) the date the existing notes from EKI to the Company become due and payable.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board of Directors of EarthShell Corporation is pleased to present its annual report on executive compensation. This report describes the function of the Compensation Committee, the objectives of the Company's executive compensation program, the various components of compensation, and explains the basis upon which 2005 compensation determinations were made by the Compensation Committee with respect to the executive officers of the Company, including the Named Executive Officers.

Compensation Committee Charter

The Compensation Committee is charged with the following responsibilities:

- reviewing and recommending to the Board of Directors the annual base salary, bonus and other benefits for the senior executive officers of the Company;
- reviewing and commenting on new executive compensation programs that the Company proposes to adopt;
- periodically reviewing the results of the Company's executive compensation and perquisite programs to ensure that they are properly coordinated to yield payments and benefits that are reasonably related to executive performance;
- helping to ensure that a significant portion of executive compensation is reasonably related to the long-term interests of the stockholders;
- participating in the preparation of certain portions of the Company's annual proxy statement;
- if necessary, hiring a compensation expert to provide independent advice on compensation levels; and
- helping to ensure that the Company undertakes appropriate planning for management succession and advancement.

Compensation Components

The Company's executive compensation program consists of a mixture of base salary, cash bonuses and stock options. In determining the mix and total amount of compensation for each executive officer, the Compensation Committee subjectively considers each executive's overall value to the Company including past and expected contributions by the executive to the Company's goals. In addition, the Compensation Committee strives to balance short-term and long-term incentive compensation to achieve desired results.

Shortly following the Company's initial public offering in March 1998, anticipating that it would be hiring several new executives as part of its next stage of development, the Company commissioned SCA Consulting LLC (SCA), a Los Angeles based executive compensation consulting firm, to update its executive compensation strategy and total pay structure. As part of its assignment, SCA developed a study of the compensation practices of newly public, development stage companies. The Compensation Committee references this study as it administers each of the three components of its executive compensation program to ensure that its compensation practices are competitive and that the overall compensation package appropriately attracts, motivates, rewards, and retains key employees with outstanding abilities.

Base Salary. The Company has historically determined base salary for its executives based on qualifications, job requirements and competitive market salaries that such qualifications and job requirements command. As the Company grows, it will continue to rely on peer group competitive compensation practices to remain consistent and competitive in its compensation practices.

Salaries for executives are reviewed by the Compensation Committee on an annual basis and may be adjusted based upon their assessment of the individual's contribution to and financial growth of the Company as well as competitive pay levels.

The Company paid base compensation to Mr. Vincent Truant, Chairman of the Board and Chief Executive Officer, at an annual rate of \$350,000 which was then adjusted to \$400,000 upon his being named Chief Executive Officer effective September 1, 2005. Also effective September 1, 2005, the salary for Mr. D. Scott Houston, Chief Financial Officer and Secretary resumed his full time status with the Company and his salary was adjusted to the former rate of \$320,000 per year, of which, Mr. Houston receives \$213,333 in cash payments and \$106,667 in deferred compensation, as described above.

Bonus. Bonuses may be granted for a fiscal year after the financial results for that fiscal year become available. The Compensation Committee meets to consider annual bonuses for each executive based on individual performance as well as overall financial results of the Company for the year. There is no plan requiring that bonuses be paid, and the amount of bonuses, if any, are determined in the sole discretion of the Compensation Committee. The Compensation Committee may consider bonus compensation in light of the accomplishment of specific milestones developed by management in support of the annual strategic plan.

In determining whether to grant management bonuses for 2005, the Compensation Committee considered both individual performance as well as the Company's overall performance. Although the Compensation Committee noted several significant individual and Company achievements during the year, in light of the delays the Company has experienced in commercializing the Company's technology as well as the financial condition of the Company, the Compensation Committee granted only one bonus, which was in the form of deferred compensation in the amount of \$71,104 to Mr. Houston, who had voluntarily agreed to work part time at a reduced rate, but continued to put in a nearly full time effort. The bonus for Mr. Houston will be accrued and will be paid at some future date as the Company is financially able.

Stock Options. The Stock Option Committee believes that significant equity interests in the Company in the form of stock options held by the Company's management serve to align the interests of the executive management team with those of stockholders. The Stock Option Committee may grant stock options and restricted stock to executives and other key employees of the Company pursuant to the 1995 Stock Incentive Plan, or may recommend that the Board of Directors do so, as appropriate. During 2005, the Stock Option Committee or its successor committee, the Compensation Committee, granted the Named Executive Officers stock options issued under the 1995 Stock Incentive Plan at the then-current market as follows:

	Stock Options
Vincent Truant	350,000
D. Scott Houston	375,000
Paul B. Susie	40,000
Simon K. Hodson	500,000

The stock options granted are reflected in the Stock Options Grant table.

The Stock Option Committee will continue to consider various methods to provide additional incentives to management and employees of the Company, including granting additional stock options and/or restricted stock or recommending that the Board of Directors do so, as appropriate. In determining

the grants of stock options and restricted stock, the Stock Option Committee will take into account, among other things, the respective scope of responsibility and the anticipated performance requirements and contributions to the Company of each proposed award recipient as well as the amounts of prior grants.

Compensation to Chief Executive Officer in 2005

The Compensation Committee meets annually to evaluate the Chief Executive Officer's performance and to review the Chief Executive Officer's compensation.

In reviewing Mr. Vincent J. Truant's compensation, the Compensation Committee considers his principal responsibilities, which include providing overall vision and strategic direction for EarthShell, attracting and retaining highly qualified employees, developing new sources of capital for the company, and developing and maintaining key customer and strategic relationships.

Mr. Truant received a base annual salary of \$400,000 which was effective on September 1, 2005. This amount was based on the Compensation Committee's assessment that Mr. Truant is uniquely qualified to lead the Company through its transition stage and into commercialization. Based in part on the foregoing, the Compensation Committee concluded that the \$400,000 base salary compensation was appropriate for 2005.

The former CEO, Mr. Simon K. Hodson, resigned effective August 31, 2005 and remained with the company as a consultant through October 31, 2005. He received a salary at the annual rate of \$500,000 for 2005, of which \$333,333 was cash compensation and \$166,667 was deferred compensation, accruing interest at the rate of 8% per annum. During 2005, Mr. Hodson received total cash compensation of \$395,667, which was comprised of cash salary through October 31, 2005 of \$250,000, and the payment of accumulated deferred compensation of \$141,667 related to 2004. The balance of accumulated deferred compensation due to Mr. Hodson as of December 31, 2005 was \$179,361.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), limits the deductibility of compensation over \$1 million to certain executive officers unless, in general, the compensation is paid pursuant to a plan which is performance related, non-discretionary and has been approved by the Company's stockholders. The Company did not pay any compensation in 2005 that would be subject to Code Section 162(m). The Compensation Committee intends to establish policies regarding qualification of compensation under Section 162(m) of the Code to the extent it considers such policies appropriate.

Corporate Governance and Nominating Committee Charter

Approved by the Board of Directors
on August 11, 2005

This charter sets forth the authority and responsibility of the Corporate Governance and Nominating Committee (the **Committee**) of the Board of Directors (the **Board**) of EarthShell Corporation (the **Company**).

I. PURPOSE AND AUTHORITY

The primary purpose of the Committee is to assist the Board in:

- identifying qualified individuals to become Board members;
- determining the composition of the Board and its committees;
- considering questions of possible conflicts of interest;
- developing and implementing the Company's corporate governance guidelines; and
- monitoring a process to assess Board effectiveness.

The Committee will primarily fulfill these responsibilities by carrying out the activities listed below in Section V of this charter. Subject to any restrictions or limitations on the delegation of power and authority imposed by the rules or regulations promulgated by the SEC, the NASD or other applicable regulatory authority or law, the Committee shall have, and may exercise, all the powers and authority of the Board reasonably necessary or advisable for the Committee to perform its responsibilities as set forth in Section V of this charter.

II. COMPOSITION

The Committee shall be appointed annually to serve at the pleasure of the Board and will be comprised of not less than three members of the Board who are independent directors for purposes of SEC and other applicable regulatory rules. The Board shall designate one member of the Committee to serve as Chairman. Vacancies in the Committee may be filled at any meeting of the Board.

III. MEETINGS

The Committee shall meet at least twice annually, or more frequently as circumstances dictate. Regular meetings of the Committee may be held without call or notice at such times and places as the Committee from time to time may fix. Special meetings of the Committee may be called by the Chairman of the Committee or by the Secretary of the Company when requested to do so by any two members of the Committee. Notice shall be given in the same manner as notice of special meetings of the Board.

Any action required or permitted to be taken at any meeting of the Committee may be taken without a meeting if consent in writing is given thereto by all members of the Committee and such consent is filed with the minutes.

Minutes of the meetings of the Committee will be prepared promptly by the Secretary of the Company or a delegate. The Secretary shall cause minutes of the meetings to be kept in the minute books of the Company of the Committee. These minutes shall be made available to the members of the Board from time to time for their information.

IV. QUORUM

A majority of the members of the Committee, but no fewer than two persons, shall constitute a quorum for the transaction of business at any meeting of the Committee. Any action of the Committee to be effective must be authorized by the affirmative vote of a majority of the members thereof present and in any event shall require not less than two affirmative votes.

V. RESPONSIBILITIES AND DUTIES

To fulfill its responsibilities and duties the Committee shall:

1. Identify Qualified Individuals to Become Board Members

The Committee will annually provide to the Board for its approval a slate of potential Board member nominees to be presented to the Company's stockholders. When selecting such nominees the Committee will seek out individuals who have:

- the highest character and integrity;
- an ability and desire to make independent and thoughtful analytical inquiries;
- meaningful experience at a strategy/policy setting level;
- outstanding ability to work well with others;
- sufficient time available to carry out Board members responsibilities; and
- freedom from any conflict of interest (other than employment by the Company of an inside director) that would interfere with his or her independent judgment and proper performance of responsibilities as a member of the Board.

2. Review Board and Board Committee Structure

The Committee will, from time to time, review the Board and the Board's committee structure and function and will provide the Board annually with a recommended membership slate for each Committee. The Committee will also recommend additional committee members to fill vacancies as such vacancies arise.

3. Corporate Governance

The Committee will develop and recommend to the Board for its approval a set of corporate governance guidelines. The Committee will review the guidelines from time to time and recommend any necessary changes.

4. Conflicts of Interest

The Committee will review and consider all potential conflict of interest and related party transactions and will:

- determine whether each such transaction is on at least as favorable terms to the Company as might be available from third parties;
- determine whether each such transaction is reasonably likely to further the Company's business activities and interests;
- determine whether the process by which the decision to enter into each such transaction was approved or ratified and is fair;

- help ensure that all such transactions are disclosed in the Company's filings with the SEC as necessary; and
- retain an independent expert, if necessary, to determine the advisability of the Company's entering into such transactions, and to determine fair terms for such transactions.

5. Self-Evaluation Process

The Committee will develop and recommend to the Board for its approval an annual Board self-evaluation process. The Committee will administer the annual self-evaluation process. In addition, the Committee will:

- as necessary, review changes in the occupation or retirement of Board members and whether the new occupation or retirement is consistent with the rationale for originally selecting the person to be a Board member;
- when presented, review Board member notices regarding invitations to join other boards of directors; and
- every three years, review each Board member's continuation on the Board.

6. General

The Committee will report to the Board following meetings of the Committee and will perform any other activities consistent with this charter, the Company's Certificate of Incorporation and Bylaws and governing law as the Committee or the Board deems necessary or appropriate.
