Special Note Regarding Forward-Looking Statements

Information included in this Quarterly Report on Form 10-Q contains forward-looking statements that reflect the views of the management of the Company with respect to certain future events. Forward-looking statements made by penny stock issuers such as the Company are excluded from the safe harbor in Section 21E of the Securities Exchange Act of 1934 (the Exchange Act). Words such as expects, should, may, will, believes, anticipates, intends, plans, seeks, estimates and similar expressions or variations of such words, and negatives thereof, are intended to identify forward-looking statements, but are not the exclusive means of identifying forward-looking statements in this report. These forward-looking statements are based on assumptions that may be incorrect, and there can be no assurance that matters anticipated in our forward-looking statements will come to pass.

Forward-looking statements are subject to certain risks and uncertainties which could cause actual results to differ materially from those anticipated. Such risk and uncertainties include, without limitation, those described under Risk Factors set forth in Part I, Item 1A of our Form 10-K for the fiscal year ended March 31, 2013 filed on June 28, 2013.

You are cautioned not to place undue reliance on forward-looking statements. You are also urged to review and consider carefully the various disclosures made in the Company's other filings with the Securities and Exchange Commission (SEC), including amendments to those filings, if any. Except as may be required by applicable laws, the Company undertakes no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

Table of Contents

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Business

Scio Diamond Technology Corporation (referred to herein as the Company, we, us or our) was incorporated under the laws of the State of Nevada as Krossbow Holding Corp. on September 17, 2009. The original business plan of the Company was focused on offsetting carbon dioxide emissions through the creation and protection of forest-based carbon sinks. The Company has since abandoned its original business plan and restructured its business to focus on man-made diamond technology development and commercialization.

Prior to October 1, 2012, the Company was a development stage company. Developmental activities have ceased and planned principal operations have commenced.

On September 16, 2013, the Company entered into a series of agreements with SAAMABA, LLC and S21 Research Holdings (the Grace Rich Agreements) to form a joint venture with operations in the People's Republic of China to deploy 100 Scio designed diamond growing machines. The agreements allow for the expansion of the joint venture to 400 or more machines. Under the Grace Rich Agreements, the Company has agreed to license its proprietary technology for the manufacture of diamond gemstones of agreed upon specifications. In exchange for the license, the Company will receive licensing and development revenue and a 30% ownership position in the joint venture. In addition to the licensed technology, the Grace Rich Agreements include obligations for the Company to provide and be compensated for technology consulting services to the joint venture to support the start-up of operations.

Going Concern

The Company has generated very little revenue to date and consequently its operations are subject to all risks inherent in the establishment and commercial launch of a new business enterprise.

These factors raise substantial doubt about the Company's ability to continue as a going concern. Management has responded to these circumstances by taking the following actions:

- On-going solicitation of investment in the Company in the form of private placements of common shares, secured and unsecured debt to accredited investors;
- Focused efforts on new business development opportunities to generate incremental revenues and diversify our customer base; and
- Began exploring strategic joint ventures, technology licensing agreements and dedicated contract manufacturing to expand company revenue and cash flow including our recently agreed to joint venture in China.

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

In the opinion of management, these actions should be sufficient to provide the Company with the liquidity it needs to meet its obligations and continue as a going concern. There can be no assurance, however, that the Company will successfully implement these plans. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Accounting Basis

The accompanying unaudited financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations.

In the opinion of management, the accompanying unaudited financial statements contain all adjustments (consisting only of normal recurring accruals) necessary to present fairly the Company's financial position as of September 30, 2013 and March 31, 2013 and the results of operations and cash flows for the three and six month interim periods ended September 30, 2013 and 2012. All interim amounts have not been audited, and the results of operations for the interim periods herein are not necessarily indicative of the results of operations to be expected for future periods or the year. The balance sheet at March 31, 2013 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements. These financial statements should be read in conjunction with the Company's audited financial statements and notes thereto included in the Form 10-K Annual Report of the Company for the year ended March 31, 2013.

Table of Contents*Basic and Diluted Net Loss per Share*

Net loss per share is presented under two formats: basic net loss per common share, which is computed using the weighted

average number of common shares outstanding during the period, and diluted net loss per common share, which is computed using the weighted average number of common shares outstanding, and the weighted average dilutive potential common shares outstanding, computed using the treasury stock method. Currently, for all periods presented, diluted net loss per share is the same as basic net loss per share as the inclusion of weighted average shares of common stock issuable upon the exercise of options and warrants would be anti-dilutive.

The following table summarizes the number of securities outstanding at each of the periods presented, which were not included in the calculation of diluted net loss per share as their inclusion would be anti-dilutive:

	September 30,	
	2013	2012
Common stock options and warrants	9,778,045	10,791,264

Allowance for Doubtful Accounts

An allowance for uncollectible accounts receivable is maintained for estimated losses from customers' failure to make payment on accounts receivable due to the Company. Management determines the estimate of the allowance for uncollectible accounts receivable by considering a number of factors, including: (1) historical experience, (2) aging of accounts receivable and (3) specific information obtained by the Company on the financial condition and the current credit worthiness of its customers. The Company has determined that an allowance was not necessary at September 30, 2013 or March 31, 2013.

Inventories

Inventories are stated at the lower of average cost or market. The carrying value of inventory is reviewed and adjusted based upon slow moving and obsolete items. Inventory costs include material, labor, and manufacturing overhead and are determined by the first-in, first-out (FIFO) method. The components of inventories are as follows:

	September 30,		March 31,	
	2013		2013	
Raw materials and supplies	\$	132,462	\$	64,255
Work in process		22,486		
Finished goods		331,911		474,693
		486,859		538,948

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

Inventory reserves	(55,508)
	\$ 431,351 \$ 538,948

During the six months ended September 30, 2013, we established a lower cost of market reserve of \$55,508 due to expected selling prices being lower than cost. The estimation of the total write-down involves management judgments and assumptions including assumptions regarding future selling price forecasts, the estimated costs to complete, disposal costs and an expected profit margin.

Property, Plant and Equipment

Depreciation of property, plant and equipment is on a straight line basis beginning at the time it is placed in service, based on the following estimated useful lives:

	Years
Machinery and equipment	3 15
Furniture and fixtures	3 10
Engineering equipment	5 12

Leasehold improvements are depreciated over the lesser of the remaining term of the lease or the life of the asset (generally three to seven years).

Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized.

Table of Contents

Expenditures for maintenance and repairs are charged to expense as incurred. Manufacturing equipment was placed into service beginning July 1, 2012.

Intangible Assets

Intangible assets, such as acquired in-process research and development costs, are considered to have an indefinite useful life until such time as they are put into service at which time they will be amortized on a straight-line basis over the shorter of their economic or legal useful life. Management evaluates indefinite life intangible assets for impairment on an annual basis and on an interim basis if events or changes in circumstances between annual impairment tests indicate that the asset might be impaired. The ongoing evaluation for impairment of its indefinite life intangible assets requires significant management estimates and judgment.

Management reviews definite life intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. There were no impairment charges during the six months ended September 30, 2013 or 2012.

Fair Value Measurement

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy prescribed by the accounting literature contains three levels as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

In addition, GAAP requires the Company to disclose the fair value for financial assets on both a recurring and non-recurring basis. On August 31, 2011, the Company issued to certain current and former stockholders of Apollo Diamond Inc. (ADI) that were at that time accredited investors subscription rights valued at \$11,040,000 for the purchase of ADI assets disclosed in Note 2 measured at fair value on a nonrecurring basis. The fair value of the ADI subscription rights was determined based on an appraisal which used the Black-Scholes model whose

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

assumptions were considered by management to be a Level 3 input. During September 2012, the Company issued to certain current and former stockholders of Apollo Diamond Gemstone Corporation (ADGC) that were at the time accredited investors subscription rights valued at \$770,000 for the purchase of ADGC assets disclosed in Note 2 measured at fair value on a nonrecurring basis. The fair value of the ADGC subscription rights was determined using the Black-Scholes model whose assumptions were considered by management to be a Level 3 input.

As of September 30, 2013, the Company had 425,545 warrants outstanding with exercise prices of \$0.70 per share. The warrants expire in 2016 and 2017. The warrants were issued by the Company as compensation for consulting work, placement agent services, and in exchange for cash discounts on facility rent, and are valued at \$0.52 per warrant using the Black-Scholes model. In addition, the Company has 200,000 warrants outstanding with exercise prices of \$1.60 per share. These warrants expire in 2018 and were issued by the Company as compensation to a Board member and an unaffiliated third party for efforts related to the Company's largest customer and were valued at \$0.57 per warrant using the Black-Scholes model.

The carrying value of cash and cash equivalents including restricted cash, accounts receivable, other assets and trade accounts payable approximates fair value due to the short-term nature of these instruments.

Revenue Recognition

We recognize revenue when persuasive evidence of an arrangement exists, delivery of products has occurred, the sales price is fixed or determinable, and collectability is reasonably assured. For our Company, this generally means that we recognize revenue

Table of Contents

when we or our fabrication vendor has shipped finished product to the customer. Our sales terms do not allow for a right of return except for matters related to any manufacturing defects on our part. The Company also maintains a provision for estimating returns and allowances based upon historical experience.

Recent Accounting Pronouncements

There are currently no accounting standards that have been issued but not yet adopted by the Company that will have a significant impact on the Company's financial position, results of operations or cash flows upon adoption.

NOTE 2 ASSET PURCHASES

On June 5, 2012, the Company acquired certain of the assets of ADGC (the ADGC Asset Purchase), consisting primarily of lab-created diamond gemstone-related know-how, inventory, and various intellectual property, in exchange for \$100,000 in cash and the right for certain current and former stockholders of ADGC qualifying as accredited investors to acquire up to approximately 1 million shares of common stock of the Company for \$0.01 per share (the ADGC Offering). The Company paid the \$100,000 cash portion of the ADGC Asset Purchase during the month of December 2012. The ADGC Offering began in June 2012 and was completed in March 2013. The Company obtained a third-party valuation to support the fair value of the assets acquired. This valuation determined a value of \$770,000 for the subscription rights. The amounts allocated to the ADGC assets acquired are based upon the results of that valuation appraisal and the following table reflects our final purchase price allocation of the assets:

Inventory	\$	269,000
In-process research and development		601,000
Total	\$	870,000

The ADGC Offering was completed in March 2013 and resulted in the issuance of an aggregate of 988,380 shares of the Company's common stock.

NOTE 3 INTANGIBLE ASSETS

During the six months ended September 30, 2013, the Company evaluated its patent portfolio and allocated \$601,000 of the previously acquired in-process research and development from the ADGC Asset Purchase to specific patents related to the gemstone market that are being used by the Company for its commercial operations. These patents were considered placed in service by the Company during the quarter ended June 30, 2013 and the values assigned are being amortized on a straight-line basis over the remaining effective lives of the patents.

Intangible assets consist of the following:

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

	Life	September 30, 2013	March 31, 2013
Patents, gross	6.75 19.46	\$ 8,135,063	\$ 7,534,063
In-process research and development	Indefinite	2,250,435	2,851,435
		10,385,498	10,385,498
Accumulated amortization		757,353	369,847
Net intangible assets		\$ 9,628,145	\$ 10,015,651

Total amortization expense for the three and six months ending September 30, 2013 was \$193,753 and \$387,506, respectively. There was no amortization expense for the three and six months ended September 30, 2012.

Total annual amortization expense of finite lived intangible assets is estimated to be as follows:

Fiscal Year Ending	
Six months ending March 31, 2014	\$ 387,506
March 31, 2015	775,011
March 31, 2016	775,011
March 31, 2017	775,011
March 31, 2018	775,011
Thereafter	\$ 3,890,160

NOTE 4 NOTES PAYABLE

On June 21, 2013, the Company entered into a loan agreement (the "Original Loan Agreement") with Platinum Capital Partners, LP ("Platinum") providing for a \$1 million secured revolving line of credit that the Company may draw on to fund working

Table of Contents

capital and other corporate purposes. At September 30, 2013, the Company had utilized a portion of these funds to fund its ongoing operations. Borrowings under the loan agreement accrue interest at the rate of 18% per annum, payable monthly on or before the last calendar day of each month, and a service charge of 3% applies to late payments. The Original Loan Agreement also provides for payment of an accommodation fee of up to 10% of the commitment amount as provided in the loan agreement, and payment of a monthly collateral monitoring fee of \$2,000 per month for the first six months and \$1,000 per month for the last six months of the term of the loan agreement. The credit facility matures on June 20, 2014. The Original Loan Agreement contains a number of restrictions on the Company's business, including restrictions on its ability to merge, sell assets, create or incur liens on assets, make distributions to its shareholders and sell, purchase or lease real or personal property or other assets or equipment. The Original Loan Agreement also contains affirmative covenants and events of default. The Company may prepay borrowings without premium or penalty upon notice to Platinum as provided in the Original Loan Agreement. Under a security agreement entered into in connection with the loan agreement, the Company granted Platinum a first priority security interest in the Company's inventory, equipment, accounts and other rights to payments and intangibles as security for the loan.

The Company had an outstanding balance on this note of \$974,105 at September 30, 2013 and was compliant with all financial debt covenants. The remaining \$25,895 of availability on this note is reserved to make certain interest payments on the note. On October 11, 2013, the Company and Platinum amended the Original Loan Agreement to provide for an additional \$500,000 of borrowing capacity as described in Note 9: Subsequent Events.

NOTE 5 CAPITAL STOCK

The authorized capital of the Company is 75,000,000 common shares with a par value of \$ 0.001 per share.

During the six months ending September 30, 2012, Company issued 2,538,750 units, each consisting of one share of common stock and one warrant for the purchase of a share of common stock at a strike price of \$1.60, at a unit price of \$0.80 for total net cash proceeds of \$1,998,920.

On June 4, 2013 the Company engaged Arque Capital LTD., Maxwell Simon, Inc., and Stonegate Securities, Inc. to provide consulting services in connection with future capital raising activities. The Company issued 165,000, 162,500 and 200,000 shares of its common stock, respectively to each of Arque Capital LTD., Maxwell Simon, Inc. and Stonegate Securities Inc., respectively as partial compensation for these engagements. The Company recognized \$200,450 in expense related to these share issuances.

On September 25, 2013 the Company issued 1,000,000 shares of its common stock to our attorneys Schwegman, Lundberg & Woessner in exchange for \$153,272 of past legal services.

The Company had 50,264,312 shares of common stock issued and outstanding as of September 30, 2013 of which 1,000,000 were held in treasury.

The Company had 5,516,795 warrants outstanding with a weighted average exercise price of \$1.53 per share as of September 30, 2013. No warrants were issued in the six months ended September 30, 2013.

NOTE 6 SHARE-BASED COMPENSATION

The Company currently has one equity-based compensation plan under which stock-based compensation awards can be granted to directors, officers, employees and consultants providing bona fide services to or for the Company. The Company's 2012 Share Incentive Plan was adopted on May 7, 2012 (the 2012 Share Incentive Plan or Plan) and allows the Company to issue up to 5,000,000 share of its common stock pursuant to awards granted under the 2012 Share Incentive Plan. The Plan permits the granting of stock options, stock appreciation rights, restricted or unrestricted stock awards, phantom stock, performance awards, other stock-based awards, or any combination of the foregoing. The only awards that have been issued under the Plan are stock options. Because the Plan has not been approved by our shareholders, all such stock option awards are non-qualified stock options. As of September 30, 2013, 813,750 shares remained available for issuance under the Plan.

On September 25, 2013, the Company granted nine non-executive employees options to purchase a total of 500,000 shares of the Company's stock. These options vest based on the Company meeting various operating metric and cash flow targets. The exercise price of \$0.33 per share is equal to the closing price of a share of the Company's common stock on the date of grant. Using the Black-Scholes option pricing model, management has estimated the options issued on September 25, 2013 had a value of \$0.21 per option on the date of the grant. None of these options were vested upon issuance and the Company recognized no compensation costs for these options as of September 30, 2013.

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

Table of Contents

The assumptions used and the calculated fair value of the September 30, 2013 options are as follows:

Expected dividend yield	0.00%
Risk-free interest rate	.66%
Expected life in years	3.00
Expected volatility	102.3%
Weighted average calculated value of options granted	\$ 0.21

The following sets forth the options to purchase shares of the Company's stock issued and outstanding as of September 30, 2013:

Options	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term
Options Outstanding March 31, 2013	4,092,500	\$ 0.87	2.54
Granted	500,000	0.33	2.99
Exercised			
Expired/cancelled	(406,250)	0.88	
Options Outstanding September 30, 2013	4,186,250	\$ 0.79	1.87
Exercisable at September 30, 2013	1,703,833	\$ 0.82	2.01

Prior to December 2012, the Company's practice was to issue options with exercise prices of \$0.70 or \$0.80 per share which were the prices of recent equity capital investment. However, in December 2012, the Company decided to change the exercise price policy by utilizing the stock market closing price on the day that the options were granted by our Board of Directors. All subsequent exercise prices have been determined in this manner.

The intrinsic value of options outstanding at September 30, 2013 and March 31, 2013 was \$0 and \$299,900, respectively. The intrinsic value of options exercisable at September 30, 2013 and March 31, 2013 was \$0 and \$176,109, respectively.

A summary of the status of non-vested shares as of March 31, 2013 and changes during the six months ended September 30, 2013 is presented below.

Non-vested Shares	Shares	Weighted Average Grant-Date Fair Value
Non-vested at March 31, 2013	2,466,278	\$ 0.65
Granted	500,000	0.21
Vested	(343,750)	0.73
Expired/cancelled: non-vested	(200,000)	0.43
Non-vested at September 30, 2013	2,482,417	\$ 0.57

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

The Company estimates the fair value of options granted on the grant date utilizing the Black-Scholes Option model. For the six months ended September 30, 2013 and 2012, the Company recognized \$133,409 and \$1,267,749, respectively, as compensation cost for options issued, and recorded related deferred tax asset of \$0 for all periods.

At September 30, 2013, unrecognized compensation cost related to non-vested awards was \$1,134,425. This cost is expected to be recognized over a weighted average period of 2.75 years. The total fair value of shares vested during the six months ended September 30, 2013 and 2012 was \$133,409 and \$997,165, respectively.

NOTE 7 RELATED PARTIES

The Company incurred expenses of \$19,658 and \$64,266 for professional and consulting services provided by AdamsMonahan, LLP, a firm in which our board member, Edward S. Adams and former board member Michael R. Monahan, are partners, for the six months ended September 30, 2013 and 2012, respectively. The Company and AdamsMonahan, LLP amicably terminated their professional relationship on June 30, 2013.

On June 5, 2012, the Company acquired substantially all of the assets of ADGC, consisting primarily of cultured diamond gemstone-related know-how, inventory, and various intellectual property, in exchange for \$100,000 in cash and the opportunity for certain current and former stockholders of ADGC that are accredited investors to acquire up to approximately 1 million shares of common stock of the Company for \$0.01 per share. These rights were valued at \$770,000 based on an external appraisal. Mr. Adams

Table of Contents

and Mr. Monahan served in various capacities with ADGC through early 2011.

On March 6, 2013, the Board of Directors retained Mr. Michael Monahan, who at the time was a member of the Company's Board, and Mr. Theo Strous, a current director, to provide consulting services for the Company at a total cost of \$11,000 and \$4,000 respectively, per month. These consulting service agreements with both Messrs. Monahan and Strous were terminated effective June 30, 2013. The Company recognized \$45,000 in consulting expense for these services during the six months ended September 30, 2013.

On May 14, 2013 the Board of Directors created a special committee consisting of Mr. Theo Strous to evaluate a report to the Board of Directors by former counsel to the Company and certain actions of a former member of the Board of Directors and former Company officers. The report was completed at the end of June 2013. The Board of Directors approved the payment of \$25,000 to Mr. Strous as compensation for his service on the special committee.

On March 25, 2013, the Board of Directors agreed to indemnify Messrs. Adams and Monahan for expenses incurred and common stock they provided to settle litigation in May 2012. On May 21, 2013, the Company deemed issued the 1,000,000 shares previously allocated for indemnification of Messrs. Adams and Monahan and on July 2, 2013, the Company entered into an agreement with Mr. Adams to pay out remaining indemnification related liabilities of \$117,305.93 at \$7,500 per month through October 2014.

NOTE 8 LITIGATION

On July 26, 2013, Bernard M. McPheely, Trustee for the Bernard M. McPheely Revocable Trust Dated May 25, 2012, Thomas P. Hartness, Trustee for the Thomas P. Hartness Revocable Trust Dated July 31, 2010, Brian McPheely and Robert Daisley (collectively, plaintiffs), derivatively and on behalf of the Company, filed a complaint in the Court of Common Pleas of the State of South Carolina, County of Greenville against Edward S. Adams (our Chairman), Michael R. Monahan (a former member of the Company's Board of Directors), Robert Linares (a current member of the Board), Theodorus Strous (a current member of the Board) and the law firm of Adams Monahan, LLP (collectively, defendants), and the Company, as a nominal defendant (the Scio Derivative Complaint). Bernard M. McPheely is a former member of the Company's Board of Directors.

The Scio Derivative Complaint alleges (i) against defendants, breach of fiduciary duty, corporate waste and unjust enrichment; (ii) against Messrs. Strous and Linares and Adams Monahan LLP, aiding and abetting a breach of fiduciary duty; (iii) against Messrs. Adams and Monahan, civil conspiracy; (iv) against Messrs. Adams, Monahan and Linares, breach of fiduciary duty controlling shareholder; and (v) against Mr. Strous and Adams Monahan LLP, aiding and abetting a breach of controlling shareholder duty. The allegations relate to, among other things, certain actions allegedly taken by defendants in connection with: the acquisition by the Company of certain assets of Apollo Diamond, Inc. (ADI) (the ADI Asset Purchase); the ADGC Asset Purchase discussed in Note 2 above; the Company's agreement to provide certain current and former stockholders of ADI and ADGC the opportunity to acquire up to approximately 16 million and 1 million shares, respectively, of common stock of the Company for \$0.01 per share (collectively, the ADI/ADGC Offering); the provision of legal services by Adams Monahan LLP to the Company; certain equity issuances by the Company following the ADI/ADGC Offering; certain bonuses and other payments paid to members of the Board of Directors; and certain indemnification obligations undertaken by the Company in favor of Messrs. Adams and Monahan.

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

Plaintiffs are seeking direct and consequential damages sustained by the Company in an amount to be established through proof at trial, plus pre-judgment and post-judgment interest; appropriate equitable relief to remedy the alleged breaches of fiduciary duties; reasonable attorney's fees and costs for the Company incurred in prosecuting the action; and other relief as deemed by the court to be just and proper. The defendants believe the Scio Derivative Complaint to be without merit and are vigorously defending it.

NOTE 9: SUBSEQUENT EVENTS

On October 1, 2013, the Company's Board of Directors approved the issuance of 68,750 stock options to each of Messrs. Adams, Linares, and Strous for their services throughout calendar 2013. The grant is in accordance with the Company's director compensation program that provides 6,250 options to each director for each Board meeting held. All 206,250 options issued have an exercise price of \$0.42 that reflects the Company's closing stock price on the date of grant.

On October 11, 2013, the Company entered into a First Amendment to Loan Agreement (the "First Amendment"), dated October 11, 2013, with Platinum, which amends Original Loan Agreement, as amended by the First Amendment, the "Amended Loan Agreement") to provide for an additional \$500,000 of borrowing capacity (the "Additional Loan" and, together with the original Loan, the "Loan") under the existing \$1 million secured revolving line of credit established under the Original Loan Agreement. The Company may draw on the line to fund working capital. The Additional Loan, which is represented by a Promissory Note dated October 11, 2013 (the "New Note"), matures on June 20, 2014. On October 11, 2013, \$280,750 was drawn on the Additional Loan, \$30,750 of which was retained by Platinum to cover applicable fees.

The Company plans to utilize funds drawn on the Additional Loan to fund its ongoing operations. Borrowings accrue interest at the rate of 18% per annum, payable monthly on or before the last calendar day of each month, and a service charge of 3% applies to late payments. An interest reserve of \$133,500 has been set aside from the proceeds of the New Note to make required payments of interest, provided that interest billed to the Company will first be deducted from a \$90,000 reserve established under the Original Note

Table of Contents

for payments of interest on the Original Note, until that reserve has been exhausted. The Amended Loan Agreement also provides for payment of an accommodation fee of \$25,000 and a closing fee of \$3,250, the amounts of which were retained by Platinum out of amounts drawn on the Additional Loan on October 11, 2013. The Company's obligations under the Amended Loan Agreement are not guaranteed by any other party. The Company may prepay borrowings without premium or penalty upon notice to Platinum as provided in the Amended Loan Agreement. The Loan is secured by a security agreement, under which the Company grants Platinum first priority security interest in the Company's inventory, equipment, accounts and other rights to payments and intangibles as security for the Loan. The New Note provides for monthly interest payments commencing November 2013 and for repayment of all amounts drawn, together with accrued interest, on June 20, 2014.

On October 15, 2013, plaintiff Mark P. Sennott, as Trustee of the Sennott Family Charitable Trust, (Plaintiff) filed a complaint derivatively, on behalf of Apollo Diamond, Inc. (Apollo), in the U.S. District Court for the District of South Carolina, Greenville Division, against Edward S. Adams (our Chairman), Michael R. Monahan (a former member of the Company's Board of Directors), the law firm of Adams Monahan, LLP, Loblolly, Inc., which was formerly known as Scio Diamond Technology Corporation, and the Company (collectively, Defendants). This derivative complaint on Apollo's behalf (the Apollo Derivative Complaint) alleges claims for breach of fiduciary duty, constructive fraud and unjust enrichment. The allegations in the Apollo Derivative complaint are duplicative of the Scio Derivative Complaint allegations concerning Apollo, and repeat almost verbatim the allegations from earlier lawsuits filed and dismissed in 2012 against the Defendants, which were previously disclosed in the Company's Form 10-Q for the six months ended September 30, 2012 and Form 10-K for fiscal year ended March 31, 2013. Plaintiff is seeking direct and consequential damages sustained by Plaintiff in an amount to be established through proof at trial, plus pre-judgment and post-judgment interest; appropriate equitable relief to remedy the allegedly wrongful acts; reasonable attorney's fees and costs incurred in prosecuting the action; and other relief as deemed by the court to be just and proper. The Defendants believe the Apollo Derivative Complaint has no merit and are vigorously defending it.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Information included in this Quarterly Report Form 10-Q contains forward-looking statements that reflect the views of the management of the Company with respect to certain future events. Forward-looking statements made by penny stock issuers such as the Company are excluded from the safe harbor in Section 21E of the Securities Exchange Act of 1934. Words such as expects, should, may, will, believes, anticipates, intends, plans, seeks, estimates and similar expressions or variations of such words, and negatives thereof, are intended to identify forward-looking statements, but are not the exclusive means of identifying forward-looking statements in this report. These forward-looking statements are based on assumptions that may be incorrect, and there can be no assurance that matters anticipated in our forward-looking statements will come to pass.

Forward-looking statements are subject to certain risks and uncertainties which could cause actual results to differ materially from those anticipated. Such risk and uncertainties include, but are not limited to: (1) if the Company is not able to obtain further debt or equity financing, its business operations may fail, (2) the Company has only started generating revenue and has not generated positive operating cash flow, and as a result, faces a high risk of business failure, (3) the Company's lack of diversification increases the risks associated with its business and an investment in the Company, and the Company's financial condition may deteriorate rapidly if it fails to succeed in developing its business, (4) the Company may not effectively execute its business plan or manage its potential future business development, (5) the Company's business could be impaired if it fails to comply with applicable regulations, (6) the Company has experienced substantial turnover of key management personnel and may not be able to attract and retain key management personnel to manage the Company or laboratory scientists to carry out its business operations, which could have a material adverse effect on its business, (7) the Company has expended time and resources in connection with the restatement of its financial statements and other disclosures and the Company may expend a substantial amount of time and resources in connection with responding to potential inquiries or legal actions by the Securities and Exchange Commission, stockholders or other parties, which may impair its ability to raise capital and to operate its business, (8) the Company's revenues have derived primarily from two customers and may continue to be concentrated in the future, and (9) such other risks and uncertainties as have been disclosed or are hereafter disclosed from time to time in the Company's filings with the Securities and Exchange Commission, including, without limitations described under Risk Factors set forth in Part I, Item 1A of the Company's Form 10-K for the fiscal year ended March 31, 2013.

You are cautioned not to place undue reliance on forward-looking statements. You are also urged to review and consider carefully the various disclosures made in the Company's other filings with the Securities and Exchange Commission, including any amendments to those filings. Except as may be required by applicable laws, the Company undertakes no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

GENERAL

Corporate History

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

We were incorporated on September 17, 2009 in the State of Nevada under the name Krossbow Holdings Corporation (Krossbow). Krossbow s original business plan was focused on offsetting carbon dioxide emissions through the creation and protection of forest-based carbon sinks. Krossbow planned to assess carbon resource potentials, prescribe and implement ecosystem restorations to develop those resources, and thereby generate carbon offset products. However, we have since abandoned that original business plan and restructured our business to focus on man-made diamond technology development. We decided to acquire existing technology and to seek to efficiently and effectively produce man-made diamond. In connection with this change in business purpose, Krossbow changed its name to Scio Diamond Technology Corporation to reflect its new business direction.

On August 5, 2011, Edward S. Adams and Michael R. Monahan acquired control of the Company through the purchase of 2,000,000 shares of the Company s issued and outstanding common stock from Jason Kropp, Krossbow s sole director and executive officer at that time, in accordance with a common stock purchase agreement among Mr. Kropp, Mr. Adams and Mr. Monahan. Concurrent with the execution of the stock purchase agreement, Mr. Kropp resigned from all positions with Krossbow, including, but not limited to, that of President, Chief Executive Officer, Chief Financial Officer, Treasurer, Secretary and Director. Mr. Adams currently serves on the Company s Board of Directors and Mr. Monahan also served on the Board until his resignation on June 30, 2013.

On August 5, 2011, the Company executed an Asset Purchase Agreement (the Scio Asset Purchase Agreement) with another privately-held Nevada corporation that also had the name Scio Diamond Technology Corporation (Private Scio). Under

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

Table of Contents

the terms of the Scio Asset Purchase Agreement, the Company purchased the name Scio Diamond Technology Corporation and acquired other rights from Private Scio for 13,000,000 newly issued shares of common stock of the Company. Messrs. Adams and Monahan were directors of Private Scio, and Joseph D. Lancia, our former President and Chief Executive Officer, was an officer of Private Scio, and Messrs. Adams, Monahan and Lancia owned 31.5%, 31.5% and 15.4%, respectively, of Private Scio. Messrs. Adams and Monahan each acquired, directly or indirectly, 4,100,000 shares of our common stock pursuant to the Scio Asset Purchase Agreement, and Mr. Lancia acquired 2,000,000 shares pursuant to the Scio Asset Purchase Agreement.

On August 31, 2011, the Company acquired certain assets of Apollo Diamond, Inc. (ADI) (the ADI Asset Purchase), consisting primarily of diamond growing machines and intellectual property related thereto, for which the Company paid ADI an aggregate of \$2,000,000 in a combination of cash and a promissory note to ADI with a September 1, 2012 maturity date. This promissory note had an outstanding balance of \$125,000 at March 31, 2012 and was paid in full as of March 31, 2013. In connection with the ADI Asset Purchase, the Company also agreed to provide certain current and former stockholders of ADI qualifying as accredited investors the opportunity to acquire up to approximately 16 million shares of common stock of the Company for \$0.01 per share (the ADI Offering). Both Mr. Adams, in an executive role, and Mr. Monahan previously served in various capacities with ADI through early 2011.

On June 5, 2012, the Company acquired substantially all of the assets of Apollo Diamond Gemstone Corporation (ADGC) (the ADGC Asset Purchase), consisting primarily of lab-grown diamond gemstone-related know-how, inventory, and various intellectual property, in exchange for \$100,000 in cash and the opportunity for certain current and former stockholders of ADGC qualifying as accredited investors to acquire up to approximately 1 million shares of common stock of the Company for \$0.01 per share (the ADGC Offering) with the intent that ADI Offering be conducted substantially concurrently with the ADGC Offering (collectively, the ADI/ADGC Offering). Mr. Adams and Mr. Monahan served in various capacities with ADGC through early 2011.

The ADI/ADGC Offering was completed in March 2013 and resulted in the issuance of an aggregate of 16,766,773 shares of the Company's common stock.

On September 16, 2013, the Company entered into a series of agreements with SAAMABA, LLC and S21 Research Holdings (the Grace Rich Agreements) to form a joint venture with operations in the People's Republic of China to deploy 100 Scio designed diamond growing machines. The agreements allow for the expansion of the joint venture to 400 machines. Under the Grace Rich Agreements, the Company has agreed to license its proprietary technology for the manufacture of diamond gemstones of agreed upon specifications. In exchange for the license, the Company will receive licensing and development revenue and a 30% ownership position in the joint venture. In addition to the licensed technology, the Grace Rich Agreements include obligations for the Company to provide and be compensated for technology consulting services to the joint venture to support the start-up of operations. The Company is not required to make any on-going funding contributions to the joint venture and its ownership stake cannot be reduced from 30%.

Business Overview

The Company's primary mission is the development of profitable and sustainable commercial production of its diamond materials, which are suitable for known, emerging and anticipated industrial, technology and consumer applications. The Company intends to pursue progressive development of its core diamond materials technologies and related intellectual property that the Company hopes will evolve into product opportunities across various applications. We believe these opportunities may be monetized through a combination of end product sales, joint ventures and licensing arrangements with third parties, and through continued development of intellectual property. Anticipated application opportunities for the Company's diamond materials include the following: precision cutting devices, diamond gemstone jewelry, power switches,

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

semiconductor processors, optoelectronics, geosciences, water purification, and MRI and other medical science technology.

Nearly all of the Company's present production capacity is being sold for use in precision cutting devices and gemstones. As of September 30, 2013 we had generated \$1,376,963 in net revenue since inception from sales of our diamond materials. To date, most of our product has been sold overseas and 100% of these sales have been to external customers. We expect continued development of an international market for our diamond materials.

RESULTS OF OPERATIONS

Three and Six Month Period Ended September 30, 2013 Compared to the Three and Six Month Period Ended September 30, 2012

During the three month period ended September 30, 2013, we recorded net revenue of \$263,235, compared to \$61,149 in net

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

Table of Contents

revenue during the three months ended September 30, 2012. During the six month period ended September 30, 2013, we recorded net revenue of \$495,215, compared to \$73,101 in net revenue during the six months ended September 30, 2012. The increase in revenue is primarily due to the Company's startup of commercial operations during the three months ended September 30, 2012 and the subsequent continuation of commercial operation, production, and sales activities during the entire six month period ending September 30, 2013. Cost of goods sold was \$533,677 for the three months ended September 30, 2013 versus \$194,421 for the three months ended September 30, 2012. This increase was due to three full months of production during the three months ended September 30, 2013 while initial production was starting up during the three months ended September 30, 2012. With production and sales of manufactured products continuing, we had cost of goods sold expense of \$1,227,787 during the six month period ended September 30, 2013 versus \$212,892 for the six months ended September 30, 2012.

During the three month period ended September 30, 2013, we incurred total operating expenses of \$1,535,446, compared to total operating expenses of \$1,322,069 during the three months ended September 30, 2012. During the six month period ended September 30, 2013, we incurred total operating expenses of \$3,333,040, compared to total operating expenses of \$3,154,684 during the six months ended September 30, 2012. We incurred salary and benefit expense including direct labor costs recorded in cost of goods sold of \$350,415 during the three months ended September 30, 2013 and \$520,406 during the three months ended September 30, 2012. We incurred salary and benefit expense including direct labor costs recorded in cost of goods sold of \$762,306 during the six months ended September 30, 2013 and \$1,864,503 during the six months ended September 30, 2012. This reduction is due to lower stock-based incentive compensation for executive officers of the Company. We incurred \$478,537 in professional and consulting fees including \$233,546 related to ongoing litigation during the three months ended September 30, 2013, compared to \$524,291 for the three months ended September 30, 2012. This reduction was due to lower legal fees recognized during the three months ended September 30, 2013 versus the prior year period. We incurred \$992,899 in professional and consulting fees during the six months ended September 30, 2013, compared to \$749,213 for the six months ended September 30, 2012. This increase was primarily due to consulting fees recognized for stock issued for capital raising services.

Depreciation expense of \$172,926 and \$151,281 was recorded in cost of goods sold during the three months ended September 30, 2013 and 2012, respectively. Depreciation expense of \$345,278 and \$154,757 was recorded in cost of goods sold during the six months ended September 30, 2013 and 2012, respectively. This increase is due to the continuation of manufacturing operations.

Our net loss for three month period ended September 30, 2013 was \$1,341,575, compared to a net loss of \$1,261,676 during the three months ended September 30, 2012. Our net loss for the six month period ended September 30, 2013 was \$2,884,771, compared to a net loss of \$3,083,175 during the six months ended September 30, 2012.

We have continued to generate limited revenue to offset our expenses, and so we have incurred net losses. Our net loss per share for the three month period ended September 30, 2013 was (\$0.03) per share, compared to a net loss per share of (\$0.04) for the six months ended September 30, 2012. Our net loss per share for the six month period ended September 30, 2013 was (\$0.06) per share, compared to a net loss per share of (\$0.10) for the six months ended September 30, 2012. The weighted average number of shares outstanding was 49,319,257 and 33,495,227, respectively, for the three month periods ended September 30, 2013 and 2012. The weighted average number of shares outstanding was 48,820,118 and 30,024,828, respectively, for the six month periods ended September 30, 2013 and 2012.

FINANCIAL CONDITION

At September 30, 2013, we had total assets of \$14,181,349, compared to total assets of \$15,256,450 at March 31, 2013. We had cash of \$6,822 at September 30, 2013 compared to cash of \$223,257 at March 31, 2013. The decrease in cash is due to cash used in operations for the six months ended September 30, 2013.

Total liabilities at September 30, 2013 were \$2,388,954, compared to total liabilities of \$1,066,544 at March 31, 2013. Total liabilities at September 30, 2013 were comprised primarily of accounts payable and accrued expenses and notes payables. The increase in total liabilities is primarily due to an increase in accounts payable and borrowings under our note payable.

Total shareholders' equity was \$11,792,395 at September 30, 2013, compared to \$14,189,906 at March 31, 2013. Shareholders' equity decreased \$2,397,511 during the period due to our operating net loss offset by common stock issued for services.

CASH FLOWS

Operating Activities

We have not generated positive cash flows from operating activities. For the six month period ended September 30, 2013, net

Table of Contents

cash flows used in operating activities were \$1,084,028 consisting primarily of a net loss of \$2,884,771 offset by depreciation and changes in assets and liabilities, compared to net cash flows used in operating activities for the six months ended September 30, 2012 of \$1,832,125. The primary reason for this decrease in cash used in operating activities is the Company's commencement of operations and revenue generation and changes in working capital.

Investing Activities

For the six month period ended September 30, 2013, net cash used in investing activities was \$22,536, consisting of the purchase of property, plant and equipment. Net cash used in investing activities was \$909,081 for the six months ended September 30, 2012. This reduction in cash used in investing activities is due to ongoing operational status of our assets in the six months ended September 30, 2012 versus the start-up status of our operations during the six months ended September 30, 2012.

Financing Activities

We have financed our operations primarily through the issuance of equity and debt securities. For the six month periods ended September 30, 2013 and September 30, 2012, we generated \$890,129 and \$3,731,160, respectively, from financing activities.

LIQUIDITY AND CAPITAL RESOURCES

We expect that working capital requirements will continue to be funded through a combination of our existing funds, further issuances of securities, and future credit facilities or corporate borrowings. Our working capital requirements are expected to increase in line with the growth of our business. Effective June 21, 2013, we entered into a \$1,000,000 secured credit facility with Platinum Capital Partners, LP (Platinum) to provide near-term liquidity for working capital requirements. This credit facility was increased by an additional \$500,000 of borrowing capacity on October 11, 2013 as described in Note 9: Subsequent Events.

Existing cash of \$6,822 as of September 30, 2013, is not expected to be adequate to fund our operations through the end of the fiscal year ending March 31, 2014. As of September 30, 2013, other than our agreement with Platinum, we had no lines of credit or other bank financing arrangements. We are pursuing on-going solicitations of investments in the Company in the form of private placements of common shares, secured debt and unsecured debt to accredited investors to provide addition liquidity and working capital requirements.

Additional issuances of equity or convertible debt securities will result in dilution to our current stockholders. Such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on commercial acceptable terms, if at all, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

MATERIAL COMMITMENTS AND ARRANGEMENTS

On June 21, 2013, the Company entered into a loan agreement with Platinum providing for a \$1 million secured revolving line of credit that the Company may draw on to fund working capital and other corporate purposes. As of September 30, 2013, \$974,105 was outstanding on this facility. The Company plans to utilize these funds to fund our ongoing operations. Borrowings under the loan agreement accrue interest at the rate of 18% per annum, payable monthly on or before the last calendar day of each month, and a service charge of 3% applies to late payments. The loan agreement also provides for payment of an accommodation fee of up to 10% of the commitment amount as provided in the loan agreement, and payment of a monthly collateral monitoring fee of \$2,000 per month for the first six months and \$1,000 per month for the last six months of the term of the loan agreement. The credit facility matures on June 20, 2014. The loan agreement contains a number of restrictions on our business, including restrictions on our ability to merge, sell assets, create or incur liens on assets, make distributions to its shareholders and sell, purchase or lease real or personal property or other assets or equipment. The loan agreement also contains affirmative covenants and events of default. The Company may prepay borrowings without premium or penalty upon notice to Platinum as provided in the loan agreement. Under a security agreement entered into in connection with the loan agreement, we granted Platinum a first priority security interest in the Company's inventory, equipment, accounts and other rights to payments and intangibles as security for the loan. This credit facility was increased by an additional \$500,000 of borrowing capacity on October 11, 2013 as described in Note 9: Subsequent Events

On June 30, 2013, the Consulting Agreements, dated March 6, 2013 (the Consulting Agreement), between the Company and Michael R. Monahan and Theo Strous were terminated effective June 30, 2013. Pursuant to the Consulting Agreements, Messrs. Monahan and Strous had been providing certain management and consulting services, as well as other services, to the Company. The Company did not incur any early termination penalties in connection with the termination of the Consulting Agreements.

Table of Contents

On September 16, 2013, the Company entered into the Grace Rich Agreements with SAAMABA, LLC and S21 Research Holdings to form a joint venture with operations in the People's Republic of China to deploy 100 Scio designed diamond growing machines. The agreements allow for the expansion of the joint venture to 400 machines. Under the Grace Rich Agreements, the Company has agreed to license its proprietary technology for the manufacture of diamond gemstones of agreed upon specifications. In exchange for the license, the Company will receive licensing and development revenue and a minority ownership position in the joint venture. In addition to the licensed technology, the Grace Rich Agreements include obligations for the Company to provide and be compensated for technology consulting services to the joint venture to support the start-up of operations.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Quarterly Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

CRITICAL ACCOUNTING POLICIES

We have adopted various accounting policies that govern the application of accounting principles generally accepted in the United States (GAAP). We describe our significant accounting policies in the notes to our audited financial statements filed with our Form 10-K for the fiscal year ended March 31, 2013.

Some of the accounting policies involve significant judgments and assumptions by us that have a material impact on the carrying value of our assets and liabilities. We consider these accounting policies to be critical accounting policies. The judgment and assumptions we use are based on historical experience and other factors that we believe to be reasonable under the circumstances. Because of the nature of the judgments and assumptions we make, actual results could differ from these judgments and estimates and could materially affect the carrying values of our assets and liabilities and our results of operations.

The following is a summary of the more judgmental estimates and complex accounting principles, which represent our critical accounting policies.

Asset Purchases

On June 5, 2012, we completed the ADGC Asset Purchase and we paid the \$100,000 cash portion of the purchase price during the month of December 2012. We obtained a third-party valuation to support the fair value of the assets acquired. This valuation determined a value of \$770,000 for the subscription rights. The amounts allocated to the ADGC assets acquired are based upon the results of that valuation appraisal and the following table reflects our final purchase price allocation of the assets:

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

Inventory	\$	269,000
In-process research and development		601,000
Total	\$	870,000

The ADGC Offering was completed in March 2013 and resulted in the issuance of an aggregate of 988,380 shares of our common stock.

We believe that the acquisition of these assets from ADGC was not the acquisitions of a business within the definition set forth in GAAP or Rule 11-01(d).

Property, Plant and Equipment

Depreciation of property, plant and equipment is on a straight line basis beginning at the time it is placed in service, based on the following estimated useful lives:

	Years
Machinery and equipment	3 15
Furniture and fixtures	3 10
Engineering equipment	5 12

Table of Contents

Leasehold improvements are depreciated at the lesser of the remaining term of the lease or the life of the asset (generally three to seven years).

Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred.

Intangible Assets

Intangible assets, such as acquired in-process research and development (IPRD) costs, are considered to have an indefinite useful life until such time as they are put into service at which time they will be amortized on a straight-line basis over the shorter of their economic or legal useful life. Management's estimate of useful life of any patents when placed in service is a critical judgment. Management evaluates indefinite life intangible assets for impairment on an annual basis and on an interim basis if events or changes in circumstances between annual impairment tests indicate that the asset might be impaired. The ongoing evaluation for impairment of its indefinite life intangible assets requires significant management estimates and judgment. Management reviews definite life intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. There were no impairment charges as of September 30, 2013.

During the six months ended September 30, 2013, management of the Company conducted a strategic review of its intellectual property portfolio and determined that a portion of the portfolio should be considered for placement in service due to the Company's recent entrance into the gemstone marketplace. As a result, intangible assets in the amount of \$601,000 previously classified as IPRD were assigned to specific patents and considered placed in service. These patents are being amortized over a period ranging from 16.33 to 19.46 years corresponding to their remaining life.

The Company continues to classify the remaining patent portfolio as IPRD and believes that the IPRD has alternative future use and value. At such time that production begins and commercialization of this portion of the intellectual property portfolio begins, then the segmentation and bifurcation of the remaining IPRD asset to finite-lived commercialized intellectual property assets will be considered. Applicable accounting guidance requires an indefinite life for IPRD assets until such time as the commercialization can be reasonably estimated at which time the assets will be available for their intended use. At such time as those requirements are met, we believe that consideration of the legal life of the intellectual property protection should be of considerable importance in determining the useful life. Upon commercialization and determination of the useful life of the intellectual property assets, consideration will be given to the eventual expiration of the intellectual property rights underlying certain critical aspects of our manufacturing process.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Disclosure controls and procedures refer to controls and other procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. As of September 30, 2013, we carried an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Exchange Act Rule 13a-15. We applied our judgment in the process of reviewing these controls and procedures, which, by their nature, can provide only reasonable assurance regarding our control objectives. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were not effective as of September 30, 2013.

Remediation of Material Weaknesses in Internal Controls over Financial Reporting

In connection with the evaluation described above and prior evaluations, the current management team identified material weaknesses in our internal control over financial reporting as of September 30, 2013, in the following areas:

Table of Contents

- Lack of a functioning audit committee due to a lack of a majority of independent members and a lack of a majority of outside directors on our board of directors, resulting in ineffective oversight in the establishment and functioning of required internal controls and procedures; and
- While the Company utilizes outside accounting resources to assist with its financial reporting due to our small size there is limited segregation of duties in certain areas of our financial reporting and other accounting processes and procedures.

A material weakness (within the meaning of PCAOB Auditing Standard No. 5) is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of our financial reporting.

During the period covered by this quarterly report on Form 10-Q, we have not been able to remediate the material weaknesses identified above. The effectiveness of efforts the Company has made to remediate the identified material weaknesses have been limited by turnover of the Chief Executive Officer and Chief Financial Officer positions. We have taken steps to enhance and improve the design of our internal control over financial reporting, and we plan to take additional steps during our fiscal year ending March 31, 2014, including the implementation of the following changes:

- Adding one or more independent directors and establishing an audit committee; and
- Implementation of documented control structure and related procedures.

Changes in Internal Controls

Other than described above in connection with our ongoing remediation efforts, there were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during our quarter ended September 30, 2013, that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Bernard M. McPheely resigned from the Board of Directors on May 14, 2013. The Company believes that Mr. McPheely and other former officers and a former professional services provider engaged in a prolonged pattern of activity and behavior which the Company believes likely may have violated such parties fiduciary duties to the Company, the Company's Code of Ethics, various aspects of Nevada and South Carolina corporate and/or civil law, South Carolina criminal law, and Federal and state securities laws. The Company is evaluating the remedies available to it in connection with such violations.

On July 26, 2013, Bernard M. McPheely, Trustee for the Bernard M. McPheely Revocable Trust Dated May 25, 2012, Thomas P. Hartness, Trustee for the Thomas P. Hartness Revocable Trust Dated July 31, 2010, Brian McPheely and Robert Daisley (collectively, plaintiffs), derivatively and on behalf of the Company, filed a complaint in the Court of Common Pleas of the State of South Carolina, County of Greenville against Edward S. Adams (our Chairman), Michael R. Monahan (a former member of the Company's Board of Directors), Robert Linares (a current member of the Board), Theodorus Strous (a current member of the Board) and the law firm of Adams Monahan, LLP (collectively, defendants), and the Company, as a nominal defendant (the Scio Derivative Complaint). Bernard M. McPheely is a former member of the Company's Board of Directors.

The Scio Derivative Complaint alleges (i) against defendants, breach of fiduciary duty, corporate waste and unjust enrichment; (ii) against Messrs. Strous and Linares and Adams Monahan LLP, aiding and abetting a breach of fiduciary duty; (iii) against Messrs. Adams and Monahan, civil conspiracy; (iv) against Messrs. Adams, Monahan and Linares, breach of fiduciary duty controlling shareholder; and (v) against Mr. Strous and Adams Monahan LLP, aiding and abetting a breach of controlling shareholder duty. The allegations relate to, among other things, certain actions allegedly taken by defendants in connection with: the acquisition by the Company of certain assets of Apollo Diamond, Inc. (ADI) (the ADI Asset Purchase); the ADGC Asset Purchase discussed in Note 2 above; the Company's agreement to provide certain current and former stockholders of ADI and ADGC the opportunity to acquire up to approximately 16 million and 1 million shares, respectively, of common stock of the Company for \$0.01 per share (collectively, the ADI/ADGC Offering); the provision of legal services by Adams Monahan LLP to the Company; certain equity issuances by the Company following the ADI/ADGC Offering; certain bonuses and other payments paid to members of the Board of Directors; and certain indemnification obligations undertaken by the Company in favor of Messrs. Adams and Monahan.

Plaintiffs are seeking direct and consequential damages sustained by the Company in an amount to be established through proof at trial, plus pre-judgment and post-judgment interest; appropriate equitable relief to remedy the alleged breaches of fiduciary duties; reasonable attorney's fees and costs for the Company incurred in prosecuting the action; and other relief as deemed by the court to be just and proper. The Company and its Board of Directors considers this action to be an improper and unlawful continuation of Mr. McPheely's (and others) attempts to usurp the Board's authority and to gain control of the Company for the purpose of enriching himself and others at the expense of and to the detriment of the Company's shareholders. The Board of Directors is evaluating the claim in order to determine how to proceed. At present, the defendants believe this action to be without merit and are vigorously defending it.

On October 15, 2013, plaintiff Mark P. Sennott, as Trustee of the Sennott Family Charitable Trust, (Plaintiff) filed a complaint derivatively, on behalf of Apollo Diamond, Inc. (Apollo), in the U.S. District Court for the District of South Carolina, Greenville Division, against Edward S. Adams (our Chairman), Michael R. Monahan (a former member of the Company's Board of Directors), the law firm of Adams Monahan, LLP, Loblolly, Inc., which was formerly known as Scio Diamond Technology Corporation, and the Company (collectively, Defendants). This derivative complaint on Apollo's behalf (the Apollo Derivative Complaint) alleges claims for breach of fiduciary duty, constructive fraud and

Edgar Filing: Scio Diamond Technology Corp - Form 10-Q

unjust enrichment. The allegations in the Apollo Derivative complaint are duplicative of the Scio Derivative Complaint allegations concerning Apollo, and repeat almost verbatim the allegations from earlier lawsuits filed and dismissed in 2012 against the Defendants, which were previously disclosed in the Company's Form 10-Q for the six months ended September 30, 2012 and Form 10-K for fiscal year ended March 31, 2013. Plaintiff is seeking direct and consequential damages sustained by Plaintiff in an amount to be established through proof at trial, plus pre-judgment and post-judgment interest; appropriate equitable relief to remedy the allegedly wrongful acts; reasonable attorney's fees and costs incurred in prosecuting the action; and other relief as deemed by the court to be just and proper. The Defendants believe the Apollo Derivative Complaint has no merit and are vigorously defending it.

ITEM 1A. RISK FACTORS

Not applicable (the Company is a smaller reporting company).

Table of Contents

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Unless otherwise indicated, the issuances were made in reliance on an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended (the Securities Act), as we reasonably believed that the recipients were sophisticated, that no general solicitations were involved and these transactions did not otherwise involve a public offering.

On September 25, 2013 the Company issued 1,000,000 shares of its common stock to our attorneys Schwegman, Lundberg & Woessner in exchange for \$153,272 of past legal services.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.
