U.S. SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-KSB

ANNUAL REPORT UNDER SECTION 13 OR 15 (d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended June 30, 2003

Commission file number 033-25900

Cenuco, Inc.
(Formerly Virtual Academics.com, Inc.)

(Name of Small Business Issuer in its Charter)

Delaware 75-2228820

(State or Other Jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification No.)

6421 Congress Ave, Suite 201, Boca Raton, Florida 33487

(Address of Principal Executive Offices) (Zip Code)

(561) 994-4446

(Issuer's Telephone Number)

Securities registered under Section 12(b) of the Act:

None

Securities registered under Section 12(g) of the
Exchange Act:

None

Check whether the issuer (1) filed all reports required to be filed by Section 13 or 15 (d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Check if there is no disclosure of delinquent filers in response to Item 405 of Regulation S-B contained in this form, and no disclosure will be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-KSB or any amendment to this Form 10-KSB.

State issuer's revenues for its most recent fiscal year. \$1,577,479

State the aggregate market value of the voting stock held by non-affiliates computed by reference to the price at which the stock was sold, or the average bid and asked prices of such common equity, as of a specified date within the past 60 days. \$2,846,497 based on a price of \$1.15 per share as of September 17, 2003.

Edgar Filing: CENUCO INC - Form 10KSB

State the number of shares outstanding of each of the issuer's classes of common equity, as of the latest practicable date: As of September 20, 2003, the Registrant had 8,981,061 shares of common stock outstanding.

Transitional Small Business Disclosure Format (check one): Yes [] No [X]

PART I

ITEM 1. DESCRIPTION OF BUSINESS.

BACKGROUND

Currently, Cenuco, Inc., (a Delaware corporation) and Subsidiaries (the "Company") is engaged in two different business segments:

Through our subsidiaries, we are engaged in the online distance learning industry with a focus on the international, mid-career adult and corporate

Edgar Filing: CENUCO INC - Form 10KSB

training markets. Our management has been engaged in this business since 1993, through various predecessor entities (the "Predecessors"). We own and operate an online distance learning university and nutrition academy that offers licensed certificate and degree programs in a variety of concentrations to students in over 80 countries worldwide. We are licensed by the State Education Departments of the States of Alabama and Florida, respectively, and recognized by the provincially run education agencies of China. In addition to online training, we develop wireless applications for schools and enterprise companies. The Company's international educational portal is located at www.barrington.edu.

Additionally, the Company has established a technology subsidiary called Cenuco, Inc., a Florida corporation ("Cenuco"). Cenuco is a wholly-owned subsidiary that develops wireless e-learning platform and technologies in the academic, consumer and corporate marketplaces. We are also engaged in the development and sale of wireless solutions and web services, which include the development of business-to-business and business-to-consumer wireless applications, and state of the art web technology and design services, through our subsidiary.

Our executive office is located at 6421 Congress Ave, Suite 201, Boca Raton, Florida 33487 and we have an administrative office at 801 Executive Park Drive, Mobile, Alabama 36606.

Our reportable segments are strategic business units that offer different products, which complement each other. They are managed separately based on the fundamental differences in their operations. The following descriptions of our business are broken down by segments and are discussed separately below.

DISTANCE LEARNING SEGMENT

STRATEGY

Key components of our strategy include:

Marketing Relationships with Business Entities. We have realized revenues from continuing marketing relationships with businesses, including fortune 500 companies that reimburse employees to take educational courses. These employees represent a small part of our current student population; however, we expect it to be a growing part of the student population in the future.

Typically, we provide customized distance learning educational services through our partners or to the workforce of its partners. Frequently, our corporate partners sponsor students by paying directly or reimbursing their employees' educational efforts.

Expand Global Enrollment and Recruitment Program. We intend to increase our enrollment by adding to our team of representatives. The representatives are currently based in areas characterized by what management believes to be a large number of students, including Canada, China, Malaysia, Argentina, Spain, Japan, Mexico, Korea, Brazil, and Venezuela.

We pay each representative a referral fee for every student enrolled in one of our courses. We intend to continue to develop relationships with additional representatives in geographic areas where we are not currently represented.

Expand through Acquisition. We are currently seeking to acquire traditional educational institutions so that we may offer their traditional curricula online. We will consider acquisitions of carefully selected Internet-based educational institutions. While we continually evaluate certain acquisition opportunities, we are not currently party to any definitive agreements.

Edgar Filing: CENUCO INC - Form 10KSB

MARKET

The United States and international education market may be divided into the following segments:

- Kindergarten through twelfth grade (and overseas counterparts) schools;
- Vocational and technical training schools;
- Workplace and consumer training and
- Degree-granting colleges and universities ("Higher Education").

We operate in the Higher Education and workplace and consumer training segments. The U.S. Department of Education estimated that adults over 24 years of age comprised approximately 6.1 million, or 39.3%, of the 15.5 million students enrolled in Higher Education programs in 1998. Currently, the U.S. Bureau of Census estimates that approximately 76% of students, over the age of 24, work while attending school. The Department of Education estimates that by the year 2003, the number of adult students over the age of 24 will remain approximately the same at 6.1 million, or 40.1%, of the 15.2 million students projected to be enrolled in Higher Education programs. The Department of Education is also projecting a 20% median increase in adult enrollment in degree-granting institutions through 2011. Additionally the DOE is projecting an 18% overall increase in Bachelor's Degrees conferred by 2010. In concert with these statistics, the Department of Education recently stated that one third of all adults participate in some type of continuing education. In a survey conducted by DOE, 23% of adult students stated their continuing education was work related, and 23% stated it was for personal development. A full 52% of Adult Education students had some college credits, an associate's degree, or a vocational or technical diploma. These statistics point to a growing market of mid-career adults who are looking to continue or complete a degree program.

We serve the needs of mid-career, working adults, American and foreign, by providing:

- Convenient access to a learning environment (primarily through our website);
- Degree programs offered by licensed institutions that can be completed in a reasonable amount of time for a reasonable cost;
- Programs that provide knowledge and skills with immediate practical value in the workplace;
- Education provided by qualified faculty members with current practical experience in fields related to the subjects they instruct; and
- Learning resources available electronically to all students in several languages regardless of geographical location.

We believe that the requirements of the adult working population represent a significant market opportunity to Higher Education institutions that can offer programs that meet these unique needs.

Most colleges and universities feature a more capital-intensive teaching and

Edgar Filing: CENUCO INC - Form 10KSB

learning structure characterized by:

- Dormitories, student unions and other significant plant assets to support the needs of students;
- Fully-configured library facilities and related full-time staff;
- A high percentage of full-time tenured faculty with doctoral degrees; and
- An emphasis on research and the related staff and facilities.

In addition, the majority of colleges and universities provide the bulk of their educational programming from September to mid-December and from mid-January to May. As a result, most full-time faculty members only teach during that limited period of time. While this structure serves the needs of the full-time 18 to 24 year old student, it limits the educational opportunity for working adults who must delay their education for up to five months during these spring, summer and winter breaks. In addition, this structure generally requires that working adults attend one or more courses three times a week, commute to a central site, take work time to complete course requirements and, in undergraduate programs, participate passively in an almost exclusively lecture-based learning format primarily focused on a theoretical presentation of the subject matter. For the majority of working adults, earning an undergraduate degree in this manner would take seven to ten years. In recent years, many traditional colleges and universities have begun offering more flexible programs for working adults, although their focus appears to remain on 18 to 24-year old students.

OUR DISTANCE LEARNING ENTITIES AND AFFILIATIONS

We own and operate the following educational entities:

- o Barrington University - Founded in 1993, Barrington is licensed by the State of Alabama Department of Education and offers Bachelor and Master degrees via the traditional and wireless Internet.
- o Academy of Health Science and Nutrition- Founded in 2001, the Academy is licensed by the State of Florida Department of Education and offers certificate training in nutrition awareness via the traditional and wireless internet. The academy mission is to educate people in attaining optimum health through courses that offer a clinical approach to nutrition, providing students with a strong foundation in human health, as well as emotional health and well being. However, the Academy is still in the development stage and has not generated any revenue.

ACADEMIC PROGRAMS

We offer several specialty academic programs, including:

Business Administration
Management Information Systems
Criminal Justice
Computer Science
Nutrition
Innovation
Environmental Insurance
English as a second language
Business Coaching

Edgar Filing: CENUCO INC - Form 10KSB

TEACHING MODEL

The Company's teaching structure has the following major characteristics:

Tuition. All of our students must pay a registration fee to cover the costs of books, study manuals and other materials necessary for their studies. Generally, registration fees are \$450 (an additional \$250 for international students) and tuition fees range from \$850 to \$6,500 per program. Scholarships and discounts are available to certain students who demonstrate financial need. Frequently, tuition qualifies as a tax-deductible expense incurred as part of an effort to maintain or improve job-related skills.

Curriculum. The standardized curriculum for each program is designed to provide students with specified levels of knowledge and skills regardless of delivery method or location. The curriculum provides for the achievement of specific educational goals and is designed to integrate academic theory and professional practice with a focus on application to the workplace. Although we are responsible for academic requirements and educational goals, students and their employers often provide input to our faculty in designing curricula, and class projects are typically based on issues relevant to the companies and the human resource departments of companies that employ our students.

Faculty. Faculty applicants must possess an earned master's degree from an accredited institution and have a minimum of five years' professional experience in a field related to the subject matter in which they seek to mentor. To help promote quality delivery of the curricula, faculty members are required to:

- o Complete an initial assessment conducted by staff and faculty;
- o Complete a series of certification workshops related to grading, teaching, oversight of study group activities, adult learning theory, and use of the Internet;
- o Participate in ongoing development activities; and
- o Receive ongoing performance evaluations by students, peer faculty and staff.

The results of these evaluations are used to establish plans to improve individual faculty performance and to determine continued eligibility of faculty members to instruct.

Our faculty is comprised of approximately 45 part-time persons. Most faculty members are recruited as the result of referrals from faculty, students and corporate contacts. All part-time faculties are contracted with on a course-by-course basis.

Online Chat. Our students are encouraged to participate in an interactive live-chat email center, which provides a forum for potential candidates or students to discuss any aspect of the educational process. This feature is available 24-hours a day, seven days a week.

Interactive Learning. Courses are designed to combine individual and group activity with interaction between and among students and the instructor. The curriculum requires a high level of student participation in order to enhance the student's ability to complete the courses.

Edgar Filing: CENUCO INC - Form 10KSB

Learning Resources. Students and faculty members are provided with electronic and other learning resources for their information needs. These extensive electronic resources minimize our need for capital-intensive library facilities and holdings.

Low Attrition Rate. Our schools currently have less than a 15% student dropout rate, compared to a rate of more than 35% at traditional universities. We feel that our customer service and our targeted client, the mid-career adult, are the reasons for this success.

Academic Quality. Any student having earned a high school diploma, General Equivalency Diploma ("GED") or international equivalent may apply to earn any of our certificates or enter into a bachelor's degree program. Any student having earned a Bachelor's degree or international equivalent, or registered in one of our universities to earn their Bachelors' degree may apply to enter into any of our master's degree program.

Admissions Standards. To gain admission to the undergraduate programs, applicants must have a high school diploma or GED and satisfy certain minimum grade point average, employment and age requirements. Additional requirements may apply to individual programs. Students already in undergraduate programs elsewhere may petition to be admitted on provisional status if they do not meet certain admission requirements.

To gain admission to the graduate programs, students must have an undergraduate degree from an accredited college or university or international equivalent and satisfy minimum grade point average, work experience and employment requirements. Additional requirements may apply to individual programs. Students in graduate programs may petition to be admitted on provisional status if they do not meet certain admission requirements.

Academic Accountability. We utilize an institution-wide system for the assessment of the educational outcomes of our students. The information generated is used to improve the quality of the curriculum, the instruction and the teaching/learning model. Our undergraduate and graduate students complete a comprehensive cognitive (core degree subject matter) and affective (educational, personal and professional values) assessment prior to and upon the completion of their core degree requirements.

Students in our programs evaluate both academic and administrative quality. This evaluation begins with a registration survey and continues with the evaluation of the curriculum, faculty, delivery method, instruction and administrative services upon the conclusion of each course. The evaluation also includes a survey of a random selection of graduates 2-3 years following their graduation. The results provide an ongoing basis for improving our approach to teaching, our selection of educational programs, and our instructional quality.

5

CUSTOMERS

Our customers consist of working adult students, colleges and universities, governmental agencies and employers. The following is an approximate breakdown of students by the level of program they are seeking, as of September 12, 2003:

Programs	
Combined Bachelor's/Master's Program	12%
Master's Degree	50%
Bachelor's Degree	37%
Certificate Level	1%

Edgar Filing: CENUCO INC - Form 10KSB

Total programs

100%
=====

Based on surveys we perform, the average age of our student is 36 years old and approximately 65% of our students are male and 35% are female. Additionally, our average student has some college experience and averages approximately seven years of work experience.

MARKETING

We adhere to a multi-faceted marketing platform in attracting new clients, including:

- traditional, offline advertising - strategic ads in key demographic publications, including USA Today, and Black Enterprise;
- weekly bulk e-mail updates, informing both current and future clients and students about the latest developments;
- in-house administrators, periodically calling prospective clients to answer questions about the programs and products;
- a international network of academic recruiters - currently, working agreements with representatives worldwide;
- Marketing relationships with businesses which reimburse employees to take educational courses including several fortune 500 companies;
- Website optimization through our proprietary search engine ranking techniques and applications.

Academic Web Properties:

In addition to www.cenuco.com, a Web site dedicated to the representation of all of the Company's products, services, partners and alliances that provide corporate training and degree-granting programs, the Company owns and/or operates several other educational Websites. A sample of our academic websites follows:

Barrington University (www.barrington.edu), one of the first online universities established, is an educational site offering Bachelor's and Master's degrees through virtual online distance learning.

The AIG Environmental Institute (www.aigenvironmentalinstitute.com) is an e-learning platform offering condensed curriculum related to Environmental Insurance products and available to AIG internal employees, insurance agents, brokers and transaction attorneys. The content and access is currently available online as well as in a wireless format.

The Academy of Health Science and Nutrition (www.nutritionacademy.com) offers health science and nutritional certificate programs through virtual online distance learning.

The Federation of Christian Ministries (FCM) has partnered with Barrington to bring educational courses to the Christian communities throughout the world www.globalministriesuniversity.org.

COMPETITION

Edgar Filing: CENUCO INC - Form 10KSB

General. The market for online distance learning services is intensely competitive, rapidly evolving and subject to rapid technological change as the market is characterized by an increasing number of entrants that have introduced or developed products and services similar to those offered by us. We expect competition not only to persist, but also to increase. Increased competition may result in course price reductions, reduced margins and loss of market share. Competitors fall into several categories, including other online distance learning providers, traditional "snail mail" correspondence courses and traditional universities and colleges expanding their course offerings online. Several current and potential competitors have longer operating histories, larger established student bases, greater name recognition, longer relationships with students and the public and significantly greater financial, technical, marketing and public relations' resources. Some entities, which compete directly with us and are similar in business models, include the Apollo Group, which owns and operates the University of Phoenix. For its year ending August 2002, the Apollo Group reported sales over \$1 billion. Apollo is the largest participant in this industry. Our distance learning unit is able to compete due to its platforms ease of use for users and focus on international students.

The following are some of the organizations that have certain similarities to the Company:

Cardean University - Cardean, the online university of Unext, provides continuing education and degree programs based on curricula and input from leading academic institutions and experts worldwide. The vast majority of the coursework is business related and English focused.

Jones International University - A veteran of the e-learning movement, Jones shows considerable strength in developing new programs and degrees but has only recently began a Spanish version of their programs and does not have the strength internationally that the Company possesses.

Apollo Group/University of Phoenix - offers Distance Learning initiatives and boasts the highest enrollment of any online university. With a strong parent entity in Apollo Group, the company is the leader domestically (130,000 + students) but has a limited international presence.

Walden University - a leader in graduate level programs for Master's and PhD courses but fails to address the undergraduate, continuing education and certificate focus important to many individuals and corporations. A recent investment by Sylvan Ventures will enable the company to begin multi-language and international efforts but they are starting late in the game.

Other competitors include those addressing the corporate training solutions market, such as Cenquest and Quisic, as well as those providing systems to deliver online courses through the traditional Internet, such as Blackboard, eCollege and WebCT.

GOVERNMENT REGULATION

General. With the exception of state licensing regulations for our distance learning programs as described below, we are subject to little governmental regulation other than the securities' laws and regulations applicable to all publicly owned companies and laws and regulations applicable to businesses generally. Relatively few laws or regulations are currently directly applicable to access to, or commerce on, the Internet. Due to the increasing popularity and use of the Internet, it is likely that a number of laws and regulations may be adopted at the local, state, national or international levels with respect to

Edgar Filing: CENUCO INC - Form 10KSB

the Internet. Any new legislation could inhibit the growth in use of the Internet and decrease the acceptance of the Internet as a communications and commercial medium, which could in turn decrease the demand for our services or otherwise have a material adverse effect on our future operating performance.

Licensing. Barrington University is licensed by the State Education Department of Alabama, which provides the basis for recognition and acceptance by employers, other higher education institutions and governmental entities of the degrees and credits earned by students. Barrington's license has been accepted until June 2003. We are currently seeking additional licensure in the State of California. Our new school, The Academy of Health Sciences and Nutrition has been licensed as a distance learning school by the State of Florida's Department of Education and plans to open its operations during fiscal 2003.

Accreditation. Accreditation is a system for recognizing educational institutions and their programs for performance, integrity and quality. In the United States, this accreditation program is recognized by the federal government. Colleges and universities depend on accreditation in evaluating transfers of credit and applications to graduate schools. Also, certain scholarship grants are restricted to students attending institutions accredited by certain associations. Our schools are currently not accredited but we have hired an accreditation consulting firm to assist in our efforts to attain accreditation.

WIRELESS SOLUTIONS SEGMENT

Overview

Data communications is the fastest growing segment of the communications industry. The Internet, in particular, has emerged as one of the fastest growing communications media in history and is dramatically changing how businesses and individuals communicate and share information.

Traditionally, small and medium sized businesses have relied on low speed lines for data transport. Data communications, particularly through the Internet, have made it possible for smaller companies to compete more effectively with larger competitors. Most companies, particularly small and medium sized businesses, lack the expertise, capital or personnel required to install, maintain and monitor their own web infrastructures. With the convergence of wireless communications and Internet services, more businesses are opting for wireless technology to meet their data and communication needs.

In recent years, the proliferation of wireless communications solutions has extended the reach and connectivity of mobile professionals. The projected growth of wireless data communication systems, driven by increasing connectivity options for mobile users, should result in increased accuracy, timeliness and convenience of information access, thereby reducing costs and improving productivity.

8

Mobile professionals need tools that provide them with real-time access to mission-critical information at all times. We are in the business of providing mobile professionals with the tools they need to access data from anywhere in the world with convenience, speed, reliability and security.

Technological advances (such as digitalization, data compression, smaller devices) and critical regulatory decisions (to license new spectrum for cellular telephony and other new applications) have greatly increased the availability of wireless communications while reducing costs. The result has been dramatic growth in the market for cellular telephones. For example, cellular telephone

Edgar Filing: CENUCO INC - Form 10KSB

subscriptions have increased from just over 2 million to more than 60 million in the last 10 years.

Many nationally recognized experts predict strong growth within the wireless data market.

Our wireless solutions segment, with its core proprietary (patent pending) technology, addresses one primary market; security and surveillance. The wireless segment offers software solutions but can also bundle hardware that will allow real-time mobile access to mission-critical data and live video from any Internet enabled personal digital assistant (PDA) or cellular phone, from anywhere on the globe.

Our wireless video monitoring solutions allows users to view real-time streaming video of security cameras at their home or place of business from anywhere they receive a cellular connection, regardless of the carrier or user's location. Our systems are also delivered with a password protected PC desktop client, which allows for single click access to any remote camera, ability to communicate with us (via Internet link), manage user accounts, and review archival video. This total package of services and technology is currently unique in the marketplace.

Within this segment, we consider ourselves a software development company, offering vertical integrators extensibility upon their existing product lines. By adding our technologies, integrators can take their LAN or Coaxial systems mobile. We have distinguished ourselves with this technological breakthrough, as we believe that we are the only company offering this type of fully military-grade, encrypted solution.

We also offers a solution to American Insurance Group (NYSE: AIG) for their training and data access. Our Real Estate Pipeline application is contracted to more than 50,000 Realtors in Florida and New Jersey to access MLS listings by wireless means, which include photos and other data via an Internet enabled handheld device.

We are now focused on the fast-growing security, surveillance and Homeland Security markets. Our monitoring products have been listed on General Services Administration (GSA) under contract number GS-04F-0025N. The General Services Administration (GSA) coordinates all of the pricing for any product or service sold to the Federal government (and in the case of Homeland Security, some state and local governmental procurement as well). By having a GSA contract schedule number, we have met the GSA's requirements from corporate stability, product offering, and pricing standpoints, to sell and service all potential Federal customers. Currently our offerings are the only mobile video monitoring technology solutions currently available via the GSA.

Additionally, we have partnered and contracted with several expert security and distribution firms including:

The Company has also partnered with certain fortune 500 technology companies, manufacturers and distributors.

STRATEGY

Our business strategy, which is dependent upon our continuing to have sufficient cash flow from operations and/or obtaining sufficient additional financing with which to enhance the commercialization of existing and future products, is to be a provider of unique technologies and information management tools by using the expertise of our staff in application development. Currently, we have developed several wireless applications. Our objectives for our software applications

Edgar Filing: CENUCO INC - Form 10KSB

include the following key elements:

- * sell our products in many vertical markets, as the market for wireless technologies is developing;
- * build subscription base revenue streams for various industries;
- * develop niche vertical markets for our wireless solutions;
- * pursue marketing opportunities which allow us to develop the market presence needed to support sales goals and to attract developers of new products and services;
- * maintain and strengthen strategic relationships with suppliers and customers;
- * focus on providing a quality product, in addition to support and development after the sale;
- * utilize expertise in management to deliver products and services in a timely manner, control costs and manage budgets;
- * pursue selective partnerships to expand our capabilities, products and services.

Our revenues are expected to be based upon product sales, subscriptions, and custom wireless solutions. Our revenues are dependent on the volume of sales from the products we provide.

Revenues from sales are recognized in the period in which sales are made. Our gross profit margin will be determined in part by our ability to estimate and control direct costs of production and shipping and our ability to incorporate such costs in the price charged to our distributors.

Technology Overview and Discussion

Security and surveillance is the focus of our Cenuco organization. With a product offering of software and hardware bundles that we sell or license to consumers and businesses. Cenuco is the only provider of security and surveillance streaming-video monitoring via Internet enabled wireless PDAs or cellular phones using a wide area network (WAN) and several other connection protocols, including 802.11, GPRS, GSM, CDMA, and Satellite connections. The technology is neither carrier nor device specific and is scalable to many different formats and protocols, while retaining the capability of integrating with most standard security systems.

Our wireless solutions use a hybrid of MPEG-4 technology, encapsulating 192-bit, triple des (256-bit still in beta testing phase) encryption with MAC address verification of live streaming video, projected over wide area networks (WAN) via a cellular carriers' network to most Internet enabled wireless handheld devices and cellular phones. Presently, we can provide 10 frames per second of MPEG-4 streaming video via cellular connection. We also have products that work over 802.11 protocols for local area networks (LAN).

The Cenuco technology portfolio includes its own Digital Video Server (DVS) with selected digital video recorder (DVR) components and remote wireless functions that include:

- o 120 FPS recording over each platform
- o 192 Bit, triple des Encryption algorithm with MAC address verification
- o Multi protocol wireless integration
- o Continuous recording feed
- o MPEG-4 compression
- o Standard modem and Network Interface Card
- o CD-rewrite
- o Multi-viewing capability (multiple users, multiple locations)
- o Remote playback functionality
- o Remote pan-tilt-zoom (PTZ)

PRODUCTS

Our technological expertise resides in niche end-to-end wireless solutions for the integration and delivery of data over any Internet enabled device. We have developed a number of proprietary applications providing mobile video transmission connectivity on wireless handheld devices and cellular phones within specific market verticals and has filed two patents (software and process) relating to this technology. Below is a sampling of some mobile solutions and ancillary services already developed and implemented.

- o The Cenuco Mobile Manager Security Digital Video Recording System TM

The Mobile Manager Security DVS system package, released in March 2003, allows for streaming security video in real-time over wireless handheld devices. This system integrates with existing systems and has digital video archiving features with date and time stamps included. This Cenuco product line targets larger corporations or businesses that require a dedicated system for their video surveillance storage needs. To date, we have not sold any Mobile Manager Security DVS system packages. In addition to the upfront hardware and software purchase price, the Company will receive annual service contracts generally from 8% to 10% of the initial sale.

- o The Cenuco Mobile Video Monitor Server TM

This is the sister product to our Mobile Manager Security DVS system. Cenuco does not want to compete with DVR companies like Sensormatic, GE, Securitas, Panasonic, etc. Rather, we envision partnering with these companies to integrate our wireless device video transmission technologies into their product lines via software license and Cenuco's SDK developer's toolkit. However, as an initial first step, the Cenuco Mobile Video Monitor Server is simply 4-16 camera port encoder and transmitter, taking any existing DVR's video feeds and making them viewable via wireless handheld or cellular phones. Installation takes less than an hour, and basically entails taking any DVR system's video outputs and connecting them into the complementary port on the Cenuco device. There is a tremendous amount of interest in this product, as it takes any existing CCTV installation and makes it mobile, without any re-engineering, re-wiring, or system rebuilding. We currently have this system installed at the University of Miami, and are piloting with Miami Dade Transit, GE Interlogix (healthcare division), New York Stock Exchange, MGM Grand Hotel and Casino, and EDS. We have arranged for leasing availability on this system line with a major national leasing group. At present, we are training the top 15 independently owned security integrators in the U.S., on the sale, installation, and service of this product. SafirRosetti also has been an integral part in the functionality specifications design, sales and marketing of the Mobile Video Manager Server system to its Fortune 500 client base. Additionally, Cenuco has a GSA version of the Mobile Video Manager Server specifically designed for Homeland Security usage. We have already been in conversations with the U.S. Department of Commerce, the Transportation Security Administration, as well as the technology directorate within the Department of Homeland Security. As previously mentioned this solution is the only offering of its type on the GSA schedule. Since launching the GSA product version in mid June of 2003, we have received dozens of direct Request for Proposals and Request for Quotes from multiple federal agencies. Our monitoring products have been listed on General Services Administration (GSA) under contract

Edgar Filing: CENUCO INC - Form 10KSB

number GS-04F-0025N. The General Services Administration (GSA) coordinates all of the pricing for any product or service sold to the Federal government (and in the case of Homeland Security, some state and local governmental procurement as well). By having a GSA contract schedule number, Cenuco has met the GSA's requirements from corporate stability, product offering, and pricing standpoints, to sell and service all potential Federal customers. Currently Cenuco's offerings are the only mobile video monitoring technology solutions currently available via the GSA. To date, we have not generated revenue from this product.

11

- o The MommyTrack TM

The Mommy Track system, released in June of 2003, is a plug and play retail sellable (shrink-wrap) system. This product enables parents, grandparents or other family members to view their children and/or their homes in a real-time video stream over their Internet enabled wireless cell phone/handheld device or computer from anywhere in the world. Currently, the product comes in two formats, which include a color camera, a wireless base station, and software, and is wholesale priced at volume accordingly at \$299 (MSRP is \$499). In addition, the Company charges a service fee of \$19.95 per month, which includes 48-hours of offsite archiving, 24/7 wireless Gateway access, 24/7 instant email support and software upgrades. The maintenance contracts run for one year and automatically renew unless cancelled by the customers. Cenuco offers extended monthly archiving of video for an additional fee. The Company is currently in discussions with two of the largest home security monitoring companies regarding offering or integrating our technology within their existing customer base. Net revenues from our Mommy Track product amounted to approximately \$23,000 and \$0 for the years ended June 30, 2003 and 2002, respectively.

- o The Cenuco Mobile Video Monitor TM

The Cenuco Mobile Video Monitor system, to be released in December of 2003, is a plug and play small business version of MommyTrack. This product enables small business owners to view their stores, restaurants, warehouses, etc. in a real-time video stream over their Internet enabled wireless handheld / cellular device or computer from anywhere in the world. This product is the same core technology as Mommy Track but with a different skin for a different application. By utilizing the same product in different segmented verticals, we can further expand our potential and profitability. The product will be sold on a two-year maintenance contract, under a direct sale or lease agreement which we have arranged with a national leasing service company. Under leasing, Cenuco will be paid the entire two-year service amount and product purchase price, upfront. We intend to pay out our various commissions to resellers and integrators on a quarterly basis, allowing us to accrue some interest on the cash float this scenario would create. Mobile Video Monitor will be sold through LCA, Cellstar, Barrett Xplore, SafirRosetti, SecurityOne, PEI, catalogs and others. Additionally, we are in discussions with TYCO Fire and Security regarding a possible integration or private label situation within their ADT residential products. It is important to note that California recently passed a new law (not yet implemented) requiring video verification of a break-in prior to a police officer being dispatched to the location. This will effect both commercial and home security implementations. ADT has told us that this is the only solution they have seen which would meet this requirement. To date, we have not

Edgar Filing: CENUCO INC - Form 10KSB

generated revenues from this product.

- o Custom on-line Training and Education Course Development

As mentioned, Cenuco's educational subsidiary can develop custom training and education courses through our existing development and delivery systems. Although not a primary business, many clients with specialty installations of our security products have begun to request broad-based training for their large community of end-users. Cenuco considers this service as incremental revenue. Net revenues from our on-line training and education course development was not material.

- o AIG Environmental Institute TM

The AIG Environmental Institute (TM) is a platform providing training and relevant market information to remote users within the AIG family. This system was built under contract for American Insurance Group (AIG). There are currently 300 AIG brokers and agents using the platform, of which a small percentage access it via an Internet enabled PDA or cellular phone. Additionally, AIG offers this platform to third party professional support personnel (lawyers, brokers, etc.) For its services, Cenuco receives a monthly retainer and charges an annual

12

activation fee for every user. Net revenues from AIG amounted to approximately \$93,000 and \$98,000 for the years ended June 30, 2003 and 2002, respectively.

- o The Real Estate Pipeline TM

The Real Estate Pipeline(TM) was developed in association with 16 MLS groups in the State of Florida and New Jersey, which represent over 50,000 individual brokers and agents. Similar to the platform developed for AIG, the Real Estate Pipeline allows real estate brokers access to MLS listings through their PDA or cellular phone. Cenuco receives monthly retainers and activation fees for its service. The Company expects to dominate the entire Florida market by the end of 2003 and intends to expand its associations with other MLS groups in other states including North Carolina, Rhode Island, California, New York and Nevada. Net revenues from our Real Estate Pipeline product amounted to approximately \$70,424 and \$13,453

- o Traditional and Wireless Internet Hosting

Building a presence on the Wireless Web will enable your business to reach and market hundreds of millions of consumers. A wireless-website allows businesses to harness the power of the wireless Internet and to reach unlimited customers anytime, from anywhere. It is the most powerful tool that takes minimal expense to create and maintain. Imagine, all the people using wireless devices having the ability to find the right business, secure information, and then make purchases (m-commerce) from their wireless devices. In addition, we offer traditional web hosting to our clients. Net revenue from our hosting services was not material.

We are currently building applications in the following new vertical markets:

- o Insurance Industry
- o Medical Industry

Edgar Filing: CENUCO INC - Form 10KSB

o Sports Information

MARKETING AND DISTRIBUTION

Our strategy is to become a dominant provider of wireless data applications and information management solutions by using management's expertise and knowledge of information management; aggressively promoting our products through direct sales, advertising, Internet branding and trade show marketing, and forming strategic alliances with key industry leaders. We seek to maximize our recurring revenues by providing monthly ISP and wireless services for our applications. We also plan to enter new domestic and foreign markets by expanding into other vertical and horizontal markets, increasing the number of our channel partner relationships and fostering new strategic alliances.

Keys to meeting our strategic marketing objectives include the following:

Build critical mass: We must build a branding strategy through aggressive promotion of our vertical market based applications. This can be done through advertisements in various trade specific magazines and websites. Our plans to participate at several trade shows where representatives can demonstrate our products and services. Our marketing strategy includes press releases on new developments.

Develop the market for existing and new products: Our initial focus is to meet the needs of the mobile professional. We will focus on the professional who understands the value of real time information and the ability to share that information with their clients, colleagues and offices in a timely manner.

Expand into new industries: Management believes that it can apply our information management solutions and wireless applications in any market, including, but not limited to financial, insurance, construction, industrial and legal. Additionally, the products are easily adaptable to horizontal markets including traditional industrial businesses, manufacturing and distribution, and consumer applications.

13

Pursue channel partners and strategic acquisitions: We intend to market our products through channel partners who share our goals and values, direct marketing efforts and traditional marketing.

Develop our customer base and strengthen our brands through enhanced sales and marketing promotions: We intend to be aggressive in our marketing mix by promoting our products.

Develop an in-house marketing communications and customer support program: Our marketing staff has developed marketing and sales literature along with demonstration tools that support both direct sales and customer support. Our websites are scheduled to be constantly updated to show most recent developments and partnerships.

We will strive to offer the best customer service possible by providing solutions and answers in a timely fashion.

Maintain and strengthen our strategic relationships with suppliers: Building a successful business requires strategic initiatives that will provide potential customers, help to enter into new and targeted markets, develop and affirm credibility in the market place, generate name recognition, align with reputable and well known or established companies with significant customer bases, and enlist technologies that supplement existing or in-house technology and applications.

Edgar Filing: CENUCO INC - Form 10KSB

Strategic positioning and planning are critical for a successful business, whether a startup or for an established company. In order to accomplish these goals, strategic partnerships provide critical supplementation of existing products, services or technologies. These partnerships and strategic positioning enable us to provide robust and successful applications at a faster rate to meet market and customer expectations. Building this strategic positioning and moving to create these partnerships is a key to success for a mobile application developer.

We utilize the Internet as an inexpensive and efficient method reach prospective wireless solutions customers and increase the Company's distribution channels. We have developed our website to draw attention to the various products the Company sells. Product information, testimonials, and media clips of the products from news sources like The Wall Street Journal, Fox News, NBC News, ABC News, Entrepreneur Magazine and others, are available on the site allowing prospective customers to learn more about the Company's wireless products and how to obtain them. The site also alerts customers to new products and news of existing ones.

Aside from its website, we have also developed literature featuring product information marketing literature, product packaging and sales kits to be used by retailers. We have also developed trial systems for the desktop client, which will allow potential customers to sample the remote viewing service offering on a desktop computer or compatible wireless device. This demonstration trial is licensed for seven days, creating a definitive timeline for the continuation of the sales process.

The company also intends on attending numerous tradeshow as both an exhibitor and attendee. Through our partnership with Nokia and Microsoft, we also have opportunities to reside within their "partner pavilions" at little cost, at some of the most major technology shows like Comdex, CES, CeBIT, and the Homeland Security Technology Forum.

We have also developed a comprehensive advertising and promotional program, which includes standard display advertising, 90-second infomercial, advertorial, radio spot, and co-operative marketing programs. We are in discussions with ClearChannel communications regarding on-air promotions in selected markets (product give-aways, at no cost for airtime). Additionally, we have partnered with ANSA products group, one of the largest high-end baby bottle manufacturers globally. Under this program, Cenuco's MommyTrack product information cards will be inserted into 2,000,000 bottles to be distributed by ANSA. These bottles have already started to appear in CVS, Walgreens, Eckards, Target, and numerous additional national chains.

14

Through our Public Relations programs, we have the ability to get the MommyTrack product featured on television via Oprah, Today, CNN, product placement within television programming, and general matter television news stories. Currently, we also have over 20 print journalists who want to review the MommyTrack product, so that publication dates will meet with the Christmas shopping cycle. Assuming all reviews occur, we will achieve over 20,000,000 impressions with consumers by combining the circulation of all interested publications.

Our collaboration with Nokia has provided us access to cutting-edge wireless technology and next generation devices. We are currently the preferred solutions developer and reseller of Nokia's industry-leading wireless gateway for North and South America. This robust WAP gateway is expansive enough to provide wireless service to all of our clients. We introduced a variety of custom applications for Nokia devices at Nokia's booth at both the Citrix 2001 show in

Edgar Filing: CENUCO INC - Form 10KSB

Orlando, Florida and Comdex 2001 in Las Vegas- the world's largest computer and technology exposition.

We have partnered with several State Multiple Listing Service (MLS) organizations, representing nearly 45,000 realtors in Florida. As partners of organized real estate professional groups, the company subscribes to a strict code of ethics and has access to numerous services and programs. Educational programs and seminars help members gain new skills and professional designations. Regular meetings provide opportunities for networking. In addition to these programs, the associations offer its members a variety of business tools from the Multiple Listing Service, market statistics, and publications with current real estate information to training in cutting-edge technology. We have joined this organization to help in the development of the Real Estate Pipeline(TM) application. We currently have agreements with 16 MLS organizations in the States of Florida and New Jersey to access property information.

COMPETITION

We face competition from large, well-established companies with considerably greater financial, marketing, sales and technical resources than those available to us. Additionally, many of our present and potential competitors have capabilities that may allow such competitors to offer their products at prices which may compete with our products. Our products could be made uneconomical by the introduction of new products, changes affecting the cost of packaging and shipping, or marketing or pricing actions by one or more of our competitors. Our business, financial condition or results of operations could be materially adversely affected by one or more of such developments. There can be no assurance that we will be able to compete successfully against current or future competitors or that competition will not have a material adverse effect on our business, financial condition or results of operations.

The principal competitive factors for the industry are brand recognition, ease of use, comprehensiveness of product offerings, customization to the consumer, quality and focused value-added services. To our knowledge, there is currently no other supplier of wireless video monitoring services in the market today covering both 802.11 and cellular connectivity, combined with our military-grade, dual compressed encryption systems with MAC address verification of wireless clients; therefore, our offerings extend the market to a new dimension of "true mobility".

The few companies that claim to offer remote monitoring access via a handheld device currently use JPEG Push. The technology format used is JPEG still images, which are pushed to an Internet enabled handheld device via only 802.11 protocols at a limited frame rate. Note, this type of technology is not a streaming video format. It also requires the user to be "on-premises" for connectivity. The moment the user leaves the facility, connectivity is lost. The user is actually sent still images at a giving a very limited illusion of video streaming. The predominant drawback to JPEG push is that only a certain amount of still images can be sent at one time, ultimately leading to a refresh rate, or lapses in viewing and poor video quality. During this refresh, an expanded amount of viewing time will be lost. Moreover, all current wireless solutions are based on 802.11b or other RF wireless local area network (WLAN) technology. Cenuco's technology allows for true full-motion MPEG video, delivered to handheld clients via 802.11x as well as CDMA, GSM, and SATCOM protocols. This means the user can be literally anywhere in the world and still be connected to the "on-premises" location.

SOURCES AND AVAILABILITY OF RAW MATERIALS

Edgar Filing: CENUCO INC - Form 10KSB

The materials and equipment needed to produce our software products are widely available from numerous third parties. No shortage of materials is expected in the foreseeable future.

DEPENDENCE ON ONE OR FEW CUSTOMERS

We will rely heavily on our customers' preferences to best determine the products which will be produced. The commercial success of our products will depend on our ability to predict the type of product that will appeal to a broad spectrum of the populous and will be affordable. Although we plan to test market our products prior to their release, there can be no assurance that we will be able to predict the appeal of our products before production.

RESEARCH AND DEVELOPMENT

We believe that research and development is an important factor in our future growth. The software industry and data storage and transmission are closely linked to the latest technological advances. Therefore, we must continually invest in the technology to provide the best quality product to the public and to effectively compete with other companies in the industry. No assurance can be made that we will have sufficient funds to purchase technological advances as they become available. Additionally, due to the rapid advance rate at which technology advances, our equipment may be outdated quickly, preventing or impeding us from realizing its full potential profits.

PATENTS, COPYRIGHTS AND TRADEMARKS

We intend to protect our original intellectual property with patents, copyrights and/or trademarks as appropriate. Currently, certain products are protected by trademarks and patents are pending for our security product line.

GOVERNMENTAL REGULATION

Federal

We intend to utilize the Internet for transmission of data across state lines. Presently, the FCC and other federal government agencies do not regulate companies that provide these services. Notwithstanding the current state of the rules, the FCC's potential jurisdiction over the Internet is broad because the Internet relies on wire and radio communications facilities and services over which these regulatory authorities have long-standing authority.

State

We are not currently subject to any state regulation with respect to its Internet related services. However, there can be no assurances that we will not be subject to such regulations in the future. Additionally, we are not aware of any pending legislation that would have a material adverse effect on our operations.

Effect of Probable Governmental Regulation on the Business

As we expand our efforts to develop new products and services, we will have to remain attentive to relevant federal and state regulations. We intend to comply fully with all laws and regulations, and the constraints of federal and state restrictions could impact the success of our efforts.

As our services are available over the Internet in multiple states and foreign countries, these jurisdictions may claim that we are required to qualify to do business as a foreign corporation in each such state and foreign country. New legislation or the application of laws and regulations from jurisdictions in this area could have a detrimental effect upon our business.

Due to the increasing popularity and use of the Internet, it is possible that additional laws and regulations may be adopted with respect to the Internet, covering issues such as content, privacy, access to adult content by minors, pricing, bulk e-mail (spam), encryption standards, consumer protection, electronic commerce, taxation, copyright infringement and other intellectual property issues. We cannot predict the impact, if any, that future regulatory changes or developments may have on our business, financial condition, or results of operation. Changes in the regulatory environment relating to the Internet access industry, including regulatory changes that directly or indirectly affect telecommunication costs or increase the likelihood or scope of competition from regional data service providers or others, could increase our operating costs, limit its ability to offer services and reduce the demand for our services.

Cost and Effects of Compliance with Environmental Laws

Our business is not subject to regulation under the state and federal laws regarding environmental protection and hazardous substances control. We are unaware of any bills currently pending in Congress which could change the application of such laws so that they would affect us.

We believe that the suite of services we are currently developing are diversified enough to meet the demands of any size client. Rather than limit our targeted market and services to strictly mid-to-large size companies, we have decided to offer affordable wireless services and solutions to any size client seeking to go wireless.

EMPLOYEES

As of September 15, 2003, we had approximately 15 full-time employees. None of our employees are represented by a labor union. We have not experienced any work stoppages and generally believe that our relationship with our employees is good.

ITEM 2. DESCRIPTION OF PROPERTY

Our corporate headquarters are located at 6421 Congress Avenue, Suite 201, Boca Raton, Florida. This facility consists of approximately 6,200 square feet of office space, leased from a non-affiliated third party at an annual rent of approximately \$78,000. The leases expire in July 2005.

The headquarters of our subsidiary, Barrington University, are located at 801 Executive Park Dr., Mobile, Alabama. This facility consists of approximately 1,500 square feet of office space, leased from a non-affiliated third party at an annual rate of approximately \$11,000. The lease expires in April 2004.

All of the foregoing facilities are in good condition and are adequate for currently anticipated needs. We believe that in the event that the leases with respect to any of the aforementioned facilities should not be renewed, alternative space will be available at comparable rates.

ITEM 3. LEGAL PROCEEDINGS.

From time to time the company faces litigation in the ordinary course of business. Currently we are not involved with any litigation which will have a material adverse effect on our financial condition.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

Edgar Filing: CENUCO INC - Form 10KSB

None

17

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Since January 4, 2000 until December 17, 2002, our common stock had been traded in the over-the-counter market and quoted on the OTC Bulletin Board under the symbol "VADC.OB". On December 17, 2002, the Company changed its symbol to "CNUO.OB". The reported high and low sale prices for the common stock are shown below for the periods indicated. The prices reflect inter-dealer prices, without retail mark-up, markdown or commissions, and may not always represent actual transactions.

	High (\$)	Low (\$)
	-----	-----
Fiscal 2003		
First Quarter (7/1/02-9/30/02)	0.71	0.42
Second Quarter (10/01/02-12/31/02)	2.02	0.45
Third Quarter (1/01/03-3/31/03)	1.90	0.85
Fourth Quarter (4/01/03-6/30/03)	1.64	0.82
Fiscal 2002		
First Quarter (7/1/01-9/30/01)	2.70	0.85
Second Quarter (10/01/01-12/31/01)	0.94	0.35
Third Quarter (1/01/02-3/31/02)	0.76	0.35
Fourth Quarter (4/01/02-6/30/02)	0.77	0.32

As of September 15, 2003, there were approximately 950 record owners of our common stock.

To date, we have not paid any cash dividends on our Common Stock and have no intention of paying dividends in the foreseeable future. The payment of dividends, if any, in the future is within the discretion of our Board of Directors and will depend upon our earnings, capital requirements and financial condition and other relevant factors. Our ability to pay dividends in the future may also be dependent upon relevant provisions of Delaware corporate law.

THE APPLICATION OF THE "PENNY STOCK REGULATION" COULD HARM THE MARKET PRICE OF OUR COMMON STOCK

Our common stock currently trades on the OTC Bulletin Board. Since our common stock continues to trade below \$5.00 per share, our common stock is considered a "penny stock" and is subject to SEC rules and regulations, which impose limitations upon the manner in which our shares can be publicly traded.

These regulations require the delivery, prior to any transaction involving a penny stock, of a disclosure schedule explaining the penny stock market and the associated risks. Under these regulations, certain brokers who recommend such securities to persons other than established customers or certain accredited investors must make a special written suitability determination regarding such a purchaser and receive such purchaser's written agreement to a transaction prior to sale. These regulations have the effect of limiting the trading activity of our common stock and reducing the liquidity of an investment in our common stock.

Stockholders should be aware that, according to the Securities and Exchange Commission Release No. 34-29093, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. These patterns include:

Edgar Filing: CENUCO INC - Form 10KSB

- Control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer;
- Manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases;
- "Boiler room" practices involving high pressure sales tactics and unrealistic price projections by inexperienced sales persons;
- Excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and
- The wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the inevitable collapse of those prices with consequent investor losses.

18

Furthermore, the "penny stock" designation may adversely affect the development of any public market for the Company's shares of common stock or, if such a market develops, its continuation. Broker-dealers are required to personally determine whether an investment in "penny stock" is suitable for customers.

Penny stocks are securities (i) with a price of less than five dollars per share; (ii) that are not traded on a "recognized" national exchange; (iii) whose prices are not quoted on the NASDAQ automated quotation system (NASDAQ-listed stocks must still meet requirement (i) above); or (iv) of an issuer with net tangible assets less than \$2,000,000 (if the issuer has been in continuous operation for at least three years) or \$5,000,000 (if in continuous operation for less than three years), or with average annual revenues of less than \$6,000,000 for the last three years.

Section 15(g) of the Exchange Act, and Rule 15g-2 of the Commission require broker-dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks and to obtain a manually signed and dated written receipt of the document before effecting any transaction in a penny stock for the investor's account. Potential investors in the Company's common stock are urged to obtain and read such disclosure carefully before purchasing any shares that are deemed to be "penny stock."

Rule 15g-9 of the Commission requires broker-dealers in penny stocks to approve the account of any investor for transactions in such stocks before selling any penny stock to that investor. This procedure requires the broker-dealer to (i) obtain from the investor information concerning his or her financial situation, investment experience and investment objectives; (ii) reasonably determine, based on that information, that transactions in penny stocks are suitable for the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions; (iii) provide the investor with a written statement setting forth the basis on which the broker-dealer made the determination in (ii) above; and (iv) receive a signed and dated copy of such statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives. Compliance with these requirements may make it more difficult for the Company's stockholders to resell their shares to third parties or to otherwise dispose of them.

FUTURE SALES OF LARGE AMOUNTS OF COMMON STOCK COULD ADVERSELY EFFECT THE MARKET PRICE OF OUR COMMON STOCK AND OUR ABILITY TO RAISE CAPITAL.

Future sales of our common stock by existing stockholders pursuant to Rule 144 under the Securities Act of 1933, or following the exercise of future option grants, could adversely affect the market price of our common stock. Our directors and executive officers and their family members are not under lockup

Edgar Filing: CENUCO INC - Form 10KSB

letters or other forms of restriction on the sale of their common stock. The issuance of any or all of these additional shares upon exercise of options will dilute the voting power of our current stockholders on corporate matters and, as a result, may cause the market price of our common stock to decrease. Further, sales of a large number of shares of common stock in the public market could adversely affect the market price of the common stock and could materially impair our future ability to generate funds through sales of common stock or other equity securities.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS

On December 11th, 2002, the Board of Directors of Virtual Academics.Com, Inc. recommended and approved the change of its name to Cenuco, Inc. to better reflect our business direction and operation. Effective December 17, 2002, a majority of our shareholders approved of the name change. Reflecting the changing focus of our business, we plan to accelerate the development of our suite of fully integrative wireless solutions for the Security, Real Estate and Insurance markets.

19

The change in name signifies the focus on our development of wireless applications, while maintaining our market presence in the distance-learning sector. We will continue to expand our online distance-learning programs, including the AIG Environmental Institute, the Innovation Institute, Barrington University and the Academy of Health Science and Nutrition.

The development and cultivation of wireless applications will now serve as the focal point for our initiatives. Already, the wireless subsidiary has produced viable solutions for the real estate and security markets. In addition, we launched our line of wireless video monitoring solutions, MommyTrack(TM) and CenVid(TM). Both products offer the world's first truly mobile surveillance monitoring solution for the consumer and business market.

Through our subsidiaries, we are engaged in the online distance learning business with a focus on the international, second-career adult and corporate training markets. We currently operate our main school, Barrington University, from Mobile, Alabama, where the State of Alabama Department of Education, Code of Alabama, Title 16-46-1 through 10, licenses the school. We offer degrees and training programs to students in over 80 countries and in multiple languages. The programs are "virtual" in their delivery format and can be completed from a laptop, home computer or through a wireless device.

In addition to degree completion programs, we are focusing on training corporate personnel, continuing education (CE) courses and wireless technology for education, which we believe is a major growth area.

We are currently developing affordable wireless platforms to provide companies with quality training services for their employees. Our staff works directly with Human Resource departments to ensure the training is scalable and applicable to their employees' needs. Our technology provides seamless information to all employees, regardless if they are in the home, office or out in the field.

We have released other wireless application products that are currently being used in the Security, Real Estate and insurance industries. The software applications are compatible with most existing wireless devices. We expect to release several academic and training solutions in fiscal 2003.

We have received full approval for Sallie Mae funding for our students that qualify for Sallie Mae loans. Sallie Mae has been providing funds for

Edgar Filing: CENUCO INC - Form 10KSB

educational loans. Sallie Mae currently owns or manages student loans for more than seven million borrowers and is the nation's leading provider of educational loans.

We operate in two reportable business segments - (1) the online distance learning industry, and (2) the development and sales of wireless solutions and web services. The latter segment includes development of business-to-business and business-to-consumer wireless applications, and state of the art web technology and design services. Our reportable segments are strategic business units that offer different products. They are managed separately based on the fundamental differences in their operations and are discussed separately below.

SEASONALITY IN RESULTS OF OPERATIONS

We experience seasonality in our results of operations from our online distance-learning segment primarily as a result of changes in the level of student enrollments and course completion. While we enroll students throughout the year, December and January average enrollments and course completion and related revenues generally are lower than other quarters due to seasonal breaks in December and January. Accordingly, costs and expenses historically increase as a percentage of tuition and other net revenues as a result of certain fixed costs not significantly affected by the seasonal second quarter declines in net revenues.

We experience a seasonal increase in new enrollments in August of each year when most other colleges and universities begin their fall semesters. As a result, instructional costs and services and selling and promotional expenses historically increase as a percentage of tuition and other net revenues in the fourth quarter due to increased costs in preparation for the August peak enrollments.

20

RESULTS OF OPERATIONS (continued)

YEAR ENDED JUNE 30, 2003 COMPARED TO THE YEAR ENDED JUNE 30, 2002

CONSOLIDATED RESULTS

The following discussion relates to our consolidated results of operations. Further discussion and analysis of operating results is follows and is discussed by segment.

Revenues

For fiscal 2003, we had a 49% decrease in earned revenues to \$1,577,479 from \$3,099,498 for fiscal 2002.

Cost of Equipment Sales

For the year ended June 30, 2003 and 2002, we incurred cost of sales related to the sale of equipment of \$157,656 and \$67,835, respectively.

Instruction and Educational Support

Instruction and educational support expenses related to our online distant-learning segment. For the year ended June 30 2003, instructional and educational support expenses decreased by 63% to \$99,956 or 8.5% of net revenues as compared to \$272,729 or 9.4% of net revenues for the year ended June 30, 2002.

Edgar Filing: CENUCO INC - Form 10KSB

Selling and Promotion

Selling and promotion expense consists primarily of recruiting fees, advertising, trade show expense, and travel. For the year ended June 30, 2003, selling and promotion expenses decreased by 25.7% to \$353,403 or 22.4% of net revenues as compared to \$475,758 or 15.4% of net revenues for the year ended June 30, 2002.

General and Administrative Expenses

General and administrative expenses, which includes salaries, professional fees, rent, travel and entertainment, insurance, bad debt, and other expenses, were \$2,056,669 for the year ended June 30, 2003 as compared to \$2,478,582 for the year ended June 30, 2002. This amounted to 130.4% of net revenues for the year ended June 30, 2003 as compared to 80% for the year ended June 30, 2002.

Interest Income

Interest income was \$18,921 for the year ended June 30, 2003 as compared to \$31,875 for the year ended June 30, 2002, a decrease of \$25,274

Income Taxes

Deferred tax assets and liabilities are provided for significant income and expense items recognized in different years for tax and financial reporting purposes. As of June 30, 2002, we did not record a valuation allowance on the deferred tax assets because the Company's ability to realize these benefits was "more likely than not". The deferred tax asset was reported in the accompanying balance sheet at June 30, 2002. As of June 30, 2003, the net deferred taxes have been fully offset by a valuation allowance since the Company cannot currently conclude that it is more likely than not that the benefits will be realized. The net operating loss carryforward for income tax purposes of approximately \$950,000 expires beginning in 2017. Internal Revenue Code Section 382 places a limitation on the amount of taxable income that can be offset by carryforwards after a change in control (generally greater than a 50% change in ownership). In connection with the recording of a valuation allowance on our deferred tax asset, we recorded deferred tax expense of \$153,156.

21

RESULTS OF OPERATIONS (continued)

YEAR ENDED JUNE 30, 2003 COMPARED TO THE YEAR ENDED JUNE 30, 2002

Online Distance Learning Segment

Revenues

For fiscal 2003, we had a 59% decrease in earned revenues to \$1,181,718 from \$2,889,579 for fiscal 2002. The decrease in revenues is due primarily to a decrease in the number of students that have registered for our programs. We have decreased our marketing efforts and have been focusing on our wireless segment. Additionally, our students completed their courses at a slower rate than expected. Unearned revenue represents the portion of tuition revenue invoiced but not earned and is reflected as a liability in the accompanying consolidated balance sheets. Since we will recognize tuition and registration revenue based on the number of courses actually completed in each student's course of study, student course completion efforts, if successful, are extremely beneficial to operating results. During the year ended June 30, 2003, we experienced a general slowdown in course completion by our students, which had an adverse effect on our revenue. We have recently increased our marketing

Edgar Filing: CENUCO INC - Form 10KSB

efforts and expect student enrollment to increase in the second quarter of fiscal 2004.

Tuition refunds are based on the date that the student cancels and the policy is as follows: If the student withdraws within 5 calendar days after midnight of the day the student signs the Enrollment Agreement (Full Refund Period) the student will receive a full refund with no further obligation. If the student cancels after the Full Refund Period but before the school receives the first completed lesson, the student will be charged a registration fee of \$150 and the student will receive a full refund less the registration fee charge. If the student cancels after the school receives the first completed lesson, the student's tuition obligation will be their registration fee plus a portion of the remaining tuition as defined below.

Percentage of Course Completed	Amount of Tuition Obligated
-----	-----
10% of less	10% of tuition
Between 11% - 25%	25% of tuition
Between 26% - 50%	50% of tuition
Over 50%.	Obligated for full tuition.

When a student withdraws, we write off the remaining tuition receivable balance against the remaining unearned revenue balance and recorded a net increase or decrease to net revenues. The effect on net revenues was approximately a decrease of \$70,000 for the year ended June 30, 2003.

Expenses

Instruction and Educational Support

Instruction and educational support expenses consist primarily of student supplies such as textbooks as well as course development fees, credit card fees, computer related expenses, and printing fees. For the year ended June 30 2003, instructional and educational support expenses decreased by 63% to \$99,956 or 8.5% of net revenues as compared to \$272,729 or 9.4% of net revenues for the year ended June 30, 2002. The decrease in instructional and educational support expenses and the related percentages was mainly attributable to the fact that we have enrolled fewer students in the current period and we are able to purchase text books from a new supplier at reduced prices. Accordingly, student supply expense was \$42,835 or 3.6% of revenues for the year ended June 30, 2003 as compared to \$139,692 or 4.8% of revenue for the year ended June 30, 2002. Printing and reproduction costs decreased to \$18,271 for the year ended June 30, 2003 as compared to \$28,896 for the year ended June 30, 2002. Computer and internet expenses decreased to \$8,879 for the year ended June 30, 2003 as compared to \$61,836 for the year ended June 30, 2002 due to a decreased need for development and maintenance of our websites related to our online university.

22

Additionally, we incurred costs associated with course development for the year ended June 30, 2003 of \$11,592 as compared to \$12,260 for the year ended June 30, 2002.

Selling and Promotion

Selling and promotion expense consists primarily of recruiting fees, advertising and travel. For the year ended June 30, 2003, selling and promotion expenses decreased by 62.7% to \$137,224 or 11.6% of net revenues as compared to \$367,800 or 12.7% of net revenues for the year ended June 30, 2002. The decrease in selling and promotion expenses is attributable to the shift in our selling and promotion efforts to our wireless solutions segment. For the year ended June 30.

Edgar Filing: CENUCO INC - Form 10KSB

2003, advertising expense amounted to \$97,977 as compared to \$126,893 for the year ended June 30, 2002. Additionally, our recruiting fees decreased to \$28,186 for year ended June 30, 2003 from \$209,106 for the year ended June 30, 2002. The decrease is attributable to our decreased use of recruiters to obtain students and a general slow-down in new students. We are currently running advertisements in various national publications and newspapers in order to attract more students. We expect our advertising budget to increase through the end of fiscal 2004.

General and Administrative Expenses

General and administrative expenses, which includes salaries, professional fees, rent, travel and entertainment, insurance, bad debt, and other expenses, were \$941,729 for the year ended June 30, 2003 as compared to \$2,110,141 for the year ended June 30, 2002. This amounted to 79.7% of net revenues for the year ended June 30, 2003 as compared to 73% for the year ended June 30, 2002. The decrease was primarily due to the following factors:

The cost of professional fees decreased to \$69,747 for the year ended June 30, 2003 as compared to \$294,797 for the year ended June 30, 2002. During the year ended June 30, 2002, we incurred additional costs associated with the filing of a registration statement with the Securities and Exchange Commission and incurred legal expenses in connection with the dismissal of a lawsuit. For the year ended June 30, 2003, salaries were \$239,134 as compared to salaries of \$665,893 for the year ended June 30, 2002. The decrease in salaries was attributable to the allocation of administrative and executive salaries to our wireless segment, where we have concentrated a significant part of our resources and efforts. Additionally, we experienced a decrease in postage and delivery, telephone expenses, rent, payroll taxes, and office expenses due to a decrease in student activity and increased allocations of our overhead expenses to our wireless segment. We incurred bad debt expense of \$161,435 for the year ended June 30, 2003 as compared to \$514,933 for the year ended June 30, 2002, resulting from student inactivity.

Interest Income

Interest income was \$9,632 for the year ended June 30, 2003 as compared to \$34,906 for the year ended June 30, 2002, a decrease of \$25,274 due to the fact that cash was transferred to our wireless segment. We currently invest our excess cash balances in primarily two interest-bearing accounts with two financial institutions.

Wireless and Web Solutions Segment

For the year ended June 30, 2003 and 2002, we had net revenues of \$395,761 and \$209,919, respectively, which consisted of the following:

	Fiscal 2003	Fiscal 2002
Equipment Sales	\$191,786	\$ 70,353
Wireless Solutions and Web Services ..	179,563	137,751
Other	24,412	1,815
	\$395,761	\$209,919

For the year ended June 30, 2003 and 2002, we incurred cost of sales related to the sale of equipment of \$157,656 and \$67,835, respectively.

Edgar Filing: CENUCO INC - Form 10KSB

For the year ended June 30, 2003 and 2002, we incurred research and development expenses from the development of our new products of \$64,742 and \$0, respectively.

For the year ended June 30, 2003, selling and promotion expenses amounted to \$216,179, which included \$27,132 in commission expense, \$5,721 in advertising expense, \$99,570 of trade show expense, printing and reproduction expense of \$31,146, travel expenses of \$52,610. For the year ended June 30, 2002, selling and promotion expenses amounted to \$107,958, which included \$77,019 in commission expense, advertising expense of \$17,747, printing and reproduction expense of \$6,811, travel expenses of \$6,381.

For the year ended June 30, 2003, we incurred \$1,114,940 of general and administrative expenses, which included salaries expense of \$578,899, consulting expense of \$98,203, computer and internet related expenses of \$33,038, rent expense of \$42,772, professional fees of \$58,207, postage and delivery of \$36,862, payroll taxes of \$39,327, and other operating expenses. For the year ended June, 2002, we incurred \$368,441 of general and administrative expenses, which included salaries of \$174,917, consulting expense of \$4,800, computer and internet related expenses of \$16,908, rent expense of \$8,420, professional fees of \$7,395, payroll taxes of \$11,547, licensing fees of \$78,272 and other expenses. For the year ended June 30, 2003, salaries were \$578,899 as compared to \$174,917 for the year ended June 30, 2002. This reflected a growth in the number of employees during the year ended June 30, 2003 as a result of the growth that we are experiencing and new development projects as well as the allocation of administrative and executive salaries to our wireless segment. Additionally, since we began our wireless segment in November 2001, amounts for the year ended June 30, 2002 do not reflect the entire period.

For the year ended June 30, 2003 and 2002, interest income was \$9,289 and \$4,446, respectively. We currently invest our excess cash balances in primarily two interest-bearing accounts with two financial institutions.

Summary of Consolidated Results

Net income (loss)

As a result of the foregoing factors, we recognized a net loss of \$(1,289,182) or \$(.15) per common share on a consolidated basis for the year ended June 30, 2003 as compared to a net loss of \$(124,179) or \$(.01) per common share for the year ended June 30, 2002.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2003, we had \$996,702 in cash and equivalents on hand to meet our obligations.

During the year ended June 30, 2003, we invested substantial time and resources developing and evaluating products and opportunities for our wireless solutions segment. We will continue to develop new wireless solutions for both of our segments and may consider acquisitions, business combinations, or start up proposals, which could be advantageous to our product lines or business plans, although the Company expects to be profitable in the future there can be no assurance.

Net cash used in operations was \$459,548 for the year ended June 30, 2003 as compared to net cash used in operations of \$214,238 for the year ended June 30, 2002. We used additional cash funds for salaries and expenses related to the development of our wireless security products and a significant decrease in revenues. We feel that with expected positive cash flow, our current cash balance is sufficient to sustain our operations over the ensuing 12-month period, including the expected growth during this period.

Edgar Filing: CENUCO INC - Form 10KSB

Net cash used in investing activities for the year ended June 30, 2003 was \$73,601 as compared to \$31,117 for the year ended June 30, 2002 and related to the acquisition of property and equipment. During the year ended June 30, 2003, we acquired computer equipment to be used in the development of our wireless solutions.

24

We currently have no material commitments for capital expenditures. Our future growth is dependent on our ability to raise capital for expansion, and to seek additional revenue sources. We have adequate cash funds to meet our operating needs through fiscal 2004. However, if we decide to pursue any acquisition opportunities or other expansion opportunities, we may need to raise additional capital, although there can be no assurance such capital-raising activities would be successful.

CRITICAL ACCOUNTING POLICIES

A summary of significant accounting policies is included in Note 1 to the audited financial statements included in this Annual Report on Form 10-KSB for the year ended June 30, 2003. We believe that the application of these policies on a consistent basis enables us to provide useful and reliable financial information about our operating results and financial condition.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

We account for stock transactions in accordance with APB Opinion No. 25, "Accounting for Stock Issued to Employees." In accordance with Statement of Financial Accounting Standards No. 123 ("SFAS 123"), "Accounting for Stock-Based Compensation," we adopted the pro forma disclosure requirements of SFAS 123.

In connection with the development and sale of wireless solutions and web services, which include the development of business-to-business and business-to-consumer wireless applications, and state of the art web technology and design services, the Company recognizes revenue as services are performed or on a pro rata basis over the contract term.

We recognize tuition and registration revenue based on the number of courses actually completed in each student's course of study. For example, if a student completes three out of his nine required courses, the Company will recognize 33% of the tuition regardless of the amount of time that the student has taken to fulfill these requirements. Tuition refunds are based on the date that the student cancels and the policy is as follows: If the student withdraws within 5 calendar days after midnight of the day the student signs the Enrollment Agreement (Full Refund Period) the student will receive a full refund with no further obligation.

If the student cancels after the Full Refund Period but before the school receives the first completed lesson, the student will be charged a registration fee of \$150 and the student will receive a full refund less the registration fee charge. If the student cancels after the school receives the first completed lesson, the student's tuition obligation will be their registration fee plus a portion of the remaining tuition as defined below.

Percentage of Course Completed	Amount of Tuition Obligated
--------------------------------	-----------------------------

Edgar Filing: CENUCO INC - Form 10KSB

10% of less	10% of tuition
Between 11% - 25%	25% of tuition
Between 26% - 50%	50% of tuition
Over 50%...	Obligated for full tuition.

When a student withdraws, we write off the remaining tuition receivable balance against the remaining unearned revenue balance and recorded a net increase or decrease to net revenues. The effect on net revenues was approximately a decrease of \$70,000 for the year ended June 30, 2003.

25

RECENT ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board has recently issued several new accounting pronouncements:

Statement No. 146, "Accounting for Exit or Disposal Activities" ("SFAS 146") addresses the recognition, measurement, and reporting of cost that are associated with exit and disposal activities that are currently accounted for pursuant to the guidelines set forth in EITF 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to exit an Activity (including Certain Cost Incurred in a Restructuring)," cost related to terminating a contract that is not a capital lease and one-time benefit arrangements received by employees who are involuntarily terminated - nullifying the guidance under EITF 94-3. Under SFAS 146, the cost associated with an exit or disposal activity is recognized in the periods in which it is incurred rather than at the date the Company committed to the exit plan. This statement is effective for exit or disposal activities initiated after December 31, 2002 with earlier application encouraged. The adoption of SFAS 146 did not have a material impact on the Company's financial position, results of operations or liquidity.

In December 2002, the FASB issued Statement of Financial Accounting Standards No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure. Statement 148 provides alternative methods of transition to Statement 123's fair value method of accounting for stock-based employee compensation. It also amends the disclosure provisions of Statement 123 and APB Opinion No. 28, Interim Financial Reporting, to require disclosure in the summary of significant accounting policies of the effects of an entity's accounting with respect to stock-based employee compensation on reported net income and earnings per share in annual and interim financial statements. Statement 148's amendment of the transition and annual disclosure requirements of Statement's 123 are effective for fiscal years ending after December 15, 2002. Statement 148's amendment of the disclosure requirements of Opinion 28 is effective for interim periods beginning after December 15, 2002. The adoption of the disclosure provisions of Statement 148 did not have a material impact on the Company's consolidated financial condition or results of operations.

In November 2002, the FASB issued FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" (FIN 45). FIN 45 requires that upon issuance of a guarantee, a guarantor must recognize a liability for the fair value of an obligation assumed under a guarantee. FIN 45 also requires additional disclosures by a guarantor in its interim and annual financial statements about the obligations associated with guarantees issued. The recognition provisions of FIN 45 are effective for any guarantees issued or modified after December 31, 2002. The disclosure requirements are effective for financial statements of interim or annual periods ending after December 15, 2002. The adoption of this pronouncement does not have a material effect on the earnings or financial position of the Company.

Edgar Filing: CENUCO INC - Form 10KSB

In January 2003, the FASB issued Interpretation No. 46 ("FIN 46"), "Consolidation of Variable Interest Entities." FIN 46 requires that if an entity has a controlling financial interest in a variable interest entity, the assets, liabilities and results of activities of the variable interest entity should be included in the consolidated financial statements of the entity. FIN 46 requires that its provisions are effective immediately for all arrangements entered into after January 31, 2003. The Company does not have any variable interest entities created after January 31, 2003. For those arrangements entered into prior to January 31, 2003, the FIN 46 provisions are required to be adopted at the beginning of the first interim or annual period beginning after June 15, 2003. The Company has not identified any variable interest entities to date and will continue to evaluate whether it has variable interest entities that will have a significant impact on its consolidated balance sheet and results of operations.

26

In January 2003, the EITF finalized a consensus on Issue No. 02-16, "Accounting by a Customer (Including a Reseller) for Cash Consideration Received from a Vendor." The Task Force concluded that cash consideration in excess of specific identifiable costs, including sales incentives, allowances, discounts, coupons, rebates and price reductions, when meeting certain criteria, constitute a reduction in vendor price, and should therefore be reflected as a reduction in cost of sales when the related merchandise is sold. The EITF concluded that this literature should be applied to new arrangements, including modifications of existing arrangements, entered into after December 31, 2002. We adopted EITF 02-16 as of January 1, 2003. The adoption of EITF 02-16 had an immaterial impact on our consolidated financial position and results of operations.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity." This statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. This statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective for the first interim period beginning after June 15, 2003, with certain exceptions. We plan to adopt SFAS No. 150 in the first quarter of Fiscal 2004. We do not expect the adoption of SFAS No. 150 to have a significant impact on our consolidated financial position or results of operations.

ITEM 7. FINANCIAL STATEMENTS

The financial statements required by this report are included, commencing on page F-1.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None

ITEM 8A. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of the Chief Executive Officer and Principal Accounting Officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based on this evaluation, the Chief Executive Officer and Principal Accounting Officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods

Edgar Filing: CENUCO INC - Form 10KSB

specified in Securities and Exchange Commission rules and forms. There was no change in the Company's internal control over financial reporting during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

27

PART III

ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT.

The following individuals comprise our management team:

Steven M. Bettinger, 32 years old, has served as our Chief Executive Officer, President and Director since 1999. Mr. Bettinger also founded Barrington University in 1993, and also and serves as an executive officer and director of Continuing Care.com, a Web portal developer for senior living and the senior service industry, Funturnet Inc., a children's educational software company, Plantation Financial Group, an investment banking firm located in South Florida and Centaur, a financial advisors organization to the E-learning market. Mr. Bettinger received his B.S. in Business Administration from Syracuse University. Steven Bettinger is Robert Bettinger's son.

Robert K. Bettinger, 66 years old, has served as the Chairman of our Board of Directors since 1993. Mr. Bettinger is also the President of Barrington University, our primary internet school. Mr. Bettinger was also the founder of Certified Tax Returns USA.com, and on-line tax preparation business which he operated from June 1998 until its sale of October 1999. Mr. Bettinger graduated with an education degree from Long Island University and attended Teacher's College at Columbia University. Mr. Bettinger was a teacher, counselor and administrator in the New York City public school system from 1960 to 1977. Robert Bettinger is Steve Bettinger's father.

Andrew Lockwood, 35 years old, has served as a director since April 2000. Since December 2002, Mr. Lockwood has been the principal owner of Black Acre Mortgage, Inc., a mortgage brokerage firm located in Plantation, Florida. Additionally, in 2002 Mr. Lockwood became a partner and owner in Plantation Financial Group, Inc., an investment banking firm located in South Florida. Prior to joining Plantation Financial Group, since September 2001, he had served as President of the Shochet division of BlueStone Capital Corp., a New York based investment broker and financial services firm that acquired certain assets of Shochet Securities, Inc. in August 2001. From April 2000 to August 2001, Mr. Lockwood has served as Executive Vice President--Business Development and General Counsel of Shochet Holding Corp., a publicly traded financial services company based in South Florida. From April 1999 to April 2000, Mr. Lockwood was employed as an attorney in the corporate and securities department of Atlas Pearlman, P.A., a law firm located in Fort Lauderdale, Florida. From 1996 to March 1999, Mr. Lockwood was employed as an attorney in the corporate securities department of Graubard, Mollen & Miller, a law firm located in New York City. Mr. Lockwood received his J.D. from St. John's University School of Law and his B.A. from Wesleyan University. Mr. Lockwood is a member in good standing of each of the New York and Florida Bar Associations.

Jack P. Phelan, 53 years old, has served as a director since March 2000. Since June 1998, Mr. Phelan served as President of Helios International Asset Management, a registered investment advisor located in Boca Raton, Florida. From January 1995 to June 1998, Mr. Phelan served as President of Nicholson/Kenny Capital Management, an investment management firm located in Boca Raton, Florida. Mr. Phelan is a member of the Association of Investment Management Research, the New York Society of Security Analysis, the Financial Analysts

Edgar Filing: CENUCO INC - Form 10KSB

Society of South Florida, the International Society of Financial Analysts and the International Association for Financial Planning. Mr. Phelan is also a member of MENSA and the International Society of Philosophical Enquiry.

Jordan Serlin, 32 years old, became Chief Operating Officer in July of 2003. He served on the Cenuco Advisory Board since March of 2003. Most recently, Mr. Serlin served as CEO, Americas for United Kingdom based Tenestra, Ltd. Tenestra was a leading global developer of component hardware and software for digital and embedded wireless closed circuit television security surveillance systems. Clients and projects included: British Customs, BMW, Pepcor Intl., British Petroleum, and the United States Transportation and Security Administration. Mr. Serlin spearheaded the successful sale of Tenestra's core technologies to General Electric's security subsidiary in late 2002. Mr. Serlin previously served as the chief marketing executive for FortuneCity, an online services provider. He was part of the management team which took that firm to its \$90 million IPO in 1998 on the German NeurMarkt. He currently serves on the advisory boards of Sessions.edu, the Calyx Group, and the Brainstorm Venture Group, and

28

Qualinet. He currently or previously served as a Director on the boards of : LookNbuy, Qool.com, Electronic Hollywood, and Tenestra USA.

Robert Picow, 40 years old, has served as a director since July of 2003. In 1982, Mr. Picow founded Allied Distributors, a small electronics distributorship based in Philadelphia. In 1986, Allied Communications was formed and the company focused on cellular telephones and related products. Allied Communications became one of the leaders in this field and Mr. Picow served as C.E.O. until its merger in 1996 with Brightpoint, a publicly traded communications company. Mr. Picow served as Vice Chairman and a Director at Brightpoint until 1997. Robert served as a Director of S.B.A. Communications for a two-year term and is now a director of Streicher Mobile Fueling (fuel) and Fundamental Management Corporation a private fund management company. Mr. Picow also serves on the Board of Trustees of the Children's Place at Home Safe a Palm Beach based charity.

Directors are elected at each annual meeting of stockholders and hold office until the next annual meeting of stockholders. Executive officers are elected by and serve at the discretion of the Board of Directors. The Board of Directors held 5 meetings during Fiscal 2002 and consented to approximately 5 corporate resolutions. We do not have an audit committee. The entire Board of Directors serves as the audit committee. Because of the small size of the Company and the risk attendant to a small public company, we are currently unable to attract an audit committee financial expert to our Board of Directors. There are no other committees of the Board of Directors.

ITEM 10. EXECUTIVE COMPENSATION

SUMMARY COMPENSATION TABLE

The table below sets forth information relating to the compensation we paid during the past two fiscal years to: (i) the President and Chief Executive Officer; and (ii) each other executive officer who earned more than \$100,000 during Fiscal 2003 and 2002 (the "Named Executive Officers").

Name and Principal	Annual Compensation				Long-Term	
	Fiscal	Salary	Bonus	Other Annual Compensation	Restricted Stock Awards	Secu Unde Opt

Edgar Filing: CENUCO INC - Form 10KSB

Position	Year	(\$)	(\$)	(\$)	(\$)	SA
Steven M. Bettinger, President and Chief Executive Officer	2003	\$250,000	\$82,000 (1)	\$ -	\$42,000 (2)	100
	2002	\$239,615	\$15,000 (4)	\$ -	\$35,000 (3)	100
Robert K. Bettinger, Chairman of the Board and Principal Accounting Officer	2003	\$ -	\$82,000 (1)	\$73,000 (5)	\$42,000 (2)	100
	2002	\$ -	\$15,000 (4)	\$57,600 (5)	\$35,000 (3)	100

- (1) Represents the issuance of 100,000 shares of common stock to Steven Bettinger and Robert Bettinger, respectively, at a fair market value of \$0.82 on the date of issuance.
- (2) Represents value of 100,000 stock options granted to Steven Bettinger and Robert Bettinger, respectively, at an exercise price of \$.42.
- (3) Represents value of 100,000 stock options granted to Steven Bettinger and Robert Bettinger at an exercise price of \$.35.
- (4) Represents the issuance of 42,857 shares of common stock to Steven Bettinger and Robert Bettinger, respectively, at a fair market value of \$.35 on the date of issuance.
- (5) Represents amounts paid to a consulting company majority-owned by our Chairman of the Board and Secretary, The consulting company that renders Internet consulting services to the Company

EMPLOYMENT AGREEMENTS

We were a party to an employment agreement with Steven M. Bettinger, our President and Chief Executive Officer, which was entered into December 1, 1999 for a term of two years. The employment agreement provided for an annual salary of \$150,000, and a bonus determined in the sole discretion of our Board of Directors. Effective January 1, 2001, the Board of Directors approved a new two year employment agreement, which provides an increase in salary for Mr. Bettinger to \$250,000 per year and a bonus to be determined in the sole discretion of our Board of Directors. In connection with the employment agreements mentioned herein, Mr. Steven M. Bettinger was granted options under the 2000 Plan to purchase an aggregate total of 400,000 (100,000 each year) shares of common stock in fiscal 2003, 2002, 2001 and fiscal 2000 at an exercise price equal to the fair value market value on the date of grant.

These options vest 1/3 per year beginning one year from the date of grant. The employment agreement entitles Mr. Bettinger to receive options to purchase 100,000 shares of our common stock each year of employment at fair value on the date of grant. The employment agreement provides for automatic 12-month renewals unless the employment agreement is terminated by us or Mr. Bettinger with 30 days prior written notice. We intend to renew this employment agreement.

We were a party to an employment agreement with Robert K. Bettinger, our Chairman of the Board of Directors and Secretary, which was entered into December 1, 1999 for a period of two years. The employment agreement provided for an annual salary of \$10,800 and a bonus determined in the sole discretion of our Board of Directors. Effective January 1, 2001, our Board of Directors approved a new two year employment agreement, which provides for an increase in salary for Robert Bettinger to \$85,000 per year and a bonus to be determined in the sole discretion of the Company's Board of Directors. In connection with the employment agreements mentioned herein, Mr. Robert K. Bettinger was granted options under the 2000 Plan to purchase an aggregate total of 300,000 shares

Edgar Filing: CENUCO INC - Form 10KSB

(100,000 each year) of common stock in fiscal 2002, 2001 and 2000 at an exercise price equal to the fair market value on the date of grant. The options vest 1/3 per year beginning one year from the date of grant. The employment agreement entitles Mr. Robert K. Bettinger to receive options to purchase 100,000 shares of our common stock each year of employment at fair value on the date of grant. The employment agreement provides for automatic 12-month renewals unless the employment agreement is terminated by us or Mr. Bettinger with 30 days prior written notice. In April 2002, the parties agreed to terminate the employment agreement in favor of a consulting relationship. Mr. Bettinger continues to serve as the Chairman of our Board of Directors. Additionally, the Company continues to grant to Mr. Bettinger options under the 2000 Plan to purchase a total of 100,000 shares of common stock in fiscal 2003 at an exercise price equal to the fair market value on the date of grant.

OPTION GRANTS IN LAST FISCAL YEAR

The following table sets forth information concerning individual grants of options made during Fiscal 2003 to the Named Executive Officers.

	Number of Shares Underlying Options Granted (#)	% of Total Options Granted to Employees in Fiscal Year	Exercise or Base Price (\$/Sh)	Expiration Date
Steven M. Bettinger	100,000	40.0%	\$0.42	August 2012
Robert K. Bettinger	100,000	40.0%	\$0.42	August 2012

30

STOCK OPTIONS HELD AT END OF FISCAL 2003

The following table indicates the total number and value of exercisable and unexercisable stock options held by Named Executive Officers as of June 30, 2003.

Name	Number of Securities Underlying Unexercised Options at Fiscal Year-End(#)		Value of Unexercised In-the-Money Options at Fiscal Year-End(\$) (1)	
	Exercisable	Unexercisable	Exercisable	Unexercisable
Steven M. Bettinger	100,000	200,000	\$123,000	\$246,000
Robert K. Bettinger	100,000	200,000	\$123,000	\$246,000

(1) Based on the OTC Bulletin Board last sales price for our common stock on September 12, 2003 in the amount of \$1.23 per common share.

2000 PERFORMANCE EQUITY PLAN

On February 1, 2000, we adopted and implemented the 2000 Plan. The purpose of the 2000 Plan is to advance our interests by providing an additional incentive to attract and retain qualified and competent persons as employees, officers, directors and consultants upon whose efforts and judgment our success is largely dependent. The 2000 Plan was effective as of February 1, 2000, and, unless sooner terminated by our Board of Directors in accordance with the terms thereof, shall terminate on February 1, 2010. The number of shares of common stock that may be issued upon the exercise of options granted under the 2000 Plan is 1,000,000. As of June 30, 2003, options to purchase a total of 926,000 shares had been granted pursuant to the 2000 Plan, all of which are outstanding and 374,000 of which are exercisable.

Edgar Filing: CENUCO INC - Form 10KSB

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table provides certain information regarding our common stock beneficially owned as of September 15, 2003 by:

- o each person who is known by us to own beneficially 5% or more of our common stock; each of our executive officers and directors; and
- o all of our executive officers and directors as a group.

In accordance with SEC rules, options or warrants not exercisable within 60 days of this report are not considered part of the holder's beneficial ownership. As of September 20, 2003, there were 8,981,061 shares of common stock outstanding. Unless otherwise stated, the address for the beneficial shareholder is 6421 Congress Ave., Suite 201, Boca Raton, Florida 33487.

Name and Address of the Beneficial Owner	Number of Shares of Common Stock Beneficially Owned	Percentage %
Steven M. Bettinger	2,912,857	32.43
Robert K. Bettinger	1,512,857	16.84
Andrew Lockwood	20,000	0
Jack Phelan	23,333	0
Gilder Funding Corp. 12000 N. Bayshore Drive, Suite 210, North Miami, FL 33181	1,532,355 (1)	17.01
Bonnie Snyder 207 E. 74 Street New York, NY 10021	504,444 (2)	5.61

All executive officers and Directors as a group (4 persons)	4,469,047	49.76%

(1) Gilder Funding Corp. holdings include beneficial ownership of 897,610 shares of common stock owned by Private Trust Corp., New Amsterdam Investment Trust and Warren & Marianne Gilbert.

(2) Bonnie Snyder's holdings include beneficial ownership of 95,000 shares of common stock owned by Barbara Snyder, her mother.

31

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Robert Bettinger is the majority shareholder of a consulting company that renders Internet consulting services to us. During the years ended June 30, 2003 and 2002, fees paid to the consulting company amounted to \$73,000 and \$57,600, respectively.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

AUDIT FEES

The aggregate fees billed by the Company's auditors for professional services rendered in connection with the audit of the Company's annual consolidated financial statements for fiscal 2003 and 2002 and reviews of the consolidated financial statements included in the Company's Forms 10-KSB for fiscal 2003 and 2002 were approximately \$47,000 and \$44,000, respectively.

AUDIT-RELATED FEES

For fiscal 2003 and 2002, the Company's auditors billed for service related to an SB-2 registration filing with the SEC in the amount of \$19,700. The Company's auditors did not bill any additional fees for assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements and are not reported under "Audit Fees" above.

TAX FEES

Edgar Filing: CENUCO INC - Form 10KSB

The aggregate fees billed by the Company's auditors for professional services for tax compliance, tax advice, and tax planning were \$0 and \$0 for fiscal 2003 and 2002, respectively.

ALL OTHER FEES

The aggregate fees billed by the Company's auditors for all other non-audit services rendered to the Company, such as attending meetings and other miscellaneous financial consulting, in fiscal 2003 and 2002 were \$0 and \$0, respectively.

33

SIGNATURES

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors
Cenuco, Inc. (formerly Virtual Academics.com, Inc.)

We have audited the accompanying consolidated balance sheets of Cenuco, Inc. and Subsidiaries (formerly Virtual Academics.com, Inc.) (the "Company") as of June 30, 2003 and 2002 and the related consolidated statements of operations, stockholders' equity and cash flows for the two years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Cenuco, Inc. and Subsidiaries (formerly Virtual Academics.com, Inc.) at June 30, 2003 and 2002, and the consolidated results of their operations and their consolidated cash flows for the two years ended June 30, 2003, in conformity with accounting principles generally accepted in the United States of America.

Cenuco, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2003 and 2002

NOTE A - ORGANIZATION

Cenuco, Inc. and Subsidiaries (the "Company") (a Delaware Corporation) is engaged in the online distance learning industry with a focus on the international, mid-career adult and corporate training markets. The Company operates an online distance learning university and nutrition academy that offers licensed certificate and degree programs in a variety of concentrations to students in over 80 countries worldwide. The Company's businesses are primarily conducted under the names of Barrington University (the "School"), Cenuco and the Academy of Health Science and Nutrition (the "Academy"). The Company's administrative and sales office is located in Boca Raton, Florida and Mobile, Alabama.

The Alabama Department of Education licenses the School and the Florida Department of Education licenses the Academy. There are also arrangements with several international universities that confer dual degrees and certificates with the School whereas, based on the School's approval of the curriculum, a degree will be issued by the School upon completion of the students' studies at an international university.

Additionally, the Company established a technology subsidiary called Cenuco, Inc., a Florida corporation ("Cenuco"). Cenuco is a wholly-owned subsidiary that develops wireless e-learning platform and technologies in the academic, consumer and corporate marketplaces. We are also engaged in the development and sale of wireless solutions and web services, which include the development of business-to-business and business-to-consumer wireless applications, and state of the art web technology and design services, through our subsidiary.

On December 17, 2002, the Company changed its name to Cenuco, Inc. The Board of Directors of Virtual Academics.Com, Inc. recommended and the majority of the

Edgar Filing: CENUCO INC - Form 10KSB

shareholders approved the change of its name to Cenuco, Inc. to better reflect its business direction and operation. Reflecting the changing focus of its business, the Company has accelerated the development of its suite of fully integrated wireless solutions for the Security, Real Estate and Insurance markets.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The consolidated financial statements include the accounts of the Company and its subsidiaries, all of which are wholly owned. All significant intercompany accounts and transactions have been eliminated in consolidation.

CASH AND CASH EQUIVALENTS

For purposes of the statement of cash flows, the Company considers all highly liquid instruments purchased with a maturity of three months or less and money market accounts to be cash equivalents.

F-7

Cenuco, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
June 30, 2003 and 2002

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MANAGEMENT ESTIMATES

The preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Examples are the provision for doubtful accounts, unearned revenue, and prepaid and accrued recruiting fees. Actual results could differ from those estimates.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value of cash and cash equivalents, short-term tuition receivables and accounts payable approximate fair value due to the short term maturities of these instruments.

PROPERTY AND EQUIPMENT

Property and equipment are stated at cost. Depreciation and amortization are provided using the straight-line method over the estimated economic lives of the assets, which are from five to seven years. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred. Depreciation expense was \$38,027 and \$27,972 for the years ended June 30, 2003 and 2002, respectively.

INVENTORIES

Inventories, consisting of security cameras and equipment, are stated at the lower of cost or market utilizing the first-in, first-out method.

STOCK-BASED COMPENSATION

Edgar Filing: CENUCO INC - Form 10KSB

The Company accounts for stock options issued to employees in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. As such, compensation cost is measured on the date of grant as the excess of the current market price of the underlying stock over the exercise price. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant. The Company adopted the disclosure provisions of SFAS No. 123, "Accounting for Stock-Based Compensation" and SFAS 148, "Accounting for Stock-Based Compensation -Transition and Disclosure", which permits entities to provide pro forma net income (loss) and pro forma earnings (loss) per share disclosures for employee stock option grants as if the fair-valued based method defined in SFAS No. 123 had been applied. The Company accounts for stock options and stock issued to non-employees for goods or services in accordance with the fair value method of SFAS 123.

(continued)

F-8

Cenuco, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
June 30, 2003 and 2002

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

SHORT-TERM INVESTMENT

Short-term investment includes a certificate of deposit with a maturity of greater than three months.

REVENUE RECOGNITION

In connection with the development and sale of wireless solutions and web services, which include the development of business-to-business and business-to-consumer wireless applications, and state of the art web technology and design services, the Company recognizes revenue as services are performed or products are delivered.

The Company recognizes tuition and registration revenue based on the number of courses actually completed in each student's course of study. For example, if a student completes three out of his nine required courses, the Company will recognize 33% of the tuition regardless of the amount of time that the student has taken to fulfill these requirements.

Tuition refunds are based on the date that the student cancels and the policy is as follows: If the student withdraws within 5 calendar days after midnight of the day the student signs the Enrollment Agreement (Full Refund Period) the student will receive a full refund with no further obligation. If the student cancels after the Full Refund Period but before the school receives the first completed lesson, the student will be charged a registration fee of \$150 and the student will receive a full refund less the registration fee charge. If the student cancels after the school receives the first completed lesson, the student's tuition obligation will be their registration fee plus a portion of the remaining tuition as defined below.

Percentage of Course Completed -----	Amount of Tuition Obligated -----
10% of less	10% of tuition
Between 11% - 25%	25% of tuition
Between 26% - 50%	50% of tuition
Over 50%	Obligated for full tuition.

Edgar Filing: CENUCO INC - Form 10KSB

When a student withdraws, the Company writes off the remaining tuition receivable balance against the remaining unearned revenue balance and records a net increase or decrease to net revenues.

ADVERTISING

Advertising is expensed as incurred. Advertising expenses for the years ended June 30, 2003 and 2002 totaled \$103,698 and \$144,640, respectively.

F-9

Cenuco, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
June 30, 2003 and 2002

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

TUITION RECEIVABLE

The Company, in the ordinary course of business finances the tuition, without interest, over a period of up to twenty-four months. Because a significant part of the tuition is deferred, the Company does not impute interest with respect to receivables that mature in more than one year. Tuition receivables are stated at the amount of unpaid principal, reduced by an allowance for receivable loan losses. Provisions for estimated losses on student receivables are charged to income in amounts sufficient to maintain the allowance at a level considered adequate to cover the losses of tuition receivables based upon historical trends, economic conditions and other information.

RECRUITING FEES

Students learn about the School via the Internet or are recruited through a worldwide network of recruiters. Recruiters are paid recruiting fees upon receipt of tuition payment by the student. Recruiting fees are accrued for the tuition due the Company, and prepaid for the revenue that has been deferred. The Company amortizes recruiting fees using the same method as the Company recognizes the related tuition revenue and is based on the number of courses actually completed in each student's course of study.

RESEARCH AND DEVELOPMENT

Expenditures for software research and development are expensed as incurred. Such costs are required to be expensed until the point that technological feasibility of the software is established. Technological feasibility is determined after a working model has been completed. The Company's software research and development costs primarily relate to software development during the period prior to technological feasibility and are expensed as incurred. During fiscal 2003 and 2002, no software development costs were capitalized.

INCOME TAXES

Income taxes are accounted for under the asset and liability method of Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes ("SFAS 109"). Under SFAS 109 deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SFAS 109, the effect on deferred tax assets and liabilities of a change in tax rates

Edgar Filing: CENUCO INC - Form 10KSB

is recognized in income in the period that includes the enactment date. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

EARNINGS (LOSS) PER COMMON SHARE

Basic net earnings (loss) per share equals net earnings (loss) divided by the weighted average shares outstanding during the year. The computation of diluted net earnings per share does not include dilutive common stock equivalents in the weighted average shares outstanding as they would be antidilutive. The reconciliation between the computations is as follows:

	Net Loss	Basic Shares	Basic EPS
	-----	-----	-----
2003	\$ (1,289,182)	8,767,481	\$ (.15)
2002	\$ (124,179)	8,654,120	\$ (.01)

Not included in basic shares are stock options of 1,126,000 and 891,000 because they are anti-dilutive in 2003 and 2002, respectively.

The exercise prices of all options granted by the Company equal the market price at the dates of grant. No compensation expense has been recognized. Had compensation cost for the stock option plan been determined based on the fair value of the options at the grant dates consistent with the method of SFAS 123, "Accounting for Stock Based Compensation", the Company's net loss and loss per share would have been changed to the pro forma amounts indicated below for the year ended June 30, 2003 and 2002:

	2003	2002
	----	----
Net earnings		
As reported	\$ (1,289,182)	\$ (124,179)
Pro forma	(1,388,502)	(184,459)
Basic earnings per share		
As reported	(.15)	(.01)
Pro forma	(.16)	(.02)

The above pro forma disclosures may not be representative of the effects on reported net earnings for future years as options vest over several years and the Company may continue to grant options to employees.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions used for grants:

	2003	2002
	----	----
Dividend yield	0%	0%
Expected volatility range ..	71% to 81%	218% percent
Risk-free interest rate	4.50%	4.50%
Expected holding periods ...	5 years	5 years

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

RECENT ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board has recently issued several new accounting pronouncements:

Statement No. 146, "Accounting for Exit or Disposal Activities" ("SFAS 146") addresses the recognition, measurement, and reporting of cost that are associated with exit and disposal activities that are currently accounted for pursuant to the guidelines set forth in EITF 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to exit an Activity (including Certain Cost Incurred in a Restructuring)," cost related to terminating a contract that is not a capital lease and one-time benefit arrangements received by employees who are involuntarily terminated - nullifying the guidance under EITF 94-3. Under SFAS 146, the cost associated with an exit or disposal activity is recognized in the periods in which it is incurred rather than at the date the Company committed to the exit plan. The adoption of SFAS 146 did not have a material impact on the Company's financial position, results of operations or liquidity.

In December 2002, the FASB issued Statement of Financial Accounting Standards No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure. Statement 148 provides alternative methods of transition to Statement 123's fair value method of accounting for stock-based employee compensation. It also amends the disclosure provisions of Statement 123 and APB Opinion No. 28, Interim Financial Reporting, to require disclosure in the summary of significant accounting policies of the effects of an entity's accounting with respect to stock-based employee compensation on reported net income and earnings per share in annual and interim financial statements. Statement 148's amendment of the transition and annual disclosure requirements of Statement's 123 are effective for fiscal years ending after December 15, 2002. The adoption of the disclosure provisions of Statement 148 did not have a material impact on the Company's consolidated financial condition or results of operations.

In November 2002, the FASB issued FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" (FIN 45). FIN 45 requires that upon issuance of a guarantee, a guarantor must recognize a liability for the fair value of an obligation assumed under a guarantee. FIN 45 also requires additional disclosures by a guarantor in its interim and annual financial statements about the obligations associated with guarantees issued. The recognition provisions of FIN 45 are effective for any guarantees issued or modified after December 31, 2002. The adoption of this pronouncement does not have a material effect on the earnings or financial position of the Company.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

RECENT PRONOUNCEMENTS - continued

In January 2003, the FASB issued Interpretation No. 46 ("FIN 46"), "Consolidation of Variable Interest Entities." FIN 46 requires that if an entity has a controlling financial interest in a variable interest entity, the assets, liabilities and results of activities of the variable interest entity should be included in the consolidated financial statements of the entity. FIN 46 requires that its provisions are effective immediately for all arrangements entered into after January 31, 2003. The Company does not have any variable interest entities created after January 31, 2003. For those arrangements entered into prior to January 31, 2003, the FIN 46 provisions are required to be adopted at the beginning of the first interim or annual period beginning after June 15, 2003. The Company has not identified any variable interest entities to date and will continue to evaluate whether it has variable interest entities that will have a significant impact on its consolidated balance sheet and results of operations.

In January 2003, the EITF finalized a consensus on Issue No. 02-16, "Accounting by a Customer (Including a Reseller) for Cash Consideration Received from a Vendor." The Task Force concluded that cash consideration in excess of specific identifiable costs, including sales incentives, allowances, discounts, coupons, rebates and price reductions, when meeting certain criteria, constitute a reduction in vendor price, and should therefore be reflected as a reduction in cost of sales when the related merchandise is sold. The EITF concluded that this literature should be applied to new arrangements, including modifications of existing arrangements, entered into after December 31, 2002. We adopted EITF 02-16 as of January 1, 2003. The adoption of EITF 02-16 had an immaterial impact on our consolidated financial position and results of operations.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity." This statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. This statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective for the first interim period beginning after June 15, 2003, with certain exceptions. We plan to adopt SFAS No. 150 in the first quarter of Fiscal 2004. We do not expect the adoption of SFAS No. 150 to have a significant impact on our consolidated financial position or results of operations.

RECLASSIFICATIONS

Certain prior periods' balances have been reclassified to conform to the current period's financial statement presentation. These reclassifications had no impact on previously reported results of operations or stockholders' equity (deficit).

NOTE C - COMMITMENTS AND CONTINGENCIES

EMPLOYMENT AGREEMENTS

The Company entered into employment agreements with two of its executive officers for a 24-month period ending January 1, 2003, subject to automatic

Edgar Filing: CENUCO INC - Form 10KSB

renewals of 12-month terms unless terminated by the Company or the employee with 30-days' prior written notice. In addition to an annual salary of \$220,000 and \$85,000 for the President and Chief Executive Officer and the Chairman of the Board and Secretary, respectively, the agreements entitle the officers to receive options to purchase 100,000 shares of common stock of the Company each year of employment at fair market value. These options, a total of 200,000 options each for fiscal 2003 and 2002, were issued under the Company's stock option plan (see Note D). These options vest 1/3 per year, beginning one year from the date of grant. The agreements also provide for the receipt of an annual bonus at the discretion of the Board of Directors. During fiscal 2003, the Company's President and Chairman of the Board each received a discretionary bonus of 100,000 shares of common stock (See Note D).

LITIGATION

The Trade School Review Association had filed complaints against certain schools that are licensed by local state education departments outside California and on July 3, 2001, it filed against Barrington University in the Superior Court for the State of California for the County of San Diego. The association alleged in its complaint that the Company violated California's Private Postsecondary and Vocational Education Reform Act of 1989, California's false advertising statutes and California's Consumer Legal Remedies Act and sought an injunction against unlawful practices, disgorgement of profits, restitution and attorneys' fees, all in unspecified amounts. In April 2002, the court dismissed this case with Prejudice. The Company recorded a legal settlement fee of \$80,000 in fiscal 2002, which is included in general and administrative expenses. Under the term of the settlement, the Company must use its best efforts to obtain approval by February 2003 from the California Bureau for Private Postsecondary and Vocational Education to offer educational instruction to California students. If the Company fails to obtain this approval and can not convince a mediator that it used its best efforts, the Company must pay \$100,000. As of June 2003, the Company used its best efforts to obtain this approval and has not obtained the approval. The Company believes it has used its best efforts to obtain this approval and does not believe it has to pay the \$100,000 contingently due under the settlement agreement.

From time to time, the Company faces litigation in the ordinary course of business. Currently the Company is not involved with any litigation which will have a material adverse effect on its financial condition.

LEASES

The Company leases its Florida and Alabama offices under leases that expire through July 2005. The office lease agreements have certain escalation clauses and renewal options. Future minimum rental payments required under this operating lease is as follows:

Period Ended June 30, 2004	\$ 87,388
Period Ended June 30, 2005	80,951
Period Ended June 30, 2006	7,016

Rent expense for the twelve-month periods ended June 30, 2003 and 2002 was

Edgar Filing: CENUCO INC - Form 10KSB

\$89,288 and \$83,435, respectively.

NOTE D - STOCKHOLDERS' EQUITY

STOCK OPTIONS

On February 1, 2000, the Company adopted a stock option plan (the "2000 Performance Equity Plan"). A majority of the shareholders of the Company approved the Plan. The plan provides options exercisable for a maximum of 1,000,000 shares of common stock to be granted. Both incentive and nonqualified stock options may be granted under the Plan.

The exercise price of options granted pursuant to this plan is determined by a committee but may not be less than 100% of the fair market value on the day of grant. For holders of 10% or more of the combined voting power of all classes of the Company's stock, options may not be granted at less than 110% of the fair value of the common stock at the date of grant and the option may not exceed 5 years. There were no options exercised during the fiscal years 2003 and 2002. There were 275,000 and 0 options forfeited during fiscal 2003 and fiscal 2002, respectively. The exercise prices of all options granted by the Company equal the market price at the dates of grant. No compensation expense has been recognized.

A summary of the status of the Company's outstanding stock options as of June 30, 2003 and 2002 and changes during the year ending on that date is as follows:

STOCK OPTIONS - continued

The exercise price of all options granted by the Company equals the market price at the date of grant. Accordingly, no compensation expense has been recognized on options granted to employees and directors.

On December 19, 2001, the Company granted options to purchase 20,000 shares of common stock to non-employee directors. The options expire on December 19, 2011 and are exercisable at \$.35 per share, which was the fair market value of the common stock at the grant date. Accordingly, under APB 25, no compensation expense was recognized.

On December 19, 2001, the Company granted options to purchase 200,000 shares of

Edgar Filing: CENUCO INC - Form 10KSB

common stock to certain employees of the Company. The options are exercisable at \$.35 per share, which was the fair market value of the common stock at the grant date. Accordingly, under APB 25, no compensation expense was recognized.

On August 29, 2002, the Company granted options to purchase 240,000 shares of common stock to certain employees of the Company of which 20,000 was cancelled during fiscal 2003. The options are exercisable at \$.42 per share, which was the fair market value of the common stock at the grant date. Accordingly, under APB 25, no compensation expense was recognized.

On August 29, 2002, the Company granted options to purchase 20,000 shares of common stock to non-employee directors. The options expire on August 29, 2012 and are exercisable at \$.42 per share, which was the fair market value of the common stock at the grant date. Accordingly, under APB 25, no compensation expense was recognized.

On January 7, 2003, the Company granted options to purchase 10,000 shares of common stock to an employee of the Company. The options are exercisable at \$1.55 per share, which was the fair market value of the common stock at the grant date. Accordingly, under APB 25, no compensation expense was recognized.

On January 7, 2003, the Company granted options to purchase 40,000 shares of common stock to consultants for services rendered and to be rendered through December 2003. The options expire on January 7, 2013 and are exercisable at \$1.55 per share, which was the fair market value of the common stock at the grant date. These options were valued using the Black-Scholes pricing method at a fair value of \$1.30 per option. Accordingly, the Company recorded consulting expense of \$26,000 and deferred compensation of \$26,000 that will be amortized over the service period.

NOTE D - STOCKHOLDERS' EQUITY - Continued

COMMON STOCK

On December 31, 2002, the Board of Directors authorized the issuance of 85,714 shares of common stock to employees as a year-end bonus. The shares were valued at \$.35 per share or an aggregate of \$30,000, which was charged to compensation expense at the grant date.

On January 15, 2002, the Company issued 5,956 shares of common stock to a consultant to settle debt of \$4,500, which was outstanding as of December 31, 2001 for services previously rendered.

During April 2002, the Company issued 180 shares of common stock to a consultant for services rendered. The shares were valued at \$.37 per share or an aggregate of \$67, which was charged to consulting expense.

During April 2002, the Company issued 5,000 shares of common stock to an employee for services rendered. The shares were valued at \$.37 per share or an aggregate of \$1,851, which was charged to compensation expense.

On December 3, 2002, the Company issued 13,290 shares of common stock to consultants for services rendered. Such shares were valued at their market value on the date of issuance at \$1.39 per share. Accordingly, the Company recorded

Edgar Filing: CENUCO INC - Form 10KSB

consulting expense of \$18,474 related to the consulting services.

On April 11, 2003, the Company issued an aggregate of 200,000 shares of common stock to its President and to its Chairman of the Board as a discretionary bonus. Such shares were valued at their market value on the date of issuance at \$.82 per share. Accordingly, the Company recorded non-cash compensation of \$164,000 related to this bonus.

On April 11, 2003, the Company issued 66,304 shares of common stock to directors, and consultants for services rendered. Such shares were valued at their market value on the date of issuance at \$.82 per share. Accordingly, the Company recorded non-cash compensation of \$24,600 and consulting expense of \$29,769 related to the services performed.

NOTE E - INCOME TAXES

Deferred tax assets and liabilities are provided for significant income and expense items recognized in different years for tax and financial reporting purposes. Temporary differences, which give rise to a net deferred tax asset is as follows:

(continued)
F-18

Cenuco, Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
June 30, 2003 and 2002

NOTE E - INCOME TAXES - Continued

	2003	2002
	-----	-----
Deferred tax benefits (liability) - current		
Allowance for doubtful accounts	\$ 175,940	\$ 105,854
Deferred tax benefits - noncurrent		
Depreciation	-	472
Net operating loss carryforward	361,000	46,830
	-----	-----
Total deferred tax assets	536,940	153,156
Less: Valuation allowance	(536,940)	-
	-----	-----
	\$ -	\$ 153,156
	=====	=====

As of June 30, 2002, the Company did not record a valuation allowance on the deferred tax assets because the Company's ability to realize these benefits was "more likely than not". The deferred tax asset was reported in the accompanying balance sheet at June 30, 2002. As a result of continuing losses in the wireless segment, the net deferred taxes have been fully offset by a valuation allowance at June 30, 2003 since the Company cannot currently conclude that it is more likely than not that the benefits will be realized. The net operating loss carryforward for income tax purposes of approximately \$950,000 expires beginning in 2017. Internal Revenue Code Section 382 places a limitation on the amount of taxable income that can be offset by carryforwards after a change in control (generally greater than a 50% change in ownership).

The table below summarizes the differences between the Company's effective tax rate and the statutory federal rate as follows for fiscal 2003 and 2002:

2003	2002
-----	-----

Edgar Filing: CENUCO INC - Form 10KSB

Computed "expected" tax expense (benefit) .	(34.0%)	(34.0%)
State income taxes	(4.0%)	-
Other permanent differences	8.0%	3.0 %
Change in valuation allowance	43.5%	-
	-----	-----
Effective tax rate	13.5%	(20.5%)
	=====	=====

The valuation allowance at June 30, 2003 was \$536,940. The increase during 2003 was \$536,940.

NOTE F - RELATED PARTY TRANSACTIONS

The Company's Chairman of the Board and Secretary, is the majority shareholder of a consulting company that renders Internet consulting services to the Company. During the years ended June 30, 2003 and 2002, fees paid to the consulting company amounted to approximately \$73,000 and \$57,600, respectively, and are included as part of administrative expenses.

NOTE G - SEGMENT INFORMATION

In fiscal 2003 and 2002, the Company operates in two reportable business segments - (1) the online distance learning industry and (2) the development and sales of wireless solutions and web services. The online distant learning segment provides internet education to student internationally. The latter segment includes development of business-to- business and business-to-consumer wireless applications, and state of the art web technology and design services. The Company's reportable segments are strategic business units that offer different products, which compliment each other. They are managed separately based on the fundamental differences in their operations. Information with respect to these reportable business segments for the year ended June 30, 2003 and 2002 is as follows:

	For the Year Ended June 30,	
	2003	2002
