INTERNET AVAILABILITY OF PROXY MATERIALS

In accordance with U.S. Securities and Exchange Commission rules, we are using the Internet as our primary means of furnishing proxy materials to stockholders. Consequently, most stockholders will not receive paper copies of our proxy materials. We will instead send these stockholders a Notice of Internet Availability of Proxy Materials with instructions for accessing the proxy materials, including our proxy statement and annual report, and voting via the Internet. The Notice of Internet Availability of Proxy Materials also provides information on how stockholders may obtain paper copies of our proxy materials if they so choose. We believe this will make the proxy distribution process more efficient, less costly and help in conserving natural resources. If you previously elected to receive our proxy materials electronically, these materials will continue to be sent via email unless you change your election.

PROXY STATEMENT

INFORMATION CONCERNING SOLICITATION AND VOTING

The accompanying Proxy is solicited by and on behalf of the Board of Directors of the Company, for use only at the Annual Meeting to be held at the Royal Sonesta Harbor Court Hotel, 550 Light Street, Baltimore, Maryland on the 18th day of June 2013, at 10:30 a.m., local time, and at any adjournments or postponement thereof. The approximate date on which this Proxy Statement and the accompanying Proxy were first given or sent to security holders was May 3, 2013.

Properly delivered Proxies will be voted in accordance with the specifications made and where no specifications are given, such Proxies will be voted FOR the proposal to elect seven persons to the Board of Directors of the Company to serve until their respective successors are elected and qualified, FOR the proposal to ratify the appointment of KPMG as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2013, and FOR the compensation of our named executive officers. In the discretion of the proxy holders, the Proxies will also be voted FOR or AGAINST such other matters as may properly come before the Annual Meeting. The management of the Company is not aware of any other matters that are to be presented for action at the Annual Meeting. If any other matters are properly brought before the Annual Meeting, the persons named in your proxies will vote in accordance with their best judgment. Although it is intended that the Proxies will be voted for the nominees named herein, the holders of the Proxies reserve discretion to cast votes for individuals other than such nominees in the event of the unavailability of any such nominee. The Company has no reason to believe that any of the nominees will become unavailable for election. The Proxies may not be voted for a greater number of persons than the number of nominees named.

Required Votes

In order to conduct business at the meeting a quorum of the shares of GP Strategies Common Stock (the “Common Stock”) must be present in person or represented by proxy. In the election of directors (Proposal 1), you may either vote “for” each nominee or expressly withhold your vote with respect to a nominee. The directors are elected by a plurality of the votes cast by holders of shares of Common Stock which means the seven director nominees receiving the highest number of votes will be elected. Accordingly, shares not present and shares present but not voted (because such vote is expressly withheld or is simply not cast, whether as a broker non-vote or otherwise) will have no effect on the voting outcome with respect to the election of directors.

The proposal to ratify the appointment of KPMG as the Company’s independent registered public accounting firm for the fiscal year ending December 31, 2013 (Proposal 2) requires the affirmative vote of a majority of the votes cast by holders of shares of Common Stock at the meeting. Abstentions and broker non-votes have no effect on this proposal, except they will be counted as having been present for purposes of determining the presence of a quorum.

The advisory vote on compensation of our named executive officers (Proposal 3) requires the affirmative vote of a majority of the votes cast by holders of shares of Common Stock at the meeting. Abstentions and broker non-votes have no effect on this proposal. Although the advisory vote on the compensation of our named executive officers is non-binding, the Board of Directors will review the results of the vote and will take them into account in making a determination concerning executive compensation of our named executive officers.

If you hold your shares in “street name” (that is through a broker or other nominee), your broker may be able to vote your shares for certain “routine” matters even if you do not provide the broker with voting instructions. If you do not give your broker instructions on how to vote your shares the broker will return the proxy card without voting on proposals not considered “routine.” This is a broker non-vote. Except for the ratification of KPMG LLP, votes in connection with all of the other proposals are considered “non-routine” matters. The broker may not vote on these matters without instructions from you.

Record Date

The Board of Directors has fixed the close of business on April 19, 2013 as the record date for the determination of stockholders entitled to receive notice of and to vote at the Annual Meeting. The issued and outstanding capital stock of the Company on April 19, 2013 consisted of 19,069,261 shares of Common Stock, each entitled to one vote per share. A quorum of the stockholders is constituted by the presence, in person or by proxy, of holders of record of Common Stock, representing a majority of the number of votes entitled to be cast.

Voting via the Internet, by Telephone or by Mail; Revoking Earlier Vote

As an alternative to voting in person at the Annual Meeting, stockholders whose shares are registered in their own names may vote via the Internet, by telephone or, for those stockholders who receive a paper proxy card in the mail, by mailing a completed proxy card. The Notice of Internet Availability of Proxy Materials provides instructions on how to access your proxy card, which contains instructions on how to vote via the Internet or by telephone. For those stockholders who receive a paper proxy card, instructions for voting via the Internet or by telephone are set forth on the proxy card. Those stockholders who receive a paper proxy card and voting instructions by mail, and who elect to vote by mail, should sign and return the mailed proxy card in the prepaid and addressed envelope that was enclosed with the proxy materials, and your shares will be voted at the Annual Meeting in the manner you direct.

If your shares are registered in the name of a bank or brokerage firm (your record holder), you will receive instructions from your record holder that must be followed in order for your record holder to vote your shares per your instructions. Many banks and brokerage firms have a process for their beneficial holders to provide instructions via the Internet or over the telephone. If Internet or telephone voting is unavailable from your bank or brokerage firm, please complete and return the enclosed voting instruction card in the addressed, postage paid envelope provided. If you hold shares through a bank or brokerage firm and wish to be able to vote in person at the Annual Meeting, you must obtain a legal proxy from your brokerage firm, bank or other holder of record and present it to the inspector of elections with your ballot.

You may revoke or change a previously delivered proxy at any time before the Annual Meeting by delivering another proxy with a later date, by voting again via the Internet or by telephone, or by delivering written notice of revocation of your proxy to GP Strategies Corporation's Secretary at its principal executive offices before the beginning of the Annual Meeting. You may also revoke your proxy by attending the Annual Meeting and voting in person, although attendance at the Annual Meeting will not, in and of itself, revoke a valid proxy that was previously delivered. If you hold shares through a bank or brokerage firm, you must contact that bank or brokerage firm to revoke any prior voting instructions. You may also vote in person at the Annual Meeting if you obtain a legal proxy as described in the preceding paragraph.

PROPOSAL 1. ELECTION OF DIRECTORS

Seven directors will be elected at the Annual Meeting to hold office until the next Annual Meeting of Stockholders and until their respective successors are elected and qualify. Gene A. Washington, who has been a director since 2007, requested that the Board not nominate him for election for another term for personal reasons. At a meeting on May 2, 2013, the Board granted his request and decided to reduce the size of the Board to seven directors upon the expiration of Mr. Washington's current term so only seven nominees are presented for election at the Annual Meeting. The Proxies solicited by this proxy statement may not be voted for a greater number of persons than the number of nominees named. Each nominee has consented to being named in this proxy statement and has agreed to serve if elected. It is intended that these Proxies will be voted for the following nominees, but the holders of these Proxies reserve discretion to cast votes for individuals other than the nominees for Director named below in the event of the unavailability of any such nominee.

We seek persons to serve as directors who possess qualifications and expertise that will enhance the composition of the Board, applying considerations set forth in our Corporate Governance Guidelines (a copy of which may be viewed on our website and is available in print, without charge, upon request to our Corporate Secretary). Those considerations include personal integrity, character, background, achievements, experience, leadership ability, intelligence, ability to make independent analytical inquiries, ability to exercise sound business judgment, potential conflicts of interest and independence, ability to devote adequate time and energy to Board activities, diversity of age, gender and ethnicity, and legal and regulatory requirements.

As noted above, Gene A. Washington, who has served on our Board since 2007, is not being nominated for reelection at his request and will cease serving as a director as of the date of the Meeting. We have been fortunate to have had his perspective and expertise over the years. We have greatly valued and thank him for his outstanding contributions to our success and wish him well in his future endeavors.

Set forth below are the names of the nominees, the year in which first elected a Director of the Company, the principal occupation of each nominee, and a brief biography of each nominee, including information regarding the specific experience, qualifications, attributes or skills that led the Board of Directors to determine that the applicable director should be re-nominated or elected to serve as a member of our Board of Directors.

Required Vote and Board Recommendation

In the election of directors (Proposal 1), you may either vote “for” each nominee or expressly withhold your vote with respect to a nominee. The directors are elected by a plurality of the votes cast by the holders of shares of Common Stock at the Annual Meeting, which means the seven director nominees receiving the highest number of votes will be elected.

The Board of Directors recommends that you vote FOR the election of each of the seven nominees.

Corporate Governance

The Board of Directors has the responsibility for establishing broad corporate policies and for the overall performance of the Company, although it is not involved in day-to-day operating details. Members of the Board of Directors are kept informed of the Company's business by various reports and documents sent to them as well as by operating and financial reports made at Board and Committee meetings. The Board of Directors held six meetings in 2012. All of the Directors attended at least 75% of the total number of meetings of the Board of Directors and of Committees of the Board on which they served. We do not have an official policy with regard to Board members' attendance at annual meetings of stockholders. However, we encourage all Directors to attend and typically schedule a meeting of the Board of Directors on the same day as our meeting of stockholders. In 2012, all persons who were then Directors attended the annual meeting of stockholders.

Corporate Governance Guidelines

Our Board of Directors, on the recommendation of the Nominating and Corporate Governance Committee, adopted a set of corporate governance guidelines, a copy of which is available on our website at www.gpstrategies.com under the "Corporate Governance" page of the "Investors" section (<http://investors.gpstrategies.com/common/pdf/investors/guidelines.pdf>). We will provide a copy of such guidelines to any stockholder who requests one by contacting our Secretary, 6095 Marshalee Drive, Suite 300, Elkridge, MD 21075. We continue to monitor our corporate governance guidelines to comply with rules adopted by the SEC, the NYSE and industry practice.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics for our directors, officers and employees, including, but not limited to, the Chief Executive Officer and the Chief Financial Officer and other senior managers in our accounting and finance departments. A copy of this Code of Business Conduct and Ethics can be found on our website at www.gpstrategies.com under the "Corporate Governance" page of the "Investors" section (<http://investors.gpstrategies.com/common/pdf/investors/gpxCodeOfEthics.pdf>). We will provide a copy of such code to any stockholder who requests one by contacting our Secretary, 6095 Marshalee Drive, Suite 300, Elkridge, MD 21075. If we make any substantive amendments to the Code of Ethics for our executive officers or directors or grant any waiver from a provision of the Code of Ethics for our executive officers or directors, we will within four (4) business days disclose the nature of such amendment or waiver in a Report on Form 8-K or on our website at www.gpstrategies.com.

Director Independence

The Board of Directors reviews the independence of its members on an annual basis. No Director will be deemed to be independent unless the Board affirmatively determines that the Director in question has no material relationship with the Company, directly or as an officer, stockholder, member or partner of an organization that has a material relationship with the Company. The Board has not adopted any categorical standards of Director independence, however, the Board of Directors employs the standards of independence of the New York Stock Exchange (“NYSE”) rules currently in effect in making its determination that a Director qualifies as independent. In its annual review of Director independence, the Board considers all commercial, banking, consulting, legal, accounting, charitable or other business relationships any Director may have with the Company. As a result of its annual review, the Board of Directors has determined that Harvey P. Eisen, Daniel M. Friedberg, Marshall S. Geller, Sue W. Kelly, Richard C. Pfenniger, Jr., A. Marvin Strait and Gene A. Washington are independent and that Scott N. Greenberg is not independent. The Company has Nominating/Corporate Governance, Compensation and Audit Committees and based on these standards, all current members of such Committees are independent. The Company also has an Executive Committee, of which Mr. Greenberg is a member.

Board Leadership Structure

We have separated the roles of the Chairman of the Board of Directors and Chief Executive Officer (the “CEO”) in recognition of the differences between the two roles. The CEO is responsible for setting the strategic direction for the Company and the day to day leadership and performance of the Company, while the Chairman of the Board of Directors provides guidance to the CEO, consults with the CEO about the agenda for Board of Directors meetings, and presides over meetings of the full Board of Directors. At present, our Board believes that this structure is appropriate and that it facilitates independent oversight of management.

Executive Sessions of Non-Management Directors

The non-management Directors meet periodically in executive session. The executive sessions of non-management Directors are presided over by the Director who is the Chairman of the Committee responsible for the issue being discussed. Executive sessions are also routinely held as a part of meetings of the Audit Committee. The Board intends to schedule at least two executive sessions of non-management Directors each year. However, any Director may request additional executive sessions of non-management Directors to discuss any matter of concern.

Risk Oversight

Our Board of Directors oversees an enterprise-wide approach to risk management, designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance and enhance shareholder value. A fundamental part of risk management is not only understanding the risks a company faces and what steps management is taking to manage those risks, but also understanding what level of risk is appropriate for the Company. Management is responsible for establishing our business strategy, identifying and assessing the related risks and establishing appropriate risk management practices. Our Board receives reports on various areas of risk, reviews our business strategy and management's assessment of the related risk, and discusses with management the appropriate level of risk for the Company.

Our Board administers its risk oversight function with respect to our operating risk as a whole, and meets with management at least quarterly to receive updates with respect to our operations, business strategies and the monitoring of related risks. The Board also delegates oversight to the Audit, Compensation and Nominating/Corporate Governance Committees to oversee selected elements of risk.

Our Audit Committee oversees financial risk exposures, including monitoring the integrity of the financial statements, internal controls over financial reporting, and the independence of the independent auditor of the Company. The Audit Committee also monitors our whistleblower hot lines with respect to financial reporting matters and alleged violations of our codes of conduct and business ethics. Individuals who supervise day-to-day risk in this area have direct access to the Board of Directors through the Audit Committee.

Our Nominating/Corporate Governance Committee oversees governance related risks by working with management to establish corporate governance guidelines applicable to the Company, including recommendations regarding director nominees, the determination of director independence, Board leadership structure and membership on Board Committees. The Company's Nominating/Corporate Governance Committee also oversees risk by working with management to adopt corporate governance policies and procedures designed to support the highest standards of business ethics.

Our Compensation Committee oversees risk management by participating in the creation of compensation structures that create incentives that support an appropriate level of risk-taking behavior consistent with the Company's business strategy.

Nominating/Corporate Governance Committee

The Nominating/Corporate Governance Committee of the Board of Directors acts under a written charter, which may be viewed online on the Company's website at www.gpstrategies.com under the "Corporate Governance" page of the "Investors" section (<http://investors.gpstrategies.com/common/pdf/investors/nomCharter.pdf>). We will provide a copy of such charter to any stockholder who requests one by contacting our Secretary, 6095 Marshalee Drive, Suite 300, Elkridge, MD 21075. The members of the Nominating/Corporate Governance Committee are Harvey P. Eisen, Daniel M. Friedberg, Marshall S. Geller, Sue W. Kelly and Richard C. Pfenniger, who is the Chairman of the Nominating/Corporate Governance Committee. All members of such committee satisfy the independence requirements of the NYSE rules currently in effect. The Nominating/Corporate Governance Committee met once in 2012. The principal functions of the Nominating/Corporate Governance Committee are to:

- (i) develop policies on the size and composition of the Board of Directors;
- (ii) identify individuals qualified to become members of the Board of Directors;
- (iii) recommend a slate of nominees to the Board of Directors annually;
- (iv) ensure that the Audit, Compensation and Nominating/Corporate Governance Committees of the Board of Directors have the benefit of qualified and experienced independent Directors;
- (v) review and reassess the adequacy of the Board of Directors' corporate governance principles (which principles may be viewed online on the Company's website at www.gpstrategies.com under the "Corporate Governance" page of the "Investors" section); and
- (vi) advise the full Board of Directors on corporate governance matters.

Our Nominating/Corporate Governance Committee identifies individuals qualified to be Board members, evaluates any stockholder recommendations for Board membership, and develops and recommends corporate governance policies and procedures. The charter for our Nominating/Corporate Governance Committee is available on our website at www.gpstrategies.com under the “Corporate Governance” page of the “Investors” section. We did not implement any changes to our process for stockholder recommendations of director nominees during 2012.

Criteria and Diversity

When the Board of Directors decides to recruit a new member, it seeks strong candidates who possess qualifications and expertise that will enhance the composition of the Board of Directors. The criteria for selecting new Directors can be viewed online on the Company’s website at www.gpstrategies.com under the “Corporate Governance” page of the “Investors” section. The Board of Directors will consider any such strong candidate provided he or she possesses integrity and ethical character. If the Board of Directors does not believe that a candidate possesses the above personal characteristics, that candidate will not be considered.

In evaluating potential board members, the Nominating/Corporate Governance Committee will apply the criteria set forth in our Corporate Governance Guidelines including:

- A candidate’s background, achievements, and experience;
- Demonstrated leadership ability;
- The intelligence and ability to make independent analytical inquiries;
- The ability to exercise sound business judgment; and

• Due consideration to the Board’s overall balance of diversity of perspectives, backgrounds and experiences, as well as age, gender and ethnicity.

Accordingly, in consideration with many other factors, the Nominating/Corporate Governance Committee selects nominees with a broad diversity of abilities, experience, professions, skills and backgrounds. The Nominating/Corporate Governance Committee does not assign specific weights to particular criteria and no particular criterion is necessarily applicable to all prospective nominees. We believe that the backgrounds and qualifications of members of our Board of Directors, considered as a group, should provide a significant composite mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities. Nominees are not discriminated against on the basis of race, religion, national origin, sexual orientation, disability or any other basis proscribed by law.

In recommending candidates for election to the Board of Directors, the Nominating/Corporate Governance Committee considers nominees recommended by Directors, officers, employees, stockholders and others, using the same criteria to evaluate all candidates. Upon selection of a qualified candidate, the Nominating/Corporate Governance Committee would recommend the candidate for consideration by the full Board of Directors.

Stockholder Recommendations for Board Nominees

Generally, candidates for election to the Board are suggested by existing Board members, however, the Nominating/Corporate Governance Committee will consider stockholder recommendations for candidates to the Board. To recommend a prospective nominee for the Nominating/Corporate Governance Committee's consideration, stockholders should submit the candidate's name and qualification to our Secretary in writing at 6095 Marshalee Drive, Suite 300, Elkridge, MD 21075. When submitting candidates for nomination to be elected at our annual meeting of stockholders, stockholders must also follow the notice procedures and provide the information required by our By-laws. Our By-laws provide that any stockholder wishing to nominate a candidate for Director or to propose other business at an annual meeting of stockholders must give written notice that is received by our Secretary not less than 90 days prior to the anniversary date of the proxy statement relating to the immediately preceding annual meeting of stockholders (no later than February 2, 2014 with respect to the 2014 Annual Meeting of Stockholders); provided that in the event that the annual meeting is called for a date that is not within 30 days before or after such anniversary date, such notice must be received not less than 90 days prior to the date of the meeting or, if the first public announcement of the meeting date is less than 100 days before such meeting date, not later than the close of business on the tenth day following the day on which public disclosure of the date of the annual meeting was first made. Such notice must provide certain information specified in our By-laws. Copies of our By-laws are available to stockholders without charge upon request to our Secretary at the address set forth above.

- (iv) reviewing the scope of the annual audit and quarterly reports and recommendations submitted by the independent auditors; and
- (v) reviewing the Company's financial reporting, the system of internal financial controls, and accounting policies, including any significant changes, with management and the independent auditors.

Compensation Discussion & Analysis

Overview

This Compensation Discussion and Analysis explains our compensation philosophy, policies and practices with respect to our Chief Executive Officer, Chief Financial Officer, and the other three most highly-compensated executive officers, who are collectively referred to as the named executive officers. This discussion focuses on the information contained in the following tables and related footnotes and narrative discussions for primarily the last completed fiscal year, but we also describe compensation actions taken before or after the last completed fiscal year to the extent they enhance the understanding of our executive compensation disclosure.

At our 2012 annual meeting of stockholders held on September 12, 2012, we provided our stockholders the opportunity to vote to approve, on an advisory basis, the compensation of our named executive officers in 2011 as disclosed in the proxy statement for that meeting. Our stockholders overwhelmingly approved the compensation of our named executive officers, with 15,124,076 shares voting in favor, 370,187 shares voting against, 255,750 shares abstaining and 1,348,658 shares held by brokers not voting. As this vote was held after the Compensation Committee had determined compensation to be paid to the named executive officers for 2012, the Compensation Committee and the Board did not take such results into account in determining executive compensation for 2012. However, the results of the 2012 shareholder advisory vote on executive compensation, particularly the strong support expressed by the stockholders, will be one of many factors considered in future decisions. Our compensation policies and procedures remain consistent with the policies and procedures in effect in 2011.

Compensation Philosophy and Objectives

The Compensation Committee seeks to provide compensation programs designed to:

Attract and retain talented and dedicated executives;

Motivate and reward executives whose knowledge, skills, potential and performance are critical to our success; and

Align the interests of our executive officers and shareholders by motivating executive officers to increase shareholder value and rewarding executive officers when shareholder value increases.

The Compensation Committee believes that the most effective compensation program is one that provides competitive base pay, rewards the achievement of goals and objectives, and provides an incentive for retention. The principal elements of our executive compensation program are base salary, annual cash incentives, long-term equity incentives (the vesting of which may accelerate upon termination of employment and/or a change in control), other benefits and perquisites and post-termination severance compensation.

Setting Executive Compensation

Each year we typically evaluate whether the elements of our executive compensation program are aligned with our compensation philosophy and objectives, while also promoting the interests of our shareholders. As part of this evaluation, we subscribe annually to a number of compensation data resources to evaluate the compensation of our executive officers compared to similar positions in the marketplace, including resources published by Kenexa and Western Management Group which provide base salary and bonus compensation data. In general, our objective is to

compensate our executive officers at levels between the 50th and 75th percentiles for executives in similar positions at similarly sized companies, which we believe usually allows us to satisfy the objectives described above. The Compensation Committee has sometimes deemed it appropriate to compensate certain executives at levels outside the 50th to 75th percentile for executives in similar positions due to the executives' experience and the market for executives with similar experience, scope of responsibility, accountability and impact on our operations, and the impact their departure could potentially have on our performance.

In addition, to assist management and the Compensation Committee in assessing and determining competitive compensation packages, at times we have engaged an independent compensation consultant to evaluate the compensation of certain executive officers and other key employees. In 2012, we engaged Frederic W. Cook & Co., Inc. (the "compensation consultant") to assess the competitiveness of compensation levels for certain of our officers, including our named executive officers, relative to peer group and survey market data. The Company determined that the compensation consultant was independent. Management, in conjunction with the compensation consultant, identified a peer group of companies in the consulting and professional services industries which were similar in size in terms of market capitalization, number of employees, revenue and certain other financial data. The peer group, which was approved by the Compensation Committee, consisted of: CBIZ, Computer Task Group, Corporate Executive Board, Franklin Covey, Hackett Group, Huron Consulting Group, ICF International, Learning Tree International, Lionbridge Technologies, Resources Connection and Virtusa. Our revenue was between the 25th percentile and median of the peer group, our market capitalization and net income were approximately equal to the median of the peer group and our total assets and number of employees were slightly below the median of the peer group. Our one and three-year total shareholder returns as calculated by the compensation consultant were above the 75th percentile of the peer group.

The compensation consultant prepared an analysis (the "Executive Compensation Analysis") which evaluated the base salaries, annual cash incentives and long-term equity incentives for our named executive officers compared to corresponding data in the 25th percentile, 50th percentile and 75th percentile for executives in similar positions in the peer group and in the survey market data. The results of the Executive Compensation Analysis showed that overall compensation levels for our named executive officers were below the 25th percentiles of the peer group and survey market data analyzed. This is primarily the result of below market annual cash bonuses and the irregular granting of equity awards. Base salaries for the named executive officers were also below the median levels relative to the peer group.

Based on the Compensation Committee's evaluation of the Executive Compensation Analysis and the performance of the Company and the named executive officers, the Compensation Committee recommended increasing the salaries of the named executive officers (which was approved by the full Board of Directors, with Mr. Greenberg abstaining) in September 2012 and approved the granting of restricted stock units to the named executive officers in August 2012, which are detailed further below. Except as described below, our Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid out compensation, between cash and non-cash compensation, or among different forms of non-cash compensation.

Elements of Compensation

Base Salary

General

Salaries are typically considered annually, as well as upon promotion or other change in job responsibility. The Compensation Committee, with input from the Chief Executive Officer, considers competitive, individual and company performance data in order to make compensation decisions that will incentivize, retain and maintain a competitive standing for each executive officer. The Compensation Committee considers several factors when adjusting an executive's salary, including individual and company performance, the executive's market value and prospective value to us, the knowledge, experience and accomplishments of the executive, the executive's level of responsibility, the recommendation of the Chief Executive Officer and the compensation levels for individuals with similar credentials.

2012 Base Salary Adjustments

In 2012, the Compensation Committee utilized the Executive Compensation Analysis to assist in determining the appropriate adjustment to each executive's annual base salary. As noted above, the Executive Compensation Analysis showed that overall compensation levels, including base salaries, for our named executive officers were below competitive levels. As a result, the Compensation Committee recommended the following salary increases for our named executive officers (which were approved by the Board of Directors, with Mr. Greenberg abstaining) which became effective in October 2012:

Cash-Based Incentive Compensation (Bonus)

Bonuses to our Chief Executive Officer and President

The employment agreements with our Chief Executive Officer and our President contain formulas for determining their annual cash bonuses. The formula ties the bonus payable to them to increases in our earnings before income taxes, depreciation and amortization (“EBITDA”) compared to the prior year, as adjusted for acquisitions and dispositions and other extraordinary or unusual nonrecurring items as defined in their employment agreements. EBITDA is a widely used non-GAAP financial measure of operating performance. EBITDA is calculated from our audited financial statements by adding back interest expense, income tax expense, depreciation and amortization to net income, and adjusting for certain non-recurring items such as gains or losses on the change in fair value of contingent consideration. Under their employment agreements, the Chief Executive Officer’s and President’s bonuses are (a) 1% of base salary for each 1% increase in EBITDA, up to a 10% increase; (b) then 2% of base salary for each 1% increase in EBITDA, up to a 15% increase; (c) then 3% of base salary for each 1% increase in EBITDA, up to a 25% increase; subject to a maximum bonus for any calendar year of 50% of his base salary for that year. In calculating the bonus for Mr. Greenberg and Mr. Sharp, for any year in which we acquire any business, the formula set forth in their employment agreements requires that EBITDA for the prior year be adjusted to reflect the budgeted EBITDA of the acquired business (as set forth in the budget numbers on which the acquisition was based) for the period from the date of the acquisition to the end of the calendar year in which the acquisition takes place.

For 2012, our EBITDA, as adjusted for acquisitions in 2011 and 2012 and other nonrecurring items, increased 23%. For 2012, the bonuses determined in accordance with their employment agreements (the “Employment Agreement Bonuses”) were \$208,000, or 44% of salary, for Mr. Greenberg, and \$187,000, or 44% of salary, for Mr. Sharp. The Employment Agreement Bonuses for fiscal 2012 are reflected in the column entitled “Non-Equity Incentive Plan Compensation” in the Summary Compensation Table. For the fiscal years ended December 31, 2011 and 2010, the Compensation Committee approved discretionary bonuses in addition to the Employment Agreement Bonuses to Mr. Greenberg and Mr. Sharp based upon our financial and operating performance as well as other factors not deemed to be adequately represented in the employment agreement formulas. These additional discretionary bonuses are reflected in the column entitled “Bonuses” in the Summary Compensation Table.

Bonuses to our other Named Executive Officers

Our Cash Bonus Plan (the “Bonus Plan”) provides for the payment of cash bonuses to eligible employees and executive officers, including the named executive officers except for Scott Greenberg, Chief Executive Officer, and Douglas Sharp, President, who are not currently eligible to participate in the Bonus Plan as their bonuses fall under their individual employment agreements, as detailed above.

The Bonus Plan contains separate formulas and incentives for the executive team, business unit leaders and all other employees. Each part of the plan sets forth, among other things, (1) which levels of executives or employees are eligible to participate in that part of the plan, (2) the method of determining the amount of bonuses available for distribution under that part of the plan, and (3) performance criteria to be used in determining the amount, if any, of each participant's bonus. For purposes of the Bonus Plan, our executive team includes the aforementioned named executive officers and certain other executive and senior vice presidents. The total bonus pool that may be allocated among the executive team will not exceed 50% of the executive team's total base salaries and is determined by using a formula based on our revenue growth and pre-tax income growth over the prior year's results. Once the bonus pool is established, the amount of each executive team member's potential cash bonus, if any, is determined using a score (up to 100 points) given to each executive team member based upon the attainment of the performance objectives recommended by the Chief Executive Officer and approved by the Compensation Committee of the Board of Directors. Performance objectives include specific corporate level, group level (or for executive team members who are not group leaders, additional corporate level) and individual objectives. Corporate level and group level objectives are based on revenue and pre-tax income growth of the Company and the operating group within the Company for which the executive is responsible, compared to the prior fiscal year results, adjusted for acquisitions during the year and other non-recurring items when deemed appropriate.

Except for the Chief Financial Officer and any executive who does not manage an operating group, executive team members could achieve maximum scores of 15 points under the Bonus Plan for corporate revenue growth of 10% or more and 15 additional points for corporate pre-tax income growth of 20% or more, and maximum scores of 25 points under the Bonus Plan for group revenue growth of 15% or more and 25 additional points for group gross profit growth of 30% or more. Achievement of individual goals may add up to 20 more points to each executive team member's score.

The table below sets forth the various thresholds of financial performance and the resulting number of points for each performance measure for executives under the Bonus Plan for the year ended December 31, 2012 (results are interpolated). The minimum number of points for each performance measure is zero and the maximum is as set forth in the table. We do not establish target levels for the performance measures.

The table below summarizes the points earned under the Bonus Plan by Sharon Esposito-Mayer, Donald R. Duquette and Karl Baer for the year ended December 31, 2012 (out of a total maximum of 100 points).

Scoring Against Performance Measures								
Executive Officer	Corporate revenue growth	Corporate pre-tax income growth (1)	Group revenue growth	Group gross profit growth	Group gross profit growth	G&A expense increase over prior year	Individual objectives (3)	Total points earned
Sharon Esposito-Mayer	25	25	N/A	N/A	N/A	9 (4)	15	74

(1) Based on consolidated organic revenue growth of 10% for the year ended December 31, 2012.

(2) Based on consolidated organic pre-tax income growth of 30% for the year ended December 31, 2012.

The Compensation Committee did not establish specific individual objectives or point values at the beginning of (3)2012 and points were granted based on the subjective evaluation by the Chief Executive Officer and President of each individual's performance against their strategic objectives.

(4) Based on a 5.6% increase in U.S. G&A expenses for the year ended December 31, 2012.

(5) Based on 13% organic revenue growth and 19% organic gross profit growth for the Learning Solutions group for the year ended December 31, 2012.

(6) Based on a decline in revenue and pre-tax income for the Professional & Technical Services group for the year ended December 31, 2012.

The total bonus pool for the executive team, which included seven executives, was \$881,000 and the total of all executive team members' scores earned was 457 points for the year ended December 31, 2012. Each executive team member's calculated bonus is equal to the amount of the bonus pool multiplied by the percentage determined by dividing such executive team member's score by the total of all executive team members' scores. For the year ended December 31, 2012, the bonus amounts payable as calculated under the Bonus Plan based on the achievement of the above performance measures were \$143,000 for Ms. Esposito-Mayer, \$160,000 for Mr. Duquette and \$65,000 for Mr. Baer. The Compensation Committee approved total bonuses of \$143,000 for Ms. Esposito-Mayer and \$160,000 for Mr. Duquette, which equaled their calculated amounts under the Bonus Plan. For Mr. Baer, the Compensation Committee approved a total bonus of \$80,000, which included a \$15,000 discretionary bonus in addition to his calculated amount under the Bonus Plan, based upon additional factors not deemed to be adequately represented in the Bonus Plan formula. Annual bonuses for 2012 were paid in cash after review and approval by the Compensation Committee in March 2013.

Long-term Equity Incentive Compensation

Our Compensation Committee also grants to the named executive officers equity compensation under our incentive stock plan. Equity compensation for the named executive officers, which has historically taken the form of stock options and restricted stock units, is designed to align the interests of our executives with our shareholders as well as to retain the executives. Equity grants are also intended to drive long term performance, in that the value ultimately realized is linked to stock price appreciation. Option grants have no value without stock price appreciation, and restricted stock has value at grant that can increase with stock price appreciation and decrease with stock price declines. Thus, the Compensation Committee believes that equity grants should motivate management to enhance the value of our common stock.

We do not have a formal policy for issuing equity compensation and do not always grant equity awards on an annual or other regular basis. The Compensation Committee awards equity compensation to supplement our executive officers' compensation to ensure that total compensation is competitive in the marketplace and to align compensation with our long term goals and objectives.

In August 2012, the Compensation Committee granted a total of 184,500 restricted stock units to certain of our officers and key employees (of which 83,000 were granted to the named executive officers). This was the only long-term equity incentive compensation granted to the named executive officers in 2012. The restricted stock units were granted pursuant to our 2011 Stock Incentive Plan and vest 20% annually over five years subsequent to the grant date. The following named executive officers were granted restricted stock units in 2012:

Name	Number of Stock Units	Grant Date Fair Value	Peer Group Median Annual Long-Term Incentive Compensation
Scott N. Greenberg	23,000	\$ 445,740	\$ 939,000
Sharon Esposito-Mayer	15,000	\$ 290,700	\$ 396,000
Douglas E. Sharp	19,000	\$ 368,220	\$ 556,000
Donald R. Duquette	13,000	\$ 251,940	\$ 358,000
Karl Baer	13,000	\$ 251,940	\$ 315,000

Other Benefits

We also provide our named executive officers with the following other benefits as part of our overall compensation program and which we believe are consistent with the types of benefits offered by competitors:

Retirement Savings Plan: We maintain a defined contribution 401(k) plan in which all eligible employees may participate. The company may make matching contributions under the 401(k) Plan at its discretion equal to a uniform percentage of the first 7% of base compensation for eligible employees.

Health and Welfare Benefits: All full-time employees, including our named executive officers, may participate in our health and welfare benefit programs, including medical, dental and vision care coverage, disability insurance and life insurance.

Life Insurance Premiums: Life insurance policies, in excess of the standard life insurance plans offered to full-time employees, are offered to the named executive officers. During 2012, the executive life insurance policies provided coverage up to five times the executive's annual base salary. The premiums are fully paid by us. A policy may, at the executive's election, be transferred to the executive upon termination of employment.

Automobile Allowances: During 2012, each of the named executive officers either used a vehicle leased or owned by us for both business and personal use or received a monthly car allowance in lieu of using a vehicle leased or owned by us.

Employment Agreements, Severance Benefits and Change in Control Provisions

All of our named executive officers have written employment agreements which provide for separation payments and benefits upon termination of employment under certain circumstances. Post-termination payments with respect to these executives are set forth in their respective employment agreements. The termination provisions for these executives are summarized in the "Potential Payments upon Termination or Change in Control" section later in this report.

Tax Deductibility of Executive Compensation

Limitations on deductibility of compensation may occur under Section 162(m) of the Internal Revenue Code, which generally limits the tax deductibility of compensation paid by a public company to its chief executive officer and certain other highly compensated executive officers to \$1 million in the year the compensation becomes taxable to the executive officer. There is an exception to the limit on deductibility for performance-based compensation that meets certain requirements. We intend that compensation paid under our incentive plans be generally fully deductible for federal income tax purposes. However, the Compensation Committee may approve compensation that exceeds the \$1 million limitation in order to ensure competitive levels of total compensation for our executive officers.

Summary Compensation Table

The following table sets forth all compensation earned by each of the named executive officers for the years ended December 31, 2012, 2011 and 2010. Grants of Plan-Based Awards

The following table sets forth certain information with respect to non-equity incentive plan awards granted during the year ended December 31, 2012 to our named executive officers:

Name	Grant Date	Estimated Future Payouts Under Non-Equity Incentive Plan Awards			Maximum (\$)	All Other Stock Awards: Number of Shares of Stock or Units (#)	All Other Option Awards: Number of Securities Underlying Options (#)	Exercise or Base Price of Option Awards (\$/Sh)
		Threshold (\$)	Target (\$)	Maximum (\$)				
Scott N. Greenberg	n/a	—	208,000	(1)	236,000	(1)	—	—
Sharon Esposito-Mayer	n/a	—	143,000	(2)	n/a	(3)	—	—
Douglas E. Sharp	n/a	—	187,000	(1)	212,500	(1)	—	—
Donald R. Duquette	n/a	—	160,000	(2)	n/a	(3)	—	—
Karl Baer	n/a	—	65,000	(2)	n/a	(3)	—	—

The amounts represent the target and maximum bonus payment levels payable pursuant to a formula in Mr.

(1) Greenberg's and Mr. Sharp's employment agreements. The formula is based upon EBITDA of GP Strategies and subsidiaries and is capped, for each executive, at 50% of his base salary (see *Compensation Discussion & Analysis*).

Bonuses calculated under the terms of the Bonus Plan (see *Compensation Discussion & Analysis*). The actual bonus (2) payment to Mr. Baer for 2012 was \$80,000, which includes a \$15,000 discretionary bonus in addition to the amount calculated pursuant to the Bonus Plan (see *Compensation Discussion & Analysis*).

Total bonus payments to the executive team under the Bonus Plan are capped at 50% of the executive team's total base salaries. There is not a specified maximum bonus amount for any individual executive team member due to the (3) calculation being dependent on the individual's score as a percentage of the total executive team's score which is then applied to the calculated bonus pool. As a result, the actual bonus calculated for an individual executive covered by the Bonus Plan could exceed 50% of his/her salary.

Potential Payments Upon Termination or Change in Control

Description of Termination Provisions in Employment Agreements

We have employment agreements with all five of the named executive officers. These agreements provide for various payments and benefits to be made to them if their employment with us is terminated for certain reasons. The circumstances in which payments may be made and the potential amounts of those payments are described in this section. We believe that the payments provided for in these agreements are reasonable and appropriate as part of the total compensation packages available for our named executive officers. The following description of certain terms of the employment agreements with our named executive officers is a summary and is subject to, and qualified in its entirety by, the agreements, which have been filed as exhibits to our filings with the SEC. The employment agreements between us and each of Messrs. Greenberg and Sharp provide for termination by either party on two years' notice, except that the earliest date the employment agreements may terminate is December 31, 2012, unless sooner terminated:

by the executive's death or disability;

· by the executive for “good reason,” as defined below;

· by us for “cause,” as defined below; or

· by mutual agreement between us and the executive.

The employment agreements between us and each of Ms. Esposito-Mayer, Mr. Duquette and Mr. Baer have an initial term which ended on February 28, 2009 but the term automatically extends unless the agreement is terminated by us or the executive by giving the other notice of a decision to terminate the agreement prior to a date determined by the agreements. As such dates have passed for each of the executives, the agreements have been extended and now will continue in effect until terminated:

·by the executive’s death or disability;

· by the executive for “just cause,” as defined below;

·by us for “cause,” as defined below;

·by us or the executive by giving the other a period of “required notice,” as defined below; or

·by mutual agreement between us and the executive.

The “required notice” period is one month for each year of service with us but not more than fifteen months, which means fifteen months for Ms. Esposito-Mayer, Mr. Duquette and Mr. Baer.

The discussion and tables below reflect the estimated termination benefits that would be paid or accrue to each of the named executive officers in the event of the following termination scenarios:

Termination for Cause – If we terminate the employment of one of the named executives for “cause,” as defined below, such executive would be entitled to unpaid base salary and continuation of benefits through the date of termination only.

“Cause” is defined under the employment agreements of Messrs. Greenberg and Sharp as follows:

Willful and continued failure to substantially perform his duties or obligations under the employment agreement (after notice and failure to cure); or

Willful engaging in misconduct which is materially monetarily injurious to us.

“Cause” as defined under the employment agreements of Ms. Esposito-Mayer, Mr. Duquette and Mr. Baer exists if such executive shall:

· Be convicted, plead guilty, or enter a plea of nolo contendere to a felony or a crime involving moral turpitude; or

· Commit any act or omit to take any action in bad faith and to our detriment; or

Willfully and continually fail to perform his or her duties or obligations under any provision of the employment agreement in any material respect, and shall not correct such failure within ten days after receipt of written notice thereof; or

Fail to perform his or her duties or obligations pursuant to the non-compete and confidential information provisions of his or her employment agreement in any material respect.

Termination upon disability – We may terminate the employment of a named executive officer in the event of such executive’s incapacity due to extended physical or mental illness. In the case of disability, the affected executive would be entitled to his or her unpaid base salary and continuation of benefits through the date of termination only. If Mr. Greenberg or Mr. Sharp has been absent from his duties on a full-time basis for the entire period of six consecutive months due to physical or mental illness, we may terminate his employment thirty days after giving him notice of termination if he has not returned to the performance of his duties on a full-time basis within those thirty days. If Ms. Esposito-Mayer, Mr. Duquette or Mr. Baer is unable fully to discharge his or her duties for a period of ninety consecutive days due to a serious health condition (as defined in the Family and Medical Leave Act of 1993) and after giving effect to any reasonable accommodation required by law, we may terminate his or her employment as of a date specified in a notice of termination given to such employee.

Termination upon death – In the event of death, each of the named executive officers is entitled to his or her full salary through the date of death and we are required to pay his or her spouse or estate the following: for Messrs. Greenberg and Sharp – an amount equal to his full salary for one year after the date of death; and for Ms. Esposito-Mayer, Mr. Duquette or Mr. Baer – his or her full salary through the end of the calendar month within which termination occurred plus his or her full salary for the following two calendar months, and for purposes of the vesting of any stock units outstanding and unvested as of the date of termination of his or her employment, he or she shall be deemed to have been employed through the remaining period under the employment agreement.

Termination without cause, or for “good reason” or “just cause” – If we terminate a named executive officer’s employment without cause or a named executive officer terminates his or her employment for “good reason” or “just cause,” as defined below, then the named executive officer would be entitled to certain compensation discussed in detail below.

“Good reason” is defined under the employment agreements of Messrs. Greenberg and Sharp as follows:

· A change in control as defined in his employment agreement; or

· A management change in control as defined in his employment agreement; or

A failure by us to comply with any material provision of the employment agreement which has not been cured within ten days after notice of such noncompliance has been given to us by the executive; or

Any purported termination of the executive’s employment by us which is not effected pursuant to a notice of termination satisfying the requirements of the employment agreement.

Ms. Esposito-Mayer, Mr. Duquette and Mr. Baer shall be deemed to have resigned for “just cause,” under the terms of their employment agreement, in the event that he or she resigns within sixty days following either:

Our imposition, without express written consent of the executive, of any significant change in his or her function, duties, or responsibilities that is not consistent with him or her being an executive, unless we rescind or modify such change within ten business days after receipt of written notice from the executive; or

Our failure to make any material payment, or provide any material benefit to the executive pursuant to the employment agreement, unless we correct any such deficiency within ten business days after receipt of written notice from the executive; or

Our breach of any other term of the employment agreement, unless we correct such failure or breach within thirty days after written notice from the executive.

Termination Payments under Mr. Greenberg's Employment Agreement

If we terminate Mr. Greenberg's employment without cause, or if he terminates his employment for "good reason" other than as a result of a management change in control, we are obligated to pay him his full salary and provide his benefits through the date of termination, pay his full bonus for the calendar year in which the date of termination occurs, and pay as severance an amount equal to his average annual cash compensation received from us during the three full calendar years immediately preceding the termination date, multiplied by the greater of (i) the number of years that would have been remaining in the employment period if his employment had not been terminated and (ii) three. In addition, all options to purchase Common Stock granted to him shall become fully vested and we must provide him with continued benefits for three years under all employee benefit plans and programs in which he was entitled to participate prior to the termination.

If Mr. Greenberg terminates his employment as a result of a management change in control, we are obligated to pay him his full salary and provide his benefits through the date of termination, pay his full bonus for the calendar year in which the date of termination occurs, and pay as severance an amount equal to his average annual cash compensation received from us during the three full calendar years immediately preceding the termination date, multiplied by two. In addition, all options to purchase Common Stock granted to him shall become fully vested and we must provide him with continued benefits for two years under all employee benefit plans and programs in which he was entitled to participate prior to the termination.

Termination Payments under Mr. Sharp's Employment Agreement

If we terminate Mr. Sharp's employment without cause, or if he terminates his employment for "good reason" other than as a result of a management change in control, we are obligated to pay him his full salary and provide his benefits through the date of termination, pay his full bonus for the calendar year in which the date of termination occurs, and pay as severance an amount equal to his average annual cash compensation received from us during the three full calendar years immediately preceding the termination date, multiplied by the greater of (i) the number of years that would have been remaining in the employment period if his employment had not been terminated and (ii) three. In addition, all options to purchase Common Stock granted to him shall become fully vested and we must provide him with continued benefits for three years under all employee benefit plans and programs in which he was entitled to participate prior to the termination.

If Mr. Sharp terminates his employment as a result of a management change in control, we are obligated to pay him his full salary and provide his benefits through the date of termination, pay his full bonus for the calendar year in which the date of termination occurs, and pay as severance an amount equal to his average annual cash compensation received from us during the three full calendar years immediately preceding the termination date, multiplied by two. In addition, all options to purchase Common Stock granted to him shall become fully vested and we must provide him with continued benefits for one year under all employee benefit plans and programs in which he was entitled to participate prior to the termination.

Termination Provisions of Employments Agreement with Ms. Esposito-Mayer, Mr. Duquette and Mr. Baer

If during the term of either Ms. Esposito-Mayer's, Mr. Duquette's or Mr. Baer's employment agreement we terminate his or her employment without "cause" or any of them terminates his or her employment for just cause and he or she is in full compliance with his or her obligations under the employment agreement, we are obligated to pay the executive his or her base annual salary at the rate in effect on the date of such termination, and the executive will continue to be eligible to receive such benefits as he or she would have been entitled to had his or her employment not terminated, for a period of time after termination equal to the length of the required notice. In addition, upon the occurrence of a "Change in Control" or "Sale of the Company," as defined in each of their employment agreements, all stock options to purchase Common Stock granted to him or her shall immediately become fully vested and exercisable, and all stock units granted to him or her must immediately be paid in unrestricted shares of Common Stock.

The amounts shown in the table below assume that the noted triggering events occurred on December 31, 2012 with respect to the five named executive officers. Other relevant assumptions and explanations are provided in the footnotes following the table. The amounts shown reflect only the additional payments or benefits that a named executive officer would have received upon the occurrence of the respective triggering events listed below; they do not include the value of payments or benefits that would have been earned, or any amounts associated with equity awards that would have vested absent the triggering event. As discussed above, none of the named executive officers receive additional compensation in the event of voluntary or involuntary termination for "cause" or in the event of disability.

PROPOSAL 3. ADVISORY VOTE ON COMPENSATION OF NAMED EXECUTIVE OFFICERS

At our 2011 Annual Meeting, our stockholders approved the Company's recommendation that the advisory vote on compensation of named executive officers be held annually. We are required to submit the frequency of shareholder advisory votes on compensation to an advisory vote of stockholders at least every six years. We expect that our next advisory vote on frequency will be at our 2017 annual meeting. We are requesting shareholders to approve the following non-binding, advisory resolution at the 2013 annual meeting of shareholders:

RESOLVED, that the shareholders of GP Strategies Corporation provide their advisory approval of the compensation of GP Strategies Corporation's named executive officers disclosed in the Compensation Discussion and Analysis, the compensation tables and related notes and narrative contained in the Proxy Statement for GP Strategies Corporation's 2013 Annual Meeting of Shareholders.

Approval of this advisory proposal requires the affirmative vote of a majority of the votes cast by holders of shares of Common Stock at the meeting. Abstentions and broker non-votes have no effect on this proposal.

This vote is not intended to address any specific item of compensation, but rather the overall compensation of the named executive officers as described in this Proxy Statement. This vote is advisory and therefore not binding on GP Strategies Corporation or its Board of Directors. The Board of Directors, however, will review the outcome of this vote and will take it into account in making determinations concerning the compensation of our executive officers in the future.

Executive Compensation Philosophy

The Compensation Committee seeks to provide compensation programs designed to:

- Attract and retain talented and dedicated executives;
- Motivate and reward executives whose knowledge, skills, potential and performance are critical to our success; and
- Align the interests of our executive officers and shareholders by motivating executive officers to increase shareholder value and rewarding executive officers when shareholder value increases.

The Compensation Committee believes that the most effective compensation program is one that provides competitive base pay, rewards the achievement of goals and objectives, and provides an incentive for retention.

We believe that the 2012 compensation of GP Strategies Corporation's named executive officers was appropriate and aligned with GP Strategies Corporation's 2012 strategic objectives and performance. We encourage you to read the *Compensation Discussion and Analysis* section of this Proxy Statement beginning on page 16, which describes in more detail GP Strategies Corporation's compensation philosophy and the policies and procedures that have been designed to achieve our compensation objectives, as well as the *Summary Compensation Table* and other related compensation tables, notes and narrative, beginning on page 23 of this Proxy Statement, which provide detailed information on the compensation of GP Strategies Corporation's named executive officers.

The Board of Directors recommends a vote FOR approval of this proposal. If not otherwise specified, proxies will be voted FOR approval of this proposal.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Review & Approval Process for Related Person Transactions

Our Corporate Governance Guidelines (a copy of which may be viewed on our website and is available in print, without charge, upon request to GP Strategies' Corporate Secretary) require each director to avoid any action, position or interest that conflicts with an interest of the Company or gives the appearance of a conflict. Although there is no formal written procedure in those Guidelines for handling such situations when they arise, in practice our Board of Directors, or a committee thereof, is responsible for reviewing and approving, all related person transactions. A related person transaction is a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which the Company and any "related person" are participants. A related person is an executive officer, director, or more than 5% stockholder of the Company, including any of their immediate family members, and any entity owned or controlled by such persons.

Our Conduct of Business Policy (a copy of which may be viewed on our website and is available in print, without charge, upon request to GP Strategies' Corporate Secretary) governs related person transactions involving executive officers and the Company. It prohibits activities or relationships which are incompatible with employment by the Company or which places the executive in a position where there is a conflict between the executive's private interests and the interests of the Company, its subsidiaries or affiliates. Executives are required to immediately disclose such situations to their supervisor, the Company's Ethics Program Compliance Officer, or the Company's General Counsel for a determination of appropriate action. The Company maintains a telephone hotline for employees to confidentially report questionable activities or seek advice in handling ethics-related issues.
