NOTES TO COMBINED FINANCIAL STATEMENTS

JUNE 30, 2006 AND 2005 (UNAUDITED) AND DECEMBER 31, 2005 AND 2004 (AUDITED)

NOTE 1. ORGANIZATION AND OPERATIONS

The combined financial statements include the operations of Alan James Group, LLC, a Florida corporation, incorporated in September, 2003 and four sister companies: AJG-Alt, LLC; AJG-BI Brands, LLC; AJG-GNC, LLC and AJG-NB, LLC (collectively, the combined entities are referred to herein as the Company). Membership interests in each of the LLCs are held by two individuals who are also members of senior management. In each of the entities, the members split profits and losses on a 50/50 basis.

The nature and scope of operations of each of the Companies is as follows:

Alan James Group, LLC: corporate overhead entity. Maintains customer relationships on behalf of sister companies.

AJG-Alt LLC: This entity entered into an agreement with Alticor, Inc., (the parent company of Amway Corp., a global leader in multi-level marketing), to assist Alticor, Inc. in divesting of certain non-strategic products. The Company recognized \$0, \$65,000 and \$1,266,250 of consulting revenue for this contract in 2006, 2005 and 2004, respectively. This revenue stream is not expected to be recurring.

AJG-BI Brands LLC: formed to acquire a line of health supplement products in October 2004. This entity is seeking to grow sales of these products. Refer to discussion below.

AJG-GNC LLC: sells a line of skincare products on an exclusive basis to General Nutrition Center, a retailer of health related products.

AJG-NB LLC: formed to internally develop and market new brands for the group.

The Company is a rapidly growing healthcare focused consumer products company targeting the growing market for self-medication and preventive healthcare products. On October 8, 2004, AJG-BI Brands acquired product inventory and related assets, as well as the exclusive distribution rights in the United States, pertaining to a line of herbal supplements (the BI Purchase). The acquired products included Ginsana, Ginsana Gold, Ginkoba, Venastat, and SAM-e, and the mass market distribution rights to Kyolic in the United States. Pursuant to the BI Purchase Agreement, the Company agreed to pay \$2,146,365 to acquire all of the product inventory, as well as the rights to the related trade names and trade dress. Under the BI Purchase Agreement, the Seller agreed to perform certain transitional services including customer billing and shipping during the period from October 8, 2004 through December 31, 2004.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Combination

The combined financial statements include the accounts of Alan James Group, LLC; AJG-Alt, LLC; AJG-BI Brands, LLC, AJG-GNC, LLC and AJG-NB, LLC. All significant intercompany accounts and transactions have been eliminated.

Industry Risk and Concentrations

The market for health supplement products is competitive and other companies sell similar products to those sold by the Company. The Company's sales and margins may be influenced by competitor actions or other factors such as the cost of product, contract terms and general market conditions.

As of June 30, 2006 and for the six months then ended, approximately 32% and 34% of total revenue and total receivables, respectively, was from a single customer. For the six months ended June 30, 2005, approximately 42% of total revenues was from a single customer. As of December 31, 2005 and for the year then ended, approximately 38% and 41% of the total revenue and total receivable, respectively, was from a single customer. During 2004, three retailers accounted for 53% of the BI revenue during the period from October 8, 2004 through December 31, 2004. One of these retailers represented 36% of BI revenue. During 2004, approximately \$1.27 million of revenue (36% of total revenue) was derived from a consulting arrangement with a single customer. Although some additional consulting revenue was earned in 2005, this revenue source is not expected to be recurring in the future.

During 2006 and 2005, the majority of BI's products are sourced from three suppliers. The Company pays a contracted rate per completed unit for each product. The suppliers are responsible for procuring raw materials and packaging finished products. If the Company is unable to maintain the relationship with these suppliers, it will need to find an alternative. Management believes that suitable alternate suppliers are available.

Accounts Receivable

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. Management periodically reviews the detail of trade receivables and, if required, adjusts the allowance for doubtful accounts to management's best estimate of the amount of probable credit losses in the Company's existing accounts receivable. Historically, the Company has not incurred any material credit losses and management has determined that no allowance is needed as of June 30, 2006 and December 31, 2005 and 2004. Management will continue to review its receivables in the future and will record allowances for doubtful accounts as credit losses are deemed to have occurred.

Cash

Cash includes amounts on hand and on deposit at financial institutions.

Inventory

Inventory is stated at the lower of cost or market. Cost is determined using the first-in, first-out method. Management periodically evaluates inventory to identify items which are slow moving or have excess quantities. Management also considers whether certain items are carried at values which exceed the ultimate sales price less selling costs. Where such items are identified, management adjusts the carrying value to lower of cost or market.

NOTES TO COMBINED FINANCIAL STATEMENTS

JUNE 30, 2006 AND 2005 (UNAUDITED) AND DECEMBER 31, 2005 AND 2004 (AUDITED)

In accordance with Statement of Financial Accounting Standards (SFAS) 48, *Revenue Recognition When Right of Return Exists*, the Company recognizes revenue, net of estimated refunds and related costs, at the time of the sale. Sales returns are estimated based on historical experience. For the six months ended June 30, 2006 and 2005 and for the years ended December 31, 2005 and 2004, the Company had recorded sales returns of \$488,220, \$181,444, \$483,111 and \$5,842, which accounted for approximately 8%, 4%, 4% and less than 1%, respectively, of gross revenue. Returns are recorded in the year such returns are received and when returns are expected to be received in the near term. As of June 30, 2006, December 31, 2005 and 2004, the Company has accrued for future returns of \$0, \$95,000 and \$0, which is included in accounts payable and accrued expenses in the combined balance sheets. In the ordinary course of business and due to future events and circumstances, actual sales returns could be above the estimated accrued amounts. However, management believes that amounts accrued as of June 30, 2006, December 31, 2005 and 2004, are sufficient to cover such sales returns.

Sales are recorded in the financial statements net of returns and trade discounts. Revenue is recognized when earned and realizable. The Company recognizes revenue from product sales upon shipment to the customer. Product revenue is deemed earned at time of shipment. Consulting revenue is deemed earned when the related services have been rendered.

Product revenues of AJG-BI in 2004 were primarily generated from sales of the inventory acquired under the BI Purchase Agreement and thus valued at the price paid to the seller. Beginning in 2005, the Company entered into agreements with certain suppliers to supply finished goods at contracted prices. The suppliers are responsible for procuring raw material, packaging components and manufacturing the finished product. Consequently, the cost of goods sold and gross profit are largely dependent on the contracted prices per the agreements with third-party suppliers.

Property and Equipment, Net

Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the following estimated useful lives of the assets:

Computer and software	3 years
Automobiles	5 years
Furniture, fixtures and equipment	7 years
Real estate condominium	27.5 years
Leasehold improvements	37.5 years

Limited Liability Company / Income Taxes

The financial statements include only those assets, liabilities and results of operations that relate to the businesses of the combined entities. The statements do not include any assets, liabilities, revenues or expenses attributable to the members' individual activities.

The combined entities file their income tax returns as partnerships for federal income tax purposes. Consequently, the Company will not pay any federal income taxes as any income or loss will be included in the tax returns of the individual members of the combined entities.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at June 30, 2006, December 31, 2005 and 2004 and revenues and expenses during the periods then ended. The actual outcome of the estimates could differ from the estimates made in the preparation of the combined financial statements.

Advertising Costs

The Company expenses advertising costs as incurred. Total advertising costs of approximately \$661,000, \$390,000, \$698,000 and \$14,000 for the six months ended June 30, 2006 and 2005 and for the years ended December 31, 2005 and 2004, respectively, are included in selling, general and administrative expenses.

Impairment of Long-Lived Assets

The carrying value of long-lived assets, such as property and equipment, are reviewed if the facts and circumstances, such as significant declines in revenues, earnings or cash flows or material adverse changes in the business climate, indicate that they may be impaired. The Company performs its review by comparing the carrying amounts of long-lived assets to the estimated undiscounted cash flows relating to such assets. If any impairment in the value of the long lived assets is indicated, the carrying value of the long-lived assets is adjusted to reflect such impairment based on the fair value of the impaired assets or an estimate of fair value based on discounted cash flows.

Recent Accounting Pronouncements

Consolidation of Variable Interest Entities

The Company adopted Financial Accounting Standards Board (FASB) Interpretation No. 46 and 46R, *Consolidation of Variable Interest Entities*, effective December 29, 2002. Interpretation 46, as revised in December 2003, changes the accounting model for consolidation from one based on control through voting interests to one based on control through economic interests. Whether to consolidate an entity now also considers whether that entity has sufficient equity at risk to enable it to operate without additional subordinated financial support, whether the equity owners in that entity lack the obligation to absorb expected losses or the right to receive residual returns of the entity, or whether voting rights in the entity are not proportional to the equity interest and substantially all the entity's activities are conducted for an investor with few voting rights. This interpretation requires a company to consolidate variable interest entities (VIEs) if the enterprise is a primary beneficiary of the VIE and the VIE possesses specific characteristics. It also requires additional disclosures for parties involved with VIEs. The adoption of this statement did not have an impact on the Company's combined results of operations or financial position because the Company does not invest or participate in any entities, which would be considered VIE under Interpretation 46.

Accounting for Changes and Error Corrections

In May 2005, the FASB issued Statement of Financial Accounting Standard (SFAS) No. 154, *Accounting Changes and Error Corrections*. SFAS No. 154 establishes, unless impracticable, retrospective application as the required method for reporting a change in accounting principle in the absence of explicit transition requirements specific to a newly adopted accounting principle. This statement will be effective for the Company for all accounting changes and any error corrections occurring after January 1, 2006. The Company does not expect the adoption of SFAS No.154 to have a material impact on its combined results of operations and financial condition.

NOTES TO UNAUDITED PRO FORMA COMBINED CONSOLIDATED FINANCIAL STATEMENTS**1. Basis of Presentation**

The unaudited pro forma combined consolidated balance sheet gives effect to the acquisition, which was accounted for under the purchase method of accounting, as if it had been consummated on June 30, 2006.

The unaudited pro forma combined consolidated statements of operations have been prepared to reflect the acquisition as if it occurred on January 1, 2006 and 2005, respectively. Pro forma net loss per share has been computed using the weighted average shares of common stock outstanding adjusted for the issuance of 2,863,092 shares issued in connection with the acquisition.

2. Acquisition Financing

In connection with the acquisition, Alticor, Inc., which owns a majority interest in Interleukin, will provide \$30 million in financing in the form of a \$15.6 million private placement with Alticor, Inc., and a new \$14.4 million credit facility. The amount available under the credit facility will be reduced by the amount of any proceeds received by Interleukin from a planned rights offering of \$14.4 million of common stock to existing Interleukin common stockholders at a price of \$5.68 per share, to be commenced as soon as practicable.

3. Purchase Price Allocation

The purchase price was allocated to the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values at the date of acquisition. The estimated fair value of the assets acquired and liabilities assumed exceeded the initial payments by \$4.8 million resulting in negative goodwill. Pursuant to Statement of Financial Accounting Standards (SFAS) No. 141, *Business Combinations* (SFAS No. 141), the Company recorded as a liability, contingent consideration up to the amount of negative goodwill. If and when contingent payments become due, the Company will apply the contingent payments against the liability. Contingent payments in excess of \$4.8 million, if any, will be recorded as goodwill. The allocation of the purchase price remains subject to potential adjustments, including contingent consideration and the estimated transaction costs.

The components of the preliminary purchase price allocation are as follows:

Purchase Prices:

Cash	\$ 7,281,257
Stock	500,000
Estimated transaction costs	550,000
	\$ 8,331,257

Allocation:

Accounts Receivable	\$ 1,479,837
Inventory	2,500,000
Other current assets	46,111
Property and equipment	109,881
Acquired intangible assets	9,800,000
Accounts payable	(768,740)
Contingent acquisition costs	(4,835,832)
	\$ 8,331,257

Differences between the above allocations and the June 30, 2006 unaudited pro forma combined consolidated balance sheet reflect changes in AJG's balance sheet between June 30, 2006 and August 17, 2006.

Acquired intangible assets are as follows:

Identified Intangible Assets	Estimated Estimated Fair Value*	Remaining Useful Life (Yrs)
Retailer Relationships	\$ 5,700,000	10
