Item 1.01 Entry into a Material Definitive Agreement.

Securities Purchase Agreements

On March 18, 2019 (the Execution Date), Jaguar Health, Inc. (the Company) began entering into securities purchase agreements (each, a Securities Purchase Agreement) with selected accredited investors (each, an Investor), pursuant to which the Company intends to issue up to \$5.5 million aggregate principal amount of promissory notes (collectively, the Notes) to such Investors. The Company will use the proceeds for working capital and other general corporate purposes. The initial offering closed on March 18, 2019, and as of March 21, 2019, \$800,000 aggregate principal amount of Notes were issued in offerings and the proceeds from such offerings were paid to the Company.

The Notes bear interest at the rate of 12% per annum and mature on July 18, 2019 (the Maturity Date). Each Note is subject to a right to purchase by Sagard Capital Partners, L.P. and its affiliates (collectively, Sagard), pursuant to which Sagard may elect, within 5 business days of providing notice thereof to the holder such Note, to purchase all or any portion of such Note and all accrued interest thereon.

At the time of entering into a Securities Purchase Agreement, an Investor may elect to purchase either a Note that is subject to a mandatory exchange provision (each a 125% Coverage Note) or a Note that is not subject to a mandatory exchange provision but is otherwise substantially the same as the 125% Coverage Note (each, a 75% Coverage Note). The mandatory exchange provision in the 125% Coverage Notes provides that, at the Company's option upon the consummation of an underwritten public offering by the Company on or before the Maturity Date (the Public Offering) of the Company's common stock (Common Stock), the principal amount of the 125% Coverage Notes plus any unaccrued interest thereon will be mandatorily exchanged into shares of Common Stock (the Exchange Shares) at a price equal to the per share price at which the Company issues Common Stock in the Public Offering (the Exchange Price), subject to adjustment for reorganization, recapitalization, non-cash dividend, stock split, reverse stock split or other similar transaction. Upon such exchange, the 125% Coverage Notes would be deemed repaid and terminated.

As an inducement to enter into the Securities Purchase Agreement, (i) each holder of 75% Coverage Notes will receive a 5-year warrant (the 75% Coverage Warrant) to purchase shares of Common Stock (the Warrant Shares) in an amount equal to 75% of the principal amount of such holder's 75% Coverage Note divided by the Exercise Price (as defined below) and (ii) each holder of 125% Coverage Notes will receive a 5-year warrant (the 125% Coverage Warrant) and, together with the 75% Coverage Warrant, the Warrants) to purchase Warrant Shares in an amount equal to 125% of the principal amount of such holder's 125% Coverage Note divided by the Exercise Price. The exercise price for the 75% Coverage Warrant and 125% Coverage Warrant is the price per share at which the Company issues Common Stock in the Public Offering, provided that if the Company has not consummated a Public Offering by the Maturity Date, then the exercise price will be equal to the closing sales price of the shares of Common Stock on the Maturity Date, in each case subject to adjustment for reclassification of the Common Stock, non-cash dividend, stock split, reverse stock split or other similar transaction (the Exercise Price).

Under the Securities Purchase Agreements, the Company is subject to certain restrictive covenants, including a covenant restricting the Company's right to pay dividends or otherwise make any payment or distribution in respect of the Company's capital stock, subject to certain limited exceptions, without the prior written consent of the holders of the Notes. In addition, the Company is required to use 100% of the net amount of any outside investments received by the Company (excluding product sales revenue) for repayment of the Notes.

The Company and each Investor have contractually agreed to restrict the Company's ability to exchange the 125% Coverage Notes and such Investor's ability to exercise the Warrants such that the total cumulative number of number of Exchange Shares and Warrant Shares that may be issued to the Investors after such exchange or exercise does not exceed 19.99% of the Company's then total issued and outstanding shares of Common Stock (the Exchange Cap), unless stockholder approval is obtained to issue more shares than the Exchange Cap. The Exchange Cap

shall be appropriately adjusted for any reorganization, recapitalization, non-cash dividend, stock split, reverse stock split or other similar transaction.

The Company makes certain customary representations and warranties and has agreed to customary covenants and obligations. The Securities Purchase Agreements and the Notes contain customary events of default upon the occurrence and during the continuance of which the noteholder will have the right to redeem the Notes at an amount equal to the outstanding balance immediately due prior to such event of default plus accrued and unpaid interest thereon. Following an event of default, interest shall accrue at a rate of 1.5% per month (18% annual) until paid.

Registration Rights Agreements

In connection with the transactions described above, the Company also entered into registration rights agreements with the Investors (collectively, the Registration Rights Agreements), pursuant to which the Company agreed to register the Warrant Shares and the Exchange Shares, as applicable. The Company is required to file a registration statement for the resale of such securities within 60 calendar days following the Maturity Date and to use reasonable best efforts to cause such registration statement to be declared effective within 180 days following the Maturity Date.

The Company also agreed to other customary obligations regarding registration, including piggyback registration rights, indemnification and maintenance of the effectiveness of the registration statement.
