Ernesto Greco, Chief Executive Officer of the Natuzzi Group, commented: "As in the prior quarter, the positive net sales performance has not been accompanied by a similar order flow. In fact, in the last few months the Group has been reporting a decrease in the order flow which could lead us to an adjustment of the production level. This decrease is mainly due to the general weak retail environment for home furnishing, confirmed at recent High Point furniture market, accompanied by persisting unfavorable currency conditions. Despite this, the Company expects to report for the full year 2006 an high single digit increase in revenues over year 2005 thanks to the existing order back log.

In this challenging environment, we continue to invest in the Natuzzi brand. At the same time, we are focusing our efforts on an extensive process reengineering program that should improve the overall efficiency of the Group and on the reorganization of sales activities so to better envisage customers' needs and improve their satisfaction. Besides, we are finalizing a new exclusive spring collection for which we expect to obtain a successful reception from our customers at next January Cologne furniture fair.

The combination of the above initiatives - concluded Greco - should better position the Group for future sales growth and profitability recovery".
