HQ GLOBAL EDUCATION INC.
(FORMERLY GREEN STAR MINING CORP.)
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. ORGANIZATION AND BASIS OF PRESENTATION

HQ Global Education Inc. ("the Company"), formerly known as Green Star Mining Corp., was incorporated under the laws of the State of Delaware on January 22, 2008. On February 8, 2010, the Company acquired all of the outstanding capital stock of Risetime Group Limited ("Risetime"), a BVI business company incorporated in British Virgin Islands on December 17, 2007. Risetime owns 100% of the equity of Xiangtan Nicestar Business Administration Co., Ltd. ("Xiangtan Nicestar") through its 100% subsidiary, Global Education International Ltd. ("GEI"), an investment holding company incorporated in Hong Kong on November 15, 2007. Xiangtan Nicestar is a wholly foreign owned enterprise incorporated in Xiangtan City, Hunan Province, People's Republic of China on September 30, 2009 and is primarily engaged in providing business administration, planning and consulting services. Substantially all Risetime and GEI's operations are conducted in China through Xiangtan Nicestar, and through contractual arrangements with Xiangtan Nicestar's consolidated affiliated entities in China, including Hunan Oya Education Technology Co., Ltd. ("Oya") and Oya's subsidiaries and variable interest entities ("VIEs"). Oya is a company incorporated in Changsha City, Hunan Province, People's Republic of China ("PRC") on November 20, 2008 is primarily engaged in providing vocational education service and vocational skills training service.

In connection with the acquisition, the Company issued 20,500,000 shares of common stock to the shareholder of Risetime in exchange for all of the capital stock of Risetime (the "Share Exchange" or "Merger"). Upon the completion of the Merger, the shareholders of Risetime own approximately 62.12% of the issued and outstanding capital stock of the Company and consequently control the business and operation of the Company.

The acquisition was accounted for as a reverse merger under the purchase method of accounting since there was a change of control. Accordingly, Risetime and its subsidiaries will be treated as the continuing entity for accounting purposes.

In March 2010, subsequent to the end of the second quarter of fiscal year 2010, Green Star Mining Corp. changed its name to HQ Global Education Inc. to more effectively reflect the Company's business and communicate the Company's brand identity to customers.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Edgar Filing: HQ Global Education Inc. - Form 10-Q

Note 1. ORGANIZATION AND BASIS OF PRESENTATION (Continued)

On July 28, 2009, Oya entered into certain exclusive agreements with Changsha Huanqiu Vocational Secondary School ("Changsha Huanqiu") and Shaoshan Huanqiu Vocational Technical Secondary School ("Shaoshan Huanqiu") and their shareholders. Pursuant to these agreements, Oya provides exclusive consulting and other general business operation services to Changsha Huanqiu and Shaoshan Huanqiu in exchange for substantially all net income of Changsha Huanqiu and Shaoshan Huanqiu. Oya has the right to appoint all senior management personnel of Changsha Huanqiu and Shaoshan Huanqiu.

On November 28, 2009, Xiangtan Nicestar entered into certain exclusive agreements with Oya and its shareholders. Pursuant to these agreements, Xiangtan Nicestar provides exclusive consulting and other general business operation services to Oya in exchange for all net income of Oya. All voting rights of Oya are assigned to Xiangtan Nicestar and Xiangtan Nicestar has the right to appoint all directors and senior management personnel of Oya. In addition, Oya's shareholders have pledged their equity interest in Oya to Xiangtan Nicestar as collateral for the fees for consulting and other services due to Xiangtan Nicestar.

As a result of these contractual arrangements, which obligates Oya to absorb a majority of the risk of loss from Changsha Huanqiu and Shaoshan Huanqiu's activities and enable Oya to receive a majority of its expected residual returns, Oya accounts for Changsha Huanqiu and Shaoshan Huanqiu as variable interest entities under ASC 810-10, "Consolidation". Accordingly, Oya has included the accounts of Changsha Huanqiu and Shaoshan Huanqiu in its condensed consolidated financial statements. For the same reason, Xiangtan Nicestar accounts for Oya as a VIE and includes Oya's accounts in its condensed consolidated financial statements.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of the management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation have been included. These condensed consolidated financial statements and notes should be read in conjunction with the consolidated financial statements and notes thereto included in our Current Report on Form 8-K filed with the Securities and Exchange Commission on February 12, 2010. Operating results for the nine and three months ended May 31, 2010 and 2009 are not necessarily indicative of the results that may be expected for the full years.

HQ GLOBAL EDUCATION INC.
(FORMERLY GREEN STAR MINING CORP.)
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION

The condensed consolidated financial statements include the financial statements of the Company, Risetime, GEI, Xiangtan Nicestar, Oya, as well as Oya's subsidiaries and VIEs. All significant inter-company balances and transactions are eliminated in consolidation.

USE OF ESTIMATES

Edgar Filing: HQ Global Education Inc. - Form 10-Q

The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes, and disclosure of contingent liabilities at the date of the condensed consolidated financial statements. Estimates are used for, but not limited to, the selection of the useful lives and residual values of property and equipment and intangible assets, provision necessary for contingent liabilities, fair values, revenue recognition, budgeted costs and other similar charges. Management believes that the estimates utilized in preparing its condensed consolidated financial statements are reasonable and prudent. Actual results could differ from these estimates.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments with original maturities of three months or less when purchased to be cash equivalents. The Company maintains uninsured cash and cash equivalents with various banks in the PRC.

8

HQ GLOBAL EDUCATION INC.
(FORMERLY GREEN STAR MINING CORP.)
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Company has not experienced any losses in such accounts and management believes it is not exposed to any risks on its cash in bank accounts.

ACCOUNTS RECEIVABLE

Accounts receivable consists of balances due from the enterprises for the education services provided and due from China Overseas-Educated Scholars Development Foundation and Poverty Alleviation and Development Offices of related provinces for tuition revenues. Accounts receivable are recorded at net realizable value consisting of the carrying amount less an allowance for uncollectible amounts.

The Company does periodical reviews as to whether the carrying values of accounts have become impaired. The assets are considered to be impaired if the collectability of the balances become doubtful, accordingly, the management estimates the valuation allowance for anticipated uncollectible receivable balances. When facts subsequently become available to indicate that the allowance provided requires an adjustment, then the adjustment will be classified as a change in estimate. As of May 31, 2010 and August 31, 2009, the allowance for doubtful accounts was \$55,836.

ADVANCES TO VENDORS

Advances to vendors consist of balances paid for materials for construction of classrooms and related teaching facilities that have not been provided to or received by the Company. Advances to vendors are reviewed periodically to determine whether their carrying value has become impaired. The Company considers the assets to be impaired if the collectability of the services and materials become doubtful. Advances to vendors as of May 31, 2010 and August 31, 2009 amounted to \$4,041,259 and \$2,375,364, respectively. The Company has determined that no reserve is necessary for the nine months ended May 31, 2010 and 2009.

HQ GLOBAL EDUCATION INC.
(FORMERLY GREEN STAR MINING CORP.)
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost less accumulated depreciation and any impairment losses. The cost of an asset comprises of its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the fixed assets have been put into operation, such as repairs and maintenance and overhaul costs, is normally charged to the profit and loss account in the year in which it is incurred.

In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefit expected to be obtained from the use of the asset beyond its originally assessed standard of performances, the expenditure is capitalized as an additional cost of the asset.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, less any estimated residual value. Estimated useful lives of the assets are as follows:

Teaching and dormitory facilities	10 - 30 years
Educational equipments and books	5 years
Office equipments and other equipments	5 years
Automobiles	5 years

Any gain or loss on disposal or retirement of a fixed asset is recognized in the profit and loss account and is the difference between the net sales proceeds and the carrying amount of the relevant asset. When property and equipment are retired or otherwise disposed of, the assets and accumulated depreciation are removed from the accounts and the resulting profit or loss is reflected in income.

HQ GLOBAL EDUCATION INC.
(FORMERLY GREEN STAR MINING CORP.)
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

CONSTRUCTION-IN-PROGRESS

The Company constructs certain of its property and equipment. In addition to cost under the construction contracts, external costs directly related to the construction of such facilities, including equipment installation and shipping costs, are capitalized. Depreciation is recorded at the time assets are placed in service.

INTANGIBLE ASSETS

Intangible assets are accounted for in accordance with the provisions of ASC 350, "Goodwill and Other Intangible Assets". Under ASC 350, intangible asset included in the carrying value of investments accounted for using the equity

Edgar Filing: HQ Global Education Inc. - Form 10-Q

method of accounting, and certain other intangible assets deemed to have indefinite useful lives are not amortized. Indefinite-lived intangible assets are assessed for impairment at least annually based on comparisons of their respective fair values to their carrying values. Intangible assets with a defined useful life are amortized over their useful lives.

IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with ASC 360, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company is required to review its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable through the estimated undiscounted cash flows expected to result from the use and eventual disposition of the assets. Whenever any such impairment exists, an impairment loss will be recognized for the amount by which the carrying value exceeds the fair value.

The Company tests long-lived assets, including property, plant and equipment and other assets, for recoverability at least annually or more frequently upon the occurrence of an event or when circumstances indicate that the net carrying amount is greater than its fair value. Assets are grouped and evaluated at the lowest level for their identifiable cash flows that are largely independent of the cash flows of other groups of assets. The Company considers historical performance and future estimated results in its evaluation of potential impairment and then compares the carrying amount of the asset to the future estimated cash flows expected to result

11

from the use of the asset. If the carrying amount of the asset exceeds estimated expected undiscounted future cash flows, the Company measures the amount of impairment by comparing the carrying amount of the asset to its fair value. The estimation of fair value is generally determined by using the asset's expected future discounted cash flows or market value. The Company estimates fair value based on the information available in making whatever estimates, judgments and projections are considered necessary. There was no impairment of long-lived assets during the nine months ended May 31, 2010 and 2009.

UNEARNED REVENUES

Unearned revenues represent amounts received from students for tuition and service fee relating to the outside-school practice service. The Company recognizes these funds as a current liability until the revenue can be recognized. The balance of unearned revenues is not refundable.

REVENUE RECOGNITION

The Company's revenue policies are in compliance with the provision of ASC 605 "Revenue Recognition". The Company recognizes revenue when the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the services have been rendered, (iii) the fees are fixed or determinable and (iv) collection of the resulting receivable is reasonably assured.

Details are as follows:

- (a) Tuition revenue received for educational programs and services is

Edgar Filing: HQ Global Education Inc. - Form 10-Q

recognized proportionately according to the progress the students complete regarding educational programs in the school. Tuition paid in advance is recorded as unearned revenues.

- (b) The Company provides off-campus internship arrangement for students and collects service charges at fixed amount from both recruiters and students. Revenue is recognized upon completion of the internship program.
- (c) The Company provides other services mainly logistic services for students and the revenue from such services is recognized upon completion of the service.

12

HQ GLOBAL EDUCATION INC.
(FORMERLY GREEN STAR MINING CORP.)
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

INCOME TAXES

The Company accounts for income taxes using an asset and liability approach which allows for the recognition and measurement of deferred tax assets based upon the likelihood of realization of tax benefits in future years. Under the asset and liability approach, deferred taxes are provided for the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. A valuation allowance is provided for deferred tax assets if it is more likely than not these items will either expire before the Company is able to realize their benefits, or that future deductibility is uncertain.

The Company records a valuation allowance for deferred tax assets, if any, based on its estimates of its future taxable income as well as its tax planning strategies when it is more likely than not that a portion or all of its deferred tax assets will not be realized. If the Company is able to utilize more of its deferred tax assets than the net amount previously recorded when unanticipated events occur, an adjustment to deferred tax assets would increase the Company's net income when those events occur. The Company had no deferred tax items as of May 31, 2010 and August 31, 2009.

SELLING, GENERAL AND ADMINISTRATIVE COSTS

Selling, general and administrative costs consist primarily of salaries and commissions for sales representatives, salaries for administrative staffs, rent expenses, depreciation expense and employee benefits for administrative staffs.

COMPREHENSIVE INCOME

ASC 220, "Comprehensive Income" requires disclosure of all components of comprehensive income and loss on an annual and interim basis. Comprehensive income and loss is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. Accumulated other comprehensive income arose from the changes in foreign currency exchange rates.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

STATEMENT OF CASH FLOWS

In accordance with ASC 230, "Statement of Cash Flows," cash flows from the Company's operations is calculated based upon the local currencies. As a result, amounts related to assets and liabilities reported on the statements of cash flows will not necessarily agree with changes in the corresponding balances on the balance sheets.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial instruments include cash and cash equivalents, accounts receivable, advances to suppliers, other receivables, accounts payable, accrued expenses, taxes payable, notes payable and other loans payable. Management has estimated that the fair value of these financial instruments approximate their carrying amounts due to the short-term nature. The fair value of long-term loans also approximate their recorded value because the interest rates charged under the loan terms are not substantially different than current interest rates..

EARNINGS PER SHARE

The Company computes earnings per share ("EPS") in accordance with ASC 260, "Earnings Per Share", which requires companies with complex capital structures to present basic and diluted EPS. Basic EPS is measured as net income divided by the weighted average common shares outstanding for the period. Diluted EPS is similar to basic EPS but presents the dilutive effect on a per share basis of potential common shares (e.g., convertible securities, options and warrants) as if they had been converted at the beginning of the periods presented, or issuance date, if later. Potential common shares that have an anti-dilutive effect (i.e., those that increase income per share or decrease loss per share) are excluded from the calculation of diluted EPS.

FOREIGN CURRENCY TRANSLATION

The Company's condensed consolidated financial information is presented in US dollars. In accordance with ASC 830, "Foreign Currency Matters", an entity's functional currency is the currency of the primary economic environment in which the entity operates; normally, that is the currency of the environment in which an entity primarily generates and expends cash. Since substantially all operations of the Company are conducted in the PRC, the functional currency of the Company is Renminbi ("RMB"), the currency of the PRC. Transactions at the Company which are denominated in currencies other than RMB are translated into RMB at the exchange rate quoted by the People's Bank of China prevailing at the dates of the transactions. Exchange gains and losses resulting from transactions denominated in a currency other than that RMB are included in statements of operations as exchange gains. The condensed consolidated financial statements of the Company have been translated into U.S. dollars in accordance with ASC 830, "Foreign Currency Matters". The financial information is first prepared in RMB and then is translated into U.S. dollars at period-end exchange rates as to assets and liabilities and average exchange rates as to revenue and expenses. Capital accounts are translated at their historical exchange rates when the

Edgar Filing: HQ Global Education Inc. - Form 10-Q

capital transactions occurred. The effects of foreign currency translation adjustments are included as a component of accumulated other comprehensive income in shareholders' equity.

CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Company to concentration of credit risk consist primarily of accounts receivable and other receivables. The Company does not require collateral or other security to support these receivables. The Company conducts periodic reviews of its clients' financial condition and customer payment practices to minimize collection risk on accounts receivable.

RISKS AND UNCERTAINTIES

The operations of the Company are located in the PRC. Accordingly, the Company's business, financial condition, and results of operations may be influenced by the political, economic, and legal environments in the PRC, as well as by the general state of the PRC economy.

The Company's operations in the PRC are subject to special considerations and significant risks not typically associated with companies in North America and Western Europe. These include risks associated with, among others, the political, economic and legal environment and foreign currency exchange. The Company's results may be adversely affected by changes in the political and social conditions in the PRC, and by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion, remittances abroad, and rates and methods of taxation, among other

RECENT ACCOUNTING PRONOUNCEMENTS

In January 2010, FASB amended ASC 820 Disclosures about Fair Value Measurements. This update provides amendments to Subtopic 820-10 that requires new disclosure as follows: 1) Transfers in and out of Levels 1 and 2. A reporting entity should disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers. 2) Activity in Level 3 fair value measurements. In the reconciliation for fair value measurements using significant unobservable inputs (Level 3), a reporting entity should present separately information about purchases, sales, issuances, and settlements (that is, on a gross basis rather than as one net number). The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The Company has determined the adoption of this rule does not have a material impact on its condensed consolidated financial statements.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In January 2010, FASB amended Accounting for Distributions to Shareholders with Components of Stock and Cash. The amendments in this Update clarify that the stock portion of a distribution to shareholders that allows them to elect to receive cash or stock with a potential limitation on the total amount of cash that all shareholders can elect to receive in the aggregate is considered a share issuance that is reflected in EPS prospectively and is not a stock dividend for purposes of applying Topics 505 and 260 (Equity and Earnings Per Share). The amendments in this update are effective for interim and annual periods ending on or after December 15, 2009, and should be applied on a retrospective basis. The Company does not expect the adoption of this rule to have a material impact on its condensed consolidated financial statements.

Note 10. TAXES

(A) CORPORATION INCOME TAX ("CIT") AND BUSINESS TAX

The Company is governed by the Income Tax Law of the People's Republic of China concerning the private-run enterprises, which are generally subject to tax at a statutory rate of 25% on income reported in the statutory financial statements after appropriate tax adjustments. The applicable business tax rate for educational service is currently 5%.

The PRC government also provides various incentives to companies that engage in the development of vocational education. Such incentives include reduced tax rates, tax exemptions and other measures. According to Law of the People's Republic of China on Promotion of Privately-run Schools, implemented from September 1, 2003, and the Notice of Tax Policy for Education Activities (Caishui [2004] No.39), issued and became effective on February 5, 2004, some specific enterprises, organizations and schools could enjoy the same tax incentives as the schools run by the government, and could be exempt from business tax and income tax accordingly. As long as the operation of the Company meets the requirements of the regulations aforementioned, the Company is therefore exempt from business tax and income tax.

No income tax and business tax were provided for the reporting period in accordance with the regulations of the relevant taxing authorities.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain statements in Management's Discussion and Analysis ("MD&A"), other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally are identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "plan," "may," "should," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties, which may cause actual results to differ materially from the forward-looking statements. A detailed discussion of risks and uncertainties that could cause actual results and events to differ materially from such forward-looking statements is included in this report or other reports

Edgar Filing: HQ Global Education Inc. - Form 10-Q

or documents we file with the Securities and Exchange Commission from time to time. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events, or otherwise. The condensed consolidated financial statements and notes should be read in conjunction with the consolidated financial statements and notes thereto included in our Current Report on Form 8-K filed with the Securities and Exchange Commission on February 12, 2010.

OVERVIEW

HQ Global Education Inc. (the "Company", "we", or "us"), formerly known as Green Star Mining Corp., was incorporated under the laws of the State of Delaware on January 22, 2008. Currently, the Company's common stock is trading on the OTC ("Over-the Counter") Bulletin Board under the ticker HQGE.OB.

We provide vocational education and vocational training services to a varied student population throughout China. As further described below, we generate revenue from tuition, school logistics services, and off-campus internship management fees.

OUR HISTORY AND CORPORATE STRUCTURE

On February 11, 2010, we completed a reverse merger ("Reverse Acquisition") by acquiring all of the outstanding capital stock of Risetime Group Limited ("Risetime"), a company incorporated in the British Virgin Islands on December 17, 2007. In connection with the Reverse Acquisition, we issued 20,500,000 shares of common stock to the sole shareholder of Risetime in exchange for all of the capital stock of Risetime. Upon the completion of Reverse Acquisition, the shareholders of Risetime own approximately 62.12% of the issued and outstanding capital stock of the Company and consequently control the business and operations of the Company. The Reverse Acquisition was accounted for as a reverse merger under the purchase method of accounting since there was a change of control. Accordingly, Risetime and its subsidiaries will be treated as the continuing entity for accounting purposes.

Risetime, through its wholly owned subsidiary, Global Education International Ltd. ("GEI"), a holding company incorporated in Hong Kong, owns 100% of the equity of Xiangtan Nicestar Business Administration Co, Ltd. ("Xiangtan Nicestar"). Xiangtan Nicestar is a wholly foreign owned enterprise (WFOE) formed in Xiangtan City, Hunan Province, People's Republic of China ("PRC") on September 30, 2009.

Due to restrictions on the foreign ownership of certain education businesses, we conduct our business through arrangements with our Chinese subsidiaries, as well as our variable interest entities ("VIEs"). Xiangtan Nicestar has a series of contractual arrangements with Hunan Oya Education Technology Co., Ltd. ("Oya") and Oya has similar contractual arrangements with its VIEs. We direct these VIEs business affairs and receive substantially all of their net income through our contractual arrangements. We believe these contractual arrangements give us effective control over the business of Oya and its VIE entities.

Our current Chinese VIEs are:

Hunan Oya Education Technology Co., Ltd. ("Oya") Pursuant to the agreements between Xiangtan Nicestar and Oya and its shareholders, we exercise effective control over Oya, and receive all the revenue from Oya in exchange for the consulting and management services provided by Xiangtan Nicestar. Xiangtan Nicestar also has an exclusive option to purchase all or part of the equity interests in Oya to the extent permitted by PRC laws.

Edgar Filing: HQ Global Education Inc. - Form 10-Q

Changsha Huanqiu Vocational Secondary School ("Changsha Huanqiu"). Pursuant to the agreements between Oya and Changsha Huanqiu and its shareholders, we provide consulting and other general business operation services to Changsha Huanqiu on an exclusive basis in exchange for substantially all net income of Changsha Huanqiu. We also have the right to appoint all senior management of Changsha Huanqiu.

Shaoshan Huanqiu Vocational Technical Secondary School ("Shaoshan Huanqiu") Pursuant to the agreements between Oya and Shaoshan Huanqiu and its shareholders, we provides consulting and other general business operation services to Shaoshan Huanqiu on an exclusive basis in exchange for substantially all net income of Shaoshan Huanqiu. We also have the right to appoint all senior management of Shaoshan Huanqiu.

OUR BUSINESS

As of May 31, 2010, we operate nine (9) schools and have an aggregate of 2,864 faculty members and 34,477 students. The nine schools we operate are Changsha Huanqiu in Hunan Province, Shaoshan Huanqiu in Hunan Province, Shaoshan Vocational Secondary School in Hunan Province, Yingjing Vocational School in Sichuan Province, Tianquan Vocational School in Sichuan Province, Shimian Vocational School in Sichuan Province, Lushan Vocational School in Sichuan Province and Shaoyang Industrial Vocational Technical School in Hunan Province and Tianzhen No.2 Secondary School in Shanxi Province. We own Changsha Huanqiu and Shaoshan Huanqiu. We operate the remaining seven schools via exclusive business cooperation agreements, pursuant to which we operate the schools by utilizing the schools' facilities and fixed assets, manage the teachers and place the graduates to enterprise clients and in return we are entitled to 100% of the net income from these schools. We established cooperation relationships with approximately 120 enterprise clients to which we place students for the off-campus internship program and provide training to the clients' employees. For the nine months ended May 31, 2010, the employment rate remained 100% for the students who graduated from our vocational programs.

On May 27, 2010, we entered into an exclusive business cooperation agreement with Dongying Shengli Maritime School in Shandong Province ("Dongying Maritime School") to launch full-scale maritime training services. The agreement became effective on June 12, 2010 and will be valid for ten (10) years. Under the agreement, we shall operate the school by utilizing the teaching facilities and equipment and in return we are entitled to receive 80% of its net income.

ORDER-ORIENTED EDUCATION

"Order-oriented Education", or customized education, was created by Mr. Guangwen He, our Chief Executive Officer, and currently is our main business model. Under Order-oriented Education, we enter into cooperative agreements with enterprise clients who place orders for qualified employees with us. We then recruit students and provide them with a customized curriculum based on the enterprise client's needs and place qualified students in compliance with the clients' specific requirements. We provide the "order-oriented education" or "customized education" to students through our own private schools or cooperating with selected public or private schools in China.

We divide our teaching calendar into two semesters per year. Our most recent teaching semester lasted from March 1, 2010 to August 31, 2010. During this semester, we offered a total of around 60 programs under 17 categories to 34,477 students. Revenue generated from the students' tuition is recognized proportionately within each semester.

During winter and summer break, off-campus internships are provided to students. Our teachers work as the team leaders for these students who are sent

Edgar Filing: HQ Global Education Inc. - Form 10-Q

to different enterprises in groups. Such on-site practice help students understand the business, the production process, management model and position requirements. As a result, students are prepared for their positions without further training once they are placed with the enterprise clients.

We receive commissions from the enterprise clients for placing intern students with them. The amount of commission is based on the number of students an enterprise client receives. We also receive management fees from the intern students at a monthly fixed rate based on the duration of their internship. Such revenue is recognized upon the completion of the internship arrangement.

Upon graduation, students are usually hired by the same enterprise client with which they interned. In such instances, we will receive placement fees from the students. We also receive fees from enterprise clients at a fixed amount for each student the clients hire.

SOURCE OF STUDENTS

As of May 31, 2010, we have approximately 34,477 students from more than 22 provinces and 26 nationalities. The enrolled students include graduates from junior high schools, senior high schools and junior colleges, unemployed young people and rural labor force. There are two main source of recruitment, public schools and government subsidized students.

We recruit students from public schools where the students can choose to enroll into our schools when they graduate from junior high school or senior high school. We select students who wish to enroll into our schools based on certain criteria, including their scores in the provincial exams and their performance in the interview.

We also have government-subsidized students enrolled in our schools under the central government's "Rain-dew Plan o Tengfei Project". On December 28, 2007, the State Council Leading Group's Office of Poverty Alleviation and Development of PRC ("Poverty Alleviation Office") launched "Rain-dew Plan o Take-off Project" (the "Project"). The Poverty Alleviation Office works with the China Overseas Scholarship Development Foundation in Hunan Province and several other provinces to enable the financially burdened junior school graduates to receive continuing education. Our school in Changsha has been one of the educational program providers under the Project since the second semester of 2008. The Project provides an important source of our students. During the first year of the Project, 5,310 students were enrolled from 18 cities or areas. The number of students from the Project increased to 11,673 in the second semester of 2010 and is expected to increase further in the coming years. Students under the Project are placed at enterprise clients located in the Yangtze River Delta and Pearl River Delta after they finish the one-to-three year vocational or technical training programs in our schools. Poverty Alleviation Office's provincial counterparts provide full subsidies for the students' tuition and miscellaneous fees. Students are responsible for their own living and travel expenses.

ENTERPRISE CLIENTS

As of May 31, 2010, we have established cooperative relationships with approximately 120 enterprises to place our students and/or make various training courses available to their employees. These employers are mainly located in the economic centers of China, namely, Yangtze River Delta (ranging from Shanghai to Nanjing, Hangzhou, Wuxi, Ningbo and other coastal areas), the Pearl River Delta (ranging from Shenzhen to Dongguan, Guangzhou, Huizhou, Panyu, Qingyuan, Shaoguan and other coastal areas). Our top enterprise clients include Fuji Xerox Technology (Shenzhen) Co., Ltd., Flextronics (Zhuhai) Co., Ltd., Dongguan

BUSINESS STRATEGY

Under economic globalization, enterprises in China are expanding faster than ever and this has resulted in a serious shortage of skilled personnel. According to the National Guideline on Medium and Long-Term Program for Education Reform and Development 2010-2020 issued by the Central Government, the number of secondary vocational students is expected to reach 22.5 million by the end of 2015 and 23.5 million by the end of 2020. Management believes this provides favorable opportunities for the development of our business.

For the following twelve months, HQ Global will continue to grow its business to provide vocational training and desirable job opportunities for more students. Our business development plan is as follows

- * Under the Order-oriented Education mode, we expect to build new teaching facilities in our existing schools so as to expand the capacity of student enrollment. Meanwhile, we are expecting to cooperate with 2-4 vocational or technical schools in the financial year 2011, and with 10-12 vocational or technical schools in the coming five years in the inland provinces, such as Yunnan Province, Liaoning Province, Guangxi Province, Guizhou Province, Anhui Province, Hunan Province and so on, in addition to the ten schools (including Dongying Shengli Maritime School in Shandong Province which we started in this June) we operate currently.
- * We plan to cooperate with more maritime schools in Fujian Province and Qingdao City in Shandong Province to reinforce the training of maritime talents.
- * We plan to establish cooperative relationships with more enterprises and actively promote the Order-oriented Education mode.
- * We will further develop our program and curriculum to be offered to different types of students including high school graduates, unemployed young people, enterprise employees and rural labor force.
- * We will launch the "Online Education" where we provide remote education program via dedicated Internet platform and "Continuing Education" where we provide continuing education to employed people.

CRITICAL ACCOUNTING POLICIES AND MANAGEMENT ESTIMATES

The discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect our reported assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We evaluate our estimates on an on-going basis and use them on historical experience and various other assumptions that are believed to be reasonable under the circumstances as the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates because of different assumptions or conditions.

RESULTS OF OPERATIONS FOR THE THREE AND NINE MONTHS ENDED MAY 31, 2010 AND 2009

The following table summarizes our operating results for the three months and nine months ended May 31, 2010 and 2009, respectively:

Net income	5,548,960	2,435,720	3,113,240	127.82	11,721,045	9,755,865

In line with our business expansion, both revenue and profit have demonstrated successive growth in each semester of these years. During the third quarter ended May 31, 2010, we achieved total revenue of \$17,235,916, representing an increase of 80.73% when compared to \$9,536,983 for the same period of fiscal year 2009. The third quarter's net income was \$5,548,960, representing an increase of 127.82% when compared to \$2,435,720 for the same period of 2009. The significant increase in net income was mainly attributable to the timing difference between the fiscal year 2010 and 2009. In 2009, students returned to schools in early February. According to the principle of revenue recognition, the tuition fees were recognized in the second quarter. However in 2010, students returned to schools after March 1, 2010 and certain portion of tuition revenue was recognized in third quarter of 2010. This has resulted in the significant increase in the recognized revenue of the third quarter of 2010 compared to the same period in 2009.

This chart below shows the time difference between our 2009 and 2010 teaching calendars:

	2009	2010
Period of first semester	September 1, 2008 - January 15, 2009	September 1, 2009 - January 15, 2010
Chinese New Year	January 26, 2009	February 14, 2010
Start of second semester	February 12, 2009	March 1, 2010

Our net profit increased from \$9,721,010 for the nine months ended May 31, 2009 to \$11,721,045 for the nine months ended May 31, 2010, demonstrating a growth rate of 20.57%. The stable growth in operating results and profits in each semester was the combined effect of the following factors, in addition to the school timing differences:

For the nine months ended May 31, 2010, the Company achieved total revenue of \$37,110,090, representing an increase of \$25,930,134 or 19.02% when compared

Edgar Filing: HQ Global Education Inc. - Form 10-Q

to \$31,179,916 for the nine months ended May 31, 2009. The significant increase in revenue was mainly attributable to the expansion of our operation as reflected in the following:

- (1) Student enrollment in the second semester of 2009 which started from February 2009 totaled 29,883 and the number increased to 34,477 in the second semester of 2010 which started from March 1, 2010, representing an increase of 15.4%. The increase in the number of students led to the increase of revenue.
- (2) We had cooperation agreement with Dongying Maritime School which was effective from in September 1, 2009 to June 2010, where we provide the student recruiting services to the Dongying Maritime School in exchange for a fixed percentage of tuition. We sent 1,072 students to the Dongying Maritime School during the third quarter of 2010, whereas there was no such business in the same period of 2009.
- (3) On April 30, 2009, Oya entered into an exclusive business cooperation agreement with Shaoshan Vocational Secondary School ("Shaoshan Vocational School"). From then on the operating results of Shaoshan Vocational School were consolidated into our financial statements. On September 1, 2009, Shaoshan Vocational School commenced operation and contributed more than \$1 million to the total revenue for the quarter ended May 31, 2010.

30

The cost of revenue incurred was \$22,317,831 in the nine months ended May 31, 2010, representing an increase of 14.36% when compared to \$19,515,016 for the same period of 2009. With the increase in student enrollment, variable cost increased while the fixed cost remains stable. In addition, the cost of recruitment service provided for the Dongying Shengli Maritime School was much less than that of teaching activities. This has resulted in the increase in the gross profit rates for the nine months ended May 31, 2010 compared to the same period in 2009.

Selling expenses increased from \$503,089 in the first three quarters of 2009 to \$512,651 in the first three quarters of 2010, representing an increase of 1.90%. This modest increase in operating expenses was mainly attributable to the increase in the wages resulted from the increase number of employees and in the expansion of business.

General & Administrative expenses increased from \$1,360,377 in the first three quarters of 2009 to \$1,495,898 in the first three quarters of 2010, representing an increase of 9.96%. The increase in such expenses was mainly attributable to two factors:

- (1) Operations of new schools and increase in the student enrollment. Shaoshan Vocational School commenced operations in September 2009 and we employed more management personnel for this new school. Meanwhile the increased student enrollment in other schools invited additional management personnel. This led to an increase of \$65,634 in employee salaries and benefits, representing an increase rate of 12%.
- (2) The cost related to being a public company. We went public in the first quarter of 2010. In order to prepare for the public listing, we hired management staff and this resulted in the increase in salaries and other related expenses.

REVENUES

The table below illustrates the revenue from different services for the nine

Edgar Filing: HQ Global Education Inc. - Form 10-Q

months ended May 31, 2010 and 2009:

	For the nine months ended May 31,		Comparison	
	2010	2009	Amount	Perce
	US\$	US\$	US\$	%
Order-oriented education	25,041,246	19,492,256	5,548,990	28.4
Off-campus internship arrangement	1,511,709	2,444,075	(932,366)	(38.1
Other services	10,557,135	9,243,585	1,313,550	14.2
Total revenue	37,110,090	31,179,916	5,930,174	19.0

(1) Tuition is collected from students after we file our fee schedules with each Ministry of Education's local counterpart. For the nine months ended May 31, 2010, total revenue from Order-oriented Education increased 28.74% compared to the same period in 2009. The increase was due to an increase in the number of enrolled students, the operation of new campus in Shaoshan, Hunan Province as well as the students recruitment service provided for the Dongying Maritime School, both of which were not in existence in the same period of 2009.

(2) Revenue from our off-campus internship service is generated from both students and employers. We launched such arrangements with more enterprises in 2010 compared with 2009. As the second semester of 2010 began in March and our off-campus internship arrangement began in June, we had no revenue from off-campus internship arrangements in the third quarter of 2010. Because the second semester of 2009 started earlier than that of 2010 and the off-campus internship arrangement began in May, the term of the off-campus internship arrangement in the second semester of 2010 was shorter than that in the second semester of 2009. The above mentioned factors have led to the decrease in such revenue.

31

(3) Revenue of "other services" consists of revenue from campus logistics services and government subsidies under the Rain Dew Plan. Due to the increase in student enrollment, revenue from campus logistics services has seen an increase in both the third quarter of 2010 and in the nine months ended May 31, 2010 compared to those of 2009.

SELLING EXPENSES

The table below sets forth the selling expenses for the three months and nine months ended May 31, 2010 and May 31, 2009.

Total	268,893	156,857	112,036	71.43	512,651	50
	=====	=====	=====	=====	=====	==

Our selling expenses increased by 71.43% from \$156,857 in the three months ended May 31, 2009 to \$268,893 in the three months ended May 31, 2010, and increased by 1.9% from \$503,089 in the nine months ended May 31, 2009 to \$512,651 in the nine months ended May 31, 2010. The increase was primarily due to the increase of salaries, welfare, advertising and travel expenses. The increase in salaries and travel expenses resulted from business expansion and increase in the number of faculty. After the Company went public, we increased our advertising expenses in the third quarter of 2010 which lead to an increase in the advertising expenses compared to the same period of 2009. However, for the nine months ended May 31, 2010, the advertising expenses decreased by 75.73% when compared to the same period in 2009. Thus the operation expenses did not represent a significant increase.

GENERAL AND ADMINISTRATIVE EXPENSES

The table below illustrates the details of general and administrative expenses for the three months and nine months ended May 31, 2010 and 2009:

Total	567,662	470,846	96,816	20.56	1,495,898	1,3
	=====	=====	=====	=====	=====	==

Our general and administrative expenses increased by 20.56% from \$470,846 for the three months ended May 31, 2009 to \$567,662 for the three months ended May 31, 2010, and increased by 9.96% from \$1,360,377 for the nine months ended May 31, 2009 to \$1,495,898 for the nine months ended May 31, 2010. This increase was primarily due to the following two factors: First, after the Company went public, it increased its administrative staff, leading to an increase in the salaries and related expenses. In the meantime, business expansion and the acquisition of our new campus resulted in the increase in related expenses including travel expenses and consulting fees. Second, the new acquisition of fixed assets led to an increase in depreciation expenses. Our office expenses decreased in the third quarter of 2010 when compared to the same period of 2009, which was mainly due to in 2009 more expenses incurred for our new campus -

Shaoshan Huanqiu.

OTHER EXPENSES

Other expenses increased by 81.47% from \$26,223 in the three months ended May 31, 2009 to \$47,588 in the three months ended May 31, 2010. This increase was mainly due to the donation to Association for Private Education of Ningxiang County, Hunan Province in 2010. Other expenses increased from \$80,424 in the

32

nine months ended May 31, 2009 to \$1,062,665 in the nine months ended May 31, 2010, which was mainly attributable to the disposition of the aged equipment in the first quarter of 2010.

LIQUIDITY AND CAPITAL RESOURCES

Our principal sources of liquidity are cash generated from operating activities and financing activities.

As of May 31, 2010, our total assets were \$48,368,898, representing an increase of \$17,137,625 or 54.87% when compared with \$31,231,273 on August 31, 2009. As of May 31, 2010, we had \$29,162,213 in current assets, representing an increase of \$13,270,869 or 83.51% when compared with \$15,891,344 on August 31, 2009. As of May 31, 2010, non-current assets were \$19,206,685, representing an increase of \$3,866,756 or 25.21% as compared to \$15,339,929 on August 31, 2009.

Current assets as of May 31, 2010 consist of cash and cash equivalents of \$13,385,942, inventory of \$332,189, net accounts receivable of \$11,028,527, other debtors of \$374,296 and advances to vendors of \$4,041,259.

The balance of accounts receivable (net of allowance) increased \$5,315,036, from \$5,713,491 as of August 31, 2009 to \$11,028,527 as of May 31, 2010. Accounts receivable consist of subsidies from the Rain-dew project and fees from the enterprises for the off-campus arrangements. Such increase is mainly attributable to the accounts receivable due from Poverty Alleviation Office of local governments and China Overseas Scholarship Development Foundation under the Rain-dew project that started in September 2008, accounting for 96% of the balance of accounts receivable. Due to the fact that such accounts receivable are due from the government authorities, the management determines that no reserve is necessary for the current reporting period and the balance of doubtful accounts provision remains the same since August 31, 2009.

As of May 31, 2010, our total liabilities were \$9,672,025, representing an increase of \$5,407,221 or 126.79% as compared to \$4,264,804 on August 31, 2009. As of May 31, 2010, the balance of loans outstanding was \$2,021,119, representing an increase of \$256,994 or 14.57% as compared to \$1,764,125 on August 31, 2009. The increase is due to the increase in loans. Accounts payable were \$1,642,563 as of May 31, 2010, representing an increase of \$314,941 or 23.72% as compared with \$1,327,622 on August 31, 2009. Accounts payable were primarily due to Changsha University of Science & Technology for the cooperative education program, to maritime schools for the tuition we collected on behalf of them under the cooperation agreements and to suppliers of teaching materials. Unearned revenue mainly included tuition from students and consulting fees from enterprises. As of May 31, 2010, the balance of unearned revenue was \$3,237,823, representing an increase of \$3,229,548 when compared with \$8,275 on August 31, 2009. The large increase in the balance of unearned revenue at the end of this quarter was attributable to the tuition collected in March 2010 which, however, was amortized into revenue on August 31, 2009.

As of May 31, 2010, stockholder's equity was \$38,696,873, representing an increase of \$11,730,404 or 43.50% as compared to \$26,966,469 on August 31, 2009.

Edgar Filing: HQ Global Education Inc. - Form 10-Q

Increase in net income is \$11,721,045, from which \$2,930,914 has been allocated to statutory reserve and increase in accumulated other comprehensive income is \$9,359, which is related to the exchange gain or loss.

CASH FLOWS

As of May 31, 2010, the Company's cash and cash equivalents were \$13,385,942, representing an increase of \$9,537,902 as compared with \$3,848,040 on August 31, 2009.

For the nine months ended May 31, 2010, net cash flows provided by operating activities were \$14,427,904, representing an increase of \$3,381,074 as compared with \$11,046,830 for the nine months ended May 31, 2009. The decrease was mainly due to the fact that the second semester of 2009 started in February, therefore the advance tuition received from students for the second semester was recognized at the second quarter, whereas in 2010, the second semester started in early March, therefore the tuition received from students was recognized in the third quarter. This resulted in the significant increase in net cash flows for the nine months ended May 31, 2010 as compared with the same period of 2009.

For the nine months ended May 31, 2010, net cash flows used in investing activities were \$7,904,908, representing an increase of \$4,952,264 or 167.72% as compared with \$2,952,644 for the nine months ended May 31, 2009. The major investment in the nine months of fiscal year 2010 refers to the acquisition of school facilities, construction of the buildings and use of the land on the Shaoshan, Shaoyang and Tianquan campuses. The financial resources were generated from operating activities and credit funds.

For the nine months ended May 31, 2010, net cash flows provided by financing activities were \$3,014,950, representing an increase of \$5,226,227 as compared with net cash used in financing activities of \$2,211,277 for the nine months ended May 31, 2009. During the nine months ended May 31, 2010, there were

33

proceeds from repayment of a related party loan in the amount of \$1,924,491, proceeds from short-term loans in the amount of \$578,503, proceeds from long-term loans in the amount of \$234,333, proceeds from shareholder's loan in the amount of \$310,000 and repayments on long-term loan in the amount of \$556,540, whereas in the nine months ended May 31, 2009, there was shareholders' loan of \$1,198,942 and related party loan of \$1,890,298 incurred.

- (1) The long-term debt obligations refers to the long-term loans we have incurred as of May 31, 2010.
 - (2) We are obligated to pay rental for the campus of Shaoshan Huanqiu Vocational Technical Secondary School and for our headquarters' office space and warehouse. Lease periods vary from 14 months to 10 years with the earliest expiration date of December 31, 2010 and the latest expiration date of September 18, 2019.
 - (3) In exchange for obtaining the governmental approval to provide educational services to the schools in Hunan Province and Sichuan Province, we committed to the local governments to invest a total amount of RMB122,800,000 (approximately US\$17,987,060) for the expansion of those schools during the terms of the cooperation agreement with them. The terms of cooperation vary from 15 years to 20 years with the earliest expiration date of July 15, 2021 and the latest expiration date of June 30, 2029. Until May 31, 2010, we have invested \$4,510,260 in several schools and the balance of \$13,476,800 will be invested within the remaining term of the cooperation agreement.

FOREIGN CURRENCY TRANSLATION

Our reporting currency is the US dollars. Our functional currency is Renminbi ("RMB"). Transactions denominated in currencies other than RMB are translated into RMB at the exchange rate quoted by the People's Bank of China at the dates of the transactions. Exchange gains and losses resulting from transactions denominated in a currency other than that RMB are included in statements of operations as exchange gains. The exchange rate as of May 31, 2010 was 6.8279, which didn't fluctuate significantly compared with the exchange rate 6.8306 as of the last fiscal year end of August 31, 2009. The average exchange rate for the three months ended May 31, 2010 of 6.8266, slightly decreased compared to the exchange rate of 6.8309 for the same period of 2009.

TAXATION

The PRC government also provides various incentives to companies that engage in the development of vocational education. Such incentives include reduced tax rates, tax exemptions and other measures. According to the Promotion of Private Schools Act of PRC and the Notice of Tax Policy for Education Activities (Caishui [2004] No.39), certain enterprises, organizations and schools shall enjoy the same tax treatment as the government operated public schools, and could be exempt from business tax and income tax accordingly. As long as we meet the requirements of the aforementioned regulations, we are exempt from PRC business tax and income tax.

RECENT ACCOUNTING PRONOUNCEMENTS

In January 2010, FASB amended ASC 820 Disclosures about Fair Value Measurements. This update provides amendments to Subtopic 820-10 that requires new disclosure as follows: 1) Transfers in and out of Levels 1 and 2. A reporting entity should disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers. 2) Activity in Level 3 fair value measurements. In the reconciliation for fair value measurements using significant unobservable inputs (Level 3), a reporting entity should present separately information about purchases, sales, issuances, and settlements (that is, on a gross basis rather than as one net number). The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after

Edgar Filing: HQ Global Education Inc. - Form 10-Q

December 15, 2010, and for interim periods within those fiscal years. The Company has determined the adoption of this rule does not have a material impact on its financial statements.

In January 2010, FASB amended Accounting for Distributions to Shareholders with Components of Stock and Cash. The amendments in this Update clarify that the stock portion of a distribution to shareholders that allows them to elect to receive cash or stock with a potential limitation on the total amount of cash that all shareholders can elect to receive in the aggregate is considered a share issuance that is reflected in EPS prospectively and is not a stock dividend for purposes of applying Topics 505 and 260 (Equity and Earnings Per Share). The amendments in this update are effective for interim and annual periods ending on or after December 15, 2009, and should be applied on a retrospective basis. The Company does not expect the adoption of this rule to have a material impact on its financial statements.

OFF BALANCE SHEET ARRANGEMENTS

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of any third party. We have not entered into any derivative contracts that are indexed to our shares and classified as shareholders' equity, or that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any other variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this item.

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of May 31, 2010, the end of the fiscal quarter covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) were effective at the reasonable assurance level to ensure that information required to be disclosed in our reports under the Exchange Act is recorded, processed,

summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934) during the quarter ended May 31, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We know of no pending legal proceedings to which we are a party which are material or potentially material, either individually or in the aggregate. We are from time to time, during the normal course of our business operations, subject to various litigation claims and legal disputes. We do not believe that the ultimate disposition of any of these matters will have a material adverse effect on our financial position, results of operations or liquidity.
