LAPIS TECHNOLOGIES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In Thousands, Except Per Share Amounts)
MARCH 31, 2009

NOTE 1 - DESCRIPTION OF BUSINESS

Lapis Technologies, Inc. (the “Company”) was incorporated in the State of Delaware on January 31, 2002. The Company was originally named Enertec Electronics, Inc. and on April 23, 2002 changed its name to Opal Technologies, Inc. which changed its name to Lapis Technologies, Inc. on October 3, 2002. The Company’s operations are conducted through its wholly-owned Israeli Subsidiary, Enertec Electronics Ltd. (“Enertec”) and its majority owned Israeli subsidiary Enertec Systems 2001 LTD (“Systems”). Enertec is engaged in the manufacturing, distribution and marketing of electronic components and products relating to power supplies, converters and related power conversion products, automatic test equipment, simulators and various military and airborne systems, within the State of Israel.

NOTE 2 – BASIS OF PRESENTATION AND CONSOLIDATION

The accompanying unaudited consolidated financial statements and related footnotes have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial statements and pursuant to the rules and regulations of the Securities and Exchange Commission for Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For further information read the financial statements and footnotes thereto included in the Company's Annual Report to be filed in accordance with the rules and regulations of the Securities and Exchange Commission on Form 10-K for the year ended December 31, 2008. The results of operations for the three months ended March 31, 2009 are not necessarily indicative of the operating results that may be expected for the year ending December 31, 2009.

The accompanying financial statements include the accounts of the Company and their ownership interest in its subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Stock based compensation

The Company has adopted Statement of Financial Accounting Statement (“SFAS”) No. 148, “Accounting for Stock-Based Compensation-Transition and Disclosure” (“SFAS 148”). SFAS 148 amends SFAS No. 123 “Accounting for Stock-Based Compensation” (“SFAS 123”), and provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. The Company has adopted the fair value method of accounting as discussed in SFAS 123 as of January 1, 2003. Accordingly, stock options, when issued, will be recorded in accordance with the terms of that document.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial

statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

(In Thousands, Except Per Share Amounts)
MARCH 31, 2009

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Recent Accounting Pronouncements

In July 2006, the FASB issued Interpretation No. 48, "Accounting for Uncertainty in Income Taxes – An Interpretation of FASB Statement 109," ("FIN 48"). FIN 48 prescribes a comprehensive model as to how a company should recognize, measure, present and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on a tax return. The adoption of FIN 48 is effective January 1, 2007. The Company has determined there will be no effect on their financial statements.

In June 2006, the FASB ratified the Emerging Issues Task Force ("EITF") consensus on EITF Issue No. 06-2, "Accounting for Sabbatical Leave and Other Similar Benefits Pursuant to FASB Statement No. 43." EITF Issue No. 06-2 requires companies to accrue the costs of compensated absences under a sabbatical or similar benefit arrangement over the requisite service period. EITF Issue No. 06-2 is effective for us beginning July 1, 2007. The cumulative effect of the application of this consensus on prior period results should be recognized through a cumulative-effect adjustment to retained earnings as of the beginning of the year of adoption. Elective retrospective application is also permitted. The application of this consensus won't have a material impact on our financial statements.

In September 2006, the Financial Accounting Standards Board ("FASB") issued SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106 and 132(R)," ("FAS 158"). Among other things, FAS 158 requires companies to prospectively recognize a net liability or asset and to report the funded status of their defined benefit pension and other postretirement benefit plans on their balance sheets, with an offsetting adjustment to accumulated other comprehensive income; such recognition will not affect the Company's statement of income. The adoption of FAS 158 is effective for the year ending December 31, 2006. The Company has determined there will be no effect on their financial statements.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities—Including an Amendment of FASB Statement No. 115." This Standard allows entities to voluntarily choose, at specified election dates, to measure many financial assets and financial liabilities (as well as certain non-financial instruments that are similar to financial instruments) at fair value. The election is made on an instrument-by-instrument basis and is irrevocable. If the fair value option is elected for an instrument, the Statement specifies that all subsequent changes in fair value for that instrument shall be reported in earnings. SFAS No. 159 is effective for ATMI beginning on January 1, 2008. We are currently evaluating the impact this new Standard could have on our financial position and results of operations.

In December 2007 the FASB issued SFAS No. 160 "Non-controlling Interests in Consolidated Financial Statements". FAS 160 seeks to improve the relevance, comparability, and transparency of the financial information that a reporting entity provides in its consolidated financial statements by establishing accounting and reporting standards. This statement is effective for fiscal years beginning after December 15, 2008. The Company has not yet determined what the effect will be, if any, on their financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In Thousands, Except Per Share Amounts)
MARCH 31, 2009

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Recent Accounting Pronouncements

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying consolidated financial statements.

NOTE 4 – PROVISION FOR INCOME TAXES –

The income tax expense for the three months ended March 31, 2009 is based upon the income tax laws of Israel. Israeli tax law does not allow a parent company to offset its' income with losses from any of its subsidiaries.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," the negative of such terms, or other comparable terminology. These statements are only predictions. Actual events or results may differ materially from those in the forward-looking statements as a result of various important factors. Although we believe that the expectations reflected in the forward-looking statements are reasonable, such statements should not be regarded as a representation by Lapis Technologies, Inc., or any other person, that such forward-looking statements will be achieved. The business and operations of Lapis Technologies, Inc. and its subsidiaries are subject to substantial risks, which increase the uncertainty inherent in the forward-looking statements contained in this Report. Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by these forward-looking statements, including our plans, objectives, expectations and intentions and other factors discussed under "Risk Factors," included in our Registration Statement on Form 10-K filed with the Securities and Exchange Commission on March 31, 2009.

The following discussion and analysis should be read in conjunction with the Consolidated Financial Statements and related notes included elsewhere in this Report.

Overview.

We were formed in Delaware on January 31, 2002 under the name Enertec Electronics, Inc. and have filed two certificates of amendment changing our name to Opal Technologies, Inc. and then to Lapis Technologies, Inc. We conduct operations in Israel through our wholly owned subsidiary, Enertec Electronics Limited ("Enertec Electronics"), an Israeli corporation formed on December 31, 1991, and Enertec Systems 2001 LTD ("Enertec Systems"), an Israeli corporation formed on August 28, 2001, of which we have a 73% equity interest. We are manufacturers and distributors of various military and airborne systems, simulators, automatic test equipment (ATE), electronic components and products related to power supplies, converters and other power conversion products.

Liquidity and Capital Resources

As of March 31, 2009, our cash balance was \$778,000 as compared to \$521,000 at March 31, 2008. Total current assets at March 31, 2009 were \$8,087,000 as compared to \$10,220,000 at March 31, 2008. The decrease in current assets is mainly due to the decrease in accounts receivable and inventories partly offset by the increase in cash balance.

Our accounts receivable at March 31, 2009 was \$3,410,000 as compared to \$5,221,000 at March 31, 2008. The change in accounts receivable is primarily due to improved payment terms of several orders and the increase in USD/Shekel exchange rate since most of the receivables are in Shekels. The USD/Shekel exchange rate increased by 17.94% from 3.535 as of March 31, 2008 to 4.188 as of March 31, 2009.

As of March 31, 2009 our working capital was \$1,433,000 as compared to \$1,610,000 at March 31, 2008. The decrease in working capital is mainly due to a larger decrease in current assets than the decrease in current liabilities.

There was no current portion of long-term debt at March 31, 2009 as compared to \$217,000 as of March 31, 2008.

Edgar Filing: LAPIS TECHNOLOGIES INC - Form 10-Q

At March 31, 2009 our total bank debt was \$4,709,000 as opposed to \$6,122,000 at the end of March 31, 2008. These funds were borrowed as follows: \$3,812,000 as various short term bank loans due through 2010, \$1,000 of long term debt due through 2010 and \$896,000 using our bank lines of credit. As a result, we decreased the amount borrowed for the three-month period ended March 31, 2009 by \$1,413,000. The decrease in bank debt is mainly due to the decrease in accounts receivable and the increase in USD/Shekel exchange rate since the loans are in Shekels. The USD/Shekel exchange rate increased by 17.94% from 3.535 as of March 31, 2008 to 4.188 as of March 31, 2009.

As of March 31, 2009, we are current with all of our bank debt and compliant with all the terms of our bank debt.

Financing Needs

Although we currently do not have any material commitments for capital expenditures, we expect our capital requirements to increase over the next several years as we continue to develop and test our suite of products, increase marketing and administration infrastructure, and embark on developing in-house business capabilities and facilities. Our future liquidity and capital funding requirements will depend on numerous factors, including, but not limited to, the levels and costs of our research and development initiatives, the cost of hiring and training additional sales and marketing personnel to promote our products and the cost and timing of the expansion of our marketing efforts.

Based on our current business plan, we anticipate that our existing cash balances and cash generated from future sales will be sufficient to permit us to conduct our operations and to carry out our contemplated business plans for the next twelve months. However, management may undertake additional debt or equity financings to better enable Lapis to grow and meet its future operating and capital requirements. Currently, the only external sources of liquidity are our banks, and we may seek additional financing from them or through securities offerings to expand our operations, using new capital to develop new products, enhance existing products or respond to competitive pressures.

Results of Operations

Three Months Ended March 31, 2009 Compared to Three Months Ended March 31, 2008

Revenues for the three months ended March 31, 2009 were \$2,119,000 as compared to \$2,401,000 for the three months ended March 31, 2008. This represents a decrease of \$282,000 or 11.7% comparing the two periods. The decrease in revenue for the three months ended March 31, 2009 is mainly the result of the increase in USD/Shekel exchange rate. The average USD/Shekel exchange rate increased by 12% from 3.623 as of March 31, 2008 to 4.058 as of March 31, 2009. The increase in the revenues of the military business was offset by the decrease in the revenues in the commercial field.

Gross profit increased by \$49,000 or 9.9%, to \$543,000 for the three months ended March 31, 2009 as compared to \$494,000 for the three months ended March 31, 2008. The increase in gross profit is primarily the result of a higher decrease in cost of sales as compared to the decrease in sales.

Gross profit as a percentage of sales for the three months ended March 31, 2009 was 25.6% as compared to 20.6% for the three month ended March 31, 2008. The increase in gross profit as a percentage of sales is mainly a result of the increase in sales of serial production products in the military field. Serial production products have higher profit margin.

For the three months ended March 31, 2009, Selling, General and Administrative expenses totaled \$350,000. This was a decrease of \$234,000 or 40.1% as compared to the same period 2008. The decrease in selling, general and administrative expenses is mainly a result of the decrease in professional services expenses and the increase in USD/Shekel exchange rate.

For the three months ended March 31, 2008, Research and Development expenses were \$21,000 as compared to \$22,000 for the three months ended March 31, 2008. This represents a decrease of \$1,000 or 4.5% comparing the two periods. The decrease in R&D expenses for the three months ended March 31, 2009 is primarily the result of the increase in USD/Shekel exchange rate.

Interest expense was \$79,000 and \$117,000 for the three months ended March 31, 2009 and 2008, respectively. This was a decrease of \$38,000, or 32.5%. The main reason for this decrease was the decrease in total bank debt and the decrease in the interest rate.

Our net profit was \$86,000 for the three months ended March 31, 2009 compared to a net loss of \$200,000 for the three months ended March 31, 2008. The increase in profitability for the three months ended March 31, 2009 is mainly due to the increase in the gross profit and the decrease in the operating expenses and of the interest expenses.

At March 31, 2009, we had two customers that accounted for approximately 64.2% of accounts receivable. For the three-month periods ended March 31, 2009 and 2008 approximately 70.0% and 52.4% of our sales were to two customers, respectively.

Off-Balance Sheet Arrangements

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, and results of operations, liquidity or capital expenditures.

Critical Accounting Policies

Concentration of Credit Risk - Concentrations of credit risk with respect to trade receivables are limited to customers dispersed primarily across Israel. All trade receivables are concentrated in the manufacturing and distribution of electronic components segment of the economy; accordingly the Company is exposed to business and economic risk. Although the Company does not currently foresee a concentrated credit risk associated with these trade receivables, repayment is dependent upon the financial stability of this segment of the economy.

Revenue Recognition and Customer Deposits - Revenue is recorded as product is shipped, the price has been fixed or determined, collectibility is reasonably assured and all material specific performance obligations have been completed. The product sold by the Company is made to the specifications of each customer; sales returns and allowances are allowed on a case-by-case basis, are not material to the financial statements and are recorded as an adjustment to sales. Cash payments received in advance are recorded as customer deposits.

Revenue relating to service is recognized on the straight-line basis over the life of the agreement, generally one year. For the three months ended March 31, 2009 revenue relating to service contracts were less than one percent of net sales.

Financial Instruments - The carrying amounts of financial instruments, including cash and cash equivalents, accounts receivable, bank line of credit, short term bank loans and accounts payable and accrued expenses approximate fair value at March 31, 2009 because of the relatively short maturity of the instruments. The fair value of due from stockholder is not practical to estimate without incurring excessive cost and is carried at cost at March 31, 2009. The carrying value of the long-term debt approximate fair value at March 31, 2009 based upon debt terms available for companies under similar terms.

Foreign Currency Translation - Lapis Technologies, Inc. has one wholly owned subsidiary, Enertec Electronics Limited, an Israeli corporation, and one majority owned subsidiary, Enertec Systems 2001 Ltd., an Israeli corporation. The assets and liabilities of the foreign subsidiaries are translated at current exchange rates and related revenues and expenses at average exchange rates in effect during the periods reported. Resulting translation adjustments, if material, are recorded as a separate component of accumulated other comprehensive income or loss.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

N/A.

Item 4T. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining a system of disclosure controls and procedures (as defined in Rule 13a-15(e)) under the Exchange Act of 1934, as amended (the "Exchange Act") that is designed to ensure that information required to be disclosed by the Company in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time specified in the Security and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and

procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Pursuant to Rule 13a-15(b) under the Exchange Act, the Company carried out an evaluation with the participation of the Company's management, including Harry Mund, the Company's Chief Executive Officer ("CEO") and Miron Markovitz, the Company's Chief Financial Officer ("CFO"), of the effectiveness of the Company's disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the period ended March 31, 2009. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Changes in internal controls

Our management, with the participation our Chief Executive Officer and Chief Financial Officer, performed an evaluation as to whether any change in our internal controls over financial reporting occurred during the Quarter ended March 31, 2009. Based on that evaluation, our CEO and CFO concluded that no change occurred in the Company's internal controls over financial reporting during the quarter ended March 31, 2009 that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART II- OTHER INFORMATION

Item 1. Legal Proceedings.

We are not a party to any pending legal proceeding, nor is our property the subject of a pending legal proceeding, that is not in the ordinary course of business or otherwise material to the financial condition of our business. None of our directors, officers or affiliates is involved in a proceeding adverse to our business or has a material interest adverse to our business.

Item 1A. Risk Factors.

N/A.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.
