Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

Item 2.02 Results of Operations and Financial Condition.

On January 27, 2016, ServiceNow, Inc. (“ServiceNow”) issued a press release announcing financial results for the three months and year ended December 31, 2015.

This press release is being furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by this reference.

The information in this report, including the exhibit hereto, is furnished pursuant to Item 2.02 of Form 8-K and is not deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to liabilities of that section. The information contained herein and in the accompanying exhibit is not incorporated by reference in any filing of ServiceNow under the Securities Act of 1933 or the Exchange Act, whether made before or after the date hereof and irrespective of any general incorporation language in any filings.

Use of Non-GAAP Financial Information

ServiceNow reports non-GAAP financial measures in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP.

ServiceNow’s financial measures under GAAP include foreign currency impact, stock-based compensation expense, the amortization of debt discount and issuance costs related to the convertible senior notes, amortization of intangibles and business combination related expenses, and the related income tax effect of these adjustments. We believe the presentation of operating results that exclude these items provides useful supplemental information to investors and facilitates the analysis of our core operating results and comparison of operating results across reporting periods.

Free cash flow, which is a non-GAAP financial measure, is calculated as GAAP net cash provided by operating activities reduced by purchases of property and equipment. Free cash flow margin is calculated as free cash flow as a percentage of revenues. We believe information regarding free cash flow and free cash flow margin provide investors with an important perspective on the cash available to invest in our business and fund ongoing operations. However, our calculation of free cash flow and free cash flow margin may not be comparable to similar measures used by other companies.

Billings is calculated as revenue plus the change in total deferred revenue as presented on the statement of cash flows. We believe billings offers investors useful supplemental information regarding the performance of our business, and will help investors better understand the sales volumes and performance of our business.

ServiceNow presents constant currency information to provide a framework for assessing how our underlying business performed excluding the effect of foreign currency rate fluctuations. To present this information, current period results for entities reporting in currencies other than U.S. Dollars are converted into U.S. Dollars at the exchange rates in effect during the prior period presented, rather than the actual exchange rates in effect during the current period.

ServiceNow encourages investors to carefully consider its results under GAAP, as well as its supplemental non-GAAP information and the reconciliation between these presentations, to more fully understand its business.

Reconciliation to the nearest GAAP financial measures of the non-GAAP financial measures is included in the press release attached hereto as Exhibit 99.1.

Item 9.01 Financial Statements and Exhibits.

(d) *Exhibits.*

- 99.1 Press release dated January 27, 2016, announcing ServiceNow, Inc.'s financial results for the three months and year ended December 31, 2015.
