Cautionary Note Regarding Forward-Looking Statements

This announcement contains forward-looking statements that address our expected future business and financial performance. These forward-looking statements are based on current expectations, estimates, forecasts and projections of future Company or industry performance, based on management's judgment, beliefs, current trends and market conditions, and involve risks and uncertainties that may cause actual results to differ materially from those contained in the forward-looking statements. Accordingly, we caution you not to place undue reliance on these statements. Particular uncertainties that could materially affect future results include our ability to integrate and realize the expected benefits from our acquisition of LSI Corporation (LSI); loss of our significant customers; global economic conditions and concerns; cyclicity in the semiconductor industry or in our target markets; quarterly and annual fluctuations in operating results; fluctuation in the timing and volume of customer demand; increased dependence on the volatile, wireless handset market and on the enterprise storage market; delays, challenges and expenses associated with integrating acquired companies, including LSI and PLX Technology, Inc. (PLX), with our existing businesses and our ability to achieve the growth prospects and synergies expected from acquisitions we may make, including our recent acquisitions of LSI and PLX; our competitive performance and ability to continue achieving design wins with our customers, as well as the timing of those design wins; market acceptance of the end products into which our products are designed; our ability to sell to new types of customers and to keep

pace with technological advances; rates of growth in our target markets; failure to complete our planned asset dispositions, including the sale of LSI's flash businesses and the sale of the Axxia products business; the significant indebtedness incurred by us in connection with the LSI acquisition, including the need to generate sufficient cashflows to service and repay such debt; our dependence on contract manufacturing and outsourced supply chain and our ability to improve our cost structure through our manufacturing outsourcing program; prolonged disruptions of our or our contract manufacturers' manufacturing facilities or other significant operations; our dependence on outsourced service providers for certain key business services and their ability to

execute to our requirements; our ability to maintain or improve gross margin; our ability to maintain tax concessions in certain jurisdictions; our ability to protect our intellectual property and any associated increases in litigation expenses; dependence on and risks associated with distributors of our products; any expenses or reputational damage associated with resolving customer product and warranty and indemnification claims; and other events and trends on a national, regional and global scale, including those of a political, economic, business, competitive and regulatory nature. Our Report on Form 10-Q filed on June 10, 2014 and our other filings with the Securities and Exchange Commission, or SEC (which you may obtain for free at the SEC's website at <http://www.sec.gov>) discuss some of the important risk factors that may affect our business, results of operations and financial condition. We undertake no intent or obligation to publicly update or revise any of these forward looking statements, whether as a result of new information, future events or otherwise, except as required by law.
