Item 1.01 Entry into a Material Definitive Agreement.

Chemtura Corporation announced today that it has signed an asset purchase agreement to sell its EPDM business; all Rubber Chemicals businesses associated with Geismar, Louisiana; and Flexzone® antiozonants worldwide to Lion Copolymer, LLC, an affiliate of Lion Chemical Capital, LLC. The transaction, which is expected to close by the end of the first quarter, is subject to certain conditions, including regulatory approvals, financing and a comprehensive financial audit. Chemtura will use the proceeds for the recently completed purchase of specialty lubricant producer Kaufman Holdings.

Subject to government approval and the actual completion of the sale, Lion also will purchase Chemtura’s interest in Chemtura-CNCCC Danyang Chemical Co., Ltd. After the sale, Lion will have complete responsibility for the company, including operation of the Danyang, China, facility, which produces rubber chemicals. The approximately 190 employees who work at the Geismar and Danyang facilities are expected to become Lion employees, as are the approximately 25 sales, marketing and R&D personnel related to the businesses being sold.

Chemtura will continue to manufacture other rubber chemicals at a number of facilities around the world and will market them through its existing sales and distribution network and appropriate marketing agreements.

The EPDM and Rubber Chemicals businesses being sold had revenues for the 12 months ended September 30, 2006 of approximately \$300 million. The transaction will be slightly dilutive to Chemtura’s 2006 and 2007 earnings.

A copy of a press release announcing the Company’s signing of the asset purchase agreement for the sale of its EPDM and certain rubber chemicals businesses is attached hereto as Exhibit 99.1 and is incorporated by reference herein.

A copy of the Asset Purchase and Sale Agreement by and among Chemtura Corporation, various Chemtura Corporation subsidiaries and Lion Copolymer, LLC dated as of February 3, 2007 is attached hereto as Exhibit 10.1 and is incorporated by reference herein.
