HSBC HOLDINGS REPORTS PRE-TAX PROFIT OF US\$11,104 MILLION

HSBC made a profit before tax of US\$11,104 million, an increase of US\$6,085 million, or 121 per cent, compared with the first half of 2009.

Net interest income of US\$19,757 million was US\$781 million, or 3.8 per cent, lower than the first half of 2009.

Net operating income before loan impairment charges and other credit risk provisions of US\$35,551 million was US\$810 million, or 2.3 per cent, higher than the first half of 2009.

Total operating expenses of US\$18,111 million increased by US\$1,453 million, or 8.7 per cent, compared with the first half of 2009. On an underlying basis, and expressed in terms of constant currency, operating expenses increased by 5 per cent.

HSBC's cost efficiency ratio was 50.9 per cent compared with 47.9 per cent in the first half of 2009.

Net operating income before loan impairment charges and other credit risk provisions of US\$35,551 million was US\$810 million, or 2.3 per cent, higher than the first half of 2009.

Loan impairment charges and other credit risk provisions were US\$7,523 million in the first half of 2010, US\$6,408 million lower than the first half of 2009.

The Directors have declared a second interim dividend for 2010 of US\$0.08 per ordinary share, a distribution of approximately US\$1,401 million.

The core tier 1 ratio and tier 1 ratio for the Group remained strong at 9.9 per cent and 11.5 per cent, respectively, at 30 June 2010.

The Group's total assets at 30 June 2010 were US\$2,418 billion, an increase of US\$54 billion, or 2.3 per cent, since 31 December 2009.

Review by Michael Geoghegan, Group Chief Executive**Group financial performance strongly ahead**

At HSBC, we have a clear and distinctive strategy. It is to rebalance the Group towards the needs of a fast-changing global economy, while keeping our strong capital and liquidity position. Our focus is therefore to build upon our unrivalled franchise in emerging markets, while delivering connectivity for our customers everywhere in an increasingly connected world. That HSBC delivered a strongly improved performance in the first half of 2010 is in large part thanks to this strategy and our success in repositioning and transforming the business to deliver on it.

Our Personal Financial Services and Commercial Banking businesses delivered significantly improved results, adding to another very strong performance in Global Banking and Markets. On a reported basis, pre-tax profits more than doubled to US\$11.1 billion compared with the first half of 2009, including the impact of movements on the fair value on our own debt relating to credit spreads. Underlying pre-tax profits¹ increased by 30 per cent to US\$9.6 billion year-on-year, driven by significantly reduced loan impairment charges.

With regulatory change ahead, capital and funding strength will become even more important in deciding which banks can grow and which are left behind. Maintaining our strong balance sheet therefore remains core to our banking philosophy. We further strengthened our tier 1 capital through underlying profit generation and capital issuance. We increased our tier 1 capital ratio to 11.5 per cent, we grew our core tier 1 ratio to 9.9 per cent and the outcome of the EU-wide stress test exercise by the Committee of European Banking Supervisors in July

2

confirmed the robustness of our capital position. Our ratio of customer advances to deposits remained steady at under 80 per cent, providing a broad indication of our funding strength and keeping our distinctive liquidity position.

As one of the industry's leading dividend payers, HSBC recognises the importance of dividend income to all our shareholders, not least our many retail investors. We declared dividends on ordinary shares of US\$2.8 billion in respect of the first half of the year including a second interim dividend of eight US cents

per ordinary share, payable on 6 October 2010. Return on average total shareholders' equity improved to 10.4 per cent on a reported basis and was 9.3 per cent excluding the impact of movements on the fair value of our own debt related to credit spreads. As we reduce our run-off portfolios, we believe shareholders' continuing support of HSBC will be rewarded with improving returns - albeit towards the lower end of the target range - in the medium term.

Once again, emerging economies led the global recovery in the first half. Government infrastructure investment continued apace, while flows of cross-border trade and investment sustained their rapid recovery. We continued to rebalance our assets steadily towards the world's emerging markets and to build new revenue streams across the Group, positioning the business for sustainable growth.

Despite increasing economic uncertainty towards the end of the period, we saw appetite for credit grow steadily, especially among our business customers. This is now feeding through into lending growth, a trend we expect to continue. In the first half of the year, we added assets in targeted segments to the balance sheet, more than offsetting the effect of the run-off in our exit portfolios. We grew loans and advances to customers in all regions and by four per cent overall, compared with the end of 2009. Geographically, the strongest growth was in Asia, where we grew lending by 15 per cent. In Commercial Banking we grew lending by nine per cent globally.

We gained share of international trade volumes, made progress in building our Insurance and Wealth Management businesses, and expanded our advisory services in Global Banking and Markets. As a result, fee income rose overall outside the US.

Overall, revenues were broadly in line with the second half of 2009. However, as we expected, they were lower than in the first half, given the exceptional market conditions in that period, especially in Global Banking and Markets. This also reflected our success in reducing and repositioning Personal Financial Services portfolios away from Consumer Finance and other unsecured lending products.

As we focus on building a high quality asset base for the future, it is encouraging that loan impairment charges now stand at their lowest levels since the start of the financial crisis. They almost halved overall, reducing by US\$6.8 billion to US\$7.5 billion year-on-year. This reflects the benefit of more stable economic conditions for many of our customers and follows our actions, begun before the crisis, to reduce exposure to unsecured lending outside our key relationships, to exit unprofitable business lines and to tighten underwriting standards for new business.

We continued to invest in expanding the business and transforming our operations. However, we did so with a focus on cost control. As a result, our cost efficiency ratio was only slightly above our target range at 53.1 per cent. Costs were broadly unchanged, excluding the impact of the one-off pension gain in the first half of 2009, and the UK and French payroll taxes on 2009 bonuses and pension curtailment accounting gain in the US which were accounted for in the current period. Overall, operating expenses were five per cent higher.

Profitable in every region outside North America

In Asia, performance was comfortably ahead, with pre-tax profits increasing by 20 per cent to US\$5.6 billion. As levels of trade activity improved from the lows of a year ago and demand for credit, investment and insurance products increased, we continued to meet our customers' growing financial needs. The contribution of Asian profits generated outside Hong Kong grew to 50 per cent, underlining our growing presence across the region.

Pre-tax profits in Latin America increased by 36 per cent to US\$0.9 billion, largely driven by improved credit experience in our retail businesses as we ran off higher risk consumer portfolios.

In the Middle East, pre-tax profits were down by 39 per cent at US\$393 million but were well ahead of the second half of 2009. Loan impairment charges were modestly higher year-on-year but more than halved in comparison with the second half of 2009 as credit delinquency trends improved. We have seen customer activity beginning to pick up and believe the region has a sustainable and strong future.

In Europe, pre-tax profits were strongly ahead in Personal Financial Services and were also higher in Commercial Banking. Overall, they were 19 per cent lower at US\$2.8 billion, as Global Banking and Markets revenues reduced from the exceptional first half performance of 2009.

Profits in the UK accounted for 52 per cent of the European total. In the UK, we grew international trade volumes and increased mortgage lending. The quality of the new mortgage book is illustrated by a low average loan to value ratio of 53 per cent.

Continental Europe represented 48 per cent of total European pre-tax profits. We strengthened our management team to focus more closely on opportunities for growth across the region and began to centralise our processing operations to deliver greater economies of scale. Despite weak and volatile market conditions, HSBC successfully managed its sovereign risk exposures in respect of Greece, Portugal, Spain and Ireland which were US\$4 billion and the overall quality of our sovereign debt portfolio remains strong.

It is an encouraging sign of progress in the US that performance in North America was ahead by some US\$2 billion, resulting in a significantly reduced pre-tax loss of US\$80 million. Loan impairment charges fell markedly and we made good progress in developing our continuing businesses generally - including Premier, international trade finance, and our Global Banking and Markets business where we continued to support the needs of our Latin American corporate clients.

Our US Consumer Finance run-off portfolios continued to decrease in line with our expectations. We reduced total balances across these portfolios by a further US\$10 billion to US\$69 billion since the end of 2009.

In July, we also agreed in principle to sell the remainder of the vehicle finance loan portfolio and other related assets to an unaffiliated third party. The sale is expected to close in the third quarter of 2010.

Profitable in every customer group

Led by these improvements in the US, Personal Financial Services returned to profit for the first time in two years. Pre-tax profits were US\$1.2 billion, following an improvement of US\$2.5 billion year-on-year. We benefited from a stronger credit experience, in part driven by improved collections processes. We also saw stronger sales of wealth management, insurance and mortgage products and higher customer deposits.

In Commercial Banking, pre-tax profits were also well ahead, rising by 40 per cent to US\$3.1 billion, reflecting an improvement in the economic environment, supported by active portfolio management during the crisis, robust revenues and progress in rebuilding the balance sheet through selective lending growth.

Although pre-tax profits were down 13 per cent at US\$5.6 billion, Global Banking and Markets reported its second best performance of any half-year period, reinforcing the success of our emerging markets-led, financing-focused strategy. The business remained highly diversified with

the largest revenue stream contributing some 20 per cent of the total.

Balance Sheet Management revenues were lower, but they were robust and opportunities remained to redeploy our liquidity efficiently.

Private Banking pre-tax profits were 13 per cent lower at US\$0.6 billion, largely due to the impact of low interest rates. However, net new money inflows totalled US\$7.3 billion, the majority of which were from emerging markets.

Building on our distinctive strengths

At HSBC, we are very clear about what makes us a different kind of bank and we are building on those strengths that enable us to serve our customers best.

Connecting customers across regions

As we see other companies in all industries working to build global scale, we are thankful for the global reach that comes from 145 years of doing business as an international bank. We are constantly working to harness the connectivity this provides so we can better meet the needs of our international customers. Global Banking and Markets provides an excellent example of this in action. Our global network allows us to service customers with cross-border trading or financing needs anywhere in the world, by accessing the expertise in our major dealing rooms in centres like London, Paris, New York and Hong Kong. This has helped us to increase the revenue contribution from emerging markets, which grew from 35 per cent to 37 per cent year-on-year.

Reinforcing our position as the world's leading emerging markets bank

In July,
Euromoney

recognised the breadth and depth of HSBC's presence across the world's faster-growing regions by naming us 'Best Global Emerging Markets Bank'. Throughout the first half, we continued to rebalance our footprint towards these regions and we expect them to account for the majority of global growth for the foreseeable future.

There is no market of greater strategic importance to HSBC than Greater China. We continue to protect and build on our position as the leading international bank in mainland China, where we opened our 100th HSBC-branded outlet and opened a flagship new China Head Office in Shanghai. We are building on our strategic partnerships and subscribed for our full entitlement of H-shares in the Bank of Communications rights issue. We also incorporated locally in Taiwan which will complement our platforms in Hong Kong and mainland China and improve our access to the region.

We are committed to building our presence in India too and so, in July, we announced our third investment in two years through the acquisition of the Indian retail and commercial operations of the Royal Bank of Scotland. This will significantly increase our scale in Asia's third largest economy and give us access to 1.1 million customer relationships. Subject to regulatory approvals, we expect to complete the deal in the first half of 2011.

In June, we also announced an acquisition to increase our presence in Kazakhstan, a fast-growing economy with important trade links to mainland China.

Maintaining our funding strength

One of the key lessons to emerge from the financial crisis was the critical importance of stable liquidity. At HSBC, deposits have always been fundamental to everything we do and they remain the fuel for our future growth.

It is proof of our brand strength that - at a time of low interest rates and intense competition for savings - we increased customer deposit balances by three per cent to US\$1,147 billion during the period. The effect on our profits of low deposit spreads remains significant, but I believe HSBC is a bank well positioned to benefit from a progressive rise in interest rates. Just as important as the financial returns, our liquidity position means we can respond to new growth opportunities as soon as they emerge - not least in Asia, where our funding base is particularly strong.

Building a customer base for tomorrow

There is no greater opportunity for HSBC in Personal Financial Services than serving the needs of the world's 180 million mass affluent individuals. These customers are typically highly mobile, with significant cross-border requirements that play to our strengths as a global bank.

Premier is our flagship product for this sector and we are on track to build our customer base to six million by the end of 2011. In June, the monthly increase in Premier customer numbers reached 100,000 and, at the end of the period, total numbers reached 3.9 million. Revenues from Premier customers can be over four times that generated by a standard account in the current interest rate environment. Furthermore, wealth management products account for an increasing proportion of Premier revenues, highlighting our ability to manufacture and deliver a full suite of products of real value to affluent customers over their lifetimes. Looking to the longer term, we have now also launched Advance in 22 countries, an international proposition for the next generation of potential Premier customers.

As trade volumes recover and the direction of global investment shifts, international business customers have continued to turn to HSBC and to benefit from our global scale and connectivity across the world's emerging and developed markets. In Commercial Banking, international customers typically generate more than double the revenues of domestically focused companies and we grew this customer base by 16 per cent. Building relationships with small and medium-size companies is also core to our future growth strategy, and we increased these customer numbers by three per cent to 3.3 million, with 84 per cent of new customers in emerging markets.

Within Global Banking and Markets, we are focusing on building broad-based relationships with those international customers where we are best equipped to meet their full range of financial needs and we have the greatest opportunity to grow revenues. Working together, Private Banking and Global Banking and Markets launched a family office partnership to provide better, more holistic relationship management, for our wealthiest clients. Private Banking also continued to focus on developing business in emerging markets and was recognised as 'Best Global Wealth Manager' by Euromoney in July.

Building sustainable revenue streams for the future

With a very clear understanding of our customers and their future needs, we are carefully developing our range of products and services in response. We are targeting those areas where we know HSBC has distinctive strengths, where the revenue opportunity is big enough to make a difference and where the risk-adjusted returns are most attractive.

Expanding our wealth management offering

People in most of our key markets are living longer and demanding longer-term financial products, presenting great opportunities to grow our wealth management business. We are increasing share in key markets including Hong Kong, the UK and Canada and developing new products to meet the needs of our Premier customers. In 2009, we launched World Selection, a dynamically managed multi-manager fund product, bringing a diverse range of international assets to our local retail customers. In the first half of 2010, we extended the product to 21 countries and increased funds under management by 59 per cent to US\$4.1 billion. We also launched five new Exchange Traded Funds ('ETF's) and, in July, announced the launch of our first emerging market ETF for Brazil as we continue to make low-cost access to global markets available for our retail customers.

Building our emerging market insurance platforms

As growth in demand for insurance in emerging markets accelerates, we are investing for the future with encouraging success, particularly in Asia and Latin America. Our ambition is to be the leading international bancassurer in Asia within the next decade.

We have already built a leading life insurance business in Hong Kong through our integrated bancassurance strategy. In mainland China, HSBC Life has grown rapidly within its first year of operation. In India, our joint venture with Canara Bank and Oriental Bank of Commerce is a top 12 international insurer in the country after two years of operation. Our commitment to Asia was further underlined in January when we increased our investment in Vietnam - one of the fastest-growing ASEAN economies - by increasing our stake in Bao Viet Holdings from ten to 18 per cent.

In Latin America, sales of insurance products increased and we continued to tailor our proposition to different customer segments and successfully launched new products in Mexico and Brazil.

Extending our leadership in international trade

International trade is set to grow faster than GDP for the foreseeable future and our own research shows that the trade finance needs of most mid-sized companies are growing quickly. Thanks to our global connectivity and local knowledge, we are meeting these needs. HSBC's export-related trade volume continued to grow steadily and we progressively gained market share during the period.

To support the growing flows between emerging and developed economies, we are moving the right people and skills to the right places and, as the leading international emerging markets bank, we are particularly well placed to support the growing flows of 'South-South' trade. In Commercial Banking, we are seeing a rapid increase in trade flows between Latin America and mainland China and we are transferring bankers from Europe, the US and Latin America to mainland China and Hong Kong. In Global Banking, we transferred bankers from our Latin American operations into HSBC offices in mainland China, and set up a reciprocal China desk in Brazil.

Capturing the outflows from mainland China

I believe that the re-emergence of China's economy will drive the biggest change to global trade patterns in the generation ahead. We expect mainland China's total trade flows with the rest of the world to grow by some 13 per cent a year over the next five years to US\$5 trillion.

Mainland Chinese companies expanding overseas accounted for about half of new customer growth in Commercial Banking in Hong Kong over the past twelve months. We also aim to be the pre-eminent

international bank in renminbi trade, settlement and bond issuance, as regulations change and the offshore renminbi market gradually develops. In Hong Kong, HSBC had a significant share of the cross-border clearance market and we expect to grow this further in the second half of the year. In June, we executed the first cross-border renminbi transaction in the UK and we aspire to be the first international bank to execute transactions across six continents. In July, we also acted as sole bookrunner and lead manager for the first ever offshore renminbi certificate of deposit issue, which provides a new investment vehicle for market participants to manage portfolio risk.

Building out our equity platform

Over the past 15 years, HSBC has built a world-class debt capital market platform in the world's faster-growing markets, something

EuroMoney

recognised when they named us 'Best Global Emerging Markets Debt House' in July. We are now leveraging these customer relationships and building out our equities platform in a co-ordinated and selective way across Advisory, Equity Capital Markets, Research and Distribution. We are expanding in Hong Kong, mainland China, India, the Middle East, Brazil and Mexico and developing our European business in the UK, France and Germany. This will enable us to deliver a comprehensive range of Equities products to key institutional clients and personal, commercial and private banking customers alike. During the period, we made key hires, continued to invest in our trading and infrastructure platform, and gained market share in Asia and Europe.

Growing our leadership in Islamic finance

Islamic finance is a fast-developing industry, currently growing at over 20 per cent a year. HSBC Amanah represents the largest and most comprehensive Islamic proposition of any international bank, with successful operations in the UK, the Middle East and Asia-Pacific. We continued to expand our product range across our customer groups and we were delighted to be recognised as

EuroMoney

's 'Best International Islamic Bank' and 'Best Sukuk House' in 2010. In the first half of the year, we were the global lead underwriter for sukuk and we launched an Amanah Premier proposition in four markets in the Middle East and two markets in Asia-Pacific. In July, we opened our first Amanah-only branch in Qatar, the fourth country in which we have established dedicated branches to serve the full range of Islamic banking needs.

Transforming our business infrastructure

Of course, investment in building relationships and expanding our products and services will not be successful unless we continuously invest to improve customer service and deliver greater efficiency.

Above all, we are delivering a better and more consistent experience for our customers. This year, we will refresh, refurbish or expand over 1,000 branches including more than 200 in the UK, and we have begun a three-year programme to invest over US\$500 million in our Latin American branch network. We have taken the first steps towards improving the account opening experience across our retail businesses which will, over time, free our staff to focus directly on customer needs.

We are also investing in adding front-line staff, to improve relationship management and drive future sales growth. In Personal Financial Services, we aim to recruit 1,000 additional relationship managers and other customer-facing staff this year to support the development of Premier. In Private Banking, we have begun a three-year programme to add up to 500 customer-facing staff covering key markets in Asia, Latin America

and the Middle East. In Commercial Banking, we are recruiting up to 500 relationship managers and business specialists to drive business expansion in Brazil and Mexico.

At the same time, we are transforming our operations to create a more efficient, better connected bank. In Latin America, we are joining up our sites across the region so we can better compete with bigger local competitors. One example is the centralisation of our trade operations in Panama, which has allowed us to deliver a better, more consistent customer experience across a number of countries. We have adopted a new collections call model, allowing us to export our best practice in the US across the Group and, in the Middle East, this has led to a 40 per cent reduction in the number of outbound calls.

We also continued to improve our direct channels. As a result, one million small and medium-size business customers used our Business Internet Banking platform and we grew the number of users of our online platform for larger commercial customers, HSBCnet, by 17 per cent to 55,000.

Thanks to these important initiatives and the dedication and focus of all of our staff, we are making measurable progress in improving customer satisfaction. Among Business Banking customers, we have exceeded our brand health scores in a number of key markets.

Meanwhile, among our Personal Financial Services customers, our ambition is to achieve a top three ranking for customer recommendation in all 15 markets that we track.

We are already

in the top three for nine of these markets. A

ll of this is helping to reinforce the strength of our brand and we were delighted to be named the top banking brand by

Brand Finance

for the third year running in 2010.

Well positioned for the shifting economy and for regulatory change

Global demand will remain constrained as long as we face the likelihood of anaemic growth in various Western nations. But while these economies come to terms with austerity, we remain bullish on the outlook for emerging markets - both short and long-term. Some cooling off is possible, however I am confident that the authorities in leading economies like China can and will continue to deliver sustainable growth and support domestic demand.

Regulatory change is now beginning to move up a gear, and HSBC's capital strength positions us strongly for change. HSBC is preparing for a period which will be characterised by further intense public and political scrutiny of banks in the West and a complex compliance environment with a higher level of intervention by regulators. Meanwhile, finalising the shape of the global regulatory framework remains the most urgent challenge for the industry and its supervisors. Greater clarity is required, however reform is clearly moving in the right overall direction. Our collective responsibility now is to get the details and the timetable right so trade and capital can flow freely and banks are able to play their full part in financing these flows and supporting economic growth.

The West is realising that it does not have all the answers and the commitment of the G20 in driving forward the reform agenda is promising, with policymakers in emerging markets playing an increasing part. We believe it is essential that all G20 members participate according to the same rules, otherwise we will end up with an uneven playing field that looks very different depending on where a company is headquartered. In a global marketplace where businesses and people are mobile, one country cannot afford to pursue its own particular policy agenda without considering the possible unintended consequences for the wider economy.

Finally, we believe that HSBC's results over the past decade - and throughout the latest crisis - prove that a well-balanced, universal banking model of scale really works. We have weathered the storms in different regions and in different sectors precisely because our business is large, broad and diverse. As we continue to debate the shape of the regulatory framework, it remains our view that the financial system needs banks which are 'big enough to cope.' Soundly-managed universal banks not only contribute to financial stability - but are also best placed to support economic growth by meeting the full range of customer needs in our globalised, connected world.

1

Return on average invested capital is based on the profit attributable to ordinary shareholders. Average invested capital is measured as average total shareholders' equity after adding back goodwill previously written-off directly to reserves, deducting average equity preference shares issued by HSBC Holdings and deducting/(adding) average reserves for unrealised gains/(losses) on effective cash flow hedges and available-for-sale securities. This measure reflects capital initially invested and subsequent profit.

1. Basis of preparation

The basis of preparation applicable to the interim consolidated financial statements of HSBC can be found in Note 1 of the Interim Report 2010

The interim consolidated financial statements of HSBC have been prepared in accordance with the Disclosure Rules and Transparency Rules of the Financial Services Authority and IAS 34 'Interim Financial Reporting' ('IAS 34') as issued by the International Accounting Standards Board ('IASB') and as endorsed by the EU.

The consolidated financial statements of HSBC at 31 December 2009 were prepared in accordance with International Financial Reporting Standards ('IFRSs') as issued by the IASB and as endorsed by the EU. EU endorsed IFRSs may differ from IFRSs as issued by the IASB if, at any point in time, new or amended IFRSs have not been endorsed by the EU. At 31 December 2009, there were no unendorsed standards

effective for the year ended 31 December 2009 affecting the consolidated financial statements at that date, and there was no difference between IFRSs endorsed by the EU and IFRSs issued by the IASB in terms of their application to HSBC. Accordingly, HSBC's financial statements for the year ended 31 December 2009 were prepared in accordance with IFRSs as issued by the IASB.

At 30 June 2010, there were no unendorsed standards effective for the period ended 30 June 2010 affecting these interim consolidated financial statements, and there was no difference between IFRSs endorsed by the EU and IFRSs issued by the IASB in terms of their application to HSBC.

IFRSs comprise accounting standards issued by the IASB and its predecessor body as well as interpretations issued by the International Financial Reporting Interpretations Committee ('IFRIC') and its predecessor body.

During the period ended 30 June 2010, HSBC adopted the revised IFRS 3 'Business Combinations' and the amendments to IAS 27 'Consolidated and Separate Financial Statements'. Further details of this revised standard and amendments are provided in Note 1(a) of the Interim Report 2010

. In addition to the above, HSBC adopted a number of standards and interpretations, and amendments thereto which had an insignificant effect on the consolidated financial statements.

2. Dividends

The Directors have declared a second interim dividend in respect of the financial year ending 31 December 2010 of US\$0.08 per ordinary share, a distribution of approximately US\$1,401 million. The second interim dividend will be payable on 6 October 2010 to holders of record on 19 August 2010 on the Hong Kong Overseas Branch Register and 20 August 2010 on the Principal Register in the United Kingdom or the Bermuda Overseas Branch Register.

The dividend will be payable in cash, in US dollars, sterling or Hong Kong dollars, or a combination of these currencies, at the forward exchange rates quoted by HSBC Bank plc in London at or about 11.00 am on 27 September 2010, and with a scrip dividend alternative. Particulars of these arrangements will be mailed to shareholders on or about 1 September 2010 and elections must be received by 22 September 2010. As this dividend was declared after the balance sheet date, it has not been included in 'Other liabilities' at 30 June 2010.

The dividend will be payable on ordinary shares held through Euroclear France, the settlement and central depository system for Euronext Paris, on 6 October 2010 to the holders of record on 20 August 2010. The dividend will be payable in cash, in euros at the exchange rate quoted on 27 September 2010, and with a scrip dividend alternative. Particulars of these arrangements will be announced through Euronext Paris on 16 August 2010 and 25 August 2010.

The dividend will be payable on American Depositary Shares ('ADSs'), each of which represents five ordinary shares, on 6 October 2010 to holders of record on 20 August 2010. The dividend of US\$0.40 per ADS will be payable in cash, in US dollars, and with a scrip dividend alternative of new ADSs. Particulars of these arrangements will be mailed to holders on or about 1 September 2010. Elections must be received by the depository on or before 15 September 2010. Alternatively, the cash dividend may be invested in additional ADSs for participants in the dividend reinvestment plan operated by the depository.

HSBC Holdings' ordinary shares will be quoted ex-dividend in London, Hong Kong, Paris and Bermuda on 18 August 2010. The ADSs will be quoted ex-dividend in New York on 18 August 2010. On 15 July 2010, HSBC paid a further coupon on the capital securities of US\$0.508 per security, a distribution of US\$45 million. No liability is recorded in the balance sheet at 30 June 2010 in respect of this coupon payment.

Dividends per ordinary share expressed as a percentage of basic earnings per ordinary share.

Basic earnings per ordinary share was calculated by dividing the profit attributable to ordinary shareholders of the parent company by the weighted average number of ordinary shares outstanding, excluding own shares held. Diluted earnings per ordinary share was calculated by dividing the basic earnings, which require no adjustment for the effects of dilutive potential ordinary shares, by the weighted average number of ordinary shares outstanding, excluding own shares held, plus the weighted average number of ordinary shares that would be issued on conversion of dilutive potential ordinary shares.

The UK corporation tax rate applying to HSBC was 28 per cent (2009: 28 per cent). Overseas tax included Hong Kong profits tax of US\$426 million (first half of 2009: US\$416 million; second half of 2009:

US\$367 million). Subsidiaries in Hong Kong provided for Hong Kong profits tax at the rate of 16.5 per cent (2009: 16.5 per cent) on the profits for the period assessable in Hong Kong. Other overseas subsidiaries and overseas branches provided for taxation at the appropriate rates in the countries in which they operate. The following table reconciles the overall tax expense which would apply if all profits had been taxed at the UK corporation tax rate:

14. Litigation

Bernard L. Madoff Investment Securities LLC

As referred to in the

Annual Report and Accounts 2009

, on 29 June 2009 Bernard L. Madoff ('Madoff') was sentenced to 150 years in prison following his guilty plea to fraud and other charges. The relevant US authorities are continuing their investigations into the fraud, and have brought charges against others, including several employees of Bernard L. Madoff Investment Securities LLC ('Madoff Securities') as well as its external auditor. Some details of the fraud have come to light as a result of these and other investigations and proceedings; however, significant uncertainty remains as to the facts of the fraud and the total amount of assets that will ultimately be available for distribution by the Madoff Securities trustee.

Various non-US HSBC companies provide custodial, administration and similar services to a number of funds incorporated outside the US whose assets were invested with Madoff Securities. Based on information provided by Madoff Securities, as at 30 November 2008, the aggregate net asset value of these funds (which would include principal amounts invested and unrealised gains) was US\$8.4 billion. Proceedings concerning Madoff and Madoff Securities have been issued by different plaintiffs (including funds, fund investors, and the Madoff Securities trustee) in various jurisdictions against numerous defendants and HSBC expects further proceedings may be brought. Various HSBC companies have been named as defendants in suits in the US, Ireland, Luxembourg, and other jurisdictions. All of the cases where HSBC companies are named as a defendant are at an early stage. HSBC considers that it has good

defences to these claims and will continue to defend them vigorously. HSBC is unable reliably to estimate the liability, if any, that might arise as a result of such claims.

Various HSBC companies have also received requests for information from various regulatory and law enforcement authorities in connection with the fraud by Madoff. HSBC companies are co-operating with these requests for information.

Other litigation

These actions apart, HSBC is party to legal actions in a number of jurisdictions including the UK, Hong Kong and the US arising out of its normal business operations. HSBC considers that none of the actions is material, and none is expected to result in a significant adverse effect on the financial position of HSBC, either individually or in the aggregate. Management believes that adequate provisions have been made in respect of the litigation arising out of its normal business operations. HSBC has not disclosed any contingent liability associated with these legal actions because it is not practical to do so.

15. Events after the balance sheet date

On 2 July 2010, the Group entered into an agreement to acquire The Royal Bank of Scotland Group plc's retail and commercial banking businesses in India. The total consideration will comprise a premium of up to US\$95 million over the net asset value of the businesses being acquired. The purchase price will be reduced in respect of 90 per cent of any credit losses incurred on the unsecured lending portfolio in the two years subsequent to completion. The initial consideration paid will be reduced by an estimate of these losses with an adjustment to reflect the actual losses at the end of the 2 year protection period. The acquisition is subject to regulatory approvals and is expected to be completed in the first half of 2011.

On 28 July 2010 HSBC agreed in principle the sale of the remaining US consumer finance run-off portfolio of vehicle finance loans. The carrying amount of the loans at 30 June 2010 was US\$4.3 billion. The transaction is expected to be completed in the second half of 2010.

A second interim dividend for the financial year ending 31 December 2010 of US\$0.08 per ordinary share (approximately US\$1,401 million) was declared by the Directors after 30 June 2010. The second interim dividend will be payable on 6 October 2010 to holders of record on 19 August 2010 on the Hong Kong Overseas Branch Register and 20 August 2010 on the Principal Register in the United Kingdom or the Bermuda Overseas Branch Register.

16. Forward-looking statements

This media release contains certain forward-looking statements with respect to the financial condition, results of operations and business of HSBC. These forward-looking statements represent HSBC's expectations or beliefs concerning future events and involve known and unknown risks and uncertainty that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. Certain statements, such as those that include the words 'potential', 'estimated', and similar expressions or variations on such expressions may be considered 'forward-looking statements'.

17. Statutory accounts

The information in this media release does not constitute statutory accounts within the meaning of Section 434 of the Companies Act 2006. The

Interim Report 2010

was approved by the Board of Directors on 2 August 2010. The statutory accounts for the year ended 31 December 2009 have been delivered to the Registrar of Companies in England and Wales in accordance with Section 447 of the Companies Act 2006. The auditor has reported on those accounts. Its report was unqualified: did not include a reference to any matters to which the auditors drew attention by way of emphasis without qualifying their report; and did not contain a statement under Section 498(2) or (3) of the Companies Act 2006.

The information in this media release does not constitute the unaudited interim consolidated financial statements which are contained in the

Interim Report 2010

. The unaudited interim consolidated financial statements have been reviewed by the Company's auditor, KPMG Audit Plc, in accordance with the guidance contained in the International Standard on Review Engagements (UK and Ireland) 2410: Review of Interim Financial Information Performed by the Independent Auditor of the Entity issued by the Auditing Practices Board. On the basis of its review, KPMG Audit Plc was not aware of any material modifications that should be made to the unaudited consolidated financial statements as presented for the six months ended 30 June 2010 in the

Interim Report

to the shareholders. The full report of its review is included in the

Interim Report 2010

.

18. Dealings in HSBC Holdings plc shares

Except for dealings as intermediaries by HSBC Bank plc, HSBC Financial Products (France) SNC and The Hongkong and Shanghai Banking Corporation Limited, which are members of a European Economic Area exchange, neither HSBC Holdings plc nor any subsidiary undertaking has bought, sold or redeemed any securities of HSBC Holdings plc during the six months ended 30 June 2010.

19. Registers of shareholders

Any person who has acquired shares registered on the Hong Kong Overseas Branch Register but who has not lodged the share transfer with the Hong Kong Overseas Branch Registrar should do so before 4.00 pm on Thursday 19 August 2010 in order to receive the second interim dividend for 2010.

Any person who has acquired shares registered on the Principal Register in the United Kingdom or on the Bermuda Overseas Branch Register of shareholders but who has not lodged the share transfer with the Principal Registrar or the Bermuda Overseas Branch Registrar respectively, should do so before 4.00 pm on Friday 20 August 2010 in order to receive the dividend.

Removals of ordinary shares may not be made to or from the Hong Kong Overseas Branch Register on Friday 20 August 2010. Accordingly any person who wishes to remove shares to the Hong Kong Overseas Branch Register must lodge the removal request with the Principal Registrar in the United Kingdom or the Bermuda Branch Registrar by 4.00 pm on Wednesday 18 August 2010; any person who wishes to remove shares from the Hong Kong Overseas Branch Register must lodge the removal request with the Hong Kong Branch Registrar by 4.00 pm on Thursday 19 August 2010.

Transfers of American Depositary Shares should be lodged with the depositary by 12 noon on Friday 20 August 2010 in order to receive the dividend.

20. Proposed interim dividends for 2010

The Board has adopted a policy of paying quarterly dividends on the ordinary shares. Under this policy it is intended to have a pattern of three equal interim dividends with a variable fourth interim dividend. The proposed timetables for dividends payable on the ordinary shares in respect of 2010 that have not yet been declared are:

| | Third interim dividend for 2010 | Fourth interim dividend for 2010 |
|---|--|---|
| Announcement | 1 November 2010 | 28 February 2011 |
| Shares quoted ex-dividend in London, Hong Kong, Paris and Bermuda | 17 November 2010 | 16 March 2011 |

| Record date in Hong Kong | 18 November 2010 | 17 March 2011 |
| Record date in London, New York, Paris and Bermuda ¹ | 19 November 2010 | 18 March 2011 |
| Payment date | 12 January 2011 | 5 May 2011 |

1

Removals to and from the Overseas Branch Register of shareholders in Hong Kong will not be permitted on these dates.

21. Final results

The results for the year to 31 December 2010 will be announced on Monday 28 February 2011.

22. Corporate governance

HSBC is committed to high standards of corporate governance.

HSBC Holdings has complied throughout the six months to 30 June 2010 with the applicable code provisions of the Combined Code on Corporate Governance issued by the Financial Reporting Council and the Code on Corporate Governance Practices in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The Board of HSBC Holdings has adopted a code of conduct for transactions in HSBC Group securities by Directors. The code of conduct complies with The Model Code in the Listing Rules of the Financial Services Authority and with The Model Code for Securities Transactions by Directors of Listed Issuers ('Hong Kong Model Code') set out in the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, save that The Stock Exchange of Hong Kong Limited has granted certain waivers from strict

compliance with the Hong Kong Model Code. The waivers granted by The Stock Exchange of Hong Kong Limited primarily take into account accepted practices in the UK, particularly in respect of employee share plans. Following specific enquiry, each Director has confirmed he or she has complied with the code of conduct for transactions in HSBC Group securities throughout the period.

There have been no material changes to the information disclosed in the Annual Report and Accounts 2009

in respect of the number and remuneration of employees, remuneration policies bonus and share option plans and training schemes.

The Directors of HSBC Holdings plc as at the date of this announcement are:

S K Green, M F Geoghegan, S A Catz†, V H C Cheng, M K T Cheung†, J D Coombe†, R A Fairhead†, D J Flint, A A Flockhart, S T Gulliver, J W J Hughes-Hallett†, W S H Laidlaw†, J R Lomax†, G Morgan†, N R N Murthy†, Sir Simon Robertson†, J L Thornton† and Sir Brian Williamson†.

†
Independent non-executive Director

The Group Audit Committee has reviewed the results for the six months to 30 June 2010.
