## INTRODUCTION

This proxy solicitation comes to you for one very important reason. Your fund, (MNP) Salomon Brothers Municipal Partners Inc. and/or (MPT) Salomon Brothers Municipal Partners II Inc. is asking you to approve a new Management Agreement for each Fund. Karpus Investment Management (KIM) believes that for over 10 years stockholders of the Fund(s) have not received the full economic benefit of their investment that was outlined in the original prospectus. You as stockholders of the Fund have the opportunity NOW to make Fund Management sit-up and pay attention!

1. Termination of the Management Agreement with Citigroup Inc. the parent company of the Fund's investment adviser, Salomon Brothers Asset Management.

The Fund(s) are seeking your permission to approve a new management agreement for the Fund. It is the belief of Karpus Investment Management that the stockholders of the Fund are entitled to receive an economic benefit at this time, before the transaction would occur.

Karpus Investment Management believes that the shareholders of the Fund(s) are not receiving the economic benefits that they are entitled to receive. According to the original prospectus of the Fund(s), the Board of Directors, in consultation with the Investment Manager and the Investment Advisor, will review on an annual basis the possibility of open market repurchases and/or tender offers for the common stock. The purpose of these actions would be to manage the discount at which the Fund(s) trade. KIM is not aware of any record of this consideration.

The original prospectus of the Fund(s) stated: "...if at any time following the second year after this offering the Common Stock publicly trades for a substantial period of time at a substantial discount from the Fund's then current net asset value per share, the Board of Directors will consider, at its next regularly scheduled meeting, taking various actions designed to eliminate the discount, which may include recommending to holders of Common Stock amendments to the Fund's charter to convert the Fund to an open-end investment company." This statement clearly indicates the original intent of the Fund(s) to address persistent share value discounts from net asset value and protect the investors' economic interests. Notwithstanding the Fund(s)' stated policy, persistent discounts have been tolerated without appropriate action for the past 10 plus years.

KIM believes the current Fund Management and the Board of Directors of the Fund(s) have not taken adequate measures to close the discount to net asset value that the Fund(s) have historically maintained. KIM further believes that the Fund and Board of Directors have been negligent in their duty to adhere to the Fund's own stated objectives by not vigilantly taking steps to eradicate the discount and improve the economic well being of the shareholders.

The following table illustrates the historic discount of the Fund(s) based on twelve month periods - June 30 to June 30. Source of Data Bloomberg Inc.

**MNP and MPT  
Average Discount Each Year**

			<u>MNP</u>	<u>MPT</u>
6/30/1995	to	6/30/1996	-15.35%	-16.44%
6/30/1996	to	6/30/1997	-13.19%	-14.53%
6/30/1997	to	6/30/1998	9.55%	-10.28%
6/30/1998	to	6/30/1999	7.92%	9.92%
6/30/1999	to	6/30/2000	-13.79%	-13.00%
6/30/2000	to	6/30/2001	-12.87%	-11.65%
6/30/2001	to	6/30/2002	-12.06%	-10.35%
6/30/2002	to	6/30/2003	-11.93%	-11.73%
6/30/2003	to	6/30/2004	-10.85%	-10.74%
6/30/2004	to	6/30/2005	-11.97%	-12.27%

Additionally the Fund(s) have been plagued by low trading volume. Large shareholders who do not agree with the approval of the new management contract could be forced to sell shares in the market and could potentially depress the market price causing the discount to widen further.

This would create economic harm to both the shareholders selling their shares and possibly could cause future damage to shareholders that stayed with the Fund(s).

It is also the belief of KIM that any shareholder that has sold shares in the market place since 1995 has been economically harmed by the severe share value discount to net asset value. KIM believes that the Board of Directors has not fulfilled its fiduciary duty to the shareholders because it did not take the steps outlined in the original prospectus that could make the market price and net asset value equal.

**Average Daily Volume for the following time spans**

			<u>MNP</u>	<u>MPT</u>
6/30/1995	to	6/30/1996	11,580	14,527

6/30/1997	to	6/30/1998	9,434	10,380
6/30/1998	to	6/30/1999	7,684	11,028
6/30/1999	to	6/30/2000	10,747	12,409

6/30/2003	to	6/30/2004	6,237	6,017
6/30/2004	to	6/30/2005	8,905	6,776

It is the opinion and belief of KIM that the persistent discount has caused the low trading volume which has further harmed the stockholders of the Fund(s).

II. To vote against approving a new Investment Management contract with Legg Mason, Inc.

We as stockholders of the Fund(s) have no confidence that a new Investment Management contract will address the severe discount to net asset value at which the Fund(s) have historically traded. We are not being asked to elect a new Board of Directors at this time. The present Board, which has failed to manage the discount of the Fund(s), will remain in with the Fund(s) at this point.

As long time shareholders of the Fund, KIM believes that adequate time has expired for the Board to take action. We have no reason to believe that a change in investment managers will result in action to address the trading discount.

The Fund(s) presently has provisions in its articles of incorporation and bylaws which limit the ability of other entities or persons to acquire control of the portfolio or to modify its structure. They include the following:

Tiered Board Structure. The Board of Directors is classified into three classes, each with a term of three years with only one class of Directors standing for election in any year. This prevents replacement of a majority of Directors for up to a two year period. In effect this means that if KIM wanted to propose new "Independent" Directors to the Fund, it would take at least 2 years to install a majority of the Board.

Super-Majority Voting Requirements to Remove Directors. Directors can be removed for cause and only by a vote of 75% of the outstanding shares entitled to vote on the matter.

Super-Majority Voting Requirements to Take Certain Action. The Fund cannot be converted from a closed-end to an open-end investment company without the approval of 75% of the Fund's Directors. In addition, unless 75% of the Fund's non-interested Directors approve the transaction, the affirmative vote of the holders of at least 75% of the shares will be required to authorize any of the following transaction: (i) merger, consolidation or share exchange of the portfolio with or into any other corporation; (ii) dissolution or liquidation of the portfolio, (iii) sale, lease, exchange or other disposition of all or substantially all of the assets of the portfolios; (iv) change in the nature of the business of the portfolio so that it would cease to be an investment company registered under the 1940 Act; or (v) sale, lease or exchange to the portfolio, in exchange for securities of the portfolio, of any assets of any entity or person (except assets having an aggregate fair market value of less than \$1,000,000). The affirmative vote of at least 75% of the shares will be required to amend the articles of incorporation or bylaws to change any of the foregoing provisions.

The Fund discloses in its own prospectus that the percentage votes required under the above provisions are greater than the minimum requirements under Maryland law or the 1940 Act. The Fund further discloses that these provisions "could have the effect of depriving shareholders of an opportunity to sell shares at a premium over prevailing market prices by discouraging a third party from seeking to obtain control of the fund in a tender offer or similar transaction."

***KIM BELIEVES THAT BY NOT APPROVING THE NEW MANAGEMENT CONTRACT WITH LEGG MASON, INC, STOCKHOLDERS OF THE FUND(S) HAVE THE ABILITY TO FORCE THE PRESENT BOARD OF DIRECTORS TO MEET STOCKHOLDER EXPECTATIONS OUTLINED IN THE ORIGINAL PROSPECTUS.***

***It is the opinion of KIM that this may be the only chance for stockholders to receive the economic benefit that they are entitled to, NET ASSET VALUE!***

**Salomon Brothers Municipal Partners Fund (MNP)**

**III. KIM requests that the Board of Directors of the Fund authorize the Fund to conduct a tender offer for up to 25% of the outstanding shares of the Fund at net asset value.**

Supporting Statement

Karpus Investment Management believes that the Board of Directors has neglected their fiduciary duties in managing the discount to net asset value to the shareholders for various reasons discussed in this proxy statement. KIM submitted to MNP and MPT the above listed shareholder proposal to be included in any and all of the Fund(s) proxy materials. The supporting statement for each Fund is cited below.

According to the original prospectus, the Board of Directors, in consultation with the Investment Manager and the Investment Advisor, will review on an annual basis the possibility of further open market repurchases and/or tender offers for the common stock.

The Fund manager has provided exceptional asset performance to shareholders, but has yet to close the discount to net asset value. Net asset performance from June 30, 2004 through June 30, 2005 has been 9.19% versus Morningstar Intermediate Municipal Fund return of 5.49% and Lehman 7 Year Municipal Index return of 5.91%. Yet the Fund continues to trade at a discount to net asset value!

KIM believes the current Fund Management and Board of Directors of MNP have not taken adequate measures to close this discount. For the time period of June 30, 2004 through June 30, 2005, MNP traded at an average discount of 11.97%. MNP has traded at a significant discount to NAV since 1994, over 10 years. What steps have been taken to close this discount?

The original prospectus stated that: "...if at any time following the second year after this offering the Common Stock publicly trades for a substantial period of time at a substantial discount from the Fund's then current net asset value per share, the Board of Directors will consider, at its next regularly scheduled meeting, taking various actions designed to eliminate the discount, which may include recommending to holders of common stock amendments to the fund's charter to convert the Fund to an open-end investment company." This clearly dictates the original intent not to allow the Fund to trade at significant discounts, protecting investors' economic interest in the Fund. Why has the Board ignored this intent to the detriment of shareholders? Every shareholder that has sold shares in the last 10 + years in the market place received less for their shares than they were entitled to.

Additionally, MNP is plagued by low trading volume. From June 30, 2004 through June 30, 2005 average daily volume has been 8,905 shares. Large shareholders who do not agree with the possible changes in the Fund management contract and who may wish to liquidate their positions could severely depress the Fund's market price because of persistently low volume.

The Fund manager has provided exceptional asset performance to shareholders, but has yet to close the discount to net asset value. KIM believes the current Fund Management and Board of directors of MPT have not taken adequate measures to close this discount. For the time period of June 30, 2004 through June 30, 2005, MPT traded at an average discount of 12.27%. MPT has traded at a significant discount to NAV since 1994, over 10 years.
