Item 2.02 Results of Operations and Financial Condition

The information in this Item is furnished to, but not filed with, the Securities and Exchange Commission (the "Commission") solely under Item 2.02 of Form 8-K, "Results of Operations and Financial Condition."

On August 16, 2005, G&K Services, Inc. issued a press release announcing its financial results for the fiscal quarter ended July 2, 2005. A copy of the press release is furnished as Exhibit 99.1 to this report and is incorporated herein

by reference. The press release contains certain non-GAAP financial measures, including the organic industrial rental growth rate, organic direct sale growth rate and free cash flow. The organic growth rates are calculated using industrial rental and direct sale revenues, respectively, adjusted for foreign currency exchange rate differences, revenues from newly acquired locations and the extra week recorded in the prior-year quarter. Management believes that by eliminating the impact of the U.S.-Canadian exchange rate, the effects of the Company's recent business acquisitions and the extra week recorded in the prior-year quarter, the organic growth rates better reflect the growth of our existing industrial rental and direct sale business and are therefore useful in analyzing the financial condition of the Company and the results of its operations. Free cash flow is cash provided by operating activities less capital expenditures. Management believes that this is an important financial measure because it indicates the Company's ability to expand, acquire additional business, pursue debt reduction and pay dividends.
