

BEAR STEARNS COMPANIES INC
Form 424B2
February 20, 2008

Filed pursuant to Rule 424(b)(2)
Registration No. 333-136666
Subject to Completion, dated February 20, 2008
PRICING SUPPLEMENT
(To Prospectus dated August 16, 2006 and
Prospectus Supplement dated August 16, 2006)

This preliminary pricing supplement relates to an effective registration statement under the Securities Act of 1933, but is not complete and may be changed. We may not sell these securities until we deliver a final pricing supplement. This preliminary pricing supplement, the accompanying prospectus supplement and prospectus are not an offer to sell these securities and are not soliciting an offer to buy these securities in any state where such an offer or sale would not be permitted.

The Bear Stearns Companies Inc.

[\$1] Medium-Term Notes, Series B, Linked to the Standard and Poor's 500[®] Index

Due March [1], 2009

- The Notes are fully principal protected if held to maturity and are linked to the performance of the Standard and Poor's 500[®] Index (the "Index").
 - When we refer to Notes in this pricing supplement, we mean Notes with a principal amount of \$1,000.
- On the Maturity Date, you will receive the "Cash Settlement Value," which is an amount in cash equal to the principal amount of each Note plus a "Variable Return", where the Variable Return is calculated in the following manner:
 - if, at all times during the Observation Period, the Closing Level is observed below the Upper Barrier and above the Lower Barrier, then the Variable Return will equal the product of (i) the \$1,000 principal amount of the Notes multiplied by (ii) the Participation Rate multiplied by (iii) the Index Return;
 - however, if at any time during the Observation Period the Closing Level is observed at or above the Upper Barrier or at or below the Lower Barrier, then the Variable Return will be equal to zero.
- The Index Return, on the Final Valuation Date, will equal the absolute value of the quotient of (i) the Final Index Level minus the Initial Index Level divided by (ii) the Initial Index Level.

The Participation Rate is [115-120]%.
·

The Upper Barrier is [1], 120.00% of the Initial Index Level.
·

The Lower Barrier is [1], 80.00% of the Initial Index Level.
·

The CUSIP number for the Notes is 0739282Q5.
·

The Notes will not pay interest during their term.
·

The Notes will not be listed on any securities exchange or quotation system.

- The Maturity Date for the Notes is expected to be March [1], 2009. If the Final Valuation Date is postponed, the Maturity Date will be three Business Days following the postponed Final Valuation Date.
- The Observation Period will be each day which is an Index Business Day for the Index from and including the Pricing Date to and including the Final Valuation Date.
- The scheduled Final Valuation Date for the Notes is March [1], 2009. The Final Valuation Date is subject to adjustment as described herein.

INVESTMENT IN THE NOTES INVOLVES CERTAIN RISKS. THERE MAY NOT BE AN ACTIVE SECONDARY MARKET IN THE NOTES, AND IF THERE WERE TO BE AN ACTIVE SECONDARY MARKET, IT MAY NOT BE LIQUID, AND THEREFORE THE NOTES THEMSELVES ARE NOT, AND WOULD NOT BE, LIQUID. YOU SHOULD REFER TO "RISK FACTORS" BEGINNING ON PAGE PS-10.

"Standard & Poor[®]", "S&P", "S&P 500", "Standard & Poor's 500", and "500" are trademarks of Standard & Poor's, a division of The McGraw-Hill Companies, Inc. ("S&P") and have been, or will be, licensed for use for certain purposes by The Bear Stearns Companies Inc. The Notes are not sponsored, endorsed, sold or promoted by S&P, and S&P makes no

representation regarding the advisability of investing in the Notes.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the Notes or determined that this pricing supplement, or the accompanying prospectus supplement and prospectus, is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Note	Total
Initial public offering price	[1]%	\$(1)
Agent's discount	[1]%	\$(1)
Proceeds, before expenses, to us	[1]%	\$(1)

Any additional reissuances will be offered at a price to be determined at the time of pricing of each offering of Notes, which will be a function of the prevailing market conditions and the level of the Index at the time of the relevant sale.

We expect that the Notes will be ready for delivery in book-entry form only through the book-entry facilities of The Depository Trust Company in New York, New York, on or about March [1], 2008, against payment in immediately available funds. The distribution of the Notes will conform to the requirements set forth in NASD Rule 2720 of the Financial Industry Regulatory Authority, Inc. Conduct Rules.

We may grant our affiliate Bear, Stearns & Co. Inc. a 13-day option from the date of this pricing supplement to purchase from us up to an additional \$(1) of Notes at the public offering price to cover any over-allotments.

Bear, Stearns & Co. Inc.

March [1], 2008

SUMMARY

This summary highlights selected information from the accompanying prospectus, prospectus supplement and this pricing supplement to help you understand the Notes linked to the Index. You should carefully read this entire pricing supplement and the accompanying prospectus supplement and prospectus to fully understand the terms of the Notes, as well as certain tax and other considerations that are important to you in making a decision about whether to invest in the Notes. You should carefully review the section “Risk Factors” in this pricing supplement and “Risk Factors” in the accompanying prospectus supplement which highlight a number of significant risks, to determine whether an investment in the Notes is appropriate for you. All of the information set forth below is qualified in its entirety by the more detailed explanation set forth elsewhere in this pricing supplement and the accompanying prospectus supplement and prospectus. If information in this pricing supplement is inconsistent with the prospectus or prospectus supplement, this pricing supplement will supersede those documents. In this pricing supplement, the terms “we,” “us” and “our” refer only to The Bear Stearns Companies Inc. excluding its consolidated subsidiaries.

The Bear Stearns Companies Inc. Medium-Term Notes, Series B, Linked to the Standard and Poor’s 500® Index, due March [1], 2009 (the “Notes”) are Notes whose return is tied or “linked” to the performance of the Index. When we refer to Note or Notes in this pricing supplement, we mean \$1,000 principal amount of Notes. The Notes are fully principal protected if held to maturity. On the Maturity Date, you will receive the “Cash Settlement Value,” which is an amount in cash equal to the \$1,000 principal amount of each Note plus a “Variable Return”, where the Variable Return is calculated in the following manner: (a) if at all times during the Observation Period the Closing Level is observed below the Upper Barrier and above the Lower Barrier, then the Variable Return will equal the product of (i) the \$1,000 principal amount of the Notes multiplied by (ii) the Participation Rate multiplied by (iii) the Index Return; however, (b) if at any time during the Observation Period the Closing Level is observed at or above the Upper Barrier or at or below the Lower Barrier, then the Variable Return will be equal to zero. The Index Return, on the Final Valuation Date, will equal the absolute value of the quotient of (i) the Final Index Level minus the Initial Index Level divided by (ii) the Initial Index Level.

Selected Investment Considerations

- Principal protection—Because the Notes are principal protected if held to maturity, in no event will you receive a Cash Settlement Value less than \$1,000 per Note, if you hold your Notes to maturity. If, at any time during the Observation Period, the Closing Level is observed at or above the Upper Barrier or at or below the Lower Barrier, you will receive the principal amount of the Notes at maturity.
- Potential positive Variable Return with positive or negative performance of the Index—The closer to the Upper Barrier or the Lower Barrier that the Final Index Level is at maturity (provided that the Closing Level was never observed at or above the Upper Barrier or at or below the Lower Barrier during the Observation Period), the greater the Cash Settlement Value you will receive under the Notes.
 - Diversification—Because the Index represents a broad spectrum of the United States equity market, the Notes may allow you to diversify an existing portfolio.
- Taxes—We intend to treat each Note as a “short-term obligation” for federal income tax purposes. Pursuant to the terms of the Notes, you agree to treat the Notes in accordance with this characterization for all U.S. federal income tax purposes. However, because there are no regulations, published rulings or judicial decisions addressing the characterization for U.S. federal income tax purposes of securities with terms that are substantially the same as those of the Notes, the Notes may be treated as “contingent payment debt instruments” for federal income tax purposes. You should review the discussion under the section entitled “Certain U.S. Federal Income Tax Considerations - Possible Treatment of the Notes as Contingent Payment Debt Instruments” below.

PS-2

Selected Risk Considerations

- Non-conventional return—The yield on the Notes may be less than the overall return you would earn if you purchased a conventional debt security at the same time and with the same maturity.
- No interest, dividend or other payments—You will not receive any interest, dividend payments or other distributions on the stocks underlying the Index, nor will such payments be included in the calculation of the Cash Settlement Value you will receive at maturity.
- Not exchange listed—The Notes will not be listed on any securities exchange or quotation system, and we do not expect a trading market to develop, which may affect the price that you receive for your Notes upon any sale prior to maturity. If you sell the Notes prior to maturity, you may receive less, and possibly significantly less, than your initial investment in the Notes.
- Liquidity—Because the Notes will not be listed on any securities exchange or quotation system, we do not expect a trading market to develop, and, if such a market were to develop, it may not be liquid. Our subsidiary, Bear, Stearns & Co. Inc. has advised us that they intend under ordinary market conditions to indicate prices for the Notes on request. However, we cannot guarantee that bids for outstanding Notes will be made in the future; nor can we predict the price at which those bids will be made. In any event, Notes will cease trading as of the close of business on the Maturity Date.

PS-3

KEY TERMS

- Issuer:** The Bear Stearns Companies Inc.
- Index:** Standard & Poor's 500® Index (ticker "SPX"), as published by S&P (the "Sponsor").
- Face amount:** The Notes will be denominated in U.S. dollars. Each Note will be issued in minimum denominations of \$1,000 and \$1,000 multiples thereafter; provided, however, that the minimum purchase for any purchaser domiciled in a Member state of the European Economic Area shall be \$100,000. The aggregate principal amount of the Notes being offered is \$[1]. When we refer to "Note" or "Notes" in this pricing supplement, we mean Notes each with a principal amount of \$1,000.
- Further issuances:** Under certain limited circumstances, and at our sole discretion, we may offer further issuances of the Notes. These further issuances, if any, will be consolidated to form a single series with the Notes and will have the same CUSIP number and will trade interchangeably with the Notes immediately upon settlement.
- Cash Settlement Value:** On the Maturity Date, you will receive the Cash Settlement Value which is an amount in cash equal to the \$1,000 principal amount of each Note plus the Variable Return.
- Variable Return:** An amount determined by the Calculation Agent and calculated in the following manner:
- (a) if at all times during the Observation Period the Closing Level is observed below the Upper Barrier and above the Lower Barrier, then the Variable Return will equal the product of (i) the \$1,000 principal amount of the Notes multiplied by (ii) the Participation Rate multiplied by (iii) the Index Return,
 - (b) however, if at any time during the Observation Period the Closing Level is observed at or above the Upper Barrier or at or below the Lower Barrier, then the Variable Return will be equal to zero.
- For purposes of determining the Variable Return:
- "Index Return"* means, with respect to the Final Valuation Date, the absolute value of the quotient of (i) the Final Index Level minus the Initial Index Level divided by (ii) the Initial Index Level.
- "Upper Barrier"* equals [1], 120.00% of the Initial Index Level.
- "Lower Barrier"* equals [1], 80.00% of the Initial Index Level.

“*Closing Level*” means, as of any date of determination during the Observation Period, the closing level of the Index as reported by the Sponsor and displayed on Bloomberg Page SPX <Index> <GO>.

“*Observation Period*” means each day which is an Index Business Day for the Index from and including the Pricing Date to and including the Final Valuation Date.

“*Initial Index Level*” equals [1], the Closing Level on the Pricing Date.

“*Final Index Level*” will be determined by the Calculation Agent and will equal the Closing Level on the Final Valuation Date.

Interest: The Notes will not bear interest.

Participation Rate: [115-120]%

Pricing Date: February [1], 2008.

Final Valuation Date: March [1], 2009; provided that (i) if such date is not an Index Business Day (as defined herein), then the Final Valuation Date will be the next succeeding day that is an Index Business Day and (ii) if a Market Disruption Event (as defined herein) exists on the Final Valuation Date, the Final Valuation Date will be the next Index Business Day on which a Market Disruption Event does not exist for the Index. If the Final Valuation Date is postponed for three consecutive Index Business Days due to the existence of a Market Disruption Event, then, notwithstanding the existence of a Market Disruption Event on that third Index Business Day, that third Index Business Day will be the Final Valuation Date.

- Maturity Date:** The Notes are expected to mature on March [1], 2009 unless such date is not a Business Day, in which case the Maturity Date shall be the next Business Day. If the Final Valuation Date is postponed, the Maturity Date will be three Business Days following the postponed Final Valuation Date.
- Exchange listing:** The Notes will not be listed on any securities exchange or quotation system.
- Index Business Day:** Means, with respect to the Index, any day on which the Primary Exchange (as defined below) and each Related Exchange (as defined below) are scheduled to be open for trading.
- Primary Exchange:** The primary exchange or market of trading of any security then included in the Index.
- Related Exchange:** Each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to the Index.
- Business Day:** Means any day other than a Saturday or Sunday, on which banking institutions in the cities of New York, New York and London, England are not authorized or obligated by law or executive order to be closed.
- Calculation Agent:** Bear, Stearns & Co. Inc. (“Bear Stearns”). See the section “Description of the Notes - Calculation Agent” herein.

PS-5

Offers and sales of the Notes are subject to restrictions in certain jurisdictions. The distribution of this pricing supplement, the accompanying prospectus supplement and prospectus and the offer or sale of the Notes in certain other jurisdictions may be restricted by law. Persons who come into possession of this pricing supplement and the accompanying prospectus supplement and prospectus or any Notes must inform themselves about and observe any applicable restrictions on the distribution of this pricing supplement, the accompanying prospectus supplement and prospectus and the offer and sale of the Notes. Notwithstanding the minimum denomination of \$1,000, the minimum purchase for any purchaser domiciled in a member state of the European Economic Area shall be \$100,000.

QUESTIONS AND ANSWERS

What are the Notes?

The Notes are a series of our senior debt securities, the value of which is linked to the performance of the Index. The Notes will not bear interest, and no other payments will be made prior to maturity. See the section “Risk Factors” for selected risk considerations prior to making an investment in the Notes.

The Notes are expected to mature on March [1], 2009. The Notes do not provide for earlier redemption. When we refer to Notes in this pricing supplement, we mean Notes each with a principal amount of \$1,000. You should refer to the section “Description of Notes” for a detailed description of the Notes prior to making an investment in the Notes.

What does “principal protected” mean?

“Principal protected” means that your principal investment in the Notes will not be at risk if you hold the Notes to maturity. If, at any time during the Observation Period the Closing Level is observed at or above the Upper Barrier or at or below the Lower Barrier, you will receive the principal amount of the Notes at maturity. You may receive less than the principal amount of the Notes if you sell your Notes prior to maturity.

Are there any risks associated with my investment?

Yes. The Notes are subject to a number of risks. You should refer to the section “Risk Factors” in this pricing supplement and the section “Risk Factors” in the accompanying prospectus supplement.

What will I receive at maturity of the Notes?

We have designed the Notes for investors who want to protect their investment by receiving at least 100% of the principal amount of their Notes at maturity. On the Maturity Date, you will receive the “Cash Settlement Value,” which is an amount in cash equal to the principal amount of each Note plus a “Variable Return”, where the Variable Return is calculated in the following manner: (a) if at all times during the Observation Period the Closing Level is observed below the Upper Barrier and above the Lower Barrier, then the Variable Return will equal the product of (i) the \$1,000 principal amount of the Notes multiplied by (ii) the Participation Rate multiplied by (iii) the Index Return, (b) however, if at any time during the Observation Period the Closing Level is observed at or above the Upper Barrier or at or below the Lower Barrier, then the Variable Return will be equal to zero. The Index Return, on the Final Valuation Date, will equal the absolute value of the quotient of (i) the Final Index Level minus the Initial Index Level divided by (ii) the Initial Index Level.

For more specific information about the Cash Settlement Value and for illustrative examples, you should refer to the section “Description of the Notes.”

Will there be an additional offering of the Notes?

Under certain limited circumstances, and at our sole discretion, we may offer further issuances of the Notes. These further issuances, if any, will be consolidated to form a single series with the Notes and will have the same CUSIP number and will trade interchangeably with the Notes immediately upon settlement. Any additional issuance will increase the aggregate principal amount of the outstanding Notes of this series to include the aggregate principal amount of any Notes bearing the same CUSIP number that are issued pursuant to (i) any 13-day option we grant to Bear, Stearns & Co. Inc., and (ii) any future issuances of Notes bearing the same CUSIP number. The price of any additional offerings will be determined at the time of pricing of each offering, which will be a function of the prevailing market conditions and level of the Index at the time of the relevant sale.

PS-6

Will I receive interest on the Notes?

You will not receive any periodic interest payments on the Notes. The only payment you will receive, if any, will be the Cash Settlement Value upon the maturity of the Notes.

What is the Index?

Unless otherwise stated, all information on the Index that is provided in this pricing supplement is derived from the Sponsor or other publicly available sources. The Index is a capitalization-weighted index and is intended to provide an indication of the pattern of common stock price movement. The calculation of the level of the Index, discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943.

As of February 19, 2008, the common stocks of 424 companies, or 84.80% of the market capitalization of the Index, were traded on the New York Stock Exchange (“NYSE”); the common stocks of 76 companies, or 15.20% of the market capitalization of the Index, were traded on The NASDAQ Global Select Market or the NASDAQ Global Market (collectively, the “NASDAQ”). As of that date, none of the common stocks included in the Index were companies traded on the American Stock Exchange (“AMEX”).

For more information, see the section “Description of the Index.”

How has the Index performed historically?

We have provided tables and graphs depicting the monthly performance of the Index from January 1999 through January 2008. You can find these tables and graphs in the section “Description of the Index - Historical Data on the Index.” We have provided this historical information to help you evaluate the behavior of the Index in various economic environments; however, past performance is not indicative of the manner in which the Index will perform in the future. You should refer to the section “Risk Factors - The historical performance of the Index is not an indication of the future performance of the Index.”

Will the Notes be listed on a securities exchange?

The Notes will not be listed on any securities exchange or quotation system and we do not expect a trading market to develop, which may affect the price that you receive for your Notes upon any sale prior to maturity. Bear Stearns has advised us that they intend under ordinary market conditions to indicate prices for the Notes on request. However, we cannot guarantee that bids for outstanding Notes will be made in the future; nor can we predict the price at which those bids will be made. In any event, the Notes will cease trading as of the close of business on the Maturity Date. You should refer generally to the section “Risk Factors.” If you sell the Notes prior to maturity, you may receive less, and possibly significantly less, than your initial investment in the Notes.

What is the role of Bear, Stearns & Co. Inc.?

Bear Stearns will be our agent for the offering and sale of the Notes. After the initial offering, Bear Stearns intends to buy and sell the Notes to create a secondary market for holders of the Notes, and may stabilize or maintain the market price of the Notes during the initial distribution of the Notes. However, Bear Stearns will not be obligated to engage in any of these market activities or to continue them once they are begun.

Bear Stearns will also be our Calculation Agent for purposes of calculating the Cash Settlement Value. Under certain circumstances, these duties could result in a conflict of interest between Bear Stearns' status as our subsidiary and its responsibilities as Calculation Agent. You should refer to "Risk Factors - The Calculation Agent is one of our affiliates, which could result in a conflict of interest."

PS-7

Can you tell me more about The Bear Stearns Companies Inc.?

We are a holding company that, through our broker-dealer and international bank subsidiaries, principally Bear Stearns, Bear, Stearns Securities Corp., Bear, Stearns International Limited (“BSIL”) and Bear Stearns Bank plc, is a leading investment banking, securities and derivatives trading, clearance and brokerage firm serving corporations, governments, institutional and individual investors worldwide. For more information about us, please refer to the section “The Bear Stearns Companies Inc.” in the accompanying prospectus. You should also read the other documents we have filed with the Securities and Exchange Commission, which you can find by referring to the section “Where You Can Find More Information” in the accompanying prospectus.

Who should consider purchasing the Notes?

Because the Notes are tied to the performance of an underlying equity index, they may be appropriate for investors with specific investment horizons who seek to participate in the Index Return at maturity. In particular, the Notes may be an attractive investment for investors who:

- want potential exposure to up or down price movements of the stocks underlying the Index;
- believe the Closing Level will not be observed at or above the Upper Barrier or at or below the Lower Barrier at any time during the Observation Period;
- do not want to place their principal at risk and are willing to hold the Notes until maturity; and
- are willing to forgo current income in the form of interest payments on the Notes or dividend payments on the stocks underlying the Index.

The Notes may not be a suitable investment for investors who:

- believe the Closing Level will be observed at or above the Upper Barrier or at or below the Lower Barrier at any time during the Observation Period;
- seek current income or dividend payments from your investment;
- seek an investment with an active secondary market; or
- are unable or unwilling to hold the Notes until maturity.

What are the U.S. federal income tax consequences of investing in the Notes?

We intend to treat each Note as a “short-term obligation” for federal income tax purposes. Pursuant to the terms of the Notes, you agree to treat the Notes in accordance with this characterization for all U.S. federal income tax purposes. However, because there are no regulations, published rulings or judicial decisions addressing the characterization for U.S. federal income tax purposes of securities with terms that are substantially the same as those of the Notes, the Notes may be treated as “contingent payment debt instruments” for federal income tax purposes. You should review the discussion under the section entitled “Certain U.S. Federal Income Tax Considerations - Possible Treatment of the Notes as Contingent Payment Debt Instruments” below.

Does ERISA impose any limitations on purchases of the Notes?

An employee benefit plan subject to the fiduciary responsibility provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), a plan that is subject to Section 4975 of the Internal Revenue Code of 1986, as amended (the “Code”), including individual retirement accounts, individual retirement annuities or Keogh plans, a governmental or other plan subject to any similar law or any entity the assets of which are deemed to be “plan assets” under ERISA, Section 4975 of the Code, any applicable regulations or otherwise, will be permitted to purchase, hold and dispose of the Notes, subject to certain conditions. Such investors should carefully review the discussion under “Certain ERISA Considerations” herein before investing in the Notes.

PS-8

RISK FACTORS

Your investment in the Notes involves a degree of risk similar to investing in the Index. However, your ability to participate in the performance of the Index is limited. You will be subject to significant risks not associated with conventional fixed-rate or floating-rate debt securities. Prospective purchasers of the Notes should understand the risks of investing in the Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of the Notes in light of their particular financial circumstances, the following risk factors and the other information set forth in this pricing supplement and the accompanying prospectus supplement and prospectus. We have no control over a number of matters that may affect the value of the Notes, including economic, financial, regulatory, geographic, judicial and political events, and that are important in determining the existence, magnitude, and longevity of these risks and their influence on the value of, or the payment made on, the Notes.

Your Notes are principal protected only if you hold the Notes until maturity.

If you sell your Notes prior to maturity, you may receive less than your initial investment in the Notes.

You will not receive any interest payments on the Notes. Your yield may be lower than the yield on a conventional debt security of comparable maturity.

You will not receive any periodic payments of interest or any other periodic payments on the Notes. On the Maturity Date, you will receive a payment per Note, if any, equal to the Cash Settlement Value. Thus, the overall return you earn on your Notes may be less than that you would have earned by investing in a non-indexed debt security of comparable maturity that bears interest at a prevailing market rate and is principal protected. For more specific information about the Cash Settlement Value and for illustrative examples, you should refer to the section "Description of the Notes."

You must rely on your own evaluation of the merits of an investment linked to the Index.

In the ordinary course of our business, we may from time to time express views on expected movements in the Index and in the stocks underlying the Index. These views may vary over differing time horizons and are subject to change without notice. Moreover, other professionals who deal in the equity markets may at any time have views that differ significantly from ours. In connection with your purchase of the Notes, you should investigate the Index and the stocks that underlie the Index and not rely on our views with respect to future movements in these industries and stocks. You should make such investigation as you deem appropriate as to the merits of an investment linked to the Index.

Your yield will not reflect dividends on the underlying stocks that comprise the Index.

The Index does not reflect the payment of dividends on the stocks underlying it. Therefore, the yield based on the Index to the maturity of the Notes will not produce the same yield as if you had purchased such underlying stocks and held them for a similar period. You should refer to the section "Description of the Notes" for a detailed description of the Notes prior to making an investment in the Notes.

The amount you receive at maturity may not be greater than your initial investment in the Notes.

If at any time during the Observation Period the Closing Level is observed at or above the Upper Barrier or at or below the Lower Barrier, the Variable Return on the Notes will be equal to zero and you will only receive the \$1,000 principal amount of the Notes for each Note you hold to maturity.

Your ability to participate in the performance of the Index is limited.

Your ability to participate in the performance of the Index Return over the term of the Notes is limited to the range between the Upper Barrier and the Lower Barrier. In no event will the Variable Return equal or exceed \$[230.00 - 240.00] per Note (with a corresponding Cash Settlement Value of \$[1,230.00-1,240.00] per Note) because if the Closing Level at any time during the Observation Period is observed at or above the Upper Barrier or at or below the Lower Barrier, then the Variable Return will be equal to zero. See “Description of the Notes—Illustrative Examples” herein.

PS-9
