Arrangements Regarding Nomination for Election to the Board of Directors

Our Underwriting Agreement with Maxim Group LLC (“Maxim”) entered into in connection with our initial public offering completed in March 2010 (the “IPO”) provided that we will permit Maxim to either (i) designate one individual who meets the independence criteria of NYSE Amex to serve on the Board for the three-year period following the closing of the IPO or (ii) in the event that the individual designated by Maxim is not elected to the Board, have a representative of Maxim attend all meetings of the Board as an observer during such three-year period. Such director or observer, as the case may be, would attend meetings of the Board, receive all notices and other correspondence and communications sent by us to our directors, and such director would receive compensation equal to the highest compensation of other non-employee directors, excluding the Chairman of the Audit Committee. Dr. Gelbfish was designated by Maxim and elected to the Board in December 2009 pursuant to this arrangement.

Under the terms of a license agreement we entered into with Shiva Biomedical, LLC (“Shiva”), Shiva has the right to appoint one person to the Board during the term of such agreement. Dr. Bastani was appointed to the Board in February 2010 pursuant to this right. In June 2011, Dr. Bastani resigned from the Board and Steven Lefkowitz was appointed to the Board in August 2011 as Shiva’s nomination.

Family Relationships

There are no family relationships among our executive officers and directors.

Director Independence

The Board has determined that each of our directors, with the exception of Mr. Cohen, qualifies as “independent” under the listing standards of NYSE Amex, federal securities laws and SEC rules with respect to members of boards of directors and members of all board committees on which he or she serves.

Board and Committee Meetings

During the fiscal year ended December 31, 2011, the Board held eight meetings. Each of the directors attended at least 75% of the aggregate of (i) the total number of meetings of the Board (held during the period for which he served as a director), and (ii) the total number of meetings held by all committees of the Board on which he served (during the periods that he served on such committees).

The Board has the following committees: the Audit Committee; the Compensation Committee; and the Nominating and Corporate Governance Committee. During the fiscal year ended December 31, 2011, there were four meetings of the Audit Committee, four meetings of the Compensation Committee, and four meetings of the Nominating and Corporate Governance Committee.

Board Committees

The composition and responsibilities of each of the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee are described below. Members will serve on these committees until their resignation or until otherwise determined by the Board.

Audit Committee

The Audit Committee consists of Mr. Lefkowitz (Chair) and Dr. Gelbfish, each of whom satisfies the independence requirements under NYSE Amex and SEC rules and regulations applicable to audit committee members and is able to read and understand fundamental financial statements.

The Board has determined that Mr. Lefkowitz qualifies as an “audit committee financial expert” as that term is defined in the rules and regulations of the SEC. The designation of Mr. Lefkowitz as an “audit committee financial expert” does not impose on him any duties, obligations or liability that are greater than those that are generally imposed on him as a member of the Audit Committee and the Board, and his designation as an “audit committee financial expert” pursuant to this SEC requirement does not affect the duties, obligations or liability of any other member of the Audit Committee or the Board.

The Audit Committee monitors our corporate financial statements and reporting and our external audits, including, among other things, our internal controls and audit functions, the results and scope of the annual audit and other services provided by our independent registered public accounting firm and our compliance with legal matters that have a significant impact on our financial statements. The Audit Committee also consults with our management and our independent registered public accounting firm prior to the presentation of financial statements to stockholders and, as appropriate, initiates inquiries into aspects of our financial affairs. The Audit Committee is responsible for establishing procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting controls or auditing matters, and for the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters, and has established such procedures upon the effectiveness of the registration statement filed with the SEC in connection with the IPO. In addition, the Audit Committee is directly responsible for the appointment, retention, compensation and oversight of the work of our independent registered public accounting firm, including approving services and fee arrangements. All related party transactions will be approved by the Audit Committee before we enter into them.

Both our independent registered public accounting firm and internal financial personnel regularly meet with, and have unrestricted access to, the Audit Committee.

Compensation Committee

The Compensation Committee consists of Mr. Hofer (Chair), Mr. Lefkowitz and Dr. Pfaffle, each of whom satisfies the independence requirements of NYSE Amex and SEC rules and regulations. Each member of this committee is a non-employee director, as defined pursuant to Rule 16b-3 promulgated under the Exchange Act, and an outside director, as defined pursuant to Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”).

The Compensation Committee reviews and approves our compensation policies and all forms of compensation to be provided to our executive officers and directors, including, among other things, annual salaries, bonuses, and other incentive compensation arrangements. In addition, the Compensation Committee administers our stock option and employee stock purchase plans, including granting stock options to our executive officers and directors. The Compensation Committee also reviews and approves employment agreements with executive officers and other compensation policies and matters.

We have not used the services of any compensation consultant in matters affecting the compensation of named executive officers or Directors during 2011. In the future, we, or the Compensation Committee, may engage or seek the advice of a compensation consultant.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee consists of Dr. Gelbfish (Chair), Dr. Pfaffle and Mr. Hofer, each of whom satisfies the independence requirements of NYSE Amex and SEC rules and regulations. Dr. Gelbfish serves as chairman of the Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee identifies, evaluates and recommends nominees to the Board and committees of the Board, conducts searches for appropriate directors and evaluates the performance of the Board and of individual directors. The Nominating and Corporate Governance Committee also is responsible for reviewing developments in corporate governance practices, evaluating the adequacy of our corporate governance practices and reporting and making recommendations to the Board concerning corporate governance matters.

Director Nominations

In evaluating and determining whether to nominate a candidate for a position on the Board, the Nominating and Corporate Governance Committee utilizes a variety of methods and considers criteria such as high professional ethics and values, experience on the policy-making level in business or medical research/practice experience relevant to our product candidates and a commitment to enhancing stockholder value. Candidates may be brought to the attention of the Nominating and Corporate Governance Committee by current Board members, stockholders, officers or other persons. The Nominating and Corporate Governance Committee will review all candidates in the same manner regardless of the source of the recommendation.

We do not have a formal policy with regard to the consideration of diversity in identifying director nominees, but the Nominating and Corporate Governance Committee strives to nominate directors with a variety of complementary skills so that, as a group, the Board will possess the appropriate talent, skills and expertise to oversee our businesses.

The Nominating and Corporate Governance Committee also considers stockholder recommendations for director nominees that are properly received in accordance with our By-laws and applicable rules and regulations of the SEC. In order to validly nominate a candidate for election or reelection as a director, stockholders must give timely notice of such nomination in writing to the Corporate Secretary and include, as to each person whom the stockholder proposes to nominate, all information relating to such person that is required to be disclosed in solicitations of proxies for election of directors in an election contest, or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act, and the rules and regulations thereunder (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected).

Board Leadership Structure

Our governing documents provide the Board with flexibility to determine the appropriate leadership structure for the Board and the Company, including but not limited to whether it is appropriate to separate the roles of Chairman of the Board and Interim Chief Executive Officer. In making these determinations, the Board considers numerous factors, including the specific needs and strategic direction of the Company and the size and membership of the Board at the time.

As a result of Mr. Houghton's departure and the Company's current financial position, Mr. Cohen agreed to serve as the Executive Chairman and Interim Chief Executive Officer. The Board believes at this stage of the Company's development, it is in the best interest for the roles of Chairman of the Board and Interim Chief Executive Officer to be with one individual.

Board Role in Risk Oversight

Senior management is responsible for assessing and managing our various exposures to risk on a day-to-day basis, including the creation of appropriate risk management programs and policies. The Board is responsible for overseeing management in the execution of its responsibilities and for assessing our approach to risk management. On September 30 2011, the Company announced that it mutually agreed with John C. Houghton, the Company's former President and Chief Executive Officer not to renew Mr. Houghton's employment agreement and to enter into a separation agreement. In the interim, Mr. Cohen, a member of the Company's Board of Directors, is serving as the Company's Executive Chairman in a non-employee capacity. Mr. Cohen has significant board and operating experience with both publicly and privately held companies. Mr. Cohen will draw upon the significant experience of the other Board members. The Board exercises these responsibilities periodically as part of its meetings and also through the Board's three committees, each of which examines various components of enterprise risk as part of its responsibilities. Members of each committee report to the full Board at the next Board meeting regarding risks discussed by such committee. In addition, an overall review of risk is inherent in the Board's consideration of our long-term strategies and in the transactions and other matters presented to the Board, including capital expenditures, acquisitions and divestitures, and financial matters.

Code of Ethics

We have adopted a Code of Conduct and Ethics (the "Code of Ethics") applying to all of our directors, officers and other employees. The Code of Ethics is designed to provide guidance regarding our standards of integrity and business conduct and to promote (i) honest and ethical conduct, including fair dealing and the ethical handling of actual or apparent interest between personal and professional relationships; (ii) conducting business with professional competence and integrity; (iii) full, fair, accurate, timely and understandable disclosure; (iv) compliance with applicable laws, rules and regulations; (v) prompt reporting of violations of the Code of Ethics; and (vi) accountability for adherence to the Code of Ethics.

A copy of the Code of Ethics is available in the Investor Relations; Corporate Governance, portion of our website, www.cormedix.com. Additional copies of the Code of Ethics may be obtained without charge, from us by writing or calling: 745 Rt. 202-206, Suite 303, Bridgewater, NJ 08807, Attn: Chief Financial Officer; Telephone: (908) 517-9500.

AUDIT COMMITTEE REPORT

The Audit Committee has reviewed and discussed the Company's financial statements for the fiscal year ended December 31, 2011 with both management and J.H. Cohn LLP, the Company's independent registered public accounting firm. In its discussion, management has represented to the Audit Committee that the Company's financial statements for the fiscal year ended December 31, 2011 were prepared in accordance with generally accepted accounting principles.

The Audit Committee meets with the Company's independent registered public accounting firm, with and without management present, to discuss the results of their annual audit and quarterly reviews, the Company's internal controls and the overall quality of the Company's financial reporting. The Audit Committee has discussed with the Company's independent registered public accounting firm the matters required to be discussed by the statement on Auditing Standards No. 61, as amended, as adopted by the Public Company Accounting Oversight Board ("PCAOB") in Rule 3200T.

The Audit Committee has received the written disclosures and the letter from the Company's independent registered public accounting firm required by applicable requirements of the PCAOB regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence, and has considered and discussed with J.H. Cohn LLP such firm's independence and the compatibility of the non-audit services provided by the firm with its independence.

Based on the Audit Committee's review of the audited financial statements and the various discussions noted above, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Compensation Discussion and Analysis

This Compensation Discussion and Analysis discusses the principles underlying our compensation policies and decisions and the principal elements of compensation paid to our named executive officers during 2011 and as anticipated for 2012. Our Chief Executive Officer, Chief Operating Officer and Financial Officer and Chief Medical Officer included in the Summary Compensation Table will be referred to as the "named executive officers" for purposes of this discussion.

Compensation Objectives and Philosophy

The Compensation Committee is responsible for reviewing and approving the compensation payable to our named executive officers and other key employees. As part of such process, the Compensation Committee seeks to accomplish the following objectives with respect to our executive compensation programs:

- motivate, recruit and retain executives capable of meeting our strategic objectives;
- provide incentives to ensure superior executive performance and successful financial results for CorMedix; and
- align the interests of the named executive officers with the long-term interests of our stockholders.

The Compensation Committee seeks to achieve these objectives by:

- establishing a compensation structure that is both market competitive and internally fair;
- linking a substantial portion of compensation to our achievement of financial objectives and the individual's contribution to the attainment of those objectives;
- providing upward leverage for overachievement of goals; and
- providing long-term equity-based incentives.

In order to achieve the above goals, our total compensation package includes base salary and annual bonus, all paid in cash, as well as long-term compensation in the form of stock options and restricted stock. We believe that appropriately balancing the total compensation package is necessary in order to provide market-competitive compensation.

Setting Executive Compensation

The Compensation Committee oversees the design, development and implementation of the compensation program for the Chief Executive Officer and the other named executive officers. The Compensation Committee evaluates the performance of the Chief Executive Officer and determines the Chief Executive Officer's compensation in light of the goals and objectives of the compensation program. The Chief Executive Officer and the Compensation Committee together assess the performance of the other named executive officers employed by us as of December 31 and determine their compensation, based on initial recommendations from the Chief Executive Officer. Our Interim Chief Executive Officer provided the Compensation Committee with a detailed review of the performance of the other named executive officers and made recommendations to the Compensation Committee with respect to the compensation packages for those officers for 2011.

The other named executive officers do not play a role in their own compensation determination, other than discussing individual performance objectives and results with the Chief Executive Officer.

We have not used the services of any compensation consultant in matters affecting the compensation of named executive officers or Directors during 2011. In the future, we, or the Compensation Committee, may engage or seek the advice of a compensation consultant.

The Compensation Committee has structured our annual and long-term incentive-based cash and non-cash executive compensation to motivate executives to achieve the business goals set by the Board and rewards the executives for achieving such goals. At the end of the year, the Compensation Committee reviews the performance of each named executive officer in achieving the established objectives. These results are included with the overall performance review provided by the Chief Executive Officer, after which the Committee votes upon any recommendations for salary adjustments, stock option grants and cash incentives. The Chief Executive Officer then executes the actions recommended by the Compensation Committee with respect to such matters.

Components of Compensation

The key components of CorMedix's executive compensation package are cash compensation (salary & annual bonuses), long-term equity incentive awards and change in control and other severance agreements. These components are administered with the goal of providing total compensation that recognizes meaningful differences in individual performance, is competitive, varies the opportunity based on individual and corporate performance, and is valued by our named executive officers.

Base Salary.

It is the Compensation Committee's objective to set a competitive rate of annual base salary for each named executive officer. The Compensation Committee believes competitive base salaries are necessary to attract and retain top quality executives, since it is common practice for public companies to provide their named executive officers with a guaranteed annual component of compensation that is not subject to performance risk. The Compensation Committee works with outside consultants as necessary to establish salary ranges for the named executive officers, with minimum to maximum opportunities that cover the normal range of market variability. The actual base salary for each named executive officer is then derived from those salary ranges based on his responsibility, tenure and past performance and market comparability. Annual base salaries for the named executive officers are reviewed and approved by the Committee in the first quarter following the end of the previous performance year. Changes in base salary are based on the scope of an individual's current job responsibilities, individual performance in the previous performance year, target pay position relative to the peer group, and our salary budget guidelines. The Compensation Committee reviews established goals and objectives, and determines an individual's achievement of those goals and objectives and considers the recommendations provided by the Chief Executive Officer to assist it in determining appropriate salaries for the named executive officers other than the Chief Executive Officer. For any given performance year, actual salary increases may range from 0% to 10% of the salary guidelines based on individual performance. This broad range allows for meaningful differentiation on a pay for performance basis.

The base salary information for our named executive officers for 2011 is set forth in the tables above. As a result of the Company's financial condition, the Interim Chief Executive Officer and the Compensation Committee recommended to the Board that no merit increases be granted to our named executive officers for 2012.

Annual Bonuses.

As part of their compensation package, our named executive officers have the opportunity to earn annual bonuses. Annual bonuses are designed to reward superior executive performance while reinforcing our short-term strategic operating goals. Pursuant to the individual employment agreements, the Committee establishes each year a target award for each named executive officer based on a percentage of base salary. Annual bonus targets as a percentage of salary increase with executive rank so that for the more senior executives, a greater proportion of their total cash compensation is contingent upon annual performance.

At the beginning of the performance year, each named executive officer, in conjunction with the Chief Executive Officer, establishes annual goals and objectives. Actual bonus awards are based on an assessment against the pre-established goals for each named executive officer's individual performance, the performance of the business function for which he is responsible, and/or our overall performance for the year. For any given performance year, proposed annual bonuses may range from 0% to 100% of target, or higher under certain circumstances, based on corporate and individual performance. Corporate and individual performance has a significant impact on the annual bonus amounts because the Compensation Committee believes it is a precise measure of how the named executive officer contributed to business results.

2011 Performance Measures and Payouts—In 2011, annual bonus targets ranged from 30% to 40% of base salary for the named executive officers and were payable based on the Compensation Committee's subjective review of both the performance of CorMedix as well as individual performance. The Compensation Committee utilizes annual bonuses to compensate officers for achieving financial and operational goals and for achieving individual annual performance objectives. These objectives will vary depending on the individual executive, but will relate generally to (i) operational goals such as the development of our product candidates and the identification and advancement of additional product candidates, (ii) strategic goals such as the establishment of operating plans and budgets, review of organization and staff, and (iii) the enhancement of stockholder value.

For each of our named executive officers for 2011, the Compensation Committee has provided the following corporate performance targets, as well as the weighting of each component as a percentage of such named executive officer's target bonus amount:

Edgar Filing: CorMedix Inc. - Form 10-K/A

Performance Milestone:	Weighting of Components as a Percentage of Target Bonus		
	John C. Houghton	Brian Lenz	Mark A. Klausner
· Advance product candidates' development by specific dates.	72.5%	60%	80%
· Meet defined finance objectives by a specific date.	15%	25%	10%
· Meet defined business development objectives by a specific date.	10%	10%	-
· Implement quality management system for CE Marking approval	2.5%	5%	10%

For the 2011 awards, the potential payout may range from 0–100% of target, or higher under certain circumstances. The Compensation Committee has also retained the discretion to reduce the dollar amount of the awards otherwise payable to the named executive officers.

At the end of each year, the Compensation Committee determines the level of achievement with respect to each corporate goal, and decides the overall percent of corporate goal achievement for purposes of annual bonuses. For this assessment, the Compensation Committee evaluates the status of CorMedix's development programs and clinical progress, corporate development and regulatory compliance activities. These qualitative factors are also typically used by comparable companies to evaluate performance and involve a subjective assessment of corporate performance by the Compensation Committee. Moreover, the Compensation Committee does not base its considerations on a single performance factor, but rather considers a mix of factors and evaluates company and individual performance against that mix. The Chief Executive Officer provides written evaluations for the named executive officers, other than himself, to the Compensation Committee along with his recommendations for each individual performance factor. The Compensation Committee reviews the performance and assessment of each named executive officer and then evaluates the Chief Executive Officer and assigns a weight to each individual achievement factor.

The table below details 2011 annual bonus targets for each of our named executives.

Name	Title	2011 Target Bonus (\$)	2011 Target Bonus (% Salary)	2011 Actual Bonus (\$)	2011 Actual Bonus (% Salary)
John C. Houghton (1)	Previous President and Chief Executive Officer	\$ 140,000	40%	—(1)	—(1)
Brian Lenz	Chief Operating Officer and Chief Financial Officer	\$ 75,000	30%	—(3)	—(3)
Mark A. Klausner (2)	Chief Medical Officer	\$ 90,417	35%	—(3)	—(3)

On September 30 2011, the Company announced that is mutually agreed with John C. Houghton not to renew Mr. (1) Houghton's employment agreement and to enter into a separation agreement. As a result of the separation agreement, Mr. Houghton did not receive a 2011 bonus.

(2) Dr. Klausner became the Company's Chief Medical Officer on March 1, 2012 and was eligible for a prorated bonus for 2011.

(3) As a result of the Company's financial condition, the Interim Chief Executive Officer and the Compensation Committee determined not to grant a bonus to the named executive officers for 2011.

2012 Performance Measures—As in 2011, annual bonuses for 2012, if any, will be based on achievement of pre-established company objectives and individual goals for each named executive officer and, for each named executive officer other than the Chief Executive Officer, a subjective review of that individual's performance. Corporate performance targets may include such measures as strategic plan metrics while individual performance targets may include operational and financial metrics, regulatory compliance metrics, and delivery of specific programs, plans, and budgetary objectives identified and documented at the beginning of each year. It is the Committee's intention to base a greater percentage of the annual award payout on corporate as opposed to individual performance for higher level executives.

For each of our named executive officers for 2012, the Compensation Committee has provided the following corporate performance targets, as well as the weighting of each component as a percentage of such named executive officer's target bonus amount:

Performance Milestone:	Weighting of Components as a Percentage of Target Bonus
· Meet defined finance objectives by a specific date.	Brian Lenz 20%
· Coordinate and implement a quality management system for Stage 2 audit by the end of the first half 2012.	20%
· Meet defined business development and/or distributor strategic plan to achieve an executed agreement by December 31, 2012.	30%
· Meet defined budgeted financial and operational objectives by a specific date.	30%

For the 2012 awards, the potential payout may range from 0 – 100% of target, or higher under certain circumstances. The Compensation Committee has also retained the discretion to reduce the dollar amount of the awards otherwise payable to the named executive officers.

The table below shows the dollar amount of the 2011 and 2012 annual target bonus for each named executive officer, together with percentage of base salary represented by that target:

Name	Title	2011 Target Bonus (\$)	2011 Target Bonus (% Salary)	2012 Target Bonus (\$)	2012 Target Bonus (% Salary)
John C. Houghton ⁽¹⁾	Previous President and Chief Executive Officer	\$ 140,000	40%	\$ -	-
Brian Lenz	Chief Operating Officer and Chief Financial Officer	\$ 75,000	30%	\$ 75,000	30%
Mark A. Klausner, M.D. ⁽²⁾	Chief Medical Officer	\$ 90,417	35%	\$ 54,250	35%

On September 30 2011, the Company announced that it mutually agreed with John C. Houghton not to renew Mr. (1)Houghton’s employment agreement and to enter into a separation agreement. As a result of the separation agreement, Mr. Houghton did not receive a 2011 bonus.

(2) On March 1, 2012, Dr. Klausner and the Company amended his employment agreement resulting in a fifty percent (50%) reduction in both Dr. Klausner’s services to the Company and his compensation.

As a result of the Company’s financial condition, the Interim Chief Executive Officer and the Compensation Committee determined not to grant a bonus to the named executive officers for 2011.

Long-Term Incentive Equity Awards. We believe that long-term performance is achieved through an ownership culture that encourages high performance by our named executive officers through the use of stock-based awards. Our equity plans have been established to provide our employees, including our named executive officers, with incentives to help align employees' interests with the interests of our stockholders. The Compensation Committee believes that the use of stock-based awards offers the best approach to achieving our compensation goals. We have historically elected to use stock options as the primary long-term equity incentive vehicle; however, the Committee has used restricted stock and may in the future utilize restricted stock as part of our long-term incentive program. We have selected the Black-Scholes method of valuation for share-based compensation effective July 28, 2006. Due to the early stage of our business and our desire to preserve cash, we expect to provide a greater portion of total compensation to our named executive officers through stock options and restricted stock grants than through cash-based compensation.

Stock Options. Our stock plans authorize us to grant options to purchase shares of Common Stock to our employees, Directors and consultants. The Compensation Committee generally oversees the administration of our stock option plans.

The Compensation Committee reviews and approves stock option awards to named executive officers based upon a review of competitive compensation data, its assessment of individual performance, a review of each named executive officer's existing long-term incentives, and retention considerations. Periodic stock option grants are made at the discretion of the Compensation Committee to eligible employees and, in appropriate circumstances, the Compensation Committee considers the recommendations of members of management, such as Richard M. Cohen, our Executive Chairman and Interim Chief Executive Officer.

In 2010 and 2011, certain named executive officers were awarded stock options in the amounts included in the Grants of Plan-Based Awards table. Stock options granted by us have an exercise price equal to the fair market value of our Common Stock on the day of grant, typically vest annually over a three-year period or upon the achievement of certain performance-based milestones and are based upon continued employment, and generally expire ten (10) years after the date of grant. The fair value of the options granted to the named executive officers in the Summary Compensation Table is determined in accordance with the Black-Scholes method of valuation for share-based compensation. The Compensation Committee has also granted performance based options to certain of our named executive officers. Incentive stock options also include certain other terms necessary to ensure compliance with the Internal Revenue Code of 1986, as amended.

We expect to continue to use stock options as a long-term incentive vehicle because:

Stock options align the interests of our named executive officers with those of our stockholders, supporting a pay-for-performance culture, foster employee stock ownership, and focus the management team on increasing value for our stockholders.

Stock options are performance-based. All of the value received by the recipient of a stock option is based on the growth of the stock price.

Stock options help to provide a balance to the overall executive compensation program as base salary and annual bonuses focus on the short-term compensation, while the vesting of stock options increases stockholder value over the longer term.

The vesting period of stock options encourages executive retention and the preservation of stockholder value. In determining the number of stock options to be granted to our named executive officers, we take into account the individual's position, scope of responsibility, ability to affect profits and stockholder value and the individual's historic and recent performance and the value of stock options in relation to other elements of the individual named executive officer's total compensation.

Restricted Stock. Our 2006 Equity Incentive Plan authorizes us to grant restricted stock. No restricted stock grants were awarded during 2011. In order to implement our long-term incentive goals, we anticipate that we may grant shares of restricted stock in the future.

Executive Benefits and Perquisites

Our named executive officers, who are parties to employment agreements, will continue to be parties to such employment agreements in their current form until the expiration of the employment agreement or until such time as the Compensation Committee determines in its discretion that revisions to such employment agreements are advisable. In addition, consistent with our compensation philosophy, we intend to continue to maintain our current benefits for our named executive officers, including medical, dental and life insurance and the ability to contribute to a 401(k) plan; however, the Compensation Committee in its discretion may revise, amend or add to the officer's executive benefits if it deems it advisable. We believe these benefits are currently comparable to benefit levels for comparable companies. We have no current plans to change either the employment agreements (except as required by law or as required to clarify the benefits to which our named executive officers are entitled as set forth herein) or level of benefits.

Severance and Change in Control Arrangements

The specific terms of our severance and change in control arrangements are discussed in detail below under the headings "Potential Payments Upon Termination or Change in Control" and "Employment Agreements." As a general matter, however, we believe that reasonable severance and change in control protection for our named executive officers is necessary in order for us to recruit and retain qualified executives.

Equity Grant Policy

All grants to our named executive officers are at the discretion of the Board, following review and input by the Committee.

IRC Section 162(m) compliance

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), generally disallows a tax deduction to public companies for certain compensation in excess of \$1 million paid to our named executive officers. Certain compensation, including qualified performance-based compensation, will not be subject to the deduction limit if certain requirements are met. In general, our compensation program is designed to reward executives for the achievement of our performance objectives. The stock plan is designed in a manner intended to comply with the performance-based exception to Section 162(m). Nevertheless, compensation attributable to awards granted under the plans may not be treated as qualified performance-based compensation under Section 162(m). In addition, the

Committee considers it important to retain flexibility to design compensation programs that are in the best interests of CorMedix and its stockholders and, to this end, the Committee reserves the right to use its judgment to authorize compensation payments that may be subject to the limitations under Section 162(m) when the Committee believes that compensation is appropriate and in the best interests of CorMedix and our stockholders, after taking into consideration changing business conditions and performance of our employees.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee was at any time during the year ended December 31, 2011 or at any other time an officer or employee of ours. No executive officer has served as a director or member of the Board or the Compensation Committee (or other committee serving an equivalent function) of any other entity while an executive officer of that other entity served as a director of or member of our Board or our Compensation Committee. Mr. Cohen, our Executive Chairman of the Board, and our Interim Chief Executive Officer participated in discussions and decisions regarding salaries and incentive compensation for all of our named executive officers, except he was excluded from discussions regarding his own salary and incentive stock compensation.

Compensation Committee Report

The Compensation Committee evaluates and establishes compensation for the named executive officers, CorMedix's stock plans, and other management incentive, benefit and perquisite programs. Management has the primary responsibility for our financial statements, including the disclosure of executive compensation. With this in mind, the Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis section of this Annual Report on Form 10-K/A. The Compensation Committee is satisfied that the Compensation Discussion and Analysis fairly and completely represents the philosophy, intent, and actions of the Compensation Committee with regard to executive compensation. The Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Annual Report on Form 10-K/A for filing with the Securities and Exchange Commission.

Employment Agreements and Arrangements

John C. Houghton

On December 22, 2006, we entered into an employment agreement with Mr. Houghton (the "Original Houghton Employment Agreement") to act as our Chief Business Officer for an initial term of three years. Following his appointment as our President and Chief Executive Officer in May 2009, we entered into an amended and restated employment agreement with Mr. Houghton, effective as of November 25, 2009 (the "Amended and Restated Houghton Employment Agreement"). On January 14, 2011, we entered into an amendment to the Amended and Restated Houghton Employment Agreement, effective January 1, 2011 (the "Houghton Amendment"). The Amended and Restated Houghton Employment Agreement has an initial term of two years, and thereafter is automatically extended for additional one-year periods unless either party provides the other with appropriate notice of its decision not to extend the term.

The Amended and Restated Houghton Employment Agreement provided for (i) an annual base salary of \$250,000 and (ii) eligibility to receive, at the sole discretion of the Board, annual bonus payments of up to 30% of his base salary

based upon the achievement of certain financial, clinical development and business milestones. Effective January 1, 2011, the Houghton Amendment amended the Amended and Restated Houghton Employment Agreement to (i) increase Mr. Houghton's annual base salary to \$350,000 and (ii) increase the amount of the annual bonus payments Mr. Houghton may receive upon the achievement of certain financial, clinical development and business milestones, at the sole discretion of the Board, to up to 40% of Mr. Houghton's annual base salary.

The Amended and Restated Houghton Employment Agreement provides for a \$50,000 bonus upon the completion of the IPO, as well as certain market capitalization bonuses. Additionally, pursuant to the Amended and Restated Houghton Employment Agreement, on March 30, 2010, in connection with the completion of the IPO we granted Mr. Houghton options to purchase 818,146 shares of our common stock under the Stock Incentive Plan with an exercise price of \$3.125 per share. These options vest in equal installments on each of the first three anniversaries of the grant date. The Original Houghton Employment Agreement also provided for incentive bonuses of up to \$75,000 in connection with in-licensing of products as a result of Mr. Houghton's efforts.

On September 30, 2011, the Company entered into a separation and general release agreement with John C. Houghton, the Company's then President and Chief Executive Officer. The separation and release agreement provided, among other things, Mr. Houghton a continuation of base salary for four months of approximately \$118,000; a continuation of Mr. Houghton's health insurance benefits on the same terms and conditions as in effect prior to the separation date through March 31, 2012, resulting in a charge of approximately \$21,000; an extension of the period of time in which Mr. Houghton may exercise certain previously granted and vested stock options from ninety (90) days to two and one-half (2.5) years and a waiver and release by Mr. Houghton of any and all claims that he may have against the Company. In addition, Mr. Houghton provided certain transition services to the Company on an as-needed basis through the end of 2011. Also, effective as of September 30, 2011, Mr. Houghton resigned as a member of the Board of Directors of the Company.

Brian Lenz

On February 16, 2010, we entered into an employment agreement with Brian Lenz, effective February 16, 2010, to act as our Chief Financial Officer (the “Lenz Employment Agreement”). On January 14, 2011, we entered into an amendment to the Lenz Employment Agreement, effective January 1, 2011 (the “Lenz Amendment”). The Lenz Employment Agreement has an initial term of two years, and thereafter is automatically extended for additional one-year periods unless either party provides the other with appropriate notice of its decision not to extend the term.

The Lenz Employment Agreement provided for (i) an annual base salary of \$175,000, (ii) guaranteed bonuses of \$15,000 upon the last business day of the first calendar year during the term and \$25,000 upon the last business day of the second and each following calendar year during the term provided that Mr. Lenz remains the Company’s employee, and (iii) eligibility to receive, at the sole discretion of the Board, annual bonus payments of up to 30% of Mr. Lenz’s base salary and guaranteed bonus based upon the achievement of certain financial, clinical development and business milestones. Effective January 1, 2011, the Lenz Amendment amended the Lenz Employment Agreement to (i) increase Mr. Lenz’s annual base salary to \$250,000 and (ii) eliminate Mr. Lenz’s annual guaranteed bonus.

The Lenz Employment Agreement also provided for a \$10,000 bonus, which was paid in May 2010. Additionally, pursuant to the Lenz Employment Agreement, on March 30, 2010, in connection with the completion of the IPO we granted Mr. Lenz options to purchase 326,492 shares of our common stock under the Stock Incentive Plan with an exercise price of \$3.125 per share. These options vest in equal installments on each of the first three anniversaries of the grant date.

On March 20, 2012, the Compensation Committee of the Board of Directors of CorMedix, in recognition of 2011 performance, awarded Brian Lenz, the Company’s Chief Operating Officer and Chief Financial Officer, a cash bonus in the amount of twenty-five thousand dollars (\$25,000)(the “Bonus”). Payment of the Bonus shall be contingent upon (i) the closing of a financing by the Company on or before December 31, 2012 with gross proceeds to the Company equal to or in excess \$1.5 million, including the issuance by the Company of equity, debt or any combination thereof (the “Financing”); and (ii) Mr. Lenz’s continued employment. The Bonus shall be paid to Mr. Lenz promptly following closing of the Financing, but in no event later than March 15, 2013.

The Compensation Committee also granted Mr. Lenz an award of stock options to purchase 180,000 shares of common stock of the Company. The stock options were granted on March 20, 2012 (the “Grant Date”) pursuant to, and subject to, the terms of the Company’s Amended and Restated 2006 Stock Incentive Plan (the “Plan”). The stock options (i) have a 10-year term, and (ii) have an exercise price of \$0.49 per share, being the closing sale price of the Company’s common stock, as reported on the NYSE Amex on the Grant Date. The stock options will vest in accordance with the following schedule: (i) 25% on the Grant Date, (ii) 25% upon the closing of a financing with gross proceeds to the Company of at least \$1.5 million, including the issuance of equity, debt or any combination thereof by the Company, (iii) 25% upon CE Mark approval for CRMD003, Neutrolin®, the Company’s primary

product candidate in development for the prevention of catheter related infections in the dialysis and non-dialysis markets, and (iv) 25% upon the launch of Neutrolin® in Europe; provided, however, that each of the events described in clauses (ii), (iii) and (iv) above occur on or before December 31, 2012.

The Bonus and grant of stock options described above were made in connection with Mr. Lenz's annual performance review. The Bonus and stock options were awarded in the discretion of the Compensation Committee and were based on the Compensation Committee's evaluation of the performance of Mr. Lenz.

On March 22, 2012, the Company and Mr. Lenz entered into Amendment No. 2 to Mr. Lenz's employment agreement, dated as of February 4, 2010 and amended on January 14, 2011, whereby upon a Change in Control (as defined in the Agreement), if Mr. Lenz's employment is terminated by the Company (or its successor) within two (2) months prior to or six (6) months following the occurrence of a Change of Control, then the Company (or its successor, as applicable) shall continue to pay Mr. Lenz's Base Salary and benefits for a period of six (6) months following the termination.

The Lenz Employment Agreement provides for severance payments in certain circumstances, as discussed in detail below.

Mark A. Klausner

On February 25, 2011, we entered into an employment agreement with Mark A. Klausner, M.D., the Company's new CMO (the "Klausner Employment Agreement"). Pursuant to the Klausner Employment Agreement, Dr. Klausner will serve as the Company's CMO for an initial term of two years commencing on March 1, 2011, which term will extend automatically for additional one-year periods unless appropriate notice is given by one of the parties. Dr. Klausner will receive an annual base salary of \$310,000, and will be eligible for annual bonus payments of up to 35% of his base salary, based upon the achievement of certain milestones as established annually by the Company's Chief Executive Officer, in consultation with the Board and Dr. Klausner. Additionally, pursuant to the Klausner Employment Agreement, on March 1, 2011, we granted Dr. Klausner options to purchase 356,000 shares of our common stock under the Stock Incentive Plan with an exercise price of \$1.61 per share. These options vest in equal installments on each of the first three anniversaries of the grant date. On February 29, 2012, the Company and Dr. Klausner agreed to amend Dr. Klausner's employment agreement effective March 1, 2012 which provides for a fifty percent (50%) reduction in both Dr. Klausner's services to the Company and his compensation.

The Klausner Employment Agreement provides for severance payments in certain circumstances, as discussed in detail below.

Potential Payments Upon Termination or Change in Control

Brian Lenz

Pursuant to the Lenz Employment Agreement, if we terminate Mr. Lenz as a result of his death or disability, Mr. Lenz, or his estate, as applicable, will receive his base salary for a period of three months following his death or disability, and all unvested restricted shares and stock options held by Mr. Lenz that are scheduled to vest on or before the next anniversary of the effective date of the Lenz Employment Agreement will be accelerated and vest as of the termination date. If we terminate Mr. Lenz for cause or Mr. Lenz terminates his employment other than for good reason, Mr. Lenz will receive his base salary through the date of termination. If we terminate Mr. Lenz within two months prior to or six months following the occurrence of a change of control, then the Company (or its successor, as applicable) shall continue to pay Mr. Lenz's Base Salary (as defined in the Agreement) and benefits for a period of six (6) months following the termination and all unvested restricted shares and stock options held by Mr. Lenz will be accelerated and vest as of the termination date. If we terminate Mr. Lenz for reasons other than those stated above or Mr. Lenz terminates his employment for good reason, Mr. Lenz will receive his base salary and benefits for a period

If the Company terminates Dr. Klausner for reasons other than those stated above or Dr. Klausner terminates his employment for Good Reason, Dr. Klausner will receive the Accrued Compensation and his base salary and benefits for a period of six months following his termination, and all his unvested restricted shares and stock options that are scheduled to vest within the 12 months following his termination will be accelerated and vest as of the termination date. Employee Benefit and Stock Plans

Amended and Restated 2006 Stock Incentive Plan

The purpose of the Stock Incentive Plan is to promote our long-term success by attracting, motivating and retaining our directors, officers, employees, advisors and consultants and others providing services to us and our affiliates through the use of competitive long-term incentives that are tied to stockholder value. The Stock Incentive Plan seeks to balance the interest of participants in the Stock Incentive Plan and our stockholders by providing incentives in the form of stock options, restricted stock, performance awards, and stock appreciation rights, as well as other stock-based awards relating to our common stock, to be granted under the Stock Incentive Plan and consistent with the terms of the Stock Incentive Plan.

As of April 19, 2012, no shares of common stock, and stock options to purchase 1,416,342 shares of common stock, are outstanding under the Stock Incentive Plan. As of April 19, 2012, 883,658 shares of common stock remain authorized for issuance under the Stock Incentive Plan.

Administration

The Stock Incentive Plan is administered by the Compensation Committee, which consists of two or more non-employee directors, each of whom is intended to be, to the extent required by Rule 16b-3 under the Exchange Act and Section 162(m) of the Internal Revenue Code, a non-employee director under Rule 16b-3 and an outside director under Section 162(m), or if no committee exists, the Board. The Compensation Committee has the full authority to administer and interpret the Stock Incentive Plan and to take any other actions and make all other determinations that it deems necessary or appropriate in connection with the Stock Incentive Plan or the administration or interpretation thereof, including but not limited to the establishment of performance-based criteria for each person eligible to receive awards under the Stock Incentive Plan.

Eligibility and Types of Awards

Our employees, directors, consultants, advisors and other independent contractors who provide services to us are eligible to be granted awards under the Stock Incentive Plan, including options, restricted stock, performance awards and other awards.

Available Shares

Subject to adjustment upon certain corporate transactions or events, a maximum of 2,300,000 shares of our common stock may be issued under the Stock Incentive Plan. In addition, subject to adjustment upon certain corporate transactions or events, a participant may not receive awards with respect to more than 300,000 shares of common stock in any year, except that this restriction did not apply to options granted upon the completion of the IPO. If an option or other award granted under the Stock Incentive Plan expires or terminates, the shares subject to any portion of the award that expires or terminates without having been exercised or paid, as the case may be, will again become available for the issuance of additional awards. Unless previously terminated by the Board, no new award may be granted under the Stock Incentive Plan after the tenth anniversary of the date that such plan was initially approved by our stockholders.

Awards Under the Stock Incentive Plan

Stock Options. The terms of specific options, including whether options will constitute “incentive stock options” for purposes of Section 422(b) of the Internal Revenue Code, will be determined by the Compensation Committee. The exercise price of an option will be determined by the Compensation Committee. The exercise price may not be lower than 100% (110% in the case of an incentive stock option granted to a 10% stockholder) of the fair market value of the common stock on the date of grant. Each option will be exercisable for such period set by the Compensation Committee, which will generally not exceed ten years from the date of grant (or five years in the case of an incentive stock option granted to a 10% stockholder). Options will be exercisable at such times and subject to such terms as determined by the Compensation Committee.

Restricted Stock. Restricted stock consists of shares of common stock granted under the Stock Incentive Plan, in such form and on such terms and conditions determined by the Compensation Committee. Such terms or conditions may include, without limitation, restrictions on the sale, assignment, transfer or other disposition or encumbrance of such shares during a restricted period established by the Compensation Committee and that such shares are deemed forfeited upon the award recipient’s failure to satisfy certain requirements within the restricted period. The Compensation Committee may, at any time and in its sole discretion, shorten or terminate any restricted period, or waive any conditions for the lapse or termination of restrictions with respect to all or any portion of a restricted stock award. The grant of any restricted stock will be evidenced by an award agreement. Except as provided in such award agreement, restricted stock will cease to vest on the date the recipient’s employment with or service to us or a subsidiary terminates, and any shares of restricted stock that are not vested as of termination such date shall be forfeited.

Performance Awards. A performance award confers upon its recipient certain rights payable to or exercisable by its recipient, in whole or in part, as determined by the Compensation Committee, and conditioned upon the achievement of performance criteria determined by the Compensation Committee. Performance goals established by the Compensation Committee are based on objectively determinable performance goals selected by the Compensation Committee that apply to an individual or group of individuals, or us as a whole, over a performance period designated by the Compensation Committee. A performance award must be denominated in shares of common stock and may be payable in cash, shares of common stock, other awards under the Stock Incentive Plan, or any combination thereof.

Change in Control

Upon the occurrence of a change in control (as defined under the Stock Incentive Plan), except to the extent otherwise provided in a particular participant's award agreement (as defined under the Stock Incentive Plan), all awards shall become fully vested and, with respect to any award that is an option or stock appreciation right, exercisable in full. Each participant will be afforded an opportunity to exercise his or her options or stock appreciation rights immediately prior to the occurrence of the change in control (and conditioned upon the consummation of the change in control) so he or she can participate in the transaction if he or she desires.

Amendment and Termination

The Board may amend the Stock Incentive Plan as it deems advisable, except that it may not amend the Stock Incentive Plan in any way that would adversely affect a participant with respect to an award previously granted. In addition, the Board may not amend the Stock Incentive Plan without shareholder approval if such approval is then required pursuant to Section 162(m) or 422 of the Internal Revenue Code, the regulations promulgated thereunder or the rules of any stock exchange or similar regulatory body.

As an equity incentive, upon the consummation of the IPO we grant to each of our non-employee directors an option to purchase 20,000 shares of our common stock under the Stock Incentive Plan with an exercise price of \$3.125 per share. These options vest in equal installments on each of the grant date and the first two anniversaries of the grant date.

Item 13. Certain Relationships and Related Transactions and Director Independence

Paramount BioCapital, Inc. and Lindsay A. Rosenwald, M.D.

Dr. Rosenwald is the Chairman, Chief Executive Officer and sole stockholder of Paramount BioCapital, Inc. (“Paramount”). As of April 19, 2012, Dr. Rosenwald beneficially owned approximately 5.0% of our voting capital stock. In addition, as of April 19, 2012, certain trusts established for the benefit of Dr. Rosenwald’s children (the “Family Trusts”) beneficially owned less than 1% of our voting capital stock. In addition, as of April 19, 2012, certain

other trusts established for the benefit of Dr. Rosenwald and his family beneficially owned less than 1% of our voting capital stock.

As of immediately prior to the closing of the IPO, \$198,264, including accrued and unpaid interest, was outstanding under a future advance promissory note held by Paramount BioSciences, LLC (“PBS”), of which Dr. Rosenwald is the sole member, and \$452,007, including accrued and unpaid interest, was outstanding under a future advance promissory note held by the Family Trusts. Upon the completion of the IPO, the note held by PBS automatically converted into 30,499 units, consisting of 60,998 shares of our common stock and warrants to purchase 30,499 shares of our common stock at an exercise price of \$3.4375, and the note held by the Family Trusts automatically converted into 69,539 units, consisting of 139,078 shares of our common stock and warrants to purchase 69,539 shares of our common stock at an exercise price of \$3.4375.

In September 2010, we entered into a Board observer agreement with Dr. Rosenwald (the “Board Observer Agreement”), pursuant to which he is entitled to attend meetings of the Board as a non-voting observer, subject to certain exceptions. The Board Observer Agreement was terminated by Dr. Rosenwald on January 3, 2012. Dr. Rosenwald also agreed to certain standstill restrictions effective during the term of the Board Observer Agreement and for 180 days following its termination.

Shiva Biomedical, LLC and Dr. Sudhir Shah, M.D.

Pursuant to a license agreement we entered into with Shiva and certain other parties on July 28, 2006, which agreement was amended on October 6, 2009 and February 22, 2010 (the “Shiva Contribution Agreement”), Shiva contributed to us its kidney products business and granted us an exclusive, worldwide license for certain technology that serves as the basis for two of our product candidates (the “Shiva Technology”). As consideration in part for the rights to the Shiva Technology, we paid Shiva an initial licensing fee of \$500,000 and granted Shiva an equity interest in us. Additionally, pursuant to the Shiva Contribution Agreement, we were obligated to issue additional shares of our common stock to Shiva sufficient to maintain its ownership percentage at 7.0% of our common stock on a fully diluted basis. In accordance with this obligation, upon the automatic conversion of our outstanding convertible notes into units (each consisting of two shares of our common stock and a warrant to purchase one share of our common stock at an exercise price of \$3.4375) and shares of our common stock in connection with the closing of the IPO, we issued to Shiva 412,338 shares of our common stock. This obligation expired upon the closing of the IPO.

Under the Shiva Contribution Agreement, we are also required to make substantial payments to Shiva upon the achievement of certain clinical and regulatory-based milestones. The maximum aggregate amount of such milestone payments, assuming achievement of all milestones, is \$10,000,000. Events that trigger milestone payments include, but are not limited to, the reaching of various stages of clinical trials and regulatory approval processes. In the event that the Shiva Technology is commercialized we are obligated to pay to Shiva annual royalties based upon net sales of the product. In the event that we sublicense the Shiva Technology to a third party, we are obligated to pay to Shiva a portion of the royalties, fees or other lump-sum payments we receive from the sublicense, subject to certain deductions.

The Shiva Contribution Agreement will expire on a country-by-country basis upon the later of (i) the date the last claim under the patent rights covering a licensed product expires in a particular country, or (ii) 10 years from the first commercial sale of an applicable licensed product in such country. Following the date the last claim under the patent rights covering a licensed product expires in a particular country, we will have an irrevocable, paid-up, royalty-free license to the Shiva Technology in such country. The Shiva Contribution Agreement also may be terminated by Shiva if we fail to make payments due in accordance with the Shiva Contribution Agreement within 45 days after written notice of such failure is given to us, or if we fail to meet certain funding and developmental progress requirements, including but not limited to initiating patient dosing in a pivotal trial on or before September 30, 2011. We have the right to terminate the Shiva Contribution Agreement for any reason upon 30 days prior written notice. Should the Shiva Contribution Agreement be terminated by either party, we are obligated to reassign to Shiva all our intellectual property rights with respect to the Shiva Technology.

On February 22, 2010, we entered into an amendment to the Shiva Contribution Agreement, pursuant to which our deadline for meeting a certain development progress requirement was extended from April 30, 2010 to June 30, 2010 and we paid \$25,000 to Shiva following completion of the IPO as partial reimbursement for Shiva's expenses in connection with such amendment and prior amendments to the Shiva Contribution Agreement. On August 29, 2011, the Company and Shiva entered into an amendment to the Shiva Contribution Agreement, pursuant to certain changes with respect to the development and milestone payments of the licensed products. On December 1, 2011, the Company issued Shiva a notice of termination letter of the license agreement and, as such, has no further financial obligation to Shiva. During the years ended December 31, 2011 and 2010 and the period from July 28, 2006 (Inception) to December 31, 2011, the Company expensed \$100,000, \$1,288,556 and \$4,920,310, respectively, in connection with the Shiva Contribution Agreement.

In connection with the Shiva Contribution Agreement, on July 28, 2006, the Company entered into a Consulting Agreement with Dr. Sudhir Shah, which was amended and restated on April 1, 2010 as a Scientific Advisory Board Agreement (the "Shah Consulting Agreement") and was further amended and restated on August 29, 2011. Pursuant to the Shah Consulting Agreement, as amended, for a period of one year commencing on April 1, 2010, Dr. Shah provides the Company with consulting services involving areas mutually agreed to by Dr. Shah and the Company and beginning on August 29, 2011 provides consulting services for up to 17.5 hours per month and serves on one of the Company's Scientific Advisory Boards. During the years ended December 31, 2011 and 2010 and the period from July 28, 2006 (Inception) to December 31, 2011, the Company expensed \$29,000, \$84,000 and \$196,000, respectively, in connection with the Shah Consulting Agreement. On December 30, 2011 the Company issued Dr. Shah a termination letter of the Shah Consulting and Scientific Advisory Board agreements.

ND Partners, LLC

On January 30, 2008, we entered into a License and Assignment Agreement (the “NDP License Agreement”) with ND Partners, LLC (“NDP”). Pursuant to the NDP License Agreement, NDP granted us exclusive, worldwide licenses for certain technology and the corresponding United States and foreign patents and applications (the “NDP Technology”). We acquired such licenses and patents through our assignment and assumption of NDP’s rights under certain separate license agreements by and between NDP and Dr. Hans-Dietrich Polaschegg, Dr. Klaus Sodemann, and Dr. Johannes Reinmueller. NDP also granted us exclusive licenses, with the right to grant sublicenses, to use and display certain trademarks in connection with the NDP Technology. As consideration in part for the rights to the NDP Technology, we paid NDP an initial licensing fee of \$325,000 and granted NDP an equity interest in us. Additionally, pursuant to the terms of a stockholder agreement with NDP, dated as of January 30, 2008, we were obligated to issue additional shares of our common stock to NDP sufficient to maintain its ownership percentage at 5.0% of our common stock (7.0% when including shares of our common stock held in escrow under the NDP License Agreement) on a fully diluted basis. In accordance with this obligation, upon the automatic conversion of our outstanding convertible notes into units (each consisting of two shares of our common stock and a warrant to purchase one share of our common stock at an exercise price of \$3.4375) and shares of our common stock in connection with the closing of the IPO, we issued to NDP 297,398 shares of our common stock and an additional 118,288 shares of our common stock into escrow. This obligation expired upon the closing of the IPO.

In addition, under the NDP License Agreement we are required to make payments to NDP upon the achievement of certain regulatory and sales-based milestones. Certain of the milestone payments are to be made in the form of shares of our common stock currently held in escrow for NDP, and other milestone payments are to be paid in cash. The maximum aggregate number of shares issuable upon achievement of milestones and the number of shares of our common stock held in escrow as of April 19, 2012 is 145,543. The maximum aggregate amount of cash payments, assuming achievement of all milestones, is \$3,000,000. Events that trigger milestone payments include, but are not limited to, the reaching of various stages of regulatory approval processes and certain worldwide net sales amounts. Through April 19, 2012, no milestone payments have been earned by or paid to NDP.

The NDP License Agreement will expire on a country-by-country basis upon the earlier of (i) the expiration of the last patent claim under the NDP License Agreement in a given country, or (ii) the payment of all milestone payments and release of all shares of our common stock held in escrow under the NDP License Agreement. Upon the expiration of the NDP License Agreement in each country, we will have an irrevocable, perpetual, fully paid-up, royalty-free exclusive license to the NDP Technology in such country. The NDP License Agreement also may be terminated by NDP if we materially breach or default under the NDP License Agreement and that breach is not cured within 60 days following the delivery of written notice to us, or by us on a country-by-country basis upon 60 days prior written notice. If the NDP License Agreement is terminated by either party, our rights to the NDP Technology will revert back to NDP.
