SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Report of Foreign Private Issuer

Consolidated Financial Results for the Year Ended March 31, 2004

**Pursuant to Rule 13a-16 or 15d-16
of the Securities Exchange Act of 1934**

For the month of May 12, 2004

Commission File Number 09929

Mitsui & Co., Ltd.

(Translation of registrant's name into English)

**2-1, Ohtemachi 1-chome
Chiyoda-ku, Tokyo 100-0004
Japan**

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F:

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): _____

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): _____

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's home country), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82- _____

Table of Contents**Consolidated Financial Results for the Year Ended March 31, 2004**

[Based on accounting principles generally accepted in the United States of America (U.S. GAAP)]
Tokyo, May 11, 2004 Mitsui & Co., Ltd. announced its consolidated financial results for the year ended March 31, 2004.

Mitsui & Co., Ltd. and subsidiaries
(Web Site: <http://www.mitsui.co.jp>)

President and Chief Executive Officer: Shoei Utsuda
Investor Relations Contacts: Satoshi Tanaka, General Manager, Investor Relations Division TEL 81-3-3285-7533

1. Consolidated financial results for the year ended March 31, 2004 (from April 1, 2003 to March 31, 2004)

(1) Consolidated operating results information

	Revenues		Income from continuing operations before income taxes, minority interests and equity in earnings		Net income		Total trading transactions	
	Millions of Yen	%	Millions of Yen	%	Millions of Yen	%	Millions of Yen	%
Year ended March 31, 2004	2,980,342	6.9	86,887	34.8	68,387	119.6	12,281,517	7.0
Year ended March 31, 2003	2,788,151	11.9	64,468	(0.7)	31,138	(43.8)	11,477,763	1.9

Net income per share, basic	Net income per share, diluted	Return on equity	Income from continuing operations before income taxes, minority interests and equity in earnings to total assets ratio	Income from continuing operations before income taxes, minority interests and equity in earnings to total trading transactions ratio
-----------------------------	-------------------------------	------------------	--	--

Edgar Filing: MITSUI & CO LTD - Form 6-K

	Yen	Yen	%	%	%
Year ended March 31, 2004	43.25	40.89	7.5	1.3	0.7
Year ended March 31, 2003	19.68	18.69	3.5	1.0	0.6

Notes:

- For the year ended March 31, 2004, the revenue presentation was changed in the Statements of Consolidated Income in a manner consistent with the accounting guidance in Financial Accounting Standards Board (FASB) Emerging Issues Task Force Issue (EITF) No. 99-19, Reporting Revenue Gross as a Principal versus Net as an Agent. The figures in the Statements of Consolidated Income for the year ended March 31, 2003 have been restated to conform to the current year presentation.
- Equity in earnings of associated companies net for the years ended March 31, 2004 and 2003 were ¥40,078 million and ¥15,295 million, respectively.
- Average number of shares outstanding during the years ended March 31, 2004 and 2003 were 1,581,195,023 and 1,582,278,485, respectively.
- Change in accounting principles applied: Yes
- Percentage figures for Revenues, Income from continuing operations before income taxes, minority interests and equity in earnings, Net income, and Total trading transactions represent changes from the previous year.
- Parentheses represent negative figures or decreases.
- Total trading transactions is a voluntary disclosure and represents the gross transaction volume or the nominal aggregate value of the sales contracts in which Mitsui & Co., Ltd. and its subsidiaries (the companies) act as principal and transactions in which the companies serve as agent.
Total trading transactions is not meant to represent sales or revenues in accordance with U.S. GAAP. The companies have included the information concerning total trading transactions because it is used by similar Japanese trading companies as an industry benchmark, and the companies believe it is a useful supplement to results of operations data as a measure of the companies performance compared to other similar Japanese trading companies. Total trading transactions is included in the measure of segment profit and loss reviewed by the chief operating decision maker.
- In accordance with Statement of Financial Accounting Standards (SFAS) No.144, Accounting for the Impairment or Disposal of Long-Lived Assets, the figures for the year ended March 31, 2003 relating to discontinued operations have been reclassified.
- In consideration of a consensus relating to the presentation of gains and losses on derivative instruments held for trading purposes by the EITF under U.S. GAAP, all gains and losses on forward contracts held by certain foreign subsidiaries for trading purposes for crude oil and oil products, which are also derivatives, are shown net in Total trading transactions effective April 1, 2003. In relation to this change, the figures for the year ended March 31, 2003 have been restated.

Table of Contents

(2) Consolidated financial position information

	Total assets	Shareholders equity	Shareholders equity ratio	Shareholders equity per share
	Millions of Yen	Millions of Yen	%	Yen
March 31, 2004	6,716,028	963,278	14.3	609.28
March 31, 2003	6,540,520	862,147	13.2	545.19

Note: Number of shares outstanding at March 31, 2004 and 2003 were 1,581,013,054 and 1,581,376,992, respectively.

(3) Consolidated cash flows information

	Net cash provided by operating activities	Net cash used in investing activities	Net cash (used in) provided by financing activities	Cash and cash equivalents at end of year
	Millions of Yen	Millions of Yen	Millions of Yen	Millions of Yen
Year ended March 31, 2004	100,079	(134,154)	(12,248)	638,299
Year ended March 31, 2003	52,148	(4,243)	17,824	694,813

Note: The companies changed their policy regarding which items to be treated as cash equivalents on April 1, 2003, and decided to include certain short-term investment securities which are readily convertible to known amounts of cash and present no significant risk of changes in value as cash equivalents. In relation to this change, amounts presented for the year ended March 31, 2003 have been restated.

- (4) Number of consolidated subsidiaries and associated companies accounted for by the equity method Consolidated subsidiaries: 424
Associated companies accounted for by the equity method: 299

- (5) Changes in number of consolidated subsidiaries and associated companies accounted for by the equity method
 Consolidated subsidiaries: increase 52, decrease 56
 Associated companies accounted for by the equity method: increase 35, decrease 54
2. Forecast of consolidated operating results for the year ending March 31, 2005 (from April 1, 2004 to March 31, 2005)

	Total trading transactions	Net income
	Millions of Yen	Millions of Yen
Year ending March 31, 2005	12,000,000	80,000

Note: Forecasted basic net income per share for the year ending March 31, 2005 is Yen 50.60.

A Cautionary Note on Forward-Looking Statements:

This report contains statements (including figures) regarding Mitsui & Co., Ltd. (Mitsui) s corporate strategies, objectives, and views of future developments that are forward-looking in nature and are not simply reiterations of historical facts. These statements are presented to inform stakeholders of the views of Mitsui s management but should not be relied on solely in making investment and other decisions. You should be aware that a number of important risk factors could lead to outcomes that differ materially from those presented in such forward-looking statements. These include, but are not limited to, (i) change in economic conditions that may lead to unforeseen developments in markets for products handled by Mitsui, (ii) fluctuations in currency exchange rates that may cause unexpected deterioration in the value of transactions, (iii) adverse political developments that may create unavoidable delays or postponement of transactions and projects, (iv) changes in laws, regulations, or policies in any of the countries where Mitsui conducts its operations that may affect Mitsui s ability to fulfill its commitments, and (v) significant changes in the competitive environment. In the course of its operations, Mitsui adopts measures to control these and other types of risks, but this does not constitute a guarantee that such measures will be effective.

Table of Contents

Management Policies

1. Management Policies and Status Report

(1) Actions during the Year Ended March 31, 2004 (Fiscal 2004)

In May 2001, we, Mitsui & Co., Ltd. and its subsidiaries, announced Challenge 21, our Medium-Term Strategic & Financial Plan for the three-year period ended in March 2004. This plan was directed at helping us evolve as Japan's strongest Comprehensive Business Engineering group, and through implementing it, we sought to create new value and maximize profitability by taking steps such as renewing our management framework and prioritizing the allocation of our resources into strategic areas. Specific actions taken during fiscal 2004 were directed toward:

1) Earning and Keeping the Trust and Respect of Society

We are committed to maximizing shareholder value through business conduct that balances the pursuit of earnings with socially responsible behavior. While retaining our corporate themes of frame-breaking spirit and creative challenge we will continue to take steps to strengthen our compliance, corporate governance and internal control systems during the year.

2) Establishing a New Management Framework and Operating Structure

We discontinued the Operating Group System, in which Chief Operating Officers (COOs) of Business Units reported to five Group Presidents, in order to speed up decision-making and the execution of business strategies. Instead, COOs are now delegated with the same level of authority as Group Presidents, reporting directly to the President & Chief Executive Officer (President). Furthermore, a new operating structure was introduced to cover branch offices within Japan, effective April 2004, with the aim of improving operating efficiency and enabling a more dynamic exploration of global business opportunities.

3) Allocation of Corporate Resources into Strategic Areas

We are channeling resources into core business areas and new business areas. Specifically:

In the natural resources development business, which includes energy and minerals, we made an equity investment in the controlling shareholder of Companhia Vale do Rio Doce in Brazil, the world's largest supplier of iron ore, and decided to proceed with the second phase development of the Sakhalin II Project.

In the contract food distribution arena, we upgraded infrastructure by the equity infusion at Sanyu Koami (now Mitsui Foods) and the acquisition of a majority interest in Mitsui Norin, Japan's largest producer and seller of raw tea leaves.

We participated in an equity offering made by United Auto Group, the second-largest auto dealer in the United States. We are also increasing our exposure in the power generation business through projects such as investing in a water desalinization and power generation project in Abu Dhabi.

In the area of new technologies, we started operations at a trial biomass ethanol plant in Brazil and opened the Nanotech Park in Tsukuba, Japan.

In the financial arena, we established the Financial Markets Business Unit to gather our knowledge and expertise. This unit includes foreign exchange, interest-rate and

Table of Contents

precious metals dealing, private equity business, venture capital, leasing and other activities.

4) Rigorous Review of our Subsidiaries and Associated Companies

For the year ended March 31, 2003 (fiscal 2003), we recorded an aggregate loss of ¥71.1 billion from unprofitable subsidiaries and associated companies, including one-time losses from events such as withdrawal from a petrochemical manufacturing operation in North America and impairment losses in the aircraft leasing business. To rectify this situation, we have launched a comprehensive review of the performance and viability of our subsidiaries and associated companies. This process covered 702 companies, which we rigorously screened against nine metrics (including profit after cost of capital), and all companies listed went through rigorous scrutiny. As a result, a decision was made to exit from 190 companies, and subsequently, definitive actions were taken at approximately 100 of them during fiscal 2004. Although additional exit costs of ¥15 billion were incurred as a result of these measures, total earnings/losses from subsidiaries and associated companies reached ¥62.3 billion (including ¥53.4 billion in aggregate losses from unprofitable companies), a substantial improvement over the ¥22.9 billion in fiscal 2003.

5) Executing Global Strategies: Focus on Asia

Our global strategy focuses on Asia where the market is expanding mainly around China and the ASEAN free trade region. China and its environs will play an even greater role in world trade now that China and Taiwan are members of the WTO. We have been channeling human resources to these regions, forging strategic alliances with leading companies and creating a broad spectrum of new businesses. As an example, we established a joint venture with SVA (GROUP) CO., LTD., one of the largest information electronics companies in China. The new joint venture, Shanghai SVA-Mitsui, has been operating since November 2003, which markets SVA's products in the Chinese market and overseas.

6) Business Process Re-Engineering

During the past three years, we have been carrying out Business Process Re-Engineering that has the aim of standardizing our business procedures through the use of Enterprise Resource Planning, and we are now reaching the final stage of this project. The objectives are to improve productivity and enhance knowledge sharing, thereby enabling faster management decisions and value creation. In April 2004, operations began at our Shared Service Centers, which handle all of our cash settlements and delivery tasks. In addition, MICAN, a new information system infrastructure, will commence full-scale operations in November 2004.

(2) Progress on Challenge 21

In Challenge 21, we have set the aggressive quantitative targets of net income ¥130 billion and an ROE of 12%, as we set about evolving as Japan's strongest Comprehensive Business Engineering group. Unfortunately, our net income for the year of ¥68.4 billion means that we fell well short of these quantitative targets, primarily due to the significant expenses resulting from the restructuring of subsidiaries and associated companies as well as the increase in pension costs. The slower recovery of the Japanese economy and slow growth of the IT industry also held back our performance. Nevertheless, this is a record

Table of Contents

high of net income and our net worth and earning basis have been steadily growing through the past three-year period of Challenge 21 . At the same time, we made significant progress in reaching qualitative targets such as prioritizing the allocation of corporate resources into strategic areas, increasing the value of our subsidiaries and associated companies and executing business process re-engineering as mentioned above.

(3) Key Initiatives in the New Medium-Term Strategic & Financial Plan

Challenge 21 anticipated rapid changes in our operating environment, but the pace of such changes has now become even faster. As globalization advances, China is rapidly increasing its stature. Unified regional economies are emerging in Asia, Europe and the Americas. The ongoing IT revolution is speeding up the power shift from suppliers to consumers. Furthermore, we are facing increasing demands regarding global health, safety and environmental issues as well as management transparency and accountability.

In response to these changes in the operating environment, we are preparing a new Medium-Term Strategic & Financial Plan covering the two-year period ending March 31, 2006. Details of the plan, including quantitative targets, will be released on May 19, 2004, but the plan will be based on the following themes.

1) Taking on the Challenges of Exploring New Business Opportunities

In anticipation of structural changes in Japan and elsewhere, we will move quickly to develop businesses in new fields. In April 2004, we established the Consumer Service Business Unit with the mission of developing new consumer-oriented business models in rapidly growing service industries in Japan, such as knowledge-based businesses, healthcare and medical services. We also established the Transportation Logistics Business Unit in order to upgrade our capabilities and explore new business opportunities in the global transportation logistics domain, traditionally one of the core functions of general trading companies. We will further take strategic actions in response to the emergence of unified, regional economies in Asia, Europe and the Americas; laying the groundwork for expansion in emerging markets in greater China, central and eastern Europe, Russia/CIS, Brazil, Chile and elsewhere; and forming strategic alliances with leading companies in Japan and overseas.

2) Enhancing the Business Expertise and Leverage on Synthesizing Capability

While enhancing marketing expertise and capabilities in each business domain, we will take strong actions to provide clients with new value by synthesizing and integrating these expertise and capabilities. We will utilize knowledge management and other techniques to take knowledge sharing beyond organizational boundaries, enabling us to draw on resources across the entire organization to meet the increasingly diverse and complex demands of clients. Organization-wise, we reshuffled and consolidated business units from 19 to 13 in April 2004 with the aim of optimizing resource allocation and executing global strategies with agility and efficiency.

3) Refining Corporate Governance and Internal Control

We are committed to improving management transparency and accountability as well as clarifying the division of roles between management oversight and business execution. For this purpose, we have established three advisory committees to the Board of Directors, namely, the Governance Committee, the Nomination Committee and the Remuneration Committee. We will also be increasing the number of external directors as

Table of Contents

well as shortening the terms of directors and reviewing the remuneration systems of directors and executive officers (including the elimination of retirement bonuses). We also established the Internal Control Committee in April 2004 to reinforce the internal control system, including compliance programs.

4) Proactive Approach to Corporate Social Responsibility

One of the most important issues in our business management is our active approach to tackling global environment problems. To enhance our proactive approach to corporate social responsibility (CSR), including environmental issues, we established the CSR Promotion Committee in April 2004.

2. Dividend Policy

To maximize shareholder value, we seek to maintain an optimal balance between (1) achieving sustainable growth through strategic investments in the areas of our core competence and growth and (2) paying out cash dividends as direct compensation to shareholders.

We plan to pay a dividend of ¥8 per share for fiscal 2004, the same as fiscal 2003. As for the year ending March 31, 2005, we may consider the possibility of increasing the dividend payout per share, depending on the magnitude of improvements in the overall performance of our operations.

3. Basic Approach to and Action Taken on Corporate Governance

(1) Basic Approach to Corporate Governance

We view corporate governance in its narrow definition, the oversight of the management team by our shareholders, and focus on two goals; improving management transparency and accountability; and clarifying the division of roles between management oversight and business execution. On the other hand, internal control involves the control and supervision of our operations by the management team, which is responsible for business execution. In this regard, we are required to comply with the Sarbanes-Oxley Act of 2002 in the United States because our shares are listed on the U.S. NASDAQ National Market. To meet such requirement, we have designed and operate an internal control system covering Mitsui group in Japan and overseas. The system has three objectives: improving the effectiveness and efficiency of operations; providing high reliability of financial reporting; and complying with applicable laws and regulations.

As mentioned above, we aim to conduct our business in a manner that balances the pursuit of earnings with socially responsible behavior. By proactively approaching CSR and strengthening corporate governance and internal control systems in a unified manner, we are striving to achieve sustainable growth of shareholder value while earning the trust and appreciation of shareholders and all stakeholders.

(2) Actions Taken on Corporate Governance

1) Framework for Corporate Governance

A 2002 amendment to the Commercial Code of Japan gave us the alternative of

Table of Contents

selecting the Committee System as the framework for corporate governance. We decided, however, to maintain the current system with corporate auditors because we believe that corporate auditors, whose functions are legally empowered and reinforced, provide adequate auditing functions. Furthermore, internal directors are well versed in our business operations and can therefore contribute to speedy and effective management. Based on the incumbent framework, we will build an optimal and effective corporate governance system with the aim of attaining two goals: improving management transparency and accountability; and clarifying the division of roles between management oversight and business execution.

Although we retained the corporate auditor system, we did decide to adopt certain aspects of the Committee System and established three committees to provide advice to the Board of Directors as of April 1, 2004. The Governance Committee (chaired by the Chairperson of the Board of Directors) considers the overall status and directions of the Company's corporate governance system, inviting the perspectives of external directors. The Nomination Committee (chaired by the President), which also includes external directors, handles issues related to nominations of directors and executive officers. The Remuneration Committee (chaired by an external director) handles issues related to remuneration of directors and executive officers. By disclosing the processes for evaluations and decision-making, we expect that these committees will improve management transparency and accountability.

Following the introduction of the Executive Officer System in April 2002, we have reduced the number of Directors from 38 in June 2002 to 11. There are currently 10 Directors and 40 Executive Officers. One external director was elected in June 2003, and we are planning to increase this to two subject to approval at the Annual General Meeting of Shareholders scheduled for June 2004. As of April 2004, the Chairperson of the Board of Directors became a Non-Executive Director, making it clear that he will be responsible solely for management oversight.

There are five Corporate Auditors, of which three are external auditors. We have reinforced the auditing functions by establishing a full-time staff that is independent from the business execution organizations. The Board of Corporate Auditors functions, as a substitute for the Audit Committee in the United States, as needed and performs the duty of management oversight in accordance with requirements of the Sarbanes-Oxley Act of 2002 and other related regulations.

2) Framework for Business Execution and Internal Control

Recognizing internal control as a system required to achieve management goals, including risk management, we strive to establish and operate an efficient internal control system covering Mitsui group in Japan and overseas. We have proactively adopted the advanced internal control frameworks that are used in the United States. Furthermore, to deal with an increasingly broad spectrum of risks, we have newly established or reorganized a number of key committees that are concerned with business execution and internal control as of April 1, 2004.

The Internal Control Committee, which is chaired by the President, sets the basic policy for internal control, provides a unified structure for internal control, and takes steps to maintain and enhance the effectiveness of these controls. This committee oversees two

Table of Contents

other committees, the Compliance Committee and the Disclosure Committee. The Compliance Committee is the nucleus of our compliance system. The Disclosure Committee ensures the accurate and proper disclosure of information. We also established the Crisis Response Headquarters, which reports directly to the President in preparation for managing various crises should they arise. The Internal Auditing Division, an independent organization reporting directly to the President, audits the overall internal control framework and provides suggestions and recommendations on improvements.

The diagram below illustrates the overall structure of our corporate governance and internal control systems, including the newly established CSR Promotion Committee as well as existing units such as the Advisory Board (an advisory body to the President consisting of four prominent individuals from the outside).

3) Other Measures to Improve Corporate Governance

We are taking a variety of other measures to improve the quality of corporate governance and internal control based on the basic frameworks mentioned above.

We plan to shorten the terms of Directors to one year subject to approval at the Annual General Meeting of Shareholders scheduled for June 2004, introducing a proper level of tension between shareholders and Directors. In July 2004, we also plan to revise and simplify the remuneration system for Directors and Corporate Auditors, including the elimination of retirement bonuses to achieve higher transparency. The utilization of IT for proxy distribution and shareholders voting has been introduced toward the Annual General Meeting of Shareholders, making it more convenient for shareholders to exercise their right to vote.

Table of Contents

As required by the Sarbanes-Oxley Act, we have evaluated our internal control system for disclosure and operations throughout the company, and the President and the Chief Financial Officer respectively certified such results in favor of the U.S. Securities and Exchange Commission. Furthermore, to ensure the independence of Independent Auditors, pre-approval of the Board of Corporate Auditors is required before submission of audit and non-audit services to these auditors. Regarding compliance, which is an important element of internal control, we have established the Mitsui Business Conduct Guidelines for Executives and Employees and required subsidiaries and associated companies to establish equivalent codes, ensuring that all of group companies constantly monitor and improve the status of compliance.

4) Relationships with External Directors and External Corporate Auditors

Akishige Okada, an external Director (elected in June 2003), is the Chairman & Executive Director of Sumitomo Mitsui Banking Corporation, which provides banking services to us on a regular basis. Akira Chihaya, a nominee for external Director (to be elected in June 2004), is the Chairman and Executive Director of Nippon Steel Corporation. This company competes with us in business fields such as metal, machinery and IT, and at the same time, is one of our primary customers. Hideharu Kadowaki, a nominee for external Corporate Auditor (to be elected in June 2004), is a Vice President and Executive Director of Sumitomo Mitsui Financial Group. Its wholly owned subsidiary, Sumitomo Mitsui Banking Corporation, provides banking services to us on a regular basis. The other external Corporate Auditors have no notable material relationship or financial interest with us.

Highlights of Consolidated Financial Results for Fiscal 2004

1. Summary of Operating Results for Fiscal 2004

(1) Total Trading Transactions

Total trading transactions for fiscal 2004 increased ¥803.8 billion, or 7.0% over fiscal 2003, to ¥12,281.5 billion mainly attributable to:

higher overall market prices for petrochemicals and the strong performance of newly consolidated subsidiaries in the Chemical Segment;

the increase related to ocean transport vessel, automobile and cell-phone unit transactions in the Machinery, Electronics & Information Segment;

the increase related to iron and steel raw materials transactions and steel products exported to China and other Asian countries in the Metal Products & Minerals Segment; and

the increase related to LNG and crude oil transactions in the Energy Segment.

See page 1 for an explanation of total trading transactions.

(2) Earnings

Gross profit increased ¥41.3 billion to ¥609.9 billion mainly driven by the Chemical Segment, Machinery, Electronics & Information Segment, Consumer Products & Services Segment and Metal Products & Minerals Segment. See Operating Segment Information below.

Selling, general and administrative (SG&A) expenses increased ¥40.0 billion to ¥496.4 billion. This increase was due to newly consolidated subsidiaries and the increase in employee pension benefit costs.

Provision for doubtful receivables decreased ¥3.5 billion to ¥10.2 billion. This decrease was due to a provision recorded in fiscal 2003 for the customers in Latin America and the deterioration of the business environment in the airline industry in the United States.

Gain on securities contributed to an employee retirement benefit trust decreased ¥15.8 billion to nil, as it was a transient gain in fiscal 2003.

Government grant for transfer of substitutional portion of the Employee Pension Fund Plan (EPF) increased ¥17.2 billion, which was recorded upon completion of a transfer of the benefit obligation and assets related to the employee pension benefit plan.

Loss on write-down of securities decreased ¥6.9 billion to ¥31.0 billion due to a loss in marketable securities of banks and financial institutes recorded in fiscal 2003.

Impairment loss of long-lived assets decreased ¥1.2 billion to ¥22.7 billion due to a loss in leased aircrafts in fiscal 2003.

Table of Contents

Other expense net increased ¥17.9 billion to ¥28.9 billion due to the settlement of antitrust lawsuit in the United States.

As a result of the above, income from continuing operations before income taxes, minority interests and equity in earnings increased ¥22.4 billion to ¥86.9 billion.

Equity in earnings of associated companies net (after income tax effect) increased ¥24.8 billion to ¥40.1 billion, due to strong performance of LNG project companies and mineral resources companies. In addition, we had recognized an impairment of goodwill on an investment in a domestic listed IT company and an impairment of overseas chemical plant facilities in fiscal 2003.

As a result of these developments, net income increased ¥37.2 billion, or 119.6% over fiscal 2003, to ¥68.4 billion, after the deduction of net loss of ¥4.0 billion primarily due to discontinued operations of a golf course and net loss of ¥2.3 billion of the cumulative effect of adoption of SFAS No. 143, Accounting for Asset Retirement Obligation.

(3) Operating Segment Information

Total trading transactions, gross profit and net income by operating segments for fiscal 2004 are given below.

See page 1 for an explanation of total trading transactions.

Metal Products & Minerals Segment

Total trading transactions increased ¥185.7 billion to ¥2,063.1 billion, reflecting steady growth in iron and steel raw material related transactions and steel product export to China and other Asian countries. Gross profit increased ¥6.8 billion to ¥77.5 billion, because the transactions of iron ore, steel scraps and non-ferrous metals in overseas subsidiaries showed a firm performance. Net income increased ¥8.6 billion to ¥23.6 billion due to a gain on a sale of securities of an iron ore related company and the contribution of equity in earnings from newly associated overseas mineral resources companies.

Machinery, Electronics & Information Segment

Total trading transactions increased ¥169.8 billion to ¥2,626.5 billion due to the increased transactions of ocean transport vessels, automobiles, cell-phone units and industrial plants. Gross profit increased ¥10.4 billion to ¥128.4 billion mainly due to the increase in the transactions of industrial plants, ocean transport vessels, automobiles and IT related businesses including cell phone units. Net income increased by ¥12.2 billion to ¥7.3 billion. In fiscal 2003, this segment reported transient losses such as an impairment of leased aircrafts and an investment in a domestic IT company due to a sharp decline in its stock price, and provision for doubtful receivables of customers in Latin America and the aircraft financing. In fiscal 2004, despite the write-down of unlisted IT securities and impairment of machinery plant facilities, net income recovered by the increased gross profit and by the declined provision for doubtful receivables from net loss of ¥4.9 billion in fiscal 2003.

Table of Contents

Chemical Segment

Total trading transactions increased ¥293.0 billion to ¥1,714.8 billion, reflecting higher overall market prices for petrochemicals and the contribution by the subsidiaries consolidated from fiscal 2004. Gross profit increased ¥22.1 billion to ¥83.0 billion, mainly due to the increase in total trading transactions. Net income increased by ¥15.9 billion to ¥10.0 billion, despite the settlement of an antitrust lawsuit in the United States. In fiscal 2003, this segment had a loss from chemical related discontinued operations in North America and the impairment on chemical production facilities.

Energy Segment

Total trading transactions increased ¥231.8 billion to ¥1,356.0 billion mainly due to the increase of LNG and crude oil transactions. Gross profit increased ¥0.8 billion to ¥53.8 billion due to the increase in gross profit of oil sales company in Japan, despite the decline in the trading of crude oil and petroleum products in overseas subsidiaries. Net income increased ¥1.3 billion to ¥24.0 billion due to the decline in an impairment loss of land in a domestic company and the increased equity in earnings of energy resource related associated companies. This increase was partially offset by the increase in SG&A expenses and the cumulative effect of adoption of SFAS No. 143 to the asset retirement obligation of affiliated companies.

Consumer Products & Services Segment

Total trading transactions rose ¥55.0 billion to ¥2,260.1 billion due to the increased transactions of domestic food related subsidiaries and the contribution of newly acquired food related subsidiaries. Gross profit increased ¥10.3 billion to ¥116.3 billion, reflecting the growth in total trading transactions. Net income increased ¥8.6 billion to ¥12.6 billion because of the recovery of a domestic food wholesale subsidiary that recorded an impairment loss on unutilized fixed assets last year, despite the increase in SG&A expenses of those newly acquired subsidiaries.

Domestic Branches and Offices Segment

Total trading transactions declined ¥82.7 billion to ¥1,701.5 billion mainly due to continued weak domestic demand. Gross profit also decreased by ¥1.4 billion to ¥40.0 billion as total trading transactions decreased. Net income, however, increased ¥4.6 billion to ¥11.6 billion mainly due to the decline in SG&A expenses and the improvement in interest income.

Americas Segment

Total trading transactions increased ¥18.5 billion to ¥1,290.7 billion mainly due to the increase in the transactions in an energy-trading subsidiary. Gross profit declined ¥4.7 billion to ¥39.9 billion due to the decline in the steel products and machinery transactions in Mitsui & Co. (U.S.A.) Inc. Net income declined ¥3.1 billion to ¥0.2 billion primarily due to the antitrust lawsuit settlement in addition to the decline in gross profit.

Europe Segment

Total trading transactions rose ¥98.2 billion to ¥677.5 billion. This increase was due to the increased transactions of non-ferrous metals and crude oil of Mitsui & Co. UK PLC. Gross profit declined ¥2.5 billion to ¥20.0 billion mainly due to the

Table of Contents

decrease of the transactions in automotive related subsidiaries. Net income declined ¥2.2 billion to ¥0.7 billion, as gross profit declined and due to the impairment on securities of a chemical related associated company and the decline in the transactions of an energy related subsidiary.

Other Overseas Areas Segment

Total trading transactions rose ¥144.1 billion to ¥1,450.6 billion mainly due to the increase in the transactions of trading subsidiaries in Asia. Gross profit increased ¥0.6 billion to ¥24.1 as total trading transactions increased. Net income increased ¥1.6 billion to ¥7.8 billion due to the increase in gross profit and dividend income received by Mitsui & Co. (Hong Kong) Ltd.

2. Outlook for the Year Ending March 31, 2005 (Fiscal 2005)

With regard to the outlook for fiscal 2005, we anticipate total trading transactions of ¥12,000.0 billion, declining ¥281.5 billion, or 2.3%, compared to ¥12,281.5 billion of fiscal 2004, and net income of ¥80.0 billion, increasing ¥11.6 billion, or 17.0%, compared to ¥68.4 billion of fiscal 2004.

These forecasts assume the currency exchange rate of ¥105.00 = U.S.\$1.00 and a crude oil price of U.S.\$28.00 per barrel (Japan crude cocktail price).

A Cautionary Note on Forward-Looking Statements:

This report contains statements (including figures) regarding Mitsui & Co., Ltd. (Mitsui) s corporate strategies, objectives, and views of future developments that are forward-looking in nature and are not simply reiterations of historical facts. These statements are presented to inform stakeholders of the views of Mitsui s management but should not be relied on solely in making investment and other decisions. You should be aware that a number of important risk factors could lead to outcomes that differ materially from those presented in such forward-looking statements. These include, but are not limited to, (i) change in economic conditions that may lead to unforeseen developments in markets for products handled by Mitsui, (ii) fluctuations in currency exchange rates that may cause unexpected deterioration in the value of transactions, (iii) adverse political developments that may create unavoidable delays or

postponement of transactions and projects, (iv) changes in laws, regulations, or policies in any of the countries where Mitsui conducts its operations that may affect Mitsui's ability to fulfill its commitments, and (v) significant changes in the competitive environment. In the course of its operations, Mitsui adopts measures to control these and other types of risks, but this does not constitute a guarantee that such measures will be effective.

3. Financial Conditions

As of March 31, 2004, total assets increased ¥175.5 billion to ¥6,716.0 billion, reflecting mainly increases in unrealized holding gains on available-for-sale securities and equity investments in energy and mineral resources businesses.

Shareholders' equity increased ¥101.1 billion to ¥963.3 billion, mainly due to the increases in unrealized holding gains on available-for-sale securities and retained earnings. Shareholders' equity ratio to total assets increased 1.1% to 14.3%.

Table of Contents

During fiscal 2004, we generated ¥100.1 billion of net cash provided by operating activities. Net cash used in investing activities during fiscal 2004 was ¥134.2 billion, which contained expenditures for investments in mineral resources and energy businesses. Accordingly, free cash flow during fiscal 2004 was negative ¥34.1 billion. Net cash used in financing activities after payout of cash dividends was ¥12.2 billion, despite net increase of ¥0.7 billion due to proceeds from issuance of debentures, which was partially offset by repayments of short and long term debt.

As a result, cash and cash equivalents as of March 31, 2004 decreased ¥56.5 billion to ¥638.3 billion compared to the amount as of March 31, 2003.

4. Dividend

The Board of Directors intends to propose the year-end dividends of ¥4 per share at the Annual General Meeting of Shareholders to be held in June 2004. Total dividends from our earnings for fiscal 2004 will be ¥8 per share, including dividends of ¥4 per share paid for the six-month period ended September 30, 2003.

Table of Contents**Overview of our Operations and Principal Activities**

We, Mitsui & Co., Ltd and its associated companies, are a general trading company engaging in a range of global business activities including general worldwide trading of various commodities, arranging financing for customers and suppliers in connection with our trading activities, organizing and coordinating industrial projects, participating in financing and investing arrangements, assisting in the procurement of raw materials and equipment, providing new technologies and processes for manufacturing, and coordinating transportation and marketing of finished goods. Our trading activities include the sale, distribution, purchase, marketing and supply of a wide variety of products including iron and steel, non-ferrous metals, machinery, electronics, chemicals, energy-related commodity and products, food products, textiles, general merchandise and real estate. We also participate in the development of natural resources such as oil, gas, iron and steel raw materials. In addition, we engage in strategic business investments whereby we invest our own capital and provide management expertise in the development of joint ventures and new enterprises in certain industries such as information technology, biotechnology and nanotechnology. We also provide a wide range of services in the area of finance, transportation, communication, technology, and support for retail.

As of March 31, 2004, Mitsui has 723 affiliated companies as set forth below.

overseas subsidiaries	: 246
domestic subsidiaries	: 178
overseas associated	: 163
companies	
domestic associated	: 136
companies	

Following are overviews of products and services provided by each of operating segments and major affiliated companies. The numbers in parentheses indicate the number of subsidiaries and associated companies included in each respective operating segment.

Metal Products & Minerals Segment

Our Metal Products & Minerals Segment is engaged in the overseas development of raw materials for iron, steel and non-ferrous metals, and in the domestic and global manufacturing, sale and trading of iron, steel and non-ferrous products.

Subsidiaries (48)

Mitsui Bussan Raw Materials Development Corp., Mitsui Iron Ore Development Pty. Ltd., Mitsui-Itochu Iron Pty. Ltd., Mitsui & Co. Precious Metals, Inc., Mitsui Coal Holdings Pty. Ltd., Raw Materials Development Co., Mitsui & Co., Energy Risk Management Ltd.

Associated companies (40)

Nippon Steel Trading Co., Ltd., BHP Mitsui Coal Pty. Ltd., Valepar S.A.

Machinery, Electronics & Information Segment

Machinery, Electronics & Information Segment engages in the following businesses: manufacturing, global marketing and sales, financing, leasing, and services involving electric machineries, industrial plants, transportation equipment and systems, industrial systems, construction equipment, telecommunication systems, motor vehicles and marine and aerospace systems. We are also involved in IT and electronics related solutions business, marketing and sales of IT/electronics related products, components/materials,

Associated companies (76)

Mikuni Coca-Cola Bottling Co., Ltd., Shin Mitsui Sugar Co., Ltd., Kadoya Sesame Mills Incorporated, Max Mara Japan Co., Ltd., Sumisho & Mitsuibussan Kenzai Co., Ltd., Nippon Brunswick Co., Ltd., AIM Services Co., Ltd., Alcantara S.p.A

Domestic Branches and Offices Segment

This segment is comprised of domestic branches and offices in areas such as Osaka, Nagoya, Fukuoka and Sapporo to promote our business with customers located in each area.

Subsidiaries (20)

Chita Futo Kaisha Ltd., Sadoshima Metal Co., Ltd.

Associated companies (16)

TG Missouri Corporation

Americas Segment

Americas Segment trades in various commodities and conducts related businesses led by overseas trading subsidiaries in North, Central and South America. Mitsui & Co. (U.S.A.), Inc. (Mitsui U.S.A.) manages the business of the segment as the center of the regional strategy.

Trading subsidiaries (10)

Mitsui & Co.(U.S.A.), Inc., Mitsui & Co. (Canada) Ltd., Mitsui Brasileira Importacao e Exportacao S.A.

Subsidiaries (38)

Portac Inc., Channel Terminal Corp., Westport Petroleum Inc., Mitsui Comtek Corp., Mitsui Steel Development Co., Inc.

Associated companies (3)

Tamco

Europe Segment

Europe Segment trades in various commodities and conducts related businesses led by overseas trading subsidiaries in Europe and Africa. Mitsui & Co. Europe PLC (Mitsui Europe) is authorized to manage the business of this segment as the center of its regional strategy. Also, this segment is responsible for carrying out diversified business activities together with its affiliated companies in collaboration with the operating segments of the Head Office.

Trading subsidiaries (16)

Mitsui & Co. Europe PLC, Mitsui & Co. UK PLC, Mitsui & Co. Deutschland GmbH

Subsidiaries (9)

Associated companies (8)

Companhia Industrial De Resinas Sinteticas

Other Overseas Areas Segment

This segment includes all of our region-based subsidiaries, liaison offices and affiliated companies excluding those in our Domestic Branches and Offices, Americas and Europe Segments. The subsidiaries, liaison offices and affiliated companies in this segment are located primarily in China, the member countries of Association of Southeast Asian

Table of Contents

Nations (ASEAN), Oceania, the Middle East and Southwest Asia. Our Overseas Areas Segment is engaged in business activities that are essentially similar to that of Mitsui.

Trading subsidiaries (20)

Mitsui & Co.(Australia) Ltd., Mitsui & Co. (Hong Kong) Ltd., Mitsui & Co., (Thailand) Ltd., Mitsui & Co. (Taiwan) Ltd., Mitsui & Co. (Middle East) E.C., Mitsui & Co. (Shanghai) Ltd.

Subsidiaries (8)

Associated companies (10)

Corporate Headquarters

This segment is engaged in logistics services, financial services and development and sales of information system.

Subsidiaries (32)

Mitsui Knowledge Industry Co., Ltd., Bussan Credit Co., Ltd., Mitsuibussan Insurance and Consulting Co., Nitto Logistics Co., Ltd.

Associated companies (11)

Mitsui Leasing & Development Ltd., Utoc Corporation

Table of Contents

Basis of Financial Statements and Summary of Significant Accounting Policies

I. Basis of Financial Statements

The accompanying consolidated financial statements of Mitsui & Co., Ltd. (the Company) and its subsidiaries (collectively, the companies) have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

II. Summary of Significant Accounting Policies

(1) Inventories

Inventories, consisting mainly of commodities and materials for resale, are stated at the lower of cost, principally on the specific-identification basis, or market.

(2) Debt and marketable equity securities

The companies classify debt and marketable equity securities, at acquisition, into one of three categories: held-to-maturity, available-for-sale or trading under provisions of Statement of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities.

Trading securities are carried at fair value and unrealized holding gains and losses are included in earnings. Debt securities are classified as held-to-maturity and measured at amortized cost in the Consolidated Balance Sheets only if the companies have the positive intent and ability to hold those securities to maturity. Premiums and discounts amortized in the period are included in interest expense, net of interest income.

Debt and marketable equity securities other than those classified as trading or held-to-maturity securities are classified as available-for-sale securities and carried at fair value with such unrealized holding gains and losses reported as

Unrealized holding gains and losses on available-for-sale securities in the Shareholders Equity after income tax effects.

(3) Depreciation

Depreciation of property and equipment (including property leased to others) is computed principally under the declining-balance method for assets located in Japan and under the straight-line method for assets located outside Japan, using rates based upon the estimated useful lives of the related property and equipment.

Leasehold improvements are amortized over the lesser of the useful life of the improvement or the term of the underlying lease.

(4) Pension and severance indemnities plans

The companies have pension plans and/or severance indemnities plans covering substantially all employees other than directors. The costs of the pension plans and severance indemnities plans are accrued based on amounts determined using actuarial methods in accordance with SFAS No. 87, Employers Accounting for Pensions.

In January 2003, the Financial Accounting Standard Board (FASB) Emerging Issues Task Force (EITF) reached a final consensus on Issue No. 03-2 (EITF No. 03-2), Accounting for the Transfer to the Japanese Government of the Substitutional Portion of Employee Pension Fund Liabilities.

EITF No. 03-2 addresses accounting for a transfer to the Japanese government of a substitutional portion of an Employee Pension Fund Plan (EPF), which is a defined benefit pension plan established under the Welfare Pension Insurance Law. EITF No. 03-2 requires employers to account for the entire separation process of a substitutional

portion from an entire plan (including a corporate portion) upon completion of the transfer to the government of the substitutional portion of the benefit obligation and related plan assets as the culmination of a series of steps in a single settlement transaction. EPF of the Company received approval from the government for an exemption from the obligation to pay benefits for past employee service related to the substitutional portion on January 1, 2004 and the transfer process was completed on March 12, 2004. In accordance with EITF No. 03-2, the settlement loss of ¥10,508 million and the gain on de-recognition of ¥2,183 million of the previously accrued salary progression were recorded in net periodic pension costs upon completion of the entire process, while the difference of ¥17,224 million between the obligation settled and the assets transferred to the Japanese government was accounted for and disclosed separately as government grant for transfer of substitutional portion of EPF on the face of the Statements of Consolidated Income.

Table of Contents

(5) Derivative instruments and hedging activities

All derivative instruments are recognized and measured at fair value as either assets or liabilities and changes in the fair value are currently recognized in earnings or reported as Net unrealized gains and losses on derivatives in Shareholders Equity after income tax effects, depending on the intended use of the derivative instruments and its resulting hedge designation.

(6) Business combinations and intangible assets

Under provisions of SFAS No. 141, Business Combinations and SFAS No. 142, Goodwill and Other Intangible Assets, all business combinations are accounted for using the purchase method, and goodwill acquired upon business combinations and indefinite-lived intangible assets are tested for impairment annually or more frequently if impairment indicators arise.

(7) Discontinued operations

The companies present the results of discontinued operations (including operations of a subsidiary that either has been disposed of or is classified as held for sale) as a separate line item in the Statements of Consolidated Income under Loss from Discontinued Operations Net (After Income Tax Effect) in accordance with SFAS No. 144. The amounts in the Statements of Consolidated Income and the Statements of Consolidated Cash Flows for the previous periods have been reclassified.

(8) Asset retirement obligations

On April 1, 2003, the companies adopted SFAS No. 143, Accounting for Asset Retirement Obligations. SFAS No. 143 requires entities to record a liability for an asset retirement obligation at fair value in the period in which it is incurred. When the liability is initially recorded, the entity capitalizes the related cost by increasing the carrying amount of the long-lived asset. Over time, the liability is accreted to its present value each period, and the capitalized cost is depreciated over the useful life of the related asset. The companies recognized the cumulative effect of initially applying SFAS No. 143 as a separate line item in the Statements of Consolidated Income under Cumulative Effect of Change in Accounting Principle (After Income Tax Effect), which represents the difference between the amounts recognized in the Consolidated Balance Sheets prior to the application of SFAS No. 143 and the net amount that is recognized in the Consolidated Balance Sheets pursuant to provisions of SFAS No. 143 for the asset retirement obligations and related costs as of April 1, 2003.

(9) Revenue presentation

As a result of a careful review of the revenue presentation on the face of the Statements of Consolidated Income, subsequent to the issuance of the consolidated financial statements for the year ended March 31, 2003, the companies determined to classify their revenues by major classes and report certain revenue transactions with corresponding costs on a gross basis for the year ended March 31, 2004 as required by the SEC Regulation S-X, Rule 5-03 and EITF No. 99-19. Specifically, the companies classified their revenues into Sales of products, Sales of services and Other sales with corresponding cost of sales and restated the Statements of Consolidated Income for all prior periods presented to conform to the current year presentation. The adoption of this principle and the application to the consolidated financial statements had no impact on gross profits, net income or shareholders equity.

(10) Derivative contracts held for trading purposes and contracts involved in energy trading and risk management activities

In consideration of a consensus relating to the presentation of gains and losses on derivative instruments held for trading purposes under EITF No. 02-3, Issues Involved in Accounting for Derivative Contracts Held for Trading Purposes and Contracts Involved in Energy Trading and Risk Management Activities, all gains and losses on forward contracts held by certain foreign subsidiaries for trading purposes for crude oil and oil products, which are also derivatives, are shown net in Total Trading Transactions effective April 1, 2003. In relation to this change, the Statements of Consolidated Income for the year ended March 31, 2003 have been restated.

Table of Contents

(11) Cash and cash equivalents

On April 1, 2003, the companies changed their accounting policy regarding which items to be treated as cash equivalents in the Consolidated Balance Sheets and the Statements of Consolidated Cash Flows. Cash and cash equivalents formerly included cash, certificates of deposit and time deposits with original maturities of three months or less. In addition to the above, the companies decided to include financing bills and commercial papers with original maturities of three months or less, which are readily convertible into cash and have no significant risk of change in value, as cash equivalents. This change reflects the recent change in the companies' short-term cash management policies and has been made to more fairly present their operating cash management activities in the Consolidated Balance Sheets and the Statements of Consolidated Cash Flows.

In relation to this change, the amounts in the Consolidated Balance Sheets and the Statements of Consolidated Cash Flows for the prior periods have been restated. As a result of this restatement, cash and cash equivalents increased by ¥34,597 million and marketable securities decreased by the same amounts in the Consolidated Balance Sheets as of March 31, 2003. Also, net cash used in investing activities decreased by ¥9,001 million in the Statements of Consolidated Cash Flows for the year ended March 31, 2003.

In addition, cash and cash equivalents increased by ¥157,996 million and marketable securities decreased by the same amount in the Consolidated Balance Sheets as of March 31, 2004, and net cash used in investing activities decreased by ¥123,399 million in the Statements of Consolidated Cash Flows for the year ended March 31, 2004, compared with the amounts based on the previous accounting policy.

(12) Consolidation of variable interest entities

The FASB issued FASB Interpretation No. 46, Consolidation of Variable Interest Entities – an Interpretation of ARB No. 51 in January 2003 and revised the interpretation in December 2003. This interpretation addresses consolidation by a primary beneficiary of a variable interest entity. The application of this interpretation did not have material impact on the Statements of Consolidated Income for the year ended March 31, 2004.

(13) Reclassification

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

Table of Contents**Net Income per Share**

The following is a reconciliation of basic net income per share to diluted net income per share for the years ended March 31, 2004 and 2003:

Year ended March 31, 2004 (from April 1, 2003 to March 31, 2004)

Foreign debentures, commercial paper and other debt securities	130,091	130,175	84

	Amortized Cost	Fair Value	Unrealized Holding Gains-net
Held-to-maturity debt securities, consisting principally of foreign debentures	16,793	16,804	11

Table of Contents**Retirement Benefits****1. Summary of Pension and Other Severance Indemnities Plan**

The Company and certain subsidiaries have non-contributory defined benefit pension plans and contributory defined benefit pension plans, covering substantially all employees other than directors. In addition, the Company and certain subsidiaries have unfunded severance indemnities plans. Benefits under the plans are based on the level of compensation at retirement, or earlier termination of employment, and the length of service.

The Company's Employee Pension Fund Plan (EPF) was approved by Japanese Minister of Health, Labour and Welfare for an exemption from the obligation to pay benefits for past employee service related to the substitutional portion on January 1, 2004, and transferred the substitutional portion and related plan assets to the government on March 12, 2004.

In accordance with EITF No. 03-2, the settlement loss of ¥10,508 million and the gain on de-recognition of ¥2,183 million of the previously accrued salary progression were recorded in net periodic pension costs upon completion of the entire process, while the difference of ¥17,224 million between the obligation settled and the assets transferred to the Japanese government was accounted for and disclosed separately as government grant for transfer of substitutional portion of EPF on the face of the Statements of Consolidated Income.

The remaining corporate portion of EPF was transferred to the Company's Corporate Pension Fund.

2. Retirement Benefit Costs and Retirement Benefit Obligation Recognized in the Consolidated Balance Sheets**(1) Pension and severance indemnities costs**

Net periodic pension costs under defined benefit pension plans of the companies for the years ended March 31, 2004 and 2003 were as follows:

(Millions of yen)

Year ended March 31, 2004
(April 1, 2003 - March 31, 2004)

Year ended March 31, 2003
(April 1, 2002 - March 31, 2003)

41,320
