(An Exploration Stage Company)  
Notes to Unaudited Financial Statements  
June 30, 2010

NOTE 1—ORGANIZATION AND BASIS OF PRESENTATION

Organization – SMSA El Paso II Acquisition Corp. (“Company”) was organized on May 21, 2008 as a Nevada corporation to effect the bankruptcy court’s ordered reincorporation of Senior Management Services of El Paso Coronado, Inc., a Texas corporation, mandated by the plan of reorganization discussed below.

The Company’s emergence from Chapter 11 of Title 11 of the United States Code on August 1, 2007, which was effective on August 10, 2007, created the combination of a change in majority ownership and voting control - that is, loss of control by the then-existing stockholders, a court-approved reorganization, and a reliable measure of the entity’s fair value - resulting in a fresh start, creating, in substance, a new reporting entity. Accordingly, the Company, post bankruptcy, has no significant assets, liabilities or operating activities. Therefore, the Company, as a new reporting entity, qualifies as a “development stage enterprise” as defined in Development Stage Entities topic of the FASB Accounting Standards Codification and a shell company as defined in Rule 405 under the Securities Act of 1933 (“Securities Act”), and Rule 12b-2 under the Securities Exchange Act of 1934 (“Exchange Act”).

On August 10, 2009, the Company entered into a Share Exchange Agreement, (the “Share Exchange Agreement”), with Trans Global Operations, Inc., a Delaware corporation (“TGO”), and all of the shareholders of TGO. Pursuant to the Share Exchange Agreement, the stockholders of TGO transferred 100% of the issued and outstanding shares of the capital stock of TGO in exchange for 4,500,000 newly issued shares of the Company’s common stock that, in the aggregate, constituted approximately 90% of the Company’s issued and outstanding capital stock on a fully-diluted basis as of and immediately after the consummation of such exchange. As a result of this transaction, 5,000,004 shares of the Company’s common stock is currently issued and outstanding.

TGO was organized on August 10, 2009 as a Delaware corporation and was formed to seek and identify a privately-held operating company desiring to become a publicly held company with access to United States capital markets by combining with us through a reverse merger or acquisition transaction.

On November 5, 2009, the Company entered into a Securities Purchase Agreement (“Purchase Agreement”) with Michael Campbell whereby Mr. Campbell purchased from the Company an aggregate of 20,000,000 shares of restricted, unregistered common stock. Additionally, on the same date, the Company entered into a Contribution Agreement between the Company, Mr. Campbell and Gerard Pascale, the Company’s then-current sole officer, director and controlling shareholder, pursuant to which Mr. Pascale surrendered 3,000,000 shares of the common stock then owned by him to the Company at no cost to the Company to induce Mr. Campbell to enter into the Purchase Agreement.

The Company’s business plan, subsequent to the November 5, 2009 transaction, is to acquire and employ, in the marketplace, oil, gas and mineral drilling rigs and well servicing equipment. Management believes that, initially, the Company will be able to acquire said rigs and related equipment at discount prices relative to their historical market values and employ them under long-term service contracts with national and independent oil companies located in South America that pay profitable day-rates.

On April 16, 2010, the board of directors of the Company (the “Board of Directors”) adopted resolutions unanimously approving an amendment to the Company’s articles of incorporation changing the Company’s corporate name to Resource Holdings, Inc. from SMSA El Paso II Acquisition Corp. and the adoption of the Company’s 2010 Equity

Incentive Plan. The actions taken by the Board of Directors with respect to the name change and the approval of the adoption of the 2010 Equity Incentive Plan were adopted and approved on April 16, 2010 by the written consent of the holders of a majority of the shares of the Company's common stock then outstanding.

On June 11, 2010, the Company's name was changed to Resource Holdings, Inc.

**Basis of Presentation** – The accompanying unaudited condensed financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q. Accordingly, these financial statements do not include all of the information and disclosures required by generally accepted accounting principles for complete financial statements. These unaudited condensed financial statements should be read in conjunction with the Company's annual financial statements and the notes thereto for the year ended December 31, 2009, included in the Company's annual report on Form 10-K, especially the information included in Note 1 to those financial statements, "Summary of Significant Accounting Policies." In the opinion of the Company's management, the accompanying unaudited condensed financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to fairly present the Company's financial position as of June 30, 2010, and its results of operations and cash flows for the six months ended June 30, 2010 and 2009. The results of operations for the three and six months ended June 30, 2010, may not be indicative of the results that may be expected for the year ending December 31, 2010.

**Business Condition** – The Company's working capital is \$(654,429) as of June 30, 2010. The Company has issued a private placement memorandum to obtain investors. During April 2010 the Company sold an aggregate of \$100,000 of 10% promissory notes and issued 312,500 shares of common stock, based on \$0.32 per share. The stock issuance was accounted for as \$100,000 of interest expense. A cash fee of \$3,750 was paid as a commission as part of this capital raising transaction. The proceeds of the financing will be used to help the Company maintain operations and to fund the acquisitions of equipment and drilling rigs located in South America.

**Basic and Diluted Loss Per Share** – Basic loss per common share is computed by dividing net loss by the weighted-average number of common shares outstanding during the period. Diluted loss per share is calculated to give effect to potentially issuable common shares which include stock options and stock warrants except during loss periods when those potentially issuable common shares would decrease loss per share. At June 30, 2010, the Company had no potentially issuable common shares outstanding.

**Recently Enacted Accounting Standards** – In June 2009 the FASB established the Accounting Standards Codification ("Codification" or "ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in accordance with generally accepted accounting principles in the United States ("GAAP"). Rules and interpretive releases of the Securities and Exchange Commission ("SEC") issued under authority of federal securities laws are also sources of GAAP for SEC registrants. Existing GAAP was not intended to be changed as a result of the Codification, and accordingly the change did not impact our financial statements. The ASC does change the way the guidance is organized and presented.

**Statement of Financial Accounting Standards ("SFAS")** SFAS No. 166 (ASC Topic 810), "Accounting for Transfers of Financial Assets—an Amendment of FASB Statement No. 140", SFAS No. 167 (ASC Topic 810), "Amendments to FASB Interpretation No. 46(R)", and SFAS No. 168 (ASC Topic 105), "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles—a replacement of FASB Statement No. 162" were recently issued. SFAS No. 166, 167, and 168 have no current applicability to the Company or their effect on the financial statements would not have been significant.

**Accounting Standards Update ("ASU")** ASU No. 2009-05 (ASC Topic 820), which amends Fair Value Measurements and Disclosures – Overall, ASU No. 2009-13 (ASC Topic 605), Multiple-Deliverable Revenue Arrangements, ASU No. 2009-14 (ASC Topic 985), Certain Revenue Arrangements that include Software Elements, and various other ASU's No. 2009-2 through ASU No. 2010-21 which contain technical corrections to existing guidance or affect guidance to specialized industries or entities were recently issued. These updates have no current applicability to the Company or their effect on the financial statements would not have been significant.

## NOTE 2 – COMMITMENTS AND CONTINGENCIES

None

NOTE 3 – SUBSEQUENT EVENTS

The Company has issued a private placement memorandum to obtain investors. On July 30, 2010 the Company issued 156,250 shares of restricted, unregistered common stock in connection with the issuance of a 10% promissory note in the principal amount of \$50,000. On August 4, 2010 the Company issued 156,250 shares of restricted, unregistered common stock in connection with the issuance of a 10% promissory note in the amount of \$50,000. The stock issuances were accounted for as \$100,000 of interest expense.

---

The Company has evaluated subsequent events from the balance sheet date through the date the financial statements were issued, and has determined there are no other events to disclose.

#### NOTE 4 – RESTATEMENT OF 2009 BALANCE SHEET

Subsequent to the issuance of the 2009 financial statements, management determined the certain expenses reported in the first quarter of 2010 should have been recorded in 2009. The financial statements have been revised to accurately record the dates of the expenses. Accordingly, the balance sheet for the year ended December 31, 2009 has been revised as follows:

Resource Holdings, Inc.

Total Liabilities and Stockholders' Equity (Deficit)	\$ 23,775	\$ -	\$ 23,775	

Note (1)

This change is a result of properly recording an invoice in 2009 that was not previously recorded. The total invoice was for \$106,694 of which \$82,919 was expensed and the remaining \$23,775 was due to funding activities which funding was received in 2010, thus this amount was recorded as an Other Asset.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

When used in this discussion, the words "expect(s)", "feel(s)", "believe(s)", "will", "may", "anticipate(s)" and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those projected. Readers are cautioned not to place undue reliance on these forward-looking statements, and are urged to carefully review and consider the various disclosures elsewhere in this Form 10-Q.

### Recent Development and Business Plan

Since emerging from bankruptcy in August 2007, the Company has not been engaged in any operations and its primary business has been to locate and consummate a merger with or an acquisition of a private entity. For that reason, the Company was deemed to be a "shell company" as defined in Rule 12b-2 of the Securities Exchange Act of 1934.

The Company's business plan, subsequent to the November 5, 2009 transaction, is to acquire and employ, in the marketplace, oil, gas and mineral drilling rigs and well servicing equipment. Management believes that, initially, the Company will be able to acquire said rigs and related equipment at discount prices relative to their historical market values and employ them under long-term service contracts with national and independent oil companies located in South America that pay profitable day-rates. As a result of the Company's current business plan, management has determined that the Company is no longer a shell company under Rule 12b-2 of the Exchange Act.

In April, 2010 the Company issued 312,500 shares of restricted, unregistered common stock, based on a price of \$0.32 per share, in connection with the issuance of 10% promissory notes for an aggregate principal amount of \$100,000. The stock issuances were accounted for as an aggregate of \$100,000 of interest expense. The proceeds from such sales have been used to maintain operations and to commence investigating acquisitions of equipment and drilling rigs in South America in anticipation of entering into the oil and natural gas drilling industry.

Despite the Company's efforts in seeking opportunities in this industry, the Company does not yet have definitive agreements in place, and there can be no assurance that its efforts to enter this industry will ultimately prove successful.

### Results of Operations

Sales for the three and six months ended June 30, 2010 and 2009 were respectively, \$0 and \$0. The Company currently has no source of revenue. It is looking for opportunities to create revenue, and has several options it is pursuing as potential acquisitions or joint ventures.

Professional fees for the three months ended June 30, 2010 and 2009 were respectively, \$37,960 and \$3,400. Professional fees for the six months ended June 30, 2010 and 2009 were respectively, \$100,682 and \$8,528. These costs are made up of audit, legal fees, and tax fees.

Interest expense for the three months ended June 30, 2010 and 2009 was respectively, \$111,078 and \$0. Interest expense for the six months ended June 30, 2010 and 2009 was respectively, \$463,955 and \$0. These costs are due to the funding of financing debt and equity to operate the Company.

General and administrative expenses for the three months ended June 30, 2010 and 2009 were, respectively, \$95,250 and \$760. General and administrative expenses for the six months ended June 30, 2010 and 2009 were, respectively, \$264,398 and \$1,937. These costs are made up of bank fees, consulting fees and travel expenses looking for

acquisitions.

#### Liquidity and Capital Resources

The Company has financed its operations to date primarily through private placements of equity and debt securities and current sales. From March through August 2010 the Company issued 1,718,750 shares of restricted, unregistered common stock, based on a price of \$0.32 per share, to various investors in connection with the issuance of several 10% promissory notes for an aggregate principal amount of \$550,000. The stock issuances were accounted for as an aggregate of \$550,000 of interest expense.. This inflow of cash is expected to be used by the Company primarily to locate and research potential joint venture partners and establish potential joint ventures in South America.

Item 3. Qualitative and Quantitative Disclosures About Market Risk

Not applicable.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures. Under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, the Company conducted an evaluation of its "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934, Rules 13a-14(c) and 15-d-14(c)) as of June 30, 2010. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the evaluation date, the Company's disclosure controls and procedures were for gathering, analyzing and disclosing the information that it is required to disclose in reports filed under the Securities Exchange Act of 1934, as amended.

(b) Changes in Internal Controls. There were no significant changes in the Company's internal controls over financial reporting during the fiscal quarter ended June 30, 2010, that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting subsequent to the evaluation date.
