PROSPECTUS SUPPLEMENT

(To the Prospectus Supplement dated April 19, 2018 and the Prospectus dated September 26, 2016)

7,000,000 Shares

Ship Finance International Limited

Common Shares

This prospectus supplement updates and amends the selling shareholder information contained in the prospectus supplement, dated April 19, 2018, relating to the sale from time to time of up to 7,000,000 of our common shares by the selling shareholders named herein, who will borrow such shares through lending arrangements from certain of the underwriters (or their respective affiliates) in our concurrent offering of our \$150,000,000 aggregate principal amount 4.875% convertible senior notes due 2023, or our convertible notes, each of which is borrowing the shares either directly from SFL Capital II Ltd. (our wholly-owned subsidiary, which we refer to herein as SFLC) or from its affiliate, which in turn is borrowing the shares from SFLC. We refer to the entities that are borrowing shares from SFLC as the Share Borrowers. The borrowed shares are newly issued shares issued in connection with this transaction and will be cancelled or held as treasury shares by us upon the expiration or the early termination of the share lending arrangements described herein (unless SFLC directs the borrowed shares to be delivered to a nominee).

This prospectus supplement updates and amends the selling shareholder information contained in the prospectus supplement dated April 19, 2018, to add certain funds as selling shareholders.

We expect that the selling shareholders will sell the borrowed shares and use the resulting short position to establish their initial hedge with respect to their investments in our convertible notes which are being offered in a concurrent offering pursuant to a separate prospectus supplement and accompanying prospectus. The selling shareholders may effect such transactions by selling the borrowed shares at various prices from time to time through the Share Borrowers or their respective affiliates. The selling shareholders will receive all of the net proceeds from the sale of the borrowed shares, and neither we nor SFLC will receive any of those proceeds, but we will receive a one-time nominal fee of \$0.01 per share from SFLC for each newly-issued share, and SFLC will receive a fee in respect of the borrowed shares from the Share Borrowers for the use of the borrowed shares.

The borrowed shares may be offered for sale in transactions that may include block sales, sales on the New York Stock Exchange, or the NYSE, sales in the over-the-counter market, sales pursuant to negotiated transactions or otherwise. See the section of the Prospectus Supplement dated April 19, 2018, entitled "Description of the Share Lending Agreements; Concurrent Offering of Convertible Notes." The delivery of the borrowed shares being offered hereby is conditioned upon the closing of the concurrent offering of the convertible notes.

Our common shares are listed on the NYSE under the symbol "SFL." The last reported sale price of our common shares on the NYSE on April 18, 2018 was \$14.85 per share.

Investing in our common shares involves a high degree of risk. Please read "Risk Factors" beginning on page S-12 of the prospectus supplement dated April 19, 2018, and similar sections in our filings with the Securities and Exchange Commission, or the SEC, incorporated by reference herein.

Neither the SEC nor any state securities commission has approved or disapproved the issuance of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.
