Canon Inc. to transfer shares of subsidiary to Canon Sales

TOKYO, April 9, 2003 Canon Inc. (Canon) and Canon Sales Co., Inc. (Canon Sales) announced that following a decision reached today by the Board of Directors of both companies, Canon and Canon Sales have entered into an agreement to transfer shares of Canon Software Inc. (Canon Software), a subsidiary of Canon, from Canon to Canon Sales.

1. Objectives

Canon Software's operations focus on three basic business areas: the development of software for Canon products, including applications for peripheral products and control software; providing document solutions and other customer solutions in cooperation with Canon Sales; and the development, management and support of proprietary ERP, CRM and other business applications.

Through the transfer of Canon Software shares to Canon Sales, Canon Software will play a supporting role within the software-business operations of the Canon Sales Group. In addition to developing software for Canon products, Canon Software will reinforce and expand its operations targeting customer solutions, including solutions in cooperation with Canon Sales and providing the company's proprietary solutions.

The Canon Sales Group has been actively strengthening its IT services business, as reflected in the acquisition of all shares of Canon System Solutions Inc. (formerly Sumitomo Metal System Solutions Co. Ltd.) by Canon Sales on January 10 this year. As part of the Canon Sales Group, Canon Software will join Canon System Solutions Inc. and Canotec Co., Inc., which specializes in the field of network solutions, in further raising the enterprise value of the Group through the bolstering of IT services operations.
