COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The Company's Executive Compensation Committee determines the compensation of the Company's executive officers. The only individuals who served as a member of the Executive Compensation Committee during the fiscal year ended October 31, 2001 are the current members of the committee. The current members of the Executive Compensation Committee are Carl B. Marbach and Paul E. Shapiro, neither of whom is an officer or employee, or former officer, of the Company or any subsidiary of the Company. The Executive Compensation Committee administers the Cash Bonus Plan, the Executive Officer Cash Bonus Plan and the Company's stock option plans and determines the salaries of the Chief Executive Officer, the Chief Operating Officer and Chief Financial Officer.

In order to help provide for an orderly market in the Company's common stock in the event of the death of either Robert I. Toll or Bruce E. Toll (the "Tolls"), or both of them, the Company and the Tolls have entered into agreements in which the Company has agreed to purchase from the estate of each of the Tolls \$10 million of the Company's common stock (or a lesser amount under certain circumstances), at a price equal to the greater of fair market value (as defined) or book value (as defined). Each of the Tolls has agreed to allow the Company to purchase \$10 million of life insurance on his life. In addition, each of the Tolls has granted to the Company, at no cost to it, an option to purchase up to an additional \$30 million (or a lesser amount under certain circumstances) of common stock from his estate. The agreements expire in October 2005.

11

In addition to the performance of their duties for the Company, the Tolls have engaged, and continue to engage, in certain other businesses in real estate. These businesses include the purchase, sale and management of townhome, apartment, condominium, commercial and industrial real estate projects for rental. The Company leases, at what it believes to be competitive market rates, certain office space from a business controlled by Robert I. Toll, Bruce E. Toll, Zvi Barzilay and Joel H. Rassman. During the last fiscal year, the Company paid to such business approximately \$57,000 in rent. The Company provided services to other businesses controlled by the Tolls during the fiscal year, which were billed at cost and paid throughout the year. The largest amount due the Company from these businesses at any time during the year was approximately \$12,000. No amounts were due the Company from these businesses at October 31, 2001. These transactions are reviewed and monitored by the Audit Committee. In addition to the foregoing, Mr. Robert I. Toll has agreed, with the approval of the Executive Compensation Committee, to reimburse the Company for one-half of the costs of an employee of the Company who provides Mr. Toll with investment advice.

In order to take advantage of commercial real estate opportunities which may present themselves from time to time, the Company formed Toll Brothers Realty Trust (the "Trust") in 1998. The Trust is effectively owned one-third by the Company, one-third by a number of senior executives and/or directors, including Robert I. Toll, Bruce E. Toll (and certain members of his family), Zvi Barzilay (and certain members of his family) and Joel H. Rassman, and one-third by the Pennsylvania State Employees Retirement System (collectively, the "Trustholders"). In June 2000, the Trustholders entered into an agreement pursuant to which the owner(s) of each one-third interest agreed to invest additional capital in an amount not to exceed \$9,259,000 if required by the Trust. As of January 31, 2002, no additional capital investment had been required pursuant to this commitment, which expires in June 2002. At October 31, 2001, the Company's investment in the Trust was \$7,471,000.

Edgar Filing: TOLL BROTHERS INC - Form DEF 14A

The Company provides development, finance and management services to the Trust. During fiscal 2001, the Company earned \$1,672,000 in fees for these services. The Company also incurs certain costs on behalf of the Trust for which the Company is reimbursed by the Trust. These fees and reimbursements were paid to the Company throughout the year. The amount due the Company for fees and reimbursements as of October 31, 2001, was approximately \$200,000. The largest amount due the Company from the Trust at any time during the last fiscal year was approximately \$564,000.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

BASIC POLICY CONSIDERATIONS

The Company's compensation policies with respect to its executive officers, established by the Board's Executive Compensation Committee, are based on the principles that compensation should, to a significant extent, reflect the financial performance of the Company and the executive, and that a significant portion of executive officers' compensation should provide long-term incentives. It is the policy of the committee to set executive compensation at levels that are sufficiently competitive so that the Company will attract, retain and motivate the highest quality individuals to contribute to the Company's goals, objectives and overall financial success. Methods of compensation are designed

12

to provide incentives for executive performance that results in continuing improvements in the Company's financial results or condition, over both the short-term and the long-term, and to encourage continued service to the Company. A significant portion of executives' incentive compensation is paid in stock options and stock awards in order to align executive and shareholder interests. The compensation of each executive officer is based largely upon both individual and Company performance.

The compensation program is comprised of two elements: (a) annual salary and possible short-term incentive awards in the form of cash bonuses, and (b) a long-term incentive program (principally stock options and a stock based feature of the Cash Bonus Plan) where the level of compensation is dependent on the performance of the Company's common stock. The details of this compensation program, with specific discussion of the programs applicable to the Chief Executive Officer, are set out below.

ANNUAL COMPENSATION - EXECUTIVE OFFICERS OTHER THAN CHIEF EXECUTIVE OFFICER

The Executive Compensation Committee sets compensation by subjective evaluation of the individual performance of each executive and by marketplace valuations of comparable executives, although salary determinations are not based upon any specific or constant criteria.

Executives are eligible for annual incentive cash bonuses. The awards for the Chief Operating Officer and Chief Financial Officer are awarded under the Company's Executive Officer Cash Bonus Plan. These awards are not intended to be in addition to market level compensation but instead are designed to cause a significant part of an executive's annual compensation to be dependent on the committees' assessment of the executive's performance based upon a set of goals established by the committee for each executive. The goals established by the committee include such factors as the executive's contributions to the Company's economic and strategic objectives, the efforts required of the executive and the

Edgar Filing: TOLL BROTHERS INC - Form DEF 14A

executive's ability to develop, execute and implement short-term and long-term corporate goals.

LONG-TERM COMPENSATION STOCK OPTIONS

The stock option component of the executive officers' compensation has been designed to provide executives with incentives for the enhancement of stockholder value by growing the earnings and book value of the Company. Options are granted at fair market value on the date of grant and generally vest over a number of years, usually not less than four years. The options have significant restrictions, for a typical period of three years from the date of grant, on the executive officer's ability to exercise the options and sell the shares acquired upon exercise without the consent of the appropriate stock option subcommittee. No constant criteria are used year after year in the granting of stock options. For stock option awards for executive officers, the Executive Compensation Committee makes a subjective determination of the effectiveness of the executive and the extent of the executive's contributions to the Company's success and, based on that determination, option grants, if any, are awarded to each executive. Because the options are granted with exercise prices equal to the fair market value of the underlying common stock on the date of grant, any value that ultimately accrues to the executive is based entirely upon the Company's performance, as perceived by investors who establish the market price for the common stock.

13

2001 COMPENSATION FOR CHIEF EXECUTIVE OFFICER

In 1990, the Board of Directors decided that salary, bonus and option grants for the Company's Chief Executive Officer, Robert I. Toll, should be determined pursuant to objective measurements, including appropriate performance criteria in addition to compensation that reflects market rates for comparable executives. Since 1995, the base salary for Robert I. Toll has been determined by a formula intended to increase his base salary by no less than the increase in the Consumer Price Index (as defined, using U.S. Department of Labor definitions) and by no more than the average percentage increase in compensation of the five highest percentage compensation increases of the Company's next ten most highly compensated employees for the adjustment year. For 1998, Mr. Toll agreed to limit the increase in his base salary to an amount that would result in his base salary not exceeding \$1,000,000. In addition, for 1999, 2000, 2001 and 2002, Mr. Toll waived any increases in his base salary. Had Mr. Toll not waived his rights, and had he received the maximum increases provided by the formula, his base salary for 2002 would be \$1,718,000.

During the period 1990 through 2001, cash bonuses for Robert I. Toll have been determined based on the formula contained in the Company's Cash Bonus Plan approved by Stockholders in 1994 and amended with Stockholder approval in 1997 and 1999. Under the Cash Bonus Plan, Mr. Toll received for fiscal 2001 a bonus equal to the sum of (a) 1.5% of the Company's income before income taxes (as defined in the Cash Bonus Plan) for fiscal 2001 to the extent such income was greater than 10% and less than or equal to 20% of Stockholders' equity (as defined in the Cash Bonus Plan) of the Company as of the end of fiscal 2000, plus (b) 2.0% of the Company's income before income taxes for fiscal 2001 to the extent such income was greater than 20% and less than or equal to 30% of Stockholders' equity of the Company as of the end of fiscal 2000, plus (c) 2.25% of the Company's income before income taxes for fiscal 2001 to the extent such income was greater than 30% of Stockholders' equity of the Company as of the end of fiscal 2000. This method of compensation ties Mr. Toll's compensation to various indicators of the Company's performance. During the past five years, this method generated cash bonus calculations that were 20% higher for 1997 than for 1996, 32% higher for 1998 than for 1997, 6% higher for 1999 than for 1998,

Edgar Filing: TOLL BROTHERS INC - Form DEF 14A

70% higher for 2000 than for 1999 and 56% higher for 2001 than for 2000, before consideration of the stock award feature described below.

The Executive Compensation Committee and the Board of Directors determined that by obtaining the agreement of the Chief Executive Officer to accept his bonus in shares of the Company's stock rather than in cash, the interests of the Chief Executive Officer and the Stockholders would be further aligned. Accordingly, the Executive Compensation Committee and the Board of Directors amended the Cash Bonus Plan on December 10, 1998, subject to Stockholder approval, which was given at the 1999 Annual Meeting of Stockholders, to provide that (a) all bonus payments made under the Cash Bonus Plan with respect to the Cash Bonus Plan years ending October 31, 1999, October 31, 2000, and October 31, 2001 would be paid in shares of common stock, which payments would be in the form of an award under the terms of the 1998 Plan; and (b) the number of shares of common stock awarded pursuant to the aforementioned provisions of the Cash Bonus Plan would be determined by dividing the dollar amount of each bonus (as determined in accordance with the Cash Bonus Plan) by \$24.25 (the fair market value of a share of common stock on December 10, 1998, the effective date of the agreement, determined in accordance with the provisions of the 1998 Plan for determination of fair market value). Payment of the cash bonus to Robert I. Toll for the 2001 fiscal year was made in the form of an award of shares of common stock, which as of the end of the fiscal year had a market value of \$31.16 per

14

share and an aggregate market value of \$6,855,000. If this bonus had been paid in cash instead of stock, Mr. Toll would have received \$5,152,000. Under the terms of the Company's Stock Award Deferral Plan, Mr. Toll elected to defer receipt of his 2001 stock award shares.

In 2000, the Executive Compensation Committee and the Board of Directors, with the assistance of an independent compensation consultant, reviewed the provisions of the Cash Bonus Plan to determine whether it was in the best interest of the Company to amend the Cash Bonus Plan. The Executive Compensation Committee and the Board of Directors continued to believe that tying the value of the bonus of Robert I. Toll to the stock price is a valuable incentive to align the interests of Mr. Toll with those of the Stockholders. Accordingly, the Executive Compensation Committee and the Board of Directors amended the Cash Bonus Plan on December 14, 2000, subject to Stockholder approval, which was given at the 2001 Annual Meeting of Stockholders, to provide that (a) all bonus payments made under the Cash Bonus Plan with respect to the Cash Bonus Plan years ending October 31, 2002, October 31, 2003, and October 31, 2004 will be paid in shares of common stock, which payments will be in the form of an award under the terms of the 1998 Plan; (b) the number of shares of common stock awarded pursuant to the aforementioned provisions of the Cash Bonus Plan will be determined by dividing the dollar amount of each bonus (as determined in accordance with the Cash Bonus Plan) by \$38.625 (the fair market value of a share of common stock, determined as of December 20, 2000 in accordance with the provisions of the 1998 Plan for determination of fair market value); (c) the Executive Compensation Committee will have the discretion to terminate the application of the provision of the Cash Bonus Plan described in subparagraphs (a) and (b) of this paragraph at any time, effective no sooner than six months after such decision to terminate is made by the Executive Compensation Committee, in which event all bonuses payable on or after the effective date of such termination will be payable in cash only; and (d) upon receipt of a request by Robert I. Toll, based on his concerns regarding adverse tax consequences to him, the Executive Compensation Committee may, in its sole discretion, suspend the application of the stock award provisions described in subparagraphs (a) and (b) of this paragraph, provided that such action will not cause any increase in the amount or value of a bonus that would otherwise be payable under the Cash Bonus Plan. In the event of suspension of the stock award provisions, all

Edgar Filing: TOLL BROTHERS INC - Form DEF 14A

bonuses will be payable only in cash until such time as the Executive Compensation Committee determines to reinstate the stock award provisions.

The Cash Bonus Plan was further amended to provide Mr. Toll with cash bonus awards for fiscal years ending October 31, 2002 and each year thereafter equal to the sum of (a) 1.5% of the Company's income before income taxes (as defined in the Cash Bonus Plan) to the extent such income for the fiscal year for which the bonus is being calculated to the extent such income was greater than 10% and less than or equal to 20% of stockholders' equity (as defined in the Cash Bonus Plan) of the Company as of the end of the preceding fiscal year for which the bonus is being calculated, plus (b) 3.0% of the Company's income before income taxes (as defined in the Cash Bonus Plan) to the extent such income for the fiscal year for which the bonus is being calculated to the extent such income was greater than 20% and less than or equal to 30% of stockholders' equity as of the end of the preceding fiscal year for which the bonus is being calculated, plus (c) 6% of the Company's income before income taxes to the extent such income for the fiscal year for which the bonus is being calculated is greater than 30% of stockholders' equity of the Company as of the end of preceding fiscal year for which the bonus is being calculated.

15

The Cash Bonus Plan is intended to provide bonuses that will be treated as "performance based compensation" exempt from the limitations on deductibility imposed under Section 162(m) of the Code.
