The diluted number of common shares reported for the three months ended March 31, 2019 was impacted by the forward sale agreement the Company entered into in September 2018 to sell an aggregate of 3,500,000 shares of common stock (the "September 2018 Forward"). To date, no shares from the September 2018 Forward have been settled.

To account for the potential dilution resulting from the September 2018 Forward on earnings per share calculations, the Company used the treasury method to determine the dilution resulting from the September 2018 Forward during the period of time prior to settlement. The impact from the September 2018 Forward on the Company's weighted-average diluted shares for the three months ended March 31, 2019 was 766,675 weighted-average incremental shares.
