EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The following Compensation Discussion and Analysis describes the duties, responsibilities and role of our Compensation Committee as well as the material elements of compensation for the our executive officers identified in the Summary Compensation Table set forth below (the Named Executive Officers). Over the past year, the Compensation Committee has reviewed our compensation practices and the components of executive compensation. The information below provides the description of compensation policies applicable to executive officers and other highly compensated individuals under employment and/or consulting arrangements.

Objectives of Our Compensation Program

The primary objective of our compensation program, including our executive compensation program, is to maintain a compensation program that will fairly compensate our executives and employees, attract and retain qualified executives and employees who are able to contribute to our long-term success, encourage performance consistent with clearly defined corporate goals and align our executives' long-term interests with those of our stockholders. To that end, our compensation practices are intended to:

1.

Tie total compensation to the Company's performance and individual performance in achieving financial and non-financial objectives;

2.

Align senior management's interests with stockholders' interests through long-term equity incentive compensation.

Role of the Compensation Committee

The Compensation Committee determines the compensation of our Chief Executive Officer and, in consultation with the Chief Executive Officer, our other executive officers. In addition, the Compensation Committee is responsible for adopting, reviewing and administering our compensation policies and programs, including the cash bonus incentive plan and equity incentive plan, which are discussed in more detail below. Our Compensation Committee adheres to a compensation philosophy that (i) seeks to attract and retain qualified executives who will add to the long-term success of the Company, (ii) promotes the achievement of operational and strategic objectives, and (iii) compensates executives commensurate with each executive's level of performance, level of responsibility and overall contribution

to the success of the Company.

In determining the compensation of our Chief Executive Officer and our other executive officers, the Compensation Committee considers the financial condition and operational performance of the Company during the prior year. In determining the compensation for executive officers other than the Chief Executive Officer, the Compensation Committee considers the recommendations of the Chief Executive Officer.

The Compensation Committee reviews the compensation practices of other companies, based in part on market survey data and other statistical data relating to executive compensation obtained through industry publications and other sources. The Compensation Committee does not seek to benchmark the Company's compensation program directly with other publicly traded companies or other companies with which we may compete for potential executives since some of these competitors are privately held research and development companies for which executive compensation information is not available. However, the Compensation Committee compares our executive compensation program as a whole with the programs of other companies for which survey data is available, and also compares the pay of individual executives if the jobs are sufficiently similar to make the comparison meaningful. The Compensation Committee uses such survey data primarily to ensure that our executive compensation program as a whole is competitive and we are in a position to retain our executives.

Components of Executive Compensation for Fiscal 2010 and Fiscal 2011

Our executive employment agreements for fiscal 2010 and 2011 provide that employees will be compensated by salary and bonus, with bonuses potentially including cash and equity components. Salary and bonus structures were determined by negotiation between the Company and the particular executive based on each individual's tenure with the Company, qualifications and relevant experience, review of available data on comparable positions, and the Compensation Committee's and management's best business judgment. While each of the agreements have a general description of the employee's responsibilities associated with his/her title and/or position, the agreements do not include specific written performance objectives for the individual but do include certain performance targets for the Company.

The elements of the Company's compensation program are base salary, annual cash performance bonus and long-term equity incentives. Our compensation program is designed to provide our executives with incentives to achieve our short- and long-term performance goals and to pay competitive base salaries. Each Named Executive Officer's current and prior compensation is considered in setting future compensation.

In addition, the employment agreements with certain of our Named Executive Officers provide for other benefits, including potential payments upon termination of employment. Each of the elements of our executive compensation program is discussed in the following paragraphs.

Base Salaries

Base salary is the foundation element of our employees' annual cash compensation. Base salaries generally vary based on a number of factors, including the executive's experience level and scope of responsibility, performance level, estimate of future potential and overall contribution. The value of base salary also reflects the employee's long-term performance, skill set and the market value of that skill set. Base salaries for our Named Executive Officers and other highly compensated individuals are reviewed on an annual basis and adjustments made to reflect performance-based factors, as well as competitive conditions. The Company does not apply specific formulas in setting base salaries.

Annual Cash Performance Bonuses

The Company believes that as an employee's level of responsibility increases, a greater portion of the individual's cash compensation should be variable and linked to both quantitative and qualitative expectations, including key operational and strategic metrics. To that end, the Company had established an annual cash performance bonus program in order to align executives' goals with the Company's strategic and tactical objectives.

Current employment agreements with certain of Amerityre's executive officers include an incentive component which will enable them to be eligible to earn an annual cash bonus based upon meeting certain performance metrics applicable to the Company's performance in general and the executive's performance in particular. Within the overall context of Amerityre's pay philosophy and culture, the objectives of the incentive component are to:

1.

Provide competitive levels of total cash compensation;

2.

Align pay with organizational and individual performance;

3.

Focus executive attention on key business metrics;

4.

Provide a significant incentive for achieving and exceeding performance goals;

5.

Create a focus on stockholder value; and

6.

Be easily understood and easily administered.

For the Named Executive Officers, the performance metrics currently include corporate performance objectives but may be modified in the future to also include individual-specific goals. Corporate performance may be measured with reference to, among other things, operating cash flows (defined as earnings before interest, taxes, depreciation and amortization and adjusted for maintenance capital expenditures and changes in inventory) and/or net income. Individual performance goals are tied to the Company's business plan, and may be quantitative or qualitative in nature. For fiscal 2010, such performance goals included such measures as improving productivity, increasing revenues, reducing operating cash loss and increasing net income.

For each executive, the total annual performance bonus amount for the mix of Company-wide and individual-specific performance goals applicable to that executive will be based on a fixed percentage of the executive's base salary. For fiscal 2010, each executive's potential cash bonus is tied to the same Company-wide goals and the potential annual cash bonus is up to 50% of each executive's respective annual base salary.

For 2010, the corporate performance measures consist of the attainment of targeted levels of reduced cash loss in operations and increases in net income. For our Named Executive Officers, achievement of the threshold level of reduced cash loss in operations and net income could result in a minimum payout of 12.5% of the targeted bonus with respect to that metric, and higher levels of achievement would result in greater payouts up to a maximum payout of 100% of the targeted bonus for achievement of 100% of the targeted level.

For fiscal 2010, we accrued payments to two of our executive officers based on their respective employment agreements for the achievement of a greater than 50% reduction of cash loss for the year ended June 30, 2010 over the year ended June 30, 2007. Given the Company's cash flow situation, both officers agreed to accept shares of common stock in lieu of cash payments for these earned bonuses. In addition, due to the current economic climate and continuing financial exigencies, the specific contractual provisions detailed above have been

eliminated. Any cash performance bonuses awarded in the immediate future will be made only at the discretion of the Compensation Committee.

Long Term Equity Incentives

Long term incentive awards are a key element of the Company's total compensation package for individuals in significant positions of responsibility. Such awards may be made under our 2005 Stock Option and Award Plan (the 2005 Plan) to senior management and select employees who are key to the Company's achievement of its long-term goals. The purpose of the 2005 Plan is to promote the long term growth and profitability of Amerityre by (i) providing certain directors, officers and employees with incentives to maximize stockholder value, and (ii) enabling Amerityre to attract, retain and reward the best available persons for positions of responsibility. The 2005 Plan provides for a variety of long-term awards including incentive or non-qualified stock options, restricted stock, and performance awards.

2005 Stock Option and Award Plan Summary

The 2005 Plan is intended to reward employees and other individuals who contribute to our success and to provide them with a stake in the enterprise as stockholders. Consistent with this belief, the award of stock options has been and will continue to be an important element of our compensation program.

We intend to use the 2005 Plan to attract competent Directors, executive personnel, and other employees, aid in the retention of existing Directors, executive personnel, and employees, and provide incentives to all of such personnel to devote the utmost effort and skill to our advancement by permitting them to participate in ownership and thereby permitting them to share in increases in the value which they help produce.

The 2005 Plan is administered by our Compensation Committee. Awards granted under the 2005 Plan may be incentive stock options, or ISOs, as defined in the Internal Revenue Code of 1986, as amended, or the Code, appreciation rights, options which do not qualify as ISOs, or stock bonus awards which are awarded to our employees, including officers and Directors, who, in the opinion of the Board of Directors or the Compensation Committee, have contributed, or are expected to contribute, materially to our success. In addition, at the discretion of our Board of Directors or the Compensation Committee, options or bonus stock may be granted to individuals who are not employees but contribute to our success.

The exercise price of options granted under the 2005 Plan, as determined by our Board of Directors, may be based on the fair market value of the underlying common stock at the time of grant and, in the case of ISOs may not be less than 100% of the fair market value of such capital stock on the date the option is granted or, in the case of holders of more than 10% of our outstanding common stock, 110% of the fair market value.

Options granted under the 2005 Plan shall expire no later than ten years after the date of grant or, in the case of holder of greater than 10% of our outstanding common stock, five years. The option price may be paid by cash or, at the discretion of our Board of Directors or the Compensation Committee, by delivery of a promissory note or shares of our Common Stock already owned by the optionee, which will be valued at their fair market value at the date of exercise, or a combination thereof.

All of our employees, officers, and Directors are eligible to participate under the 2005 Plan. A maximum of 2,000,000 shares are available for grant under the 2005 Plan. The identification of individuals entitled to receive awards, the terms of the awards, and the number of shares subject to individual awards, are determined by our Board of Directors or the Compensation Committee, in their sole discretion; provided, however, that in no event may the aggregate fair market value of shares for which an ISO is first exercisable in any calendar year by any eligible employee exceed \$100,000.

The aggregate number of shares with respect to which options or stock awards may be granted under the 2005 Plan, the number of shares covered by each outstanding option, and the purchase price per share shall be adjusted for any increase or decrease in the number of issued shares resulting from a recapitalization, reorganization, merger, consolidation, exchange of shares, stock dividend, stock split, reverse stock split, or other subdivision or consolidation of shares.

Our Board of Directors or the Compensation Committee may from time to time alter, amend, suspend, or discontinue the 2005 Plan with respect to any shares as to which options or stock awards have not been granted. However, no such alteration or amendment, unless approved by our stockholders, shall:

a.

increase, except an adjustment for an event of dilution, the maximum number of shares for which options or stock awards may be granted under the 2005 Plan;

b.

reduce, either in the aggregate or to any eligible employee, except adjustment for an event of dilution, the minimum option prices which may be established under the 2005 Plan;

c.

extend the period or periods during which options may be granted or exercised;

d.

materially modify the requirements as to eligibility for participation in the 2005 Plan;

e.

change the provisions relating to events of dilution; or

f.

materially increase the benefits accruing to the eligible participants under the 2005 Plan.

If a participant to whom an option is granted exercises such option by payment of the exercise price in whole or in part with previously owned shares, the optionee will not realize income with respect to the number of shares received on exercise which equals the number of shares delivered by the optionee. The optionee's basis for the delivered shares will carry over to the option shares received. With regard to the number of non-qualified option shares received which exceeds the number of shares delivered, the optionee will realize ordinary income at the time of exercise; and the optionee's tax basis in these additional option shares will equal the amount of ordinary income realized plus the amount of any cash paid.

Recipients of ISOs will not be required to recognize income at the time of the grant of the options or at the time of exercise of the options as long as the stock received on exercise is held for at least two years from the date of the grant of the ISOs or one year from the date of exercise, although the difference between the fair market value of the stock and the exercise price paid at the time of exercise must be taken into account for alternative minimum tax purposes. If the stock received upon exercise of an ISO is disposed of prior to the expiration of either of such time periods, the optionee will be required to recognize as ordinary income the amount by which the fair market value of the stock received at the time of exercise exceeds the exercise price of the ISOs.

Under the terms of the 2005 Plan, our Board of Directors or the Compensation Committee may also grant stock awards which may, at the discretion of our Board of Directors or Compensation Committee, be subject to forfeiture under certain conditions. Recipients of stock awards will realize ordinary income at the time of the lapse of any forfeiture provisions equal to the fair market value of the shares less any amount paid in connection with the issuance (our Board of Directors or the Compensation Committee can require the payment of par value at the time of the grant). We will realize a corresponding compensation deduction. The holder will have a basis in the shares acquired equal to any amount paid on exercise plus the amount of any ordinary income recognized by the holder. On sale of the shares, the holder will have a capital gain or loss equal to the sale proceeds minus his or her basis in the shares.

Under the 2005 Plan, the Board and the Compensation Committee have broad authority to award equity-based compensation arrangements to any eligible employee, director, consultant, or advisor of Amerityre. Since the ultimate value of stock options bears a direct relationship to the market price of the Common Stock, the Compensation Committee believes that awards under the 2005 Plan can be an effective incentive for Amerityre's management to create value for Amerityre's stockholders. Awards under the 2005 Plan are made in the discretion of the Board of Directors, upon recommendation from the Compensation Committee.

Perquisites and Other Benefits

The Company does not provide significant perquisites or personal benefits to executive officers, other than the partial payment of health insurance premiums.

Employment Agreements

At June 30, 2010, we had written employment agreements with Mike Kapral, Anders Suarez and James Moore. These employment agreements provide for the following:

(1) Michael Kapral was appointed President and Chief Executive Officer April 24, 2009. He served previously as Vice President - Sales and Marketing.

(2) In December 2008, each senior executive officer agreed to accept a 10% reduction in base salary. In April 2009, each senior executive officer agreed to accept a further 10% minimum reduction in salary, with the most highly compensated officers accepting a reduction down to a maximum base salary of \$10,000 per month. Mr. Suarez resigned effective October 1, 2010. Effective October 1, 2010, the remaining officers agreed to further adjustments in salary payments for the balance of the term of the respective employment agreements. Mr. Kapral's salary will be reduced to the pro-rata equivalent of \$110,000 per year with the difference accrued and payable at the end of each fiscal quarter. Mr. Moore's salary will be reduced to the pro-rata equivalent of \$85,000 per year.

(3) Bonus compensation of 12.5% of annual salary earned for achievement of reduction in cash losses. Each officer agreed to accept shares of common stock in lieu of cash in consideration of the Company's cash flow situation.

In the event of either termination for cause or due to a change of control, the above employees are entitled to salary, earned bonus compensation and benefits according to the provisions of their individual agreements.

Employment and Severance Agreements

Except as otherwise disclosed herein, each of our executive officers and key employees is party to an employment agreement with the Company (collectively, the "Employment Agreements"), each of which has materially similar terms. The principal purpose of the employment agreements is to protect the Company from certain business risks (e.g., threats from loss of confidentiality or trade secrets, disparagement, solicitation of customers and employees) and to define the Company's right to terminate the employment relationship. In return, the executive officers are provided assurances with regard to salary, other compensation and benefits, as well as certain severance benefits.

The Employment Agreements provide that the executives shall devote full time attention, skill and ability to discharge the duties assigned to them, and to use their best reasonable efforts to promote and protect the interests of Amerityre.

All new Employment Agreements provide for an annual base salary (which may be increased by the Board of Directors), an annual performance cash bonus in an amount determined by the Board of Directors pursuant to the Company's general policies in such regard, and participation in any senior management equity incentive plan which Amerityre adopts, participation in health insurance benefits, vacation in accordance to the Company's standard vacation policy, and expense reimbursements.

The Employment Agreements are intended to preserve employee productivity and encourage retention. They are also intended to align executive and shareholder interests by enabling executives to consider corporate transactions that are in the best interests of the shareholders and other constituents of the Company without undue concern over whether the transactions may jeopardize the executives' own employment.

Each of our Employment Agreements includes a severance provision. The principal purpose of the severance provision is to define the Company's right to terminate the employment relationship and, in return, to provide the executive officers assurances with regard to severance benefits under various circumstances which may accompany termination of employment. A description of the terms of their severance agreements can be found below under the caption Termination and Change in Control Arrangements.

Termination and Change-In-Control Arrangements

At September 15, 2010, we have written employment agreements with Michael Kapral, Anders Suarez and James Moore, as described above. In the event of either termination without cause or upon a change of control, Mr. Kapral, Mr. Suarez and Mr. Moore are entitled to salary, earned bonus compensation and benefits for four (4) months.

Other than the above-listed agreements, we are not a party to any change of control arrangements with any person.

Employee Benefits

The Company offers employee health insurance benefits coverage to provide our workforce with a reasonable level of financial support in the event of illness or injury. Health insurance benefits are available to all full time employees, including executive officers of the Company. The executive officers of the Company, including the Named Executive Officers, participate in these plans on the same basis as all other employees. The cost of employee benefits is borne 20% by each employee and 80% by the Company.

Accounting Matters

In the first quarter of fiscal 2006, the Company adopted the provisions of Accounting Standards Codification 718, *Compensation - Stock Compensation* (ASC 718), formerly SFAS 123(R)), which requires the fair value of

options to be recorded as compensation cost in the consolidated financial statements. The adoption of ASC 718 has resulted in \$74,263 and \$64,077 in additional compensation costs to be recognized in fiscal 2010 and 2009, respectively.

Stock Bonus Awards

In July 2009, the Compensation Committee and the Board of Directors approved the grant of stock bonus awards to Michael Kapral, Anders Suarez and James Moore. The three officers were each granted 100,000 shares of stock (valued at \$21,000 each) in recognition of their extraordinary efforts on the Company's behalf.

Stock Ownership Requirements

The Board of Directors has historically encouraged its members and members of senior management to acquire and maintain stock in the Company to link the interests of such persons to the stockholders. However, neither the Board of Directors nor the Compensation Committee has established stock ownership guidelines for members of the Board of Directors or the executive officers of the Company.

Compensation Committee Report On Executive Compensation

The Compensation Committee, comprised of independent directors, reviewed and discussed the above Compensation Discussion and Analysis (CD&A) with the Company's management. Based on such review and discussions, the Compensation Committee recommended to the Company's Board of Directors that the CD&A be included in this Proxy Statement on Schedule 14A relating to the upcoming annual meeting and incorporated by reference into our Annual Report on Form 10-K for the fiscal year ended June 30, 2010.

Subsequent to the end of the fiscal year ended June 30, 2010, in July 2010, the Board of Directors also approved a grant of 50,000 stock options to each of our seven non-employee directors. The options are subject to

vesting provisions such that the options are to vest only upon realization of the first profitable fiscal quarter (without including the expense related to the issuance of the options). The vesting is also contingent on service as a director for the period July 1, 2010 through June 30, 2011. The options are exercisable for three years at an exercise price of \$0.50 per share.

Effective August 1, 2010, the board approved compensation of \$6,000 per month to director Timothy Ryan to act as principal organizer, planner and architect of the Company's business plan and strategic objectives, subject to the approval of the board, such compensation to be in addition to the general annual compensation for board members. The term of the compensation is open-ended at the discretion of the board.

Effective September 23, 2010, the directors agreed to suspend the in-person meeting fees for a period of six months in order to cut the Company's expenses, particularly in connection with the Annual Shareholders Meeting.

2004 Non-Employee Directors' Stock Incentive Plan

Directors are eligible to receive stock option grants under the 2004 Non-Employee Directors' Stock Incentive Plan (2004 Plan). Under the 2004 Plan, the amount of options, if any, granted to directors and the terms and provisions of any options granted to directors are at the discretion of the Compensation Committee. No options were granted to any non-employee director during the year ended June 30, 2010.

The 2004 Plan was established to attract, motivate and retain qualified non-employee Directors. The 2004 Plan will provide a means for non-employee Directors to increase their equity ownership. The 2004 Plan has not been submitted to our stockholders for approval.

The date of grant to eligible Directors is December 1st of each year during the term of the 2004 Plan and for any supplemental grant, on a date determined by the Board of Directors. An eligible Director is any person who on the date of grant is a member of the Board of Directors.

A total of 1,200,000 shares of common stock may be awarded under the 2004 Plan. If any shares subject to any award granted thereunder are forfeited or such award otherwise terminates without the issuance of such shares or of other consideration in lieu of such shares, the shares subject to such award, to the extent of such termination or forfeiture, shall again be available for grant under the 2004 Plan during the term of the Plan.

The 2004 Plan has a term of ten (10) years commencing on December 15, 2004. Awards of stock options and of restricted stock under this Plan shall be made at the discretion of the Board of Directors, subject to a maximum

individual award of up to 10,000 stock options or up to 10,000 shares of restricted stock, or some combination aggregating no more than 10,000 total in any one year. Determination of such awards, if any, shall be made annually by the entire Board of Directors, with the exercise price of stock options or the value of the restricted stock to be determined as of December 1st. The term of stock options shall be not more than ten (10) years from the date of grant. Under no circumstances shall any option vest in less than six months from the date of grant.

In the event of a reorganization, recapitalization, stock split, stock dividend, combination of shares, merger, consolidation or any other change in our corporate structure affecting common stock, or a sale by us of all or a substantial part of its assets, or any distribution to stockholders other than a cash dividend, our Board of Directors will make appropriate adjustment in the number and kind of shares authorized by the Plan, and any adjustments to outstanding awards as it deems appropriate. However, no fractional shares of common stock will be issued pursuant to any such adjustment, and the fair market value of any fractional shares resulting from adjustments will be paid in cash to the awardee.

All options and restricted stock granted to an awardee shall automatically terminate and be null and void as of the date an eligible Director's service on the Board of Directors terminates if the directorship is terminated as a result of any act of (a) fraud or intentional misrepresentation, or (b) embezzlement, misappropriation, or conversion of assets or opportunities of our company.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following tables set forth as of September 24, 2010 the name and address and the number of shares of our Common Stock held of record or beneficially by each person who held of record, or was known by us to own beneficially, more than 5% of our issued and outstanding common stock, and the name and shareholdings of each Director and of all officers and Directors as a group. The information on share numbers and percentage ownership listed assumes: a) the exercise of options by the beneficial owner (all included options are currently exercisable); and b) a corresponding increase in the number of shares issued and outstanding. Beneficial ownership is determined in accordance with the rules of the SEC. In determining the number of shares beneficially owned by a person, options or warrants to purchase common stock held by that person that are currently exercisable, or become exercisable within 60 days following September 24, 2010, are deemed outstanding; however, such shares are not deemed outstanding for purposes of computing the percentage ownership of any other person. We believe that all of the persons named in this table have sole voting and investment power with respect to all shares of common stock shown as beneficially owned by them, subject to community property laws where applicable and except as indicated in the other footnotes to this table.

STOCKHOLDER PROPOSALS

No proposals have been submitted by stockholders of the Company for consideration at the Annual Meeting. It is anticipated that the next annual meeting of stockholders will be held during December 2011. Stockholders who, in accordance with Rule 14a-8 of the Exchange Act wish to present proposals for inclusion in the proxy materials to be distributed in connection with next year's Annual Meeting Proxy Statement must submit their proposals so that they are received at our principal executive offices no later than the close of business on June 30,

2011, and are otherwise in compliance with applicable laws and regulations and the governing provisions of the articles of incorporation and bylaws of the Company. As the rules of the SEC make clear, simply submitting a proposal does not guarantee that it will be included.

Stockholder proposals and director nominations for our 2011 Annual Meeting not intended for inclusion in the proxy materials for the meeting must be delivered to our principal executive offices no earlier than July 15, 2011 and no later than August 19, 2011 to be considered timely.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, requires our Directors, executive officers and 10% stockholders, which we refer to as reporting persons, to file with the SEC initial reports of ownership and changes in ownership of our common stock. Reporting persons are required by SEC regulations to furnish us with copies of all Section 16(a) reports they file. To our knowledge, based solely on our review of the copies of such reports received or written representations from certain reporting persons that no other reports were required, we believe that during our fiscal year ended June 30, 2010 all reporting persons timely filed all such reports.

CODE OF ETHICS

We have adopted a Code of Business Conduct that applies to all our directors, officers and employees. A copy of the code of ethics will be provided free of charge upon written request to our Secretary at the address shown on the cover page of this proxy statement and is accessible, free of charge at our website, www.amerityre.com. If we grant waivers from or make amendments to this code of ethics that are required to be disclosed pursuant to the Exchange Act or applicable listing requirements, we will make those disclosures on our website within four business days following the date of such waiver or amendment.

STOCKHOLDERS SHARING THE SAME LAST NAME AND ADDRESS

In accordance with notices that we sent to certain stockholders, we are sending only one copy of our annual report and proxy statement to stockholders who share the same last name and address, unless they have notified us that they want to continue receiving multiple copies. This practice, known as householding, is designed to reduce duplicate mailings and save significant printing and postage costs as well as natural resources.

If you received a householded mailing this year and you would like to have additional copies of our annual report and/or proxy statement mailed to you, or you would like to opt out of this practice for future mailings, please submit

your request by mail to Amerityre Corporation, 1501 Industrial Road, Boulder City, Nevada 89005. We will promptly send additional copies of the annual report and/or proxy statement upon receipt of such request. You may also contact us if you received multiple copies of the annual meeting materials and would prefer to receive a single copy in the future.

Unfortunately, householding for bank and brokerage accounts is limited to accounts within the same bank or brokerage firm. For example, if you and your spouse share the same last name and address, and you and your spouse each have two accounts containing Amerityre stock at two different brokerage firms, your household will receive two copies of our annual meeting materials one from each brokerage firm.

OTHER MATTERS

Management does not know of any business other than referred to in the Notice which may be considered at the meeting. If any other matters should properly come before the Annual Meeting, such matters will be properly addressed and resolved and those in attendance will vote on such matters in accordance with their best judgment.
