LLOYDS TSB GROUP - TRANSITION TO EUROPEAN EMBEDDED VALUE AT SCOTTISH WIDOWS

Lloyds TSB Group plc will be holding a presentation for analysts and investors today at 2.00 p.m. The focus of the briefing will be to provide an overview of the financial impact of the transition to European Embedded Value ('EEV') accounting for the supplementary reporting of the Scottish Widows business, along with details of the EEV methodology adopted.

Lloyds TSB Group will continue to report its statutory accounts under IFRS with only insurance policies and certain investment business accounted for on an embedded value basis. Going forward, these contracts will be accounted for on a basis consistent with relevant EEV principles. The impact on the Lloyds TSB Group statutory accounts is minimal. However, in line with industry best practice, the Group intends to introduce supplementary financial reporting relating to Scottish Widows on an EEV basis, with a bottom-up, market consistent approach, from the 2006 year end.

For the year ended 31 December 2005, compared to Lloyds TSB Group's reported IFRS accounts, the Scottish Widows supplementary EEV financial information show that:

- Scottish Widows' new business profit before tax under EEV is GBP131 million higher at GBP254 million, reflecting the earlier timing of profit recognition,
- Scottish Widows' profit before tax (excluding volatility, the strengthening of annuitant mortality reserves and other items) is GBP72 million higher at GBP727 million, as higher new business profit before tax is partially offset by the consequent lower profit on existing business,
- Scottish Widows' embedded value is GBP908 million higher at GBP6,386 million, largely reflecting the inclusion of certain investment products under EEV.

Lloyds TSB Group believes that EEV reporting better reflects the economic value of Scottish Widows' in-force business.

A live webcast of this event, together with a copy of the Transition to EEV document, will be available on our website www.investorrelations.lloydstsb.com/presentationpage.asp and a recorded version available shortly after the event.
