Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(e) Amended and Restated Deferred Income Plan

On November 19, 2015, The Laclede Group, Inc. (“Laclede”) Board of Directors, upon the recommendation of the Compensation Committee, adopted and approved The Laclede Group, Inc. Deferred Income Plan, as Amended and Restated as of January 1, 2016 (the “Deferred Income Plan”). The Deferred Income Plan is an amendment and restatement of Laclede’s Deferred Income Plan for Directors and Selected Executives, as Amended and Restated as of January 1, 2015 (the “2015 DIP”). The Deferred Income Plan affords eligible directors and selected employees of Laclede (including its named executive officers) and its designated subsidiaries and affiliates the ability to defer the receipt of a portion of their compensation, which will accrue earnings, with such deferrals forming the basis for benefits upon termination, death or disability. The Deferred Income Plan will become effective as of January 1, 2016.

The Deferred Income Plan amends and restates the 2015 DIP with the following features, among others:

- revises the interest that may be earned on deferrals made on and after January 1, 2016 by creating two investment methods, including:
 - investment options selected by the participant from a menu of investment options that mirrors certain investment options available under the 401(k) retirement plans sponsored by Laclede or its affiliates; or
 - a fixed interest rate using the Moody’s corporate bond average rate (“Moody’s Rate”), subject to a maximum earnings credit equal to 120% of the long-term applicable federal rate for the month of the October falling in the immediately prior plan year.
 - allows directors to defer up to 100% of fees and retainers;
 - for deferrals made on or before December 31, 2015, provides earnings (“Earning Credits”) on the deferrals based on Moody’s Rate, plus employer contributions (“Employer Contributions”) made by Laclede based on a contribution percentage (the “Employer Contribution Rate”) ranging from 1% to 3%, which percentage varies depending on the age of the participant at the beginning of that plan year, provided that the Employer Contribution Rate will be increased above 1% to 3% so that the Moody’s Rate plus the Employer Contribution Rate meets a certain minimum total rate ranging from 6% to 9% depending on the age of the participant at the beginning of that plan year;
 - for deferrals made on or after January 1, 2016, there is no guaranteed minimum interest rate;
 - provides death and disability income benefits that are payable in a lump sum following termination of employment due to total disability or death;
 - provides retirement income benefits under the plan payable in annual installments over a 15-year period;
 - provides a lump sum payment to the participant in the event of termination within two years following a change in control. The lump sum payment will be equal to the sum of the participant’s accrued account balance and the present value of Employer Contributions and Earning Credits that would have been made or earned on such accrued account balance through age 65 (or age 71 for directors), based on the Moody’s Rate and Employer Contribution Rate then in effect, subject to a minimum rate of 7%;
-

allows for participants to elect to take an in-service distribution in five, 10 or 15 years for deferrals made on or after January 1, 2016; and

clarifies the payout calculation methodologies for payments under the Deferred Income Plan.

The foregoing description of the Deferred Income Plan is qualified in its entirety by reference to the provisions, including defined terms, of the Deferred Income Plan, which is filed herewith as Exhibit 10.1 to this Current Report on Form 8-K, and incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.
(d) Exhibits.
