-

Edgar Filing: TECHNITROL INC - Form 8-K

Information to be included in the report

Item 2.05. Costs Associated with Exit or Disposal Activities

On March 13, 2007, the management of Technitrol, Inc. committed to exit facilities in Germany and Tunisia associated with the manufacture of electronic coils for automotive ignition and control applications and to relocate capacity to produce such products into company facilities in the People's Republic of China. The reason for the relocation is to reduce production costs and to manufacture in closer proximity to customers in Asia. The company expects the plan to be completed in the first quarter of 2008. The plan is a modification and expansion of an original decision to relocate certain manufacturing operations in the company's Automotive Division which began in the fourth quarter of 2006. Accordingly, severance-related charges of approximately \$1 million that were incurred in the fourth quarter are now included as part of the revised plan. Total costs for the plan, comprising employee severance expenses, plant closure costs and relocation, are expected to range between \$12 million and \$13 million.

Signature(s)

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
