SUMMARY INFORMATION

This summary highlights information contained elsewhere in this Prospectus. You should read the entire Prospectus carefully, including, the section entitled "Risk Factors" before deciding to invest in our common stock. American Racing Capital, Inc. is referred to throughout this Prospectus as "ANRC", "American Racing Capital", "ARCI", "Company", "we", "us", or "our".

Our Company

American Racing Capital, Inc. (the "Company") was originally incorporated under the laws of the State of Nevada on September 8, 1998 as Mega Health Corporation. On June 23, 1999, the name of the corporation was changed to Altrimega Health Corporation ("Altrimega"). On October 17, 2005, the Company entered into two Share Exchange Agreements with American Racing Capital, Inc., a Nevada company ("ARCI") and the shareholders of ARCI and ARC Development Corporation, a Nevada corporation ("ARCD") and the shareholders of ARCD, respectively. As a result of these share exchange transactions, ARCI and ARCD became wholly-owned subsidiaries of the Company. In October 2005, the Company adopted a new strategy focused on the business of auto racing and motorsports. Since then, the Company has been pursuing business opportunities that further its presence into the field of auto racing and motorsports.

On November 21, 2006, the Company entered into a Shareholders Agreement, by and among Motorsports & Entertainment of Tennessee, Inc., a Nevada corporation ("MET") and a majority-owned subsidiary of ARC (51%), and LJ&J Enterprises, Inc., a Pennsylvania corporation and minority shareholder of MET (40%). Simultaneously with the execution of the Shareholders Agreement, MET entered into a Stock Purchase Agreement with LJ&J Enterprises of Tennessee, Inc., a Tennessee corporation ("LJ&J") to purchase eighty percent (80%) of common stock in LJ&J (the "LJ&J Stock"). LJ&J holds the management and concessions contract for auto racing and special events at the "Music City Motorplex", located on the Tennessee State Fairgrounds in downtown Nashville, Tennessee. The Company completed the first part of the acquisition whereby it acquired forty percent (40%) of the LJ&J Stock, effective as of January 1, 2007, and anticipates completing the second part of the acquisition in the second quarter of 2007. Music City Motorplex is a 5/8th's mile paved NASCAR sanctioned short-track, highly steeped in tradition. Located on 115 acres of the Tennessee State Fairgrounds just two miles from the center of downtown Nashville, this facility hosts NASCAR sanctioned events from March through October. Revenues will proceed from existing track operations, concessions and some special events. Build-outs will include attractions such as a family fun entertainment-zone, concerts, additional city sanctioned events, and growing special attractions. Through LJ&J, we now operate one race track.

The Company's business operations have also included marketing and consulting services in the areas of automotive dealer networks and the design and development of racing facilities.

Going Concern

As reflected in the Company's Financial Statements and Note 2 to the Financial Statements which accompany this Prospectus, the Company's accumulated deficit of \$5,361,997 and its working capital deficiency of \$398,510 raise substantial doubt about its ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company's ability to raise additional debt or capital. The financial statements for December 31, 2006 do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

To successfully grow the individual segments of the business, we must decrease our cash burn rate, improve our cash position and the revenue base of each segment, and succeed in our ability to raise additional capital through a combination of primarily public or private equity offering or strategic alliances. We also depend on certain contractors and our executives, and the loss of any of those contractors or executives, may harm our business.

**DISCLOSURE REGARDING OUR RECENT FINANCING AND CONVERSION OF NOTES AND
EXERCISE OF WARRANTS**

Terms of Financing Documents

Securities Purchase Agreement

On July 25, 2006 (the “Issuance Date”), we entered into a Securities Purchase Agreement with AJW Capital Partners, LLC, AJW Offshore, Ltd., AJW Qualified Partners, LLC and New Millennium Capital Partners II, LLC (the “Investors”), whereby the Investors purchased an aggregate of (i) \$2,000,000 in Callable Secured Convertible Notes (the “Notes”) and (ii) warrants to purchase 10,000,000 shares of our common stock (the “Warrants”). The Investors will purchase the Notes and Warrants in three (3) tranches as set forth below:

1. At closing on July 26, 2006 (“Closing”), the Investors purchased Notes aggregating \$700,000 and Warrants to purchase 10,000,000 shares of CMEG common stock;
2. On September 12, 2006, the Investors purchased Notes aggregating \$600,000; and

3. Upon effectiveness of this Registration Statement, the Investors will purchase Notes aggregating \$700,000.

Under the Securities Purchase Agreement, we are obligated to pay all costs and expenses incurred by us in connection with the negotiation, preparation and delivery of the transaction documents, as well as the costs associated with registering the common shares underlying the Notes being offered in this Prospectus.

Future Capital Raising Limitations. The Company may not, without the prior written consent of a majority-in-interest of the Investors, negotiate or contract with any party to obtain additional equity financing (including debt financing with an equity component) involving the following:

1. Issuance of common stock at a discount to the market price of such stock;
2. Issuance of convertible securities that are convertible into an indeterminate number of shares of Common Stock; or
3. Issuance of warrants during the "Lock-Up Period." The Lock-up Period begins on the Closing Date and extends until the later of (i) two hundred seventy (270) days from the Closing Date; or, (ii) one hundred eighty (180) days from the date the Registration Statement is declared effective (plus any days in which sales cannot be made thereunder).

In addition, Investors have a right of first refusal of any future equity offerings (including debt with an equity component) for the period beginning on the Closing and ending two (2) years after the end of the Lock-up Period (the "Right of First Refusal"). The Right of First Refusal provides each Buyer an option to purchase its pro rata share of the securities being offered in the future offering on the same terms as contemplated by such Future Offering.

Notwithstanding the above, such limitations shall not apply to any transaction involving:

1. issuances of securities in a firm commitment underwritten public offering (excluding a continuous offering pursuant to Rule 415 under the 1933 Act, an equity line of credit or similar financing arrangement) resulting in net proceeds to the Company of in excess of \$15,000,000; or
2. issuances of securities as consideration for a merger, consolidation or purchase of assets, or in connection with any strategic partnership or joint venture (the primary purpose of which is not to raise equity capital), or in connection with the disposition or acquisition of a business, product or license by the Company.

The limitations also shall not apply to the issuance of securities upon exercise or conversion of the Company's options, warrants or other convertible securities outstanding as of the date hereof or to the grant of additional options or warrants, or the issuance of additional securities, under any Company stock option or restricted stock plan approved by the shareholders of the Company.

Furthermore, the limitations shall not apply in the event the Company's Board of Directors decides, in good faith, to enter into a transaction or relationship in which the Company issues shares of Common Stock or other securities of the Company to a person or any entity which is, itself or through its subsidiaries, an operating company in a business synergistic with the business of the Company and in which the Company received benefits in addition to the investment of funds, but shall not include a transaction in which the Company is issuing securities primarily for the purpose of raising capital or to an entity whose business is investing in securities.

Liquidated Damages. We are liable to pay liquidated damages in shares or cash, at our election, equal to 3% of the outstanding amount of the Notes per month plus accrued and unpaid interest if we breach any (i) covenant set forth in the Securities Purchase Agreement, including the failure to comply with blue sky laws, timely file all public reports, use the proceeds from the sale of the Notes in the agreed upon manner, obtain written consent from the Investors to negotiate or contract with a party for additional financing, reserve and have authorized the required number of

common shares or maintain the listing or quotation of our common shares on an exchange or automated quotation system; or (ii) representation or warranty regarding the condition of our company set forth in the Securities Purchase Agreement.

3

Security Agreement and Intellectual Property Security Agreement

In connection with the Securities Purchase Agreement and as security for the Notes, we executed a Security Agreement and an Intellectual Property Security Agreement granting the Investors a continuing security interest in, a continuing first lien upon, an unqualified right to possession and disposition of, and a right of set-off against, in each case to the fullest extent permitted by law, all of the Company's right, title and interest in all of our goods, inventory, contractual rights and general intangibles, receivables, documents, instruments, chattel paper, and intellectual property. Under the Security Agreement and Intellectual Property Security Agreement, events of default occur upon:

- The occurrence of an event of default (as defined in the Notes and listed below) under the Notes;
- Any representation or warranty we made in the Security Agreement or in the Intellectual Property Security Agreement shall prove to have been incorrect in any material respect when made;
- The failure by us to observe or perform any of our obligations under the Security Agreement or Intellectual Property Security Agreement for ten (10) days after receipt of notice of such failure from the Investors; and

· Any breach of, or default under, the Warrants.

Warrants

Exercise Terms and Limitation. We simultaneously issued to the Investors seven (7) year Warrants to purchase 10,000,000 shares of our common stock at an exercise price of \$0.30. The Investors have contractually agreed to restrict their ability to exercise the Warrants and receive shares of our common stock such that the number of shares of our common stock held by them and their affiliates after such exercise does not exceed 4.99% of the then issued and outstanding shares of our common stock.

Cashless Exercise. If the shares of common stock underlying the Warrants are not registered, then the Investors are entitled to exercise the Warrants on a cashless basis without paying the exercise price in cash. In the event that the Investors exercise the Warrants on a cashless basis, then we will not receive any proceeds.

Anti-Dilution. The Warrants' exercise price will be adjusted in certain circumstances such as if we issue common stock at a price below market price, except for any securities issued in connection with the Notes, if we pay a stock dividend, subdivide or combine outstanding shares of common stock into a greater or lesser number of shares, or take such other actions as would otherwise result in dilution of the Investors' position.

Notes

Interest, Maturity and Conversion. The Notes bear interest at 6% per annum, mature three (3) years from the issuance date, and are convertible into shares of our common stock at the applicable percentage of the average of the lowest three (3) intraday trading prices for our shares of common stock during the twenty (20) trading day period prior to conversion, but not including the conversion date. The "Applicable Percentage" means 50%; provided, however, that the Applicable Percentage shall be increased to (i) 55% in the event that a Registration Statement is filed within thirty (30) days of the closing, and (ii) 60% in the event that the Registration Statement is declared effective by the SEC. The "Applicable Percentage" was amended to 45% on April 18, 2007.

In the event of full conversion of the aggregate principal amount of the Notes of \$2,000,000, we would have to register a total of 13,698,630 shares of common stock. This amount is calculated as follows:

Edgar Filing: American Racing Capital, Inc. - Form SB-2

The aggregate principal amount of the Notes is \$2,000,000. The estimated conversion price of the Notes is \$0.109 based on the following: \$0.243 was the average of the lowest three (3) intraday trading prices for our shares of common stock during the twenty (20) trading days prior to the Issuance Date ("Average Common Stock Price"), less a 55% discount. Thus, at a discounted price-per-share of \$0.109, 18,348,624 shares of the Company's common stock would be issuable upon conversion of \$2,000,000 into common shares of the Company ("Conversion Shares") and would be registered.

There is no limit to the number of shares that we may be required to issue upon conversion of the Notes as it is dependent upon our share price, which varies from day to day. This could cause significant downward pressure on the price of our common stock. The following table shows the effect on the number of shares issuable upon full conversion, in the event the common stock price declines by 25%, 50% and 75% from the trading price on the date of the Closing.

	Price Decreases By			
	7/26/2006	25%	50%	75%
Average Common Stock Price (as defined above)	\$ 0.243	\$ 0.182	\$ 0.122	\$ 0.061
Conversion Price	\$ 0.109	\$ 0.082	\$ 0.055	\$ 0.027
100% Conversion Shares	18,348,624	24,390,244	36,363,636	74,074,074

Conversion Limitation. The Investors have contractually agreed to restrict their ability to convert the Notes and receive shares of our common stock such that the number of shares of our common stock held by them and their affiliates after such conversion does not exceed 4.99% of the then issued and outstanding shares of our common stock.

Call Option. The Notes have a call option, which provides us with the right to prepay the Notes in the event that no event of default exists, there are a sufficient number of shares available for conversion of the Notes and the market price is at or below \$0.25 per share. Prepayments are to be made in cash equal to either (i) 120% of the outstanding principal and accrued interest for prepayments occurring within 30 days following the issue date of the Notes; (ii) 130% of the outstanding principal and accrued interest for prepayments occurring between 31 and 60 days following the issue date of the Notes; and (iii) 140% of the outstanding principal and accrued interest for prepayments occurring after the 60th day following the issue date of the Notes. To exercise this right, we must provide to the note holders prior written notice no less than 3 trading days before the exercise date.

Partial Call Option. In the event that the average daily price of the common stock for each day of the month ending on any determination date is below \$0.25, we have a partial call option which provides us with the right to prepay a portion of the outstanding principal amount of the Notes equal to 101% of the principal amount hereof divided by thirty-six (36) plus one month's interest. Exercise of this option will stay all conversions for the following month. The full principal amount of the Notes is due upon default under the terms of Notes. In addition, we have granted the Investors a security interest in substantially all of our assets and intellectual property as well as registration rights.

Anti-Dilution. The Notes' conversion price will be adjusted in certain circumstances such as if we issue common stock at a price below market price, except for any securities issued in connection with the Notes, if we pay a stock dividend, subdivide or combine outstanding shares of common stock into a greater or lesser number of shares, or take such other actions as would otherwise result in dilution of the Investors' position.

Default. An "Event of Default" occurs if we:

- Fail to pay the principal or interest when due;
- Fail to issue shares of common stock upon receipt of a conversion notice;
- Fail to file a registration statement within 45 days following the Closing or fail to have the registration statement effective 135 days following the Closing;
- Breach any material covenant or other material term or condition in the Notes or the Securities Purchase Agreement;
- Breach any representation or warranty made in the Securities Purchase Agreement or other document executed in connection with the financing transaction;
- Fail to maintain the listing or quotation of our common stock on the OTCBB or an equivalent exchange, the Nasdaq National Market, the Nasdaq SmallCap Market, the New York Stock Exchange, or the American Stock Exchange;
- Apply for or consent to the appointment of a receiver or trustee for us or any of our subsidiaries or for a substantial part of our of our subsidiaries' property or business, or such a receiver or trustee shall otherwise be appointed;
- Have any money judgment, writ or similar process shall be entered or filed against us or any of our subsidiaries or any of our property or other assets for more than \$50,000, and shall remain unvacated, unbonded or unstayed for a period of twenty (20) days unless otherwise consented to by the Investors;

· Institute or have instituted against us or any of our subsidiaries any bankruptcy, insolvency, reorganization or liquidation proceedings or other proceedings for relief under any bankruptcy law or any law for the relief of debtors; or

· Default under any Note issued pursuant to the Securities Purchase Agreement.

Amendment of Notes and Issuance of Additional Warrants

On April 18, 2007 (the “Second Issuance Date”), we entered into an Amendment of Notes with the Investors. Whereby we agreed to lower the Applicable Percentage of the Notes to 45% and agreed to issue to the Investors an additional 1,000,000 Warrants under the same terms conditions as the original Warrants, except that the exercise price. In consideration for the additional Warrants and increased discount, the Company is not currently in default under the terms of the Notes.

Value of Shares Underlying Notes

The maximum aggregate dollar value of the 2,187,133 shares of common stock underlying the Notes that the Company has registered for resale is \$238,398. This number is based on 1/3 of our 6,441,398 non-affiliate outstanding common shares issued and outstanding as of April 23, 2007 and the estimated conversion price per share of \$0.109 (\$0.243 was the average of the lowest three (3) intraday trading prices for our common shares during the twenty (20) trading days prior to the date the Notes were issued on July 25, 2006, less a 40% discount).

The market price for the Company’s common stock on the Issuance Date was \$0.25 per share based on the closing price on July 24, 2006, the last closing price prior to the Issuance Date. Using this market price per share, the maximum aggregate dollar value of the 2,187,133 common shares underlying the Notes that the Company has registered for resale is \$546,783.25.

Fees and Payments Associated with Transaction

The following table discloses the dollar amount of each payment (including the dollar value of any payments to be made in common stock) in connection with the financing transaction that the Company has paid, or may be required to pay to any Selling Stockholder, any affiliate of a Selling Stockholder, or any person with whom any Selling Stockholder has a contractual relationship regarding the transaction. The table also reflects the potential net proceeds to the Company from the sale of the Notes and the total possible payments to all selling shareholders and any of their affiliates in the first year following the sale of convertible notes. We intend to use all proceeds received in connection with the financing transaction for general corporate, business development and working capital purposes. For purposes of this table, we assumed that the aggregate of \$2,000,000 in Notes were issued on July 25, 2006, even though the Investors are not obligated to pay to us the third tranche of \$600,000 until this Registration Statement is declared effective by the SEC. There are no other persons with whom any Selling Stockholder has a contractual relationship with regarding the transaction.

If we redeemed the Notes one year from the Issuance Date, then the total payments would be \$2,876,151.80.
- (7) Total maximum payments payable by Company, includes finder's fees of \$130,000, structuring and due diligence fees of \$35,000, maximum possible interest of \$190,379.50 and maximum possible liquidated damages of \$63,088.16. We also incurred \$65,000 in legal fees for the transaction and filing of this registration statement, which would increase the possible maximum payments by Company to \$503,467.66 and reduce the net proceeds to Company to \$1,750,000.
- (8) Total net proceeds to the Company including the \$130,000 finder's fee and \$35,000 structuring and due diligence fees. We also incurred \$65,000 in legal fees for the transaction and filing of this registration statement.

Total Possible Profit Selling Stockholders Could Realize

Notes

The following table discloses the total possible profit Selling Stockholders could realize as a result of the conversion discount for the securities underlying the Notes. For purposes of this table, we assumed that the aggregate of \$2,000,000 in Notes were issued on July 25, 2006, even though the Investors are not obligated to pay to us the second tranche of \$400,000 until this registration statement is declared effective by the SEC.

Market Price⁽¹⁾	Conversion Price⁽²⁾	Shares Underlying Notes⁽³⁾	Combined Market Price of Shares⁽⁴⁾	Total Conversion Price⁽⁵⁾	Total Possible Discount to Market Price⁽⁶⁾
\$0.25	\$0.109	18,348,624	\$3,424,657.50	\$2,000,000.02	\$1,424,657.48

- (1) Market price per share of our common stock on the Issuance Date (July 25, 2006).
- (2) The conversion price per share of our common stock underlying the Notes on the Issuance Date is calculated by the average of the lowest three (3) intraday trading prices for our common shares during the twenty (20) trading days prior to the date the Notes were issued on July 25, 2006 (\$0.243 was the average), less a 40% discount.
- (3) Total number of shares of common stock underlying the Notes assuming full conversion as of the Issuance Date. Since the conversion price of the Notes may fluctuate as market prices fluctuate, the actual number of shares that underlie the

Notes will also fluctuate.

- (4) Total market value of shares of common stock underlying the Notes assuming full conversion as of the Issuance Date based on the market price on the Issuance Date.
- (5) Total value of shares of common stock underlying the Notes assuming full conversion of the Notes as of the Issuance Date based on the conversion price.
- (6) Discount to market price calculated by subtracting the total conversion price (result in footnote (5)) from the combined market price (result in footnote (4)).

Warrants

We also issued to Selling Stockholders seven year Warrants to purchase an aggregate of 10,000,000 shares of our common stock, exercisable on a cashless basis provided we are not in default of the Notes with the aggregate exercise price of \$3,000,000 if exercised on a cashless basis. The following table discloses the total possible profit Selling Stockholders could realize as a result of the cashless exercise of the Warrants.

Market Price⁽¹⁾	Exercise Price⁽²⁾	Shares Underlying Warrants⁽³⁾	Combined Market Price⁽⁴⁾	Total Exercise Price⁽⁵⁾	Total Possible Discount to Market Price⁽⁶⁾
\$0.25	\$0.30	10,000,000	\$2,500,000	\$3,000,000	\$0
\$0.45	\$0.50	1,000,000	\$450,000	\$500,000	\$0
Total		11,000,000	\$2,950,000	\$3,500,000	\$0

(1) Market price per share of our common stock on the Issuance Date (July 25, 2006) and Second Issuance Date (April 18, 2007), respectively.

- (2) The exercise price per share of our common stock underlying 10,000,000 Warrants is fixed at \$0.30 and 1,000,000 Warrants is fixed at \$0.50, except that the Warrants contain anti-dilution protections which in certain circumstances may result in a reduction to the exercise price.
- (3) Total number of shares of common stock underlying the Warrants assuming full exercise as of the Issuance Date and Second Issuance Date. Upon certain adjustments of the exercise price of the warrants, the number of shares underlying the warrants may also be adjusted such that the proceeds to be received by us would remain constant.
- (4) Total market value of shares of common stock underlying the Warrants assuming full exercise as of the Issuance Date and Second Issuance Date based on the market price of the common stock on the Issuance Date and Second Issuance Date.
- (5) Total value of shares of common stock underlying the Warrants assuming full exercise as of the Issuance Date and Second Issuance Date based on the exercise price.
- (6) Discount to market price calculated by subtracting the total conversion price (result in footnote (5)) from the combined market price (result in footnote (4)). The result of an exercise of the Warrants at the exercise price and a sale at the market price would be a loss to the Selling Stockholder. Since the closing price of our common stock is less than the Warrants' exercise price, the Warrants are out of the money and no profit would be realized as of the Issuance Date and Second Issuance Date.

Combined Total Possible Profit Selling Stockholders Could Realize

The following table summarizes the potential proceeds available to the Company pursuant to the financing with the Investors and the Investors' return on investment. For purposes of this table, we assumed that the aggregate of \$2,000,000 in Notes were issued on July 25, 2006, even though the Investors are not obligated to pay to us the third tranche of \$700,000 until this registration statement is declared effective by the SEC, and that the Investors exercise all of the in-the-money Warrants, if any, on a cash basis.

Gross Proceeds Payable to Company⁽¹⁾	Maximum Possible Payments by Company⁽²⁾	Net Proceeds to Company⁽³⁾	Combined Total Possible Profit to Investors⁽⁴⁾	All Payments + Possible Profit / Net Proceeds⁽⁵⁾	All Payments + Possible Profit / Net Proceeds Averaged Over 3 Years⁽⁶⁾
\$2,000,000	\$418,467.66	\$1,835,000	\$1,424,657.48	100.44%	33.48%

(1) Total amount of the Notes.

(2) Total maximum payments payable by Company, includes finder's fees of \$130,000, structuring and due diligence fees of \$35,000, maximum possible interest of

\$190,379.50 and maximum possible liquidated damages of \$63,088.16. We also incurred \$65,000 in legal fees for the transaction and filing of this registration statement, which would increase the possible maximum payments by Company to \$503,467.66 and reduce the net proceeds to Company to \$1,750,000.

- (3) Total net proceeds to the Company including the \$130,000 finder's fee and \$35,000 structuring and due diligence fees. We also incurred \$65,000 in legal fees for the transaction and filing of this registration statement.
- (4) Total possible profit to the Investors is based on the aggregate discount to market price of the conversion of the Notes and cashless exercise of Warrants. The Notes' conversion price is calculated by the average of the lowest three (3) intraday trading prices for our common shares during the twenty (20) trading days prior to the date the Notes were issued on July 25, 2006 (\$0.243 was the average), less a 40% discount. The result of an exercise of the Warrants at the exercise price and a sale at the market price would be a loss to the Selling Stockholder. Since the current closing price of our common stock is less than the Warrants' exercise price, the Warrants are out of the money and no profit would be realized as of April 5, 2007.
- (5) Percentage equal to the maximum possible payments by us in the transaction (\$418,467.66) plus total possible discount to the market price of the shares underlying the convertible debentures (\$1,424,657.48), plus profit from 10,000,000 warrants in the money as of the Issuance Date and Second Issuance Date (\$0), divided by the net proceeds to the Company resulting from the sale of the Notes (\$1,835,000).

(6) Calculated by dividing 100.44% (footnote 5) by 3.

Repayment, Shorting and Prior Transactions with Selling Stockholders

The Company intends to repay the overlying securities and believes that it will have the financial ability to make all payments on the Notes when they become due and payable. To the best of our knowledge, and based on information obtained from the Selling Stockholders, none of the selling shareholders have an existing short position in the Company's common stock.

Other than its issuance and sale of the Notes and the Warrants to the Selling Stockholders, the Company has not in the past three (3) years engaged in any securities transaction with any of the Selling Stockholders, any affiliates of the Selling Stockholders, or, after due inquiry and investigation, to the knowledge of the management of the Company, any person with whom any Selling Stockholder has a contractual relationship regarding the transaction (or any predecessors of those persons). In addition, other than in connection with the contractual obligations set forth in the transaction documents filed as Exhibits to our Form 8-K filed August 4, 2006, including the (i) the Securities Purchase Agreement, (ii) the Notes and the Warrants and (iii) the Security Agreement, (iv) the Intellectual Property Security Agreement, the Company does not have any agreements or arrangements with the Selling Stockholders with respect to the performance of any current or future obligations.

RISK FACTORS

Risks Related to Our Business

We are subject to various risks that may materially harm our business, financial condition and results of operations. You should carefully consider the risks and uncertainties described below and the other information in this filing before deciding to purchase our common stock. If any of these risks or uncertainties actually occurs, our business, financial condition or operating results could be materially harmed. In that case, the trading price of our common stock could decline.

We have historically lost money and losses may continue in the future, and this may adversely impact our business.

Since our inception, through December 31, 2006 we have not been profitable and have lost money on both a cash and non-cash basis. For the year ended December 31, 2006, we recorded a loss of operations of \$5,186,557. Our accumulated deficit was \$5,361,997 as of December 31, 2006. Future losses are likely to occur, as we are dependent on spending money to evaluate and pursue motor sports development projects. No assurances can be given that we will be successful in maintaining operations or reaching profitable operations. Accordingly, we may continue to experience liquidity and cash flow problems.

Our limited operating history makes it difficult or impossible to evaluate our performance and make predictions about our future.

Due to our limited operating history, it is difficult to make an evaluation of our future performance can be made. You should be aware of the difficulties normally encountered by motorsports companies similarly situated to us and the high rate of failure of such enterprises. If we do not successfully address the risks facing us, then our future business prospects will be significantly limited and, as a result, the trading price of our common stock would likely decline significantly. You should consider the likelihood of our future success in view of our limited operating history, as well as the complications frequently encountered by other companies in the early stages of development. If we encounter problems, additional costs, difficulties, complications or delays in connection with our motorsports activities, it will have a material adverse effect on its business, results of operations and financial condition, and as a result, we could be forced to cease our business operations.

We will need to raise additional capital or debt funding to sustain operations, and our inability to obtain adequate financing may result in us curtailing or ceasing our business operations

Unless we can become profitable, we will require additional capital to commence and sustain operations and will need access to additional capital or additional debt financing to grow. In addition, to the extent that we have a working capital deficit and we will need to raise capital to repay the deficit and provide more working capital to permit growth in revenues. We cannot assure you that financing whether from external sources or related parties will be available if needed or on favorable terms. Our inability to obtain adequate financing will result in the need to reduce the pace of implementing our business objectives. Any of these events could be materially harmful to our business, which would force us to curtail or cease our business operations, thus resulting in a lower stock price.

We have been the subject of a going concern opinion from December 31, 2006 and 2005 from our independent auditors, which means that we may not be able to continue operations unless we can become profitable or obtain additional funding.

Our independent auditors have added an explanatory paragraph to their audit opinions issued in connection with our financial statements for the year ended December 31, 2006, which states that the financial statements raise substantial doubt as to our ability to continue as a going concern. Our ability to make operations profitable or obtain additional funding will determine our ability to continue as a going concern. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty. We will have to raise additional funds to meet our current obligations and to cover operating expenses through the year ending December 31, 2007. If we are not successful in raising additional capital we may not be able to continue as a going concern.

We are subject to a working capital deficit, which means that our current assets on December 31, 2006 were not sufficient to satisfy our current liabilities.

We had a working capital deficit of \$398,510 at December 31, 2006, which means that our current liabilities as of that date exceeded our current assets on December 31, 2005 by \$173,086. Current assets are assets that are expected to be converted to cash within one year and, therefore, may be used to pay current liabilities as they become due. Our working capital deficit means that our current assets on December 31, 2006 were not sufficient to satisfy all of our current liabilities on that date. We will have to raise capital or debt to fund the deficit or cease our business operations.

Our common stock may be affected by limited trading volume and may fluctuate significantly, and this may adversely affect your investment.

There has been a limited public market for our common stock and there can be no assurance that a more active trading market for our common stock will develop. An absence of an active trading market could adversely affect our

shareholders' ability to sell our common stock in short time periods, or possibly at all. Our common stock has experienced in the past, and is likely to experience in the future, significant price and volume fluctuations, which could adversely affect the market price of our common stock without regard to our operating performance. In addition, we believe that factors such as changes in the overall economy or the condition of the financial markets could cause the price of our common stock to fluctuate substantially. These fluctuations may also cause short sellers to enter the market from time to time in the belief that we will have poor results in the future. We cannot predict the actions of market participants and, therefore, can offer no assurances that the market for our stock will be stable or appreciate over time.

Additional financing may potentially dilute the value of our stockholders' shares.

We will need to raise additional capital to fund our anticipated future expansion and implement our business plan. Any additional financing may also involve dilution to our then-existing stockholders, which could result in a decrease in the price of our common stock.

We depend on key personnel and our failure to attract or retain key personnel could harm our business.

Our success largely depends on the efforts and abilities of our key executive and consultants, including A. Robert Koveleski, our President and Chief Executive Officer, and consultant, Steve B. Pinson, consultant d/b/a Pinson LLC. The loss of the services of Messrs. Pinson and Koveleski could materially harm our business because of the cost and time necessary to replace and train a replacement. Such a loss would also divert management attention away from operational issues.

New business ventures or acquisitions that we may undertake would involve a number of inherent risks, any of which could cause us not to realize the benefits anticipated to result.

We continually seek to expand our operations through acquisitions of businesses and assets. These transactions involve various inherent risks, such as:

- uncertainties in assessing the value, strengths, weaknesses, contingent and other liabilities and potential profitability of acquisition or other transaction candidates;
- the potential loss of key personnel of an acquired business;
- the ability to achieve identified operating and financial synergies anticipated to result from an acquisition or other transaction;
- problems that could arise from the integration of the acquired or new business;
- unanticipated changes in business, industry or general economic conditions that affect the assumptions underlying the acquisition or other transaction rationale; and
- unexpected development costs that adversely affect our profitability.

Any one or more of these factors could cause us not to realize the benefits anticipated to result from the acquisition of businesses or assets or the commencement of a new business venture.

We have relied on capital contributed by related parties, and such capital may not be available in the future.

From October 2005 through October 27, 2006 we financed our operations through advances from the Company's former President, Davy Jones. Prior to October 2005, other shareholders had advanced funds to pay expenses incurred by the Company from time to time. As of December 31, 2006, all notes payable to related parties have been paid. As of December 31, 2005, the Company had notes payable totaling \$60,764 to Mr. Jones' affiliate entities for funds advanced. As of December 31, 2005, the Company had a note payable in the amount of \$10,127 to Fast One, Inc. and a note payable in the amount of \$50,637 to DJ Motorsports, Inc.

Our future cash requirements will depend on many factors, including new race track acquisitions. We do not expect to generate a positive cash flow from operations until we complete successful acquisitions of race tracks and other motor sports properties. We intend to seek additional funding through public or private financing transactions. Successful

future operations are subject to a number of technical and business risks, including our continued ability to obtain future funding, satisfactory product development and market acceptance for our products.

Although we have been paying back these loans from Mr. Jones, we may be unable to repay the remainder as planned and may have to look again to Mr. Jones for assistance in financing if we are unable to obtain future financing. There is no guarantee that Mr. Jones will have financial resources available to assist in our funding.

We are subject to new corporate governance and internal controls reporting requirements, and our costs related to compliance with, or our failure to comply with existing and future requirements could adversely affect our business.

We face new corporate governance requirements under the Sarbanes-Oxley Act of 2002, as well as new rules and regulations subsequently adopted by the SEC. These laws, rules and regulations continue to evolve and may become increasingly stringent in the future. In particular, we will be required to include management and auditor reports on internal controls as part of our annual report for the year ended December 31, 2006 pursuant to Section 404 of the Sarbanes-Oxley Act. We cannot assure you that we will be able to fully comply with these laws, rules and regulations that address corporate governance, internal control reporting and similar matters. Failure to comply with these laws, rules and regulations could materially adversely affect our reputation, financial condition and the value of our securities.

Our success will depend partly on our ability to operate without infringing on or misappropriating the proprietary rights of others.

We may be sued for infringing on the intellectual property rights or misappropriating the proprietary rights of others. Intellectual property litigation is costly, and, even if we prevail, the cost of such litigation could adversely affect our business, financial condition and results of operations. In addition, litigation is time consuming and could divert management attention and resources away from our business. If we do not prevail in any litigation, we could be required to stop the infringing activity and/or pay substantial damages. Under some circumstances in the United States, these damages could be triple the actual damages the patent holder incurs. If we have supplied infringing products to third parties for marketing or licensed third parties to manufacture, use or market infringing products, we may be obligated to indemnify these third parties for any damages they may be required to pay to the patent holder and for any losses the third parties may sustain themselves as the result of lost sales or damages paid to the patent holder.

If a third party holding intellectual property rights successfully asserts an infringement claim with respect to any of our products, we may be prevented from manufacturing or marketing our infringing product in the country or countries covered by the patent we infringe, unless we can obtain a license from the patent holder. Any required license may not be available to us on acceptable terms, or at all. Some licenses may be non-exclusive, and therefore, our competitors may have access to the same technology licensed to us. If we fail to obtain a required license or are unable to design around a patent, we may be unable to market some of our anticipated products, which could have a material adverse effect on our business, financial condition and results of operations.

Shareholders must rely on management for the operation of the company.

All decisions with respect to the operation of ANRC and development, production and marketing of our products and services, will be made exclusively by management. Our success will, to a large extent, depend on the quality of the management of the company. In particular, we will depend on the services of our board members and officers. Management believes that these individuals have the necessary business experience to supervise the management of the company and production and commercial exploitation of our products, however, there can be no assurance that they will perform adequately or that our operations will be successful. Shareholders will have no right or power to take part in the management of the company, for the most part, except to the extent of voting for the members of the Board of Directors each year. Accordingly, no person should purchase any of the stock offered hereby unless such prospective purchaser is willing to entrust all aspects of the management of the company to management and has evaluated management's capabilities to perform such functions.

Our quarterly operating results will fluctuate.

Our quarterly operating results will fluctuate for many reasons, including:

- our ability to retain existing customers, attract new customers and satisfy our customers' demands,
 - our ability to acquire merchandise, manage our inventory and fulfill orders,
 - changes in gross margins of our current and future products, services, and markets,
 - introduction of our new sites, services and products or those of competitors,
- changes in usage of the Internet and online services and consumer acceptance of the Internet and online commerce,
 - timing of upgrades and developments in our systems and infrastructure,
 - the level of traffic on our Web site,
- the effects of acquisitions and other business combinations, and related integration,

technical difficulties, system downtime or Internet brownouts,
our ability to properly anticipate demand,
our level of merchandise returns,
disruption of our ongoing business,
problems retaining key managerial personnel,
expenses associated with amortization of goodwill and other purchased intangible assets,
additional operating losses and expenses of acquired businesses, if any, and
impairment of relationships with existing employees, customers and business partners.

Risks Related to Our Common Stock and Its Market

If the ownership of our common stock continues to be somewhat concentrated in shares owned by our management, it may prevent you and other stockholders from influencing significant corporate decisions and may result in conflicts of interest that could cause our stock price to decline.

As of April 23, 2007, our executive officer, director (A. Robert Koveleski, Chairman, Chief Executive Officer, President, Chief Financial Officer and Secretary), and his affiliate (SW International, LLC, for which A. Robert Koveleski, is the Managing Member of SW International and has sole voting and investment control over these shares) beneficially own or control approximately 48.55% of the outstanding shares of our common stock and 100% of the outstanding shares of our Series A Convertible Preferred Stock designation (our common shares vote on a one vote per share basis, while each share of our Series A Convertible Preferred entitles the holder to 300 votes). Accordingly, our current executive officers, directors and their affiliates will have some control over the outcome of corporate actions requiring stockholder approval, including the election of directors, any merger, consolidation or sale of all or substantially all of our assets or any other significant corporate transactions. These stockholders may also delay or prevent a change of control of us, even if such a change of control would benefit our other stockholders. The concentration of stock ownership may adversely affect the trading price of our common stock due to investors' perception that conflicts of interest may exist or arise.

We may issue additional preferred stock in the future, and the terms of the preferred stock may reduce the value of your common stock.

We are authorized to issue up to 10,000,000 shares of preferred stock in one or more series. Our Board of Directors will be able to determine the terms of preferred stock without further action by our stockholders. We have designated 2,000,000 shares of preferred stock as Series A Convertible Preferred Stock which is convertible into 300 shares of common stock, 1,000,000 of which were issued to management and are outstanding as of April 23, 2007. To the extent we issue preferred stock, it could affect your rights or reduce the value of your common stock. In particular, specific rights granted to future holders of preferred stock could be used to restrict our ability to merge with or sell our assets to a third party. These terms may include voting rights, and may include preferences as to dividends and liquidation, conversion and redemption rights, and sinking fund provisions.

We have not, and currently do not anticipate, paying dividends on our common stock.

We have never paid any dividend on our common stock and do not plan to pay dividends on our common stock for the foreseeable future. We currently intend to retain future earnings, if any, to finance operations, capital expenditures and to expand our business.

There is a limited market for our common stock which makes it difficult for investors to engage in transactions in our securities.

Our common stock is quoted on the OTCBB under the symbol “ANRC”. There is a limited trading market for our common stock. If public trading of our common stock does not increase, a liquid market will not develop for our common stock. The potential effects of this include difficulties for the holders of our common shares to sell our common stock at prices they find attractive. If liquidity in the market for our common stock does not increase, investors in our company may never realize a profit on their investment.

Our stock is thinly traded, which can lead to price volatility and difficulty liquidating your investment.

The trading volume of our stock has been low, which can cause the trading price of our stock to change substantially in response to relatively small orders. In addition, during the last two fiscal years and interim quarters, our common stock has traded pre-split as low as \$0.11 and as high as \$12.00, and post-split as low as \$0.18 and as high as \$2.45. Both volume and price could also be subject to wide fluctuations in response to various factors, many of which are beyond our control, including actual or anticipated variations in quarterly and annual operating results and general market perception. An absence of an active trading market could adversely affect our shareholders’ ability to sell our common stock in short time periods, or possibly at all. In addition, we believe that factors such as changes in the overall economy or the condition of the financial markets could cause the price of our common stock to fluctuate substantially. These fluctuations may also cause short sellers to enter the market from time to time in the belief that we will have poor results in the future. We cannot predict the actions of market participants and, therefore, can offer no assurances that the market for our stock will be stable or appreciate over time.

A sale of a substantial number of shares of our common stock may cause the price of our common stock to decline.

If our shareholders sell substantial amounts of our common stock in the public market, including shares issued upon the exercise of outstanding options or warrants, the market price of our common stock could fall. These sales also may make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem reasonable or appropriate.

Our common stock is deemed to be “penny stock”, which may make it more difficult for investors to sell their shares due to suitability requirements.

Our common stock is deemed to be “penny stock” as that term is defined in Rule 3a51-1 promulgated under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These requirements may reduce the potential market for our common stock by reducing the number of potential investors. This may make it more difficult for investors in our common stock to sell shares to third parties or to otherwise dispose of them. This could cause our stock price to decline. Penny stocks are stock:

· With a price of less than \$5.00 per share;

· That are not traded on a “recognized” national exchange;

· Whose prices are not quoted on the NASDAQ automated quotation system (NASDAQ listed stock must still have a price of not less than \$5.00 per share); or

· In issuers with net tangible assets less than \$2.0 million (if the issuer has been in continuous operation for at least three years) or \$10.0 million (if in continuous operation for less than three years), or with average revenues of less than \$6.0 million for the last three years.

Broker-dealers dealing in penny stocks are required to provide potential investors with a document disclosing the risks of penny stocks. Moreover, broker-dealers are required to determine whether an investment in a penny stock is a suitable investment for a prospective investor. Many brokers have decided not to trade "penny stocks" because of the requirements of the penny stock rules and, as a result, the number of broker-dealers willing to act as market makers in such securities is limited. In the event that we remain subject to the "penny stock rules" for any significant period, there may develop an adverse impact on the market, if any, for our securities. Because our securities are subject to the "penny stock rules," investors will find it more difficult to dispose of our securities. Further, for companies whose securities are traded on the Pink Sheets, it is more difficult: (i) to obtain accurate quotations, (ii) to obtain coverage for significant news events because major wire services, such as the Dow Jones News Service, generally do not publish press releases about such companies, and (iii) to obtain needed capital.

We failed to have a registration statement become effective within 135 days after the initial closing date of July 26, 2006 with our recent financing and as such we are subject to liquidated damages. Liquidated damages may be paid in cash or in shares of our common stock pursuant to the Securities Purchase Agreement and “Conversion Default Payments” may be paid in cash or shall be convertible into shares of our common stock pursuant to the Notes.

We received financing from the Selling Stockholders listed in this document on July 26, 2006 and September 12, 2006. Such financing required us to file a registration statement and have the registration statement declared effective by the SEC within 135 days of the closing of the financing, which occurred on July 26, 2006. Since we withdrew our initial registration statement and a registration statement was not declared effective within 135 days of July 26, 2006, we began incurring liquidated damages equal to 3% of the principal of the Notes issued for each 30 day period that a

registration statement was not declared effective after December 7, 2006.

The conversion of the promissory notes based on our recent financing is based on an average of our lowest intraday trading prices of our common stock over a certain period of time prior to conversion and the decrease of the intraday trading price will result in issuance of a significant increase of shares resulting in dilution to our shareholders.

14

The conversion of the promissory notes in our recent financing is based on the applicable percentage of the average of the lowest three (3) intraday trading prices for the Common Stock during the twenty (20) trading day period prior to conversion. The “Applicable Percentage” means 50%; provided, however, that the Applicable Percentage shall be increased to (i) 55% in the event that a Registration Statement is filed within thirty days of the closing and (ii) 60% in the event that the Registration Statement becomes effective within one hundred and twenty days from the Closing. The price of our common shares may fluctuate and the lower intra-day trading price in the future, will result in a conversion ratio resulting in issuance of a significant amount of our common shares to the promissory note holders. This will result in our present shareholders being diluted.

Selling shareholders may impact our stock value through the execution of short sales which may decrease the value of our common stock.

Short sales are transactions in which a selling shareholder sells a security it does not own. To complete the transaction, a selling shareholder must borrow the security to make delivery to the buyer. The selling shareholder is then obligated to replace the security borrowed by purchasing the security at the market price at the time of replacement. The price at such time may be higher or lower than the price at which the security was sold by the selling shareholder. If the underlying security goes down in price between the time the selling shareholder sells our security and buys it back, the selling shareholder will realize a gain on the transaction. Conversely, if the underlying security goes up in price during the period, the selling shareholder will realize a loss on the transaction. The risk of such price increases is the principal risk of engaging in short sales. The selling shareholders in this registration statement could short the stock by borrowing and then selling our securities in the market, and then converting the stock through either the Note or Warrants at a discount to replace the security borrowed. Because the selling shareholders control a large portion of our common stock, the selling shareholders could have a large impact on the value of our stock if they were to engage in short selling of our stock. Such short selling could impact the value of our stock in an extreme and volatile manner to the detriment of other shareholders.

Shares eligible for public sale in the future could decrease the price of our shares of common stock and reduce our future ability to raise capital.

Sales of substantial amounts of shares of our common stock in the public market could decrease the prevailing market price of our common stock. If this is the case, investors in our shares of common stock may be forced to sell such shares at prices below the price they paid for their shares, or in the case of the investors in the July 2006 financing, prices below the price they converted their notes and warrants into shares. In addition, a decreased market price may result in potential future investors losing confidence in us and failing to provide needed funding. This will have a negative effect on our ability to raise equity capital in the future.

USE OF PROCEEDS

The selling stockholders are selling shares of common stock covered by this prospectus for their own account. We will not receive any of the proceeds from the resale of these shares. We have agreed to bear the expenses relating to the registration of the shares for the selling security holders.

PENNY STOCK CONSIDERATIONS

Broker-dealer practices in connection with transactions in “penny stocks” are regulated by certain penny stock rules adopted by the SEC. Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system). Penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the

compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer's account. The broker-dealer must also make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These requirements may have the effect of reducing the level of trading activity, if any, in the secondary market for a security that becomes subject to the penny stock rules.

Upon effectiveness of the Registration Statement, the Investors will purchase Notes aggregating \$700,000 for the third and final tranche of funding.

On July 25, 2006, the Investors also received the following seven year warrants to purchase shares of our common stock, exercisable at \$.30 per share: AJW Capital Partners, LLC - 970,000 warrants; AJW Offshore, Ltd. - 5,900,000 warrants; AJW Qualified Partners, LLC - 3,000,000 warrants; and New Millennium Capital Partners II, LLC - 130,000 warrants (the "Warrants"). The Investors secured convertible notes are convertible into shares of our common stock at a variable conversion price based upon the applicable percentage of the average of the lowest three (3) intraday trading prices for the Common Stock during the twenty (20) trading day period prior to conversion. The "Applicable Percentage" means 50%; provided, however, that the Applicable Percentage shall be increased to (i) 55% in the event that a Registration Statement is filed within thirty days of the closing and (ii) 60% in the event that the Registration Statement becomes effective within one hundred and twenty days from the Closing. Under the terms of the callable secured convertible note and the related warrants, the callable secured convertible note and the warrants are exercisable by any holder only to the extent that the number of shares of common stock issuable pursuant to such securities, together with the number of shares of common stock owned by such holder and its affiliates (but not including shares of common stock underlying unconverted shares of callable secured convertible notes or unexercised portions of the warrants) would not exceed 4.99% of the then outstanding common stock as determined in accordance with Section 13(d) of the Exchange Act.

Upon full subscription to the Securities Purchase Agreement and full conversion of the Notes, the total shares being registered are 2,187,133 as follows: (i) AJW Capital Partners, LLC - 212,152 shares of common stock issuable in connection with the conversion of the callable secured convertible note; (ii) AJW Offshore, Ltd. - 1,290,408 shares of common stock issuable in connection with the conversion of the callable secured convertible note;; (iii) AJW Qualified Partners, LLC - 656,140 shares of common stock issuable in connection with the conversion of the callable secured convertible note; and (iv) New Millennium Capital Partners II, LLC - 28,433 shares of common stock issuable in connection with the conversion of the callable secured convertible note.

The following table sets forth the name of the Selling Stockholders, the number of shares of common stock beneficially owned by each of the selling stockholders as of April 23, 2007 and the number of shares of common stock being offered by the Selling Stockholders. The shares being offered hereby are being registered to permit public secondary trading, and the selling stockholders may offer all or part of the shares for resale from time to time. However, the Selling Stockholders are under no obligation to sell all or any portion of such shares nor are the Selling Stockholders obligated to sell any shares immediately upon effectiveness of this Prospectus. All information with respect to share ownership has been furnished by the Selling Stockholders.

⁽¹⁾ Based on 27,911,398 shares issued and outstanding as of April 23, 2007.

- (2) The conversion has been calculated based on the maximum number of shares the Investors can receive in accordance with the 6% Callable Secured Convertible Notes and Rule 415. The number of shares set forth in the table for the selling stockholders represents an estimate of the number of shares of common stock to be offered by the selling stockholders. The actual number of shares of common stock issuable upon conversion of the notes is indeterminate, is subject to adjustment and could be materially less or more than such estimated numbers depending on factors which cannot be predicted by us at this time including, among other factors, the future market price of the common stock. The actual number of shares of common stock offered in this prospectus, and included in the registration statement of which this prospectus is a part, includes such additional number of shares of common stock as may be issued or issuable upon conversion of the notes by reason of any stock split, stock dividend or similar transaction involving the common stock, in accordance with Rule 416 under the Securities Act of 1933 (the "Securities Act"). The convertible notes are convertible into shares of our common stock at a variable conversion price based upon the applicable percentage of the average of the lowest three (3) intraday trading prices for the common stock during the twenty (20) trading day period prior to conversion. The "Applicable Percentage" means 50%; provided, however, that the Applicable Percentage shall be increased to (i) 55% in the event that a Registration Statement is filed within thirty days of the closing and (ii) 60% in the event that the Registration Statement becomes effective within one hundred and twenty days from the Closing. The "Applicable Percentage" was amended to 45% on April 18, 2007. Under the terms of the debentures, if the debentures had actually been converted on July 26, 2006, the conversion price would have been \$0.109, which is calculated by using the average of the three lowest intraday trading prices within 20 days from July 26, 2006 less a 55% discount. Under the terms of the debentures, the debentures are convertible by any holder only to the extent that the number of shares of common stock issuable pursuant to such securities, together with the number of shares of common stock owned by such holder and its affiliates (but not including shares of common stock underlying unconverted shares of the debentures) would not exceed 4.99% of the then outstanding common stock as determined in accordance with Section 13(d) of the Exchange Act. Accordingly, the number of shares of common stock set forth in the table for the selling stockholders exceeds the number of shares of common stock that the selling stockholder could beneficially own at any given time through their ownership of the debentures.

PLAN OF DISTRIBUTION

All of the stock owned by the selling security holders will be registered by the registration statement of which this prospectus is a part. The selling security holders may sell some or all of their shares immediately after they are registered. The selling security holders shares may be sold or distributed from time to time by the selling stockholders or by pledgees, donees or transferees of, or successors in interest to, the selling stockholders, directly to one or more purchasers (including pledgees) or through brokers, dealers or underwriters who may act solely as agents or may acquire shares as principals, at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at negotiated prices or at fixed prices, which may be changed. The distribution of the shares may be effected in one or more of the following methods:

- ordinary brokers transactions, which may include long or short sales,
- transactions involving cross or block trades on any securities or market where our common stock is trading,
- purchases by brokers, dealers or underwriters as principal and resale by such purchasers for their own accounts pursuant to this prospectus, “at the market” to or through market makers or into an existing market for the common stock,
- in other ways not involving market makers or established trading markets, including direct sales to purchasers or sales effected through agents,
- any combination of the foregoing, or by any other legally available means.

In addition, the selling stockholders may enter into hedging transactions with broker-dealers who may engage in short sales, if short sales were permitted, of shares in the course of hedging the positions they assume with the selling stockholders. The selling stockholders may also enter into option or other transactions with broker-dealers that require the delivery by such broker-dealers of the shares, which shares may be resold thereafter pursuant to this prospectus.

Brokers, dealers, underwriters or agents participating in the distribution of the shares may receive compensation in the form of discounts, concessions or commissions from the selling stockholders and/or the purchasers of shares for whom such broker-dealers may act as agent or to whom they may sell as principal, or both (which compensation as to a particular broker-dealer may be in excess of customary commissions). The selling stockholders and any broker-dealers acting in connection with the sale of the shares hereunder may be deemed to be underwriters within the meaning of Section 2(11) of the Securities Act, and any commissions received by them and any profit realized by them on the resale of shares as principals may be deemed underwriting compensation under the Securities Act. Neither the selling stockholders nor we can presently estimate the amount of such compensation. We know of no existing arrangements between the selling stockholders and any other stockholder, broker, dealer, underwriter or agent relating to the sale or distribution of the shares.

We will not receive any proceeds from the sale of the shares of the selling security holders pursuant to this prospectus. We have agreed to bear the expenses of the registration of the shares, including legal and accounting fees, and such expenses are estimated to be approximately \$100,000.

The selling stockholders named in this prospectus must comply with the requirements of the Securities Act and the Exchange Act in the offer and sale of the common stock. The selling stockholders and any broker-dealers who execute sales for the selling stockholders may be deemed to be an “underwriter” within the meaning of the Securities Act in connection with such sales. In particular, during such times as the selling stockholders may be deemed to be engaged in a distribution of the common stock, and therefore be considered to be an underwriter, they must comply with

applicable laws and may among other things:

1. Not engage in any stabilization activities in connection with our common stock;
2. Furnish each broker or dealer through which common stock may be offered, such copies of this prospectus from time to time, as may be required by such broker or dealer; and
3. Not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities permitted under the Exchange Act.

Regulation M

We have informed the Selling Shareholders that Regulation M promulgated under the Securities Exchange Act may be applicable to them with respect to any purchase or sale of our common stock. In general, Rule 102 under Regulation M prohibits any person connected with a distribution of our common stock from directly or indirectly bidding for, or purchasing for any account in which it has a beneficial interest, any of the Shares or any right to purchase the Shares, for a period of one business day before and after completion of its participation in the distribution.

During any distribution period, Regulation M prohibits the Selling Shareholders and any other persons engaged in the distribution from engaging in any stabilizing bid or purchasing our common stock except for the purpose of preventing or retarding a decline in the open market price of the common stock. None of these persons may effect any stabilizing transaction to facilitate any offering at the market. As the Selling Shareholders will be offering and selling our common stock at the market, Regulation M will prohibit them from effecting any stabilizing transaction in contravention of Regulation M with respect to the shares.

We also have advised the Selling Shareholders that they should be aware that the anti-manipulation provisions of Regulation M under the Exchange Act will apply to purchases and sales of shares of common stock by the Selling Shareholders, and that there are restrictions on market-making activities by persons engaged in the distribution of the shares. Under Regulation M, the Selling Shareholders or their agents may not bid for, purchase, or attempt to induce any person to bid for or purchase, shares of our common stock while such Selling Shareholders are distributing shares covered by this prospectus. Regulation M may prohibit the Selling Shareholders from covering short sales by purchasing shares while the distribution is taking place, despite any contractual rights to do so under the Agreement. We have advised the Selling Shareholders that they should consult with their own legal counsel to ensure compliance with Regulation M.

On July 25, 2006, we entered into a Securities Purchase Agreement for a total subscription amount of \$2,000,000 that included Stock Purchase Warrants and Callable Secured Convertible Notes with AJW Capital Partners, LLC, AJW Offshore, Ltd., AJW Qualified Partners, LLC and New Millennium Capital Partners II, LLC (collectively, the “Investors”). As of the date of this Prospectus, the Investors hold Notes aggregating \$1,300,000 and are obligated to issue additional Notes in the amount of \$700,000 once this Registration Statement is declared effective by the SEC.

The Callable Secured Convertible Notes are convertible into shares of our common stock at a variable conversion price based upon the applicable percentage of the average of the lowest three (3) intraday trading prices for the

Common Stock during the twenty (20) trading day period prior to conversion. The “Applicable Percentage” means 50%; provided, however, that the Applicable Percentage shall be increased to (i) 55% in the event that a Registration Statement is filed within thirty days of the closing, and (ii) 60% in the event that the Registration Statement is declared effective by the SEC. The “Applicable Percentage” was subsequently amended to 45% on April 18, 2007. Under the terms of the Notes, the Notes are exercisable by any holder only to the extent that the number of shares of common stock issuable pursuant to such securities, together with the number of shares of common stock owned by such holder and its affiliates (but not including shares of common stock underlying unconverted shares of Notes or unexercised portions of the warrants) would not exceed 4.99% of the then outstanding common stock as determined in accordance with Section 13(d) of the Exchange Act.

Warrants

Based on our recent financing, we issued to the Investors seven (7) year Warrants to purchase shares of our common stock, exercisable at \$0.30 per share, except that the Warrants contain anti-dilution protections which in certain circumstances may result in a reduction to the exercise price. We issued to the Investors an additional 1,000,000 warrants at an exercise price of \$0.50 under the same terms as the prior warrants. Each Warrant entitles the holder to one share of our common stock and is exercisable for seven (7) years from July 25, 2006, and April 18, 2007, respectively. The Warrants are not subject to registration rights.

INTEREST OF NAMED EXPERTS AND COUNSEL

Nor was any such person connected with the registrant or any of its parents or subsidiaries as a promoter, managing or principal underwriter, voting trustee, director, officer, or employee. Anslow & Jaclin, LLP, our independent legal counsel, has provided an opinion on the validity of our common stock. Anslow & Jaclin, LLP has been our legal counsel since inception.

The financial statements included in this prospectus and the registration statement have been audited by Moore & Associates Chartered, certified public accountants, to the extent and for the periods set forth in their report appearing elsewhere herein and in the registration statement, and are included in reliance upon such report given upon the authority of said firm as experts in auditing and accounting.

DISCLOSURE OF COMMISSION POSITION OF INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our Articles of Incorporation provide that, to the fullest extent permitted by law, none of our directors or officers shall be personally liable to us or our shareholders for damages for breach of any duty owed to our shareholders or us.

In addition, we have the power, by our by-laws or in any resolution of our shareholders or directors, to undertake to indemnify the officers and directors of ours against any contingency or peril as may be determined to be in our best interest and in conjunction therewith, to procure, at our expense, policies of insurance. At this time, no statute or provision of the by-laws, any contract or other arrangement provides for insurance of any of our controlling persons, directors or officers that would affect his or her liability in that capacity.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, the small business issuer has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities, other than the payment by us of expenses incurred or paid by our directors, officers or controlling persons in the successful defense of any action, suit or proceedings, is asserted by such director, officer, or controlling person in connection with any securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by us is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issues.

On September 2, 2002, the Company, Creative Holdings and the shareholders of Creative Holdings amended the Merger Agreement and restructured the merger into a stock exchange transaction, whereby Creative Holdings would become a wholly-owned subsidiary of the Company. The share exchange was completed on October 17, 2002, at which time, Creative Holdings became a wholly owned subsidiary of the Company.

Pursuant to the share exchange transaction (effective retroactively as of August 15, 2002), with Creative Holdings and its shareholders, the shareholders of Creative Holdings exchanged with and delivered to the Company 100% of the issued and outstanding capital stock of Creative Holdings in exchange for 20,000,000 shares of common stock of the Company and 1,000,000 shares of Series A Convertible Preferred Stock of the Company. Each share of Series A Convertible Preferred Stock was convertible into 300 shares of common stock of the Company. Between December 21, 2004 and January 5, 2005, the Company entered into releases with each holder of the Company's 1,000,000 shares of Series A Preferred Stock, which resulted in the cancellation of all of the Company's outstanding shares of Series A Preferred Stock.

Also on October 17, 2005, the Company entered into a Share Exchange Agreement, by and among the Company, American Racing Capital, Inc., a Nevada company ("ARCI") and the shareholders of ARCI, pursuant to which, the ARCI shareholders exchanged with, and delivered to the Company all of the issued and outstanding common stock of ARCI in exchange for 150,000,000 shares of the Company's common stock and 1,000,000 shares of Series A Preferred Stock, which can be converted at any time into three hundred (300) fully paid, nonassessable shares of the Company's common stock. As a result of the Share Exchange Agreement, on October 19, 2005, ARCI became a wholly-owned subsidiary of the Company and the shareholders of Fast One, Inc., DJ Motorsports, Inc. and ARCI became the controlling shareholders of the Company.

On October 18, 2005, the Company entered into a Share Exchange Agreement, by and among the Company, ARC Development Corporation, a Nevada corporation ("ARCD") and the shareholders of ARCD. Pursuant to the Share Exchange Agreement, the ARCD shareholders exchanged with, and delivered to, ARC the issued and outstanding common stock of ARCD in exchange for 135,000,000 shares of the Company's Common Stock, and 1,000,000 shares of Series A Preferred Stock, which can be converted at any time into three hundred (300) fully paid, nonassessable shares of the Company's Common Stock. As a result of the Share Exchange Agreement, on October 19, 2005, ARCD became a wholly-owned subsidiary of the Company.

As a result of the share exchange transactions, in October 2005, the Company adopted a new strategy which seeks to integrate race track design and development operations with a professional racing team and a national driving school network to leverage the popularity and growth of the motor sports industry.

On March 20, 2006, the Board of Directors of the Company, pursuant to unanimous written consent, approved a one for one hundred (1-for-100) reverse stock split of the Company's issued and outstanding, which became effective on March 30, 2006. As a result of this reverse stock split, on March 20, 2006, the Company's issued and outstanding common stock was reduced based on the 1-for-100 ratio and the new symbol for the Company was changed to 'ANRC'.

On October 27, 2006, the Company entered in a Settlement Agreement and General Release with D. Davy Jones whereby it returned the shares of Fast One, Inc. and Davy Jones Motorsports, Inc. to Mr. Jones for 1,500,000 shares of its common stock and 1,000,000 shares of its preferred stock. As additional consideration for termination of his employment contract, the Company agreed to pay Mr. Jones \$240,000 over 24 months. As a result, Fast One, Inc. and Davy Jones Motorsports, Inc. are no longer our subsidiaries.

Business Operations

Our intended core business is racetrack development and facilities management. We have the following three-pronged approach to growth in this market segment: (1) Short-track acquisitions, (2) Short-track design and development venues coupled with events sanctioned by; CHAMPCAR, INDYCAR, NASCAR, or other major participating organizations, and (3) the Company intends to solicit corporations seeking to utilize motorsports as a revenue-generating promotional opportunity, providing motorsports marketing, and product licensing.

By agreement on February 2, 2007, the Company retained Frost Motorsports LLC., to compile a comprehensive search on available speedway properties. Frost Motorsports specializes in the location and valuation of motorsports facilities. Hiring Frost Motorsports will play an intricate role in developing the Company's growth initiatives as they offer multi-faceted services custom designed to the client's needs. Frost Motorsports and its strategic partners provide expert analysis and innovative financial solutions within the motorsports industry. They consult on; valuation, feasibility, transactional, operational, and strategic planning projects for track owners, race sanctioning bodies, professional team owner and other motorsports participants. Over the last fifteen years, their clients have included Roger Penske, Richard Petty, Jeff Gordon, Championship Auto Racing Teams ("CART"), the National Hot Rod Association ("NHRA") and scores of racing tracks across North America.

American Racing Capital intends to position itself to acquire a network of companies. American Racing Capital intends to focus on racetrack development and facilities management throughout the continental the United States. Through its subsidiaries, the Company will attempt to (a) secure financial interests in established track facilities which may also include race management contracts, (b) engage in the re-design, development, and management of race track facilities through controlling interests or wholly owned acquisitions, and (c) acquire associated companies that compliment our projected motorsports holdings.

The Company is seeking to acquire several established short tracks with development potential. The Company has a vision for a diverse project portfolio that ranges from developing larger-scale racetrack multiplex facilities, to smaller less elaborate race track facilities. The Company is evaluating racetracks in viable markets currently offered for sale. Assets, profitability and profit potential, land development, facilities expansion, and ancillary development are key guiding criteria.

On November 21, 2006, the Company entered into a Shareholders Agreement, by and among Motorsports & Entertainment of Tennessee, Inc., a Nevada corporation (“MET”) and a majority-owned subsidiary of ARC (51%), and LJ&J Enterprises, Inc., a Pennsylvania corporation and minority shareholder of MET (40%). Simultaneously with the execution of the Shareholders Agreement, MET entered into a Stock Purchase Agreement with LJ&J Enterprises of Tennessee, Inc., a Tennessee corporation (“LJ&J”) to purchase eighty percent (80%) of common stock in LJ&J (the “LJ&J Stock”). LJ&J holds the management and concessions contract for auto racing and special events at the “Music City Motorplex”, located on the Tennessee State Fairgrounds in downtown Nashville, Tennessee. The Company completed the first part of the acquisition whereby it acquired forty percent (40%) of the LJ&J Stock, effective as of January 1, 2007, and anticipates completing the second part of the acquisition in the second quarter of 2007. Music City Motorplex is a 5/8th’s mile paved NASCAR sanctioned short-track, highly steeped in tradition. Revenues will proceed from existing track operations, concessions and some special events. Build-outs will include attractions such as a family fun entertainment-zone, concerts, additional city sanctioned events, and growing special attractions. Through LJ&J, we now operate one race track.

Industry and Marketplace

Motor Sports Industry

Motor sports are among the most popular and fastest-growing spectator sports in the United States, with annual attendance at all U.S. motor sports events exceeding 20 million people. Racing events often attract huge festival-sized crowds, many times larger than the Super Bowl, World Series games and NBA finals combined. Many races broadcast live on network and cable TV.

According to the National Speed Sport News (8/30/00), 240,000 spectators showed up for the “Brickyard 400” at Indianapolis Motor Speedway on 8/6/2006. Stations like ESPN and ESPN2, Speed Channel, ABC, CBS, NBC, FOX, TNT and the Outdoor Channel all regularly broadcast racing events. In recent years, race coverage ratings have grown more than 20%, while those of the NFL and the NBA have shown little or no growth and MLB ratings have actually declined as much as 20% according to Street & Smith’s Sports Business Journal (2/13/06).

Given its high profile, auto racing is no longer just a sport. Management believes that it attracts big business and is one of the strongest marketing vehicles for companies to utilize in investing marketing and advertising dollars. This is the reason more Fortune 500 companies are actively involved in auto racing than any other sport.

The motor sports racing industry consists of several distinct categories of auto racing, each with its own organizing/sanctioning body, with corresponding sanctioned events. Sanctioning bodies are responsible for all aspects

of race management required to conduct a racing event, including: regulating racing, drivers, safety and teams, providing officials to ensure fair competition, and administering the race and series purses and other prize payments. Sanctioning bodies typically derive revenues from merchandising, race sponsorships, television distribution, and membership fees. During the 2004 racing season, approximately \$2.0 billion was spent on corporate sponsorships in the motor sports industry, according to IEG Sponsorship Report (Chicago).

Of the sanctioning bodies in the United States, NASCAR, IRL, NHRA, and Grand Am are among the more well known. The largest auto racing category in the United States, in terms of media exposure and sponsorships, is stock car racing, conducted by the National Association of Stock Car Auto Racing (NASCAR). Until roughly ten years ago, NASCAR events and viewership were predominately confined to the southeastern part of the US. Today, NASCAR races are held, and viewers hail from, all over the country.

Motor sport events are generally heavily promoted, with a number of supporting events surrounding each main race event. Examples of supporting events include: secondary races, qualifying time trials, practice sessions, driver autograph sessions, automobiles and product expositions, catered parties, and other racing related events designed to maximize the spectator's overall entertainment experience and enhance value to sponsors.

Motor Sports Market

Our corporate objective is to service the motor sports market by integrating our racetrack design and development, and motor sports marketing services. We intend to capitalize on our strategic alliances throughout the industry, which have been created over many years, to adequately position us take full advantage of all available business ventures. We anticipate creating long-term value by focusing on building and acquiring racetrack facilities and motor sports companies that will add value for our investors.

The strength of racing, its widespread appeal, and the ability to reach a large number of people have proven to be a formula for economic success. As a multifaceted motor sports holding company, we intend to position ourselves to capitalize on the future growth of the auto racing industry and its considerable economic rewards.

Motor Sports Sales and Marketing

We seek to finance new build-outs of multi-venue entertainment facilities and acquire and upgrade existing racing facilities, including taking over certain management contracts with current operating racetracks. We are also interested in obtaining certain professional advanced driving schools which introduce many thousands of people to grass-roots motor sports programs.

Our project plans will include involvement in many aspects of auto racing and motor sports and will focus on NASCAR type short-oval paved racing tracks.

Included within the configuration of certain facilities are: Oval racing, Drag Racing, Drifting, Autocross, Road Racing, Karting, Racing Schools, Motorcross & Supercross, Atv and Pee-Wee Racing.

All racing venues will produce revenue from competitors paying racecar entree and driver and crew membership fees. Revenue will also come from race event ticket sales, garage passes, food and beverage concessions, VIP suites and hospitality areas including catering, race fan apparel and souvenir concessions, space rentals for life-style expo booths, race program sales and advertising, track signage, event sponsorships and multi-year track naming rights. And, in some cases television, radio and ancillary rights fees. Additional feasibility studies will allow for projects to include additional revenue generating amenities such as hotels, condos, restaurants, retail shops, water-parks, concerts and special events.

We also assist outside companies in tying into a particular racing organization's intellectual properties and assets and provide other contractual work, including;

- Consulting in specific areas of motor sport,
- Research, evaluate and provide strategic planning for entry into racing,

- Formulate high-energy branding platforms to fit motor sports,
- Take the initiative for the motor sport program management,
- Initiate advertising and public relations exposure,

- Develop product licensing and merchandising agreements,
- Provide corporate hospitality and VIP race weekend packages, and
- Arrange on-track activities with famous celebrity drivers.

Competition

There is increased competition in the field of motor sports racing and entertainment. The field has in the recent past enjoyed vibrant growth of interest in auto racing. Management believes that increased popular interest in this field has created demand for additional services, such as those intended to be provided by the Company. If these growth trends continue, the Company believes that there could be adequate demand for the Company's services.

In respect to how the Company's competitive position as compared to other motor sports development companies in this geographic region, management believes that our position is considerably weaker than most other companies because of our limited ability to raise funds. The lack of capital causes the Company to not be able to participate in many projects that are identified.

Intellectual Property

We do not own any intellectual property.

Government Approval and Regulation

We do not need government approval for our principal products or services. In developing new racing venues and hosting event, we may be subject to certain local (municipal, town or city) noise regulations, which will not adversely affect our business operations.

Employees

As of April 23, 2007, the Company has one employee. Mr. A. Robert Koveleski, is the Company's President, Chief Executive Officer, Interim Chief Financial Officer and Principal Accounting Officer. In September of 2006, the Company entered into formal employment agreement with Mr. Koveleski for a term of 3 years. He will receive a base salary of \$120,000 annually, and will be entitled to a discretionary bonus and stock option program to acquire up to 250,000 shares of Common Stock.

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

The discussion in this section contains certain statements of a forward-looking nature relating to future events or our future performance. Words such as "anticipates," "believes," "expects," "intends," "future," "may" and similar expressions or variations of such words are intended to identify forward-looking statements, but are not the only means of identifying forward-looking statements. Such statements are only predictions and that actual events or results may differ materially. In evaluating such statements, you should specifically consider various factors identified in this report, including the matters set forth under the caption "business risks," which could cause actual results to differ materially from those indicated by such forward-looking statements.

Going Concern

As reflected in the Company's financial statements for the twelve months ended December 31, 2006, the Company's accumulated deficit of \$5,361,997 and its working capital deficiency of \$398,510 raise substantial doubt about its

ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company's ability to raise additional debt or capital. The financial statements for December 31, 2006 do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Plan of Operations for 2007

For the initial stages, we estimate a need for \$1,500,000 to \$2,500,000 to fund the first year of event and administrative operations and provide working capital. The Company anticipates raising capital in the next 12 months from equity line funds and private financing. The Company's monthly burn rate is approximately \$45,000 per month and consists of \$25,000 in salaries and approximately \$20,000 in operating expenses, legal and accounting costs.

Through its subsidiaries, ARC intends to: (1) secure financial interests in established track facilities coupled with the execution of race management contracts, (2) engage in the re-design, development, and management of racetrack facilities through controlling interests or wholly owned acquisitions, and (3) acquire associated companies that compliment our motorsports holdings and, provide specialized motorsports marketing services.

The process is underway to inventory and rank racetracks in viable markets that are currently offered for sale. Assets, profitability and profit potential, land development, facilities expansion, and ancillary development are key guiding criteria. ARC intends to secure several facilities in 2007, and close with a combination of cash and stock. ARC actively seeks financing and Letters of Intent will proceed immediately upon funding.

Results of Operations

For the Year Ended December 31, 2006, Compared to the Year Ended December 31, 2005

Revenues. We had no revenues from continuing operations for the years ended December 31, 2006 and 2005. We anticipate revenues for the fiscal year ending 2007 to consist of race track management fees from the Music City Motorplex racetrack in Nashville, TN and consulting fees to the motorsports industry.

Operating Expenses. Operating expenses for the year ended December 31, 2006 were \$6,257,102. We had no operating expenses from continuing operations in 2005 because we disposed of our operating subsidiaries in a settlement agreement with our former president Davy Jones on October 27, 2006. Operating expenses in 2006 consisted of \$6,008,581 in consulting fees, \$99,415 in travel expenses and payroll expenses of \$24,318. \$5,711,510 of the consulting fees were paid in shares of our common stock because we have limited cash resources for engaging the people we need to build our business.

Net Loss. The Company had a loss from continuing operations of \$5,186,557 for the year ended December 31, 2006 and a gain from discontinued operations of \$1,257,298, as compared to a loss from discontinued operations of \$120,635 for the year ended December 31, 2005.

Liquidity and Capital Resources

The Company's financial statements have been prepared on a going concern basis that contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company incurred a net loss from operations of \$5,186,557 and \$120,635 for the years ended December 31, 2006 and December 31, 2005, respectively. We have an accumulated deficit of \$5,361,997 at December 31, 2006. As of December 31, 2006, the Company's had assets of \$443,525 and liabilities of \$422,628, a difference of \$45,015. To date, we have relied on financing to operate our business. Management recognizes that the Company must generate or obtain additional capital to enable it to continue operations. The realization of assets and satisfaction of liabilities in the normal course of business is dependent upon the Company's obtaining additional equity capital and ultimately obtaining profitable operations. However, no assurances can be given that the Company will be successful in these activities. Should any of these events not occur, the accompanying consolidated financial statements will be materially affected.

The Company incurred losses since inception until fiscal year ended December 31, 2006. Since October 2005, any shortfall in working capital has been met through advances from the Company's former President, Davy Jones. Prior to October, 2005, other shareholders have advanced funds to pay expenses incurred by the Company from time to time.

On July 25, 2006, the Company entered into a Securities Purchase Agreement with New Millennium Capital Partners II, LLC, AJW Qualified Partners, LLC, AJW Offshore, Ltd. and AJW Partners, LLC. Under the terms of the Securities Purchase Agreement, the Investors purchased an aggregate of (i) \$2,000,000 in callable convertible secured notes and (ii) warrants to purchase 10,000,000 shares of our common stock. The Notes carry an interest rate of 6% per

annum and a maturity date of July 25, 2009. The notes are convertible into the Company's common shares at fifty percent (50%) of the average of the lowest three (3) trading prices for our shares of common stock during the twenty (20) trading day period prior to conversion. However, the Applicable Percentage shall be increased to (i) 55% in the event that a Registration Statement is filed within thirty days of the closing and (ii) 60% in the event that the Registration Statement becomes effective within one hundred and twenty days from the Closing. In addition, the Company has granted the investors a security interest in substantially all of its assets and intellectual property as well as registration rights. In connection with the Securities Purchase Agreement, the Company issued to the Investors seven year warrants to purchase 10,000,000 shares of our common stock at an exercise price of \$0.30. As of December 31, 2006, the Company had convertible debt totaling \$1,000,000. As of December 31, 2006, the Company recorded a discount of \$847,222 for the fair value of the beneficial conversion feature attached to the convertible debt.

On September 11, 2006 a Form SB-2 was filed with the Securities and Exchange Commission. Pursuant to Rule 477 promulgated under the Securities Act of 1933, the Company withdrew the registration Statement on Form SB-2, File No. 333-137231. The basis for the withdrawal was consistent with Rule 415(a)(1)(i).

Cash used by operating activities was \$471,520 for the year ended December 31, 2006, compared to cash provided of \$37,630 for 2005. The increase in cash used was due primarily to the development of our motor sports business.

We used \$450,000 of cash to invest in our unconsolidated subsidiary.

Cash provided by financing activities was \$944,504 during fiscal year 2006, compared to cash provided by financing activities of \$38,377 during the same period in 2005. This difference was mainly due to an increase in convertible debt proceeds in 2006.

Critical Accounting Policies and Estimates

Management's discussion and analysis of the Company's financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires that we make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. At each balance sheet date, management evaluates its estimates. The Company based its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. The estimates and critical accounting policies that are most important in fully understanding and evaluating our financial condition and results of operations include those listed below.

Revenue Recognition

The Company recognizes revenue when services have been provided and collection is reasonably assured.

Stock-Based Compensation

The Company has traditionally accounted for stock-based compensation under the recognition and measurement principles of APB Opinion No. 25, *Accounting for Stock Issued to Employees, and related Interpretations*. Accordingly, no compensation cost is recognized in the financial statements, when options granted under those plans have an exercise price equal to or greater than the market value of the underlying common stock on the date of grant. The Company issued no compensatory options to its employees during the years ended December 31, 2006 and 2005.

In December 2005, the Company adopted the provisions of Statement of Financial Accounting Standards No. 123R, although this statement had no effect on the Company's 2006 financial statements.

Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. Where applicable, SFAS No. 157 simplifies and codifies related guidance within GAAP and does not require any new fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier adoption is encouraged. The Company does not expect the adoption of SFAS No. 157 to have a significant effect on its financial position or results of operation.

In June 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109", which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on de-recognition, classification, interest and penalties,

accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company does not expect the adoption of FIN 48 to have a material impact on its financial reporting, and the Company is currently evaluating the impact, if any, the adoption of FIN 48 will have on its disclosure requirements.

In March 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 156, "Accounting for Servicing of Financial Assets—an amendment of FASB Statement No. 140." This statement requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in any of the following situations: a transfer of the servicer's financial assets that meets the requirements for sale accounting; a transfer of the servicer's financial assets to a qualifying special-purpose entity in a guaranteed mortgage securitization in which the transferor retains all of the resulting securities and classifies them as either available-for-sale securities or trading securities; or an acquisition or assumption of an obligation to service a financial asset that does not relate to financial assets of the servicer or its consolidated affiliates. The statement also requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value, if practicable, and permits an entity to choose either the amortization or fair value method for subsequent measurement of each class of servicing assets and liabilities. The statement further permits, at its initial adoption, a one-time reclassification of available for sale securities to trading securities by entities with recognized servicing rights, without calling into question the treatment of other available for sale securities under Statement 115, provided that the available for sale securities are identified in some manner as offsetting the entity's exposure to changes in fair value of servicing assets or servicing liabilities that a servicer elects to subsequently measure at fair value and requires separate presentation of servicing assets and servicing liabilities subsequently measured at fair value in the statement of financial position and additional disclosures for all separately recognized servicing assets and servicing liabilities. This statement is effective for fiscal years beginning after September 15, 2006, with early adoption permitted as of the beginning of an entity's fiscal year. Management believes the adoption of this statement will have no immediate impact on the Company's financial condition or results of operations.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
American Racing Capital Inc.

We have audited the accompanying balance sheet of American Racing Capital Inc. as of December 31, 2006, and the related statements of operations, stockholders' equity and cash flows through December 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of American Racing Capital Inc. as of December 31, 2006 and the results of its operations and its cash flows through December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company's lack of operations and sources of revenues raises substantial doubt about its ability to continue as a going concern. Management's plans concerning these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. Where applicable, SFAS No. 157 simplifies and codifies related guidance within GAAP and does not require any new fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier adoption is encouraged. The Company does not expect the adoption of SFAS No. 157 to have a significant effect on its financial position or results of operation.

In June 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109", which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Notes to the Financial Statements

NOTE 1 - NATURE OF ORGANIZATION (Continued)

j. Recently Issued Accounting Pronouncements (Continued)

In March 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 156, "Accounting for Servicing of Financial Assets—an amendment of FASB Statement No. 140." This statement requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in any of the following situations: a transfer of the servicer's financial assets that meets the requirements for sale accounting; a transfer of the servicer's financial assets to a qualifying special-purpose entity in a guaranteed mortgage securitization in which the transferor retains all of the resulting securities and classifies them as either available-for-sale securities or trading securities; or an acquisition or assumption of an obligation to service a financial asset that does not relate to financial assets of the servicer or its consolidated affiliates. The statement also requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value, if practicable, and permits an entity to choose either the amortization or fair value method for subsequent measurement of each class of servicing assets and liabilities. The statement further permits, at its initial adoption, a one-time reclassification of available for sale securities to trading securities by entities with recognized servicing rights, without calling into question the treatment of other available for sale securities under Statement 115, provided that the available for sale securities are identified in some manner as offsetting the entity's exposure to changes in fair value of servicing assets or servicing liabilities that a servicer elects to subsequently measure at fair value and requires separate presentation of servicing assets and servicing liabilities subsequently measured at fair value in the statement of financial position and additional disclosures for all separately recognized servicing assets and servicing liabilities. This statement is effective for fiscal years beginning after September 15, 2006, with early adoption permitted as of the beginning of an entity's fiscal year. Management believes the adoption of this statement will have no immediate impact on the Company's financial condition or results of operations.

NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has generated significant losses from operations.

In order to continue as a going concern and achieve a profitable level of operations, the Company will need, among other things, additional capital resources and developing a consistent source of revenues. Management's plans include raising additional operating funds from the private placement of shares of its common stock.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plan described in the preceding paragraph and eventually attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

PROSPECTUS

AMERICAN RACING CAPITAL, INC.

2,187,133 SHARES OF COMMON STOCK

You should rely only on the information contained in this document. We have not authorized anyone to provide you with information that is different. This prospectus is not an offer to sell common stock and is not soliciting an offer to buy common stock in any state where the offer or sale is not permitted.

Until _____, all dealers that effect transactions in these securities whether or not participating in this offering may be required to deliver a prospectus. This is in addition to the dealers' obligation to deliver a Prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.

PART II — INFORMATION NOT REQUIRED IN THE PROSPECTUS**Item 24. Indemnification of Directors and Officers.**

Nevada law permits a corporation, under specified circumstances, to indemnify its directors, officers, employees or agents against expenses (including attorney's fees), judgments, fines and amounts paid in settlements actually and reasonably incurred by them in connection with any action, suit or proceeding brought by third parties by reason of the fact that they were or are directors, officers, employees or agents of the corporation, if these directors, officers, employees or agents acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to any criminal action or proceedings, had no reason to believe their conduct was unlawful. In a derivative action, i.e., one by or in the right of the corporation, indemnification may be made only for expenses actually and reasonably incurred by directors, officers, employees or agent in connection with the defense or settlement of an action or suit, and only with respect to a matter as to which they shall have acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification shall be made if such person shall have been adjudged liable to the corporation, unless and only to the extent that the court in which the action or suit was brought shall determine upon application that the defendant directors, officers, employees or agents are fairly and reasonably entitled to indemnify for such expenses despite such adjudication of liability.

Our Articles of Incorporation provide that, none of our directors shall be liable to us or our stockholders for damages for breach of fiduciary duty, unless such breach involves a breach of duty of loyalty, acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law or involve unlawful payment of dividends or unlawful stock purchases or redemptions, or involves a transaction from which the director derived an improper personal benefit.

In addition, our by-laws provide that we shall indemnify our officers, directors and agents to the fullest extent permissible under Nevada law, and in conjunction therewith, to procure, at our expense, policies of insurance. In addition, our by-laws provide that our directors shall have no liability for monetary damages to the fullest extent permitted under Nevada law.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers, and controlling persons pursuant to the foregoing provisions or otherwise, we have been advised that in the opinion of the Securities Exchange Commission, such indemnification is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by us of expenses incurred or paid by our director, officer, or controlling person in the successful defense of any action, suit or proceeding) is asserted by such director, officer, or controlling person in connection with the securities being registered hereunder, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Item 25. Other Expenses of Issuance and Distribution.

Securities and Exchange Commission registration fee	\$ 9.81
Transfer Agent Fees ⁽¹⁾	\$ 10,000.00

Total ⁽¹⁾	\$ 61,509.81

⁽¹⁾ Estimated

All amounts are estimates other than the Commission's registration fee. We are paying all expenses of the offering listed above. No portion of these expenses will be borne by the selling shareholders. The selling shareholders, however, will pay any other expenses incurred in selling their common stock, including any brokerage commissions or costs of sale.

Item 26. Recent Sales of Unregistered Securities.

On March 26, 2007, we issued to A. Robert Koveleski, 200,000 shares of our common stock for management services rendered. This transaction was exempt from registration pursuant to Section 4(2) of the Securities Act.

On July 26, 2006, we completed a financing agreement by signing a securities purchase agreement for a maximum of \$2,000,000. The initial closing was for financing of the principal amount of \$700,000 for which we issued callable secured convertible notes. The initial funding was undertaken as follows: AJW Capital Partners, LLC - \$67,900; AJW Offshore, Ltd. - \$413,000; AJW Qualified Partners, LLC - \$210,000; and New Millennium Capital Partners II, LLC - \$9,100. Under the securities purchase agreement, we will receive the principal amount of \$600,000 when this SB-2 registration statement is filed with the SEC; and the final principal amount of \$700,000 when this registration statement is declared effective. At both times, we will issue callable secured convertible notes for such amounts. The note is convertible into our common shares at the lowest 3 intra-day trading prices during the 20 trading days immediately prior to the conversion date discounted by 40%. The investors in the financing shall not be entitled to convert the promissory note if such conversion would result in any investor solely owning more than 4.99% of our outstanding shares of common stock.

Based on our recent financing, we have also issued 10,000,000 warrants convertible into shares of our common stock. Each Warrant entitles to holder to one share of our common stock. The warrants were issued as follows: AJW Capital Partners, LLC - 970,000 warrants; AJW Offshore, Ltd. - 5,900,000 warrants; AJW Qualified Partners, LLC - 3,000,000 warrants; and New Millennium Capital Partners II, LLC - 130,000 warrants. The exercise price is \$.30 and is exercisable for seven years from the date of issuance. The warrants have a cashless exercise feature. For the 10,000,000 warrants issued on July 25, 2006, the expiration date is July 25, 2013.

The convertible notes and the warrants (the "Securities") were issued in reliance on the exemption from registration provided by Section 4(2) of the Securities Act. No commissions were paid for the issuance of such Securities. The above issuance of Securities qualified for exemption under Section 4(2) of the Securities Act since the issuance of such shares by us did not involve a public offering. The holders set forth above were each accredited investors and had access to information normally provided in a prospectus regarding us. The offering was not a "public offering" as defined in Section 4(2) due to the insubstantial number of persons involved in the deal, size of the offering, manner of the offering and number of Securities offered. We did not undertake an offering in which we sold a high number of Securities to a high number of investors. In addition, the holders set forth above had the necessary investment intent as required by Section 4(2) since they agreed to receive a share certificate bearing a legend stating that such shares underlying the Securities are restricted pursuant to Rule 144 of the Securities Act. These restrictions ensure that these shares would not be immediately redistributed into the market and therefore not be part of a "public offering." Based on an analysis of the above factors, we have met the requirements to qualify for exemption under Section 4(2) of the Securities Act for the above transaction.

On July 18, 2006, we issued to Lionheart Associates, LLC d/b/a Fairhills Capital 8,000,000 shares of our common stock as compensation for consulting services rendered to us. This transaction was exempt from registration pursuant to Section 4(2) of the Securities Act.

On July 18, 2006, we issued to SW International, LLC 12,000,000 shares of our restricted common stock as compensation for consulting services rendered to us. This transaction was exempt from registration pursuant to Section 4(2) of the Securities Act.

During the year ended December 31, 2005, the Company issued the following unregistered securities: In connection with the consummation of the Company's share exchange transactions with the shareholder of ARCI and ARCD, the Company issued 150,000,00 shares of common stock and 1,000,000 shares of Series A Convertible Preferred Stock to the stockholders of ARCI, and 235,000,000 shares of common stock and 1,000,000 shares of Series A Convertible Preferred Stock to the stockholders of ARCD. This transaction was exempt from registration pursuant to Section 4(2) of the Securities Act.

All of the above issuances of shares of our common stock qualified for exemption under Section 4(2) of the Securities Act since the issuance of such shares by us did not involve a public offering. Each of these shareholders was a sophisticated investor and had access to information regarding us. The offering was not a "public offering" as defined in Section 4(2) due to the insubstantial number of persons involved in the deal, size of the offering, manner of the offering and number of shares offered. We did not undertake an offering in which we sold a high number of shares to a high number of investors. In addition, these shareholders had the necessary investment intent as required by Section 4(2) since they agreed to and received a share certificate bearing a legend stating that such shares are restricted pursuant to Rule 144 of the Securities Act. These restrictions ensure that these shares would not be immediately redistributed into the market and therefore not be part of a "public offering." Based on an analysis of the above factors, we have met the requirements to qualify for exemption under Section 4(2) of the Securities Act for the above transactions.
