The Board of Directors also has a standing Audit Committee, which conducted five (5) meetings during the fiscal year ended December 31, 2006. The members of the Audit Committee are John C.

Hodgman and Drs. John W. Fara and James B. Hicks. Mr. Hodgman serves as the Committee's Chairman and the Committee's designated financial expert.

The Audit Committee oversees the annual and quarterly financial reporting process, retains and replaces the Company's independent auditors, discusses with the auditors their independence from management and reviews the scope of the independent annual audit. The Audit Committee operates under an amended and restated written charter adopted by the Board of Directors on March 30, 2004, a copy of which is posted on the Company's website (www.avibio.com). The Audit Committee reviewed and reassessed the charter for effectiveness during 2006.

The Board of Directors also has a standing Compensation Committee, which reviews and makes recommendations to the full Board of Directors regarding compensation for the Company's executive officers and directors and administers the Company's stock option and employee stock purchase plans. During the fiscal year ended December 31, 2006, the Compensation Committee held one (1) meeting. As of the fiscal year ended December 31, 2006, the Compensation Committee was composed of three independent directors, Messrs. Jack L. Bowman, K. Michael Forrest, and John C. Hodgman. Each director attended the Company's 2006 annual meeting of shareholders.

Code of Business Conduct and Ethics

The Company has adopted a Code of Business Conduct and Ethics (the "Code"). The Code applies to all directors and employees, including all officers, managers and supervisors, and is intended to better ensure full, fair, accurate, timely and understandable disclosures in our public documents and reports, compliance with applicable laws, prompt internal reporting of violations of these standards and accountability for adherence to standards. The Company has contracted with Ethicspoint to provide a method for employees and others to report violations of the Code anonymously. A copy of the Code of Business Conduct and Ethics is posted on the Company's website (www.avibio.com).

Communications to the Board of Directors

The Board of Directors welcomes and encourages shareholders to share their thoughts regarding the Company. Towards that end, the Board of Directors has adopted a policy whereby all communications should first be directed to Investor Relations. Investor Relations will then distribute a copy of the communication to the Chairman of the Board, the Chairman of the Audit Committee and the Company's outside counsel. Based on the input and decision of these persons, along with the entire Board of Directors

if it is deemed necessary, the Company, through its Investor Relations department, will respond to the communication. Shareholders should not communicate directly with any individual officer or director unless requested to do so.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires AVI's directors and officers, and persons who own more than ten percent (10%) of a registered class of AVI's equity securities, to file initial reports of ownership and report of changes in ownership with the Commission. Such persons also are required to furnish AVI with copies of all Section 16(a) reports they file.

Based solely on its review of the copies of such reports received by it with respect to fiscal year 2006, or written representations from certain reporting persons, AVI believes that all filing requirements applicable to its directors, officers and persons who own more than ten percent (10%) of a registered class of AVI's equity securities have been complied with for fiscal 2006.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of the Compensation Program

The executive compensation program is implemented by the Company's Compensation Committee. As of the fiscal year ended December 31, 2006, the Compensation Committee was composed of three independent directors, Messrs. Jack L. Bowman, K. Michael Forrest, and John C. Hodgman. As of March 27, 2007 in connection with becoming the Chief Executive Officer, Mr. Forrest resigned as a member of the Compensation Committee. The Compensation Committee is responsible for reviewing, assessing, and initially approving all elements of compensation for our named executive officers. Compensation recommendations from the Compensation Committee are submitted to the full Board of Directors for approval.

Throughout this proxy statement, the individuals who served as the Company's Chief Executive Officer and Chief Financial Officer during fiscal year 2006, as well as the other individuals included in the Summary Compensation Table on page 10, are referred to as the named executive officers.

Compensation Philosophy and Objectives

The purpose of the Company's compensation program is to attract, motivate and retain key executive employees in order to promote the success of the Company. The Company seeks to reward and to provide incentives to named executive officers for their performance. Currently, the Company's compensation program is comprised of a base salary, a performance-based cash bonus and long-term incentive opportunities in the form of stock options, along with benefits offered to all employees of the Company, including the Company's Employee Stock Purchase Plan and the 401(k) Plan.

The compensation program is designed to reward named executive officers for meeting specific goals that are established for each named executive officer and for the Company as a whole. In addition, the compensation program is used to attract and retain highly qualified individuals as named executive officers of the Company. At the end of the fiscal year, the Chief Executive Officer and the Compensation Committee assess how each named executive officer has performed with respect to these goals. The compensation package for each named executive officer, including base salary for the following year, cash bonus for the current year, and stock options, is determined primarily on the basis of how that named executive officer performed in meeting his goals and also on market factors that require the Company to remain competitive in its compensation package in order to attract and retain qualified individuals.

Role of Executive Officers in Compensation Decisions

The Chief Executive Officer assesses the performance of the named executive officers. He then recommends to the Compensation Committee a base salary, performance-based cash bonus and a grant of stock options at levels for each named executive officer, including himself, based on that assessment.

Setting Executive Compensation

In developing its recommendations to the Board of Directors regarding compensation for named executive officers, the Compensation Committee considers a number of factors, including analyses of compensation in similarly-sized companies in the biopharmaceutical industry, analyses of compensation levels in similar companies in the Company's local geographic area, as well as the satisfaction of previously-developed performance measurements. The Company competes for executive talent across a broad range of business segments. Consequently, the Company's management collects and analyzes competitive salary data from the Radford Biotechnology Compensation Survey. Significant weight is placed on the data from

the Radford Biotechnology Compensation Survey. On at least an annual basis, the Compensation Committee reviews the analysis as part of its competitive compensation review.

The Compensation Committee proposes a compensation package for each named executive officer, which is then discussed by the Board of Directors. The Board of Directors considers the recommendation of the Compensation Committee and then approves a compensation package for each named executive officer.

Named executive officers are granted incentive stock options up to the maximum amount permitted by law. Any stock options granted above that amount are treated as non-qualified stock options. Existing named executive officers typically receive stock option grants following the February meeting of the Board of Directors. The exercise price of the stock options is equal to 100% of the closing market price on the day of the February meeting. The date of the February board meeting typically is set at the November board meeting. With respect to new employees, stock options are generally granted following the first board meeting after the starting date of their employment.

The Compensation Committee believes that the total compensation package provided to the Company's executives, combining both short-term and long-term incentives, some of which are at risk based on individual and Company performance, is competitive without being excessive, and is at an appropriate level to assure the retention and motivation of this highly skilled and experienced segment of the Company's workforce, and at the same time would be attractive to any additional talent that might be needed in the changing workplace.

Executive Compensation Components

For the fiscal year ended December 31, 2006, the principal components of compensation for named executive officers were:

- Base salary;
- Performance based cash bonuses;
- Equity Incentive Plan;
- Employee Stock Purchase Plan; and
- 401(k) Plan

Base Salaries. The base salaries of the Company's executive officers are established as part of an annual compensation adjustment cycle. In establishing those salaries, the Compensation Committee considers information about salaries paid by companies of comparable size in the biopharmaceutical industry, individual performance, position, and internal comparability considerations. While all of these factors are considered, the Compensation Committee does not assign specific weight to any of these factors.

Performance Based Cash Bonuses. The Company typically grants cash bonuses to executives as part of their annual overall compensation. Such cash bonuses are in recognition of achievement of performance milestones for the individual named executive officers and of milestones achieved by the Company as a whole. The use of cash bonuses also allows the Company to more effectively manage cash resources, while maintaining compensation levels that are competitive within the biotechnology industry.

Equity Incentive Plan. The long-term compensation of named executive officers takes the form of stock option awards under the Company's 2002 Equity Incentive Plan (2002 Plan). The 2002 Plan, which replaced the Company's 1992 Stock Incentive Plan is designed to align a significant portion of the executive compensation program with long-term shareholder interests. The 2002 Plan permits the granting of several different types of stock-based awards. The Compensation Committee believes that equity-based

compensation helps ensure that the Company's named executive officers have a continuing stake in the long-term success of the Company. The 2002 Plan provides incentives to continue in the service of the Company and to create in such employees a more direct interest in the future success of the operations of the Company by relating incentive compensation to the achievement of long-term corporate economic objectives. All options granted by the Company have been granted with an exercise price equal to the closing market price of the Company's Common Stock on the date of grant and, accordingly, will only have value if the Company's stock price increases. In granting options under the 2002 Plan, the Compensation Committee, generally takes into account each executive's responsibilities, relative position in the Company, past grants, and approximate grants to individuals in similar positions for companies of comparable size in the biopharmaceutical industry. The 2002 Plan is administered by the Compensation Committee.

Beginning on January 1, 2006, the Company began accounting for stock options granted under the 2002 Plan in accordance with the requirements of FASB 123R.

In 2006, the Company issued options to purchase 575,000 shares of Common Stock to named executive officers, options to purchase 83,000 shares of Common Stock to directors, options to purchase 333,700 shares of Common Stock to other employees, and options to purchase 181,000 shares of Common Stock to consultants.

Employee Stock Purchase Plan. The purpose of the Employee Stock Purchase Plan (ESPP) is to attract and retain qualified employees essential to the success of the Company, and to provide such persons with an incentive to perform in the best interests of the Company. The ESPP is administered by the Compensation Committee, which has the power to make and interpret all rules and regulations it deems necessary to administer the ESPP and has broad authority to amend the ESPP, subject to certain amendments requiring shareholder approval. All employees of the Company and its subsidiaries, including the Company's named executive officers, may participate in the ESPP if they: (i) are employed in a position with regular hours of 20 or more hours a week and (ii) are employed more than five months in any calendar year. Eligible employees may elect to contribute from 1% to 10% of their cash compensation during each pay period. The ESPP provides for two annual six-month offering periods, beginning on May 1 and November 1 each year (the Enrollment Dates). During the offering periods, participants accumulate funds in an account through payroll deduction. At the end of each six-month offering period, the purchase price is determined and the accumulated funds are used to automatically purchase shares of Common Stock from the Company. The purchase price per share is equal to 85% of the lower of the fair market value of the Common Stock (i) on the beginning date of the offering period or (ii) the end of the Offering Period. Unless a participant files a withdrawal notice before the beginning of the next offering period, such participant will automatically be re-enrolled for the next offering period.

Beginning on January 1, 2006, the Company began accounting for stock issued under the ESPP in accordance with the requirements of FASB 123R.

In 2006, we issued 18,888 shares of Common Stock to named executive officers, and 22,775 shares to other employees under the ESPP.

401(k) Plan. The Company's 401(k) Plan is a defined contribution profit sharing plan with a 401(k) option. The plan year is January 1 to December 31, and was created on November 1, 1992. Employees who are at least twenty-one years old and who have provided at least thirty days of service are eligible to participate in the 401(k) Plan. Employees who are union employees, non-resident alien employees with no US-source income and non-common law employees are not eligible to participate. Participants may defer up to the maximum allowed by law. At the discretion of the Company, participants may receive a match on the first 4% of compensation that the participant contributes to the 401(k) Plan. As of the fiscal year ended December 31, 2006, the named executive officers received a 401(k) contribution match of up to 4% of their 401(k) Plan contribution subject to the maximum amount permitted by law.

Employment Agreements with Executive Officers. The Company has entered into employment contracts with each of that named executive officers that provide for a base annual compensation. The employment contracts are cancelable by the employee on sixty days notice and by the Company on thirty days notice or for cause. Cause is defined in the employment agreement as the named executive officer's willful or repeated failure to comply with the Company's policies, standards or regulations, or the named executive officer engages in conduct that is dishonest, fraudulent or detrimental to the Company. Under their respective agreements, the named executive officer is entitled to receive severance pay of one year's base salary following either termination without cause or, following a change in control followed by voluntary termination by the employee. A change in control is defined in the employment agreement as any one of the following events; (1) any person becomes the beneficial owner of twenty-five percent or more of the total number of voting shares of the Company; (2) any person (other than a person named in a proxy solicited on behalf of the Board of Directors of the Company) holds revocable or irrevocable proxies representing twenty-five percent or more of the total number of shares of the Company; (3) any person has commenced a tender or exchange offer, or entered into an agreement or received an option, to acquire beneficial ownership of twenty-five percent or more of the total voting shares of the Company; and (4) as the result of, or in connection with, any cash tender or exchange offer, merger, or other business combination, sale of assets, or any combination of the foregoing transactions, the persons who were directors of the Company before such transactions cease to constitute at least two-thirds of the Board of Directors of the Company or any successor entity.

In addition, the employment agreement prevents the named executive officer from competing with the Company or soliciting the employment of other individuals employed by the Company during their employment and for a period of one year thereafter. Under the employment agreements, the named executive officers may not disclose the Company's confidential information to outsiders during employment and for a period of two years thereafter and must assign inventions conceived by them to the Company.

Upon termination other than for cause, the employment agreement also provides for full vesting of all outstanding stock options.

**RATIFICATION OF APPOINTMENT OF AVI BIOPHARMA INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM
(Proposal II)**

The Audit Committee has appointed KPMG, LLP (KPMG) as independent auditors for the 2007 fiscal year. KPMG will audit the Company's consolidated financial statements for the 2007 fiscal year and perform other services. While shareholder ratification is not required by the Company's by-laws or otherwise, the Board of Directors is submitting the selection of KPMG to the shareholders for ratification as a good corporate governance practice. If the shareholders fail to ratify the selection, the Audit Committee may, but is not required to, reconsider whether to retain KPMG. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of a different independent public accountant or auditor at any time during the year if it determines that such a change would be in the best interest of the Company and its shareholders.

Unless otherwise indicated, properly executed proxies will be voted in favor of ratifying the appointment of KPMG LLP to audit the Company's books and accounts for the fiscal year ending December 31, 2007.

A representative of KPMG LLP is expected to be present at the AVI Annual Meeting and will be given an opportunity to make a statement if he or she desires to do so and will be available to respond to appropriate questions.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THIS PROPOSAL. The proposal will be approved if assuming the existence of a quorum at least a majority of the shares of the Company's Common Stock cast on the proposal vote in favor of approval. Abstentions and broker non-votes are counted for purposes of determining whether a quorum exists at the Annual Meeting but will not be counted and will have no effect on the determination of the outcome of the proposal. The proxies will be voted for or against the proposal, or as an abstention, in accordance with the instructions specified on the proxy form. If no instructions are given, proxies will be voted for approval of the ratification of KPMG LLP.

OTHER BUSINESS

As of the date of this Proxy Statement, the Company knows of no other business that will be presented for action at the meeting. If any other business requiring a vote of the shareholders should properly come before the meeting, the persons named in the enclosed proxy form will vote in their discretion upon such other matters.

SHAREHOLDER PROPOSALS AND SHAREHOLDER NOMINATIONS OF DIRECTORS

The Nominating and Corporate Governance Committee considers, selects and recommends to the Board of Directors for approval nominees for director and committee member positions. The Board then considers the recommendation of the Nominating and Corporate Governance Committee and decides which nominees to present to the Company's shareholders for election to the Board of Directors.

Proposals by shareholders intended to be presented for action, including proposed nominees for election to the Board of Directors, at the 2008 annual meeting of shareholders must be received by the Company at its principal executive offices, One S.W. Columbia St., Suite 1105, Portland, OR, not later than December 18, 2007. It is suggested that such proposals be submitted by Certified Mail-Return Receipt Requested. The SEC has amended Rule 14a-4(c) under the Exchange Act that governs the Company's use of discretionary proxy voting authority with respect to shareholder proposals that are not included in the Company's proxy solicitation materials pursuant to Rule 14a-8 of the Exchange Act. Therefore, in the event a shareholder does not notify the Company by at least March 4, 2008 (which is 45 days before the date the Company mails its proxy material for the prior year's annual meeting of shareholders (which date is expected to be on or about April 17, 2007 for the Company's 2007 Annual Meeting) of an intent to present such a proposal at the Company's 2008 Annual Meeting, the Company's management proxies will have the right to exercise their discretionary authority in connection with the matter submitted by the stockholder, without discussion of the matter in the proxy statement.

Shareholders who wish to submit a proposed nominee for election to the Board of Directors of the Company for consideration by the Nominating and Corporate Governance Committee should send written notice to the Chairman of the Nominating and Corporate Governance Committee, AVI BioPharma, Inc., One S.W. Columbia St., Suite 1105, Portland, OR 97258 within the time periods set forth above. Such notification should set forth all information relating to the proposed nominee, as is required to be disclosed in solicitations of proxies for election of directors pursuant to Regulation 14A under the Exchange Act. This includes the proposed nominee's written consent to being named in the proxy statement as a nominee and to serving as a director if elected; the name and address of such shareholder or beneficial owner on whose behalf the nomination is being made; and the number of shares of the Company owned beneficially and of record by such shareholder or beneficial owner. The Nominating and Corporate Governance Committee will consider shareholder nominees on the same terms as nominees selected by the Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee has not established specific minimum age, education, years of business experience or specific types of skills for potential candidates, but, in general, expects qualified candidates will have ample experience and a proven record of business success and leadership. In general, each director will have the highest personal and professional ethics, integrity and values and will consistently exercise sound and objective business judgment. It is expected that the Board of Directors as a whole will have individuals with significant appropriate senior management and leadership experience, a long-term and strategic perspective, the ability to advance constructive debate, and a global perspective. These qualifications and attributes are not the only factors the Nominating and Corporate Governance Committee will consider in evaluating a candidate for nomination to the Board of Directors, and the Nominating and Corporate Governance Committee may reevaluate these qualifications and attributes at any time.

Except as set forth above, the Nominating and Corporate Governance Committee does not currently have a formal policy regarding the handling or consideration of director candidate recommendations received from shareholders, nor does the Nominating and Corporate Governance Committee have a formal process for identifying and evaluating nominees for director (including nominees recommended by shareholders). The Nominating and Corporate Governance Committee does not currently engage any third party director search firms but may do so in the future if it deems appropriate and in the best interests of the Company. These issues will be considered by the Nominating and Corporate Governance Committee in due course, and, if appropriate, the Nominating and Corporate Governance Committee will make a recommendation to the Board of Directors addressing the nomination process.

COST OF SOLICITATION

The cost of soliciting proxies will be borne by the Company. In addition to use of the mails, proxies may be solicited personally or by telephone by directors, officers and employees of the Company, who will not be additionally compensated for such activities. Such solicitations may be made personally, or by mail, facsimile, telephone, telegraph or messenger. The Company will also request persons, firms and companies holding shares in their names or in the name of their nominees, which are beneficially owned by others, to send proxy materials to and obtain proxies from such beneficial owners. The Company will reimburse such persons for their reasonable expenses incurred in that connection.

A copy of the Company's Annual Report to Shareholders for the fiscal year ended December 31, 2006 accompanies this Proxy Statement. The Company is required to file an Annual Report on Form 10-K for its fiscal year ended December 31, 2006 with the Securities and Exchange Commission (the SEC).
