##### Consolidated Ratio of Earnings to Fixed Charges

The information contained in the Prospectus under the caption "Consolidated Ratio of Earnings to Fixed Charges" is hereby amended in its entirety, as follows:

| <u>Year Ended December 31,</u> |             |             |             |             |
|--------------------------------|-------------|-------------|-------------|-------------|
| <u>2004</u>                    | <u>2005</u> | <u>2006</u> | <u>2007</u> | <u>2008</u> |
| 1.82                           | 1.66        | 1.63        | 1.56        | 1.24        |

For purposes of computing the consolidated ratio of earnings to fixed charges, earnings consist of net earnings adjusted for the provision for income taxes, minority interest and fixed charges.

Fixed charges consist of interest and discount on all indebtedness and one-third of rentals, which we believe is a reasonable approximation of the interest factor of such rentals.
