This amendment increases the number of shares of common stock, par value \$.10 per share ("Common Stock") remaining available for future issuance under the Plan by 17,500,000 shares. A copy of the Plan as currently in effect was attached to the Company's definitive Proxy Statement filed March 17, 2006 in connection with the 2006 Annual Meeting of Stockholders (at which meeting stockholders approved an increase in the number of shares of Common Stock available for issuance under the Plan from 10,000,000 to 17,500,000 shares) and is incorporated herein by reference.

conducting a proposed offering to common stockholders (the Offering) of rights to purchase one share of common stock for each share of common stock held of record on a date to be announced later. The proposed subscription price for the Offering will be \$0.10 per share. As of April 18, 2008, there were an aggregate of 242,107,390 shares of common stock issued and outstanding. The Offering is contingent, among other things, upon stockholders approving an increase in the number of authorized shares of common stock at the Annual Meeting of Stockholders, currently scheduled for June 26, 2008, securing the consents of the holders of the Company s outstanding notes, securing a standby underwriting, registration of the Offering under the Securities Act of 1933, as amended (the Securities Act) and complying with all other applicable securities laws and stock exchange rules and regulations. The Company also announced that it is currently negotiating with a prospective investor to underwrite the unsubscribed shares at the subscription price.

Vincent McDonnell, Chairman, President and Chief Executive Officer, stated that the Board of Directors believes that an offering to our stockholders is a method of securing the capital required for the Company s capital needs to meet its 2008 planned capital expenditures while reducing the risk of potential dilution that our stockholders could suffer if all the required funds were raised directly from third parties.

The foregoing does not constitute an offer to sell or a solicitation of an offer to purchase any securities by the Company which offer can only be made pursuant to an effective registration statement filed pursuant to the Securities Act and in compliance with all other applicable securities laws and stock exchange rules and regulations.

CanArgo is an independent oil and gas exploration and production company with its oil and gas operations currently located in Georgia.
