Schedule A Financial Information

(expressed in Canadian dollars)

1. Nature of operations and going concern

The Company is in the business of the acquisition, exploration, exploration management and purchase of mineral properties, with the primary aim of developing them to a stage where the Company can exploit them profitably. The Company also has advanced its properties through joint venture partnerships, whereby proven companies manage the property with expertise in developing, designing and operating the extraction of mineral resources. At that stage, the Company's operations would, to some degree, be dependent on the prevailing market prices for any of the minerals produced by such operations. The Company currently does not have any producing properties and its current operations on its various properties are in the exploration stages, working towards establishing economic concentrations of minerals.

Before, during and after the quarter ended March 31, 2005, the Company was engaged in continued exploration of its precious and base metals property in British Columbia and simultaneously, a gemstone/graphite property and the newly acquired McAllister property (diamond exploration) all located in south-eastern British Columbia. As a result, the Company's future mineral exploration and mining activities may be affected in varying degrees by prevailing market prices, political instability and government regulations, the success of attracting joint venture partners, all of which are beyond the control of the Company.

At March 31, 2005, the Company had a total working capital deficiency of (\$228,664) and without additional funding, will be unable to meet its obligations as they fall due. In addition, the Company will require additional financing to complete the exploration of its mineral properties. While the Company has been successful in raising the necessary funds to finance its exploration activities to-date, there can be no assurance that it will be able to continue to do so. Accordingly, there is substantial doubt about the ability of the Company to continue as a going concern.

Although the Company has taken steps to verify the title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, transfers, or native land claims, and title may be affected by undetected defects.

2. Interim un-audited financial statements

These interim financial statements follow the same accounting policies and methods of their application as the most recent annual financial statements and should be read in conjunction with the financial statements for the year ended December 31, 2004.

3. Capital stock

5. Significant Accounting Policies

These interim consolidated financial statements follow the same accounting policies and methods of their application as the most recent annual financial statements of the Company.

6. Related Party Transactions

During the first quarter of 2005 the Company incurred consulting fees of \$15,000 (\$15,000 Q1 2004) for management services by directors or officers or organizations controlled by such parties. During the first quarter 2005, \$6,000 was paid to directors (\$0 Q1 2004) and carries \$129,685 payable to the same parties.

The Company also carries paid \$67,115 to a law firm in which an officer is a partner of the firm during the first quarter 2005.

Anglo Swiss Resources, Inc.

Schedule B Supplementary Information

(expressed in Canadian dollars)

For the quarter ended March 31, 2005:

6. Share capital (cont.)**(c) Number of shares in escrow or pooling agreement**

Number of shares NIL

(d) Stock options outstanding

<i>Security</i>	<i>Number</i>	<i>Exercise Price</i>	<i>Expiry date</i>
Options	1,000,000	\$0.10	Jan 23, 2007
Options	1,125,000	\$0.10	Feb 17, 2008
Options	2,200,000	\$0.10	Feb 12, 2009
Options	1,000,000	\$0.10	Sep 28, 2009
Total	5,325,000		

The Company has adopted the fair value based method of accounting for stock based compensation for all individuals, effective January 1, 2004. Pro forma earnings information determined under the fair value method of accounting for stock options is as follows

Net loss for the period	March 31, 2005	
Reported	\$	(60,390)
Compensation Expense	-	
Pro-forma	\$	(60,390)
Basic and diluted loss per share		
Reported	\$	(0.00)
Pro-forma	\$	(0.00)

The fair value of stock options used to calculate compensation expense is estimated using the Black-Scholes Option Pricing Model with the following assumptions:

Risk-free interest rate	3.98%
Expected dividend yield	-
Expected stock price volatility	108.00%
Expected option life in years	4.00

Option pricing models require the input of highly subjective assumptions including expected price volatility. Changes in the subjective input assumptions can materially effect the fair value estimate, and therefore the existing models do not necessary provide a reliable single measure of the fair value of the Company's stock options.

ANGLO SWISS RESOURCES INC.

Interim Management's Discussion and Analysis

Period Ended March 31, 2005

DATED May 27, 2005

Forward-Looking Information

This quarterly management discussion and analysis (Quarterly MD&A) contains forward-looking statements and information relating to Anglo Swiss Resources Inc. (Anglo Swiss or the Company) that are based on the beliefs of its management as well as assumptions made by and information currently available to Anglo Swiss. When used in this document, the words anticipate , believe , estimate , and expect and similar expressions, as they relate to the Company or its management, are intended to identify forward-looking statements.

This Quarterly MD&A contains forward-looking statements relating to, among other things, regulatory compliance, the sufficiency of current working capital, the estimated cost and availability of funding for the continued exploration and development of Anglo Swiss exploration properties. Many factors could cause the actual results, performance or achievements of Anglo Swiss to be materially different from any future results, performance or achievements are expressed or implied by such forward-looking statements. Important factors are identified in this Quarterly MD&A.

Overall Performance

Anglo Swiss is a mineral exploration company listed on the TSX Venture Exchange as a Tier 2 company. The Company is also inter-listed in the United States on the OTC Bulletin Board and effective February of 2004 quoted on the Berlin Exchange in Germany.

Anglo Swiss current exploration focus is in south-eastern British Columbia as it controls three properties located in the Nelson and Slocan districts; the Kenville Mine property, looking for precious and base metals; the Blu Starr property which hosts a variety of gemstones, (sapphire, gem garnet, iolite, plus other semi-precious gemstones and a 2000 meter flake graphite discovery); and the recent addition of the 31,000 hectare McAllister property staked for diamond potential.

A 2 kilometer logging road was completed during 2004 at the Kenville property under a Ministry of Energy and Mines work permit and a license to cut from the Ministry of Forestry. The logging was undertaken to build roads in preparation for trenching and a drill program on a relatively unexplored area of the property. A verbal agreement with the OJVA group provided for the road to be built, all exploration is the responsibility of the optionees, as per the terms and conditions of the OJVA.

The Company has no plans in either the first or second quarter of 2005 in respect to the Kenville property; The OJVA requires the final \$35,000 anniversary payment to the Company in Q3 2005 and the Company will re-evaluate the situation at that time.

The Blu Starr property was subject to a Joint Participation Agreement with Hampton Court Resources (Hampton), entered into in April of 2000, which expired in April of 2003. Hampton has earned a 10% working interest in the staked mineral claims on property to-date; a further 10% is subject to a joint review of the expenditures. Sufficient work has been undertaken on the staked mineral claims and banked forward to provide the Company control of these 188 mineral claims through 2007.

Anglo Swiss filed a Notice of Work in 2004 with the Ministry of Energy and Mines to perform drilling and trenching of the alluvial placer claims held within 13 placer claims overlain on the Blu Starr mineral staked claims in the Slocan Valley. The Company owns 100% of these placer claims. The permit was for 10 drill locations, sites were located by GPS, flagged and all approvals obtained by any private property owners during the fall of 2004. The drill program was postponed to 2005 as the Company focused all its efforts on the acquisition of the McAllister property. The Company anticipates completing the drill program during the 2005 season.

The Company acquired 100% of 31,000 hectares in a contiguous claim group known as the McAllister Group, located 13.5 kilometres southeast from the City of Nelson, British Columbia. The company's original claim in this area, the McAllister Diatreme, has been identified as the host of a potential diamondiferous lamproite.

The staking was completed on January 13, 2005 to ensure a significant land base to include additional areas of interest in the Nelson Mining District, where Anglo Swiss discovered its first diatreme. The Company also believes that a second diatreme has been identified approximately 4 kilometres from the McAllister Diatreme, which suggests that a cluster of diatremes may be present in the area.

The Company entered into an option to purchase agreement dated February 1, 2005 to acquire the Iva Fern group of claims made up of two Crown-granted mineral claims and three reverted Crown-granted claims. The claims are situated within the company's 31,000-hectare McAllister claim group in south-eastern British Columbia and complement the existing holdings.

Edgar Filing: ANGLO SWISS RESOURCES INC - Form 6-K

The option to purchase agreement, received regulatory approval on February 16, 2005, provides for a payment of \$50,000 plus 200,000 common shares to be paid in instalments on the anniversary dates of the agreement, ending Feb. 1, 2010.

Work programs for the 2005 season are currently being developed by the Company's geologist for the McAllister and Iva Fern claims.

Selected Annual Information

The following table summarizes selected financial data for Anglo Swiss for each of the three most recently completed financial years. The information set forth below should be read in conjunction with the consolidated audited financial statements, prepared in accordance with Canadian generally accepted accounting principles, and related notes.

	2004	2003	2002
General & administrative expenses	279,816	\$ 196,596	173,451
Write off of exploration costs on outside properties and properties abandoned	NIL	\$ 25,000	NIL
Warrants Expensed	196,840	NIL	NIL
Stock Based Compensation Expensed for Non-Employees (Re-Styled)	227,901	\$47,946	NIL
Net Income (loss) from continuing operations:			
- In total	(\$427,123)	(\$ 269,542)	(\$ 82,995)
- Basic and diluted loss per share	(0.01)	(0.00)	(0.00)
Total Assets	\$3,959,764	\$ 3,843,615	\$ 3,899,540
Total long term liabilities	NIL	NIL	NIL
Cash dividends declared	NIL	NIL	NIL

The Company's loss from over the past three years results from minor interest expense (or income), general and administration expenses, stock based compensation expensed for non-employees and write offs of the deferred exploration costs attributed to the properties in Ecuador. On January 1, 2004, the company adopted the fair value-based method of accounting for stock options granted to employees and directors.

Anglo Swiss's general and administrative expenses have been fairly consistent over the past years, although in 2004, \$279,816 was incurred; an increase of \$83,220 compared to \$196,597 for the year ended 2003. Shareholder's information expense was \$53,768 higher in 2004 (\$80,972) than the \$27,204 expensed in 2003. The Company was more active in all investor relations departments, taking advantage of the new interest in the market place for mining and junior mining companies. The Company among other things redesigned its website, contracted with Stockgroup for six months of promotion, advertised in industry print media and aggressively contacted existing shareholders and new contacts.

Travel and promotion activities also increased in 2004 to \$17,161 with the new activity compared to \$7,386 for 2003 plus filing fees related to the financing, option grants and permitting of work programs resulted in an increase to \$30,079 2004, from \$9,632 for the year ended December 31, 2003. Professional fees for the 2004 year were lower at \$21,688 than 2003 fees of \$46,261, as the Company had litigation in 2003 over the OJVA at the Kenville property which was resolved in 2003.

Edgar Filing: ANGLO SWISS RESOURCES INC - Form 6-K

During the year ended 2004 the Company received \$91,561 consisting of \$56,561 from the logging activities at the Kenville Mine property and \$35,000 from the OJVA anniversary payment. The logging was completed within the same year.

Anglo Swiss total assets consist of cash and short-term deposits plus its resource property costs. Cash resources at 2004 year-end of \$167,735 were higher than the 2003 year end cash position of \$22,165 due to the private placement completed on March 29, 2004 of \$518,000. The balance of its resource properties and the plant and equipment at the Kenville Mine property, is \$ 3,766,484 at year-end 2004.

Results of operations Three Months - 2005

The Company as earlier stated has undertaken preparation for exploration activities on both its Kenville and Blu Starr properties during 2004. At March 31, 2005 the Kenville property is carried at \$1,427,992 in acquisition and exploration expenditures, plus fixed assets of certain plant and equipment of \$1,003,767 for a total of \$2,431,759. The Blu Starr and of course the McAllister properties are at more of a grass roots exploration stage and are carried at \$1,329,303 and \$33,483 respectively.

Cash resources at March 31, 2005 were reduced to \$74,362 from \$167,735 at December 31, 2004. The private placement completed in the first quarter of 2004 of \$518,000 has provided the capital required for the Company to meet its current obligation through the first quarter and management believes it has sufficient cash resources available to meet its corporate responsibilities through the year end, 2005. The Company extended the expiration date of the 5,180,000 warrants attached to this financing to September 29, 2005 on March 24, 2005.

While the Company has been successful in raising funds in the past, and sourcing partners to advance its properties, there can be no assurance that it will be able to do so in the future. Accordingly, there is substantial doubt about the ability of the company to continue as a going concern.

Summary of Quarterly Results (Un-audited)

The following table sets out selected quarterly financial information of Anglo Swiss. Anglo Swiss interim financial statements are prepared by management, in accordance with Canadian generally accepted accounting principles and expressed in Canadian dollars.

Period	Revenues	Income or (Loss) from Continued Operation and Net Income (Loss) from Continued	Basic earnings (Loss) per Share from Continued operation and Net Income (Loss)	Fully Diluted Loss per Share from Continued operation and Net Income (Loss)
1st. Quarter 2005	NIL	(\$60,390)	(0.00)	(0.00)
4th. Quarter 2004	NIL	(\$177,742)	(0.003)	(0.00)
3rd. Quarter 2004	NIL	(\$111,839)	(0.00)	(0.00)
2nd. Quarter 2004	NIL	(\$77,743)	(0.00)	(0.00)
1st. Quarter 2004	NIL	(\$59,799)	(0.00)	(0.00)
4th. Quarter 2003	NIL	(\$156,745)	(0.00)	(0.00)
3rd. Quarter 2003	NIL	(\$43,504)	(0.00)	(0.00)
2nd. Quarter 2003	NIL	(\$39,457)	(0.00)	(0.00)

First Quarter

During Q1 of 2005, Anglo Swiss sustained a loss of \$60,390 which is equivalent to the loss attributed to Q1 2004 (\$58,799), as both quarterly operations consisted of general administrative expenses and no extraordinary events. The current quarter included an increase in investor

Edgar Filing: ANGLO SWISS RESOURCES INC - Form 6-K

relations/shareholder information of \$15,469, higher than the first quarter of 2004 (\$8,127) as the company is continuing its campaign to showcase the addition of the McAllister property for its diamond exploration to the investment community.

The Company also paid the first instalment payment of \$5,000 (plus 50,000 common shares) for the Iva Fern Option as per the payment schedule of the agreement through 2010. There were no options granted in the first quarter of 2005; in the first quarter of 2004 a charge of \$8,055 was recorded for stock-based compensation.

Liquidity

In management's view given the nature of the Company's activities, which consists of the acquisition, exploration, exploration management and purchase of mineral properties, the most meaningful and material financial information concerning the Company relates to its current liquidity and capital resources. The Company currently does not have any producing properties and its current operations on its various properties are in the exploration stages and have not derived any revenues from the sale of gold, gemstones or any other materials in the last three years. Before, during and after the first quarter ended March 31, 2005, the Company was engaged in continued exploration of its gold property and simultaneously a precious/semi-precious gemstone property and the newly acquired McAllister property (diamond exploration), all located in south-eastern British Columbia. As a result, the Company's future mineral exploration and mining activities may be affected in varying degrees by prevailing market prices, political stability and government regulations, the success of existing partners, all of which are beyond the control of the Company.

The Company's mineral exploration activities have been funded through the sales of common shares, and while the Company has also been successful in attracting partners to continue development and exploration of its properties, there is no assurance that these trends will continue indefinitely. The ongoing general and administrative obligations are dependent on financings as well and the Company expects to continue to utilize this source of funding until it develops cash flow from its operations. There can be no assurance, however, that the Company will be able to obtain the required financing in the future on acceptable terms, or at all.

Based on its existing working capital of \$74,362 at March 31, 2005 the Company has a working capital deficiency of \$228,664. The Company will require additional financing to further exploration of its mineral properties and to meet its ongoing obligations as they incur. The Company has not carried out debt financing nor has it made use of any financial instruments for hedging purposes. The Company had no material commitments for capital expenditures at the end of its most recent fiscal year.

Capital Resources

At March 31, 2005 Anglo Swiss had paid up capital of \$11,545,745, representing 50,055,688 common shares without par value, and a deficit of \$8,540,068 resulting in a shareholder's equity (or net assets) of \$3,896,006 (Q1 2004 - \$4,311,608). Anglo Swiss has a working capital deficiency of \$228,664 at March 31, 2005.

While the Company has been successful in raising funds in the past, and sourcing partners to advance its properties, there can be no assurance that it will be able to do so in the future. The Company may also finance itself through the exercise of options and warrants outstanding; although this avenue of funding is directly related to the capital markets and the future share price of its common shares within the marketplace and therefore should not be relied upon.

The Company raised \$518,000 in the first quarter of 2004 in a private placement of 5,180,000 units consisting of 5,180,000 common shares and 5,180,000 warrants to purchase an additional 5,180,000 common shares at \$0.15 per share, originally exercisable until March 29, 2005, subsequently extended to September 29, 2005.

The Company has at March 31, 2005 - 5,325,000 options granted at \$0.10 per share to directors, officers and consultants that expire at various dates from February 2007 to September 2009.

The Option Joint Venture Agreement on the Kenville property has one anniversary payment of \$35,000 remaining, due on August 29, 2005.

Additional Disclosure for Ventures without Significant Revenue

Additional disclosure concerning Anglo Swiss' general and administrative expenses and resource property costs is provided in the Company's Consolidated Statement of Loss and Deficit and the Consolidated Schedule of Resource Property Costs contained in its Consolidated Financial Statements for March 31, 2005 and the audited year end statements at December 31, 2004; both are available on the Company website at www.anglo-swiss.com or on its SEDAR page site accessed through www.sedar.com, in the United States through its EDGAR filings accessed at www.sec.gov.

Transaction with Related Parties

Anglo Swiss has accrued liabilities of \$129,685 at March 31, 2005 (Q1 2004 - \$138,802) due to directors and organizations controlled by directors. The Company incurred consulting fees of \$15,000 in the first quarter of 2005 (2004 - \$15,000) for management services in this regard and paid \$6,000. The Company carries a payable of \$67,115 to a law firm in which an officer is a partner of the firm.

Subsequent Events to March 31, 2005

None.

Changes in Accounting Policies

On January 1, 2004, the company adopted the fair value-based method of accounting for stock options granted to employees and directors. Accordingly, compensation expense was recorded on the grant of stock options to employees and directors as the exercise price is equal to or greater than the market price at the date of the grant.

During the quarter ended March 31, 2005, the company granted NIL stock options to employees, directors and non-employees and a related compensation cost of \$0 has been recorded in the statement of loss and deficit. In the first quarter of 2004, \$8,005 was recorded for the grant of 2,200,000 options, subsequently restated at year end December 31, 2004 to \$142,000 for a total of 3,200,000 options granted during the same year.

Additional Information

Additional information is available at the Company website at www.anglo-swiss.com or on its SEDAR page site accessed through www.sedar.com, in the United States through its EDGAR filings accessed at www.sec.gov. The Company files a Form 20F in the United States and also files the Form 20F as its alternative form of Annual Information Form (AIF) in Canada.
