PARTNER COMMUNICATIONS REPORTS THIRD QUARTER 2006 RESULTS

Rosh Ha'ayin, Israel, October 31st, 2006 Partner Communications Company Ltd. (Partner) (NASDAQ and TASE: PTNR; LSE: PCCD), a leading Israeli mobile communications operator, today announced its results for the third quarter of 2006. Partner reported revenues in Q3 2006 of NIS 1.5 billion (US\$ 340 million), EBITDA of NIS 477 million (US\$ 111 million), the equivalent of 32.6% of total revenue, and net income of NIS 185 million (US\$ 43 million).

Commenting on the results, Partner's CEO, Amikam Cohen, said: We are delighted that in the third quarter an additional 54,000 subscribers joined the orange 3G experience, and are now enjoying the wide and continuously expanding range of 3G services and great handsets. Our subscribers can also benefit from our introduction in most populated areas around the country of HSDPA capabilities, enabling a unique high-speed wireless internet access experience.

During the quarter, orange was named the leading telecommunications brand in Israel for the fourth consecutive year and awarded, for the second year running, as the mobile operator with the best customer service by Globes, Israel's business daily. We expect that our core strengths as providers of superb network quality, excellent customer service, the strongest telecom brand and the most advanced data and content services, will enable us to continue to grow our subscriber base and drive value for our shareholders.

Financial Review

Partner's revenues in Q3 2006 were NIS 1,462.0 million (US\$ 339.8 million), an increase of 8.1% compared with NIS 1,352.3 million in Q3 2005 and of 6.5% compared with NIS 1,372.9 million in Q2 2006. Both increases resulted primarily from growth in service revenue which increased by NIS 107.5 million or 8.9% compared with Q3 2005, from NIS 1,209.0 million to NIS 1,316.4 million (US\$ 306.0 million) in Q3 2006, and by NIS 71.9 million or 5.8% compared with NIS 1,244.5 million in Q2 2006. Compared with Q3 2005, service revenues were higher as a result of a larger subscriber base and increased minutes of use, offset primarily by the impact of the mandated reduction in interconnection tariffs which went into effect in March 2006. This reduction is part of the Ministry of Communications' program of mandated gradual reductions from 2005 to 2008. Compared with Q2 2006, the increase was driven by seasonal growth in service revenues, increased minutes of use and the larger subscriber base.

Equipment revenues in Q3 2006 were NIS 145.6 million (US\$ 33.8 million), an increase of 1.5% from NIS 143.4 million in Q3 2005 and an increase of 13.3% from NIS 128.5 million in Q2 2006. Compared with Q3 2005 the increase was primarily a result of the increase in the proportion of 3G sales to new subscribers and upgrading subscribers from 2G services. Compared with Q2 2006 the increase was primarily a result of the increase in the total number of sales, as well as the higher proportion of 3G sales to new and upgrading subscribers.

Edgar Filing: PARTNER COMMUNICATIONS CO LTD - Form 6-K

Content and data revenues accounted for 9.5% of total revenues in Q3 2006 and 10.5% of service revenues, up from 8.0% of total revenues and 8.9% of service revenues in Q3 2005, despite the mandated 49% reduction in SMS interconnection tariffs which went into effect in March 2006, and up from 8.9% of total revenues and 9.9% of service revenues in Q2 2006. Non-SMS data and content revenues increased in Q3 2006 by 26.5% compared with Q3 2005.

The cost of revenues related to services in Q3 2006 was NIS 794.2 million (US\$ 184.6 million), representing an increase of 0.2% from NIS 792.8 million in Q3 2005, and an increase of 2.8% from NIS 772.5 million in Q2 2006, both increases being primarily due to higher variable airtime costs resulting from the growth in airtime usage.

The cost of revenues related to equipment decreased in Q3 2006 by 8.9% compared with Q3 2005, from NIS 231.0 million to NIS 210.4 million (US\$ 48.9 million), principally a reflection of the decrease in the number of 2G handsets sold. Compared with Q2 2006, the cost of revenues related to equipment increased by 24.2% from NIS 169.4 million, principally reflecting the increase in the total number of sales, and the higher proportion of 3G sales to new and upgrading subscribers.

The gross profit from services in Q3 2006 was NIS 522.2 million (US\$ 121.4 million), an increase of 25.5% from NIS 416.1 million in Q3 2005, and an increase of 10.6% from NIS 472.0 million in Q2 2006. Gross loss on equipment decreased to NIS 64.9 million (US\$ 15.1 million) in Q3 2006, 26.0% less than NIS 87.7 million in Q3 2005, but increased by 58.3% from NIS 41.0 million in Q2 2006 reflecting the increase in total sales and the higher proportion of 3G handsets sales.

Overall, Q3 2006 gross profit totaled NIS 457.4 million (US\$ 106.3 million), the equivalent of 31.3% of total revenues, up 39.2% from NIS 328.5 million in Q3 2005 and up 6.1% from NIS 431.0 million in Q2 2006.

Edgar Filing: PARTNER COMMUNICATIONS CO LTD - Form 6-K

In Q3 2006 selling and marketing expenses were NIS 84.1 million (US\$ 19.6 million), an increase of 16.7% from NIS 72.1 million in Q3 2005 and an increase of 11.3% from NIS 75.6 million in Q2 2006. Compared with Q3 2005, the increase was primarily due to higher distribution costs, primarily commission expenses, and advertising activity. Compared with Q2 2006, the increase was principally due to distribution costs related to the growth of our 3G customer base.

General and administrative expenses in Q3 2006 amounted to NIS 53.7 million (US\$ 12.5 million), representing an increase of 18.8% from NIS 45.2 million in Q3 2005 and an increase of 22.2% from NIS 44.0 million in Q2 2006. Both increases are mainly a result of larger provisions for doubtful accounts from receivables on handset sales and from service revenues, reflecting the impact of the regional hostilities on businesses in the north of the country, lower collection activities and the impact of the implementation from July 1st 2006 of a new banking directive raising requirements for credit arrangement in bank current accounts.

Q3 2006 operating profit overall was NIS 319.5 million (US\$ 74.3 million), or 21.9% of total revenues compared with NIS 211.2 million or 15.6% of total revenues in Q3 2005, an increase of 51.3%, and compared with NIS 311.5 million or 22.7% of total revenues in Q2 2006, an increase of 2.6%.

Quarterly EBITDA in Q3 2006 increased by 24.6% to NIS 476.7 million, or US\$ 110.8 million, compared with NIS 382.7 million in Q3 2005 and increased by 0.7% from NIS 473.2 million in Q2 2006. The EBITDA margin in Q3 2006 was 32.6% of total revenues, compared with 28.3% in Q3 2005 and with 34.5% in Q2 2006.

Q3 2006 financial expenses totaled NIS 44.7 million (US\$ 10.4 million), down 70.0% from NIS 148.8 million in Q3 2005. The decrease compared with Q3 2005 resulted primarily from the one-off charge in Q3 2005 in the amount of NIS 63 million related to the redemption of the US\$ 175 million 13% Senior Subordinated Notes on August 15, 2005, as well as interest charges in Q3 2005 related to both the redeemed Notes and the new CPI-linked shekel-denominated Notes. Compared with Q2 2006, financial expenses decreased by 26.9% from NIS 61.2 million, primarily because of lower expenses in Q3 2006 resulting from an increase of 0.2% in the CPI level in Q3, compared to an increase in the CPI level of 1.2% in Q2 2006.

Edgar Filing: PARTNER COMMUNICATIONS CO LTD - Form 6-K

Net income in Q3 2006 was NIS 184.7 million (US\$ 42.9 million), an increase of 496.7% from NIS 30.9 million in Q3 2005, and an increase of 6.0% from NIS 174.2 million in Q2 2006.

Based on the average number of shares outstanding during the quarter, basic earnings per share or ADS in Q3 2006 were NIS 1.2 (28 US cents), an increase of 500.0% from NIS 0.20 in Q3 2005. Basic earnings per share or ADS compared with Q2 2006 were up 5.3% in Q3 2006 from NIS 1.14 in Q2 2006. Fully diluted earnings per share or ADS in Q3 2006 were NIS 1.19 (28 US cents), up from NIS 0.2 in Q3 2005 and from NIS 1.13 in Q2 2006.

Funding and Investing Review

Cash flows generated from operating activities, net of cash flows from investing activities, totaled NIS 312.3 million (US\$ 72.6 million) in Q3 2006, representing a 577.9% increase compared with NIS 46.1 million in Q3 2005, and a 35.5% increase compared with NIS 230.5 million in Q2 2006. Both increases resulted from higher operating cash flows offset by higher payments for investments in fixed assets. The increase in cash flows is primarily attributable to the increase in net income as well as timing effects of payments to suppliers, and interest charges.

On July 3rd, 2006, Partner completed the acquisition of the transmission activity of MED1 I.C.-1 (1999) Ltd., including approximately 900 kilometers of transmission fiber, for cash consideration of approximately NIS 71.1 million (US\$16.5 million).

Reflecting the MED1 transaction, net investment in fixed assets in Q3 2006 increased by 77.4% from NIS 76.8 million in Q3 2005 to NIS 136.2 million (US\$ 31.7 million), and by 77.8% from NIS 76.6 million in Q2 2006.

The Board of Directors has approved the distribution of an interim quarterly cash dividend for Q3 2006 of NIS 0.45 per share (approximately NIS 70 million or US\$ 16.3 million) to shareholders and ADS holders on record as of November 22nd, 2006. The dividend will be paid on December 6th, 2006.

Operational Review

At the end of Q3 2006, the Company had an active subscriber base of approximately 2,626,000, including approximately 581,000 business subscribers, accounting for 22.1% of the base, approximately 1,273,000 postpaid private subscribers, or 48.5% of the base, and approximately 772,000 prepaid subscribers, or 29.4% of the base. Of the Company's subscriber base at the end of Q3 2006, approximately 219,000 were 3G subscribers. Total market share at the end of Q3 2006 is estimated to have been around 32%.

Q3 2006 net active subscriber base growth was approximately 41,000, including a net increase in active 3G subscribers of approximately 54,000 (including both new subscribers and migrating subscribers from 2G). The quarterly churn rate was 3.7%, up from 3.2% in Q3 2005 but down from 3.8% in Q2 2006.

The average monthly minutes of use per subscriber in Q3 2006 increased to 322 minutes, compared with 306 minutes in Q3 2005 and with 307 minutes in Q2 2006. The average revenue per user in Q3 2006 was approximately NIS 164 (US\$ 38), compared with NIS 162 in Q3 2005 and with NIS 158 in Q2 2006.

Outlook and Guidance

Commenting on the Company's results, Emanuel Avner, Partner's Chief Financial Officer, said: "This quarter we incurred an increased handset subsidy of approximately NIS 30 million compared with the previous quarter. This increase is in line with our strategy to increase our 3G customer base, establishing additional 3G revenues."

Despite the additional handset subsidy costs, our bottom line results continue to improve, and we are encouraged by the usage patterns of our 2G and 3G customers.

Commenting on the Company's outlook, Emanuel Avner said, "We reiterate our guidance for H2 2006 and expect the improved trends of the first half to continue through the second half of the year, bearing in mind that Q4 is seasonally slower than Q3".

Conference Call Details

Partner Communications will hold a conference call to discuss the company's third-quarter results on Tuesday, October 31, 2006, at 17:00 Israel local time (10AM EST). Words such as *believe, anticipate, expect, intend, seek, will, plan, could, may, project, goal, target* and similar expressions often identify forward-looking statements but are not the only way we identify these statements. All statements other than statements of historical fact included in this quarterly report regarding our future performance, plans to increase revenues or margins or preserve or expand market share in existing or new markets, reduce expenses and any statements regarding other future events or our future prospects, are forward-looking statements.

Because such statements involve risks and uncertainties, actual results may differ materially from the results currently expected. Factors that could cause such differences include, but are not limited to:

the effects of the high degree of regulation in the telecommunications market in which we operate;

regulatory developments relating to tariffs, including interconnect tariffs;

the difficulties associated with obtaining all permits required for building and operating of antenna sites;

the requirement to indemnify planning committees in respect of claims made against them relating to the depreciation of property values or to alleged health damages resulting from antenna sites;

alleged health risks related to antenna sites and use of telecommunication devices;

the effects of vigorous competition in the market in which we operate and for more valuable customers, which may decrease prices charged, increase churn and change our customer mix, profitability and average revenue per user, and the response of competitors to industry and regulatory developments;

uncertainties about the degree of growth in the number of consumers in Israel using wireless personal communications services and the growth in the Israeli population;

the risks associated with the implementation of a third generation (3G) network and business strategy, including risks relating to the operations of new systems and technologies, potential unanticipated costs, uncertainties regarding the adequacy of suppliers on whom we must rely to provide both network and consumer equipment and consumer acceptance of the products and services to be offered, and the risk that the use of internet search engines by our 3G customers will be restricted;

the risks associated with technological requirements, technology substitution and changes and other technological developments;

the impact of existing and new competitors in the market in which we compete, including competitors that may offer less expensive products and services, desirable or innovative products, technological substitutes, or have extensive resources or better financing;

regulatory developments related to the implementation of number portability;

fluctuations in foreign exchange rates;

the possibility of the market in which we compete being impacted by changes in political, economic or other factors, such as monetary policy, legal and regulatory changes or other external factors over which we have no control;

the availability and cost of capital and the consequences of increased leverage; and

the results of litigation filed or that may be filed against us,

Edgar Filing: PARTNER COMMUNICATIONS CO LTD - Form 6-K

as well as the risks discussed in Risk Factors, Information on the Company and Operating and Financial Review and Prospects in form 20-F filed with the SEC on May 18, 2006. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this report might not occur.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

These financial results were prepared in accordance with U.S. GAAP.

The convenience translations of the Nominal New Israeli Shekel (NIS) figures into US Dollars were made at the rate of exchange prevailing at September 30th, 2006: US \$1.00 equals NIS 4.302. The translations were made purely for the convenience of the reader.

Earnings before interest, taxes, depreciation, amortization, exceptional items and capitalization of intangible assets (EBITDA) is presented because it is a measure commonly used in the telecommunications industry and is presented solely in order to improve the understanding of the Company s operating results and to provide further perspective on these results. EBITDA, however, should not be considered as an alternative to operating income or net income for the year as an indicator of the operating performance of the Company. Similarly, EBITDA should not be considered as an alternative to cash flows from operating activities as a measure of liquidity. EBITDA is not a measure of financial performance under generally accepted accounting principles and may not be comparable to other similarly titled measures for other companies. EBITDA may not be indicative of the historic operating results of the Company; nor is it meant to be predictive of potential future results.

Reconciliation between our cash flows from operating activities and EBIDTA is presented in the attached summary financial results.
