**Item 1. Reports to Stockholders.**

---

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

To Our Shareholders:

We would like to share with you our report for the six months ended June 30, 2010. The net asset value (NAV) at that date was \$12.55 per common share. The Fund's common stock is traded on the New York Stock Exchange (NYSE) and its share price can differ from its NAV; at period end, the Fund's closing price on the NYSE was \$11.45.

The total returns, including income, for the Fund and its comparative benchmarks were:

	Six Months Ended June 30, 2010
Cohen & Steers Closed-End Opportunity Fund at Market Value <sup>a</sup>	2.03%
Cohen & Steers Closed-End Opportunity Fund at NAV <sup>a</sup>	0.34%
Fund Data U.S. All Taxable Ex-Foreign Equity Index <sup>b</sup>	0.16%
S&P 500 Index <sup>b</sup>	6.65%

*The performance data quoted represent past performance. Past performance is no guarantee of future results. The investment return and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Current total returns of the Fund can be obtained by visiting our Web site at [cohenandsteers.com](http://cohenandsteers.com).*

The Fund may pay distributions in excess of its investment company taxable income and net realized capital gains. This excess would be a "return of capital" distributed from the Fund's assets. Distributions of capital decrease the Fund's total assets and, therefore, could have the effect of increasing the Fund's expense ratio. In addition, in order to make these distributions, the Fund may have to sell portfolio securities at a less than opportune time.

Investment Review

Closed-end funds had overall flat performance for the six-month period, although they outperformed the broad stock market and returns varied widely across sectors. In the fixed income category, nearly all sectors had positive returns, which offset the uneven and ultimately negative performance in the equity funds category. Investors were drawn to fixed income-oriented funds, particularly those that invest in high-yield debt, as credit markets continued to improve while yields on money-market offerings remained near zero. Investors' faith in fixed income

<sup>a</sup> As a closed-end investment company, the price of the Fund's NYSE-traded shares will be set by market forces and at times may deviate from the NAV per share of the Fund.

<sup>b</sup> The Fund Data U.S. All Taxable Ex-Foreign Equity Index measures the market cap weighted total return of 322 taxable equity and fixed income closed-end funds it excludes international, regional and country closed-end funds. The S&P 500 Index is an unmanaged index of common stocks that is frequently used as a general measure of stock market performance.

## COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.

funds' ability to support high current yields was reflected in bond funds trading at narrower net asset value (NAV) discounts (0.4%) than their equity counterparts (3%) at the end of the period.

The best-performing sectors within fixed income included high yield funds (which had a return on market price of +10.0% in the period).<sup>c</sup> Preferred securities funds (+10.3%) also outperformed, reflecting better conditions for financial companies, which are the primary issuer of preferreds. Earnings were generally good and indicated that large banks could be close to seeing a peak in their loan loss provisioning.

Commodities funds (+9.3%), a sector with a large gold exposure, had the best performance in the equity category. Gold prices rose steadily in the period as investors sought safety due to Europe's sovereign debt crisis and a clouded global economic outlook. Funds that invest in master limited partnerships (MLPs) had a return of +7.3%, benefiting from individual investors' demand for high, consistent income. The tax-deferred nature of MLP distributions added further appeal. Tax rates on many dividends are set to rise as the low qualified dividend income (QDI) rates expire at the end of this year.

The global equity dividend sector (-29.2%) includes two funds that declined sharply on news they would reduce their distributions. Utilities funds (-12.3%) struggled amid a slow recovery in energy demand. In addition, the pending expiration of low QDI tax rates lessened their appeal from a yield viewpoint.

### *IPO activity continued*

There was a string of closed-end fund initial public offerings (IPOs) in the period, in addition to the debut of the first exchange-traded fund (ETF) to invest exclusively in closed-end funds. These offerings followed a year in which the average closed-end fund returned more than 50%. The IPOs included an equity fund focused on an infrastructure covered call strategy and a few mortgage securities funds. The biggest deal came in June, when ClearBridge Advisors launched a \$1.3 billion fund that invests in master limited partnerships.

### *Fund performance*

The Fund had a slight decline in its NAV in the period and underperformed its benchmark. Factors that detracted from performance included our overweights and fund selection in the equity tax-advantage (which had a return of -6.3% within the index) and U.S. general equity (-4.6%) sectors. These groups have leveraged exposure to equity markets, which declined sharply in May and June and had a loss for the period. Our underweight in the commodities sector also hindered relative return. We have been underweight gold-focused funds based on valuation and our view that the inflation threat remains at bay.

Our underweight in the global equity dividend sector contributed positively to performance; specifically, we were underweight the funds that accounted for the bulk of the sector's decline. We also had beneficial overweights in the high yield and convertibles (+4.7%) sectors. Select Multi-Sector funds, in our view, offer attractive access to

<sup>c</sup> Sector constituents as per Fund Data U.S. All Taxable Ex-Foreign Equity Index; constituent returns as per Bloomberg L.P.

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

the high yield market, where spreads have widened significantly, even as defaults rates have remained well below early-2009 levels. Fund selection in the global income sector also (+3.3%) aided performance.

**Investment Outlook**

Our outlook remains moderately cautious. The markets' behavior in recent months has demonstrated the fragility of the economic recovery and the wariness with which investors receive bad news. Concerns about global growth have reinforced our view that Federal Reserve interest rate hikes will most likely be delayed until well into 2011.

We continue to overweight fixed income funds, including high yield funds, and remain underweight equity funds, which we expect to face a choppy road ahead. And we expect discounts to NAV to remain fairly narrow. Given the likelihood that a period of low interest rates will be extended even further, investors should continue to find appeal in the attractive annual distribution rates that closed-end funds provide. If risk concerns subside we could once again see funds trade at an average premium.

We believe that increased new issuance in 2010, broadly speaking, will not hurt secondary market closed-end fund prices, although recent developments including June's billion dollar plus IPO have raised our sensitivity to this risk factor.

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

Sincerely,

MARTIN COHEN

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

NOTES TO FINANCIAL STATEMENTS (Unaudited)

Note 1. Significant Accounting Policies

Cohen & Steers Closed-End Opportunity Fund, Inc. (the Fund) was incorporated under the laws of the State of Maryland on September 14, 2006 and is registered under the Investment Company Act of 1940 as amended, as a nondiversified, closed-end management investment company. The Fund's investment objective is to achieve high total return.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America (GAAP). The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

*Portfolio Valuation:* Investments in securities that are listed on the New York Stock Exchange are valued, except as indicated below, at the last sale price reflected at the close of the New York Stock Exchange on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day or, if no asked price is available, at the bid price.

Securities not listed on the New York Stock Exchange but listed on other domestic or foreign securities exchanges are valued in a similar manner. Securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined as reflected on the tape at the close of the exchange representing the principal market for such securities. If after the close of a foreign market, but prior to the close of business on the day the securities are being valued, market conditions change significantly, certain foreign securities may be fair valued pursuant to procedures established by the Board of Directors.

Readily marketable securities traded in the over-the-counter market, including listed securities whose primary market is believed by Cohen & Steers Capital Management, Inc. (the investment manager) to be over-the-counter, are valued at the official closing prices as reported by sources as the Board of Directors deem appropriate to reflect their fair market value. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day, or if no asked price is available, at the bid price. However, certain fixed-income securities may be valued on the basis of prices provided by a pricing service when such prices are believed by the Board of Directors to reflect the fair market value of such securities.

Securities for which market prices are unavailable, or securities for which the investment manager determines that the bid and/or asked price does not reflect market value, will be valued at fair value pursuant to procedures approved by the Fund's Board of Directors. Circumstances in which market prices may be unavailable include, but are not limited to, when trading in a security is suspended, the exchange on which the security is traded is subject to an unscheduled close or disruption or material events occur after the close of the exchange on which the security is principally traded. In these circumstances, the Fund determines fair value in a manner that fairly reflects the

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

market value of the security on the valuation date based on consideration of any information or factors it deems appropriate. These may include, but are not limited to, recent transactions in comparable securities, information relating to the specific security and developments in the markets.

The Fund's use of fair value pricing may cause the net asset value of Fund shares to differ from the net asset value that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security.

Short-term debt securities with a maturity date of 60 days or less are valued at amortized cost, which approximates value. Investments in open-end mutual funds are valued at their closing net asset value.

Fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. The hierarchy of inputs that are used in determining the fair value of the Fund's investments is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of June 30, 2010 in valuing the Fund's investments carried at value:

	Total	Quoted Prices In Active Market for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Closed-End Funds	\$ 342,462,892	\$ 342,462,892	\$	
Money Market Funds	3,641,939		3,641,939	
Total Investments	\$ 346,104,831	\$ 342,462,892	\$ 3,641,939	

*Security Transactions and Investment Income:* Security transactions are recorded on trade date. Realized gains and losses on investments sold are recorded on the basis of identified cost. Interest income is recorded on the accrual basis. Discounts are accreted and premiums are amortized over the life of the respective securities. Dividend income is recorded on the ex-dividend date, except for certain dividends on foreign securities, which are recorded as

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

soon as the Fund is informed after the ex-dividend date. The Fund records distributions received in excess of income from underlying investments as a reduction of cost of investments and/or an increase in realized gain. Such amounts are based on estimates if actual amounts are not available, and actual amounts of income, realized gain and return of capital may differ from the estimated amounts. The Fund adjusts the estimated amounts of the components of distributions (and consequently its net investment income) as an increase to unrealized appreciation/(depreciation) and realized gain/(loss) on investments as necessary once the issuers provide information about the actual composition of the distributions.

*Foreign Currency Translations:* The books and records of the Fund are maintained in U.S. dollars as follows: (1) the foreign currency market value of investment securities, other assets and liabilities and foreign currency contracts are translated at the exchange rates prevailing at the end of the period; and (2) purchases, sales, income and expenses are translated at the exchange rates prevailing on the respective dates of such transactions. The resultant exchange gains and losses are recorded as realized and unrealized gain/loss on foreign exchange transactions. Pursuant to U.S. federal income tax regulations, certain foreign exchange gains/losses included in realized and unrealized gain/loss are included in or are a reduction of ordinary income for federal income tax purposes. The Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the changes in the market prices of the securities.

*Foreign Securities:* The Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the ability to repatriate funds, less complete financial information about companies and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. issuers.

*Dividends and Distributions to Shareholders:* Dividends from net investment income and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from GAAP. Dividends from net investment income, if any, are declared and paid quarterly. Net realized capital gains, unless offset by any available capital loss carryforward, are typically distributed to shareholders at least annually. Dividends and distributions to shareholders are recorded on the ex-dividend date and are automatically reinvested in full and fractional shares of the Fund based on the net asset value per share at the close of business on the payable date unless the shareholder has elected to have them paid in cash.

Distributions paid by the Fund are subject to recharacterization for tax purposes. Based upon the results of operations for the six months ended June 30, 2010, the investment manager considers it likely that a portion of the dividends will be reclassified to return of capital upon the final determination of the Fund's taxable income for the year.

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

*Income Taxes:* It is the policy of the Fund to continue to qualify as a regulated investment company, if such qualification is in the best interest of the shareholders, by complying with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies, and by distributing substantially all of its taxable earnings to its shareholders. Accordingly, no provision for federal income or excise tax is necessary. Management has analyzed the Fund's tax positions taken on federal income tax returns as well as its tax positions in non-U.S. jurisdictions where it trades for all open tax years and has concluded that as of June 30, 2010, no provisions for income tax would be required in the Fund's financial statements. The Fund's tax positions for the tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service, state departments of revenue and by foreign tax authorities.

Note 2. Investment Management Fees and Other Transactions with Affiliates

*Investment Management Fees:* The investment manager serves as the Fund's investment manager pursuant to an investment management agreement (the investment management agreement). Under the terms of the investment management agreement, the investment manager provides the Fund with day-to-day investment decisions and generally manages the Fund's investments in accordance with the stated policies of the Fund, subject to the supervision of the Board of Directors. For the services provided to the Fund, the investment manager receives a fee, accrued daily and paid monthly, at the annual rate of 0.95% of the average daily net assets of the Fund.

The investment manager has contractually agreed to reimburse the Fund so that its total annual operating expenses do not exceed 0.95% of the average daily net assets. This commitment will remain in place for the life of the Fund.

*Directors' and Officers' Fees:* Certain directors and officers of the Fund are also directors, officers, and/or employees of the investment manager. The Fund does not pay compensation to any affiliated directors and officers.

Note 3. Purchases and Sales of Securities

Purchases and sales of securities, excluding short-term investments, for the six months ended June 30, 2010, totaled \$135,321,019 and \$132,059,028, respectively.

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

Note 4. Income Tax Information

As of June 30, 2010, the federal tax cost and net unrealized appreciation on securities were as follows:

Gross unrealized appreciation	\$ 34,273,081
Gross unrealized depreciation	(21,704,678)
Net unrealized appreciation	\$ 12,568,403
Cost for federal income tax purposes	\$ 333,536,428

As of December 31, 2009, the Fund had a net capital loss carryforward of \$132,951,974, of which \$33,964,723 will expire on December 31, 2016 and \$98,987,251 will expire on December 31, 2017. This carryforward may be used to offset future capital gains to the extent provided by regulations. In addition, the Fund incurred capital losses of \$145,253 after October 31, 2009, which are not recognized for tax purposes until 2010.

Note 5. Capital Stock

The Fund is authorized to issue 100 million shares of common stock at a par value of \$0.001 per share.

During the six months ended June 30, 2010, and the year ended December 31, 2009, the Fund issued 0 and 101,248 shares of common stock, respectively, for the reinvestment of dividends.

On December 15, 2009, the Board of Directors approved the continuation of the delegation of its authority to management to effect repurchases, pursuant to management's discretion and subject to market conditions and investment considerations, of up to 10% of the Fund's common shares outstanding ("Share Repurchase Program") through the fiscal year ended December 31, 2010. During the six months ended June 30, 2010 and the year ended December 31, 2009, the Fund did not effect any repurchases.

Note 6. Other

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on claims that may be made against the Fund in the future and, therefore, cannot be estimated; however, based on experience, the risk of material loss from such claims is considered remote.

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

PROXY RESULTS (Unaudited)

Cohen & Steers Closed-End Opportunity Fund, Inc. shareholders voted on the following proposals at the annual meeting held on May 13, 2010. The description of each proposal and number of shares voted are as follows:

Common Shares

	Shares Voted For	Authority Withheld
To elect Directors:		
Martin Cohen	24,427,107.714	1,006,073.561
Richard J. Norman	24,328,688.813	1,104,492.462
Frank K. Ross	24,357,402.985	1,075,778.290

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

AVERAGE ANNUAL TOTAL RETURNS

(periods ended June 30, 2010) (Unaudited)

Based on Net Asset Value		Based on Market Value	
One Year	Since Inception (11/24/06)	One Year	Since Inception (11/24/06)
26.27%	2.53%	24.63%	5.84%

*The performance data quoted represent past performance. Past performance is no guarantee of future results. The investment return will vary and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted.*

REINVESTMENT PLAN

We urge shareholders who want to take advantage of this plan and whose shares are held in 'Street Name' to consult your broker as soon as possible to determine if you must change registration into your own name to participate.

OTHER INFORMATION

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling 800-330-7348, (ii) on our Web site at [cohenandsteers.com](http://cohenandsteers.com) or (iii) on the Securities and Exchange Commission's Web site at <http://www.sec.gov>. In addition, the Fund's proxy voting record for the most recent 12-month period ended June 30 is available (i) without charge, upon request, by calling 800-330-7348 or (ii) on the SEC's Web site at <http://www.sec.gov>.

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available (i) without charge, upon request by calling 800-330-7348, or (ii) on the SEC's Web site at <http://www.sec.gov>. In addition, the Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330.

Please note that the distributions paid by the Fund to shareholders are subject to recharacterization for tax purposes. The Fund may also pay distributions in excess of the Fund's net investment company taxable income and this excess would be a tax-free return of capital distributed from the Fund's assets. To the extent this occurs, the Fund's shareholders of record will be notified of the estimated amount of capital returned to shareholders for each such distribution and this information will also be available at [cohenandsteers.com](http://cohenandsteers.com). The final tax treatment of all distributions is reported to shareholders on their 1099-DIV forms, which are mailed after the close of each calendar year. Distributions of capital decrease the Fund's total assets and, therefore, could have the effect of increasing the Fund's expense ratio. In addition, in order to make these distributions, the Fund may have to sell portfolio securities at a less than opportune time.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase, from time to time, shares of its common stock in the open market.

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENT

The Board of Directors of the Fund, including a majority of the directors who are not parties to the Fund's investment management agreement (the "Management Agreement"), or interested persons of any such party ("Independent Directors"), has the responsibility under the 1940 Act to approve the Fund's Management Agreement for its initial two year term and its continuation annually thereafter at a meeting of the Board of Directors called for the purpose of voting on the approval or continuation. At a meeting held in person on June 22-23, 2010, the Management Agreement was discussed and was unanimously continued for a term ending June 30, 2011 by the Fund's Board of Directors, including the Independent Directors. The Independent Directors were represented by independent counsel who assisted them in their deliberations during the meeting and executive session.

In considering whether to continue the Management Agreement, the Board of Directors reviewed materials provided by the Fund's investment manager (the "Investment Manager") and Fund counsel which included, among other things, fee, expense and performance information compared to peer funds ("Peer Funds") and performance comparisons to a larger category universe, prepared by an independent data provider; summary information prepared by the Investment Manager; and a memorandum outlining the legal duties of the Board of Directors. The Board of Directors also spoke directly with representatives of the independent data provider and met with investment management personnel. In addition, the Board of Directors considered information provided from time to time by the Investment Manager throughout the year at meetings of the Board of Directors, including presentations by portfolio managers relating to the investment performance of the Fund and the investment strategies used in pursuing the Fund's objective. In particular, the Board of Directors considered the following:

*(i) The nature, extent and quality of services provided by the Investment Manager:* The Board of Directors reviewed the services that the Investment Manager provides to the Fund, including, but not limited to, making the day-to-day investment decisions for the Fund, and generally managing the Fund's investments in accordance with the stated policies of the Fund. The Board of Directors also discussed with officers and portfolio managers of the Fund the types of transactions that were being done on behalf of the Fund. Additionally, the Board of Directors took into account the services provided by the Investment Manager to its other funds, including those that have investment objectives and strategies similar to the Fund. The Board of Directors next considered the education, background and experience of the Investment Manager's personnel, noting particularly that the favorable history and reputation of the portfolio managers for the Fund has had, and would likely continue to have, a favorable impact on the Fund. The Board of Directors further noted the Investment Manager's ability to attract qualified and experienced personnel. The Board of Directors then considered the administrative services provided by the Investment Manager, including compliance and accounting services. After consideration of the above factors, among others, the Board of Directors concluded that the nature, extent and quality of services provided by the Investment Manager are adequate and appropriate.

*(ii) Investment performance of the Fund and the Investment Manager:* The Board of Directors considered the investment performance of the Fund compared to Peer Funds and compared to a relevant benchmark index.

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

The Board of Directors noted that the Fund outperformed the Peer Funds' medians for the year-to-date, one and three-year periods ended March 31, 2010. The Board of Directors also noted that the Fund underperformed the benchmark for the year-to-date and one-year periods and outperformed for the three-year period ended March 31, 2010. The Board of Directors also noted that the Fund is the only closed-end fund of closed-end funds, making quantitative comparisons among the Peer Funds difficult. The Board of Directors further considered the Fund's performance across all periods versus a group of four closed-end funds compiled by the Investment Advisor, and noted that the Fund outperformed the average performance of those funds for the year-to-date, one- and three-year periods ended March 31, 2010. The Board of Directors engaged in discussions with the Investment Manager regarding the contributors and detractors to the Fund's performance during the periods. The Board of Directors also considered supplemental information provided by the Investment Manager, including a narrative summary of various factors affecting performance. The Board of Directors then determined that Fund performance, in light of all considerations noted above, was satisfactory.

*(iii) Cost of the services provided and profits realized by the Investment Manager from the relationship with the Fund:* Next, the Board of Directors considered the management fees payable by the Fund, as well as total expense ratios. As part of its analysis, the Board of Directors gave consideration to the fee and expense analyses provided by the independent data provider. The Board of Directors considered the Fund's actual and contractual management fees, and the Fund's net expense ratios compared to the medians of the Peer Funds, noting that the Fund was lower than the Peer Funds' medians across all categories. The Board of Directors further considered the Fund's expenses versus the group of four closed-end funds compiled by the Investment Manager, and noted that the Fund's net expense ratio was the lowest among that group. The Board of Directors concluded that the Fund's current expense structure is satisfactory.

The Board of Directors also reviewed information regarding the profitability to the Investment Manager of its relationship with the Fund. The Board of Directors considered the level of the Investment Manager's profits and whether the profits were reasonable for the Investment Manager. The Board of Directors took into consideration other benefits to be derived by the Investment Manager in connection with the Management Agreement, noting particularly the research and related services, within the meaning of Section 28(e) of the Securities Exchange Act of 1934, as amended, that the Investment Manager receives by allocating the Fund's brokerage transactions. The Board of Directors concluded that the profits realized by the Investment Manager from its relationship with the Fund were reasonable and consistent with fiduciary duties.

*(iv) The extent to which economies of scale would be realized as the Fund grows and whether fee levels would reflect such economies of scale:* The Board of Directors considered that as a closed-end fund, the Fund would not be expected to have inflows of capital that might produce increasing economies of scale. The Board of Directors determined that, given the Fund's closed-end structure, there were no economies of scale that were not being shared with shareholders.

**COHEN & STEERS CLOSED-END OPPORTUNITY FUND, INC.**

*(v) Comparison of services rendered and fees paid to those under other investment management contracts, such as contracts of the same and other investment advisers or other clients:* As discussed above in (iii), the Board of Directors compared the fees paid under the Management Agreement to those under other investment management contracts of other investment advisers managing Peer Funds. The Board of Directors also considered the services rendered, fees paid and profitability under the Management Agreement to the Investment Manager's other fund management agreements and advisory contracts with institutional and other clients with similar investment mandates. The Board of Directors determined that on a comparative basis the fees under the Management Agreement were reasonable in relation to the services provided.

No single factor was cited as determinative to the decision of the Board of Directors. Rather, after weighing all of the considerations and conclusions discussed above, the Board of Directors, including the Independent Directors, unanimously approved the continuation of the Management Agreement.
