NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

NOTE 1 - BUSINESS ACTIVITY AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The unaudited consolidated financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) for interim reporting. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six-month period ended July 31, 2009 are not necessarily indicative of the results that may be expected for the year ending January 31, 2010. The information contained in the balance sheet as of January 31, 2009 was derived from the Company's audited financial statements for the year then ended. These consolidated financial statements should be read in conjunction with the audited consolidated financial statement and notes thereto included in our Form 10-K for the fiscal year ended January 31, 2009 as filed with the SEC.

Nature of Business

Titan Machinery Inc. (the Company) is engaged in the retail sale, service and rental of agricultural and industrial machinery through stores in North Dakota, South Dakota, Minnesota, Iowa, Nebraska, Montana and Wyoming.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Principles of Consolidation

Edgar Filing: Titan Machinery Inc. - Form 10-Q

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Transportation Solutions, LLC. All significant accounts, transactions and profits between the consolidated companies have been eliminated in consolidation.

Fair Value of Financial Instruments

The carrying amount of cash, receivables, payables, short-term debt and other current liabilities approximates fair value because of the short maturity and/or frequent repricing of those instruments. Based upon current borrowing rates with similar maturities, the carrying value of the long-term debt approximates the fair value as of July 31, 2009 and January 31, 2009.

Recently Issued Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles* a replacement of FASB Statement No. 162, (the Codification) as the single source of authoritative nongovernmental GAAP. All existing accounting standard documents, excluding guidance from the Securities and Exchange Commission (SEC), will be superseded by the Codification. All other non-grandfathered, non-SEC accounting literature not included in the Codification will become nonauthoritative. The Codification does not change GAAP, but instead introduces a new structure that will combine all authoritative standards into a comprehensive, topically organized online database. The Codification will be effective for interim or annual periods ending after September 15, 2009, and will impact the Company's financial statement disclosures beginning with the quarter ending October 31, 2009 as all future references to authoritative

Table of Contents

accounting literature will be referenced in accordance with the Codification. There will be no changes to the content of the Company's consolidated financial statements or disclosures as a result of implementing the Codification.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events*. SFAS 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The Company adopted SFAS 165 as of July 31, 2009. Its adoption did not have a material effect on the Company's consolidated financial statements.

In April 2009, the FASB issued FASB Staff Position (FSP) FAS 141(R)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies*. This pronouncement provides guidance on the accounting and disclosure of assets acquired and liabilities assumed in a business combination that arise from contingencies, and subsequent accounting for these contingencies. This FSP will be effective for the Company on February 1, 2010. Its adoption is not expected to have a material effect on the Company's consolidated financial statements based on the nature of the assets acquired and liabilities assumed in our business combinations.

In April 2009, the FASB issued FSP FAS 107 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*. This pronouncement requires disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies, in addition to inclusion in annual financial statements. The Company adopted this FSP as of July 31, 2009. Its adoption did not have a material effect on the Company's consolidated financial statements.

In February 2008, the FASB issued FSP FAS 157-2, *Effective Date of FASB Statement No. 157* (FSP FAS 157-2), which permits a one year deferral of the application of SFAS 157 for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The Company adopted SFAS 157 for non-financial assets and non-financial liabilities on February 1, 2009. Its adoption did not have a material effect on the Company's results of operations, financial position or cash flows.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), *Business Combinations* (SFAS 141R). SFAS 141R provides additional guidance on improving the relevance, representational faithfulness, and comparability of the financial information that a reporting entity provides in its financial reports about a business combination and its effects. SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company adopted SFAS 141R effective February 1, 2009. Its adoption did not have a material effect on the Company's consolidated financial statements. Any acquisition we make in fiscal 2010 and future periods will be subject to this new accounting guidance.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements* (SFAS 160). SFAS 160 applies to all entities that prepare consolidated financial statements and have an outstanding noncontrolling interest in one or more subsidiaries. SFAS 160 amends Accounting Research Bulletin No. 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The Company adopted SFAS 160 effective as of February 1, 2009. Its adoption did not have a material effect on the Company's consolidated financial statements.

Table of Contents*Earnings Per Share*

The following table sets forth the denominator for the computation of basic and diluted earnings per share:

(in thousands)	Three Months Ended July 31,		Six Months Ended July 31,	
	2009	2008	2009	2008
Basic weighted-average shares outstanding	17,589	16,630	17,577	15,006

Stock Options	193	339	156	308
Diluted weighted-average shares outstanding	17,998	17,170	17,930	15,512

There were 163,500 and 20,000 stock options outstanding as of July 31, 2009 and 2008, respectively, that were not included in the computation of diluted earnings per share because they were anti-dilutive.

NOTE 2 - INVENTORIES

	July 31,	January 31,
	2009	2009
	(in thousands)	
New equipment	\$ 216,560	\$ 132,502
Used equipment	84,905	68,333
Parts, tires and attachments	40,504	37,314
Work in process	4,494	2,945
	\$ 346,463	\$ 241,094

In addition to the above amounts, the Company has estimated that a portion of its parts inventory will not be sold in the next operating cycle. Accordingly, these balances have been classified as noncurrent assets.

NOTE 3 - LINES OF CREDIT/FLOORPLAN NOTES PAYABLE*Operating Line of Credit*

Edgar Filing: Titan Machinery Inc. - Form 10-Q

On July 15, 2009, the Company entered into a Loan Agreement (the "Loan Agreement") with Bremer Bank National Association ("Bremer Bank") which provides for a \$25.0 million revolving operating line of credit ("Revolving Loan") and a \$15.0 million term loan ("Term Loan"). The Revolving Loan may be used to fund short term working capital requirements of the Company, and replaces the Company's previous \$25.0 million operating line of credit with Bremer Bank. The Revolving Loan has a variable interest rate of 0.25% per annum below a Bremer Bank reference rate (subject to a minimum interest rate floor of 4.5%), requires monthly payments of accrued interest commencing August 1, 2009, and has a maturity date of July 14, 2010. Advances under the Loan Agreement are secured by substantially all of the Company's assets. See discussion of the Term Loan in Note 4.

The Company had no amount outstanding on the Revolving Loan at July 31, 2009. The Loan Agreement contains certain financial covenants which impose minimum levels of current ratio, debt service coverage, and inventory turnover ratio and a maximum level of debt to tangible net worth ratio. As of July 31, 2009, the Company was in compliance with all of these financial covenants. The Company had a standby letter of credit outstanding in the amount of \$0.3 million, which reduced the amount of borrowings available on its Revolving Loan to \$24.7 million as of July 31, 2009. The letter of credit expired on August 1, 2009 and was not renewed.

Table of Contents*Floorplan Lines of Credit*

The Company has discretionary floorplan lines of credit for equipment purchases totaling approximately \$365.0 million with various lending institutions, including a \$300.0 million Wholesale Floorplan Credit Facility with CNH Capital America LLC (CNH). The available borrowings under the CNH credit facility are reduced by outstanding floorplan notes payable, rental fleet financing and other acquisition-related financing arrangements with CNH. As of July 31, 2009, the interest rate for new borrowings under the CNH Capital floorplan line of credit is equal to the prime rate plus 0.3% per annum for most purposes, subject to any interest-free periods offered by CNH. Effective September 1, 2009, the interest rates will be the prime rate plus 4% on the first \$25.0 million in floorplan borrowings prior to December 31, 2009 and the prime rate plus 6% on all other floorplan borrowings. The CNH Capital credit facility automatically renews on August 31 of each year through August 31, 2012, unless earlier terminated by either party. Under covenants of the CNH credit facility, the Company has agreed, among other things, to maintain various financial ratio levels and to submit certain financial information. As of July 31, 2009, the Company was in compliance with all floorplan financial covenants.

Floorplan notes payable relating to these credit facilities totaled approximately \$238.8 million of the total floorplan notes payable balance of \$257.6 million outstanding as of July 31, 2009 and \$153.8 million of the total floorplan notes payable balance of \$166.5 million outstanding as of January 31, 2009. As of July 31, 2009, the Company had approximately \$105.9 million in available borrowings remaining under these lines of credit. These floorplan notes carried various interest rates primarily ranging from 3.25 to 9.25% as of July 31, 2009 and January 31, 2009, and are secured by the related inventory. Repayment terms vary by individual notes, but generally payments are made from sales proceeds or rental revenue from the related inventories.

NOTE 4 - LONG-TERM DEBT

As discussed in Note 3, on July 15, 2009 the Company entered into a Loan Agreement with Bremer Bank that provides for a \$25.0 million Revolving Loan and a \$15.0 million Term Loan. The Term Loan will be used for the long term working capital requirements of the Company. The Term Loan has a fixed interest rate of 5.9%, requires monthly payments of principal and interest commencing August 1, 2009, and has a maturity date of July 1, 2014. Advances under the Loan Agreement are secured by substantially all of the Company's assets. The Loan Agreement contains certain financial covenants that impose minimum levels of current ratio, debt service coverage, and inventory turnover ratio and a maximum level of debt to tangible net worth ratio. As of July 31, 2009, the Company was in compliance with all of these financial covenants. See discussion of the Revolving Loan in Note 3.

There was \$15.0 million outstanding on this Term Loan as of July 15, 2009. Future maturities on this Term Loan are as follows:

12 Months Ending July 31,	Amount (in thousands)
2010	\$ 2,682
2011	2,810
2012	2,982
2013	3,167
2014	3,359
Thereafter	\$ 15,000

NOTE 5 - INCOME TAXES

In August 2009, the Internal Revenue Service (IRS) completed its audit of the Company, including the uncertain tax position taken during fiscal 2008. The Company's unrecognized tax benefit and related interest was \$455,000 as of July 31, 2009, which includes \$9,000 in accrued interest expense recognized in the six months ended July 31, 2009. As a result of the IRS audit, the \$455,000 is included in income taxes payable as of July 31, 2009 and is expected to cover the payments owed to the IRS and applicable state tax authorities. The Company is no longer subject to U.S. federal income tax examinations for fiscal years ending prior to January 31, 2009.

The weighted average grant date fair value of restricted stock granted was \$13.09 and \$17.53 per share for the six months ended July 31, 2009 and 2008, respectively. The total fair value of restricted stock vested was \$114,000 and \$1,000 for the six months ended July 31, 2009 and 2008, respectively. As of July 31, 2009, there was approximately \$787,000 of unrecognized compensation cost on non-vested restricted stock that is expected to be recognized over a weighted-average period of 3.0 years.

NOTE 7 - BUSINESS COMBINATIONS

On May 1, 2009, the Company acquired 100% of the outstanding stock of Winger Implement, Inc. The acquired entity consisted of one agricultural equipment store located in Winger, Minnesota and expands the Company's presence in the Red River Valley. The total cash purchase price for the dealership was \$1,450,000. The Company expects the allocation of the purchase price to be finalized within one year of the acquisition date.

On May 28, 2009, the Company acquired certain assets of Arthur Mercantile, Co. The acquired entity consisted of one agricultural equipment store located in Arthur, North Dakota and expands the Company's presence in the Red River Valley. The total cash purchase price for the dealership was \$831,697. The Company expects the allocation of the purchase price to be finalized within one year of the acquisition date. James L. Williams, Arthur Mercantile, Co.'s President and Treasurer, is a Titan Machinery director.

On June 30, 2009, the Company acquired certain assets of Valley Equipment, Inc. The acquired entity consisted of one agricultural equipment store located in Mayville, North Dakota and expands the Company's presence in the Red River Valley. The total cash purchase price for the dealership was \$753,404. The Company expects the allocation of the purchase price to be finalized within one year of the acquisition date.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

During the six months ended July 31, 2009 adjustments were recorded to finalize the purchase price allocations of prior acquisitions and for additional consideration of \$1,063,000 earned and paid under agreements disclosed in our Form 10-K for the fiscal year ended January 31, 2009 as filed with the SEC. These adjustments and additional consideration resulted in a net increase in goodwill of \$865,000.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our interim consolidated financial statements and related notes included in Item 1 of Part 1 of this Quarterly Report, and the audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended January 31, 2009.

Critical Accounting Policies

Edgar Filing: Titan Machinery Inc. - Form 10-Q

There have been no material changes in our Critical Accounting Policies, as disclosed in our Annual Report on Form 10-K for the year ended January 31, 2009.

Overview

Edgar Filing: Titan Machinery Inc. - Form 10-Q

We own and operate one of the largest networks of full service agricultural and construction equipment stores in North America. We are the world's largest retail dealer of Case IH Agriculture equipment and a major retail dealer of New Holland Agriculture, Case Construction and New Holland Construction equipment in the U.S. We sell and rent agricultural and construction equipment, sell parts, and service the equipment operating in the areas surrounding our stores.

Our net income was \$4.9 million, or \$0.27 per diluted share, for the three months ended July 31, 2009, compared to \$3.3 million, or \$0.19 per diluted share, for the three months ended July 31, 2008. Significant factors impacting the quarter were:

- Overall revenue growth due to acquisitions and increased same-store sales, despite revenue from acquisitions being negatively impacted by the slow construction market and the large number of construction stores acquired in the prior year;

- Increase in gross profits primarily due to increased revenues;

- Increase in operating expenses primarily due to acquisitions; and

- Increase in inventories which aligns with historical stocking levels to support future sales.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

The increase in revenue for the three months ended July 31, 2009, as compared to the same period last year, was due to acquisitions contributing to current period revenue and same-store sales growth. Acquisitions contributed \$32.0 million in total revenue, or 54.9% of the increase, while same-store sales growth contributed \$26.3 million, or 45.1% of the increase. Revenue from acquisitions was negatively impacted by the slow construction market we are currently experiencing and the large number of construction stores acquired in the prior year. Same-store sales increased 20.2% over the same period of the prior year reflecting more traditional timing of equipment sales between the first and second quarters.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

The increase in cost of revenue for the three months ended July 31, 2009, as compared to the same period last year, was primarily due to increased revenue. Acquisitions contributed \$26.0 million in total cost of revenue, or 54.4% of the increase, while same-store sales growth contributed \$21.7 million, or 45.6% of the increase. As a percentage of revenue, cost of revenue was 81.4% compared to 81.2% for the second quarter of fiscal 2009.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

The \$10.6 million increase in gross profit for the three months ended July 31, 2009, as compared to the same period last year, was primarily due to increased revenue. Acquisitions contributed \$6.1 million to the gross profit for the three months ended July 31, 2009, which was 57.1% of the increase in total gross profit, while increases in same-store sales gross profits provided the remaining \$4.5 million, or 42.9% of the increase over the three months ended July 31, 2008. Gross profit margins were 18.6% for the second quarter of fiscal 2010, compared to 18.8% for the second quarter of fiscal 2009. Decrease in gross profit margins resulted from an increase in equipment revenues as a percentage of net revenue, which is a lower-margin revenue source. The decrease in gross profit margins on other, including trucking and rental, was due to a lower utilization of our rental fleet. We are working to maximize the utilization of our rental fleet and expect to have increased margins as utilization improves.

Operating Expenses

Edgar Filing: Titan Machinery Inc. - Form 10-Q

	Three months ended July 31, 2009	Three months ended July 31, 2008 (dollars in thousands)	Increase	Percent Change
Operating Expenses	\$ 26,662	\$ 19,470	\$ 7,192	36.9%

Edgar Filing: Titan Machinery Inc. - Form 10-Q

The \$7.2 million increase in operating expenses, as compared to the same period last year, was primarily due to the additional costs associated with acquisitions such as compensation, rent and depreciation. As a percentage of total revenue, operating expenses decreased to 13.8% for the second quarter of fiscal 2010 compared to 14.4 % for the second quarter of fiscal 2009. The strong sales resulted in improved fixed operating expense utilization as a percentage of sales in the second quarter of fiscal 2010.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Interest and other income decreased \$0.3 million for the three months ended July 31, 2009, as compared to the same period last year, as we invested our cash balances in highly secure investments that carried lower interest rates than those earned in the three months ended July 31, 2008. The increase in floorplan interest expense was due to the increase in floorplan notes payable balances for the three months ended July 31, 2009 compared to the same period in the prior year, partially offset by lower borrowing rates compared to the prior year. The increase in interest expense resulted from higher long-term debt balances.

The \$14.5 million increase in gross profit for the six months ended July 31, 2009, as compared to the same period last year, was primarily due to increased revenue as well as stronger margins on parts and service revenues. Acquisitions contributed \$11.5 million to the gross profit for the six months ended July 31, 2009, or 79.3% of the increase, while increases in same-store sale gross profits provided the remaining \$3.0 million, or 20.7% of the gross profit improvement. Gross profit margins were 17.9% for the six months ended July 31, 2009, compared to 17.4% for the six months ended July 31, 2008. Liquidity and Capital Resources

Cash Flow from Operating Activities

Edgar Filing: Titan Machinery Inc. - Form 10-Q

For the six months ended July 31, 2009, our cash flow used in operating activities was \$27.4 million. Our cash flow from operations was primarily the result of our reported net income of \$6.6 million, an increase in floorplan notes payable of \$3.0 million, an increase in income taxes payable of \$3.0 million, and an add-back of non-cash depreciation and amortization of \$4.0 million. This amount was principally offset by an increase in inventories of \$35.2 million and a net decrease in accounts payable, customer deposits, accrued expenses and other long-term liabilities of \$8.8 million. Increase in inventories reflects historical stocking levels to support future sales.

For the six months ended July 31, 2008, our cash flow provided by operating activities was \$7.4 million. Our cash flow from operations was primarily the result of our reported net income of \$6.7 million, a net increase in accounts payable, customer deposits, accrued expenses and other long-term liabilities of \$14.6 million, and an add-back of non-cash depreciation and amortization of \$1.9 million. This amount was principally offset by a net increase in receivables and prepaid expenses of \$7.8 million and an increase in inventories of \$7.0 million.

We evaluate our cash flow from operating activities net of all floorplan activity and short-term advances related to customer contracts in transit. Taking these adjustments into account, our non-GAAP cash flow provided by operating activities as of July 31, 2009 was \$0.5 million. For a reconciliation of this non-GAAP financial measure, please see the Non-GAAP Cash Flow Reconciliation below.

Cash Flow from Investing Activities

Edgar Filing: Titan Machinery Inc. - Form 10-Q

For the six months ended July 31, 2009, cash provided by investing activities was \$33.5 million. Our cash provided by investing activities primarily consisted of the sale of U.S. treasury bills of \$45.0 million, offset by purchases of property and equipment for \$7.6 million, and purchases of equipment dealerships of \$4.0 million. We are now investing our excess cash balances in investments that are classified as cash equivalents.

For the six months ended July 31, 2008, cash used for investing activities was \$23.9 million. Our cash used for investing activities primarily consisted of equipment dealership purchases of \$20.3 million and purchases of property and equipment for \$3.7 million. The second quarter \$14.4 million purchase of the assets of Mid-Land Equipment Company was the most significant cash acquisition during the six months ended July 31, 2008.

Cash Flow from Financing Activities

Edgar Filing: Titan Machinery Inc. - Form 10-Q

For the six months ended July 31, 2009, cash provided by financing activities was \$38.9 million. Cash provided by financing activities was primarily the result of an increase in non-manufacturer floorplan notes payable of \$25.2 million and proceeds from long-term debt and short-term advances exceeding principal payments on long-term debt by \$13.6 million.

For the six months ended July 31, 2008, cash provided by financing activities was \$60.7 million. Cash provided by financing activities was primarily the result of \$78.9 million in net proceeds from our May 2008 follow-on common stock offering. Partially offsetting these proceeds were principal payments on long-term debt and subordinated debentures of \$16.8 million.

Non-GAAP Cash Flow Reconciliation

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Non-GAAP cash flow provided by (used for) operating activities is a non-GAAP financial measure which is adjusted for the following:

- Non-manufacturer floorplan notes payable: We review our cash flow from operating activities to include all floorplan notes payable activity regardless of whether we obtain the financing from a manufacturer or a non-manufacturer. We consider inventory financing with both manufacturers and non-manufacturers to be part of the normal operations of our business and use the adjusted cash flow analysis in the evaluation of our inventory and inventory flooring needs. GAAP categorizes non-manufacturer floorplan payable as financing activities in the Consolidated Statement of Cash Flows.

- Short-term advances related to customer contracts in transit: We review our cash flow from operating activities to include short-term advances related to customer contracts in transit. These advances are directly related to our contracts in transit and are considered part of our working capital. GAAP categorizes short-term advances related to customer contracts in transit as financing activities in the Consolidated Statements of Cash Flows.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

The following table reconciles net cash provided by (used for) operating activities, a GAAP measure, to non-GAAP cash flow provided by operating activities as of July 31, 2009 and net cash provided by financing activities, a GAAP measure, to non-GAAP cash flow provided by financing activities as of July 31, 2009 (in thousands):

	As Reported	Adjustment (1)	Adjustment (2)	Non-GAAP Measures
Net cash provided by (used for) operating activities	\$ (27,405)	\$ 25,185	\$ 2,700	\$ 480
Net cash provided by financing activities	38,815	(25,185)	(2,700)	10,930

(1) - Net change in non-manufacturer floorplan notes payable

(2) - Short-term advances related to customer contracts in transit

Non-GAAP cash flow provided by (used for) operating activities should be evaluated in addition to, and not considered a substitute for, or superior to, other GAAP measures such as net cash provided by (used for) operating activities.

Sources of Liquidity

Our primary sources of liquidity are cash reserves, cash flow from operations, proceeds from the issuance of debt and borrowings under our credit facilities. We expect that ongoing requirements for debt service and capital expenditures will be funded from these sources.

Adequacy of Capital Resources

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Our primary uses of cash have been to fund our strategic acquisitions, finance the purchase of inventory, meet debt service requirements and fund operating activities, working capital, payments due under building space operating leases and manufacturer floorplan notes payable.

Based on our current operational performance, we believe our cash flow from operations, available cash and available borrowings under the existing credit facilities will adequately provide our liquidity needs for, at a minimum, the next 12 months.

Contractual and Commercial Commitments

Edgar Filing: Titan Machinery Inc. - Form 10-Q

At July 31, 2009, our long-term debt obligations had increased to \$39.6 million, primarily as a result of the \$15 million term loan from Bremer Bank. There were no other material changes in our contractual obligations from those disclosed in our

Certain Information Concerning Off-Balance Sheet Arrangements

Edgar Filing: Titan Machinery Inc. - Form 10-Q

We do not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. We are, therefore, not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in these relationships. In the normal course of our business activities, we lease rental equipment and buildings under operating leases.

PRIVATE SECURITIES LITIGATION REFORM ACT

Edgar Filing: Titan Machinery Inc. - Form 10-Q

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. Such forward-looking information is included in this Quarterly Report on Form 10-Q, including in Management's Discussion And Analysis Of Financial Condition And Results Of Operations, as well as in our Annual Report on Form 10-K for the year ended January 31, 2009 that was filed with the Securities and Exchange Commission, and in other materials filed or to be filed by the Company with the Securities and Exchange Commission (as well as information included in oral statements or other written statements made or to be made by the Company).

Forward-looking statements include all statements based on future expectations and specifically include, among other things, all statements relating to (i) our expectations regarding utilization of our rental fleet and increased margins from such utilization, (ii) our expectations regarding our primary liquidity sources, and (iii) our expectations and beliefs with respect to the uses and adequacy of our capital resources. Any statements that are not based upon historical facts, including the outcome of events that have not yet occurred and our expectations for future performance, are forward-looking statements. The words potential, believe, estimate, expect, intend, may, could, will, plan, and similar words and expressions are intended to identify forward-looking statements. Such statements are based upon the current beliefs and expectations of our management. Such forward-looking information involves important risks and uncertainties that could significantly affect anticipated results in the future and, accordingly, such results may differ from those expressed in any forward-looking statements made by or on behalf of the Company. These risks and uncertainties include, but are not limited to, adverse market conditions in the agricultural and construction equipment industries, the continuation of unfavorable conditions in the credit markets and those matters identified and discussed in our Annual Report on Form 10-K under the section titled Risk Factors.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from changes in interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices such as interest rates. For fixed rate debt, interest rate changes affect the fair value of financial instruments but do not impact earnings or cash flows. Conversely, for floating rate debt, interest rate changes generally do not affect the fair value but do impact future earnings and cash flows, assuming other factors are held constant.

Based upon balances and interest rates as of July 31, 2009, holding other variables constant, a one percentage point increase in interest rates for the next 12-month period would decrease pre-tax earnings and cash flow by approximately \$1.1 million. Conversely, a one percentage point decrease in interest rates for the next 12-month period would result in an increase to pre-tax earnings and cash flow of approximately \$1.1 million. At July 31, 2009, we had variable rate floorplan notes payable of \$257.6 million, of which approximately \$89.6 million was interest-bearing, variable notes payable and long-term debt of \$16.9 million, and fixed rate notes payable and long-term debt of \$22.7 million.

Our policy is not to enter into derivatives or other financial instruments for trading or speculative purposes.

ITEM 4. CONTROLS AND PROCEDURES

(a) *Evaluation of disclosure controls and procedures.* After evaluating the effectiveness of the Company's disclosure controls and procedures pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934 (the Exchange Act) as of the end of the period covered by this quarterly report, our Chief Executive Officer and Chief Financial Officer with the participation of the Company's management, have concluded that the

Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) are effective to ensure that information that is required to be disclosed by the Company in reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules of the Securities Exchange Commission. Our Chief Executive Officer and Chief Financial Officer, with the participation of the Company's management, have also concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosures.

(b) *Changes in internal controls.* There has not been any change in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) during its most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are currently not a party to any material pending legal proceedings.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, including the important information in Private Securities Litigation Reform Act, you should carefully consider the Risk Factors discussed in our Form 10-K for the year ended January 31, 2009 as filed with the United States Securities and Exchange Commission. Those factors, if they were to occur, could cause our actual results to differ materially from those expressed in our forward-looking statements in this report, and materially adversely affect our financial condition or future results. Although we are not aware of any other factors that we currently anticipate will cause our forward-looking statements to differ materially from our future actual results, or materially affect the Company's financial condition or future results, additional risks and uncertainties not currently known to us or that we currently deem to be immaterial might materially adversely affect our actual business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The stockholders of the Company voted on one item, the election of three Class II directors, at the Annual Meeting of Stockholders held on June 12, 2009:

Proxies for the Annual Meeting were solicited pursuant to Regulation 14A under the Securities Exchange Act of 1934. There was no solicitation in opposition to management's nominees, and the stockholders elected the following persons as directors of the Company to serve until the 2012 Annual Meeting or until their successors are elected and qualified:

Nominee	Votes For	Votes Withheld

ITEM 5. OTHER INFORMATION

As previously disclosed in Item 1.01 of the Current Report on Form 8-K filed on July 21, 2009, on July 15, 2009, the Company entered into a Loan Agreement (the "Loan Agreement") with Bremer Bank, N.A. ("Bremer"), which provides for a \$25 million revolving operating line of credit (the "Revolving Loan") and a \$15 million term loan (the "Term Loan"). The Revolving Loan may be used to fund short term working capital requirements of the Company, and replaces the Company's previous \$25 million operating line of credit with Bremer. The Revolving Loan has a variable interest rate of 0.25% per annum below a Bremer reference rate (subject to a minimum interest rate floor of 4.5%), requires monthly payments of accrued interest commencing August 1, 2009, and has a maturity date of July 14, 2010. The Term Loan will be used for the long term working capital requirements of the Company. The Term Loan has a fixed interest rate of 5.90%, requires monthly payments of principal and interest commencing August 1, 2009, and has a maturity date of July 1, 2014. Advances under the Loan Agreement are secured by substantially all of the Company's assets. The Loan Agreement contains customary financial covenants and various restrictive covenants that are substantially identical to those of the previous Bremer loan agreement. This information is included here for the purpose of also filing it under Item 2.03 of Form 8-K. Additional information required to be disclosed under Item 2.03 is as follows: The Loan Agreement contains customary event of default triggers, as well as event of default triggers if the Company is in default of its master dealer agreements with Case IH or New Holland, if such agreements are terminated for any reason, or if the Company's dealerships representing more than 25% or more of the Company's gross revenues, cease to be authorized Case IH or New Holland dealers. If an event of default occurs, Bremer may accelerate all obligations of the Company under the Loan Agreement.

On July 29, 2009, the Company and CNH Capital America LLC entered into an amendment (the "Amendment") to the Amended and Restated Wholesale Floor Plan Credit Facility and Security Agreement dated November 13, 2007. Pursuant to the Amendment, effective September 1, 2009, the interest rates will be the prime rate plus 4% on the first \$25.0 million in floorplan borrowings prior to December 31, 2009 and the prime rate plus 6% on all other floorplan borrowings. The foregoing description of the Amendment does not purport to be complete and is qualified in its entirety by reference to the Amendment, which is included in Exhibit 10.2 filed herewith.
