Spacenet Integrated Government Solutions

Receives GSA FCSA Award

Follows recent awards by Naval Air Warfare Center Aircraft Division and NATO Consultation, Command and Control Agency

Petah Tikva, Israel – September 15, 2011 – Gilat Satellite Networks Ltd. (NASDAQ: GILT), a worldwide leader in satellite networking technology, solutions and services announced today that its wholly owned subsidiary, Spacenet Integrated Government Solutions, Inc. (SIGS), received the third in a series of new contract vehicles through which to offer its products and services to government organizations and government contractors. The latest award is a Federal Supply Schedule under the Future Commercial Satellite Communications (COMSATCOM) Services Acquisition (FCSA) program. This contract follows recent awards for a Blanket Purchase Agreement (BPA) by the Naval Air Warfare Center Aircraft Division (NAWCAD), and a Basic Ordering Agreement (BOA) by the NATO Consultation, Command, and Control Agency.

"These awards reflect a positive recognition of our ability to deliver cost-effective and innovative satellite solutions in support of the Government's unique mission-critical requirements," said SIGS' CEO Susan Miller. "Agencies of the US government and NATO will now have broader and easier access to SIGS' expertise and SATCOM products and services. The combination of our technical expertise and commitment to enhancing mission assurance makes SIGS a valuable and proud partner to the United States Government and its allies."

SIGS was selected by the U.S. General Services Administration (GSA) to be eligible under the future COMSATCOM Services Acquisition (FCSA) program to receive and respond to requirements from Government users for commercial satellite communications services. The FCSA program is a new three-part acquisition program that incorporates two broad GSA schedules and an ID/IQ contract for custom satellite solutions. The overall program has a \$5 billion ceiling and will enable government agencies to procure commercial satellite communications services from the commercial satellite industry. The COMSATCOM subscription-based services offered under the terms of the GSA schedule include satellite-based internet, voice, data, video services and emergency response/disaster recovery voice and data networks.

The Naval Air Warfare Center Aircraft Division (NAWCAD) awarded SIGS a BPA associated with the procurement of SATCOM solutions in support of Government quick-reaction C4ISR requirements. The five year BPA has a Master Dollar Limit of \$5.5 million. This award makes SIGS eligible to receive and respond to requirements from Government users of this procurement vehicle.

Under the NATO Consultation, Command and Control Agency (NC3A), SIGS was awarded a Basic Ordering Agreement (BOA) covering a broad range of telecommunications solutions to include the company's RaySat Antenna Systems line of Stealthray™ low-profile satellite antennas and rapidly deployable emergency communications systems. Designed by the NC3 agency, the BOA facilitates the interaction between vendors and NATO's eligible purchasers and simplifies ordering for SIGS communication products and services.

About Spacenet Integrated Government Solutions, Inc.

Spacenet Integrated Government Solutions (SIGS), a division of Spacenet Inc., a wholly owned subsidiary of Gilat Satellite Networks Ltd. , is focused on delivering network and communications solutions to the military, Department of Defense, Homeland Security, the Intelligence community and other government related agencies. Leveraging a culture of technical excellence, R&D and system integration capabilities, SIGS delivers reliable, vendor-agnostic, standards-based, interoperable and flexible solutions to meet the needs of its clients. SIGS offers IP-based digital satellite communication networking products and services including fixed and transportable VSATs, portable manpack terminals and low-profile, in-motion, 2-way satellite antenna systems for SATCOM On-The-Move (SOTM) capabilities. Visit SIGS at www.spacenetgovernment.com

About Gilat

Gilat Satellite Networks Ltd. is a leading provider of products and professional services for satellite-based broadband communications networks worldwide. Gilat was founded in 1987 and has shipped over 750,000 Very Small Aperture Terminals (VSATs) to more than 85 countries across six continents. Gilat's headquarters is located in Petah Tikva, Israel. The Company has 22 sales and service offices worldwide. Gilat develops and markets an expansive range of broadband satellite solutions including high-performance VSATs under the SkyEdge™ and SkyEdge II brands, low-profile antennas for satcom-on-the-move, under the Raysat Antenna Systems and the StealthRay™ brands and next generation solid-state power amplifiers for mission-critical defense and broadcast satellite communications systems under the Wavestream brand. Gilat's wholly-owned subsidiary, Spacenet Inc., is a leading provider of managed services in North America to the business and government segments. Visit Gilat at www.gilat.com.
