Edgar Filing: Western Asset Mortgage Defined Opportunity Fund Inc. - Form N-CSRS

Dear Shareholder,

We are pleased to provide the semi-annual report of Western Asset Mortgage Defined Opportunity Fund Inc. for the six-month reporting period ended June 30, 2011. Please read on for Fund performance information and a detailed look at prevailing economic and market conditions during the Fund's reporting period.

As always, we remain committed to providing you with excellent service and a full spectrum of investment choices. We also remain committed to supplementing the support you receive from your financial advisor. One way we accomplish this is through our website, www.leggmason.com/cef. Here you can gain immediate access to market and investment information, including:

- Fund prices and performance,
- Market insights and commentaries from our portfolio managers, and
- A host of educational resources.

We look forward to helping you meet your financial goals.

Sincerely,

R. Jay Gerken, CFA

Chairman, President and Chief Executive Officer

July 29, 2011

Investment commentary

Economic review

Although the U.S. economy continued to grow over the six months ended June 30, 2011, the pace of the expansion was disappointing, which resulted in a significant shift in investor sentiment. During the first half of the period, there were expectations of a strengthening economy and generally robust investor risk appetite. However, as the reporting period progressed, weakening economic data triggered a flight to quality as investor risk aversion increased. Despite giving back a portion of their previous gains in late May and June, investors who took on additional risk in their portfolios during the reporting period were generally rewarded.

U.S. gross domestic product (GDP) growth, as reported by the U.S. Department of Commerce, has been less robust than previously realized during most other periods exiting a severe recession. Revised GDP growth was 2.3% during the fourth quarter of 2010 and 3.0% for calendar 2010 as a whole. The Commerce Department then reported that first and second quarter 2011 GDP growth were 0.4% and 1.3%, respectively. This moderation in growth during the first half of the year was due to a variety of factors, including less robust export activity, a decline in government spending and a deceleration in consumer spending given higher oil and food prices.

Turning to the job market, while there was some improvement in the first half of the reporting period, unemployment again moved higher from April through June. After being 9.0% or higher since April 2009, the unemployment rate fell to 8.9% in February and 8.8% in March 2011. The job market then weakened, as unemployment rose to 9.0% in April, 9.1% in May and 9.2% in June. As of the end of the reporting period, approximately 14.1 million Americans looking for work had yet to find a job, and roughly 44% of these individuals have been out of work for more than six months. In June 2011, the Federal Reserve Board (Fed) projected that unemployment would moderate, but that it would remain elevated and between 7.8% and 8.2% at the end of 2012.

The long-ailing housing market continued to show signs of strain during the reporting period. Looking back, sales increased in the spring of 2010 largely due to the government's \$8,000 tax credit for first-time home buyers. This proved to be only a temporary boost, as sales subsequently weakened after the tax credit expired at the end of April. Existing-home sales did rebound somewhat toward the end of 2010 and in January 2011, as mortgage rates remained relatively low. However, according to the National Association of Realtors (NAR), existing-home sales then declined a sharp 8.9% in February. After a 3.5% increase in March, existing-home sales fell 1.8%, 4.0% and 0.8% in April, May and June, respectively. At the end of June, the inventory of unsold homes was a 9.5 month supply at the current sales level, versus a 9.1 month supply in May. Existing-home prices were relatively stagnant versus a year ago, with the NAR reporting that the median existing-home price for all housing types was \$184,300 in June 2011, up 0.8% from June 2010.

Even the manufacturing sector, one of the stalwarts of the economy in recent years, softened toward the end of the reporting period. Based on the Institute for Supply Management's PMI, the manufacturing sector grew twenty-three consecutive months since it began expanding in August 2009 (a reading below 50 indicates a contraction,

IV Western Asset Mortgage Defined Opportunity Fund Inc.

Investment commentary (cont d)

whereas a reading above 50 indicates an expansion). In January 2011, the manufacturing sector expanded at its fastest pace since May 2004, with a reading of 60.8 versus 58.5 for the previous month. Manufacturing activity remained strong during the next three months and was 60.4 in April. However, it then declined to 53.5 in May, the lowest reading in the past twelve months. This was attributed, in part, to supply disruptions triggered by the March earthquake and tsunami in Japan. Manufacturing activity then moved modestly higher in June to 55.3, although only twelve of the eighteen industries tracked by the Institute for Supply Management expanded during the month.

Financial market overview

While stocks and lower-quality bonds generated solid results during the reporting period, there were several periods of heightened volatility and periodic sell-offs. These were triggered by a variety of factors, including concerns regarding the global economy, geopolitical unrest, the natural disasters in Japan and the ongoing European sovereign debt crisis. During those periods, investors tended to favor the relative safety of U.S. Treasury securities. However, these setbacks proved to be only temporary and risk aversion was generally replaced with solid demand for riskier assets.

The Fed took a number of actions as it sought to meet its dual mandate of fostering maximum employment and price stability. In November 2010, prior to the beginning of the reporting period, the Fed announced a second round of quantitative easing (often referred to as QE2) to help stimulate the economy, entailing the purchase of \$600 billion of long-term U.S. Treasury securities by the end of the second quarter of 2011. Also, as has been the case since December 2008, the Fed kept the federal funds rate at a historically low range between 0 and 1/4 percent.

Despite these efforts, at its meeting in June 2011, the Fed said, "Information received since the Federal Open Market Committee met in April indicates that the economic recovery is continuing at a moderate pace, though somewhat more slowly than the Committee had expected. . . . To promote the ongoing economic recovery and to help ensure that inflation, over time, is at levels consistent with its mandate, the Committee decided today to keep the target range for the federal funds rate at 0 to 1/4 percent. The Committee continues to anticipate that economic conditions including low rates of resource utilization and a subdued outlook for inflation over the medium run are likely to warrant exceptionally low levels for the federal funds rate for an extended period.

In June, the Fed also announced that it would complete QE2 on schedule at the end of June. However, given ongoing strains in the economy, it made no overtures toward reversing any of its accommodative policies and the Fed said it would maintain its existing policy of reinvesting principal payments from its securities holdings rather than seeking to reduce the size of its balance sheet.

Fixed income market review

Edgar Filing: Western Asset Mortgage Defined Opportunity Fund Inc. - Form N-CSRS

While volatility was elevated at times, the U.S. spread sectors (non-Treasuries) produced positive results during the reporting period. As was the case for much of 2010, the spread sectors generally outperformed equal-duration Treasuries during the first four months of the reporting period. A combination of positive economic growth, benign core inflation, rising corporate

profits and overall robust investor demand supported the spread sectors from January through April 2011. Investor sentiment then began to shift in May, as optimism about the economic expansion waned and investor risk appetite started to be replaced with increased risk aversion. While the U.S. spread sectors generally posted positive results in May, they underperformed equal-duration Treasuries. Risk aversion then increased in June given a host of disappointing economic data and a further escalation of the European sovereign debt crisis. Against this backdrop, the spread sectors generated relatively poor results during most of June as investors fled the spread sectors in favor of Treasury securities.

Both short- and long-term Treasury yields fluctuated during the six months ended June 30, 2011. When the period began, two- and ten-year Treasury yields were 0.61% and 3.30%, respectively. Yields initially moved higher given expectations for stronger growth in 2011 and the potential for rising inflation. On February 14, 2011, two-year Treasury yields peaked at 0.87%, while ten-year Treasuries peaked at 3.75% on February 8, 2011. Treasury yields then declined as investor risk aversion increased given the uprising in Libya and, later, due to the tragic events in Japan. Yields briefly moved higher toward the end of March, but then generally declined from April through June given disappointing economic data and periodic flights to quality. In late June, two- and ten-year Treasury yields bottomed at 0.35% and 2.88%, respectively, and ended the period at 0.45% and 3.18%, respectively. For the six months ended June 30, 2011, the Barclays Capital U.S. Aggregate Indexvi returned 2.72%.

While fundamentals remained challenged, commercial mortgage-backed securities (CMBS) generated solid returns during the reporting period. Over the first four months of the period, CMBS, as measured by the Barclays Capital CMBS Indexvii, outperformed equal-duration Treasuries given overall strong demand from investors seeking incremental yield. While the CMBS market took a step backward during May and June given increased risk aversion, the asset class returned 3.71% over the six months ended June 30, 2011. Residential mortgage-backed securities, as measured by the Barclays Capital U.S. Mortgage-Backed Securities Indexviii, also generated positive results, but modestly lagged the CMBS market during the reporting period, returning 2.87%.

Performance review

For the six months ended June 30, 2011, Western Asset Mortgage Defined Opportunity Fund Inc. returned 2.96% based on its net asset value (NAV)ix and 2.18% based on its New York Stock Exchange (NYSE) market price per share. The Fund's unmanaged benchmark, the BofA Merrill Lynch U.S. Floating Rate Home Equity Loan Asset Backed Securities Indexx, returned -2.44% over the same time frame. The Lipper U.S. Mortgage Closed-End Funds Category Averagexi returned 3.85% for the same period. Please note that Lipper performance returns are based on each fund's NAV.

During this six-month period, the Fund made distributions to shareholders totaling \$0.84 per share, which may have included a return of capital. The performance table shows the Fund's six-month total return based on its NAV and market price as of June 30, 2011. **Past performance is no guarantee of future results.**

Investment commentary (continued)

Performance Snapshot as of June 30, 2011 (unaudited)

Price Per Share	6-Month Total Return*
\$21.78 (NAV)	2.96%
\$21.24 (Market Price)	2.18%

All figures represent past performance and are not a guarantee of future results.

* **Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan. Performance figures for periods shorter than one year represent cumulative figures and are not annualized.**

Looking for additional information?

The Fund is traded under the symbol **DMO** and its closing market price is available in most newspapers under the NYSE listings. The daily NAV is available on-line under the symbol **XDMOX** on most financial websites. *Barron's* and the *Wall Street Journal's* Monday edition both carry closed-end fund tables that provide additional information. In addition, the Fund issues a quarterly press release that can be found on most major financial websites as well as www.leggmason.com/cef.

In a continuing effort to provide information concerning the Fund, shareholders may call 1-888-777-0102 (toll free), Monday through Friday from 8:00 a.m. to 5:30 p.m. Eastern Time, for the Fund's current NAV, market price and other information.

As always, thank you for your confidence in our stewardship of your assets.

Sincerely,

R. Jay Gerken, CFA

Chairman, President and Chief Executive Officer

July 29, 2011

RISKS: *The Fund's investments are subject to liquidity risk, credit risk, inflation risk and interest rate risk. As interest rates rise, bond prices fall, reducing the value of the Fund's fixed-income holdings. The Fund may invest in lower-rated high-yield bonds which are subject to greater credit risk (risk of default) than higher-rated obligations. Mortgage-backed securities are subject to additional risks, including prepayment risk, which can limit the potential gains in a declining interest rate environment. The Fund may invest in securities backed by subprime or distressed mortgages which involve a higher degree of risk and chance of loss. Leverage may result in greater volatility of NAV and the market price of common shares and increases a shareholder's risk of loss. The Fund may make significant investments in derivative instruments. Derivative instruments can be illiquid, may disproportionately increase losses, and have a potentially large impact on Fund performance. The Fund is not guaranteed by the U.S. government, the U.S. Treasury or any government agency.*

All investments are subject to risk including the possible loss of principal. Past performance is no guarantee of future results. All index performance reflects no deduction for fees, expenses or taxes. Please note that an investor cannot invest directly in an index.

The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

- i Gross domestic product (GDP) is the market value of all final goods and services produced within a country in a given period of time.
- ii The Federal Reserve Board (Fed) is responsible for the formulation of policies designed to promote economic growth, full employment, stable prices and a sustainable pattern of international trade and payments.
- iii The Institute for Supply Management's PMI is based on a survey of purchasing executives who buy the raw materials for manufacturing at more than 350 companies. It offers an early reading on the health of the manufacturing sector.
- iv The federal funds rate is the rate charged by one depository institution on an overnight sale of immediately available funds (balances at the Federal Reserve) to another depository institution; the rate may vary from depository institution to depository institution and from day to day.
- v Duration is the measure of the price sensitivity of a fixed-income security to an interest rate change of 100 basis points. Calculation is based on the weighted average of the present values for all cash flows.
- vi The Barclays Capital U.S. Aggregate Index is a broad-based bond index comprised of government, corporate, mortgage- and asset-backed issues, rated investment grade or higher, and having at least one year to maturity.
- vii The Barclays Capital CMBS Index measures the performance of the commercial mortgage-backed securities market.
- viii The Barclays Capital U.S. Mortgage-Backed Securities Index is an unmanaged index composed of agency mortgage-backed pass-through securities, both fixed-rate and hybrid adjustable rate mortgages, issued by the Government National Mortgage Association, Federal National Mortgage Association and Federal Home Loan Mortgage Corporation.
- ix Net asset value (NAV) is calculated by subtracting total liabilities and outstanding preferred stock (if any) from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is the Fund's market price as determined by supply of and demand for the Fund's shares.
- x The BofA Merrill Lynch U.S. Floating Rate Home Equity Loan Asset Backed Securities Index tracks the performance of U.S. dollar-denominated investment grade floating-rate asset-backed securities collateralized by home equity loans publicly issued in the U.S. domestic market. Qualifying securities must have an investment grade rating, at least one year remaining to final stated maturity, a floating-rate coupon, and an original deal size for the collateral group of at least \$250 million.
- xi Lipper, Inc., a wholly-owned subsidiary of Reuters, provides independent insight on global collective investments. Returns are based on the six-month period ended June 30, 2011, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 10 funds in the Fund's Lipper category.

Fund at a glance (unaudited)

Investment breakdown (%) as a percent of total investments

The bar graph above represents the composition of the Fund's direct investments and the exposure to these markets that the Fund receives through its investment in the RLJ Western Asset Public/Private Master Fund, LP as of June 30, 2011 and December 31, 2010. This bar graph does not include derivatives. The Fund is actively managed. As a result, the composition of the Fund's investments is subject to change at any time.

Spread duration (unaudited)

Economic Exposure June 30, 2011

Spread duration measures the sensitivity to changes in spreads. The spread over Treasuries is the annual risk premium demanded by investors to hold non-Treasury securities. Spread duration is quantified as the % change in price resulting from a 100 basis points change in spreads. For a security with positive spread duration, an increase in spreads would result in a price decline and a decline in spreads would result in a price increase. This chart highlights the market sector exposure of the Fund's sectors relative to the selected benchmark sectors as of the end of the reporting period.

Effective duration (unaudited)

Interest Rate Exposure June 30, 2011

Effective duration measures the sensitivity to changes in relevant interest rates. Effective duration is quantified as the % change in price resulting from a 100 basis points change in interest rates. For a security with positive effective duration, an increase in interest rates would result in a price decline and a decline in interest rates would result in a price increase. This chart highlights the interest rate exposure of the Fund's sectors relative to the selected benchmark sectors as of the end of the reporting period.

Increase in interest payable	9,010
Decrease in accrued expenses	(272,083)
Total Adjustments	1,848,099
Net Cash Flows Provided by Operating Activities	\$ 8,491,579

Non-Cash Financing Activities:

Proceeds from reinvestment of dividends	\$ 163,556
---	------------

See Notes to Financial Statements.

Financial highlights

For a share of capital stock outstanding throughout each year ended December 31, unless otherwise noted:

	2011	2010
Net asset value, beginning of period	\$21.98	\$19.063
Income (loss) from operations:		
Net investment income	1.13	1.77
Net realized and unrealized gain (loss)	(0.49)	2.27
Total income from operations	0.64	4.04
Less distributions from:		
Net investment income	(0.84)	(1.12)
Total distributions	(0.84)	(1.12)
Net asset value, end of period	\$21.78	\$21.98
Market price, end of period	\$21.24	\$21.60
Total return, based on NAV^{4,5}	2.96%	21.81%
Total return, based on Market Price⁵	2.18%	14.08%
Net assets, end of period (000s)	\$225,933	\$227,834
Ratios to average net assets:		
Gross expenses ^{6,7}	2.05%	2.04%
Gross expenses, excluding interest expense ^{6,7}	1.78	1.84
Net expenses ^{6,7,8}	2.05	2.04
Net expenses, excluding interest expense ^{6,7,8}	1.78	1.84
Net investment income ^{6,7}	10.15	10.27
Portfolio turnover rate	6%	18%

1 For the six months ended June 30, 2011 (unaudited).

2 For the period February 24, 2010 (commencement of operations) to December 31, 2010.

3 Initial public offering price of \$20.00 per share less offering costs and sales load totaling \$0.94 per share.

4 Performance figures may reflect compensating balance arrangements, fees forgone and/or expense reimbursements. In the absence of compensating balance arrangements, fees forgone and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

Edgar Filing: Western Asset Mortgage Defined Opportunity Fund Inc. - Form N-CSRS

5 The total return calculation assumes that distributions are reinvested in accordance with the Fund's dividend reinvestment plan. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

6 Annualized.

7 Does not include expenses of PPIP Limited Partnership in which the Fund invests (Note 4).

8 The impact of compensating balance arrangements, if any, was less than 0.01%.

See Notes to Financial Statements.

18	Western Asset Mortgage Defined Opportunity Fund Inc. 2011 Semi-Annual Report		
----	--	--	--

Notes to financial statements (unaudited)

1. Organization and significant accounting policies

Western Asset Mortgage Defined Opportunity Fund Inc. (the **Fund**) was incorporated in Maryland on December 11, 2009, and is registered as a non-diversified, limited term, closed-end management investment company under the Investment Company Act of 1940, as amended (the **1940 Act**). The **Fund**'s primary investment objective is to provide current income by investing primarily in a diverse portfolio of mortgage-backed securities (**MBS**), consisting primarily of non-agency residential mortgage-backed securities (**RMBS**) and commercial mortgage-backed securities (**CMBS**). The **Fund** intends to liquidate and distribute substantially all of the **Fund**'s net assets to shareholders on or about March 1, 2022. The **Fund** invests at least 80% of its Managed Assets (total assets of the **Fund** plus any implicit leverage at the Master Fund (defined below) level attributable to the **Fund**'s investment in the Feeder Fund (defined below)) in **MBS** directly, and indirectly by investing in the RLJ Western Asset Public/Private Collector Fund, LP (the **Feeder Fund**), which invests substantially all of its assets available for investment, alongside the U.S. Department of the Treasury (the **Treasury**), in the RLJ Western Asset Public/Private Master Fund, LP (the **Master Fund**) that has been organized to invest directly in **MBS** and other assets eligible for purchase under the Legacy Securities Public-Private Investment Program (**PIIP**). As a secondary investment objective, the **Fund** will seek capital appreciation.

The following are significant accounting policies consistently followed by the **Fund** and are in conformity with U.S. generally accepted accounting principles (**GAAP**). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ. Subsequent events have been evaluated through the date the financial statements were issued.

(a) Investment valuation. Debt securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service, which are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. When reliable prices are not readily available, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the **Fund** calculates its net asset value, the **Fund** values these securities as determined in accordance with procedures approved by the **Fund**'s Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

The Fund's investment in the Feeder Fund is valued by determining the Fund's pro rata ownership interest in the net assets of the Master Fund. On a daily basis, the Fund receives the net asset value of the Master Fund, which is used along with other inputs to derive a value for the Fund's investment in the Feeder Fund.

The Fund has adopted Financial Accounting Standards Board Codification Topic 820 (ASC Topic 820). ASC Topic 820 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments

- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Fund uses valuation techniques to measure fair value that are consistent with the market approach and/or income approach, depending on the type of security and the particular circumstance. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

The following is a summary of the inputs used in valuing the Fund's assets carried at fair value:

Description	ASSETS			Total
	Quoted Prices (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

----	--	--	--

Notes to financial statements (unaudited) (cont d)

The following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

	Commercial Mortgage- Backed Securities	Residential Mortgage- Backed Securities	Asset- Backed Securities	PPIP Limited Partnership	Total
Investments In Securities					
Balance as of December 31, 2010		\$ 2,380,000	\$ 1,922,000	\$82,487,040	\$86,789,040
Accrued premiums/discounts		49,426	22,206		71,632
Realized gain (loss)					
Change in unrealized appreciation (depreciation) ¹	\$ 3,743	566,619	70,794	(4,827,593)	(4,186,437)
Net purchases (sales)	386,552	4,063,983			4,450,535
Undistributed earnings				4,741,413	4,741,413
Transfers into Level 3		3,151,834			3,151,834
Transfers out of Level 3		(2,812,862)	(2,015,000)		(4,827,862)
Balance as of June 30, 2011	\$390,295	\$ 7,399,000		\$82,400,860	\$90,190,155
Net change in unrealized appreciation (depreciation) for investments in securities still held at June 30, 2011 ¹	\$ 3,743	\$ 158,266		\$ (4,827,593)	\$ (4,900,930)

¹ This amount is included in the change in net unrealized appreciation (depreciation) in the accompanying Statement of Operations. Change in unrealized appreciation (depreciation) includes net unrealized appreciation (depreciation) resulting from changes in investment values during the reporting period and the reversal of previously recorded unrealized appreciation (depreciation) when gains or losses are realized.

(b) Repurchase agreements. The Fund may enter into repurchase agreements with institutions that its investment adviser has determined are creditworthy. Each repurchase agreement is recorded at cost. Under the terms of a typical repurchase agreement, the Fund acquires a debt security subject to an obligation of the seller to repurchase, and of the Fund to resell, the security at an agreed-upon price and time, thereby determining the yield during the Fund's holding period. When entering into repurchase agreements, it is the Fund's policy that its custodian or a third party custodian, acting on the Fund's behalf, take possession of the underlying collateral securities, the market value of which, at all times, at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction maturity exceeds one business day, the value of the collateral is marked-to-market and measured against the value of the agreement in an effort to ensure the adequacy of the collateral. If the counterparty defaults, the Fund generally has the right to use the collateral to satisfy the terms of the repurchase transaction. However, if the market value of the collateral declines during the period in which the Fund seeks to assert its rights or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

(c) Reverse repurchase agreements. The Fund may enter into reverse repurchase agreements. Under the terms of a typical reverse repurchase agreement,

a fund sells a security subject to an obligation to repurchase the security from the buyer at an agreed-upon time and price. In the event the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the Fund's use of the proceeds of the agreement may be restricted pending a determination by the counterparty, or its trustee or receiver, whether to enforce the Fund's obligation to repurchase the securities. In entering into reverse repurchase agreements, the Fund will maintain cash, U.S. government securities or other liquid debt obligations at least equal in value to its obligations with respect to reverse repurchase agreements or will take other actions permitted by law to cover its obligations.

(d) PPIP investment. On March 23, 2009, the Treasury, in conjunction with the Federal Deposit Insurance Corporation and the Board of Governors of the United States Federal Reserve (the "Federal Reserve"), announced the creation of PPIP. PPIP calls for the creation of public private investment funds ("PPIP Limited Partnerships"), such as the Master Fund, through which privately raised capital and Treasury capital are pooled together to facilitate the purchase of PPIP Eligible Assets. PPIP Eligible Assets are those assets determined by the Treasury, from time to time, to be eligible for investment by the Master Fund. Eligible Assets currently include RMBS and CMBS issued prior to 2009 that were originally rated AAA or that received an equivalent rating by two or more nationally recognized statistical rating organizations without ratings enhancement and that are secured directly by actual mortgage loans, leases or other assets and not other securities (other than certain swap positions, as determined by the Treasury).

The Feeder Fund and Master Fund are Delaware limited partnerships formed to provide certain qualified institutional investors with access to PPIP. The Feeder Fund will participate in PPIP by investing all or substantially all of its assets available for investment, alongside the Treasury, in the Master Fund. The Feeder Fund's investment objective is to generate attractive returns for investors through long term opportunistic investments in PPIP Eligible Assets. The Master Fund has an investment objective that is consistent with that of the Feeder Fund. The Fund's interests in the Feeder Fund will be substantially identical to those of the other investors in the Feeder Fund in all material respects except with respect to fees payable in connection with PPIP. Investors in the Fund pay a management fee on the Fund's Managed Assets, which includes total assets attributable to the Fund's direct investments and its indirect investment in the leveraged Master Fund. The Feeder Fund invests all of its assets in the Master Fund. The Master Fund invests directly in a portfolio of PPIP Eligible Assets and borrows from the Treasury through a senior secured term loan facility. Neither the Feeder Fund nor the Master Fund is registered with the Securities and Exchange Commission as an investment company under the 1940 Act, and neither the Feeder Fund nor the Master Fund's interests are registered under the Securities Act of 1933, as amended.

22	Western Asset Mortgage Defined Opportunity Fund Inc. 2011 Semi-Annual Report		
----	--	--	--

Notes to financial statements (unaudited) (cont d)

Pursuant to the terms of the partnership agreement governing the Feeder Fund, the Fund generally may not withdraw from the Feeder Fund, and the Fund may not, directly or indirectly, sell, assign, pledge, exchange or otherwise transfer its interest in the Feeder Fund, in whole or in part, without the prior written consent of the General Partner. As a result, the Fund's investment in the Feeder Fund is illiquid.

The Master Fund is expected to terminate on or around November 5, 2017 (unless terminated earlier pursuant to certain conditions), subject to extension at the discretion of the General Partner with the written consent of the Treasury for consecutive periods of up to one year each and up to a maximum of two years. Upon its termination, it is anticipated that the Master Fund (and in turn the Feeder Fund) will distribute substantially all of its net assets to its partners on a pro-rata basis.

On March 12, 2010 the Fund made a subscription for an investment into the Feeder Fund of \$68,000,000, \$51,000,000 of which was immediately drawn and invested into the Feeder Fund. The Fund made additional investments into the Feeder Fund of \$6,800,000, \$5,440,000 and \$4,760,000 on April 27, 2010, May 20, 2010 and July 6, 2010, respectively. As of June 30, 2011, the Fund has a 12.52% ownership interest in the Feeder Fund and indirectly, 5.48% in the Master Fund through its investment in the Feeder Fund. Additionally, as of June 30, 2011, the Fund had no undrawn capital commitment to the Feeder Fund.

(e) Leverage. The Fund may seek to enhance the level of its current distributions to holders of common stock through the use of leverage. The Fund may use leverage directly at the Fund level through borrowings, including loans from certain financial institutions or through a qualified government sponsored program, the use of reverse repurchase agreements and/or the issuance of debt securities (collectively, Borrowings), and possibly through the issuance of preferred stock (Preferred Stock), in an aggregate amount of up to approximately 33 1/3% of the Fund's Total Assets immediately after such Borrowings and/or issuances of Preferred Stock. Total Assets means net assets of the Fund plus the amount of any Borrowings and assets attributable to Preferred Stock that may be outstanding. Currently, the Fund has no intention to issue notes or debt securities or Preferred Stock. In addition, the Fund may enter into additional reverse repurchase agreements and/or use similar investment management techniques that may provide leverage, but which are not subject to the foregoing 33 1/3% limitation so long as the Fund has covered its commitment with respect to such techniques by segregating liquid assets, entering into offsetting transactions or owning positions covering related obligations.

The Master Fund is expected to borrow money from the Treasury for investment purposes in an amount equal to approximately 50% of the Master Fund's total assets immediately after giving effect to the borrowing (the

Treasury Debt Financing). The Master Fund will bear the interest expense and other financing costs arising out of its use of the Treasury Debt Financing. To the extent the Fund invests in the Master Fund, through its investment in the Feeder Fund, the Fund will be subject to the implicit risks (and potential benefits) of such leverage. The Fund will also bear its allocable share of the Master Fund's cost of leverage. While such implicit leverage will not constitute actual borrowing of the Fund for purposes of the 1940 Act, in an effort to mitigate the overall risk of leverage, the Fund does not intend to incur additional direct leverage at the Fund level to the extent that its existing direct leverage at the Fund level and its implicit leverage through its investment in the Master Fund exceeds 33 1/3% of the Fund's Managed Assets immediately after Borrowings and/or issuances Preferred Stock at the Fund level. Managed Assets means the Total Assets of the Fund plus any implicit leverage at the Master Fund level attributable to the Fund's investment in the Feeder Fund.

(f) Mortgage-backed securities. Mortgage-Backed Securities (MBS) include CMBS and RMBS. These securities depend on payments (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) primarily from the cash flow from secured commercial or residential mortgage loans made to borrowers. Such loans are secured (on a first priority basis or second priority basis, subject to permitted liens, easements and other encumbrances) by commercial or residential real estate, the proceeds of which are used to purchase and or to construct commercial or residential real estate. The value of some mortgage-backed securities may be particularly sensitive to changes in prevailing interest rates. Early repayment of principal on some mortgage-related securities may expose the Master Fund to a lower rate of return upon reinvestment of principal. The value of these securities may fluctuate in response to the market's perception of the creditworthiness of the issuers. Additionally, although certain mortgage-related securities are supported by some form of government or private guarantee and/or insurance, there is no assurance that private guarantors or insurers will meet their obligations.

(g) Stripped securities. The Fund invests in Stripped Securities, a term used collectively for components, or strips, of fixed income securities. Stripped securities can be principal only securities (PO), which are debt obligations that have been stripped of unmatured interest coupons or, interest only securities (IO), which are unmatured interest coupons that have been stripped from debt obligations. The market value of Stripped Securities will fluctuate in response to changes in economic conditions, rates of pre-payment, interest rates and the market's perception of the securities. However, fluctuations in response to interest rates may be greater in Stripped Securities than for debt obligations of comparable maturities that pay interest currently. The amount of fluctuation may increase with a longer period of maturity.

24	Western Asset Mortgage Defined Opportunity Fund Inc. 2011 Semi-Annual Report		
----	--	--	--

Notes to financial statements (unaudited) (cont d)

The yield to maturity on IO s is sensitive to the rate of principal repayments (including prepayments) on the related underlying debt obligation and principal payments may have a material effect on yield to maturity. If the underlying debt obligation experiences greater than anticipated prepayments of principal, the Fund may not fully recoup its initial investment in IO s.

(h) Cash flow information. The Fund invests in securities and distributes dividends from net investment income and net realized gains, which are paid in cash and may be reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments are presented in the Statement of Cash Flows.

(i) Credit and market risk. Investments in securities that are collateralized by residential real estate mortgages are subject to certain credit and liquidity risks. When market conditions result in an increase in default rates of the underlying mortgages and the foreclosure values of underlying real estate properties are materially below the outstanding amount of these underlying mortgages, collection of the full amount of accrued interest and principal on these investments may be doubtful. Such market conditions may significantly impair the value and liquidity of these investments and may result in a lack of correlation between their credit ratings and values.

(j) Security transactions and investment income. Security transactions are accounted for on a trade date basis. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults or a credit event occurs that impacts the issuer, the Fund may halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default or credit event.

PPIP makes distributions from net investment income to the Fund, if any, on a monthly basis. In the event that PPIP s net investment income for the month exceeds its distribution, the difference will be recorded on the Fund s books as income and offset by an increase to the cost of the PPIP investment. For the six months ended June 30, 2011, the Fund has recorded \$6,916,979 in net investment income from PPIP.

(k) Distributions to shareholders. Distributions from net investment income for the Fund, if any, are declared quarterly and paid on a monthly basis. Distributions of net realized gains, if any, are declared at least annually. Distributions to shareholders of the Fund are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP.

(l) Compensating balance arrangements. The Fund has an arrangement with its custodian bank whereby a portion of the custodian s fees is paid indirectly by credits earned on the Fund s cash on deposit with the bank.

(m) Federal and other taxes. It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986 (the Code), as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute its taxable income and net realized gains, if any, to shareholders in accordance with timing requirements imposed by the Code. Therefore, no federal or state income tax provision is required in the Fund's financial statements.

However, due to the timing of when distributions are made by the Fund, the Fund may be subject to an excise tax of 4% of the amount by which 98% of the Fund's annual taxable income and net realized gains exceed the distributions from such taxable income and realized gains for the calendar year. The Fund paid \$300,000 of Federal excise taxes attributable to calendar year 2010. Under the recently enacted Regulated Investment Company Modernization Act of 2010, the minimum distribution requirement for capital gains that must be met in order to avoid the imposition of excise tax has been raised from 98% to 98.2% for calendar years beginning after December 22, 2010.

(n) Reclassification. GAAP requires that certain components of net assets be reclassified to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share.

2. Investment management agreement and other transactions with affiliates

Legg Mason Partners Fund Advisor, LLC (LMPFA) is the Fund's investment manager. Western Asset Management Company (Western Asset) and Western Asset Limited (Western Asset Limited) are the Fund's subadvisers. LMPFA, Western Asset and Western Asset Limited are wholly-owned subsidiaries of Legg Mason, Inc. (Legg Mason). Western Asset is also the investment advisor to the Feeder Fund and the Master Fund.

Under the investment management agreement, the Fund pays an investment management fee, calculated daily and paid monthly, at an annual rate of 1.00% of the Fund's average daily Managed Assets.

LMPFA provides administrative and certain oversight services to the Fund. LMPFA delegates to the subadviser the day-to-day portfolio management of the Fund. For its services, LMPFA pays Western Asset 70% of the net management fee it receives from the Fund. In turn, Western Asset pays Western Asset Limited a subadvisory fee of 0.70% of the Fund's daily Managed Assets that the subadviser allocates to Western Asset Limited to manage.

Wilshire Associates Incorporated (the Allocation Subadviser), a registered investment adviser unaffiliated with Legg Mason, LMPFA, Western Asset or Western Asset Limited, determines whether and to what extent the Fund will invest in the Feeder Fund, subject to the supervision of the Fund's Board of

26	Western Asset Mortgage Defined Opportunity Fund Inc. 2011 Semi-Annual Report		
----	--	--	--

Notes to financial statements (unaudited) (cont d)

Directors and LMPFA. Assets not allocated by the Allocation Subadviser to the Feeder Fund will be managed directly by Western Asset.

The Allocation Subadviser will receive an annual fee, payable monthly, from the Fund in an amount equal to 0.05% of the Fund's average daily Managed Assets, subject to a minimum compensation guarantee between the Allocation Subadviser and LMPFA.

All officers and one Director of the Fund are employees of Legg Mason or its affiliates and do not receive compensation from the Fund.

3. Investments

During the six months ended June 30, 2011, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) and U.S. Government & Agency Obligations were as follows:

	Investments
Purchases	\$16,596,533
Sales	19,453,371

At June 30, 2011, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$11,857,485
Gross unrealized depreciation	(3,838,490)
Net unrealized appreciation	\$ 8,018,995

Transactions in reverse repurchase agreements for the Fund during the six months ended June 30, 2011 were as follows:

Average Daily Balance*	Weighted Average Interest Rate*	Maximum Amount Outstanding
\$44,712,169	1.38%	\$45,511,393

Edgar Filing: Western Asset Mortgage Defined Opportunity Fund Inc. - Form N-CSRS

* Average based on the number of days the Fund had reverse repurchase agreements outstanding.

Interest rates on reverse repurchase agreements ranged from 1.100% to 1.565% during the six months ended June 30, 2011. Interest expense incurred on reverse repurchase agreements totaled \$309,523.

At June 30, 2011, the Fund had the following open reverse repurchase agreements:

Security	Value
Reverse Repurchase Agreement with Barclays, dated 2/24/11 bearing 1.250% to be repurchased at \$1,280,528 on 12/6/11, collateralized by: \$1,553,898 Access Group, Inc., 0.427% due 5/25/29; Market value (including accrued interest) \$1,443,636	\$ 1,267,981
Reverse Repurchase Agreement with Barclays, dated 3/31/11 bearing 1.515% to be repurchased at \$1,002,589 on 11/16/11, collateralized by: \$2,021,616 Accredited Mortgage Loan Trust, 4.460% due 1/25/34; Market value (including accrued interest) \$1,678,322	992,978

Security	Value
Reverse Repurchase Agreement with Barclays, dated 3/31/11 bearing 1.561% to be repurchased at \$1,103,916 on 9/30/11, collateralized by: \$2,831,812 Bank of America Funding Corp., 5.387% due 5/20/36; Market value (including accrued interest) \$1,781,632	\$ 1,296,630
Reverse Repurchase Agreement with Barclays, dated 3/31/11 bearing 1.100% to be repurchased at \$525,867 on 11/16/11, collateralized by: \$874,506 Bank of America Funding Corp., 2.836% due 7/20/36; Market value (including accrued interest) \$738,390	522,197
Reverse Repurchase Agreement with Barclays, dated 3/31/11 bearing 1.515% to be repurchased at \$2,317,214 on 11/16/11, collateralized by: \$3,600,000 Bank of America Funding Corp., 6.000% due 9/25/36; Market value (including accrued interest) \$3,633,721	2,295,000
Reverse Repurchase Agreement with Barclays, dated 3/31/11 bearing 1.265% to be repurchased at \$1,526,901 on 11/16/11, Collateralized by: \$3,490,000 Bayview Financial Acquisition Trust, 0.636% due 4/28/39; Market value (including accrued interest) \$2,661,708	1,514,660
Reverse Repurchase Agreement with Barclays, dated 3/31/11 bearing 1.561% to be repurchased at \$1,162,230 on 9/30/11, Collateralized by: \$2,806,986 Bayview Financial Acquisition Trust, 0.536% due 5/28/37; Market value (including accrued interest) \$1,671,835	1,153,084
Reverse Repurchase Agreement with Barclays, dated 5/6/11 bearing 1.100% to be repurchased at \$1,042,141 on 11/16/11, Collateralized by: \$2,000,000 Credit-Based Asset Servicing & Securitization, 0.606% due 8/25/35; Market value (including accrued interest) \$1,489,022	1,036,000
Reverse Repurchase Agreement with Barclays, dated 5/6/11 bearing 1.100% to be repurchased at \$1,716,274 on 11/16/11, collateralized by: \$3,500,000 Credit Suisse Mortgage Capital Certificates, 6.029% due 7/26/49; Market value (including accrued interest) \$2,478,837	1,706,160
Reverse Repurchase Agreement with Barclays, Dated 5/6/11 bearing 1.566% to be repurchased at \$1,299,939 on 8/24/11, collateralized by: \$2,300,000 Chase Mortgage Finance Corp., 2.794% due 1/25/36; Market value (including accrued interest) \$1,771,484	1,293,750
Reverse Repurchase Agreement with Barclays, dated 5/16/11 bearing 1.515% to be repurchased at \$496,566 on 11/16/11, collateralized by: \$900,000 Chase Mortgage Finance Corp., 2.794% due 1/25/36; Market value (including accrued interest) \$693,189	492,750
Reverse Repurchase Agreement with Barclays, dated 5/16/11 bearing 1.100% to be repurchased at \$804,679 on 11/16/11, collateralized by: \$1,072,686 Chase Mortgage Finance Corp., 5.500% due 11/25/21; Market value (including accrued interest) \$1,011,238	800,180
Reverse Repurchase Agreement with Barclays, dated 5/16/11 bearing 1.525% to be repurchased at \$525,224 on 11/7/11, collateralized by: \$827,554 Credit Suisse Mortgage Capital Certificates, 5.500% due 11/25/21; Market value (including accrued interest) \$697,542	521,359

127,444,913

Realized gain from investments

9,171,729

Change in unrealized gain on investments

(97,733,192)

Net Gain on Investments

(88,561,463)

Net Increase in Partners Capital Resulting from Operations

\$ 38,883,450

The return on the Fund's investment in the Master Fund for the six months ended June 30, 2011 was approximately 3%.

5. Derivative instruments and hedging activities

Edgar Filing: Western Asset Mortgage Defined Opportunity Fund Inc. - Form N-CSRS

Financial Accounting Standards Board Codification Topic 815 requires enhanced disclosure about an entity's derivative and hedging activities.

During the six months ended June 30, 2011, the Fund did not invest in any derivative instruments.

6. Distributions subsequent to June 30, 2011

On May 16, 2011, the Fund's Board of Directors (the Board) declared two dividends, each in the amount of \$0.1400 per share, payable on July 29, 2011.

and August 26, 2011 to shareholders of record on July 22, 2011 and August 19, 2011, respectively.

On August 12, 2011, the Board declared three dividends, each in the amount of \$0.1500 per share, payable on September 30, 2011, October 28, 2011 and November 25, 2011 to shareholders of record on September 23, 2011, October 21, 2011 and November 18, 2011, respectively.

7. Other tax information

On December 22, 2010, President Obama signed into law the Regulated Investment Company Modernization Act of 2010 (the Act). The Act updates certain tax rules applicable to regulated investment companies (RICs). The various provisions of the Act will generally be effective for RICs with taxable years beginning after December 22, 2010. Additional information regarding the impact of the Act on the Fund, if any, will be contained within the relevant sections of the notes to the financial statements for the fiscal year ending December 31, 2011.

Additional shareholder information (unaudited)

Results of first annual meeting of shareholders

The Annual Meeting of Shareholders of Western Asset Mortgage Defined Opportunity Fund Inc. was held on April 29, 2011, for the purpose of considering and voting upon the election of Directors. The following table provides information concerning the matter voted upon at the meeting:

Election of directors

Nominees	Votes For	Votes Withheld
Carol L. Colman	9,950,139	123,986
Daniel P. Cronin	9,929,569	144,556
Paolo M. Cucchi	9,929,569	144,556

At June 30, 2011, in addition to Carol L. Colman, Daniel P. Cronin and Paolo M. Cucchi, the other Directors of the Fund were as follows:

Leslie H. Gelb

R. Jay Gerken, CFA

William R. Hutchinson

Riordan Roett

Jeswald W. Salacuse

Dividend reinvestment plan (unaudited)

Unless you elect to receive distributions in cash (i.e., opt-out), all dividends, including any capital gain dividends, on your Common Stock will be automatically reinvested by American Stock Transfer & Trust Company LLC, as agent for the stockholders (the Plan Agent), in additional shares of Common Stock under the Fund's Dividend Reinvestment Plan (the Plan). You may elect not to participate in the Plan by contacting the Plan Agent. If you do not participate, you will receive all cash distributions paid by check mailed directly to you by American Stock Transfer & Trust Company LLC, as dividend paying agent.

If you participate in the Plan, the number of shares of Common Stock you will receive will be determined as follows:

(1) If the market price of the Common Stock on the record date (or, if the record date is not a NYSE trading day, the immediately preceding trading day) for determining stockholders eligible to receive the relevant dividend or distribution (the determination date) is equal to or exceeds 98% of the net asset value per share of the Common Stock, the Fund will issue new Common Stock at a price equal to the greater of

(a) 98% of the net asset value per share at the close of trading on the NYSE on the determination date or

(b) 95% of the market price per share of the Common Stock on the determination date.

(2) If 98% of the net asset value per share of the Common Stock exceeds the market price of the Common Stock on the determination date, the Plan Agent will receive the dividend or distribution in cash and will buy Common Stock in the open market, on the NYSE or elsewhere, for your account as soon as practicable commencing on the trading day following the determination date and terminating no later than the earlier of (a) 30 days after the dividend or distribution payment date, or (b) the record date for the next succeeding dividend or distribution to be made to the stockholders; except when necessary to comply with applicable provisions of the federal securities laws. If during this period: (i) the market price rises so that it equals or exceeds 98% of the net asset value per share of the Common Stock at the close of trading on the NYSE on the determination date before the Plan Agent has completed the open market purchases or (ii) if the Plan Agent is unable to invest the full amount eligible to be reinvested in open market purchases, the Plan Agent will cease purchasing Common Stock in the open market and the Fund shall issue the remaining Common Stock at a price per share equal to the greater of (a) 98% of the net asset value per share at the close of trading on the NYSE on the determination date or (b) 95% of the then current market price per share.

34	Western Asset Mortgage Defined Opportunity Fund Inc.		
----	--	--	--

Dividend reinvestment plan (unaudited) (cont d)

Common Stock in your account will be held by the Plan Agent in non-certificated form. Any proxy you receive will include all shares of Common Stock you have received under the Plan.

You may withdraw from the Plan (i.e., opt-out) by notifying the Plan Agent in writing at P.O. Box 922, Wall Street Station, New York, NY 10269-0560 or by calling the Plan Agent at 877-366-6441. Such withdrawal will be effective immediately if notice is received by the Plan Agent not less than ten business days prior to any dividend or distribution record date; otherwise such withdrawal will be effective as soon as practicable after the Plan Agent's investment of the most recently declared dividend or distribution on the Common Stock.

Upon any termination, you will be sent a certificate or certificates for the full number of shares of Common Stock held for you under the Plan and cash for any fractional share of Common Stock. You may elect to notify the Plan Agent in advance of such termination to have the Plan Agent sell part or all of your Common Stock on your behalf. You will be charged a service charge and the Plan Agent is authorized to deduct brokerage charges actually incurred for this transaction from the proceeds.

There is no service charge for reinvestment of your dividends or distributions in Common Stock. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases. Because all dividends and distributions will be automatically reinvested in additional shares of Common Stock, this allows you to add to your investment through dollar cost averaging, which may lower the average cost of your Common Stock over time. Dollar cost averaging is a technique for lowering the average cost per share over time if the Fund's net asset value declines. While dollar cost averaging has definite advantages, it cannot assure profit or protect against loss in declining markets.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Investors will be subject to income tax on amounts reinvested under the Plan.

The Fund reserves the right to amend or terminate the Plan if, in the judgment of the Board of Directors, the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. The Plan may be amended or supplemented by the Fund upon notice in writing mailed to stockholders at least 30 days prior to the record date for the payment of any dividend or distribution by the Fund for which the amendment or supplement is to be effective. Additional information about the Plan and your account may be obtained from the Plan Agent at 6201 15th Avenue, Brooklyn, New York 11219 or by calling the Plan Agent at 1-888-888-0151.

Legg Mason Funds Privacy and Security Notice

Your Privacy and the Security of Your Personal Information is Very Important to the Legg Mason Funds

This Privacy and Security Notice (the "Privacy Notice") addresses the Legg Mason Funds' privacy and data protection practices with respect to nonpublic personal information the Funds receive. The Legg Mason Funds include any funds sold by the Funds' distributor, Legg Mason Investor Services, LLC, as well as Legg Mason-sponsored closed-end funds. The provisions of this Privacy Notice apply to your information both while you are a shareholder and after you are no longer invested with the Funds.

The Type of Nonpublic Personal Information the Funds Collect About You

The Funds collect and maintain nonpublic personal information about you in connection with your shareholder account. Such information may include, but is not limited to:

- Personal information included on applications or other forms;
- Account balances, transactions, and mutual fund holdings and positions;
- Online account access user IDs, passwords, security challenge question responses; and
- Information received from consumer reporting agencies regarding credit history and creditworthiness (such as the amount of an individual's total debt, payment history, etc.).

How the Funds Use Nonpublic Personal Information About You

The Funds do not sell or share your nonpublic personal information with third parties or with affiliates for their marketing purposes, or with other financial institutions or affiliates for joint marketing purposes, unless you have authorized the Funds to do so. The Funds do not disclose any nonpublic personal information about you except as may be required to perform transactions or services you have authorized or as permitted or required by law. The Funds may disclose information about you to:

- Employees, agents, and affiliates on a "need to know" basis to enable the Funds to conduct ordinary business or comply with obligations to government regulators;
- Service providers, including the Funds' affiliates, who assist the Funds as part of the ordinary course of business (such as printing, mailing services, or processing or servicing your account with us) or otherwise perform services on the Funds' behalf, including companies that may perform marketing services solely for the Funds;

Edgar Filing: Western Asset Mortgage Defined Opportunity Fund Inc. - Form N-CSRS

- The Funds' representatives such as legal counsel, accountants and auditors; and
- Fiduciaries or representatives acting on your behalf, such as an IRA custodian or trustee of a grantor trust.

NOT PART OF THE SEMI-ANNUAL REPORT

Legg Mason Funds Privacy and Security Notice (cont d)

Except as otherwise permitted by applicable law, companies acting on the Funds' behalf are contractually obligated to keep nonpublic personal information the Funds provide to them confidential and to use the information the Funds share only to provide the services the Funds ask them to perform.

The Funds may disclose nonpublic personal information about you when necessary to enforce their rights or protect against fraud, or as permitted or required by applicable law, such as in connection with a law enforcement or regulatory request, subpoena, or similar legal process. In the event of a corporate action or in the event a Fund service provider changes, the Funds may be required to disclose your nonpublic personal information to third parties. While it is the Funds' practice to obtain protections for disclosed information in these types of transactions, the Funds cannot guarantee their privacy policy will remain unchanged.

Keeping You Informed of the Funds' Privacy and Security Practices

The Funds will notify you annually of their privacy policy as required by federal law. While the Funds reserve the right to modify this policy at any time they will notify you promptly if this privacy policy changes.

The Funds' Security Practices

The Funds maintain appropriate physical, electronic and procedural safeguards designed to guard your nonpublic personal information. The Funds' internal data security policies restrict access to your nonpublic personal information to authorized employees, who may use your nonpublic personal information for Fund business purposes only.

Although the Funds strive to protect your nonpublic personal information, they cannot ensure or warrant the security of any information you provide or transmit to them, and you do so at your own risk. In the event of a breach of the confidentiality or security of your nonpublic personal information, the Funds will attempt to notify you as necessary so you can take appropriate protective steps. If you have consented to the Funds using electronic communications or electronic delivery of statements, they may notify you under such circumstances using the most current email address you have on record with them.

In order for the Funds to provide effective service to you, keeping your account information accurate is very important. If you believe that your account information is incomplete, not accurate or not current, or if you have questions about the Funds' privacy practices, write the Funds using the contact information on your account statements, email the Funds by clicking on the Contact Us section of the Funds' website at www.leggmason.com, or contact the Fund at 1-888-777-0102.
